BIDS OPEN 10:00 AM, THURSDAY, JULY 20, 2023

Amend the Special Provisions as follows:

Section 10-1.24 ASPHALT RUBBER BINDER SEAL COAT

Delete the 5th paragraph on page SP-84:

THE ASPHALT RUBBER BINDER PRODUCTION SITE MUST BE AT THE JOB SITE, AT A DISTANCE OF WITHIN THREE MILES. THIS REQUIREMENT ALSO APPLIES TO ANY ASPHALT-RUBBER BINDER REHEAT CYCLES.

Provide Answers to the below list of bidder's questions

Q1: Per Section 10-1.24, the Specifications state " THE ASPHALT RUBBER BINDER PRODUCTION SITE MUST BE AT THE JOB SITE, AT A DISTANCE OF WITHIN THREE MILES. THIS REQUIREMENT ALSO APPLIES TO ANY ASPHALT-RUBBER BINDER REHEAT CYCLES". Asphalt Rubber Blending sites have to be approved by the Air Quality Management District and this process can be very lengthy and in depth. Question - Since this project has to be complete by October 31, 2023 and the County is requiring the blending site to be within 3 miles of the Job Site, does the County have any locations that are pre-approved by the Air Quality Management District?	A1: The above requirement has been removed from the special provisions per this amendment.
Q2: I have also spoken with our Highway Permit Agent because an Asphalt Rubber Blending Plant has to be a permitted load due to length and width of the equipment. They have said that permitted loads are not allowed on Route 18 or 138 which are the only 2 ways to get the equipment within 3 miles of the Job Site.	Q2: Contractor to provide appropriate equipment to comply with local and state restrictions.

The addition of these requirements shall be considered in concert with existing documents in preparation of bids. **THE BIDDER'S CERTIFICATION FOR THIS ADDENDUM NO. 1 SHALL BE SIGNED BY THE SAME PERSON WHO SIGNS THE PROPOSAL AND SHALL BE SUBMITTED WITH THE PROPOSAL. ANY proposal not accompanied by a signed BIDDER'S CERTIFICATION (below) acknowledging receipt of this Addendum No. 1 will NOT be accepted.**
