- B. Contractor shall accept all payments from County via electronic funds transfer (EFT) directly deposited into the Contractor's designated checking or other bank account. Contractor shall promptly comply with directions and accurately complete forms provided by County required to process EFT payments.
- C. County is exempt from Federal excise taxes and no payment shall be made for any personal property taxes levied on Contractor or on any taxes levied on employee wages. The County shall only pay for any State or local sales or use taxes on the services rendered or equipment and/or parts supplied to the County pursuant to the Contract.
- D. Costs for services under the terms of this Contract shall be incurred during the contract period except as approved by County. Contractor shall not use current year funds to pay prior or future year obligations.
- E. Funds made available under this Contract shall not supplant any federal, state or any governmental funds intended for services of the same nature as this Contract. Contractor shall not claim reimbursement or payment from County for, or apply sums received from County with respect to that portion of its obligations that have been paid by another source of revenue. Contractor agrees that it will not use funds received pursuant to this Contract, either directly or indirectly, as a contribution or compensation for purposes of obtaining funds from another revenue source without prior written approval of the County.
- F. Contractor shall adhere to the County's Travel Management Policy (8-02 and 08-02SP1) when travel is pursuant to this Contract and for which reimbursement is sought from the County. In addition, Contractor is encouraged to utilize local transportation services, including but not limited to, the Ontario International Airport.

VII. INDEMNIFICATION AND INSURANCE REQUIREMENTS

A. Indemnification

The Contractor agrees to indemnify, defend (with counsel reasonably approved by County) and hold harmless the County and its authorized officers, employees, agents and volunteers from any and all claims, actions, losses, damages and/or liability arising out of this Contract from any cause whatsoever, including the acts, errors or omissions of any person and for any costs or expenses incurred by the County on account of any claim except where such indemnification is prohibited by law. This indemnification provision shall apply regardless of the existence or degree of fault

of indemnities. The Contractor indemnification obligation applies to the County's "active" as well as "passive" negligence but does not apply to the County's "sole negligence" or "willful misconduct" within the meaning of Civil Code section 2782.

B. Additional Insured

All policies, except for Worker's Compensation, Errors and Omissions and Professional Liability policies shall contain additional endorsements naming the County and its officers, employees, agents and volunteers as additional insureds with respect to liabilities arising out of the performance of services hereunder. The additional insured endorsements shall not limit the scope of coverage for the County to vicarious liability but shall allow coverage for the County to the full extent provided by the policy. Such additional insured coverage shall be at least as broad as Additional Insured (Form B) endorsement form ISO, CG 2010.11 85.

C. Waiver of Subrogation Rights

The Contractor shall require the carriers of required coverages to waive all rights of subrogation against the County, its officers, employees, agents, volunteers, contractors and subcontractors. All general or auto liability insurance coverage provided shall not prohibit the Contractor and Contractor's employees or agents from waiving the right of subrogation prior to a loss or claim. The Contractor hereby waives all rights of subrogation against the County.

D. Policies Primary and Non-Contributory

All policies required herein are to be primary and non-contributory with any insurance or self-insurance programs carried or administered by the County.

E. Severability of Interests

The Contractor agrees to ensure that coverage provided to meet these requirements is applicable separately to each insured and there will be no cross liability exclusions that preclude coverage for suits between the Contractor and the County or between the County and any other insured or additional insured under the policy.

F. Proof of Coverage

The Contractor shall furnish Certificates of Insurance to the County Department administering the Contract evidencing the insurance coverage at the time the Contract is executed, additional endorsements, as required shall be provided prior to the commencement of performance of services hereunder, which certificates shall provide that such insurance shall not be terminated or expire without thirty (30) days written notice to the Department, and Contractor shall maintain such insurance from the time Contractor commences performance of services hereunder until the completion of such services. Within fifteen (15) days of the commencement of this contract, the Contractor shall furnish a copy of the Declaration page for all applicable policies and will provide complete certified copies of the policies and endorsements immediately upon request.

G. Acceptability of Insurance Carrier

Unless otherwise approved by Risk Management, insurance shall be written by insurers authorized to do business in the State of California and with a minimum "Best" Insurance Guide rating of "A- VII".

H. Deductibles and Self-Insured Retention

Any and all deductibles or self-insured retentions in excess of \$10,000 shall be declared to and approved by Risk Management.

I. Failure to Procure Coverage

In the event that any policy of insurance required under this contract does not comply with the requirements, is not procured, or is canceled and not replaced, the County has the right but not the obligation or duty to cancel the contract or obtain insurance if it deems necessary and any premiums paid by the County will be promptly reimbursed by the Contractor or County payments to the Contractor will be reduced to pay for County purchased insurance.

J. Insurance Review

Insurance requirements are subject to periodic review by the County. The Director of Risk Management or designee is authorized, but not required, to reduce, waive or suspend any insurance requirements whenever Risk Management determines that any of the required insurance is not available, is unreasonably priced, or is not needed to protect the interests of the County. In addition, if the Department of Risk Management determines that heretofore unreasonably priced or unavailable types of insurance coverage or coverage limits become reasonably priced or available, the Director of Risk Management or designee is authorized, but not required, to change the above insurance requirements to require additional types of insurance coverage or higher coverage limits, provided that any such change is reasonable in light of past claims against the County, inflation, or any other item reasonably related to the County's risk.

Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this contract. Contractor agrees to execute any such amendment within thirty (30) days of receipt.

Any failure, actual or alleged, on the part of the County to monitor or enforce compliance with any of the insurance and indemnification requirements will not be deemed as a waiver of any rights on the part of the County.

The Contractor agrees to provide insurance set forth in accordance with the requirements herein. If the Contractor uses existing coverage to comply with these requirements and that coverage does not meet the specified requirements, the Contractor agrees to amend, supplement or endorse the existing coverage to do so.

Without in anyway affecting the indemnity herein provided and in addition thereto, the Contractor shall secure and maintain throughout the contract term the following types of insurance with limits as shown:

1. Workers' Compensation/Employer's Liability – A program of Workers' Compensation insurance or a state-approved, self-insurance program in an amount and form to meet all applicable requirements of the Labor Code of the State of California, including Employer's Liability with \$250,000 limits covering all persons including volunteers providing services on behalf of the Contractor and all risks to such persons under this contract.

If Contractor has no employees, it may certify or warrant to the County that it does not currently have any employees or individuals who are defined as "employees" under the Labor Code and the requirement for Workers' Compensation coverage will be waived by the County's Director of Risk Management.

With respect to Contractors that are non-profit corporations organized under California or Federal law, volunteers for such entities are required to be covered by Workers' Compensation insurance.

2. Commercial/General Liability Insurance – The Contractor shall carry General Liability Insurance covering all operations performed by or on behalf of the Contractor providing coverage for bodily injury and property damage with a combined single limit of not less than one million dollars (\$1,000,000), per occurrence. The policy coverage shall include:

 - b) Products and completed operations.
 - c) Broad form property damage (including completed operations).

The policy shall have a combined single limit of not less than one million dollars (\$1,000,000) for bodily injury and property damage, per occurrence.

If the Contractor is transporting one or more non-employee passengers in performance of contract services, the automobile liability policy shall have a combined single limit of two million dollars (\$2,000,000) for bodily injury and property damage per occurrence.

If the Contractor owns no autos, a non-owned auto endorsement to the General Liability policy described above is acceptable.

4. Umbrella Liability Insurance – An umbrella (over primary) or excess policy may be used to comply with limits or other primary coverage requirements. When used, the umbrella policy shall apply to bodily injury/property damage, personal injury/advertising injury and shall include a “dropdown” provision providing primary coverage for any liability not covered by the primary policy. The coverage shall also apply to automobile liability.

5. Professional Liability – Professional Liability Insurance with limits of not less than one million (\$1,000,000) per claim and two million (\$2,000,000) aggregate limits

or

Directors and Officers Insurance coverage with limits of not less than one million (\$1,000,000) shall be required for Contracts with charter labor committees or other not-for-profit organizations advising or acting on behalf of the County.

If insurance coverage is provided on a “claims made” policy, the “retroactive date” shall be shown and must be before the date of the state of the contract work. The claims made insurance shall be maintained or “tail” coverage provided for a minimum of five (5) years after contract completion.

VIII. RIGHT TO MONITOR AND AUDIT

- A. The County, State and Federal government shall have absolute right to review and audit all records, books, papers, documents, corporate minutes, and other pertinent items as requested, and shall have absolute right to monitor the performance of Contractor in the delivery of services provided under this Contract. IX. CORRECTION OF PERFORMANCE DEFICIENCIES

- A. Failure by Contractor to comply with any of the provisions, covenants, requirements or conditions of this Contract shall be a material breach of this Contract.
- B. In the event of a non-cured breach, County may, at its sole discretion and in addition to any other remedies available at law, in equity, or otherwise specified in this Contract:

1. Afford Contractor thereafter a time period within which to cure the breach, which period shall be established at the sole discretion of County; and/or
2. Discontinue reimbursement to Contractor for and during the period in which Contractor is in breach, which reimbursement shall not be entitled to later recovery; and/or
3. Withhold funds pending duration of the breach; and/or
4. Offset against any monies billed by Contractor but yet unpaid by County those monies disallowed pursuant to Item "b" of this paragraph; and/or
5. Terminate this Contract immediately and be relieved of the payment of any consideration to Contractor. In the event of such termination, the County may proceed with the work in any manner deemed proper by the County. Textile Replacement Loss Worksheet

All soiled linen containers unloaded from the trucks are identified with a customer account ticket; each container has a bar code on it. Every container is weighed, and the account number and tare weight of the container is scanned in with a hand held bar code scanner. The system then marries the gross weight, tare weight and customer number into a log file entry on the computer, one entry per container.

The purpose of these systems is to provide a basis to compare the weight of the incoming soiled linen from an account to the clean product delivered. This data will then be used to generate a textile cost profile.

For the system to be used as a tool to identify lost linen, it is important to know the average soiled weight of any item for any account. You must have a soiled linen sort station installed to accomplish this. The main components of the system are a floor scale, table, and control panel.

The sampling procedure to develop the soil weights of individual items is as follows:

1. In order to establish a representative soil unit weight, ten percent of the weekly usage of each item is counted during this process.
2. During the sampling period, soiled linen for the specific customer being counted, is segregated from the rest of the soil linen and directed to the test station.
3. An employee places an empty container on the scale and sets the tare weight to zero
4. Each item being sampled is counted separately. An employee throws each item separately into the container on the scale
5. At the completion of the counting for each item, we will have a total weight and total piece count. This data will be used to calculate the average soil unit weight of each item.
6. During the sampling period, the weight of all garbage returned with the soiled linen is captured on a daily basis.

Creation and explanation of the baseline data

Once we have the average soil unit weight for the items, the next step is to generate a theoretical soil return for the clean deliveries for the same period. The Replacement Cost Worksheet is used to develop two figures.

1. The average cost per pound of replacement merchandise for the account based on their specific product mix.
2. The overall soil/clean ratio (soil factor) of the specific account.

The elements of the report are as follows:

- Total Pieces – Total number of pieces of each product delivered for the period.
- Total Weight – Total clean pounds served during test period.
- Replacement Price – Cost of new product.
- Extended Replacement Cost – Total cost of pieces served times unit price.
- Average Soil Weight – The average soil weight per piece as determined by the soiled linen test sampling
- Extended Soil Weight – The total expected soil weight determined by multiplying the soil unit weight times the pieces served.
- The average replacement cost per pound is calculated by dividing the Extended Replacement Cost by the Total Weight
- The Soil Factor is calculated by subtracting the Total Weight from the Extended Soil Weight and then dividing this number by the Total Weight.

Weekly tracking of actual outcome

The actual loss calculations are performed on the Loss Calculation Worksheet. This worksheet simply calculates an expected soil return volume based on the sales volume and the soil unit weights of the pieces. This is listed as the Total Expected Soil Pounds. The rest of the elements:

- Gross Weighed Soil Pounds – This is the total weight of the soil in the containers returned to the plant.
- Clean COG Lbs. Delivered – This is the clean weight of any Customer owned goods (COG) returned to the customer in a specific week
- COG Soil lbs. – Projected soil weight of the clean COG lbs. based on the established soil factor for the account.
- Scrubs – Soil weight of scrubs returned in the white linen.
- Garbage– Weight of weekly garbage based on data compiled during the sampling period.
- Net Soil Pounds – The Gross Weighed Soil Pounds minus the COG Soil lbs., the Scrubs soil pounds, and the Garbage pounds.
- Soil Pounds Variance – The difference between the Expected Soil Pounds and the Net Soil Pounds.
- Soil Factor – The Soil/Clean ratio developed from the Replacement Cost Worksheet
- Clean Pounds Variance – The amount of clean pounds not returned based on the Soil Pounds Variance and the Soil Factor.
- Cost/Lb. – The composite cost of replacement product from the Replacement Cost Worksheet
- Net Loss Charge – The Clean Pounds Variance times the Cost/Lb.
