BACKGROUND INFORMATION

PSD operates the Head Start Program, Early Head Start Program, and State Preschool Program in San Bernardino County. The programs provide education, health, cognitive, social/emotional, physical growth and development, and parent involvement services for children ages 0 to 5 with the overall goal of increasing the school readiness of young children in economically disadvantaged families. COVID-19 and school closures do not affect the service provided to the children. The children have transitioned to distance learning. Throughout the pandemic, Head Start, Early Head Start, and Early Head Start-Child Care Partnership Programs teaching staff have continued their services to the children through virtual learning/engagement.

On October 27, 2020 (Item No. 58), the Board of Supervisors (Board) approved CIP 21-119 for the Barstow Shade Structure Project (WBSE 10.10.1116), in the amount of \$40,257. On

November 17, 2020 (Item No. 52), the Board approved CIP 21-168 for the Barstow Lot Acquisition and Renovations Project (WBSE 10.10.1133) in an amount of \$932,895. RESD-PM informed PSD of the need to increase the budgets for CIP 21-119 by \$14,200 and CIP 21-168 by \$200,000, for a total of \$214,200 in order to complete these two projects. Due to the COVID-19 pandemic, material and labor costs increased for the installation of Barstow shade structure project. The Barstow property vacant lot is being fully demolished in preparation for the parking lot. It is the responsibility of the County to properly abate all hazardous waste including asbestos and lead. During the environmental testing, it was discovered that during the asbestos abatement of the vacant building on the lot, there were wood plank walls and ceilings found (original structure) painted with lead based paint. The added cost of abatement results in a budget adjustment of approximately \$200,000.

In addition, PSD assessed physical and operational security elements at all of its Head Start locations in San Bernardino County. The assessments included viewing site and building conditions relative to safety of children, families, staff, and applying best practices for school security. There were 16 preschool sites need improvements to strengthen school security according to the assessments. Therefore, PSD is requesting to utilize savings from the general maintenance budget to fund security enhancement projects in a total amount of \$540,427 for the installation of bollards and fences at 16 preschool sites.

PSD is requesting to purchase a Lift Truck in the amount of \$23,000 to be used daily in a new warehouse for moving heavy personal protective equipment and supplies.

PSD will utilize savings in General Maintenance, Structure Improvement & Grounds budget category to fund the increase for the CIP projects and vehicle purchase listed in the Recommendations.

PROCUREMENT

RESD-PM will continue to manage the CIP projects. PSD will comply with the County Policy 11-04 for procurement of goods, supplies, equipment, and services to achieve cost savings and efficiency by consolidating requirements and by establishing material standards.
