- 1. Cultural and Linguistic Competency

Cultural competence is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers and professionals that enables that system, agency, or those professionals and consumer providers to work effectively in cross-cultural situations.

Providing mental health and substance use disorder treatment services in a culturally appropriate and responsive manner is fundamental in any effort to ensure success of high quality and cost-effective behavioral health services. I. DEFINITION OF RECOVERY, WELLNESS, AND RESILIENCE AND REHABILITATIVE MENTAL HEALTH SERVICES

- A. Mental Health Recovery, Wellness, and Resilience (RWR) is an approach to helping the individual to live a healthy, satisfying, and hopeful life according to his or her own values and cultural framework despite limitations and/or continuing effects caused by his or her mental illness. RWR focuses on client strengths, skills and possibilities, rather than on illness, deficits, and limitations, in order to encourage hope (in staff and clients) and progress toward the life the client desires. RWR involves collaboration with clients and their families, support systems and involved others to help take control of major life decisions and client care. RWR encourages involvement or re-involvement of clients in family, social, and community roles that are consistent with their values, culture, and preferred language; it facilitates hope and empowerment with the goal of counteracting internal and external “stigma”; it improves self-esteem; it encourages client self-management of his/her life and the making of his/her own choices and decisions, it re-integrates the client back into his/her community as a contributing member; and it achieves a satisfying and fulfilling life for the individual. It is believed that all clients can recover, even if that recovery is not complete. This may at times involve risks as clients move to new levels of functioning. The individual is ultimately responsible for his or her own recovery choices.

For children, the goal of the RWR philosophy of care is to help children (hereinafter used to refer to both children and adolescents) to recover from mistreatment and trauma, to learn more adaptive methods of coping with environmental demands and with their own emotions, and to joyfully discover their potential and their place in the world. RWR focuses on a child’s strengths, skills, and possibilities rather than on illness, deficits and limitations. RWR encourages children to take increasing responsibility for their choices and their behavior, since these choices can lead either in the direction of recovery and growth or in the direction of stagnation and unhappiness. RWR encourages children to assume and to regain family, social, and community roles in which they can learn and grow toward maturity and that are consistent with their values and culture. RWR promotes acceptance by parents and other caregivers and by the community of all children, regardless of developmental level, illness, or disability, and it addresses issues of stigma and prejudice that are related to this.

This may involve interacting with the community group's or cultural group's way of viewing mental and emotional problems and differences.

"Rehabilitation" is a strength-based approach to skills development that focuses on maximizing an individual's functioning. Services will support the individual in accomplishing his/her desired results. Families, caregivers, human service agency personnel and other significant support persons should be encouraged to participate in the planning and implementation process in responding to the individual's needs and desires, and in facilitating the individual's choices and responsibilities.

- B. Here, the Contractor will join the existing child and family mental health services continuum of care providing Children's Intensive Rehabilitative Outpatient services to referred children, adolescents and Transitional-Age-Youth (TAY) who are seriously emotionally disturbed. Effective service implementation will involve collaboration with DBH liaisons, contract monitor, and child placing partners. Accordingly, program staffing should be multi-disciplinary and reflect the cultural, linguistic, ethnic, age, gender, sexual orientation and other social characteristics of the community in which the child resides. Families, caregivers, human service agency personnel and other significant support persons should be encouraged to participate in the planning and implementation process in responding to the individual's needs and desires, and in facilitating the individual's choices and responsibilities. Programs may be designed to use both licensed and non-licensed personnel who are experienced in providing mental health services.
- C. All outpatient contract agencies are required to provide services under Title 9, Chapter 11, Section 1810.249, which superseded the rehabilitation option and targeted case management guidelines of July 1, 1993, and more recent guidelines as may be incorporated or referenced herein by attachment. Minimum guidelines are detailed in Section III, "DESCRIPTION OF SPECIFIC SERVICES TO BE PROVIDED" of this Addendum.

II. PERSONS TO BE SERVED

- A. Contractor shall provide mobile crisis response to any individual of any age, gender, ethnicity, or race who is experiencing a mental health crisis and who has been determined by DBH's Crisis Contact Center (CCC) triage staff to require a field response.
- B. Mobile crisis response is available to all cities within the East/Central/West Valleys, and in most High Desert cities.
- C. Phone, text, and telehealth services may be provided to individuals in any city within San Bernardino County which includes East, Central and West Valleys, High Desert, Low/Eastern Desert, and Mountain regions in accordance with the Description of Specific Services to Be Provided article of this Addendum, section IV.C.

- E. Contractor shall provide mental health services to San Bernardino County residents in the least restrictive manner by providing services on site where the individual is experiencing the mental health crisis.

IV. DESCRIPTION OF SPECIFIC SERVICES TO BE PROVIDED

- A. Contractor shall provide mobile crisis responses to individuals experiencing a behavioral health crisis. Hours of operation are 6:00 p.m. to 8:00 a.m., 7 days per week, 365 days per year, including holidays. Contractor will receive referrals directly from the DBH's Crisis Contact Center (CCC).
- B. Contractor is expected to answer each call and respond out into the field via mobile response within time frames outlined in BHIN 23-025 or most current guidance issued by DHCS. Pursuant to BHIN 23-025, mobile crisis teams shall arrive:
 - i. Within 60 minutes of the individual being determined to require mobile crisis services in urban areas, and
 - ii. Within 120 minutes of the individual being determined to require mobile crisis services in rural areas.
 - a. A rural area is defined as an area with less than 50 people per square mile.
- C. Services include crisis intervention via field response or telehealth, as appropriate.
 - 1. There may be situations in which DBH CCC determines that a field response is safe and appropriate; the consumer agrees to the response; the call is routed to the Contractor; and the nature of the call, needs of the consumer, or other situational factors change after the CCC provides a warm handoff to the Contractor. In these instances, Contractor may provide telehealth (audio and/or video) services. Such instances may include:
 - a. If the individual requests telehealth services only, or
 - b. If the location of the crisis is not within a service area, or
 - c. A team is not available to respond to a service location, or
 - d. For the safety of the team or individual, the most appropriate level of service is via telehealth.
 - 2. One (1) of the required mobile crisis responders may participate in a field response via telehealth in accordance with the "Staffing" chapter of this Addendum.
- D. Additionally, follow-up services must be provided within 72 hours of the initial crisis response to support the individual and/or family.
 - 1. If Contractor is unable to provide follow-up services, DBH must be notified within 48 hours of the response so that follow-up may be provided in the remaining 24 hours and ensure appropriate billing. In these instances, Contractor must notate in the chart that DBH provided the follow-up check-in.

- E. Crisis intervention services include but are not limited to conducting a crisis assessment, de-escalation and intervention strategies, stabilization, W&I Code §5150/5585 application, safety planning, referrals and linkages, transportation to hospital, psychiatric facility, Crisis Stabilization Unit facility, or Crisis Walk-In Clinic, hospital sits, and follow-up supportive services.

1. Transportation:

- a. Transportation determination is based on staff and consumer safety and is taken into consideration before each transport.
- b. A mobile crisis team shall arrange for or provide transportation to an appropriate level of care or treatment setting. The mobile crisis team may transport the beneficiary directly as part of providing the mobile crisis service. If the mobile crisis team cannot provide transportation itself, or if there are outstanding medical or safety concerns, the mobile crisis team shall coordinate with non-medical transportation (NMT) providers, emergency medical services (EMS), or law enforcement, if necessary, to arrange transportation and ensure the beneficiary is connected with appropriate care. If EMS, NMT, or law enforcement is utilized to transport the beneficiary directly to a higher level of care, the mobile crisis team shall remain onsite until the transportation provider arrives. At its discretion, the mobile crisis team may have one or more team members accompany the beneficiary inside the vehicle to the higher level of care.

2. Hospital Sits:

- a. Hospital sits consist of sitting with an individual who has been placed on an involuntary psychiatric hold pursuant to WIC sections 5150 or 5585 and is awaiting admittance to an inpatient psychiatric unit or to Arrowhead Regional Medical Center's Psychiatric Emergency Services Unit.
- b. The Contractor is expected to stay with the individual until admitted to the psychiatric unit. The length of each stay is unique; therefore, there is no specific amount of time allocated to the expectation of each sit. Hospital sits may occur:
 - i. when providing relief to law enforcement so they can return to the community to provide public safety services, or
 - ii. when Contractor staff has completed a 5150/5585 application and the individual is awaiting admittance to a psychiatric unit.
- c. If Contractor is on a sit at 8:00 a.m., Contractor may contact DBH CCS for relief and provide a warm hand-off to CCS staff. If no CCS staff are available to relieve Contractor staff at the hospital,

Contractor will remain on the sit for the full needed duration. CCS will contact the Contractor as soon as CCS staff become available to take over the sit. It will then be determined if CCS will take over the sit or if the Contractor will remain.

V. BILLING UNIT

For Medi-Cal eligible mobile crisis responses meeting specified criteria, the billing unit is by the encounter. Services may be billed by the encounter for Medi-Cal beneficiaries only. Each encounter must include at minimum, and associated chart documentation must reflect:

- B. Mobile crisis response
- C. Crisis planning
- D. Follow-up check-ins

For those mobile crisis responses that do not meet the above criteria, Contractor shall provide crisis intervention services, for which the billing unit is by the minute. Each unit of crisis intervention service reflects an increment of fifteen (15) minutes.

If the mobile crisis team provides transportation or accompanies a Medi-Cal beneficiary who is being transported by a non-medical transportation (NMT) provider, emergency medical services (EMS), or law enforcement, Contractor shall bill transportation minutes as an add-on service to reflect the expanded nature of the mobile crisis encounter in such circumstances. In these instances, the billing unit is by the minute, where each unit of service reflects an increment of fifteen (15) minutes.

The screening should be commensurate with the risk and magnitude of harm the employee could cause, with more thorough screening being done for those employees who are authorized to bypass significant technical and operational security controls. The Contractor shall retain each workforce member's background check documentation for a period of ten (10) years from the final date of the contract period or from the date of completion of any audit, whichever is later.

B. Technical Security Controls

1. Workstation/Laptop Encryption. All workstations and laptops that store DBH PHI or PI either directly or temporarily must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as Advanced Encryption Standard (AES). The encryption solution must be full disk unless approved in writing by DBH's Office of Information Technology.
2. Server Security. Servers containing unencrypted DBH PHI or PI must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review.
3. Minimum Necessary. Only the minimum necessary amount of DBH PHI or PI required to perform necessary business functions may be copied, downloaded, or exported.
4. Removable Media Devices. All electronic files that contain DBH PHI or PI data must be encrypted when stored on any removable media or portable device (i.e. USB thumb drives, floppies, CD/DVD, Blackberry, backup tapes, etc.). Encryption must be a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES.

ATTACHMENT IV

6. Patch Management. All workstations, laptops and other systems that process and/or store DBH PHI or PI must have all critical security patches applied with system reboot if necessary. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within thirty (30) days of vendor release. Applications and systems that cannot be patched within this time frame due to significant operational reasons must have compensatory controls implemented to minimize risk until the patches can be installed. Application and systems that cannot be patched must have compensatory controls implemented to minimize risk, where possible.
7. User IDs and Password Controls. All users must be issued a unique user name for accessing DBH PHI or PI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password. Passwords are not to be shared. Passwords must be at least eight characters and must be a non-dictionary word. Passwords must not be stored in readable format on the computer. Passwords must be changed at least every ninety (90) days, preferably every sixty (60) days. Passwords must be changed if revealed or compromised. Passwords must be composed of characters from at least three of the following four groups from the standard keyboard:
 - a. Upper case letters (A-Z)
 - b. Lower case letters (a-z)

Media may also be physically destroyed in accordance with NIST Special Publication 800-88. Other methods require prior written permission of DBH's Office of Information Technology.
9. System Timeout. The system providing access to DBH PHI or PI must provide an automatic timeout, requiring re-authentication of the user session after no more than twenty (20) minutes of inactivity.
10. Warning Banners. All systems providing access to DBH PHI or PI must display a warning banner stating that data is confidential, systems are logged, and system use is for business purposes only by authorized users. User must be directed to log off the system if they do not agree with these requirements.
11. System Logging. The system must maintain an automated audit trail which can identify the user or system process which initiates a request for DBH PHI or PI, or which alters DBH PHI or PI. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users. If DBH PHI or PI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least ten (10) years from the final date of the contract period or from the date of completion of any audit, whichever is later.
12. Access Controls. The system providing access to DBH PHI or PI must use role based access controls for all user authentications, enforcing the principle of least privilege.
13. Transmission Encryption. All data transmissions of DBH PHI or PI outside the secure internal network must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES. Encryption can be end to end at the network level, or the data files containing DBH PHI can be encrypted. This requirement pertains to any type of DBH PHI or PI in motion such as website access, file transfer, and E-Mail.
