The terms consumer, resident, individual, client or participant are used interchangeably throughout this document referring to the individual inquiring, accessing and/or receiving services.

- A. **Authorization for Release of Protected Health Information (PHI):** A HIPAA compliant authorization form signed by the client or client's legal representative, authorizing DBH to release the client's information to a designated recipient. This form must be completed thoroughly with specified records to be shared, a designated time frame and expiration date, as well as a signature by the DBH client or his/her legal representative. If the form is signed by a legal representative, proof from the court system designating legal representation must accompany the request.
- B. **Community Outreach and Support Team (COAST):** Consists of a crisis response mobile unit, which includes a DBH TEST behavioral health professional, a firefighter Emergency Medical Technician (EMT), a therapy canine (service dog), and a plain clothed specially trained Sheriff's Deputy. The team will directly respond to various types of behavioral health related crisis calls in the field.
- C. **Department of Behavioral Health (DBH):** The San Bernardino County Department of Behavioral Health, under state law, provides mental health and substance use disorder treatment services to County residents. Community services are provided in all major County metropolitan areas and are readily accessible to County residents.
- D. **Health Insurance Portability and Accountability Act (HIPAA):** A federal law designed to improve portability and continuity of health insurance coverage in the group and individual markets, to combat waste, fraud, and abuse in health insurance and health care delivery, to promote the use of medical savings accounts, to improve access to long-term care services and coverage, to simplify the administration of health insurance, and for other purposes.

- E. **Mental Health Services Act (MHSA):** Mental Health Services Act, also known as Proposition 63, imposes a 1% tax on adjusted annual incomes over \$1,000,000. In November 2004, California voters passed Proposition 63 to adopt the MHSA. According to the MHSA, the intent of the funding is to reduce the long-term adverse impact on individuals, families, and State and local budgets resulting from untreated serious mental illness.
- F. **Personal Identifiable Information (PII):** PII is information that can be used alone or in conjunction with other personal or identifying information, which is linked or linkable to a specific individual. This includes name, social security number, date of birth, address, driver's license, photo identification, other identifying number (case number, client index number, myAvatar or SIMON number/medical record number, etc.)

- K. **Triage, Engagement and Support Teams (TEST):** Triage teams specializing in crisis intervention, continuum of care, and intensive case management for individuals experiencing an urgent psychiatric health condition with up to 59 days of individualized linkage and follow up services. The goal is to improve consumer experience by improving access to mental health services with local staff and rapid response times, allowing the consumer to possibly stay within their own community and strengthening their opportunity for recovery and wellness while reducing involvement with the criminal justice system, reducing frequencies of emergency room visits and/or unnecessary hospitalization.

For the Community Outreach and Support Team (COAST)

A multidisciplinary team, referred to as Community Outreach and Support Team (COAST), has been initiated as a pilot program in collaboration with DBH staff, San Bernardino County Sheriff (Sheriff), and San Bernardino County Fire Protection District (SBCFPD) effective upon the date of execution. The team consists of a crisis response mobile unit, which includes a DBH behavioral health crisis professional, a plain clothed specially trained Sheriff Deputy, a firefighter Emergency Medical Technician (EMT), and a therapy canine.

Exhibit I is attached to the Memorandum of Understanding (MOU) as an overview of the COAST team. It specifies considerations unique to Sheriff and SBCFPD and defines the specific services available through DBH staff. The intent is to enhance the service quality, providing a more specialized response including, safety, medical, and behavioral health assets. The COAST team will directly respond to various types of behavioral health related calls based on their comprehensive make-up. DBH staff will provide the following services as detailed in the MOU. Additional duties, responsibilities, and services to be provided are outlined in this Exhibit I.

I. Participating Agency Considerations

A. Considerations Applicable to San Bernardino County Fire Protection District (SBCFPD):

1. EMT fire personnel will provide guidelines on how the therapy canine is handled.
2. EMT will assess for medical concerns and provide services for minor medical concerns.
3. EMT to receive 40-hour Crisis Intervention Training (CIT), Mental Health First Aid, and Listen-Empathize-Agree-Partner (LEAP) training to educate/acculturate/build awareness and become familiar with behavioral health approaches and resources. Training to be provided by DBH.

B. Considerations Applicable to Sheriff

1. At the Sheriff's discretion and with his/her approval, provide DBH staff with a hand-held radio after the appropriate California Law Enforcement Telecommunications System (CLETS) testing has been taken and a statement of confidentiality has been signed and received by the Agency.
2. Provide training to DBH staff for radio use with provided call signs.

3. Provide space in the mobile vehicle for DBH staff to perform general job duties.
4. Deputy to receive 40-hour Crisis Intervention Training (CIT), Mental Health First Aid, and Listen-Empathize-Agree-Partner (LEAP) training to educate/acculturate/build awareness and become familiar with behavioral health approaches and resources. Training to be provided by DBH.

II. DBH Staff Service Considerations

- A. As part of the COAST mobile team, DBH staff may travel throughout the County to provide community-based crisis triage services as well as referrals and linkage to community resources.
- B. In addition to the COAST team being directly dispatched to behavioral health related calls, COAST may also respond to field police and firefighter's scenes when their expertise is needed.
- C. Time between calls for service may be utilized to engage members of the population that are homeless displaying signs of mental health related issues.
- D. Provide support and coordination of mental health training for the COAST team and other Sheriff and SBCFPD personnel.

III. Detailed Description of Available Services DBH Staff May Provide

- A. The behavioral health service provided comes at no cost to the Agencies and is provided by the COAST program as an expedient link to behavioral health services for the community served. Initial services shall be directed toward achieving crisis intervention, diversion, and stabilization.
- B. DBH staff will assist Agency staff when a possible consumer is exhibiting symptoms of psychiatric crisis. If the consumer does not present as violent and/or a danger to staff safety and the community, COAST will immediately respond starting with triage to engage and support the consumer in crisis. COAST staff will provide crisis intervention with assessment and evaluation including collateral to help identify the needs for behavioral health services. The goal of intensive case management is to stabilize and successfully link consumers to DBH services and other community resources.

The following are services provided by DBH staff:

1. Crisis Intervention is a quick emergency response service enabling the individual to cope with a crisis, while maintaining his/her status as a functioning community member to the greatest extent possible. A crisis is an unplanned event that results in the individual's need for immediate service intervention. The response modality must allow for the resolution of the consumer's crisis. Crisis Intervention services are limited to stabilization of the presenting emergency. Service activities include but are not limited to assessment, evaluation, and collateral.
 - a. Assessment is an analysis of the history and current status of the individual's mental, emotional, or behavioral disorder. Relevant

cultural factors and history may be included where appropriate. Assessments will include consumer level of acuity and risk.

- b. Evaluation is an appraisal of the individual's community functioning in several areas including living situation, daily activities, social support systems and health status. Cultural issues may be addressed where appropriate.
 - c. Collateral is contact with one or more significant support persons in the life of the individual to assist the consumer in crisis as quickly as possible.
 - 2. Intensive Case Management provided by COAST staff for up to fifty-nine (59) days to link the consumer with appropriate DBH and community resources for continued stability.
- C. Consumer interventions conclude following completion of services or consumer is at an acceptable level of stability and/or linkage with supportive resources.

IV. DBH Staff

All DBH staff shall be employed by DBH. The staff described will work the designated number of hours per week in full-time equivalents (FTE's), and perform the job functions specified.

- A. The staffing will consist of the following:

An intensive case management treatment model will be used and will employ a Social Worker II, for the purpose of providing crisis intervention services, intensive case management and linkage within the dedicated office space, and in the field.
- B. Staff Responsibilities:
 - 1. Provide crisis triage/response/intervention.
 - 2. Provide interagency coordination of crisis services.
 - 3. Conduct case management needs assessment for possible intensive case management for consumers, identified and referred by the Agency, for referrals/linkage to DBH services and/or other community services.
 - 4. Identify individuals with potential Substance Use Disorder and Recovery Services (SUDRS) needs and refer to community SUDRS services.
 - 5. Provide short-term follow-up case management services (up to 59 days) while consumers are appropriately linked to DBH services and/or other community services.
 - 6. Collaborate with Agency staff, community agencies, family, and other support persons to avoid psychiatric hospitalizations or law enforcement escalations and to improve consumers daily functioning.
 - 7. Maintain appropriate and timely documentation, according to DBH policies and standards.

8. Attend co-location meetings such as, briefings, staff meetings, and/or other team/community meetings, as appropriate.

V. Other DBH Considerations related to Welfare and Institutions Code (WIC) 5150 Adults 5585 Children- Involuntary Psychiatric Hold:

1. DBH Paraprofessional staff are not able to write WIC 5150 or 5585 holds, but can assist law enforcement during WIC 5150 or 5585 evaluations by providing support to the law enforcement officers writing the holds.
2. The exception occurs when a DBH Clinical Therapist is available and law enforcement is NOT available to do the WIC 5150/5585 evaluations. After an evaluation, if appropriate, DBH Clinical Therapist will write the needed hold.
3. DBH staff is able to transport consumers that do not present as violent or a flight risk with appropriate Agency vehicle without a law enforcement officer. This method frees up law enforcement to return to the community instead of transporting the consumer and waiting at the hospital.
4. DBH staff can support law enforcement ~~to~~at the hospital and sit with consumers that do not present as violent or a flight risk.

VI. Data Reporting and Outcome Measures Requirements

- A. The assigned DBH Program Manager is responsible for reporting MHSA goals and outcome measures to the MHSA Coordinator, as appropriate.

The outcomes-based criteria which shall be measured are as follows:
