FEE PROPOSAL SHEETS (ATTACHMENT E) FOR

On-Call Services for Regulatory Assistance and Related Services to the San Bernardino County NPDES Stormwater Programs Bid No. PWG125-LANDD-5556

PREPARED BY

in association with

PREPARED FOR

County of San Bernardino &
San Bernardino Flood Control District

RFP Number: PWG125-LANDD-5556

RFP Title: On-Call Services for Regulatory Assistance and Related Services to the San Bernardino County NPDES Stormwater Programs

Name of the Proposer: Larry Walker Associates, Inc. in collaboration with Olaunu, LLC

The fee proposal sheets for the LWA Team (LWA and Olaunu) are attached and outline the labor and expense rates to be used to perform the RFP Section V. Scope of Work items on an as-needed basis. The time and materials portion of the fee proposal (fee schedules) reflects:

- Hourly rates for all employees and disciplines who will perform work on this Contract;
- Direct charge rates, such as mileage (at current IRS or governmental rate), reproductions, travel, etc. as assigned by the District/County;
- Reimbursable expenses;
- Specific costs for specific services;
- Flat fees, as applicable; and
- Mark-up percentage on outsourced, subcontracted, or other services (capped at 10%).

Each fee schedule identifies a single set of rates to apply to all fiscal years (2024-2025, 2025-2026, 2026-2027, 2027-2028, 2028-2029).

The LWA Team understands and will abide by the District/County’s conditions for reimbursement:

- Only costs directly incurred in the preparation and delivery of a work product are reimbursable.
- Only mileage for travel within San Bernardino County limits are reimbursable. The distance would be calculated using either the address for the District’s office (825 E. Third Street, San Bernardino, CA 92415) as the starting point, or the point where personnel cross the County line if traveling from LWA’s or Olaunu’s closest office, whichever is closer.
- Indirect project costs, i.e., overhead, general, and administrative costs (including, but not limited to, contract and project review, task order preparation, invoicing, etc.), will not be separately reimbursed.
- Use of “tools of the trade”, including computer equipment, vehicle usage other than mileage, sample collection equipment, camera, and other tools needed to get to a site and perform required activities, are not reimbursable.
- Rental cost for instrumentation is reimbursable. Shipping and delivery costs related to rented equipment will not be reimbursed.

LARRY WALKER ASSOCIATES, INC.
