The Consultant agrees to indemnify, defend (with counsel reasonably approved by County) and hold harmless the County and its authorized officers, employees, agents and volunteers from any and all claims, actions, losses, damages and/or liability arising out of this Contract from any cause whatsoever, including the acts, errors or omissions of any person and for any costs or expenses incurred by the County on account of any claim except where such indemnification is prohibited by law. This indemnification provision shall apply regardless of the existence or degree of fault of indemnities. The Consultant indemnification obligation applies to the County's "active" as well

as "passive" negligence but does not apply to the County's "sole negligence" or "willful misconduct" within the meaning of Civil Code section 2782.

G.2 Additional Insured

All policies, except for Worker's Compensation, Errors and Omissions and Professional Liability policies shall contain additional endorsements naming the County and its officers, employees, agents and volunteers as additional named insured with respect to liabilities arising out of the performance of services hereunder. The additional insured endorsements shall not limit the scope of coverage for the County to vicarious liability but shall allow coverage for the County to the full extent provided by the policy. Such additional insured coverage shall be at least as broad as Additional Insured (Form B) endorsement form ISO, CG 2010.11 85.

G.3 Waiver of Subrogation Rights

Consultant shall require the carriers of required coverages to waive all rights of subrogation against the County, its officers, employees, agents, volunteers, contractors and subcontractors. All general or auto liability insurance coverage provided shall not prohibit Consultant and Consultant's employees or agents from waiving the right of subrogation prior to a loss or claim. Consultant hereby waives all rights of subrogation against the County.

G.4 Policies Primary and Non-Contributory

All policies required herein are to be primary and non-contributory with any insurance or self-insurance programs carried or administered by the County.

G.5 Severability of Interests

Consultant agrees to ensure that coverage provided to meet these requirements is applicable separately to each insured and there will be no cross liability exclusions that preclude coverage for suits between Consultant and County or between County and any other insured or additional insured under the policy.

G.6 Proof of Coverage

Consultant shall furnish Certificates of Insurance to the County Department administering the Contract evidencing the insurance coverage at the time the Contract is executed, additional endorsements, as required shall be provided prior to the commencement of performance of services hereunder, which certificates shall provide that such insurance shall not be terminated or expire without thirty (30) days written notice to the Department, and Consultant shall maintain such insurance from the time Consultant commences performance of services hereunder until the completion of such services. G.10 Insurance Review

Insurance requirements are subject to periodic review by County. The Director of Risk Management or designee is authorized, but not required, to reduce, waive or suspend any insurance requirements whenever Risk Management determines that any of the required insurance is not available, is unreasonably priced, or is not needed to protect the interests of County. In addition, if the Department of Risk Management determines that heretofore unreasonably priced or unavailable types of insurance coverage or coverage limits become reasonably priced or available, the Director of Risk Management or designee is authorized, but not required, to change the above insurance requirements to require additional types of insurance coverage or higher coverage limits, provided that any such change is reasonable in light of past claims against County, inflation, or any other item reasonably related to the County's risk.

Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this contract, including an increase to Consultant's compensation for the cost of the additional types of insurance coverage or higher coverage limits. Consultant agrees to execute any such amendment within thirty (30) days of receipt.

Any failure, actual or alleged, on the part of County to monitor or enforce compliance with any of the insurance and indemnification requirements will not be deemed as a waiver of any rights on the part of County.

- G.11** Consultant agrees to provide insurance set forth in accordance with the requirements herein. If Consultant uses existing coverage to comply with these requirements and that coverage does not meet the specified requirements, Consultant agrees to amend, supplement or endorse the existing coverage to do so.

H.3 Death or Incapacity: If the Consultant transacts business as an individual, his/her death or incapacity shall automatically terminate this Contract as of the date of such event, and neither he/she nor his/her estate shall have any further right to perform hereunder, and County shall pay him/her or his/her estate the compensation payable under Article F, Fiscal Provisions, for any services rendered prior to such termination not heretofore paid, reduced by the amount of additional costs which will be incurred by County by reason of such termination. If there be more than one Consultant and any one of them die or become incapacitated and the others continue to render the services covered herein, County will make payment to those continuing as though there had been no such death or incapacity and County will not be obliged to take any account of the person who died or became incapacitated or to make any payments to such person or his estate. The provision shall apply in the event of progressive or simultaneous occasions of death or incapacity among any group of persons named as Consultant herein, and if death or incapacity befalls the last one of such group before this Contract is fully performed, then the rights shall be as if there had been only one Consultant.

I. RIGHT TO MONITOR AND AUDIT

J.1 If Consultant fails to comply with any of the provisions, covenants, requirements or conditions of this Contract, then County shall send Consultant a written notice setting forth the nature and extent of the alleged default and, if not otherwise self-evident, the actions necessary to cure the alleged default (the "**Notice of Default**"). Consultant must respond to the Notice of Default within four Business Days of its receipt of same and state whether Consultant intends to cure the alleged default and, if so, what action Consultant intends to take to cure the alleged default and the timing thereof. If Consultant fails to timely respond to the Notice of Default or fails to cure any default promptly after receipt of the notice of default (or if the default is not capable of being immediately cured, fails to immediately commence all necessary action to promptly remedy such default and thereafter diligently prosecute such cure to completion), then Consultant shall be in material breach of this Contract.

J.2 In the event of a non-cured breach, County may, at its sole discretion and in addition to any other remedies available at law, in equity, or otherwise specified in this Contract:

- a. Afford Consultant thereafter a time period within which to cure the breach, which period shall be established at the sole discretion of County; and/or
- b. Withhold funds pending duration of the breach; and/or

In the event of such termination, County may proceed with the work in any manner deemed proper by County. GRIFFIN STRUCTURES FEE PROPOSAL

VALLEY COMMUNICATIONS CENTER PROJECT

COUNTY OF SAN BERNARDINO

04/28/2021

Griffin Structures' Fee Proposal is based on all reasonable costs necessary to perform Pre-Construction and Construction Management services for the County of San Bernardino's Valley Communications Center project. For these requisite services Griffin Structures proposes the following Not-to-Exceed Fee:

Construction Management:	\$	1,888,220
Master Architect (LPA):	\$	1,981,772
Reimbursable Expenses:	\$	150,008
Grand Total:	\$	4,020,000

Add Alternate: LEED Design Consulting \$ 47,500

All proposed hourly rates are fully burdened and include overhead profit, taxes, and benefits. The hours identified for each individual employee and task are estimates only and are not to be construed as not to exceed hours for an individual task, phase, or time period. We reserve the right to reallocate hours between staff members, subconsultants, and tasks, in order to accomplish the overall objectives and requirements of the project.

Services are based on the attached Fee Proposal and Resource Allocation Schedule, which provides detail on the allocation of hours for services as they occur over time. Any extension of the schedule may result in additional fees in good faith negotiation with the County.

Master Architect services are based on the attached Architecture and Engineering Fee Proposal and Qualification. Any additional services that may be required will be negotiated in good faith with the County.

APPROACH TO PROJECT STAFFING AND SCHEDULE

This proposal assumes a Notice to Proceed of June 1, 2021 and is based on the following schedule as described in the RFP and illustrated in the Resource Allocation Schedule attached:

1. **Phase 1, Pre-Design: 10 months**
2. **Phase 2, Pre-Design Award: 6 months**
3. **Phase 3, Post-Award Support: 26 months**

2 Technology Drive, Suite 150 ■ Irvine, CA 92618 ■ 949.497.9000 ■ griffinstructures.com

4. Phase 4, Closeout: 3 months

APPROACH TO STAFFING AND PROJECT TEAM

To bring the highest level of efficiency and value to the County, Griffin Structures has assembled following team in accordance with the scope of work described in the RFP:

Roger Torriero will service as Principal in Charge for the duration of the project and will provide direction and quality assurance to the project team for a total of 552 hours. To bring value to the County, Roger's time is offered AT NO COST for a total VALUE ADDED of \$151,800

Jon Hughes will serve as the Project Executive for the duration of the project and will provide as-needed leadership to the team to ensure a successful delivery. Key to the success of the project will be Jon's experience working on the High Desert Public Safety Operations Center (PSOC) which allows Jon to bring critical insight to the team. For this level of service, we have allocated a total of 716 hours of Jon's time.

Tom Ottenstein will serve as the Program Manager and primary point of contact for the entire duration of the project. Tom will bring his considerable public safety construction experience, as well as his successful experience with the County, to bring leadership to the project on behalf of the County. For this level of service, we have allocated a total of 4220 hours of Tom's time.

Justin DiRico will serve as the Construction Manager for this project. In this role, Justin will serve in a supportive role helping to perform critical design reviews and in preparation for start of construction. Once construction begins, Justin will be deployed full time to the project site and serve as the on-site representative for the County. For this level of service, we have allocated a total of 4228 of Justin's time to this project.

Dustin Alamo will serve as the Programming Specialist for this project. Given his extensive knowledge of Public Safety programming, and his deep understanding of the organizational structure of the County, Dustin will bring considerable value to the project in validating the program and enforcing its implementation. For this level of service, we have allocated 170 hours of Dustin's time.

Jay Helekar will serve as the chief estimator for this project. Under Jay's leadership Griffin will perform construction cost estimates at key stages of the Bridging Document development phase, as well as serve as an estimating check against the DBE's estimates and final bid price. For this level of service, we have allocated 230 hours of Jay's time.

LPA Design Studios in association with **MWL Architects** will provide all necessary Architecture and Engineering to develop a biddable set of bridging documents based on the parameters set in the RFP. For a detailed breakdown of LPA's costs, please see attached Architecture and Engineering Fee Proposal.

QUALIFICATIONS AND EXCLUSIONS

1. Hourly rates will remain fixed for the duration of the project.
2. Costs for on-site trailer rental, furniture, utilities, and sanitary facilities is excluded. It is assumed the County and/or the selected Design-Build Entity will provide suitable field office space.
3. Costs for all permits required for the project are excluded. It is assumed that the County will pay for all permitting fees, assessments, easements, school fees, and other agency or governmental fees or costs to support the design and construction the project. We have not included any permit related fees within our fee proposal. Permits will be pulled by others.

4. Costs for surveying, construction staking, environmental and hazardous materials surveys, and all environmental and hazardous materials transportation and remediation costs are excluded.
5. No Environmental monitoring services are included in this proposal and are assumed to be included in the DBE's scope of work under contract with the County.
6. Software licenses or user fees and all software training costs for specific project management software being required by either the County or their contractor(s) is excluded. For purposes of providing Document Management services, we recommend the use of "Submittal Exchange" (Oracle) the cost for which is listed in this proposal as a reimbursable expense.
7. Cost of bulk blueprinting for plans and specifications for use by the contractors and subcontractors is excluded. Funds included in reimbursable expenses are for Griffin printing costs alone.
8. Wage Compliance Program including Certified Payroll auditing, field interviews, or reporting is excluded. Based on State Law SB 854, it is assumed that the Dept. of Industrial Relations (DIR) will manage this effort at the State level. Griffin will enforce the Contractor registration requirements stipulated by the DIR.
9. Independent or third-party testing companies such as Roofing, Peer Reviews, or other specialized third-party oversight services other than those listed herein are excluded.
10. No LEED services are included in this proposal. Any service related to LEED design, specifications, applications, or LEED commissioning are excluded. Should the County wish to pursue LEED certification Griffin will negotiate a scope and fee in good faith with the County. This proposal does however provide a cost for LEED design consulting services through 100% DD, as an Add Alternate.
11. Commissioning requirements required by Cal Green (Title 24) are excluded. Griffin will manage the commissioning process, but we have not included a commissioning agent, nor development of commissioning specifications. LEED commissioning requirements are not included. Should the County choose to move forward with LEED certification, Griffin will execute a process for selecting a LEED commissioning agent.
12. This proposal includes FF&E Design & Selection for Dispatch Consoles only. No other FF&E or OS&E is included in this proposal. It is assumed the DBE scope of work will include the design, selection, procurement, coordination, and installation of all required FF&E.
13. Construction Site Security is excluded.
14. Construction Manager will review all RFI's, Submittals, and Substitutions only for completeness, approvals to be executed by the designer of record as part of the Design Build Entity. Master Architect will remain engaged in the project for reviewing of any substitution requests.
15. This proposal does not include a formal independent Inspector of Record (IOR). All County Building Dept. Permit Inspections are assumed to be performed by the County Building Dept and Public Works inspections staff.
16. This proposal includes Cost Estimates at the following stages of design: Schematic Design, 50% Design Development, and 100% Design Development. Construction Cost Estimates, when provided, are based on standard industry practice, professional experience, and knowledge of market conditions. Griffin has no control over material and labor costs, contractor's methods of establishing prices or the market and bidding conditions at the time of bid. Therefore, Griffin does not guarantee that bids received will not vary from the cost estimate provided and Griffin is not liable for any costs, liabilities, or damages incurred by the County arising from Griffin's opinion of cost, the actual project cost to the County, delays caused by events outside

the control of Griffin, or any labor or material cost increases.

17. Griffin is not responsible for any schedule delays and/or any losses, damages, or liabilities resulting therefrom that are caused by (1) events or conditions that are outside of Griffin's control or (2) the acts or omissions of parties for whom Griffin is not legally liable (collectively, "Non-Consultant Delays"). The schedule for completion will be extended for any Non-Consultant Delays. If Griffin incurs additional costs or expenses due to Non-Consultant Delays, then Griffin's fee compensation will be equitably adjusted to cover such additional costs or expenses.
18. This Proposal includes the management of the CEQA process but does not include the services of a CEQA consultant. A formal Environmental Impact Report is excluded. It is assumed this project is consistent with the City and County's General and/or Specific Plan and that any CEQA approvals will be achieved through a Mitigated Negative Declaration using County resources.
19. WQMP or SWPPP services are excluded from this proposal. It is assumed the DBE will provide the necessary design of, application for, and achieve approval by the State for any and all WQMP and SWPPP requirements. This proposal does include establishing the performance criteria for WQMP's and best practice options for inclusion in the Bridging Documents.
20. Geotechnical services are excluded from this proposal. It is assumed the County will use a Geotechnical firm from its list of On-Call consultants to perform a geotechnical investigation.
21. Griffin recommends the use of OpenSpace for providing 360 photographic documentation, the cost of which is included as a reimbursable expense.
22. Scheduling Consulting services is included as an Allowance to be utilized on an as needed basis.
