										\$504,038					\$504,038	
Goal #2	Subaward	A	Town of Apple Valley / Organization Emergency Services Assistant	Apple Valley's Emergency Services Assistant (ESA) will facilitate a wide variety of emergency management functions, including updating the EOP and HMP, submitting their yearly NIMSCAST, conducting exercises/drills, continuing education, managing the quarterly Disaster Council meetings, overseeing the CERT program, participating in the OACC meetings, training EOC staff, and improving our internal notification system for EOC responders.	Organization	Staffing	Operational Coordination	Sustain	Both	16,538					16,538	
Goal #5	Subaward	B	City of Chino / Equipment (1) Storage Container	The City of Chino will use FY24 EMPG funds to purchase storage containers to enhance its emergency preparedness efforts and create a cache of emergency supplies. This cache may include supplies for mass care, sheltering, evacuation, and the Community Emergency Response Team (CERT). The storage container and other emergency storage containers will be located at the City of Chino Public Works Service Yard. Adding this container will allow the City to expand its supply cache, improving its ability to manage emergency response functions, including evacuation and sheltering. The storage container will allow the storage of items essential for mass care, evacuation, and CERT activities.	Equipment	19 - CBRNE Logistical Support Equipment	Operational Coordination	Build	Both	17,407					17,407	
Goal #5	Subaward	C	City of Chino Hills / Organization Emergency Operations Specialist	The City of Chino Hills will use the FY24 EMPG funds to continue to administer and coordinate the emergency preparedness program for the City. It will enable the City to continue to plan, prepare for, mitigate, and strengthen its response and recovery capabilities. Additional duties are preparing and maintaining emergency and mitigation plans, developing and implementing standard operating guides/procedures, and training and exercising the City's employees, residents, businesses, and the community.	Organization	Staffing	Operational Coordination	Sustain	Both	16,637					16,637	
Goal #1	Subaward	D	City of Colton / Equipment (1) Software Data Analytics - GIS & Risk Management	The City of Colton plans to utilize the FY24 EMPG funds to acquire new software that aligns with three key state priorities: information management, alert and warning, and planning. This system will integrate Geographic Information System (GIS) technology to enhance spatial analysis and mapping capabilities. It will enable the department to visualize the locations of incidents, identify high-risk areas, and optimize resource deployment. Furthermore, the system will generate heatmaps of incident frequency, thereby supporting data-driven decision-making processes.	Equipment	04 - Information Technology	Intelligence and Information Sharing	Build	Both	15,512					15,512	
Goal #8	Subaward	E	City of Fontana / Planning Continuity of Operations (COOP) and Continuity of Government (COG) Plan Development	The City of Fontana proposes to hire a consultant to develop a comprehensive Continuity of Operations (COOP) and Continuity of Government (COG) Plan. This plan will ensure that essential City functions and governance can continue during and after emergencies, aligning with State and Federal continuity planning standards. The project will address operational resilience, critical resource identification, and streamlined decision-making to maintain public services and protect community welfare during disruptions.	Planning	Develop and Enhance Plans, Protocols, Programs, and Systems	Planning	Build	N/A	23,197					23,197	
Goal #8	Subaward	F	City of Grand Terrace / Equipment (1) Generator	The City of Grand Terrace plans to utilize FY24 Emergency Management Performance Grant (EMPG) funds to purchase and install one (1) generator. This initiative aims to enhance the functionality and reliability of our Emergency Operations Center (EOC) at City Hall. The project aligns with the State's priority of safeguarding critical infrastructure, such as the EOC, to improve immediate response efforts and support ongoing recovery operations, ensuring continuity of essential functions during and after emergencies. This critical upgrade will provide an uninterrupted power supply and ensure operational continuity during a natural disaster or extended power outage. By investing in a more reliable power source, the City of Grand Terrace can coordinate response efforts, provide public assistance, and maintain essential services during emergencies.	Equipment	10 - Power Equipment	Planning	Build	Both	13,608					13,608

Request Type Initial Application

Award	Total M&A Expended	% Total M&A Exp of Total Exp
\$504,038		

POP Start Date	July 1, 2024
POP End Date	June 30, 2026
Cal OES Approval	BE 2/26/25

State Goals	Direct / Subaward	Project	Project Title	Project Description	Solution Area	Solution Area Sub-Category	Core Capabilities	Capability Building	Deployable / Shareable	Total Budgeted Cost	Previously Approved Amount	Amount This Request	Total Approved	Expenditures To Date (w/Match)	Remaining Balance	Percent Expended
										\$504,038					\$504,038	
Goal #10	Subaward	G	City of Hesperia / Training Emergency Management Training	The City of Hesperia will use the FY24 EMPG funds to provide Emergency Preparedness training to their city staff. The type of courses will include Winter Weather and Local Supply Chain Resilience. The training will benefit the staff as they will be better prepared to respond to an emergency and an opportunity to train the local community residents.	Training	Certification / Recertification of Instructors	Planning	Sustain	Shareable	17,764					17,764	
Goal #2	Subaward	H	City of Highland / Equipment (4) Monitoring Cameras	The City of Highland will use the FY24 EMPG funds to purchase cameras for improved monitoring. Various locations within the City have historical flooding concerns, and those areas require monitoring by public works staff and emergency personnel. Should water levels hit the identified trigger points at each location, a roadway/bridge closure is implemented for safety purposes. This effort is challenging during nighttime and weekend hours—cameras would assist and help supplement these efforts.	Equipment	04 - Information Technology	Planning	Build	N/A	15,650					15,650	
Goal #10	Subaward	I	City of Loma Linda / Exercise (2) Emergency Management Exercises	The City of Loma Linda will use the FY24 EMPG funds to continue providing Emergency Preparedness training to City staff. The exercise type will consist of a tabletop and full-scale functional exercise. These two (2) exercises will help reinforce the lessons and topics covered in the previous training. The exercise training will benefit the city staff as they will be better prepared to respond to an emergency and provide opportunities to train local citizens.	Exercise	Design, Develop, Conduct and Evaluate	Operational Coordination	Build	N/A	14,188					14,188	
Goal #4	Subaward	J	City of Montclair / Equipment (1) LED 150" Video Wall	The City of Montclair will use FY24 EMPG funds to procure a direct view LED video wall for its Emergency Operations Center (EOC) at the Police Department to strengthen communications capabilities through planning, governance, technology, and equipment. The current EOC projection system, essential for presenting critical information, conducting training, and facilitating emergency response coordination, has become obsolete due to its age, low brightness, and worn-out technology. To enhance the City's capabilities and ensure our emergency responders' readiness, we request grant funding to replace this outdated system with a state-of-the-art 150-inch direct-view LED video wall that offers unparalleled clarity and brightness even in well-lit environments. It will ensure vital information can be more easily managed, disseminated, and displayed with precision and accuracy, ultimately allowing each person who needs that information to be better prepared and/or informed.	Equipment	04 - Information Technology	Intelligence and Information Sharing	Build	N/A	14,771					14,771	
Goal #5	Subaward	K	City of Needles / Organization Emergency Management Coordinator Duties	The City of Needles will use the FY24 EMPG funds to partially fund their current Utility Manager's salaries, whose job description will include the Emergency Management Coordinator role and duties. The Utility Manager for the City of Needles is the Emergency Response Coordinator in the capacity to prevent, prepare for, mitigate against, respond to, and recover from emergencies and disasters, natural or artificial. The proposed project will focus on public education and outreach, updating the City of Needles' local hazard mitigation plan, and EOC readiness and enhancements.	Organization	Day to Day Activities / Operations Supporting Emergency Management	Operational Coordination	Sustain	Both	13,227					13,227	
Goal #5	Subaward	L	City of Ontario / Organization Emergency Management Coordinator	The City of Ontario will use the FY24 EMPG funds to partially fund a full-time Emergency Management Coordinator who will work on improving the Operational Area's capability to prevent, prepare for, mitigate against, respond to, and recover from emergencies and disasters, whether natural or artificial. Specific activities will be directed at public education and outreach, emergency planning, and EOC readiness and enhancements.	Organization	Staffing	Operational Coordination	Sustain	Both	21,626					21,626

Goal #5	Subaward	M	City of Rancho Cucamonga / Organization Emergency Management Specialist	The City of Rancho Cucamonga will use the FY24 EMPG funds to partially fund their Emergency Management Specialist, who will assist with day-to-day emergency management activities, including reviewing, updating, and developing catastrophic planning. The Specialist will oversee and operate the City's ReadyRC volunteer program, Auxiliary Communications Service (ACS), CERT and Advanced CERT, Large Animal Response Team (LART), Business Emergency Resiliency Training (BERT), and community outreach. These programs will enhance community safety and resiliency when responding to a disaster.	Organization	Staffing	Operational Coordination	Sustain	Both	21,250					21,250	
Goal #6	Subaward	N	City of Redlands / Organization, Emergency Operations Specialist	The City of Redlands will use FY24 EMPG funds for an Emergency Operations Specialist who will continue to upgrade the primary, alternate, and policy group EOCs, update EOPs, provide emergency training and exercise for city staff, seek grant funding and provide grant management, and, lastly, continue to perform community outreach events.	Organization	Staffing	Planning	Sustain	Both	16,460					16,460	
Goal #4	Subaward	O	City of Upland / Equipment (1) Portable Projector with WiFi and Bluetooth plus (1) Screen	The City of Upland will use the FY24 EMPG funds to purchase (1) Portable Projector and (1) Screen. The project for consideration is a portable projector and screen. This project will allow the City of Upland Emergency Management Program to provide the Emergency Operations Center (EOC) & Joint Information Center (JIC) the ability to procure equipment needed in the city's new EOC/JIC location. It will also provide proper signage for community events, continuity of operations, press conferences, and community/town hall meetings.	Equipment	04 - Information Technology	Intelligence and Information Sharing	Build	Both	190					190	
Goal #4	Subaward	O	City of Upland / Equipment (1) Portable Hard Case Podium and (1) Step & Repeat Backdrop	The City of Upland will use the FY24 EMPG funds to purchase (1) Portable Hard Case Podium and (1) Step & Repeat Backdrop. The project for consideration: Portable Hard Case Podium and Step & Repeat Backdrop. This project will allow the City of Upland Emergency Management Program to provide the Emergency Operations Center (EOC) & Joint Information Center (JIC) the ability to procure equipment needed in the city's new EOC/JIC location. It will also provide proper signage for community events, continuity of operations, press conferences, and community/town hall meetings.	Equipment	21 - Other Authorized Equipment	Intelligence and Information Sharing	Build	Both	\$1,098					1,098	
Goal #4	Subaward	O	City of Upland / Equipment (2) Mobile Command Centers	The City of Upland will use the FY24 EMPG funds to purchase (2) Mobile Command Centers. The project for consideration: Mobile Command Centers. This project will allow the City of Upland Emergency Management Program to provide the Emergency Operations Center (EOC) and Joint Information Center (JIC) with the ability to procure equipment needed in the city's new EOC/JIC location. It will also provide proper signage for community events, continuity of operations, press conferences, and community/town hall meetings.	Equipment	14 - Physical Security Enhancement Equipment	Intelligence and Information Sharing	Build	Both	\$6,798					6,798	
Goal #4	Subaward	O	City of Upland / Equipment (1) Custom Canopy Tent w/ logo (10'x10')	The City of Upland will use the FY24 EMPG funds to purchase (1) Custom Canopy Tent with a logo. The project for consideration is a custom canopy tent. This project will allow the City of Upland Emergency Management Program to provide the Emergency Operations Center (EOC) and Joint Information Center (JIC) with the ability to procure equipment needed in the city's new EOC/JIC location. It will also provide proper signage for community events, continuity of operations, press conferences, and community/town hall meetings.	Equipment	19 - CBRNE Logistical Support Equipment	Planning	Build	Both	\$235					235	
Goal #10	Subaward	O	City of Upland / Equipment (1) Trainer Full Body Manikin	The City of Upland will use the FY24 EMPG funds to purchase (1) Trainer Full Body Manikin. Project consideration: The Trainer Full Body Manikin will be utilized for the city's CERT Basic training course. This will allow the city to provide safety and emergency response materials and resources for community events, employee wellness, and enhanced responder assets.	Equipment	21 - Other Authorized Equipment	Screening, Search, and Detection	Build	Both	\$1,444					1,444

Goal #10	Subaward	O	City of Upland / Equipment (2) NAJO Light Backboard	The City of Upland will use the FY24 EMPG funds to purchase (2) NAJO Light backboards. Project consideration: NAJO Light Backboards will be utilized for the city's CERT Basic training course. This will allow the city the ability to provide safety and emergency response materials and resources for community events, employee wellness, and enhance responder assets.	Equipment	21 - Other Authorized Equipment	Screening, Search, and Detection	Build	Both	\$240					240	
Goal #10	Subaward	O	City of Upland / Equipment (1) First Aid Training kit	The City of Upland will use the FY24 EMPG funds to purchase (2) NAJO Light backboards. Project consideration: The NAJO Light Backboards will be utilized for the city's CERT Basic training course. This will allow the city to provide safety and emergency response materials and resources for community events, employee wellness, and enhanced responder assets.	Equipment	21 - Other Authorized Equipment	Mass Search and Rescue Operations	Build	Both	\$160					160	
Goal #5	Subaward	O	City of Upland / Equipment (10) Hazardous Transport kits 10 lbs	The City of Upland will use the FY24 EMPG funds to purchase (10) First Aid Training Kits. Project consideration: Hazardous Transport kits will be utilized for the city's HazMat team in preparation for handling hazardous material incidents. These units are crucial for special needs situations involving chemical, biological, radiological, or nuclear hazards.	Equipment	19 - CBRNE Logistical Support Equipment	Operational Coordination	Build	Both	\$3,950					3,950	
Goal #5	Subaward	O	City of Upland / Equipment (1) Ballistic Soft Shield IIIA	The City of Upland will use the FY24 EMPG funds to purchase (1) Ballistic Soft Shield IIIA. Project consideration: The Ballistic Soft Shield IIIA will maintain safety for officers and residents and help prevent various ballistic threats during tactical situations, incidents, and planned events.	Equipment	01 - Personal Protective Equipment	Operational Coordination	Build	Both	\$1,624					1,624	
Goal #5	Subaward	O	City of Upland / Equipment (40) Disposable Respirator Vapor Respiratory	The City of Upland will use the FY24 EMPG funds to purchase (50) Disposable Respirator Vapor Respiratory. Project consideration: Disposable Respirator Vapor Respiratory will be used to treat employees or residents with respiratory issues; these units are vital during incidents involving smoke inhalation or chemical exposure, addressing special needs for employee safety.	Equipment	01 - Personal Protective Equipment	Operational Coordination	Build	Both	\$987					987	
Goal #4	Subaward	P	City of Victorville / Equipment (3) VHF/UF1/UF2 Repeaters	The City of Victorville will use FY24 Emergency Management Performance Grant (EMPG) funds to purchase and install three new repeaters. This enhancement will support the expansion of the City's radio communications plan. With the addition of these repeaters, the number of available talk paths for City radios will increase to five, allowing staff to communicate and share information simultaneously with reduced delays or downtime. The new repeaters will feature GPS tracking for all radio units throughout the City, enabling the City to transmit emergency information to all radio users at once using the all-call feature. This upgrade will significantly expand our radio capabilities and improve our ability to communicate effectively across the City during emergencies. The repeaters will be installed on a fixed foundation structure.	Equipment	06 - Interoperable Communications Equipment	Infrastructure Systems	Build	N/A	19,578					19,578	
Goal #5	Subaward	Q	City of Yucaipa / Training, Emergency Management Training	The City of Yucaipa will use the FY24 EMPG funds to continue to train all employees in ICS/EOC roles specific to their roles within the EOC.	Training	Certification / Recertification of Instructors	Planning	Sustain	Shareable	15,561					15,561	
Goal #4	Subaward	R	Town of Yucca Valley / Equipment (11) Computers	The Town of Yucca Valley will use the FY24 EMPG funds to purchase new computers to replace outdated computers in both the primary and secondary EOC. Updating this equipment will ensure communications are maintained, and information is managed following catastrophic events. The computers will be linked to the town's computer network, strengthening the city's devastating emergency management capabilities.	Equipment	04 - Information Technology	Operational Coordination	Build	Both	14,028					14,028	
Goal #5	Direct	S	OES / National Qualification System (NGS) - (4) Trainings	San Bernardino County OES will use the FY24 EMPG funds to provide OES staff with CSTI training, which will help meet this requirement for EMPG. The various trainings will provide OES staff with the necessary skills and strategic decision-making capabilities to effectively navigate and mitigate complex crises.	Training	Staff Expenses	Risk Management for Protection Programs and Activities	Build	N/A	131,032					131,032
