* The Environmental Surcharge is calculated at 4% of the invoice sub-total and is in addition to the Fuel Surcharge.

* Shred trucks used to render onsite destruction services consume significantly more fuel than trucks used for offsite services.

Calculation example:

If your invoice subtotal is \$100, and the U.S. National Weekly Retail On-Highway Diesel Prices is \$3.75 / U.S. gallon, the Offsite Fuel Surcharge would be 13.0% (15.0% for Onsite Service) based on the table above.
