Y. Conflict of Interest:

- i. Contractor shall make all reasonable efforts to ensure that no conflict of interest exists between its officers, employees, or Subcontractors and the County. Contractor shall make a reasonable effort to prevent employees, consultants, or members of government bodies from using their positions for purposes that are or give the appearance of being motivated by a desire for private gain for themselves or others such as those with whom they have family, business, or other ties.
- ii. In the event that County determines that a conflict of interest situation exists, any increase in costs associated with the conflict of interest situation may be disallowed by County and such conflict may constitute grounds for termination of the Contract.

In any case of conflict between any of the documents mentioned above, and the specifications and drawings, the requirement that is the more restrictive shall govern. Nothing in these plans and specifications is to be construed to permit work not in conformance with these codes.

AA. Determination of Bidder Responsibility:

- i. Bidders are hereby notified that the County may determine whether the Bidder is responsible based on a review of the Bidder's performance on any contracts, including but not limited to County contracts. Particular attention will be given to violations of labor laws related to employee compensation and benefits, and evidence of false claims made by the Bidder against public entities. Labor law violations which are the fault of Subcontractor and of which the Bidder had no knowledge shall not be the basis of a determination that the Bidder is not responsible.
- ii. The County may declare a Bidder to be non-responsible for purposes of this contract if the Board of Supervisors, in its discretion, finds that the Bidder has done any of the following: (1) committed any act or omission which negatively reflects on the Bidder's quality, fitness or capacity to perform this contract with the County or a contract with any other public entity, or engaged in a pattern or practice which negatively reflects on same, (2) committed an act or omission which indicates a lack of business integrity or business honesty, or (3) made or submitted a false claim against the County or any other public entity.
- iii. The Department shall provide the Bidder and/or the Bidder's representative with an opportunity to present evidence as to why the Bidder should be found to be responsible and to rebut evidence which is the basis for the Department's recommendation. If the Bidder fails to avail itself of the opportunity to rebut the Department's evidence, the Bidder may be deemed to have waived all rights of appeal.
- iv. If the Bidder presents evidence in rebuttal to the Department, the Department shall evaluate the merits of such evidence, and based on that evaluation, make a recommendation to the Board of Supervisors. The final decision concerning the responsibility of the Bidder shall reside with the Board of Supervisors.
- v. These terms shall also apply to all Subcontractors that are to be utilized during this Contract and as proposed for individual Job Orders.

### BID.

The five (5) responsible and responsive bidders who submitted the lowest Award Criteria Figures shall be awarded the contract if they are awarded. The five (5) lowest Award Criteria Figures will be considered the lowest bids. The Award Criteria Figure will be determined by utilizing the following award formula: Factor 1 will be multiplied by .50 and Factor 2 will be multiplied by .30. These numbers will be summed for an Award Criteria Figure, and the five (5) lowest composite bids will be considered the five (5) low bids. The number of contracts listed above is only an estimate for the number of contracts to be awarded. The actual number of contracts to be awarded will be determined after the bid opening, based on the needs of the County.

Any alteration or addition to the form of Bid Proposal will invalidate the same. Fill out completely all blank spaces. An incomplete form will invalidate the bid.

All Adjustment Factors include applicable California state sales, tax, bonds, insurance and all other costs required to perform the Job Orders as described in the Bid Documents.

ADJUSTMENT FACTORS:

The Adjustment Factors will be used to price out fixed price Job Orders by multiplying the Adjustment Factor by the Unit Prices and quantities. The Contractor's two (2) Adjustment Factors will be applied against the prices set forth in the Unit Price Book. The Adjustment Factors are as follows:

Zone 1: Factor 1 –Normal Working Hours (7:00 a.m. to 5:00 p.m. Monday through Friday).

The award formula below is an integral part of this Bid Proposal, and to be responsive, the bidder shall quote for the total works above, and also shall complete the award formula below to determine the Award Criteria Figure.

#### AWARD FORMULA

Line 1: Zone 1, Factor 1 \_\_\_\_\_

Line 2: Multiply Line 1 by (.50) \_\_\_\_\_

Line 3: Zone 1, Factor 2 \_\_\_\_\_

Line 4: Multiply Line 3 by (.30) \_\_\_\_\_

Line 5: Add Lines 2, 4 \_\_\_\_\_

The above Adjustment Factors are to be specified to four decimal places. Any alteration, erasure, or change must be clearly indicated and initialed by the bidder. All prices and information required on the bid form must be either typewritten or neatly printed in ink (use figures only). San Bernardino County reserves the right to revise all arithmetic errors in calculations for correctness. The Bid factor of each item on the Proposal must be stated in words and numerals; in case of a conflict, words will take precedence. In the case of a discrepancy between the written bid or numerical bid set forth on the Bid Proposal, and the numerical bid set forth in the ePro system, the information on the Bid Proposal shall prevail. The County reserves the right to reject any and all bids and to waive any irregularities.

All Unit Prices listed in the Construction Task Catalog® are priced at a net value of 1.0000. The Adjustment Factors shall be an increase or decrease to all the Unit Prices listed in the Construction Task Catalog®. For example, 1.1000 would be a 10% increase to the Unit Prices and 0.9500 would be a 5% decrease to the Unit Prices. Bidders who submit separate Adjustment Factors for separate Unit Prices will be considered non-responsive and their bid will be rejected.

The weighted multipliers above are for the purpose of calculating an Award Criteria Figure only. No assurances are made by the County that Work will be ordered under the Contract in a distribution consistent with the weighted percentages above. The Award Criteria Figure is only used for the purpose of determining the Bid.

When submitting Job Order Price Proposals related to specific Job Orders, the Bidder shall utilize one or more of the Adjustment Factors applicable to the Work being performed.

Contractors are cautioned that making a false certification may subject the Contractor to civil penalties, termination of existing contract, and ineligibility to bid on a contract for a period of three (3) years in accordance with Public Contract Code section 2205.

#### **BB. Bonds**

Contractor will furnish a payment bond in an amount equal to one hundred percent (100%) of the potential Maximum Contract Value of the Contract, and a faithful performance bond in an amount equal to one hundred percent (100%) of the potential Maximum Contract Value of the Contract, said bonds to be secured from a surety company satisfactory to the County within ten (10) calendar days of the contract award. Bonds shall remain in full force and effect for a period of one (1) year. The bonds will meet all requirements as stated in the General Conditions.

#### **CC. Indemnification**

To the fullest extent possible permitted by law, Contractor assumes liability for and agrees, at the Contractor's sole cost and expense, to promptly and fully indemnify, defend (with counsel reasonably approved by County) (even if the allegations are false, fraudulent, or groundless), and hold harmless the County and its authorized officers, employees, agents and volunteers (Indemnitees) from and against any and all claims (including claims against the County seeking compensation for labor performed or materials used or furnished to be used in the work or alleged to have been furnished on the project, including all incidental or consequential damages resulting to the County from such claims), allegations, actions, suits, arbitrations, administrative proceedings, regulatory proceedings, or other legal proceedings, demands, losses, costs, damages, judgments, liens, stop notices, penalties, anticipated losses of revenue and/or liability, and expenses (including, but not limited to, any fees of accountants, attorneys, experts or other professionals, or investigation expenses) arising out of, resulting from, or in any way (either directly or indirectly) related to the contract, the work, the project or any breach of the Contract by Contractor (or any of its officers, agents, employees, subcontractors, or any person performing any of the work, or from any cause whatsoever, including the acts, errors or omissions of any person and for any costs or expenses incurred by the Indemnitees on account of any claim except where such indemnification is prohibited by law. This indemnification provision shall apply regardless of the existence or degree of fault of indemnitees. The Contractor's indemnification obligation applies to the Indemnitee's "passive" negligence but does not apply to the Indemnitee's "sole" or "active" negligence or "willful misconduct" within the meaning of Civil Code section 2782 provided such "active" negligence or "willful misconduct" is determined by agreement of the parties or by findings of a court. In instances where an Indemnitee's "active" negligence accounts for only a percentage of the liability for the claim involved, the obligation of the Contractor will be for that entire percentage of liability for the claim not attributable to the "active" negligence or "willful misconduct" of the Indemnitees. The County shall be consulted with regard to any proposed settlement.

The duty of the Contractor to indemnify and hold harmless the Indemnitees includes the separate and independent duty to defend the Indemnitees, which duty arises immediately upon receipt by Contractor of the tender of any claim from the County. The Contractor's obligation to defend the County shall be at Contractor's sole expense, and not be excused because of the Contractor's inability to evaluate liability or because the Contractor evaluates liability and determines that the Contractor is not liable. The duty to defend shall apply whether or not a claim has merit or is meritless,

or which involves claims or allegations that any or all of the Indemnitees were actively, passively, or concurrently negligent, or which otherwise asserts that the Indemnitees are responsible, in whole or in part, for any claim. The Contractor shall respond within thirty (30) calendar days to the tender of any claim for defense and/or indemnity by the County, unless the County agrees in writing to an extension of this time. The defense provided to the Indemnitees by Contractor shall be by well qualified, adequately insured, and experienced legal counsel acceptable to the County Counsel.

It is the intent of the parties to the Contract that the Contractor and its subcontractors of all tiers shall provide the Indemnitees with the broadest defense and indemnity permitted by law. In the event that any of the defense, indemnity, or hold harmless provisions are found to be ambiguous, or in conflict with one another, it is the parties' intent that the broadest and most expansive interpretation in favor of providing defense and/or indemnity to the Indemnitees be given effect.

Contractor shall ensure, by written subcontract agreement, that each of Contractor's subcontractors of every tier shall protect, defend, indemnify and hold harmless the Indemnitees with respect to all claims arising out, in connection with, or in any way related to each such subcontractor's work in the same manner in which Contractor is required to protect, defend, indemnify, and hold the Indemnitees harmless. In the event Contractor fails to obtain such defense and indemnity obligations from its subcontractors as required herein, Contractor agrees to be fully responsible to the Indemnitees according to the terms of this Section.

Contractor's indemnification and defense obligations set for in this Section are separate and independent from the insurance requirements and do not limit, in any way, the applicability, scope, or obligations set forth in such insurance requirements. The purchase of insurance by the Contractor with respect to the obligations required herein shall in no event be construed as fulfillment or discharge of such obligations.

Contractor's obligations under this Section are binding on Contractor's and its subcontractors' successors, heirs and assigns and shall survive the completion of the work or termination of the Contractor's performance of the work.
