Exhibit D
Additional Provisions

1. Overview:

The California Department of Public Health (CDPH), Division of Communicable Disease Control (DCDC) sets forth the following standards and procedures. These standards and procedures specify the conditions for receipt of CDPH Infectious Disease Prevention and Control (IDCP) local infrastructure funds.

The California Budget Act of 2019 requires the department to allocate funds to local health jurisdictions (LHJs) and tribal communities for the prevention and control of infectious diseases. The funding allocation methodology was developed in consultation with the County Health Executives Association of California, California Conference of Local Health Officers, community-based organizations, and other stakeholders. As also required by the Budget Act of 2019, the funding formula is based on factors that include disease burden, population impact, and geographical area; and it also allocates the funds in a manner that balances the need to spread funding to as many LHJs as possible and the need to provide meaningful services. These funds are for the prevention and control of infectious disease and funds provided shall not supplant existing services at the local level. The Budget Act of 2019 also requires these funds to be distributed in a lump-sum amount in the 2019-20 fiscal year.

2. Grantee's Responsibilities:

The Grantee agrees to:

- A. Direct activities toward achieving the program objectives set forth by the CDPH DCDC.
- B. Use these funds in accordance with any additional guidance set forth by the CDPH DCDC regarding the granting, use and reimbursement of the DCDC local assistance funds. Additional consideration should be given to other guidance from the CDPH and Centers for Disease Control and Prevention (CDC) intended to highlight successful communicable diseases prevention and response strategies or outline California specific initiatives, policies, and procedures.
- C. Use these funds to augment existing funds and not supplant funds that have been locally appropriated for the same purposes. Local assistance funds are intended to provide local entities with increased capabilities to address infectious disease control needs. Supplanting of funds is defined (for the purposes of this agreement) as using local assistance award monies to "replace" or "take the place of" existing local funding. For example, reductions in local funds cannot be offset by the use of CDPH dollars for the same purpose.
- D. Abide by the most recent standards of care for screening, treatment, control, and prevention as promulgated by:

<https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/ReportableDiseases.pdf>

All Grantees will close out all cases of communicable diseases and enter final case information in the California Reportable Disease Information Exchange (CalREDIE) or in an electronic format approved by CDPH, by the close out deadline requested by CDPH. This will enable timely reporting to the CDC as well as timely completion of CDPH reports on communicable disease incidence.

Unless an alternative data submission mode has been approved by CDPH, all Grantees, must enter case report data directly into CalREDIE. Data must be entered into the appropriate tabs and forms in CalREDIE. Submission of hard copy forms for data entry into CalREDIE by CDPH or scanning of case reports, laboratory results, or interview records into the electronic filing cabinet (EFC), will not be accepted in place of data entry. Grantees not entering data into CalREDIE must provide an electronic dataset in a format approved by CDPH. The CDPH CalREDIE website has

extensive resources to assist LHJs with CalREDIE including frequently asked questions, manuals/guidelines, and forms/instructions.

<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/CalREDIE-HELP.aspx> For additional CalREDIE help, please email CalREDIEHelp@cdph.ca.gov.

Work Plan and Evaluation:

LHJs will submit a draft work plan for the period of January 1, 2020 through June 30, 2023. The work plan will outline performance indicators specific to the areas identified in the scope of work. Project specific data reporting requirements and performance indicators will be determined in collaboration with CDPH within the first six months of the project period.

C. Data Security and Confidentiality:

Grantees shall have staff complete CDPH required confidentiality and data security training, and maintain on file associated confidentiality agreements for each staff person with access to confidential public health records and data.

D. Outbreak Reporting:

The California Code of Regulations (Title 17, Section 2502[c]) directs local health officers to immediately report unusual disease occurrences or outbreaks to CDPH.

E. Performance Progress Reporting:

The Annual Performance Progress Report is due no later than 30 days prior to the end of the budget period (e.g. May 31, 2020), and serves as the continuation application for the follow-on budget period. All publications and manuscripts published as a result of the work supported in part or whole by this cooperative grant must be submitted with the performance progress reports. Additionally, health advisories, health education materials, and other products should be submitted. Annual Performance Progress Report should be submitted to LHJDCDC@cdph.ca.gov.

Progress reports should include measures proposed by the Grantee, depending on the activities selected for the work plan. In addition, all grantees shall report the following on an annual basis:

- Number and classification of staff hired under this contract
- Data on incident/outbreak response:
 - Number of infectious disease control activities that were identified, by type (e.g., respiratory, food-borne, etc)
 - Number of infectious disease control activities by type
 - Number of infectious disease control activities supported by resources funded by this funding stream

Exhibit D
Additional Provisions

An infectious disease control activity is defined as one of the following:

- An outbreak that meets a standard local health department, CDPH or CDC definition.
- A response to an outbreak that exists in another jurisdiction, but has not yet impacted the responding jurisdiction. For example: implementing expanded hepatitis A vaccination to prevent an outbreak from spreading to the responding jurisdiction.
- An investigation of a significant disease exposure with the potential to become an outbreak. For example: contact investigation of a large scale exposure to a single case of tuberculosis or measles (e.g., in a school).
- A response to an infectious disease threat with the potential to become an outbreak, including a cluster of cases. For example, monitoring persons exposed to Ebola virus or investigating a cluster of cases of food-borne illness identified by Pulsed-Field Gel Electrophoresis or Whole Genome Sequencing.

4. Cancellation / Termination

- A. This Grant may be cancelled by CDPH without cause upon thirty (30) calendar days advance written notice to the Grantee.
- B. CDPH reserves the right to cancel or terminate this Grant immediately for cause. The Grantee may submit a written request to terminate this Grant only if CDPH substantially fails to perform its responsibilities as provided herein.
