☒ I am requesting support for an existing primary care residency program of Family Medicine, Internal Medicine, OB/GYN, or Pediatrics.

☐ **Teaching Health Center Slots**

☐ My program acknowledges that if applying for both THC and Existing funding, we can only apply for a combined total of 11 unique filled first-year slots (5 Existing slots and 6 THC slots), not to exceed the program's total number of filled first-year positions.

☐ My program is a community-based ambulatory patient care center, operating a primary care residency program.

☐ My sponsoring institution of the residency program is a qualified Teaching Health Center or an educational consortium that includes a health center.

☐ **Expansion Slots**

☐ My program has received ACGME or AOA approval to permanently expand.

—

☐

My program's approval to expand is effective after July 1, 2024.

☐

My program's expansion is for categorical primary care positions.

Program Data

Select the data you will be reporting: *

Student and Graduate data

Would you like to import graduate and training site data from your last application?*

☒ No ☐ Yes

The residency program has been in continuous operation since what year? *

2013

You have chosen expansion funding, which academic year would the filled first-year resident/s start the program?

Do your non-first-year residents spend or plan to spend at least an average of eight hours per week at a primary care continuity clinic?*

Yes

Executive Summary

Executive Summary*

"The Mission of the Arrowhead Regional Medical Center (ARMC) Primary Care Track is to train racially and ethnically diverse internal medicine residents who are competent and culturally sensitive and who desire to practice in underserved areas after completing residency. San Bernardino County ranks in the bottom tier of counties in California for patient to primary care physician ratio and ranks in the lowest 15 for overall health outcomes. ARMC has set goals to develop expertise in our residents related to health disparities, advocacy and population health to improve population level outcomes in both of these metrics.

Internal Medicine residents spend most their residency training in San Bernardino County at ARMC. The Continuity Clinic is onsite at ARMC with the majority of the patient population being Hispanic or Latino and over 81 percent of the patients seen in the Continuity Clinic have Medi-Cal or managed care Medi-Cal.

In their time at ARMC residents are exceptionally trained in their ACGME mandatory sub-specialty rotations with the goal of being competent to practice Internal Medicine in areas of physician shortages without tertiary care centers. Residents are exposed to low income patients in the inpatient and outpatient setting and learn about the difficulties many individuals face with complex care needs and very limited resources. At ARMC, our residents work in interdisciplinary teams to address the cultural, social or economic barriers our patients experience.

The ARMC Internal Medicine Program participates in teaching medical students from Loma Linda University Health, Saint Georges University, Western University, California University of Science and Medicine (CUSM), and University of California-Riverside Medical School (UCR). Beginning in July 2020, CUSM will be located on the ARMC campus. CUSM has a focus on targeting low-income, minority individuals coming from the region to enroll as students. Finally, the program is finished its expansion of the program from 12 residents per year up to 16 residents per year.
