4. Authorize the Department of Public Works to retain the proceeds from the sale of the fixed assets identified in Recommendation No. 1 and deposit such proceeds into the Transportation Equipment Fund to offset costs of future equipment purchases.
(Presenter: Brendon Biggs, Interim Director, 387-7906)

COUNTY AND CHIEF EXECUTIVE OFFICER GOALS & OBJECTIVES

Improve County Government Operations.

Operate in a Fiscally-Responsible and Business-Like Manner.

FINANCIAL IMPACT

Approval of this item will not result in the use of Discretionary General Funding (Net County Cost). The fully depreciated equipment values are estimated at \$385,000, collectively, based on proceeds from recent auctions of similar fixed assets. The funds raised by the sale of the above-described fixed assets will be used to pay any applicable auction fees. Any remaining funds will be returned to the Department of Public Works (Department) Transportation Equipment Fund (6650002008) to assist in the purchase of future equipment as needed.

BACKGROUND INFORMATION

The Department owns and operates a number of vehicles and heavy equipment pursuant to its mission of maintaining County roads. Department staff has determined that it is no longer economically beneficial to the Department to continue to maintain and/or repair the surplus assets identified in this item.

Disposing of these surplus assets aligns with the County and Chief Executive Officer goals and objectives to improve County government operations and to operate in a fiscally-responsible and business-like manner. The listed equipment will be assessed per the new standard practice and allocated according to vendors based on operational efficiencies, financial considerations, business development, or any other factors determined to be in the County's best interest.

The equipment has been replaced by newer units, which produce fewer emissions in accordance with mandates from the California Air Resources Board. Selling the older units will help the Department achieve the required fleet percentage for vehicle emissions. Heavy equipment that does not meet air quality standards must be sold out of state.

PROCUREMENT

Not applicable.
