The funds raised by the sale of the fixed assets identified in Recommendation No. 1 will be used to pay any applicable auction fees. BACKGROUND INFORMATION

The Department owns and operates a number of vehicles and heavy equipment pursuant to its mission of maintaining County roads. Department staff has determined that it is no longer economically beneficial to the Department to continue to maintain and/or repair the surplus assets identified in Recommendation No. 1. The surplus assets, having surpassed 16 years of service, have exceeded their expected lifespan and are costly to maintain. Disposing of these surplus assets aligns with the County and Chief Executive Officer's goals and objectives to improve County government operations and to operate in a fiscally-responsible and business-like manner, as it is more efficient and cost effective to maintain a newer fleet.

The equipment has been replaced by newer units, which produce fewer emissions in accordance with mandates from the California Air Resources Board. Selling older units is necessary to maintain compliance with South Coast Air Quality Management District's regulations. Heavy equipment that does not meet air quality standards must be sold out of state. Upon Board of Supervisors approval, the equipment will be sent to the County's contracted auction vendors for disposition, coordinated through the Purchasing Department, Surplus Property Division in accordance with the Standard Practice No. 12-18 SP1.

PROCUREMENT

Not applicable.
