ICEMA, as the local Emergency Medical Services (EMS) agency, is responsible for ensuring effective EMS for the Counties of San Bernardino, Inyo, and Mono. ICEMA administers State and local codes and regulations governing the provision of emergency medical care to the sick and injured at the scene of an emergency and during transport to a care hospital.

On June 4, 2013 (Item No. 69), the Board of Directors (Board) for ICEMA approved Revenue Contract No. 13-344 with the State of California, Emergency Medical Services Authority (EMSA) in the amount of \$611,216 to provide data collection and maintenance of statewide EMS and trauma data for a period of three years, from July 1, 2013 to June 30, 2016. The contract allowed ICEMA to serve as the central repository for statewide EMS data and provide a valuable tool for local EMS system quality improvement, improved EMS system management, and the ability to benchmark against and comply with existing EMS national standards. Additionally, the trauma data provided useful information for research and quality assessment to inform clinicians and policy makers about methods to optimize the care of injured patients. This contract was approved for amendment by the Board on May 24, 2016 (Item No. 181), and on May 2, 2017 (Item No. 74), to increase the contract to a total of \$972,204 and extend through June 30, 2018.

On September 11, 2018 (Item No. 65), the Board approved a new Revenue Contract No. 18-669 to receive \$804,306 (\$268,102 per year) for providing data collection and maintenance of the statewide EMS and trauma data for a period of three years, from July 1, 2018 through June 30, 2021, with an option to renew two additional one-year periods. EMSA is now requesting the system to include Stroke, STEMI and EMSC data, which will require upgrading and modifications.
