recent auctions of similar fixed assets. The funds raised by the sale of the fixed assets identified in Recommendation No. 1 will be used to pay any applicable auction fees. Any remaining funds will be deposited into the San Bernardino County Flood Control District (District) Equipment Fund (1970004140) to assist in the purchase of future equipment, as needed.

BACKGROUND INFORMATION

The District owns and operates a number of vehicles and heavy equipment pursuant to its mission of maintaining District facilities. District staff has determined that it is no longer economically beneficial for the District to continue to maintain and/or repair the surplus assets identified in Recommendation No. 1.

The surplus assets have been replaced by newer units, which produce fewer emissions in accordance with mandates from the California Air Resources Board. Selling the older units will help the District achieve the required fleet percentage for vehicle emissions. Heavy equipment that does not meet air quality standards must be sold out of state.

Once approved for surplus, the equipment will be divided into lots of equal value and sent to the County's contracted auction vendors for disposition, coordinated through the Purchasing Department, Surplus Property Division, in accordance with County Policy No. 12-18 SP1.

PROCUREMENT

Not applicable.
