I. DEFINITIONS

Capital Expenses: Costs of construction projects, including but not limited to; brick and mortar type projects, demolition, room expansion, carpet installation, air-conditioner or water heater installation/replacement, wheel-chair access ramps, stationary playgrounds or vehicle purchases.

Direct Costs: Costs that can be identified specifically with a particular final cost objective, such as a particular project, service, or other direct activity of an organization.

Full Time Equivalent (FTE): A measurement equal to one staff person employed in a full-time work schedule and which is, for purposes relating to this contract, calculated at 2,080 hours in a year. FTEs provide a common unit of measurement for positions budgeted. The number of FTEs is the cumulative value expressed, using the full-time equivalent measurement as a baseline, as a total percentage of time or as a total percentage of funds related to a particular classification.

Indirect Costs: Costs that have been incurred for the benefit of multiple projects or activities and cannot be readily identified with a particular final cost objective. An organization having several major functions may need to accumulate the indirect costs into separate groupings and then allocate proportionally to the benefiting functions by means of a base which best measures the relative degree of benefit. The indirect cost rate would be used to distribute the proportional amount of indirect costs to the individual projects or activities based on a Board approved cost allocation plan.

Outcome: The result, which the Commission seeks (as outlined in the Strategic Plan) and to which all performance targets must contribute to a measurable change.

Participant Support: Budget line item category for items purchased to remove barriers or to provide motivation to participants upon completion of the program. Items purchased should be relative to the program objectives. Gift cards are not an allowable expense.

Participant Transportation: Budget line item category for costs involved with transporting participants to needed services and/or appointments.

Performance Target: The specific result that a Contractor seeking investment will commit to achieve. It is tangible in the sense that it can be verified and narrow enough to be directly achieved by the Contractor. It almost always represents a measurable change in the participant of a program.

Professional Services/Consultants: Independent contractors hired to perform services not related to providing direct services. Examples include janitorial services, bookkeeping services, speakers, etc.

Program Materials/Supplies: Budget line item category for items directly related to service delivery such as course curriculum, children's books, journals used by participants, child development toys, etc.

Program Work Plan: A document containing program expectations and deliverables as agreed upon by First 5 San Bernardino and program contractors. The work plan includes information on the individual components of the program in addition to structure including dosage, activities, outcome expectations and verification methods. This document is signed by the contractor leadership and is approved by the First 5 San Bernardino Commission.

Staff Development/Training: Budget line item category for expenses associated with staff training, conferences, retreats, classes, and any other staff development activities related to the funded program.

Staff Mileage/Travel: Budget line item category for employee mileage and travel costs (including lodging and food) for travel related to the program, based on the current IRS allowable rate.

Subcontractor: Agencies contracted by the primary Contractor to provide direct services for which they will be responsible for achieving the performance targets for the portion of services they are providing. Contractor shall be responsible for the performance of any subcontractor.

Unduplicated Clients: Clients who are counted as receiving service for the first time.

Verification: Validates that something represented to happen does in fact take place. The verification tools must be approved by the Commission.

II. CONTRACTOR'S SERVICE RESPONSIBILITIES

- A. Contractor, San Bernardino County Department of Public health hereafter referred to as the "County or Contractor," shall provide all program services identified in this Contract, including Attachment A – Program Work Plan and Attachment B – Program Budget. Pursuant to Section II, paragraphs D & F, and Section III, paragraph BB, and Section VIII, paragraph D of the Contract, Attachment A will be amended to list the specific quantitative targets for the respective year.
- Initial Here
- B. Contractor shall coordinate with appropriate agencies to enhance service provision and to maximize usage of California Children and Families Trust Fund monies available.

- D. Contractor shall cooperate with any consultant, technical advisor, or committee as designated by the Commission to support the evaluation system development and implementation process.
- E. Contractor's Program Work Plan (Attachment A) and other program specific data collection information requested by the Commission will be placed in the Commission's web-based data system. Contractor is bound by the information contained in the data collection system. If there is a discrepancy between the Contractor's Program Work Plan (Attachment A) and the data collection system, the information in the system will take precedence over the Program Work Plan and will be used to evaluate Contractor's performance under the Contract. It is the responsibility of the Contractor to ensure that the information entered into the data system, as it relates to the Performance Program Work Plan and/or other program specific data collection information requested by the Commission, fully captures the intent of the program/project for the term identified in Section VIII.

Vacancies and associated problems shall be reported to the Commission on each periodically required report for the duration of said vacancies and/or problems.

In addition, if the Department of Risk Management determines that heretofore unreasonably priced or unavailable types of insurance coverage or coverage limits become reasonably priced or available, the Director of Risk Management or designee is authorized, but not required, to change the above insurance requirements to require additional types of insurance coverage or higher coverage limits, provided that any such change is reasonable in light of past claims against the Commission, inflation, or any other item reasonably related to the Commission's risk.

Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this Contract. Contractor agrees to execute any such amendment within thirty (30) days of receipt.
