The State mandates counties to develop and implement a Cultural Competency Plan (CCP). This Plan applies to all DBH services. Policies and procedures and all services must be culturally and linguistically appropriate. Contract agencies are included in the implementation process of the most recent State approved CCP for San Bernardino County and shall adhere to all cultural competency standards and requirements. 1. Cultural and Linguistic Competency

Cultural competence is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among

consumer providers and professionals that enables that system, agency, or those professionals and consumer providers to work effectively in cross-cultural situations.

Providing mental health and substance use disorder treatment services in a culturally appropriate and responsive manner is fundamental in any effort to ensure success of high quality and cost-effective behavioral health services. Offering those services in a manner that fails to achieve its intended result due to cultural and linguistic barriers does not reflect high quality of care and is not cost-effective.
- g. To assist Contractor's efforts towards cultural and linguistic competency, DBH shall provide the following:

The Department of Behavioral Health (DBH and also referred to as County herein) recognizes the importance of the Pre-Forensic Examination Counseling Services provided by the physicians, nurse practitioners and registered nurses at Loma Linda University (LLU), as necessary to minimize the trauma of the examination and decrease the psychological distress associated with child abuse allegations.

I. PURPOSE

Physicians, Nurse Practitioners, and Registered Nurses employed by Loma Linda University (LLU and also referred to as Contractor herein) will perform necessary pre-forensic examination counseling services for children and youth ages 0-18 throughout San Bernardino County, who are referred to the Children's Assessment Center (CAC) and the Resiliency Institute for Childhood Adversity (RICA) Clinic, to assist in the evaluation of child abuse allegations. The program will also provide access and linkage to treatment to children and youth with severe mental health conditions and include strategies that improve timely access to mental health treatment for underserved populations and reduce and circumvent stigma and discrimination related to being diagnosed with a mental health condition, having a mental health condition, or seeking mental health services.

II. PERSONS TO BE SERVED

Children and adolescents in San Bernardino County who are suspected of having experienced physical and/or sexual abuse who are referred to the Children's Assessment Center (CAC) and the Resiliency Institute for Childhood Adversity (RICA) Clinic for a Forensic Examination. The Contractor will serve an estimated of **1,381** unduplicated children and youth annually.

III. PROGRAM DEFINITIONS

- A. **Access and Linkage to Treatment Program or Strategy** – A set of related activities to connect children and youth with severe mental health conditions, as early in the onset of these conditions as practicable, to medically necessary care and treatment including, but not limited to, care provided by county mental health programs.
- B. **Community and/or Practice-Based** – A set of practices that communities have used and determined to yield positive results by community consensus over time, which may or may not have been measured empirically.
- C. **Early Intervention Program** – Program offering treatment or other services and interventions, including relapse prevention, to address and promote recovery and related functional outcomes for a mental health condition early in its emergence.
- D. **Improve Timely Access to Mental Health Services for Individuals and/or Families from Underserved Populations** – To increase the extent to which an individual or family from an underserved population, who needs mental health services because of

risk or presence of a mental health condition, receives appropriate services as early in the onset as practicable, through program features such as accessibility, cultural and language appropriateness, transportation family focus, hours available, and cost of services.

- E. **Indicated Prevention** – Prevention efforts provided to individuals who are clearly indicated as being at risk for mental health or substance use disorders. The pre-forensic counseling services provided through this program are considered an indicated prevention service due to the population being served.
- F. **Mental Health Services** – The individual or group therapies and interventions that are designed to provide reduction of mental disability and restoration, improvement or maintenance of functioning consistent with the goals of learning, development, independent living and enhanced self-sufficiency and that are not provided as a component of adult residential services, crisis residential treatment services, crisis intervention, crisis stabilization, day rehabilitation, or day treatment intensive. Service activities may include but are not limited to assessment, collateral, therapy, rehabilitation, and plan development.

- I. **Prevention Program** – Program offering a set of related activities to reduce risk factors for developing a potentially serious mental health condition and to build protective factors.
- J. **Promising Practices** – Activities for which there is research demonstrating effectiveness, including strong quantitative and qualitative data showing positive outcomes, but the research does not meet standards used to establish evidence-based practices and does not have enough research or replication to support generalizable positive public health outcomes.
- K. **Risk Factors** – Conditions or experiences that are associated with a greater than average risk of developing a potentially serious mental health condition. Risk factors include, but are not limited to, biological including family history and neurological, behavioral, social/economic, and environmental.
- L. **Serious Mental Health Condition** – Condition that is severe in degree and persistent in duration, which may cause behavioral functioning which interferes substantially with the primary activities of daily living, and which may result in an inability to maintain stable adjustment and independent functioning without treatment, support, and

rehabilitation for a long or indefinite period of time. These mental health conditions include, but are not limited to, schizophrenia, bipolar disorder, post-traumatic stress disorder, as well as major affective disorders or other severely disabling mental disorders.

All electronic files that contain DBH PHI or PI data must be encrypted when stored on any removable media or portable device (i.e. USB thumb drives, floppies, CD/DVD, Blackberry, backup tapes, etc.). Encryption must be a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES.

5. Antivirus / Malware Software. All workstations, laptops and other systems that process and/or store DBH PHI or PI must install and actively use comprehensive anti-virus software / Antimalware software solution with automatic updates scheduled at least daily.
6. Patch Management. All workstations, laptops and other systems that process and/or store DBH PHI or PI must have all critical security patches applied with system reboot if necessary. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within thirty (30) days of vendor release. Applications and systems that cannot be patched within this time frame due to significant operational reasons must have compensatory controls implemented to minimize risk until the patches can be installed. Application and systems that cannot be patched must have compensatory controls implemented to minimize risk, where possible.
7. User IDs and Password Controls. All users must be issued a unique username for accessing DBH PHI or PI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password. Passwords are not to be shared. Passwords must be at least eight characters and must be a non-dictionary word. Passwords must not be stored in readable format on the computer. Passwords must be changed at least every ninety (90) days, preferably every sixty (60) days. Passwords must be changed if revealed or compromised. Passwords must be composed of characters from at least three of the following four groups from the standard keyboard:
 - a. Upper case letters (A-Z)
 - b. Lower case letters (a-z)
 - c. Arabic numerals (0-9)

8. Data Destruction. When no longer needed, all DBH PHI or PI must be wiped using the Gutmann or U.S. Department of Defense (DoD) 5220.22-M (7 Pass) standard, or by degaussing. Media may also be physically destroyed in accordance with NIST Special Publication 800-88. Other methods require prior written permission of DBH's Office of Information Technology.
9. System Timeout. The system providing access to DBH PHI or PI must provide an automatic timeout, requiring re-authentication of the user session after no more than twenty (20) minutes of inactivity.
10. Warning Banners. All systems providing access to DBH PHI or PI must display a warning banner stating that data is confidential, systems are logged, and system use is for business purposes only by authorized users. User must be directed to log off the system if they do not agree with these requirements.

The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users. If DBH PHI or PI is stored in a database, database logging functionality must be enabled. Reviews should include vulnerability scanning tools.
2. Log Review. All systems processing and/or storing DBH PHI or PI must have a routine procedure in place to review system logs for unauthorized access.
3. Change Control. All systems processing and/or storing DBH PHI or PI must have a documented change control procedure that ensures separation of duties and protects the confidentiality, integrity and availability of data.

D. Business Continuity/Disaster Recovery Controls

1. Emergency Mode Operation Plan. Contractor must establish a documented plan to enable continuation of critical business processes and protection of the security of DBH PHI or PI held in an electronic format in the event of an emergency.
