Project # 223382

Location: 542 CYPRESS ROAD CEDAR GLEN

Subject: Grade & Riser Setback

Accurate finish grade and riser locations are necessary to complete the integrity of the gas installation. The Gas Company installation crew will install the gas risers to the location and grade that developer provides. In the event of a location or grade change, or any other reason that a riser location is deemed to be unsatisfactory, such as, too close to an air conditioner, or too close to a source of ignition, etc., all relocating costs incurred are the responsibility of the developer.

Thank you for your cooperation.
