AWM will continue to perform assigned site inspections of licensed junk dealer and recycler establishments, which are also licensed as Weighmasters, to determine compliance with the California Business and Professions Code. Inspections include the verification that the finger printing equipment and photograph/camera is functioning and in good working order, confirmation that commercial weighing devices are sealed, and the review of storm water permit requirements. CDFA, DMS determined that these inspections should be performed by counties because of the widespread distribution of junk dealer and recycler establishments.
