Step 4

**Executive Summary The Mission of the Arrowhead Regional Medical Center (ARMC) Primary Care Track is to train racially and ethnically** (2500 max characters) diverse internal medicine residents who are competent and culturally sensitive and who desire to practice in underserved areas after completing residency. San Bernardino County ranks in the bottom tier of counties in California for patient to primary care physician ratio and ranks in the lowest 15 for overall health outcomes. ARMC has set goals to develop expertise in our residents related to health disparities, advocacy and population health to improve population level outcomes in both of these metrics.

> Internal Medicine residents spend most their residency training in San Bernardino County at ARMC. The Continuity Clinic is onsite at ARMC with the majority of the patient population being Hispanic or Latino and over 81 percent of the patients seen in the Continuity Clinic have Medi-Cal or managed care Medi-Cal.

In their time at ARMC residents are exceptionally trained in their ACGME mandatory sub-specialty rotations with the goal of being competent to practice Internal Medicine in areas of physician shortages without tertiary care centers. Residents are exposed to low income patients in the inpatient and outpatient setting and learn about the difficulties . . . . . .

many individuals face with complex care needs and very limited resources. At ARMC, our residents work in interdisciplinary teams to address the cultural, social or economic barriers our patients experience.

PRG 3

The ARMC Internal Medicine Program participates in teaching medical students from Loma Linda University Health, Saint Georges University, Western University, California University of Science and Medicine (CUSM), and University of California-Riverside Medical School (UCR). Beginning in July 2020, CUSM will be located on the ARMC campus. CUSM has a focus on targeting low-income, minority individuals coming from the region to enroll as students. Finally, the program is finished its expansion of the program from 12 residents per year up to 16 residents per year.
