**ATTACHMENT B
HPE CUSTOMER TERMS – PORTFOLIO**

1. **Parties.** These terms represent the agreement (“**Agreement**”) that governs the purchase of products and services from the Hewlett Packard Enterprise entity identified in the signature section below (“**HPE**”) by the Customer entity identified below (“**Customer**”).
2. **Orders.** “**Order**” means the accepted order including any supporting material which the parties identify as incorporated either by attachment or reference (“**Supporting Material**”). Supporting Material may include (as examples) product lists, hardware or software specifications, standard or negotiated service descriptions, data sheets and their supplements, and statements of work (SOWs), published warranties and service level agreements, and may be available to Customer in hard copy or by accessing a designated HPE website.
3. **Scope and Order Placement.** These terms may be used by Customer either for a single Order or as a framework for multiple Orders. In addition, these terms may be used on a global basis by the parties’ “**Affiliates**”, meaning any entity controlled by, controlling, or under common control with a party. The parties can confirm their agreement to these terms either by signature where indicated at the end or by referencing these terms on Orders. Affiliates participate under these terms by placing orders which specify product or service delivery in the same country as the HPE Affiliate accepting the Order, referencing these terms, and specifying any additional terms or amendments to reflect local law or business practices.
4. **Order Arrangements.** Customer may place orders with HPE through our website, customerspecific portal, or by letter, fax or e-mail. Where appropriate, orders must specify a delivery date. If Customer extends the delivery date of an existing Order beyond ninety (90) days, then it will be considered a new order. Customer may cancel a hardware Order at no charge up to five (5) business days prior to shipment date.
5. **Prices and Taxes.** Prices will be as quoted in writing by HPE or, in the absence of a written quote, as set out on our website, customer-specific portal, or HPE published list price at the time an order is submitted to HPE. Prices are exclusive of taxes, duties, and fees (including installation, shipping, and handling) unless otherwise quoted. If a withholding tax is required by law, please contact the HPE order representative to discuss appropriate procedures. HPE will charge separately for reasonable out-of-pocket expenses, such as travel expenses incurred in providing professional services.
6. **Invoices and Payment.** Customer agrees to pay all invoiced amounts within thirty (30) days of HPE’s invoice date. HPE may suspend or cancel performance of open Orders or services if Customer fails to make payments when due.
7. **Title.** Risk of loss or damage and title for hardware products will pass upon delivery to Customer or its designee. Where permitted by law, HPE retains a security interest in products sold until full payment is received.
8. **Delivery.** HPE will use all commercially reasonable efforts to deliver products in a timely manner. HPE may elect to deliver software and related product/license information by electronic transmission or via download.

Hewlett Packard Enterprise

9. **Installation.** If HPE is providing installation with the product purchase, HPE's site guidelines (available upon request) will describe Customer requirements. HPE will conduct its standard installation and test procedures to confirm completion.
10. **Support Services.** HPE's support services will be described in the applicable Supporting Material, which will cover the description of HPE's offering, eligibility requirements, service limitations and Customer responsibilities, as well as the Customer systems supported.
11. **Eligibility.** HPE's service, support and warranty commitments do not cover claims resulting from:
 1. improper use, site preparation, or site or environmental conditions or other non-compliance with applicable Supporting Material;
 2. Modifications or improper system maintenance or calibration not performed by HPE or authorized by HPE;
 3. failure or functional limitations of any non-HPE software or product impacting systems receiving HPE support or service;
 4. malware (e.g. virus, worm, etc.) not introduced by HPE; or
 5. abuse, negligence, accident, fire or water damage, electrical disturbances, transportation by Customer, or other causes beyond HPE's control.
12. **Professional Services.** HPE will deliver any ordered IT consulting, training or other services as described in the applicable Supporting Material.
13. **Professional Services Acceptance.** The acceptance process (if any) will be described in the applicable Supporting Material, will apply only to the deliverables specified, and shall not apply to other products or services to be provided by HPE.
14. **Dependencies.** HPE's ability to deliver services will depend on Customer's reasonable and timely cooperation and the accuracy and completeness of any information from Customer needed to deliver the services.
15. **Change Orders.** We each agree to appoint a project representative to serve as the principal point of contact in managing the delivery of services and in dealing with issues that may arise. Requests to change the scope of services or deliverables will require a change order signed by both parties.
16. **Product Performance.** All HPE-branded hardware products are covered by HPE's limited warranty statements that are provided with the products or otherwise made available. Hardware warranties begin on the date of delivery or if applicable, upon completion of HPE installation, or (where Customer delays HPE installation) at the latest 30 days from the date of delivery. Non-HPE branded products receive warranty coverage as provided by the relevant third party supplier.
17. **Software Performance.** HPE warrants that its branded software products will conform materially to their specifications and be free of malware at the time of delivery. HPE warranties for software products will begin on the date of delivery and unless otherwise specified in Supporting Material, will last for ninety (90) days. HPE does not warrant that the operation of software products will be uninterrupted or error-free or that software products will operate in hardware and software combinations other than as authorized by HPE in Supporting Material.

Hewlett Packard Enterprise

18. **Services Performance.** Services are performed using generally recognized commercial practices and standards. Customer agrees to provide prompt notice of any such service concerns and HPE will re-perform any service that fails to meet this standard.
19. **Services with Deliverables.** If Supporting Material for services define specific deliverables, HPE warrants those deliverables will conform materially to their written specifications for 30 days following delivery. If Customer notifies HPE of such a non-conformity during the 30 day period, HPE will promptly remedy the impacted deliverables or refund to Customer the fees paid for those deliverables and Customer will return those deliverables to HPE.
20. **Product Warranty Claims.** When we receive a valid warranty claim for an HPE hardware or software product, HPE will either repair the relevant defect or replace the product. If HPE is unable to complete the repair or replace the product within a reasonable time, Customer will be entitled to a full refund upon the prompt return of the product to HPE (if hardware) or upon written confirmation by Customer that the relevant software product has been destroyed or permanently disabled. HPE will pay for shipment of repaired or replaced products to Customer and Customer will be responsible for return shipment of the product to HPE.
21. **Remedies.** This Agreement states all remedies for warranty claims. To the extent permitted by law, HPE disclaims all other warranties.
22. **Intellectual Property Rights.** No transfer of ownership of any intellectual property will occur under this Agreement. Customer grants HPE a non-exclusive, worldwide, royalty-free right and license to any intellectual property that is necessary for HPE and its designees to perform the ordered services. If deliverables are created by HPE specifically for Customer and identified as such in Supporting Material, HPE hereby grants Customer a worldwide, non-exclusive, fully paid, royalty-free license to reproduce and use copies of the deliverables internally.
23. **Intellectual Property Rights Infringement.** HPE will defend and/or settle any claims against Customer that allege that an HPE-branded product or service as supplied under this Agreement infringes the intellectual property rights of a third party. HPE will rely on Customer's prompt notification of the claim and cooperation with our defense. HPE may modify the product or service so as to be non-infringing and materially equivalent, or we may procure a license. If these options are not available, we will refund to Customer the amount paid for the affected product in the first year or the depreciated value thereafter or, for support services, the balance of any prepaid amount or, for professional services, the amount paid. HPE is not responsible for claims resulting from any unauthorized use of the products or services. This section shall also apply to deliverables identified as such in the relevant Support Material except that HPE is not responsible for claims resulting from deliverables content or design provided by Customer.
24. **License Grant.** HPE grants Customer a non-exclusive license to use the version or release of the HPE-branded software listed in the Order. Permitted use is for internal purposes only (and not for further commercialization), and is subject to any specific software licensing information that is in the software product or its Supporting Material. For non-HPE branded software, the third party's license terms will govern its use.
25. **Updates.** Customer may order new software versions, releases or maintenance updates

Hewlett Packard Enterprise

("Updates"), if available, separately or through an HPE software support agreement. Additional licenses or fees may apply for these Updates or for the use of the software in an upgraded environment. Updates are subject to the license terms in effect at the time that HPE makes them available to Customer.

26. **License Restrictions.** HPE may monitor use/license restrictions remotely and, if HPE makes a license management program available, Customer agrees to install and use it within a reasonable period of time. Customer may make a copy or adaptation of a licensed software product only for archival purposes or when it is an essential step in the authorized use of the software. Customer may use this archival copy without paying an additional license only when the primary system is inoperable. Customer may not copy licensed software onto or otherwise use or make it available on any public external distributed network. Licenses that allow use over Customer's intranet require restricted access by authorized users only. Customer will also not modify, reverse engineer, disassemble decrypt, decompile or make derivative works of any software licensed to Customer under this Agreement unless permitted by statute, in which case Customer will provide HPE with reasonably detailed information about those activities.
27. **License Term and Termination.** Unless otherwise specified, any license granted is perpetual, provided however that if Customer fails to comply with the terms of this Agreement, HPE may terminate the license upon written notice. Immediately upon termination, or in the case of a limited-term license, upon expiration, Customer will either destroy all copies of the software or return them to HPE, except that Customer may retain one copy for archival purposes only.
28. **License Transfer.** Customer may not sublicense, assign, transfer, rent or lease the software or software license except as permitted by HPE. HPE-branded software licenses are generally transferable subject to HPE's prior written authorization and payment to HPE of any applicable fees. Upon such transfer, Customer's rights shall terminate and Customer shall transfer all copies of the software to the transferee. Transferee must agree in writing to be bound by the applicable software license terms. Customer may transfer firmware only upon transfer of associated hardware.
29. **License Compliance.** HPE may audit Customer compliance with the software license terms. Upon reasonable notice, HPE may conduct an audit during normal business hours (with the auditor's costs being at HPE's expense). If an audit reveals underpayments then Customer will pay to HPE such underpayments. If underpayments discovered exceed five (5) percent of the contract price, Customer will reimburse HPE for the auditor costs.
30. **Confidentiality.** Information exchanged under this Agreement will be treated as confidential if identified as such at disclosure or if the circumstances of disclosure would reasonably indicate such treatment. Confidential information may only be used for the purpose of fulfilling obligations or exercising rights under this Agreement, and shared with employees, agents or contractors with a need to know such information to support that purpose. Confidential information will be protected using a reasonable degree of care to prevent unauthorized use or disclosure for 3 years from the date of receipt or (if longer) for such period as the information remains confidential. These obligations do not cover information that: i) was known or becomes known to the receiving party without obligation of confidentiality; ii) is independently developed by the receiving party; or iii) where disclosure is required by law or a governmental agency.
31. **Personal Information.** Each party shall comply with their respective obligations under applicable data protection legislation. HPE does not intend to have access to personally identifiable information ("PII") of Customer in providing services. To the extent HPE has access to Customer PII stored on a system or device

Hewlett Packard Enterprise

of Customer, such access will likely be incidental and Customer will remain the data controller of Customer PII at all times. HPE will use any PII to which it has access strictly for purposes of delivering the services ordered.

32. **US Federal Government Use.** If software is licensed to Customer for use in the performance of a US Government prime contract or subcontract, Customer agrees that consistent with FAR 12.211 and 12.212, commercial computer software, documentation and technical data for commercial items are licensed under HPE's standard commercial license.
33. **Global Trade compliance.** Products and services provided under these terms are for Customer's internal use and not for further commercialization. If Customer exports, imports or otherwise transfers products and/or deliverables provided under these terms, Customer will be responsible for complying with applicable laws and regulations and for obtaining any required export or import authorizations. HPE may suspend its performance under this Agreement to the extent required by laws applicable to either party.
34. **Limitation of Liability.** HPE's liability to Customer under this Agreement is limited to the greater of \$1,000,000 or the amount payable by Customer to HPE for the relevant Order. Neither Customer nor HPE will be liable for lost revenues or profits, downtime costs, loss or damage to data or indirect, special or consequential costs or damages. This provision does not limit either party's liability for: unauthorized use of intellectual property, death or bodily injury caused by their negligence; acts of fraud; wilful repudiation of the Agreement; nor any liability which may not be excluded or limited by applicable law.
35. **Disputes.** If Customer is dissatisfied with any products or services purchased under these terms and disagrees with HPE's proposed resolution, we both agree to promptly escalate the issue to a Vice President (or equivalent executive) in our respective organizations for an amicable resolution without prejudice to the right to later seek a legal remedy.
36. **Force Majeure.** Neither party will be liable for performance delays nor for non-performance due to causes beyond its reasonable control, except for payment obligations.
37. **Termination.** Either party may terminate this Agreement on written notice if the other fails to meet any material obligation and fails to remedy the breach within a reasonable period after being notified in writing of the details. If either party becomes insolvent, unable to pay debts when due, files for or is subject to bankruptcy or receivership or asset assignment, the other party may terminate this Agreement and cancel any unfulfilled obligations. Any terms in the Agreement which by their nature extend beyond termination or expiration of the Agreement will remain in effect until fulfilled and will apply to both parties' respective successors and permitted assigns.
38. **General.** This Agreement represents our entire understanding with respect to its subject matter and supersedes any previous communication or agreements that may exist. Modifications to the Agreement will be made only through a written amendment signed by both parties. The Agreement will be governed by the laws of the country of HPE or the HPE Affiliate accepting the Order and the courts of that locale will have jurisdiction, however, HPE or its Affiliate may, bring suit for payment in the country where the Customer Affiliate that placed the Order is located. Customer and HPE agree that the United Nations Convention on Contracts for the International Sale of Goods will not apply. Claims arising or raised in the United States will be governed by the laws of the state of California, excluding rules as to choice and conflict of law.

Upon termination of Support, you will return the Proprietary Service Tools or allow HPE to remove these Proprietary Service Tools. You will also be required to:
 - Allows HPE to keep the Proprietary Service Tools resident on your systems or sites, and assist HPE in running them;

2. SUPPORT LIMITATIONS

- **Solution Center Caller Qualifications.** Designated Callers must be generally knowledgeable and demonstrate technical aptitude in system administration, system management, and, if applicable, network administration and management and diagnostic testing. HPE may review and discuss with you any Designated Caller's experience to determine initial eligibility. All Designated Callers must have the proper system identifier as provided to you when Support is initiated. Solution Centers may provide support in English or local languages, or both.
- **HIPAA Customers.** You represent that you are not a Covered Entity or Business Associate under the U.S. Health Insurance Portability and Accountability Act (HIPAA), and that you will not be creating, receiving, maintaining, or transmitting protected health information. Reasonable advance notice to HPE may be required to begin support after relocation. For products, any relocation is also subject to the license terms for such products.
- **Multi-vendor Support.** HPE provides support for certain non-HPE branded products. The relevant data sheet will specify availability and coverage levels and the support will be provided accordingly, whether or not the non-HPE branded products are under warranty. If you fail to provide such access, resulting in HPE's inability to provide support, HPE shall be entitled to charge you for the support call at HPE's published service rates. You are responsible for removing any products ineligible for support, as advised by HPE, to allow HPE to perform support. If delivery of support is made more difficult because of ineligible products, HPE will charge you for the extra work at HPE's published service rates.
- **Licenses and Updates.** You may purchase available product support for HPE branded products only if you can provide evidence that you have rightfully acquired an appropriate HPE license for the products, and you may not alter or modify the products unless authorized by HPE at any time. Regarding the return of storage media after a service event

Customers with heightened concerns

Customers with heightened data security or privacy concerns should consider purchasing Defective Media Retention (DMR) Support Services from HPE.

HPE understands that customers are concerned about the privacy and security of their sensitive data.

HPE's Role in data privacy

It is the customer's responsibility to protect and secure their data. Customers should ensure that any storage media returned to HPE have been properly sanitized, encrypted, or are otherwise free of sensitive data.

HPE serves as a trusted partner with respect to media handling. To that end, HPE offers a portfolio of products and services (such as DMR and Onsite Sanitization) to help the customer ensure that their sensitive information does not leave their control.

Media handling

Customer data is not accessed by HPE or its authorized partners as part of defective screening, testing, or refurbishment. HPE has well-defined process controls, based on industry standards and best practices, to manage material in HPE's repair and supply chain.

Customers should not disable storage media in any manner (e.g., degaussing, drilling, crushing, defacing, etc.) before returning it to HPE. Damaging storage media is a violation of the product warranty, and the customer may be billed for any storage media damaged or not returned to HPE.

Sanitization procedures

HPE's approach to the sanitization of storage media returned to HPE is to:

- Destroy upon receipt (removable media left in a tape or optical drive); or
- Sanitize the device (in accordance with the U.S. Department of Commerce NIST 800-88 "Clear" Standard) in preparation for reuse; or
- Scrap the unit using physical shredding, when the drive cannot be repaired.

Reminder

It is important that customers recognize that sophisticated data recovery techniques may still make customer's data accessible. HPE makes no guarantee that data on defective drives cannot be recovered, or cannot be reconstituted by a non-authorized person, even after following HPE's standard supply chain processes.

Additionally, HPE makes no guarantee that media mistakenly returned to HPE can be returned to the original owners intact. Customers should not return devices containing sensitive information.

Retaining parts under HPE's Defective Media Retention (DMR) program

Customer responsibilities include providing HPE with identification information, such as the serial number, of each data retentive component under their DMR agreement.

Defective Media Retention

Defective Media Retention (DMR) allows customers to keep their storage media if it is defective and requires replacement while under warranty. With DMR, customers maintain control of their sensitive data, and dispose of the defective media in accordance with their security standards.

To ensure that any drive covered by DMR has only one service event during its lifetime, HPE and the OEM (original equipment manufacturer) require that the OEM serial number and HPE part number from the defective drive be collected at the time of the service event.

Failure to submit the required information may result in the customer being billed for the cost of the replacement drive.

Defective Media Retention entitlement

HPE DMR is sold as an option to various HPE Support Services and Foundation Care service offerings. It is designed to complement HPE hardware maintenance offerings and can be combined with other services such as Proactive Care and Call to Repair (CTR).

Customers will be billed for drives retained, if DMR service was not previously purchased.

Response Times and Severity Levels

Cloud Care support calls are answered 7x24x365 in our San Antonio, TX Service Desk. An Analyst will take your call immediately and begin the process of gathering information. Incidents and requests reported in MyOpSus Portal will be reviewed and assigned upon receipt. Every Cloud Care Support incident is assigned a priority level (Critical, High, Medium, and Low). The customer determines the initial priority level when placing a request for assistance.

Priority	Guideline	Initial Contact	Targeted Resolution Time	Communication Frequency
Critical	Incidents involving production system failure (typically catastrophic), end users cannot access MEDITECH, service interruption/outage or significant system slowness causing significant loss of functionality for a large portion of the Customer's healthcare environment. (Example, VDI access is unavailable for the entire hospital).	Within 15 minutes	6 hours or Less	Every 2 hours until resolution
High	Incidents affecting customers with production system failure, service interruption or degradation, production backups failing for 48 hours, outage affecting a subset of the Customer's healthcare environment where more than 10 users are affected.	Within 1 Hour	12 hours or Less	Every 4 hours until resolution
Medium	Incidents affecting customers which are not causing a significant impact to the Customer's healthcare environment, where less than 10 users are affected and Individual production (MEDITECH) backups failed.	Within 4 hours	1 working day or Less (Business Hours)	Every 8 hours until resolution
Low	Incidents affecting single users and not causing a business interruption impact, backup failure, and information requests.	Within 4 hours	3 working days or Less (Business Hours)	Every 1 working day until resolution

** Critical incidents require client resources with administrative access to systems and change management authorization available to work with CloudWave and technology partners on an ongoing basis until resolution or priority downgrade. Without the availability of appropriate client resources, CloudWave reserves the right to downgrade the incident to a lower priority.

Support Tiers

Support Tier	Description
Tier 1 Support	All support cases begin in Tier 1, where the initial ticket is created. The issue is identified and clearly documented, and basic hardware/software troubleshooting is initiated.
Tier 2 Support	All support incidents that cannot be resolved with Tier 1 Support are escalated to Tier 2, where more complex support on hardware/software issues can be provided by System Engineers. If required, the Engineer will collaborate with our vendor to resolve the issue.
Tier 3 Support	Support incidents that cannot be resolved by Tier 2 Support are escalated to Tier 3, where support is provided by the most qualified and experienced Engineers who will collaborate with our vendors to resolve the most complex issues.

Remote Access

The customer must agree to provide access to the network and covered components. This access is essential to the delivery of Infrastructure Support Services. At the time of the call, remote access must be available via encrypted or secure PPTP or Internet VPN connection.

Please note: Server or Device Host Name and IP Addresses should be available to the CloudWave Systems Engineer, with current credentials (username and password), and administrative access privileges.

Make available to CE and governing State and Federal agencies in a time and manner designated by CE or governing State and Federal agencies, any policies, procedures, internal practices and records relating to a Breach or suspected Breach for the purposes of audit or should the CE reserve the right to conduct its own investigation and analysis.

6. Access to PHI

To the extent BA maintains a Designated Record Set on behalf of CE, BA shall make PHI maintained by BA or its agents or subcontractors in Designated Record Sets available to CE for inspection and copying within ten (10) days of a request by CE to enable CE to fulfill its obligations under the Privacy Rule. If BA maintains ePHI, BA shall provide such information in electronic format to enable CE to fulfill its obligations under the HITECH Act. If BA receives a request from an Individual for access to PHI, BA shall immediately forward such request to CE.

7. Amendment of PHI

If BA maintains a Designated Record Set on behalf of the CE, BA shall make any amendment(s) to PHI in a Designated Record Set that the CE directs or agrees to, pursuant to 45 C.F.R. section 164.526, or take other measures as necessary to satisfy CE's obligations under 45 C.F.R. section 164.526, in the time and manner designated by the CE.

11. Return of PHI

Upon termination of this Agreement, BA shall return all PHI required to be retained by the BA or its subcontractors, employees or agents on behalf of the CE. In the event the BA determines that returning the PHI is not feasible, the BA shall provide the CE with written notification of the conditions that make return not feasible. Additionally, the BA must follow established policies and procedures to ensure PHI is safeguarded and disposed of adequately in accordance with 45 C.F.R. section 164.310, and must

submit to the CE a certification of destruction of PHI. For destruction of ePHI, the National Institute of Standards and Technology (NIST) guidelines must be followed. BA further agrees to extend any and all protections, limitations, and restrictions contained in this Agreement, to any PHI retained by BA or its subcontractors, employees or agents after the termination of this Agreement, and to limit any further use, access or disclosures.

12. Breach by the CE

Pursuant to 42 U.S.C. section 17934, subdivision (b), if the BA is aware of any activity or practice by the CE that constitutes a material Breach or violation of the CE's obligations under this Agreement, the BA must take reasonable steps to address the Breach and/or end eliminate the continued violation, if the BA has the capability of mitigating said violation. If the BA is unsuccessful in eliminating the violation and the CE continues with non-compliant activity, the BA must terminate the Agreement (if feasible) and report the violation to the Secretary of HHS.

13. Mitigation

BA shall have procedures in place to mitigate, to the extent practicable, any harmful effect that is known to BA of a use, access or disclosure of PHI by BA, its agents or subcontractors in violation of the requirements of this Agreement.

14. Costs Associated to Breach

BA shall be responsible for reasonable costs associated with a Breach. Costs shall be based upon the required notification type as deemed appropriate and necessary by the CE and shall not be reimbursable under the Agreement at any time. 16. Indemnification

BA agrees to indemnify, defend and hold harmless CE and its authorized officers, employees, agents and volunteers from any and all claims, actions, losses, damages, penalties, injuries, costs and expenses (including costs for reasonable attorney fees) that are caused by or result from the direct acts or omissions of BA, its officers, employees, agents and subcontractors, with respect to the use, access, maintenance or disclosure of CE's PHI, including without limitation, any Breach of PHI or any expenses incurred by CE in providing required Breach notifications.

17. Judicial or Administrative Proceedings

CE may terminate the Contract, effective immediately, if (i) BA is named as a defendant in a criminal proceeding for a violation of HIPAA, the HITECH Act, the Privacy Rule, Security Rule or other security or privacy laws or (ii) a finding or stipulation is made in any administrative or civil proceeding in which the BA has been joined that the BA has violated any standard or requirement of HIPAA, the HITECH Act, the Privacy Rule, Security Rule or other security or privacy laws.

18. Insurance

In addition to any general and/or professional liability insurance coverage required of BA under the Contract for services, BA shall provide appropriate liability insurance coverage during the term of this Agreement to cover any and all claims, causes of action, and demands whatsoever made for loss, damage, or injury to any person arising from the breach of the security, privacy, or confidentiality obligations of BA, its agents or employees, under this Agreement and under HIPAA 45 C.F.R. Parts 160 and 164, Subparts A and E.

19. Assistance in Litigation or Administrative Proceedings

BA shall make itself, and any subcontractors, employees, or agents assisting BA in the performance of its obligations under the Agreement, available to CE, at no cost to CE, to testify as witnesses, or otherwise, in the event of litigation or administrative proceedings being commenced against CE, its directors, officers, or employees based upon a claimed violation of HIPAA, the HITECH Act, the Privacy Rule, the Security Rule, or other laws relating to security and privacy, except where BA or its subcontractor, employee or agent is a named adverse party.

C. Obligations of CE

1. CE shall notify BA of any of the following, to the extent that such may affect BA's use, access, maintenance or disclosure of PHI:
 - i. Any limitation(s) in CE's notice of privacy practices in accordance with 45 C.F.R. section 164.520.
 - ii. Any changes in, or revocation of, permission by an individual to use, access or disclose PHI.
 - iii. Any restriction to the use, access or disclosure of PHI that CE has agreed to in accordance with 45 C.F.R. section 164.522.

D. General Provisions

1. Remedies

BA agrees that CE shall be entitled to seek immediate injunctive relief as well as to exercise all other rights and remedies which CE may have at law or in equity in the event of an unauthorized use, access or disclosure of PHI by BA or any agent or subcontractor of BA that received PHI from BA.

2. Ownership

The PHI shall be and remain the property of the CE. BA agrees that it acquires no title or rights to the PHI.

3. Regulatory References

A reference in this Agreement to a section in the Privacy Rule and Security Rule and patient confidentiality regulations means the section as in effect or as amended.

4. No Third-Party Beneficiaries

Nothing express or implied in the Contract or this Agreement is intended to confer, nor shall anything herein confer, upon any person other than CE, BA and their respective successors or assigns, any rights, remedies, obligations or liabilities whatsoever.

5. Amendment

The parties acknowledge that state and federal laws related to privacy and security of PHI are rapidly evolving and that amendment of the Contract or this Agreement may be required to ensure compliance with such developments. The parties shall negotiate in good faith to amend this Agreement when and

as necessary to comply with applicable laws. If either party does not agree to so amend this Agreement within 30 days after receiving a request for amendment from the other, either party may terminate the Agreement upon written notice. To the extent an amendment to this Agreement is required by law and this Agreement has not been so amended to comply with the applicable law in a timely manner, the amendment required by law shall be deemed to be incorporated into this Agreement automatically and without further action required by either of the parties. Subject to the foregoing, this Agreement may not be modified, nor shall any provision hereof be waived or amended, except in a writing duly signed and agreed to by BA and CE.

6. Interpretation

Any ambiguity in this Agreement shall be resolved to permit CE to comply with the Privacy and Security Rules, the HITECH Act, and all applicable patient confidentiality regulations.

In addition to HIPAA and all applicable HIPAA Regulations, BA acknowledges that BA and CE may have confidentiality and privacy obligations under State law, including, but not limited to, the California Confidentiality of Medical Information Act (Cal. Civil Code §56, et seq. ("CMIA")). If any provisions of this Agreement or HIPAA Regulations or the HITECH Act conflict with CMIA or any other California State law regarding the degree of protection provided for PHI and patient medical records, then BA shall comply with the more restrictive requirements.

8. Survival

The respective rights and obligations and rights of CE and BA relating to protecting the confidentiality or a patient's PHI shall survive the termination of the Contract or this Agreement.

Infrastructure Support Entitlement

CloudWave offers support services for the installed infrastructure components in MEDITECH environments. The infrastructure covered is listed in the pricing section of this proposal.

Included in Infrastructure Support:

- A single point of contact for problem resolution – Our Cloud Care Center is located and staffed in San Antonio, TX
- 7x24x365 live telephone support via a dedicated Support Hotline: 855-28-OPSUS (855-286-7787)
- Incident reporting and tracking through the MyOpSus customer web portal
- Unlimited requests — use Cloud Care services as often as needed
- Staffed by Support Engineers trained and experienced with MEDITECH and partner technologies
- Enhanced escalation paths with Technology Partners, including access to specialized technical resources
- Expert support advice as needed

OpSus Cloud Care support are supplemental services provided for the installed infrastructure components in your MEDITECH and Enterprise environments. “Infrastructure” is defined as the server and storage systems that support your site managed applications and compute functions. Unless specifically stated in the support agreement it is not support of the software applications themselves that the compute infrastructure supports. Changes made to any of the supported infrastructure and configuration as it existed at the time support was initiated should be discussed with CloudWave to prevent potential support conflicts and gaps. The infrastructure covered is listed in the pricing section of this proposal.

Customer Responsibilities

Infrastructure Support augments hardware maintenance contracts, licensed application and imbedded software support agreements. Customers are expected to maintain separate contracts and agreements with appropriate suppliers for hardware break/fix support, licensed application and imbedded software support. Customers are also expected to perform regular updates and periodic systems maintenance. Such maintenance may include patches, critical releases and security updates to OS's (Windows, VMware ESX, etc.) running applications and imbedded software. Such regular maintenance updates are not performed by CloudWave but can be arranged for by engaging us for our Professional Services to do so.

Support Process

Callers should be prepared to provide the serial or model number of the equipment to assist in problem diagnosis. The Analyst creates a support ticket, noting details of the incident and/or nature of the service request. The Analyst will begin to assess and triage the reported incident. The customer may be asked to perform some simple tasks to assist in problem determination. If the incident is resolved during the initial call, the resolution is documented and the support ticket is closed.

For incidents that require further investigation and intervention, a Systems Engineer will be assigned to remotely access your network, diagnose, and resolve the issue. CloudWave will coordinate with technology partners to secure on-site resources and replacement parts when required.

Response Times and Severity Levels

Cloud Care support calls are answered 7x24x365 in our San Antonio, TX Service Desk. An Analyst will take your call immediately and begin the process of gathering information. Incidents and requests reported in MyOpSus Portal will be reviewed and assigned upon receipt. Every Cloud Care Support incident is assigned a priority level (Critical, High, Medium, and Low). The customer determines the initial priority level when placing a request for assistance.

Priority	Guideline	Initial Contact	Resolution Time	Communication Frequency
Critical	Incidents involving production system failure (typically catastrophic), end users cannot access MEDITECH, service interruption/outage or significant system slowness causing significant loss of functionality for a large portion of the Customer's healthcare environment. (Example, VDI access is unavailable for the entire hospital).	Within 15 minutes	6 hours or Less	Every 2 hours until resolution
High	Incidents affecting customers with production system failure, service interruption or degradation, production backups failing for 48 hours, outage affecting a subset of the Customer's healthcare environment where more than 10 users are affected.	Within 1 Hour	12 hours or Less	Every 4 hours until resolution
Medium	Incidents affecting customers which are not causing a significant impact to the Customer's healthcare environment, where less than 10 users are affected and Individual production (MEDITECH) backups failed.	Within 4 hours	1 working day or Less (Business Hours)	Every 8 hours until resolution
Low	Incidents affecting single users and not causing a business interruption impact, backup failure, and information requests.	Within 4 hours	3 working days or Less (Business Hours)	Every 1 working day until resolution

**** Critical incidents require client resources with administrative access to systems and change management authorization available to work with CloudWave and technology partners on an ongoing basis until resolution or priority downgrade. Without the availability of appropriate client resources, CloudWave reserves the right to downgrade the incident to a lower priority.**

Support Tiers

Support Tier	Description
Tier 1 Support	All support cases begin in Tier 1, where the initial ticket is created. The issue is identified and clearly documented, and basic hardware/software troubleshooting is initiated.
Tier 2 Support	All support incidents that cannot be resolved with Tier 1 Support are escalated to Tier 2, where more complex support on hardware/software issues can be provided by System Engineers. If required, the Engineer will collaborate with our vendor to resolve the issue.
Tier 3 Support	Support incidents that cannot be resolved by Tier 2 Support are escalated to Tier 3, where support is provided by the most qualified and experienced Engineers who will collaborate with our vendors to resolve the most complex issues.

Remote Access

The customer must agree to provide access to the network and covered components. This access is essential to the delivery of Infrastructure Support Services. At the time of the call, remote access must be available via encrypted or secure PPTP or Internet VPN connection.

Please note: Server or Device Host Name and IP Addresses should be available to the CloudWave Systems Engineer, with current credentials (username and password), and administrative access privileges.
