PLANNING APPEAL INFORMATION	Description of Appeal	Appealing the Planning Commission's approval of a liquor store with gas pumps (the "Project") in an area that already has enough liquor stores and that the County has designated to accommodate a major portion of its RHNA for very low-, low- and moderate-income housing. Also appealing the Planning Commission's approval of the Initial Study/Mitigated Negative Declaration the contract planner prepared for the Project because it is woefully inadequate and he should have prepared an environmental impact report instead. Appellant seeks reversal of the Planning Commission's approval of the Project and the IS/MND. Appellant will present corroborating documentation to the Board at its hearing on this appeal.
