BACKGROUND INFORMATION

The Project consists of widening the northwest and southwest corners of the intersection of El Rivino Road and Agua Mansa Road with new asphalt concrete pavement, rehabilitation of existing pavement, replacing the existing median with asphalt concrete, installing traffic signals, painting traffic stripes and pavement markings, and other incidental associated improvements. All work for the Project will be done within existing right-of-way.

The Project was prioritized by the Board of Supervisors (Board) as part of the 2022-23 SB1 Road Maintenance and Rehabilitation project list approved on May 24, 2022 (Item No. 87).

On May 9, 2023 (Item No. 45), the Board determined the Project was exempt under the California Environmental Quality Act, approved the Project as defined in the Notice of Exemption, and directed the Clerk of the Board to file and post said notice.

The Project aligns with the County and the Chief Executive Officer's goals and objectives of ensuring development of a well-planned, balanced, and sustainable County by preserving and improving the structural integrity of existing road surfaces and access for pedestrians, including those with disabilities.

Following Board approval of this item, construction is anticipated to commence January 2025 and be completed by April 2025.
