

**ATTACHMENT I**  
2021-22 Proposed Rates  
Assessor-Recorder-County Clerk

The Assessor/Recorder/County Clerk (ARC) is responsible for managing the County Archives by identifying, collecting, acquiring, preserving, arranging, and making accessible records of historical significance created by County departments. Archival records are defined as anything created or received by County departments or officials in the conduct of their affairs that is known to have historical and permanent research value.

The ARC establishes service rates for County departments that use County Archives to adequately fund and improve Archives operations. Costs to the departments are based on usage. The ARC is not recommending rate changes for 2021-22.

<b>Service</b>	<b>Current Rate</b>	<b>Proposed Rate</b>
Storage	\$2.42 per cubic foot	No change
