18. Restrictions and Certifications Regarding Non-disclosure Agreements and Related Matters

No Subrecipients (and any Second-Tier Subrecipients) under this Grant Subaward, or entity that receives a procurement contract or subcontract with any funds under this Grant Subaward, may require any employee or contractor to sign an internal confidentiality agreement or statement that prohibits or otherwise restricts, or purports to prohibit or restrict, the reporting (in accordance with law) of waste, fraud, or abuse to an investigative or law enforcement representative of a federal department or agency authorized to receive such information.

The foregoing is not intended, and shall not be understood by the agency making this Grant Subaward, to contravene requirements applicable to Standard Form 312 (which relates to classified information), Form 4414 (which relates to sensitive compartmented information), or any other form issued by a federal department or agency governing the nondisclosure of classified information.

- a. In accepting this Grant Subaward, Subrecipients (and any Second-Tier Subrecipients):
 - 1) Represent that they neither require, nor have required, internal confidentiality agreements or statements from employees or contractors that currently prohibit or otherwise currently restrict (or purport to prohibit or restrict) employees or contractors from reporting waste, fraud, or abuse as described above; and
 - 2) Certify that, if they learn, or are notified, that they have, or have been, requiring their employees or contractors to execute agreements or statements that prohibit or otherwise restrict (or purport to prohibit or restrict), reporting of

waste, fraud, or abuse as described above, they will immediately stop any further obligations of Grant Subaward funds, will provide prompt written notification to Cal OES, and will resume (or permit resumption of) such obligations only if expressly authorized to do so by Cal OES.

b. If Subrecipients are authorized under this award to make Second-Tier Subawards, procurement contracts, or both:

1) Subrecipients represent that:

a) No other entity (whether through a Second-Tier Subaward ("subgrant"), procurement contract, or subcontract under a procurement contract) that they pass funds to either requires or has required internal confidentiality agreements or statements from employees or contractors that currently prohibit or otherwise currently restrict (or purport to prohibit or restrict) employees or contractors from reporting waste, fraud, or abuse as described above; and

b) Appropriate inquiry has been made, or otherwise Subrecipients have an adequate factual basis, to support this representation; and

2) If learned or notified that any Second-Tier Subrecipient, contractor, or subcontractor entity that receives funds under this Grant Subaward is, or has been, requiring its employees or contractors to execute agreements or statements that prohibit or otherwise restrict (or purport to prohibit or restrict), reporting of waste, fraud, or abuse as described above, they will immediately stop any further obligations of Grant Subaward funds to or by that entity, will provide prompt written notification to Cal OES, and will resume (or permit resumption of) such obligations only if expressly authorized to do so by Cal OES.

19. Reclassification of Various Statutory Provisions to a New Title 34 of the United States Code

On September 1, 2017, various statutory provisions previously codified elsewhere in the U.S. Code were editorially reclassified (that is, moved and renumbered) to a new Title 34, entitled "Crime Control and Law Enforcement." The reclassification encompassed a number of statutory provisions pertinent to OJP awards (that is, OJP grants and cooperative agreements), including many provisions previously codified in Title 42 of the U.S. Code.

Effective as of September 1, 2017, any reference in this award document to a statutory provision that has been reclassified to the new Title 34 of the U.S. Code is to be read as a reference to that statutory provision as reclassified to Title 34. This rule of construction specifically includes references set out in award conditions, references

set out in material incorporated by reference through award conditions, and references set out in other award requirements.

20. OJP Training Guiding Principles

Any training or training materials that the Subrecipient (and any Second-Tier Subrecipients) – develops or delivers with OJP award funds must adhere to the OJP Training Guiding Principle for Grantee and Subgrantees available at <https://ojp.gov/funding/Implement/TrainingPrinciplesForGrantees-Subgrantees.htm>.

21. All Grant Subawards must have Specific Federal Authorization

Subrecipients (and any Second-Tier Subrecipients) must comply with all applicable requirements for authorization of any Grant Subaward. This condition applies to agreements that – for purposes of federal grants administrative requirements – OJP considers a "Grant Subaward" (and therefore does not consider a procurement "contract").

The details of the requirement for authorization of any Grant Subaward are posted on the OJP website at <https://ojp.gov/funding/Explore/SubawardAuthorization.htm>.

22. Requirements Related to System for Award Management and Universal Identifier Requirements

Subrecipients (and any Second-Tier Subrecipients) must comply with applicable requirements regarding the System for Award Management (SAM), currently accessible at <https://www.sam.gov/>. This includes applicable requirements regarding registration with SAM, as well as maintaining the currency of information in SAM.

Subrecipients also must comply with applicable restrictions for Second-Tier Subawards, including restrictions on Grant Subawards to entities that do not acquire and provide (to Subrecipients) the unique entity identifier required for SAM registration.

The details of the Subrecipients' obligations related to SAM and to unique entity identifiers are posted on the OJP website at <https://ojp.gov/funding/Explore/SAM.htm>. (Award condition: System for Award Management (SAM) and Universal Identifier Requirements), and are incorporated by reference here.

This condition does not apply to a Grant Subaward to an individual who received the Grant Subaward as a natural person (i.e., unrelated to any business or non-profit organization that he or she may own or operate in his or her name).

23. Restrictions on "Lobbying"

In general, as a matter of federal law, federal funds awarded by OJP may not be used by Subrecipients (and any Second-Tier Subrecipients), either directly or indirectly, to support or oppose the enactment, repeal, modification, or adoption of any law, regulation, or policy, at any level of government. See 18 U.S.C. 1913. (There may be exceptions if an applicable federal statute specifically authorizes certain activities that otherwise would be barred by law.)

Another federal law generally prohibits federal funds awarded by OJP from being used by Subrecipients (and any Second-Tier Subrecipients), to pay any person to influence (or attempt to influence) a federal agency, a Member of Congress, or Congress (or an official or employee of any of them) with respect to the awarding of a federal grant or cooperative agreement, subgrant, contract, subcontract, or loan, or with respect to actions such as renewing, extending, or modifying any such award. See 31 U.S.C. 1352. Certain exceptions to this law apply, including an exception that applies to Indian tribes and tribal organizations.

Should any question arise as to whether a particular use of federal funds by a Subrecipient (or any Second-Tier Subrecipient) would or might fall within the scope of these prohibitions, the Subrecipient is to contact Cal OES for guidance, and may not proceed without the express prior written approval of Cal OES.

24. Specific Post-award Approval Required to Use a Noncompetitive Approach in any Procurement Contract that would Exceed \$250,000

Subrecipients (and any Second-Tier Subrecipients) must comply with all applicable requirements to obtain specific advance approval to use a noncompetitive approach in any procurement contract that would exceed the Simplified Acquisition Threshold (currently, \$250,000). This condition applies to agreements that – for purposes of federal grants administrative requirements – OJP considers a procurement "contract" (and therefore does not consider a subaward).

The details of the requirement for advance approval to use a noncompetitive approach in a procurement contract under an OJP award are posted on the OJP website at <https://ojp.gov/funding/Explore/NoncompetitiveProcurement.htm>.

25. Requirements Pertaining to Prohibited Conduct Related to Trafficking in Persons (including reporting requirements and OJP Authority to Terminate Grant Subaward)

Subrecipients (and any Second-Tier Subrecipients) must comply with all applicable requirements (including requirements to report allegations) pertaining to prohibited conduct related to the trafficking of persons, whether on the part of Subrecipients (and any Second-Tier Subrecipients), or individuals defined (for purposes of this condition) as "employees" of Subrecipients (and any Second-Tier Subrecipients).

The details of the Subrecipients' obligations related to prohibited conduct related to trafficking in persons are posted on the OJP website at <https://ojp.gov/funding/Explore/ProhibitedConduct-Trafficking.htm>. (Award condition: Prohibited conduct by recipients and subrecipients related to trafficking in persons (including reporting requirements and OJP authority to terminate award)), and are incorporated by reference here.

26. Reporting Potential Fraud, Waste, and Abuse, and Similar Misconduct

Subrecipients (and any Second-Tier Subrecipients) must promptly refer to Cal OES any credible evidence that a principal, employee, agent, Subrecipient, contractor, subcontractor, or other person has, in connection with funds under this Grant Subaward— (1) submitted a claim that violates the False Claims Act; or (2) committed a criminal or civil violation of laws pertaining to fraud, conflict of interest, bribery, gratuity, or similar misconduct.

Potential fraud, waste, abuse, or misconduct involving or relating to funds under this Grant Subaward must also be reported to Cal OES. Additional information is available from the DOJ OIG website at <https://oig.justice.gov/hotline>.

27. Limit on Use of Grant Funds for Grantees' Employees' Salaries

With respect to this Grant Subaward, federal funds may not be used to pay cash compensation (salary plus bonuses) to any employee of the Grant Subaward recipient at a rate that exceeds 110% of the maximum annual salary payable to a member of the federal government's Senior Executive Service (SES) at an agency with a Certified SES Performance Appraisal System for that year. (A Grant Subaward recipient may compensate an employee at a higher rate, provided the amount in excess of this compensation limitation is paid with non-federal funds.)

This limitation on compensation rates allowable under this Grant Subaward may be waived on an individual basis at the discretion of the OJP official indicated in the program announcement under which this Grant Subaward is made.

28. Uploading DNA Profiles to Combined DNA Index System (CODIS)

Subrecipients (and any Second-Tier Subrecipients) agree to upload eligible DNA profiles to Combined DNA Index System ("CODIS," the DNA database operated by the FBI) by a government DNA laboratory with access to CODIS if award funds are used for DNA testing of evidentiary materials. With the exception of Forensic Genetic Genealogy, no profiles generated under this award may be entered or uploaded into any non-governmental DNA database without prior express written approval from BJA. Award funds may not be used for the purchase of DNA equipment and supplies unless the resulting DNA profiles may be accepted for entry into CODIS. Booking agencies should work with their state CODIS agency to ensure all requirements are met for participation in Rapid DNA (see National Rapid DNA Booking Operational Procedures Manual).

29. Use of Funds for Forensic Genealogy Testing

Subrecipients (and any Second-Tier Subrecipients) agree to adhere to the United States Department of Justice Interim Policy Forensic Genealogical DNA Analysis and Searching (<https://www.justice.gov/olp/page/file/1204386/download>), and must collect and report the metrics identified in Section IX of that document to Cal OES when utilizing award funds for forensic genealogy testing must adhere to the United States Department of Justice Interim Policy Forensic Genealogical DNA Analysis and Searching (<https://www.justice.gov/olp/page/file/1204386/download>), and must collect and report the metrics identified in Section IX of that document to Cal OES.

30. Information and/or Data Requests

Subrecipients (and any Second-Tier Subrecipients) agree to cooperate with any assessments, national evaluation efforts, or information or data collection requests, including, but not limited to, the provision of any information required for the assessment or evaluation of any activities within this project.

31. Published Written and Web-based Materials

Subrecipients shall provide the Cal OES Program Specialist with a copy of any curricula, training materials, proposed publications, reports, or any other written materials that will be published, including web-based materials and website content, resulting from this Grant Subaward at least forty-five working days prior to the targeted dissemination date. Any written, visual, or audio publications, with the exception of press releases, whether published at the grantee's or government's expense, shall contain the following statements: "This project was supported by Grant No. CQ23 17 0360, awarded by the Bureau of Justice Assistance. The Bureau of Justice Assistance is a component of the Department of Justice's Office of Justice Programs, which also includes the Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, the Office for Victims of Crime, and the SMART Office. Points of view or opinions in this document are those of the author and do not necessarily represent the official position or policies of the U.S. Department of Justice."

TL

32. Press Releases

Subrecipients (and any Second-Tier Subrecipients) shall transmit to the Cal OES Program Specialist copies of all official award-related press releases at least fifteen working days prior to public release. Advance notice permits time for coordination of release of information by Cal OES where appropriate and to respond to press or public inquiries.

33. Copyright; Data rights

Subrecipients (and any Second-Tier Subrecipients) acknowledge that OJP reserves a royalty-free, non-exclusive, and irrevocable license to reproduce, publish, or otherwise use, and authorize others to use (in whole or in part, including in connection with derivative works), for Federal purposes: (1) any work subject to copyright developed under a Grant Subaward; and (2) any rights of copyright to which a Subrecipient (at any Second-Tier Subrecipient) purchases ownership with Federal support.

Subrecipients (and any Second-Tier Subrecipients) acknowledge that OJP has the right to (1) obtain, reproduce, publish, or otherwise use the data first produced under a Grant Subaward; and (2) authorize others to receive, reproduce, publish, or otherwise use such data for Federal purposes. "Data" includes data as defined in Federal Acquisition Regulation (FAR) provision 52.227-14 (Rights in Data – General).

It is the responsibility of the Subrecipient (and any Second-Tier Subrecipient) to ensure that the provisions of this condition are included in any Grant Subawards (and any Second-Tier Subrecipient) under this award.

Subrecipients (and any Second-Tier Subrecipients) have the responsibility to obtain from Subrecipients, contractors, and subcontractors (if any) all rights and data necessary to fulfill the Subrecipient's obligations to the Government under this Grant Subaward. If a proposed Subrecipient, contractor, or subcontractor refuses to accept terms affording the Government such rights, the Subrecipient shall promptly bring such refusal to the attention of the Cal OES Program Specialist for the Grant Subaward and not proceed with the agreement in question without further authorization from Cal OES.

34. Generally Accepted Laboratory Practices

Subrecipients (and any Second-Tier Subrecipients) shall ensure that any forensic laboratory, forensic laboratory system, medical examiner's office, or coroner's office that will receive any portion of the Grant Subaward uses generally accepted laboratory practices and procedures as established by accrediting organizations or appropriate certifying bodies.

a. External Investigations

Subrecipients (and any Second-Tier Subrecipients) shall ensure that requirements associated with 34 U.S.C. section 10562(4) (which relate to processes in place to conduct independent external investigations into allegations of serious negligence or misconduct by employees or contractors) are satisfied with respect to any forensic laboratory system, medical examiner's office, coroner's office, law enforcement storage facility, or medical facility in the State that will receive a

portion of the grant amount.

b. Accreditation

Subrecipients (and any Second-Tier Subrecipients) shall ensure that any forensic laboratory or forensic laboratory system (not including any medical examiner's office or coroner's office) that will receive any portion of the award either is accredited, or will use a portion of this award to prepare and apply for accreditation by not more than two years from the award date of this award.

Additionally, with respect to accreditation, the Subrecipient (and any Second-Tier Subrecipient) shall ensure that for any Grant Subaward it makes under this award, it will require in a legally-binding and enforceable writing, such as the Grant Subaward documentation (for example, Grant Subaward terms and conditions), that its Subrecipient: (1) if accredited, must continue to demonstrate such accreditation as a condition of receiving or using the Grant Subaward funds; or (2) if not accredited, must use the Grant Subaward funds to prepare and apply for accreditation.

The Coverdell statute (see 34 U.S.C. section 10562(2)) and the Paul Coverdell Forensic Science Improvement Grants Program solicitation state certain requirements and guidance associated with proper accreditation and regarding what BJA will consider to be acceptable documentation of accreditation. The Subrecipient is to contact the Cal OES Program Specialist for clarification or guidance if it should have any question as to what constitutes proper accreditation for the purposes of the Coverdell program. Grant Subaward funds may not be used under this Grant Subaward by a forensic laboratory or forensic laboratory system with accreditation (or by such laboratory to obtain accreditation) that BJA determines not to be consistent with the Coverdell law and the solicitation or to be otherwise deficient.

Subrecipients (and any Second-Tier Subrecipients) agree to notify Cal OES promptly upon any change in the accreditation status of any forensic science laboratory or forensic laboratory system that receives funding under this Grant Subaward.

35. Use of Funds; No Research

Funds provided under this Grant Subaward shall be used only for the purposes and types of expenses set forth in the Request for Application. Funds shall not be used for general law enforcement functions or non-forensic investigatory functions, and shall not be used for research or statistical projects or activities. Use of Grant Subaward funds for construction of new facilities is restricted by statute. Any questions concerning this provision should be directed to the Cal OES Program Specialist prior to incurring the expense or commencing the activity in question.

To ensure compliance with the Government Performance and Results Act (Pub. L. No. 103-62) and the GPRA Modernization Act of 2010 (Pub. L. No. 111-352), program performance under this Grant Subaward is measured by the following: (1) percent reduction in the average number of days from the submission of a sample to a forensic science laboratory to the delivery of test results to a requesting office or agency (calculated by reporting the average number of days to process a sample at the beginning of the grant period versus the average number of days to process a sample at the end of the grant period); (2) percent reduction in the number of backlogged forensic cases (calculated by reporting the number of backlogged forensic cases at the beginning of the grant period versus the number of backlogged forensic cases at the end of grant period), if applicable to the Grant Subaward; and (3) the number of forensic science or medical examiner/coroner's

office personnel who completed appropriate training or educational opportunities with these Coverdell funds, if applicable to the Grant Subaward. Subrecipients (and any Second-Tier Subrecipients) are required to collect and report data relevant to these measures.

36. Forensic Science or Medical Examiner Services Fees

Subrecipients (and any Second-Tier Subrecipients) understand and agree that, throughout the Grant Subaward Performance Period, it must promptly notify Cal OES if it either starts or stops charging fees for forensic science or medical examiner services, or if it revises its method of allocating fees received for such services to program income. Notice must be provided in writing to the Cal OES Program Specialist within fifteen business days of implementation of the change.

37. External Investigations

Subrecipients (and any Second-Tier Subrecipients) acknowledge that, as stated in the solicitation for the Paul Coverdell Forensic Science Improvement Grants Program, BJA assumes that Subrecipients (and Second-Tier Subrecipients) of Coverdell funds will make use of the process referenced in their certification as to external investigations and will refer allegations of serious negligence or misconduct substantially affecting the integrity of forensic results to government entities with an appropriate process in place to conduct independent external investigations, such as the government entity (or entities) identified in the grant application. The Subrecipient shall submit the following information as part of its final report: (1) the number and nature of any allegations of serious negligence or misconduct substantially affecting the integrity of forensic results received during the Grant Subaward; (2) information on the referrals of such allegations (e.g., the government entity or entities to which referred, the date of referral); (3) the outcome of such referrals (if known as of the date of the report); and (4) if any such allegations were not referred, the reason(s) for the non-referral. Should the project period for this award be extended, the Subrecipient shall submit the above information as to subsequent twelve-month periods every twelve months thereafter (as part of a semi-

annual progress report) until the close of the Grant Subaward, at which point the Subrecipient shall submit the required information as to any period not covered by prior reports as part of its final report. The Subrecipient understands and agrees that funds may be withheld (including funds under future awards), or other related requirements may be imposed, if the required information is not submitted on a timely basis.

38. Subrecipient Integrity and Performance Matters

Subrecipients (and any Second-Tier Subrecipients) must comply with any and all applicable requirements regarding reporting of information on civil, criminal, and administrative proceedings connected with (or connected to the performance of) either this OJP award or any other grant, cooperative agreement, or procurement contract from the federal government. Under certain circumstances, Subrecipients of OJP awards are required to report information about such proceedings, through the federal System for Award Management (known as "SAM"), to the designated federal integrity and performance system (currently, "FAPIS").

The details of Subrecipient obligations regarding the required reporting (and updating) of information on certain civil, criminal, and administrative proceedings to the federal designated integrity and performance system (currently, "FAPIS") within SAM are posted on the OJP website at <https://ojp.gov/funding/FAPIS.htm> (Award condition: Recipient Integrity and Performance Matters, including Recipient Reporting to FAPIS), and are incorporated by reference here.

39. Gross Income

Subrecipients (and any Second-Tier Subrecipients) understand and agree that gross income (revenues) from fees charged for forensic science or medical examiner services constitutes program income (in whole or in part), and that program income must be determined, used, and documented in accordance with the provisions of 2 C.F.R. 200.307, including as applied in the Department of Justice (DOJ) Grants Financial Guide, as it may be revised from time to time. Subrecipients (and any Second-Tier Subrecipients) further understand and agree that both program income earned during the Grant Subaward Performance Period and expenditures of such program income must be reported to Cal OES and are subject to monitoring.

Subrecipients (and any Second-Tier Subrecipients) understand and agree that program income earned during the Grant Subaward Performance Period may be expended only for permissible uses of funds specifically identified in the Request for Application for the Paul Coverdell Forensic Science Improvement Grants Program. The Subrecipient further understands and agrees that program income earned during the Grant Subaward Performance Period may not be used to supplant State or local government funds, but instead may be used only to increase the amount of funds that would, in the absence of Federal funds or program income, be available from State or local government sources for the permissible uses of funds listed in the

Request for Application.

Subrecipients (and any Second-Tier Subrecipients) understand and agree that program income that is earned during the final one hundred twenty (120) days of the Grant Subaward Performance Period may, if appropriate, be obligated (as well as expended) for permissible uses during the one hundred twenty-day (120-day) period following the end of the Grant Subaward Performance Period. The Subrecipient further understands and agrees that any program income earned during the Grant Subaward Performance Period that is not obligated and expended within one hundred twenty (120) days of the end of the Grant Subaward Performance Period must be returned to Cal OES.

40. Federal, State and Local Environmental Laws and Regulations

Subrecipients (and any Second-Tier Subrecipients) agree to comply with all Federal, State, and local environmental laws and regulations applicable to the development and implementation of the activities to be funded under this Grant Subaward.

a. Environmental Assessment (EA)

The activities the Subrecipient (and any Second-Tier Subrecipient) has proposed to conduct under this Grant Subaward fall within the scope of a BJA Programmatic EA that complies with the National Environmental Policy Act (NEPA). These activities have been determined not to have a significant impact on the quality of the human environment.

b. Modifications

Throughout the term of this Grant Subaward, Subrecipients (and any Second-Tier Subrecipients) agree that for any activity that is the subject of a completed EA, it will inform Cal OES of (1) any change(s) that it is considering making to the previously assessed activity that may be relevant to environmental impact; or (2) any proposed new activities or changed circumstances that may require assessment as to environmental impact, such as new activities that involve the use of chemicals or involve construction or major renovation. Subrecipients (and any Second-Tier Subrecipients) will not implement a proposed change or new activity until BJA, with the assistance of Cal OES, has determined whether the proposed change or new activity (or changed circumstances) will require additional review under NEPA. Approval for implementation will not be unreasonably withheld as long as any requested modification(s) is consistent with eligible program purposes and found acceptable under a BJA-conducted environmental impact review process.

41. Unmanned Aircraft Systems

The Subrecipient (and any Second-Tier Subrecipients) agrees that no funds under this Grant Subaward (including via subcontract or subaward, at any tier) may be used

for unmanned aircraft systems (UAS), which includes unmanned aircraft vehicles (UAV), or for any accompanying accessories to support UAS.

Project Narrative

Background:

The San Bernardino County Sheriff's Department-Scientific Investigations Division (SBCSD-SID) services over eighty local agencies and Sheriff's stations in San Bernardino County, California. The County of San Bernardino is the largest county in the continental United States. There are over 2.2 million residents in San Bernardino County and the population continues to rise annually. It is the 5th most populous county in California and the 14th most populous County in the United States. In 2023 San Bernardino County was identified as one of the most dangerous cities (ranked #24). Homicides and violent crimes continue to rise thus providing increased workload from the more than 80 Agencies SBCSD-SID provides service to.

The SBCSD-SID is a forensic science laboratory accredited through ANSI National Accreditation Board (ANAB, certificate #FT-0315). The Crime Laboratory first attained the accreditation status under the legacy program in 1995 and renewed it every five years until 2016. In 2016, the Laboratory achieved accreditation

Subrecipient: San Bernardino County Sheriff's Department

under the ISO 17025 International Program and renewed it in 2020. The Laboratory is on a 4-year cycle for renewal with the next full assessment set to occur in 2024. Among the many disciplines covered by the certificate are Firearms, Fire Debris, Materials (Trace), Forensic Biology, Controlled Substance, Toxicology (Blood Alcohol only), Crime Scene Investigations (CSI) and Bloodstain Pattern Analysis. The Latent Print/Ten Print Unit at Cal ID is currently in the process of obtaining accreditation through ANAB (ISO/IEC 17020/AR 3120 program).

The Scientific Investigations Division of the San Bernardino County Sheriff's Department has a training budget as part of the overall operating costs of the laboratory operations. As the Laboratory's discretionary budget has decreased over the last five years, these funds are extremely limited and are applied primarily to a few in-state training opportunities. Information learned from these training classes will be disseminated at individual Unit meetings.

The release of the National Academy of Science Report, titled "Strengthening Forensic Science in the United States A Path Forward", calls for, among other things, adequate funding for education Forensic Science. The report states that forensic science practitioners require continuing professional development and training and may need to complete additional training for certification purposes.

Subrecipient: San Bernardino County Sheriff's Department

Continuing professional development is the "mechanism through which a forensic scientist remains current or advances to a higher level of expertise, specialization or responsibility".

Description of the Issue:

The San Bernardino County Sheriff's Office Scientific Investigations Division provides forensic services for over 80 agencies in San Bernardino County in the following areas: Forensic Biology, Firearm/NIBIN, Materials/Trace, Controlled Substance (Seized Drugs), Blood Alcohol, Crime Scene Investigations and Ten Prints/Latent Comparisons. The laboratory has experienced a significant amount of turnover in staffing due to retirements and other factors and expects this trend to continue as long-time employees reach retirement. This has resulted in many staff members being in a training program. This new staff needs training opportunities to develop their forensic expertise. Supplementing in-house training opportunities with opportunities for training outside the laboratory has proven a cost-effective measure.

Grant Subaward Programmatic Narrative

Grant Subaward #: CQ23 17 0360

Subrecipient: San Bernardino County Sheriff's Department

It is the goal of the laboratory to expand the level and quality of testing services to client agencies. The goal includes adding technology and efficiencies in all areas. Training to develop expertise is critical to this goal.

Plan:

The Crime Laboratory plans to utilize 2023 Paul Coverdell Forensic Science Improvement Grant funding to improve the quality and timeliness of forensic services provide to client law enforcement agencies through education and training opportunities. Due to current budgetary conditions and the lack of currently available space for additional analysts, the only viable means of improving productivity and reducing case analysis backlogs is by enhancing the expertise of the current staff and developing processes for efficiency.

The laboratory intends to utilize funding from the Paul Coverdell Forensic Science Improvement Grant to allow members of SBCSD-SID to attend a variety of training and continuing education opportunities. Grant funding will provide opportunities for new staff to receive specialized training and existing staff to be provided on-going training and continuing education opportunities. An opportunity to attend national and international meetings and symposia in the various specialties of

forensic science is imperative to staying current in the field. Forensic symposia include such topics as legal, financial, accreditation, and technical information as well as being a forum for sharing of ideas and novel solutions. As newer and more advanced technologies, procedures, protocols, and training techniques become available to the forensic community and the existing technologies become outdated it is imperative that Criminalists are provided with the necessary training opportunities to continue to build on their expertise and to provide the best possible service to our client agencies and stakeholders. This grant funding will be utilized for improving the quality of analysis throughout the Scientific Investigations Division

Current Staffing and statistics:

The Firearms/Toolmarks Unit is staffed at five full-time Firearms Examiners and a Supervisor. Two staff members are in training, and two vacancies are anticipated in 2024. In 2022 the Firearms/Toolmarks Unit completed 103 firearms cases, and 433 National Integrated Ballistic Identification Network (NIBIN) entry cases. Only cases with court dates, cases needing analysis for filing purposes, or high visibility cases are currently being assigned for analysis as priority one. These cases are handled as soon as possible. All other case requests are worked as time permits

as priority two. Currently the number of backlogged firearms cases is 316, and the number of backlogged NIBIN cases is 2554. The current average turnaround time for firearms cases is 38 days and for NIBIN cases is 40 days (note case priority are newer cases).

The Trace Unit is staffed as two part-time examiners (both also are members of the Controlled Substance Unit). Both staff members are proficient in gunshot residue analysis and fire debris analysis. The Trace Unit completed 208 cases in 2022. Currently the number of backlogged cases is 43 and the turnaround time is 57 days.

The Crime Scene Investigations Unit is staff at one Sheriff's Supervising Crime Scene Specialist, two Sheriff's Lead Crime Scene Specialists and eleven Sheriff's Crime Scene Specialists who respond to crime scenes. There is currently one vacancy, and five team members are in training. The Crime Scene Investigations (CSI) Unit processed 201 crime scenes in 2022. Currently the number of backlogged reports is 48 cases, and the turnaround time is 51 days. Once the crime scene is completed, personnel must complete latent print processing and swabbing for DNA evidence on collected items. Sheriff's Crime Scene Specialists complete crime scene, autopsy, vehicle processing, trajectory, bloodstain pattern analysis,

photography, and technical processing reports. To facilitate the investigation and prosecution of crimes related to these scenes, it is essential that the turnaround time be kept to less than 30 days in all cases.

The Controlled Substances Unit is staffed at eight Criminalists (two of which also staff the trace Unit). There is currently one vacancy and another anticipated in 2024. The Controlled Unit completed 8023 cases in 2022. The Controlled Substances Unit classifies a case as "backlog" when it is not completed within ten days of submission. Currently the number of backlogged cases is 2364 and the turnaround time is 67 days. The goal is to maintain the turnaround time at less than 10 days.

The Forensic Alcohol Unit is staffed with three full-time Criminalists. There is one vacant position. These Criminalists are responsible for the calibration of the breath alcohol instruments in San Bernardino County, training officers, testing for alcohol levels in blood, and providing testimony. The Blood Alcohol Unit completed 2758 cases in 2022. The current backlog is 795 cases, and the turnaround time is 44 days. The goal is to maintain the turnaround time at less than 10 days.

The Forensic Biology Unit is staffed at eighteen Criminalists and a supervisor. This Unit is fully staffed however two vacancies are anticipated in 2024. The Forensic Biology Unit completed 1031 cases in 2022. The current backlog is 1468 cases, and the turnaround time is 455 days.

The CAL ID Unit is staffed with twenty-six examiners that conduct forensic examinations related to Ten Print Exams and Latent Print Comparison (two of which are supervisors), and one Manager. There are five vacancies. Currently there are 129 latent comparison cases backlogged. The Latent Unit completed 256 cases with an average turnaround time of 72 days.

Project Design and Implementation:

The SBCSD-SID intends to utilize grant funding to provide training opportunities for staff members to attend a variety of training and continuing education opportunities as outlined in the budget narrative. This funding will allow the laboratory to train staff members to be able to provide timely, effective, and efficient testing services to client agencies throughout San Bernardino County.

Capabilities and Competencies:

The SBCSD-SID is a full-service Accredited Laboratory providing forensic services to over 80 agencies across San Bernardino County. The accreditation process covers all aspects of the laboratory to include the management system, the training program, the policies, Procedures, work instructions, quality control, and the education and training of staff.

The laboratory utilizes several Laboratory Information Management Systems (LIMS) and other programs for tracking evidence, case information, requests for service, and reports. Statistical information is gathered from these systems to provide information regarding submitted and completed cases, turn-around-time, and backlogs. Additionally, the laboratory has a document management system that houses laboratory policies, procedures, and records.

Attachment: External Investigations

The "Certification as to External Investigations" that is submitted on behalf of the applicant agency as part of this application certifies that—

A government entity exists and an appropriate process is in place to conduct independent external investigations into allegations of serious negligence or misconduct substantially affecting the integrity of the forensic results committed by employees or contractors of any forensic laboratory system, medical examiner's office, coroner's office, law enforcement storage facility, or medical facility in the State that will receive a portion of the grant amount.

Prior to receiving funds, the applicant agency (that is, the agency applying directing to the Bureau of Justice Assistance) must provide — for each forensic laboratory system, medical examiner's office, coroner's office, law enforcement storage facility, or medical facility that will receive a portion of the grant amount — the name of the "government entity" (or entities) that forms the basis for the certification. Please use the template below to provide this information. (Applicants may adapt this template if necessary, but should ensure that the adapted document provides all required information.)

IMPORTANT NOTE: If necessary for accuracy, list more than one entity with respect to each intended recipient of a portion of the grant amount. For example, if no single entity has an appropriate process in place with respect to allegations of serious negligence as well as serious misconduct, it will be necessary to list more than one entity. Similarly, if no single entity has an appropriate process in place with respect to allegations concerning contractors as well as employees, it will be necessary to list more than one entity.

Improvement Grants Program
December 19, 2023**

BACKGROUND INFORMATION

The California Governor's Office of Emergency Services (Cal OES) has been allocated approximately \$2,253,877 in federal Grant funds to improve the quality, timeliness, and credibility of forensic science and medical examiner services. Funds are allocated to the State's 29 accredited forensic laboratories, based on established criteria. The Department has applied annually and received funding from the Grant since 2002.

The Department is requesting funding to supplement the Crime Laboratory's operational training budget. This Grant will fund training in eight disciplines: 1) general criminalistics; 2) firearms; 3) National Integrated Ballistic Information Network; 4) trace evidence; 5) blood alcohol; 6) controlled substances; 7) crime scene investigations; and 8) Ten Prints/Latent Comparisons. The additional training will increase the knowledge of the laboratory's staff with the goal of increased efficiency and faster turn-around time in analyzing evidence.

The application is legally binding and requires the County to designate an "Authorized Official" to sign the application. The Department's application lists the County's Chief Executive Officer as the Authorized Official. The Certification of Assurance of Compliance, included in the application, further requires a County official to confirm the individual listed on the application is the Authorized Official. The Chairman of the Board, on behalf of the Board, will make the confirmation that the Chief Executive Officer is the Authorized Official to execute and submit the application documents on behalf of the County.

The Grant term is from April 1, 2024 through March 31, 2025. The Department received the Request for Application from the State on November 17, 2023. The application is being submitted for Board approval at the first available date upon completion of the Grant application and legal review.
