Part II: Regionally Coordinated Homelessness Action Plan

2.1 Participating Jurisdictions' Roles and Responsibilities

1. **First** identify and describe the specific roles and responsibilities of **each participating Eligible Applicant** in the region regarding:
 - a. Outreach and site coordination;
 - b. Siting and use of available land;
 - c. Development of interim and permanent housing options; and
 - d. Coordination and connection to the delivery of services for individuals experiencing or at risk of experiencing homelessness within the region.
2. **Then** describe and explain how all collaborating Eligible Applicants in the region are coordinating in each area.

Optional: You may also include roles and responsibilities of small jurisdictions in the region that elect to engage and collaborate on the plan.

Guidance

Each jurisdiction must identify and describe their role in the region for each table.

To add additional Jurisdictions, add rows to the bottom of each table.

Outreach and Site Coordination

Participating Jurisdictions	Role(s) and Responsibilities in Outreach and Site Coordination
Continuum of Care (CoC)	Several CoC homeless provider agencies have also engaged regularly in street outreach activities. Providers conduct routine mobile outreach and client service engagement for homeless individuals and families who are unsheltered. These teams focus on targeted homeless populations, but also provide services to the hardest to reach or service resistant individuals, commonly those with severe service needs. The CoC seeks to: <ul style="list-style-type: none">• Develop workshop that trains agencies and providers on how to request and utilize funding, provide services, and ensure accurate data entry.• Provide resource info, cards, and other marketing materials while doing outreach.• Follow up with CBOs to ensure they provided care/services.

San Bernardino County

The County employs several outreach approaches. The County's Sheriff's Department has implemented the Homeless Outreach Proactive Enforcement (HOPE) Team. The HOPE Team is the County's main pro-active approach intended to ultimately reduce calls for service and other resources currently required to deal with the homeless population. A community, client-based philosophy will be used to link the homeless population with resources and service providers throughout the county. The objective is to stop the revolving door of arrest, incarceration, and then release regarding homeless related crimes to stabilize individuals with severe service needs. The County also has the Mental Health Services Act (MHSA) Innovative Remote Onsite Assistance Delivery (InnROADs) program which provides a multi-disciplinary approach to homeless outreach. Aside from these teams, the County seeks to explore:

- Developing a county directory/guide specific for homeless services to assist with linking client to correct providers for services sort of "Homeless Services Yellow Pages."
- Developing policy that guides departments and agencies to walk clients through processes instead of just providing referrals.
- Developing Information Center for obtaining and retaining services.

Given the individual roles and responsibilities identified above, describe and explain how all participating jurisdictions are or will begin to coordinate these efforts to ensure comprehensive outreach and site coordination to individuals experiencing and at-risk of experiencing homelessness in the region.

The CoC and the County are committed to systematically addressing homelessness and access to services sought out by individuals with severe service needs who are homeless due to their mental illness, substance use disorder, disability, and other critical barriers.

The Collaborative Applicant of the CoC, the Office of Homeless (OHS) has launched projects to improve, expand, enhance, and augment the local homeless response system with the goal of maximizing and expediting the number of unsheltered individuals assisted out of homelessness. OHS is in the process of developing a Coordinated Outreach Resources and Engagement (CORE) Program consisting of street outreach and engagement teams that would meet frequently to ensure street outreach and engagement is nimble enough to regularly engage homeless individuals in a timely manner by appropriate street outreach teams. The following actions will be implemented through this approach:

- SBC/OHS collaborates with other agencies (i.e., The HOPE Team) to develop/update a resource guide.
- OHS will start the CoC meetings in March (Two mtgs per yr) to streamline communication between County and CoC, discussing:
 - Funding available from the Inland Empire Health Plan (IEHP), but no projects or needs mentioned to utilize funding.
 - Community based organizations (CBOs) have been attempting to share their needs and funding needed.
- Walking through services/warm hand-offs.
- Restructure CoCs and market services, resources, and options, educate and provide awareness of the agencies (i.e., the San Bernardino County Interagency Council on Homelessness (ICH), CoC, the Homeless Provider Network (HPN), etc.) involved.
- Mixed use of housing, low income, and high-income housing.
- Bring education and awareness to County structure, support outreach teams with additional development countywide, have universal case management.

Land Use and Development

Participating Jurisdictions	Role(s) and Responsibilities in land use and development
CoC	Non-Profit Developers, Faith Based Organizations, Cities-fr zoning, Social Services Depts., and cities, provide training to the providers at their locations, identify available land and viability of the property, gather CBO information, support social aspect of people management providing SBC with information needed to work with cities and assist with development of policy, collaborate with other agencies to provide a “graduate type” of program.
San Bernardino County	Fire Department, Public Works, Sheriff, Community Development and Housing (CDH), the Office of Homeless Services (OHS), the County Administrative Office (CAO), the Board of Supervisors (BOS), Real Estate Services, Workforce Department streamline building processes, identify developers of the land, work with clients and cities to establish multiple ways to house clients, collaborate with cities to determine which cities should participate in developing permanent supportive housing (PSH), have masterclasses.

Given the individual roles and responsibilities identified above, describe and explain how all participating jurisdictions are or will begin to coordinate these efforts to use and develop available land to address and end homelessness in the region.

For effective land use planning and affordable housing development, the essential ingredient is collaboration between intrinsic jurisdictions, in this case the County and the CoC. Land use development varies based on the scope of the project. The region understands land use planning is a vital part of the development process, where jurisdictions can jointly develop realistic plans to assist in appropriate land use development. These actions will incorporate coordination between contractors, regulatory agencies, utilities, and other entities. Some of the efforts, aside from zoning laws will include:

- Streamline process for land use.
- Training for churches.
- Hotel/motel conversion.
- Wellness Center by jail.
- Cities and Counties invest in properties to run programs such as Mary's House.
- Housing with programs for permanent housing, graduation programs, steps to independence.
- Collaboration for transportation, job training, re-integrate people at a slower level.
- Have Social Services departments provide "step-down" programs (graduation to independence).
- OHS work with cities to collaborate in establishing long term housing.
- Hire consultants with real estate backgrounds to identify potential land space.
- Consider alternative housing plans (subsidized) with steppingstones such as:
 1. Living in dorms on campus
 2. Independent apartments on campus
 3. Independent housing
- Create campuses-work/living spaces and offer training on the campuses.
- Work with each city in the county to develop a housing agency for the city.
- Have clients housed in commercial areas close to areas where work is plentiful such as around areas with Amazon warehouses.
- Get feedback from the participants on what type of housing they need/want for long term solutions.
- CoCs will provide training to service providers at the location to teach them how to turn liabilities into assets.
- Develop a plan to get from start to finish within 18 months (due to new law effective 1/1/24).
- Utilize CoC meetings to communicate with agencies, these meetings will start in March to obtain information from CBOs.
- Market to and survey clients.
- Explore universal/countywide CoC principles.
- Support existing successful outreach teams and provide them with a platform to collaborate.
- Host more CoC meetings, provide guidance for how to apply for funding, give a "Call to Action" for housing.
- Challenge the thought process, streamline city processes, get an ordinance.

Development of Interim and Permanent Housing Options

Participating Jurisdictions	Role(s) and Responsibilities in development of interim and permanent housing options
-----------------------------	--

CoC	Various agencies assess every program available; cities should have their own housing department/authority based on the needs of their population, Masterclass in how to develop and run a Wellness Center (Victorville), Utilize every program/apply for all funding/voucher programs available, identify areas with high homeless population/concentration and filter information for who would be most benefits by services, good candidates for additional options
San Bernardino County	Increase Housing Authority branches programs based on the Point in Time (PIT) Count and have each branch responsible for their own population/region. Get vouchers for the regions/cities based on the PIT for each branch to service their communities, have Housing Authority branches determine the fair market rate for vouchers based on their region/jurisdiction and allocate voucher use to areas where housing is available (this would require partnership with other cities/regions)

Given the individual roles and responsibilities identified above, describe and explain how all participating jurisdictions are or will begin to coordinate these efforts to develop adequate interim and permanent housing options to address and end homelessness in the region.

Coordination of and Connection to Service Delivery

Both the CoC and County will work local municipalities for a regionwide analysis of all resources available to local governments, non-profits, and faith-based organizations using an asset mapping approach. This will involve various for profit, non-profit developers, and the local Housing Authority of the County of San Bernardino. The key will be to focus on smaller solutions, such as unaccompanied women, veterans, or youth to make headway into solving homelessness. Identifying all funding and housing options available to cities with high homeless and at-risk populations will be crucial for understanding the amount of housing options available in each community.	
Participating Jurisdictions	Role(s) and Responsibilities in connection to service Delivery
CoC	IEHP and Inland SoCal United Way 211 update to their services from just information to include case managers and follow-up with the clients after referrals/information is provided, have a team process at 211, provide more resources for the operators to offer more than referrals, Superintendent of Schools, Molina, Kaiser, cities, various agencies participate in the discussions and planning, re-develop process from referrals only to referrals and follow-up, some case managing, have basic knowledge to provide to Housing Authority to properly guide people that contacts the CoC.
San Bernardino County	Public Health and the Housing Authority use flow chart to connect clients to programs, OHS, Animal Control, the Department of Behavioral Health (DBH), the Transitional Assistance Department (TAD), Sheriff participates on the Board and implements policy, suggests collaborative efforts.

Given the individual roles and responsibilities identified above, describe how all participating jurisdictions are or will begin to coordinate to provide the full array of services, including interim and permanent housing solutions to people experiencing and at-risk of experiencing homelessness in the region.

San Bernardino County and the CoC have been coordinating services and service delivery connections jointly for over a decade. The partnership has assisted in placing hundreds of individuals in housing, primarily through connections to mainstream services. The local Homeless Veterans Community Planning Group has assisted almost 2,000 individuals into housing since 2015, a partnership between the CoC and County. Some of the coordination activities provided through the local public sessions include:

- Who is doing what info needed to be able to know who is responsible for what.
- Transparency should be reflected through all connections and processes.
- Have the Housing Authority develop and implement a flow chart indicating where to direct clients to connect to programs.
- Have 211 update their services from just information to include case managers and follow-up with the clients after referrals/information is provided, have a team process at 211, provide more resources for the operators to offer more than referrals.
- Develop brochure with flow chart to market referrals/resources/services/programs, provide the brochure to departments that engage with the homeless and at-risk of homelessness populations.

2.2 System Performance Measures and Improvement Plan

1. **First** identify the most recent system performance measures for the region.
2. **Then** describe the key action(s) the region intends to take to improve each system performance measure.

Guidance

*Cal ICH shall provide each region with system performance measures by CoC, with the exception of the LA region, which will receive data from all four CoCs within LA County. Applicants must enter that data in the corresponding metrics fields in the application. Applicants should not adjust the data provided even if the geographic region of the data does not perfectly align with the participating applicant geography of this application. Regions must have **at least one** key action for **each** system performance measure. All columns must be filled out for each action. For "Funding Type" enter Federal, State, Local, or the unique funding source type. To add additional actions or racial equity measures, add rows to the bottom of each table.*

Note: While Cal ICH expects most of the disparities listed to be based on race or ethnicity, applicants may identify other populations that are also overrepresented among people experiencing homelessness in the region.

Definitions:

- **Key Action(s)** may include a brief description of a strategic initiative or step identified to address or improve the specific system performance measure. This can be a policy, program, partnership, target metric, or any other approach which reflects an improvement and delivers positive impact. Provide a clear description of the action and its intended outcome.
- **Lead Entity** should include the name of the regional Eligible Applicant responsible for managing the key action.
- **Collaborating Entity/ies** may include a group, organization, or jurisdiction within your region working to address or improve the system performance measure. This can be another participating jurisdiction, a system partner, or any organization actively participating in the key action.

- **Success Measurement Method** may include a systematic approach or tool used to assess the effectiveness and impact of the key action on the performance measure. This can be quantitative measures, qualitative feedback, or any combination that provides insight into the progress and outcomes pertaining to the key action. Provide a clear description of how you plan to track and report on the success of your key action.

Benefit Programs include, but are not limited to:

- CalWORKs

- In-home supportive services
- Adult protective services
- Child welfare
- Child care

Benefit Programs

Benefit Program	Connection Strategy/ies	Lead Entity	Collaborating Entity/ies
-----------------	-------------------------	-------------	--------------------------

CalWORKs	<p>The CalWORKs connection strategy was designed to identify households at risk by reviewing risk factors associated with homelessness and matching those households with access to appropriate mainstream services. The current strategy includes coordination with the local Temporary Assistance for Needy Families program (known in San Bernardino County as the Transitional Assistance Department (TAD), and the CES and CoC/ESG homeless service agencies that are funded to provide homeless prevention services. TAD implements CalWORKs to provide housing, food, utilities, medical care to eligible families, while simultaneously providing on the job training and work experience to the head of household. Many homeless service agencies in the region employ CalWORKs recipients as part of their nonprofit services.</p>	San Bernardino County Transitional Assistance Department	<ul style="list-style-type: none"> • The Continuum of Care (CoC) • Inland SoCal United Way 211+ (as the coordinated entry system [CES] lead agency) • County of San Bernardino • Countywide homeless service agencies
CalFresh	<p>The CalFresh connection strategy was designed to identify households at risk by reviewing risk factors associated with food insecurity and matching those households with access to appropriate mainstream services. TAD implements CalFresh to provide food to eligible families. The current strategy includes coordination with TAD, and the CES and CoC/ESG homeless service agencies to refer to CalFresh,</p>	San Bernardino County Transitional Assistance Department	<ul style="list-style-type: none"> • The Continuum of Care (CoC) • Inland SoCal United Way 211+ (as the coordinated entry system [CES] lead agency) • County of San Bernardino • Countywide homeless service agencies

Supplemental Security Income/State Supplemental Program (SSI/SSP) and disability benefits advocacy	<p>The region employs two major connection strategies aside from regular referrals through its mainstream services approach. San Bernardino County Office of Homeless Services (OHS), prior to online training services provided in-person SSI/SSDI Outreach, Access, and Recovery (SOAR) trainings to agencies in the Inland Empire. Agencies are now referred to complete the online training through the SOAR Technical Assistance (TA) Center. In addition, the OHS administers the local Housing Disability and Advocacy Program (HDAP) responsible for assisting people experiencing or at risk of homelessness who are likely eligible for disability benefits by providing advocacy for disability benefits as well as housing supports.</p>	<p>Office of Homeless Services</p>	<ul style="list-style-type: none"> • Inland County Legal Services • San Bernardino County TAD • Inland SoCal United Way 211+ (as the CES lead agency) • County of San Bernardino • Countywide homeless service agencies
In-home supportive services	<p>The Human Services Section of San Bernardino County oversees the In-Home Supportive Services (IHSS) department which offers in-home assistance to eligible aged, blind, and disabled individuals as an alternative to out-of-home care and enables recipients to remain safely in their own homes. IHSS has numerous connection strategies developed to assist providers and recipients with care delivery services. The IHSS Public Authority assists In-Home Caregivers with connections to training resources for caregivers (i.e., CPR, bedrest training, AED, nutrition, fall prevention, etc.), connections to the Department of Aging and Adult Services (DAAS), the local Community Action Partnership provider, and to the local continuum of care for outreach, prevention, and housing activities.</p>	<p>San Bernardino County IHSS</p>	<ul style="list-style-type: none"> • San Bernardino County DAAS and Adult Protective Services • San Bernardino County Children and Adult Services • Training partners (i.e., American Red Cross, Arrowhead Regional Medical Center, San Bernardino Community Hospital, etc.) • Senior Housing Provider Agencies • The local Continuum of Care

Adult protective services	<p>The local DAAS Adult Protective Services administers the local Home Safe program that supports the safety and housing stability of individuals who are experiencing, or at imminent risk of experiencing, homelessness due to elder or dependent adult abuse, neglect, self-neglect, or financial exploitation by providing housing-related assistance as part of an evidence-based connection strategy for homeless assistance and prevention. As part of the Home Safe program, DAAS is active in the Continuum of Care and refers clients through the CES for additional resources and connections to care.</p>	<p>San Bernardino County Department of Aging and Adult Services</p>	<ul style="list-style-type: none"> • The Continuum of Care (CoC) • Inland SoCal United Way 211+ (as the coordinated entry system [CES] lead agency) • County of San Bernardino • Countywide homeless service agencies
Child welfare	<p>There is exists several connection strategies by the San Bernardino County Children and Family Services Department (CFS), the local child welfare provider for the region. CFS is an active member of the Continuum of Care (CoC) and participates with the local public housing authority and the Office of Homeless Services, on behalf of the CoC, to administer the local family unification program (FUP) for homeless assistance to foster youth aging out of the system. CFS also administers HHAP funding to promote foster youth success in education, workforce development and access to permanent housing along with the Department of Behavioral Health and Probation. All CoC funded recipients are required to provide eligible transitional aged youth with referrals and connection to CFS.</p>	<p>San Bernardino County CFS</p>	<ul style="list-style-type: none"> • Housing Authority of the County of San Bernardino • San Bernardino County Department of Behavioral Health (DBH) • San Bernardino County Probation • The Continuum of Care (CoC) • Inland SoCal United Way 211+ (as the coordinated entry system [CES] lead agency) • County of San Bernardino • Countywide homeless service agencies

Childcare	The CoC has several connection strategies in place for childcare. Providing connections to childcare fulfills one of HUD's requirements for connection to mainstream services. By partnering with CalWORKs, CoC providers and County departments can refer eligible individuals to TAD for reimbursement of most or all of their childcare expenses for children from birth to 12 years old when the family meets program requirements. This includes finding a provider through services through Pomona Unified School District for West Valley placements and the Child Care Resource Center for all other locations. Many of the CoC funded agencies also pay for childcare services for their clients. Medi-Cal benefits through Managed Care Plans	Multiple connection strategies have been implemented within recent years by the local Medi-Cal managed care plan organization within the Inland Empire Region. These are part of a large collaboration with many County and nonprofit partners throughout the region. These include working with outreach teams to encourage Medi-Cal enrollment, Cal AIM programs, housing and homelessness incentive program, and other housing connection programs through various nonprofits throughout the Inland Empire. Also, Molina Healthcare, the other managed care plan organization was invited and encouraged to participate in the planning development sessions.</p>

Street medicine providers and other providers directly serving people experiencing homelessness or at risk of homelessness

To support the larger Inland Empire region, the local CoC and County reached out to Riverside County staff to help understand the roles and actions steps of our region through our sister county. In addition, several representatives from local elected officials attended the public sessions to incorporate input from a larger political perspective to help drive the region based on the needs of the voters. A local street medicine provider Health Care in Action participated in the public sessions. Health Care in Action provided services to patients experiencing homelessness through an innovative street medicine approach in partnership with various health plans and hospitals.
