I. Cultural Competency

The State mandates counties to develop and implement a Cultural Competency Plan (CCP). This Plan applies to all DBH services. Policies and procedures and all services must be culturally and linguistically appropriate. Contract agencies are included in the implementation process of the most recent State approved CCP for San Bernardino County and shall adhere to all cultural competency standards and requirements. Contractor shall participate in the County's efforts to promote the delivery of services in a culturally competent

and equitable manner to all enrollees, including those with limited English proficiency and diverse cultural and ethnic backgrounds, disabilities, and regardless of gender, sexual orientation or gender identity. In addition, contract agencies will maintain a copy of the current DBH CCP.

1. Cultural and Linguistic Competency

Cultural competence is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers and professionals that enables that system, agency, or those professionals and consumer providers to work effectively in cross-cultural situations.

- a. To ensure equal access to quality care for diverse populations, Contractor shall adopt the Federal Office of Minority Health Culturally and Linguistically Appropriate Services (CLAS) national standards.
- b. Contractor shall be required to assess the demographic make-up and population trends of its service area to identify the cultural and linguistic needs of the eligible beneficiary population. Contractor shall upon request from the County, provide information and/or reports as to whether its provider staff completed cultural competency training.
- f. DBH recognizes that cultural competence is a goal toward which professionals, agencies, and systems should strive. Becoming culturally competent is a developmental process and incorporates at all levels the importance of culture, the assessment of cross-cultural relations, vigilance towards the dynamics that result from cultural differences, the expansion of cultural knowledge, and the adaptation of services to meet culturally-unique needs. Providing mental health and substance use disorder treatment services in a culturally appropriate and responsive manner is fundamental in any effort to ensure success of high quality and cost-effective behavioral health services. Offering those services in a manner that fails to achieve its intended result due to cultural and linguistic barriers does not reflect high quality of care and is not cost-effective.
- g. To assist Contractor's efforts towards cultural and linguistic competency, DBH shall provide the following:

- i. Technical assistance to Contractor regarding cultural competency implementation.
 - a) Monitoring activities administered by DBH may require Contractor to demonstrate documented capacity to offer services in threshold languages or contracted interpretation and translation services.
 - b) procedures must be in place to determine multilingual and competency level(s).
- ii. Demographic information to Contractor on service area for service(s) planning.
- iii. Cultural competency training for DBH and Contractor personnel, when available.
- iv. Interpreter training for DBH and Contractor personnel, when available.

XXIX. Indemnification and Insurance

A. Indemnification

Contractor agrees to indemnify, defend (with counsel reasonably approved by the County) and hold harmless the County and its authorized officers, employees, agents and volunteers from any and all claims, actions,

losses, damages, and/or liability arising out of this Contract from any cause whatsoever, including the acts, errors or omissions of any person and for any costs or expenses incurred by the County on account of any claim except where such indemnification is prohibited by law. This indemnification provision shall apply regardless of the existence or degree of fault of indemnitees. The Contractor's indemnification obligation applies to the County's "active" as well as "passive" negligence but does not apply to the County's "sole negligence" or "willful misconduct" within the meaning of Civil Code Section 2782.

B. Additional Insured

All policies, except for the Workers' Compensation, Errors and Omissions and Professional Liability policies, shall contain endorsements naming the County and its officers, employees, agents and volunteers as additional insured with respect to liabilities arising out of the performance of services hereunder. The additional insured endorsements shall not limit the scope of coverage for the County to vicarious liability but shall allow coverage for the County to the full extent provided by the policy. Such additional insured coverage shall be at least as broad as Additional Insured (Form B) endorsement form ISO, CG 2010.11 85.

C. Waiver of Subrogation Rights

Contractor shall require the carriers of required coverages to waive all rights of subrogation against the County, its officers, employees, agents, volunteers, contractors, and subcontractors. All general or auto liability insurance coverage provided shall not prohibit the Contractor and Contractor's employees or agents from waiving the right of subrogation prior to a loss or claim. The Contractor hereby waives all rights of subrogation against the County.

D. Policies Primary and Non-Contributory

All policies required herein are to be primary and non-contributory with any insurance or self-insurance programs carried or administered by the County.

E. Severability of Interests

Contractor agrees to ensure that coverage provided to meet these requirements is applicable separately to each insured and there will be no cross liability exclusions that preclude coverage for suits between the Contractor and the County or between the County and any other insured or additional insured under the policy.

F. Proof of Coverage

Contractor shall furnish Certificates of Insurance to the County Department administering the Contract evidencing the insurance coverage at the time the contract is executed. Additional endorsements, as required, shall be provided prior to the commencement of performance of services hereunder, which certificates shall provide that such insurance shall not be terminated or expire without thirty (30) days written notice to the Department, and Contractor shall maintain such insurance from the time Contractor commences performance of services hereunder until the completion of such services. Within fifteen (15) days of the commencement of this Contract, the Contractor shall furnish a copy of the Declaration page for all applicable policies and will provide complete certified copies of the policies and all endorsements immediately upon request.

J. Insurance Review

Insurance requirements are subject to periodic review by the County. The Director of Risk Management or designee is authorized, but not required, to reduce, waive or suspend any insurance requirements whenever Risk Management determines that any of the required insurance is not available, is unreasonably priced, or is not needed to protect the interests of the County. In addition, if the Department of Risk Management determines that heretofore unreasonably priced or unavailable types of insurance coverage or coverage limits become reasonably priced or available, the Director of Risk Management or designee is authorized, but not required, to change the above insurance requirements to require additional types of insurance coverage or higher coverage limits, provided that any such change is reasonable in light of past claims against the County, inflation, or any other item reasonably related to the County's risk.

Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this Contract. Contractor agrees to execute any such amendment within thirty (30) days of receipt.

Any failure, actual or alleged, on the part of the County to monitor or enforce compliance with any of the insurance and indemnification requirements will not be deemed as a waiver of any rights on the part of the County.

K. Insurance Specifications

Contractor agrees to provide insurance set forth in accordance with the requirements herein. If the Contractor uses existing coverage to comply with these requirements and that coverage does not meet the specified requirements, the Contractor agrees to amend, supplement or endorse the existing coverage to do so. The type(s) of insurance required is determined by the scope of the contract services.

**Psychiatric Inpatient Hospital Services
Service Description**

I. PROGRAM DESCRIPTION

Historically, public mental health services in California have been reimbursed under two separate systems: Short-Doyle/Medi-Cal (county operated services) and Fee-for-Service/Medi-Cal (private hospitals and practitioners). On January 1, 1995, these two systems were consolidated into a single, integrated service delivery system for psychiatric inpatient services. This single system is administered through the San Bernardino County, Department of Behavioral Health (DBH), which acts as the Local Managed Mental Health Plan Agency (MHP). DBH/MHP has the responsibility for administering the Plan and managing the funds allocated by the State for all Medi-Cal psychiatric inpatient hospital services within the County. The MHP authorizes all Medi-Cal reimbursement for psychiatric inpatient services based on medical necessity.

The MHP also works in collaboration with Acute Psychiatric Hospitals classified as Institutions for Mental Disease (IMD), providing consultation on residential care and community support services for San Bernardino County patients receiving treatment at their facilities. As a result of the IMD Exclusion pursuant to Section 1905(a) of the Social Security Act, Medi-Cal funds may not be sought for adult patients aged 21-64 who are provided with psychiatric inpatient hospital services at these Acute Psychiatric Hospitals, including Psychiatric Health Facilities who are certified by the State to provide psychiatric inpatient hospital services. The MHP is therefore responsible for providing funding for these non-Medi-Cal-billable patients receiving specialty mental health services.

II. PERSONS TO BE SERVED

The individuals to be served under this contract include all Medi-Cal members and indigent patients, as defined and within the age groups served by Contractor, who meet medical necessity, as defined, for psychiatric hospitalization.

A. Provider Adequacy (If Applicable)

Contractor shall submit to DBH documentation verifying it has the capacity to serve the expected enrollment in its service area in accordance with the network adequacy standards developed by DHCS. Documentation shall be submitted no less frequently than the following:

1. At the time it enters into this Contract with the County;
2. On an annual basis; and
3. At any time there has been a significant change, as defined by DBH, in the Contractor's operations that would affect the adequacy capacity of services, including the following:
 - a. A decrease of twenty-five percent (25%) or more in services or providers available to beneficiaries;
 - b. Changes in benefits;

- c. Changes in geographic service area; and
- d. Details regarding the change and Contractor's plans to ensure beneficiaries continue to have access to adequate services and providers.

III. ADMISSION CRITERIA

A. Pre-entry

- 1. Patients must be medically cleared prior to being admitted. All patients admitted to an acute care psychiatric facility are assumed to be medically clear.

B. Medi-Cal Eligibility and County of Residence Determination

- 1. Contractor is required to determine the Medi-Cal status of all patients being admitted to its facility. Contractor staff are to make a diligent effort to determine a patient's Medi-Cal status using a Point of Service device (POS) device and/or by contacting the closest Social Security Office and/or by contacting the Medi-Cal office at (800) 952-5253. All efforts to determine Medi-Cal eligibility are to be well documented in patient charts.
- 2. Contractor will only be able to bill a patient's Medi-Cal county of residence for services. No reimbursement will be given to a Contractor by a county for a Medi-Cal patient from another county.
- 3. In no event will any reimbursement be given unless the Notice of Admission and post--discharge Treatment Authorization Request (TAR) requirement (or, for the Indigent Care Services Program, the post-discharge UB-04 requirement) are met as described in the Payment Authorization article of this Addendum.
- 4. Pending Eligibility/Retroactive Eligibility
In all cases where Medi-Cal is granted retroactively, the Contractor is to submit the TAR after Medi-Cal has been granted, indicating on the TAR that Medi-Cal was granted retroactively.
- 5. Other Insurance
In all cases where there are other primary and secondary insurances, including Medicare, these sources are to be billed prior to billing Medi-Cal.
- 6. Uncertain County of Beneficiary Status
A patient's county of beneficiary status is to be determined in the same fashion as in Article III, Section B (i.e., using the POS device, contacting Social Security, and/or contacting the Medi-Cal office). However, if a patient's county of beneficiary status cannot be identified, Contractor is to provide San Bernardino County MHP or authorized concurrent review vendor with a completed Notice of Admission and supporting documentation, within 24 hours of admission.

7. Identity Unknown

If a patient's identity cannot be established, the local Sheriff's substation is to be contacted to have the patient's fingerprints taken and examined. If a patient's identity cannot be determined, DBH or the authorized is to be contacted within twenty-four (24) hours of admission.

C. Medical Necessity

Medical necessity for inpatient psychiatric hospital care is defined by the presence of a covered mental condition manifested by acute symptoms of sufficient severity that the absence of immediate mental health services could reasonably be expected to result in a patient's health being placed in jeopardy, and/or the patient being a danger to self and/or to others (i.e., services are needed to protect life or treat significant disability). Medical necessity never implies entitlement to a specific level of care, type of service, or specific service location. The appropriate service for a patient is always based on clinical judgment. Thus, the admission criteria listed herein do not entitle a person to receive Inpatient Services. It is the presence of an included diagnosis, a functional impairment, and documentation that the patient cannot be treated at a lower level of care that are required to meet admission criteria. Once it is determined the patient has a covered diagnosis, it is the severity of the functional impairment and evidence that the patient cannot be treated at a lower level of care that ultimately qualify a service for reimbursement.

Note: Medical necessity is subject to change due to changes by DHCS. DBH shall immediately notify Contractor of any said changes and provide any applicable information such as Behavioral Health Information Notice, updated regulation, or other.

In order for psychiatric inpatient hospital services to be reimbursed, a patient must have been seen and evaluated by a psychiatrist, and:

1. The patient must have a valid ICD-10-CM principal admitting diagnosis/DSM-5 as indicated in 9 CCR 1820.205(a)(1).
2. The patient cannot be safely treated at another level of care, except that a member who can be safely treated with crisis residential treatment services or psychiatric health facility services for an acute psychiatric episode shall be considered to have met this criterion.
3. Requires psychiatric inpatient hospital services, as the result of a mental disorder, due to one of the following:
 - a. Has symptoms or behaviors that (one of the following):
 - 1) Represents current danger to self or others, or significant property destruction.
 - 2) Prevent the patient from providing for, or utilizing, food, clothing, shelter, personal safety, or necessary medical care.

- 3) Present a severe risk to the patient's physical health.

Note: A patient is not considered unable to provide for basic needs, even if the patient meets the above criteria, if the patient has responsible friends, family, or others who indicate their willingness (must be documented) to care for the patient and the patient is able and willing to take advantage of these resources. Services rendered to patients meeting this description will not be reimbursed.

- 4) Represent a recent, significant deterioration in ability to function.
- b. Requires admission for treatment and/or observation for either 1) or 2) below:
 - 1) Further psychiatric evaluation
 - 2) Medication treatment that can only be provided in an acute inpatient setting.
 - 3) Other treatment that can be reasonably provided only if the patient is hospitalized.
4. Patients who present at the hospital with Grave Disability resulting from a severe Substance Use Disorder (SUD) are eligible for reimbursement under the provisions of this contract until such time as the State establishes criteria and methodologies for direct reimbursement of these services, as applicable.
 5. The psychiatric condition must reflect the above criteria and be documented in the patient's chart.

D. Continued Stay

1. Approval of payment for a patient's hospital stay will be predicated upon documentation of one or more of the following criteria:
 - a. Continued presence of indications that meet the medical necessity criteria.
 - b. Serious adverse reaction to medications, procedures or therapies requiring continued hospitalization.
 - c. The presence of new indications that meet medical necessity criteria.
 - d. Need for continued medical evaluation/treatment that can only be provided if the patient remains in the hospital.
 - e. The treatment services provided meet standard of care for inpatient medical services as determined by MHP staff.

2. The provision of services must be reasonably expected to improve the patient's condition so that a lower level of care can be implemented following stabilization.

Note: Continued Stay criteria is subject to change due to changes by DHCS. DBH shall immediately notify Contractor of any said changes and provide any applicable information such as Behavioral Health Information Notices, State Plan Amendments, regulations, or other.

E. Administrative Days

1. Administrative days shall be reimbursed pursuant to 9 CCR 1810.202 in the event that a patient's stay must be continued beyond the patient's need for acute care due to the lack of residential placement options, contingent upon documentation meeting all requirements outlined in the most current guidelines issued by the State. The MHP has identified that the following are consistent with the definition of "residential treatment facilities" and are Medi-Cal eligible non-acute treatment facilities that meet the Administrative Day Service criteria:

- a. State Hospital. State Hospitals are the highest level of locked psychiatric inpatient care for patients living with behavioral health conditions and require the highest level of intensive services. Additionally, State Hospitals provide services to consumers who are committed pursuant to sections of the Penal Code and WIC or who are found to be incompetent to stand trial.
- b. Institutions for Mental Diseases: A hospital, nursing facility or other institution of more than sixteen (16) beds that is primarily engaged in providing diagnosis, treatment, or care of persons with mental diseases, including medical attention, nursing care, and related services (42 Code of Federal Regulations (CFR) 435.1010, 9 CFR 1810.222.1).
- c. Mental Health Rehabilitation Centers (MHRC) and Skilled Nursing Facilities (SNF) with a psychiatric component. SNFs that provide only medical care do not qualify for administrative day reimbursement.
- d. Enhanced Assisted Living facilities contracted with DBH to provide specialized treatment to consumers living with comorbid behavioral health and medical conditions.
- e. Licensed enhanced board and care. These are designated board and care facilities that have a contract with DBH to provide specialized enhanced services to targeted populations. Non-enhanced (basic) licensed board and care facilities do not qualify for administrative day reimbursement.
- f. Adult Residential Treatment Facilities licensed through Community

- Care Licensing (CCL) to provide long-term or transitional social rehabilitation services as those contracted through the DBH Centralized Hospital Aftercare Services (CHAS) program.
- g. Facilities whose services include co-occurring treatment through the DBH Therapeutic Alliance Program (TAP) or SUD residential treatment facilities wherein placement has been arranged through DBH Screening, Assessment, and Referral Center (SARC).
 2. For the purposes of this Contract, administrative day reimbursement by DBH for Medi-Cal members between the ages of 21-64 receiving inpatient psychiatric services in an Acute Psychiatric Hospital classified as an IMD, is subject to the same criteria as outlined in 9 CCR 1810.202. Reimbursement shall be in accordance with the Referenced Contract Provisions and will be provided at the negotiated rate included therein, subject to the terms set forth in this Contract.
 3. For patients in need of placement at the MHP-contracted facilities referenced in items a through e above or through DBH TAP, Contractor shall contact the DBH Long-Term Care Team via encrypted email at DBH-LongTermCare@dbh.sbcounty.gov to arrange for this placement. Questions may be referred to the Centralized Hospital Aftercare Services administrative office at (909) 421-9435.
 4. For patients in need of referral to contracted long-term or transitional social rehabilitation facilities for adult residential treatment referenced in item f above, Contractor shall contact the DBH Triage Transitional Services Clinic Supervisor or designee at (909) 580-2141.
 5. It is the responsibility of the contracted hospital to seek and arrange for placement for all conserved and non-conserved patients requiring medical SNF, basic board and care or other lower levels of care. Placement efforts should be clearly documented in patient charts. Consumers who are placed in these lower level of care facilities do not qualify for administrative day reimbursement. Please refer to paragraphs d and f above for further reference.
 6. Administrative Day Contact Requirements
 - a. The patient must have received at least one (1) approved acute bed day in the facility prior to authorization of any administrative days.
 - b. Contractor must document having made at least one (1) contact to a non-acute residential treatment facility per day (except weekends and holidays), starting with the day the patient is placed on administrative day status. Once five (5) contacts have been made and documented, any remaining days within the seven (7) consecutive day period from the day the member is placed on administrative day status may be authorized.

- c. A hospital may make more than one (1) contact on any given day within the seven (7) consecutive day period; however, the hospital will not receive authorization for the days in which a contact has not been made until and unless all five (5) required contacts are completed and documented. Once the five (5) contact requirement is met, any remaining days within the seven (7) day period can be authorized without a contact having been made and documented.
- d. The lack of placement options at appropriate non-acute residential treatment facilities and the contacts made at appropriate facilities shall be documented to include, but not limited to, the following:
 - 1) The status of the placement option. Documentation in the chart should note the level, type and name of placement facility contacted and the disposition of each contact.
 - 2) Date of the contact and name and title of the person contacted.
 - 3) Signature and title of the person making the contact.
- e. Examples of appropriate “placement status” options include, but may not be limited to, the following:
 - 1) The patient’s information packet is under review;
 - 2) An interview with the patient has been scheduled for [date];
 - 3) No bed available at the non-acute treatment facility [specify facility, if available]
 - 4) The patient has been put on a wait list;
 - 5) The patient has been accepted and will be discharged to [facility] on [date of discharge];
 - 6) The patient has been rejected from [facility] due to [reason]; and/or
 - 7) A conservator deems the facility to be inappropriate for placement.
- f. In cases where Contractor cannot make direct contact with potential facilities because there is a DBH case manager or program who functions as a placement gatekeeper (mental health and/or SUD), the Contractor is responsible for obtaining copies of the gatekeeper’s placement effort documentation and to include this documentation with the chart when it is submitted to the MHP for consideration for payment. Contractor must submit a copy of the placement log by the DBH gatekeeper for placement efforts in the patient’s record prior to submission to DBH or authorized

concurrent review vendor for review and consideration for reimbursement as outlined above.

- g. It is the responsibility of Contractor to seek and arrange for placement for all conserved and non-conserved patients requiring medical SNF, basic board and care, or other lower levels of care. Placement efforts should be clearly documented in patient charts and do not qualify Contractor for Administrative Day reimbursement.

F. Payment Authorization

1. In May 2023, DBH implemented concurrent review, an authorization process where inpatient services are reviewed for medical necessity as the services are being provided. This differs from the prior practice of retrospective review, where services were reviewed and authorized/denied after the patient discharged from the hospital. Concurrent review enables hospitals to receive prompt feedback and adjust subsequent documentation to meet Medi-Cal standards while patients are receiving inpatient care. This results in a higher likelihood of approval for services reimbursed to contractors. Additionally, inpatient authorization regulations allow hospitals to be retroactively reimbursed for bed days provided in prior fiscal years in circumstances including hospitalizations that cross fiscal years and appealed bed days. Retrospective submissions are allowed in the event of retroactive approval of Medi-Cal, inaccuracies in the Medi-Cal eligibility system, other health coverage, and beneficiary failure to identify payor.
2. Contractor shall submit a Notice of Admission for concurrent review and authorization into the designated portal within twenty-four (24) hours of patient admission to the inpatient psychiatric unit. The submission must include all required documents including:
 - a. Admission Questionnaire,
 - b. Admission Orders,
 - c. Face Sheet with Medi-Cal verification,
 - d. Psychiatric Evaluation, and
 - e. WIC 5150/5585/Voluntary/Conserved documentation, as applicable.Failure to adhere to this timeline will result in a denial of authorization.
3. If an authorization is denied, Contractor may submit an appeal to the designated concurrent review vendor. An appeal must be submitted within ninety (90) days of denial. Contractor must submit an appeal TAR and letter into the associated case in the database.

4. The payment authorization process is subject to change based on regulation, the policy of DHCS, or internal DBH business processes. If this occurs, DBH and/or the applicable vendor will communicate applicable changes to Contractor in a timely manner.
5. Reimbursement for services is contingent upon the Contractor continuing to meet all regulatory and licensing criteria.
6. All required documentation supporting the indigent care reimbursement process must be submitted to the San Bernardino County Department of Behavioral Health Point of Authorization within fourteen (14) days of the date of discharge. Funding is subject to availability and contractual limits.

IV. QUALITY OF CARE

A. Final Rule or Parity Regulations and Information Notices

Contractor will be required to follow all changes applicable to the Medi-Cal and Children's Health Insurance Program Managed Care Final Rule, referred to as the Final Rule thereafter, Mental Health Parity and Addiction Equity Act, referred to as Parity thereafter, and/or any applicable Information Notices issued by DHCS related to hospital services. DHCS requires DBH as the County's MHP and its contractors to adhere to applicable regulations and notices. Contractor must comply with any policies, procedures, and/or Information Notices issued by DBH pertaining to the Final Rule or Parity.

Composition of the committee shall meet minimum federal requirements. A log shall be maintained, recording the date and outcome of each review, the patient's name, chart number, as well as the signature of the reviewer.
2. Contractor Quality Management/Utilization Review records will be made available for review by MHP staff upon request.
3. Contractor's URC will take into account functioning level and utilization of other available resources when evaluating need for inpatient service upon admission and throughout the continued stay. Services which do not meet the minimum standards for medical necessity/least restrictive level of care are non-reimbursable.
4. MHP Authorization and Quality Improvement staff will be available to educate providers to ensure that federal URC requirements are met and that each provider's URC is familiar with the expectations of MHP in terms

of quality and reimbursement issues. Contractor will be subject to MHP Quality Management Action Committee (QMAC) oversight. Quality of care may be measured via performance outcome measures, other focused studies, audits, routine reviews, or other methods as determined necessary by MHP.

- C. Quality of care provided to patients by the Contractor will meet MHP standards of inpatient care. Compliance will be assessed as part of the MHP concurrent review process.
- D. Contractor shall provide psychiatric inpatient hospital services in the same manner to Medi-Cal members and indigent patients, as defined, as they are provided to all other patients.
- E. Contractor shall not discriminate against Medi-Cal members and indigent patients, as defined, in any manner, including admission practices, placement in special wings or rooms, or the provision of special or separate meals.
- F. Contractor shall provide the same standard of medical care as in the community, e.g., performing basic laboratory work upon admission, completing history and physical examinations within twenty-four (24) hours of admission, determining blood levels of medications as indicated, e.g. Tegretol, Dilantin, Depakote, etc.

The appropriate MHP standing committee will review each referral and request a plan of correction, if indicated.
- H. Quality Management
 - 1. Contractor shall comply with requirements for utilization review pursuant to Title 42, CFR, Subpart D. Compliance shall include documentation of medical necessity, appropriateness of the level of care, and duration of services.
 - 2. On-site Reviews

 - a. Level and quality of care, as well as the necessity and appropriateness of the services provided.
 - b. Internal procedures for assuring efficiency, economy and quality of care.

DATA SECURITY REQUIREMENTS

Pursuant to its contract with the State Department of Health Care Services, the Department of Behavioral Health (DBH) requires Contractor adhere to the following data security requirements:

A. Personnel Controls

1. Employee Training. All workforce members who assist in the performance of functions or activities on behalf of DBH, or access or disclose DBH Protected Health Information (PHI) or Personal Information (PI) must complete information privacy and security training, at least annually, at Contractor's expense. Each workforce member who receives information privacy and security training must sign a certification, indicating the member's name and the date on which the training was completed. These certifications must be retained for a period of ten (10) years from the final date of the contract period or from the date of completion of any audit, whichever is later.
2. Employee Discipline. Appropriate sanctions must be applied against workforce members who fail to comply with privacy policies and procedures or any provisions of these requirements, including termination of employment where appropriate.
3. Confidentiality Statement. All persons that will be working with DBH PHI or PI must sign a confidentiality statement that includes, at a minimum, General Use, Security and Privacy Safeguards, Unacceptable Use, and Enforcement Policies. The Statement must be signed by the workforce member prior to accessing DBH PHI or PI. The statement must be renewed annually. The Contractor shall retain each person's written confidentiality statement for DBH inspection for a period of ten (10) years from the final date of the contract period or from the date of completion of any audit, whichever is later.
4. Background Check. Before a member of the workforce may access DBH PHI or PI, a background screening of that worker must be conducted. The screening should be commensurate with the risk and magnitude of harm the employee could cause, with more thorough screening being done for those employees who are authorized to bypass significant technical and operational security controls. The Contractor shall retain each workforce member's background check documentation for a period of ten (10) years from the final date of the contract period or from the date of completion of any audit, whichever is later.

B. Technical Security Controls

1. Workstation/Laptop Encryption. All workstations and laptops that store DBH PHI or PI either directly or temporarily must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as Advanced Encryption Standard (AES). The encryption solution must be full disk unless approved in writing by DBH's Office of Information Technology.
2. Server Security. Servers containing unencrypted DBH PHI or PI must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review.
3. Minimum Necessary. Only the minimum necessary amount of DBH PHI or PI required to perform necessary business functions may be copied, downloaded, or exported.
4. Removable Media Devices. All electronic files that contain DBH PHI or PI data must be encrypted when stored on any removable media or portable device (i.e. USB thumb drives, floppies, CD/DVD, Blackberry, backup tapes, etc.). Encryption must be a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES.
5. Antivirus / Malware Software. All workstations, laptops and other systems that process and/or store DBH PHI or PI must install and actively use comprehensive anti-virus software / Antimalware software solution with automatic updates scheduled at least daily.

6. Patch Management. All workstations, laptops and other systems that process and/or store DBH PHI or PI must have all critical security patches applied with system reboot if necessary. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within thirty (30) days of vendor release. Applications and systems that cannot be patched within this time frame due to significant operational reasons must have compensatory controls implemented to minimize risk until the patches can be installed. Application and systems that cannot be patched must have compensatory controls implemented to minimize risk, where possible.
7. User IDs and Password Controls. All users must be issued a unique user name for accessing DBH PHI or PI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password. Passwords are not to be shared. Passwords must be at least eight characters and must be a non-dictionary word. Passwords must not be stored in readable format on the computer. Passwords must be changed at least every ninety (90) days, preferably every sixty (60) days. Passwords must be changed if revealed or compromised. Passwords must be composed of characters from at least three of the following four groups from the standard keyboard:
 - a. Upper case letters (A-Z)
 - b. Lower case letters (a-z)
 - c. Arabic numerals (0-9)
 - d. Non-alphanumeric characters (special characters)
8. Data Destruction. When no longer needed, all DBH PHI or PI must be wiped using the Gutmann or U.S. Department of Defense (DoD) 5220.22-M (7 Pass) standard, or by degaussing. Media may also be physically destroyed in accordance with NIST Special Publication 800-88. Other methods require prior written permission of DBH's Office of Information Technology.
9. System Timeout. The system providing access to DBH PHI or PI must provide an automatic timeout, requiring re-authentication of the user session after no more than twenty (20) minutes of inactivity.
10. Warning Banners. All systems providing access to DBH PHI or PI must display a warning banner stating that data is confidential, systems are logged, and system use is for business purposes only by authorized users. User must be directed to log off the system if they do not agree with these requirements.
11. System Logging. The system must maintain an automated audit trail which can identify the user or system process which initiates a request for DBH PHI or PI, or which alters DBH PHI or PI. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users. If DBH PHI or PI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least ten (10) years from the final date of the contract period or from the date of completion of any audit, whichever is later.
12. Access Controls. The system providing access to DBH PHI or PI must use role based access controls for all user authentications, enforcing the principle of least privilege.
13. Transmission Encryption. All data transmissions of DBH PHI or PI outside the secure internal network must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES. Encryption can be end to end at the network level, or the data files containing DBH PHI can be encrypted. This requirement pertains to any type of DBH PHI or PI in motion such as website access, file transfer, and E-Mail.
14. Intrusion Detection. All systems involved in accessing, holding, transporting, and protecting DBH PHI or PI that are accessible via the Internet must be protected by a comprehensive intrusion detection and prevention solution.

C. Audit Controls

1. System Security Review. Contractor must ensure audit control mechanisms that record and examine system activity are in place. All systems processing and/or storing DBH PHI or PI must have at least an annual system risk assessment/security review which provides assurance that administrative, physical, and technical controls are functioning effectively and providing adequate levels of protection. Reviews should include vulnerability scanning tools.
2. Log Review. All systems processing and/or storing DBH PHI or PI must have a routine procedure in place to review system logs for unauthorized access.
3. Change Control. All systems processing and/or storing DBH PHI or PI must have a documented change control procedure that ensures separation of duties and protects the confidentiality, integrity and availability of data.

D. Business Continuity/Disaster Recovery Controls

1. Emergency Mode Operation Plan. Contractor must establish a documented plan to enable continuation of critical business processes and protection of the security of DBH PHI or PI held in an electronic format in the event of an emergency. Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this Agreement for more than 24 hours.
2. Data Backup Plan. Contractor must have established documented procedures to backup DBH PHI to maintain retrievable exact copies of DBH PHI or PI. The plan must include a regular schedule for making backups, storing backups offsite, an inventory of backup media, and an estimate of the amount of time needed to restore DBH PHI or PI should it be lost. At a minimum, the schedule must be a weekly full backup and monthly offsite storage of DBH data.

E. Paper Document Controls

1. Supervision of Data. DBH PHI or PI in paper form shall not be left unattended at any time, unless it is locked in a file cabinet, file room, desk or office. Unattended means that information is not being observed by an employee authorized to access the information. DBH PHI or PI in paper form shall not be left unattended at any time in vehicles or planes and shall not be checked in baggage on commercial airplanes.
2. Escorting Visitors. Visitors to areas where DBH PHI or PI is contained shall be escorted and DBH PHI or PI shall be kept out of sight while visitors are in the area.
3. Confidential Destruction. DBH PHI or PI must be disposed of through confidential means, such as cross cut shredding and pulverizing.
4. Removal of Data. Only the minimum necessary DBH PHI or PI may be removed from the premises of Contractor except with express written permission of DBH. DBH PHI or PI shall not be considered "removed from the premises" if it is only being transported from one of Contractor's locations to another of Contractor's locations.
5. Faxing. Faxes containing DBH PHI or PI shall not be left unattended and fax machines shall be in secure areas. Faxes shall contain a confidentiality statement notifying persons receiving faxes in error to destroy them. Fax numbers shall be verified with the intended recipient before sending the fax.
6. Mailing. Mailings containing DBH PHI or PI shall be sealed and secured from damage or inappropriate viewing of such PHI or PI to the extent possible.

Mailings which include 500 or more individually identifiable records of DBH PHI or PI in a single package shall be sent using a tracked mailing method which includes verification of delivery and receipt, unless the prior written permission of DBH to use another method is obtained.
