SAN BERNARDINO
COUNTY

Department of Public Works

A wide-angle photograph of a football field under a clear blue sky. The field is green with white yard lines and numbers. The end zone is purple with the word 'SERRAVALLES' written in large white letters. A yellow goalpost stands in the center of the field. In the background, there are hills, a water tower, and stadium lights.

Public Participation

CHAPTER 3 OUTREACH & ENGAGEMENT

OUTREACH AND ENGAGEMENT

The San Bernardino County SRTS team worked closely with the school districts, schools, teachers, parents, and the overall community to address their concerns and priorities. School staff and families are experts on how students get to and from school, and their input is invaluable to creating recommendations that will best serve future students. This Plan identified a comprehensive outreach and engagement approach that provided opportunities for school staff, parents, and caregivers to learn about the SRTS Safety Action Plan and its goals, share their concerns about traffic safety around their school and neighborhood, and inform the decision-making process and ultimate project recommendations. This chapter provides a summary of the outreach conducted during the planning process and how feedback was used to inform the final SRTS Safety Action Plan.

3.1 SCHOOL OBSERVATIONS AND WALK AUDITS

The project team observed school drop-off or pick-up at each of the 21 project schools. The purpose of these observations was to understand school circulation patterns, identify barriers to walking and biking, and document unsafe behaviors.

Each school observation was coupled with a walk audit with school stakeholders, including parents/caregivers, principals, school staff, and others. The purpose of the walk audits was to introduce participants to the SRTS Safety Action Plan, and to provide opportunities for them to give their input on their needs and concerns, preferences, and observations that are barriers to safe walking, biking, and rolling to and from school. To ensure participation, each school publicized the walk audit through their communication channels (eblast, web page, social media, flyers).

The project team gave participants pens, clipboards, and maps of their school that included existing conditions. Each map included questions to prompt observations and an area for participants to record input. All materials were provided in both English and Spanish and outreach was conducted in both English and Spanish, as needed. Participants were invited to communicate verbally or via the paper map with the deficiencies and safety concerns about traveling to and from school. The project team was on hand to document the participant feedback and dialogue with them about potential solutions to improve active

transportation conditions along the school route. The feedback from the walk audit heavily informed the infrastructure recommendations. Chapter 4 includes the individual school plan which summarizes specific observations and feedback from each walk audit.

Figure 3.1 Walk Audit Flyer Example

3.2 STUDENT TALLIES AND PARENT SURVEYS

STUDENT TALLIES

As part of the outreach for each school, the project team circulated a packet of material which included the walk audit flyers, student travel tally sheets, as well as instructions on how to administer the travel tally sheet. This tally sheet uses the standard “Student Travel Tally” form developed by the National Center for SRTS to collect data from students on how they travel to and from school and was administered via a QR code to an on-line interface. Each school was asked to conduct the tally during the week of their schedule audit.

Overall, over 400 student travel tallies were submitted from across all 21 schools and were used to determine how students are traveling to and from school on a daily basis. Figure 3.2 shows the different travel modes students took to and from school in the morning and in the afternoon. Please note that high schools received a separate tally sheet to have students conduct their own tallies instead of the teachers conducting the tally. In general, family vehicles are the most common mode of transportation among students. Students were also recorded walking and taking the school bus.

PARENT SURVEY

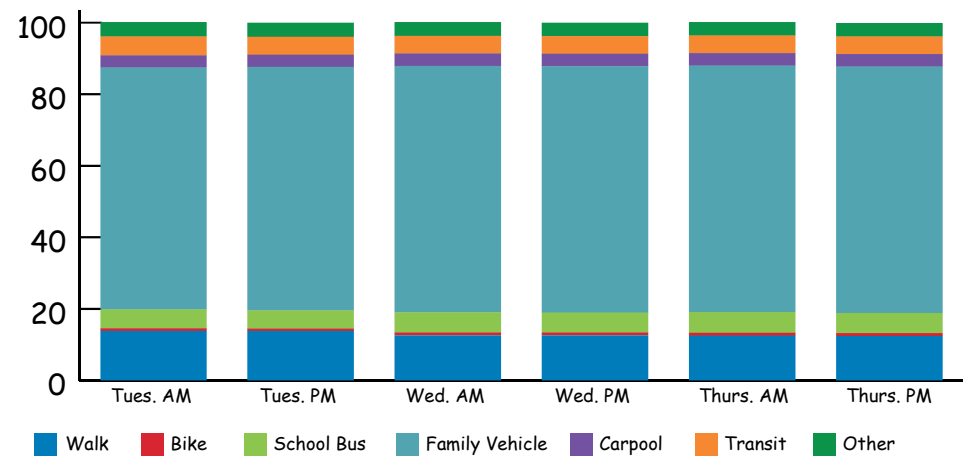

Parents/guardians’ knowledge and attitudes about their student’s travel habits, including walking and biking to and from school were analyzed from the parent surveys collected at the beginning of this project. The survey was an online questionnaire sent to all project schools which was then publicized to all parents/guardians through each individual school’s communication channels (eblast, web page, social media, flyers). Over 350 surveys were submitted from the 21 participating schools. The survey asked parents how their student currently travels to and from school, the distance their family lives from school, challenges associated with walking and biking, and their overall attitudes toward active modes of transportation.

The results of the parent surveys are highlighted in each individual school plan in Chapter 4.

Figure 3.2 Student Travel Mode to and from School

Elementary & Middle School

High School

As Figure 3.3 shows, most parents shared that they live over two miles from their school and is a big reason why they do not allow their students to bike and walk to/from school. As shown, approximately 28% of parents responded that they live over two miles from their school while 23% responded they live within a quarter mile. This identified an opportunity to focus on biking and walking infrastructure within a quarter mile of the project schools. Parents also shared a number of concerns influencing their decision to allow or not allow their student to walk or bike to/from school. The biggest concern was unsafe intersections and crossings (Figure 3.4).

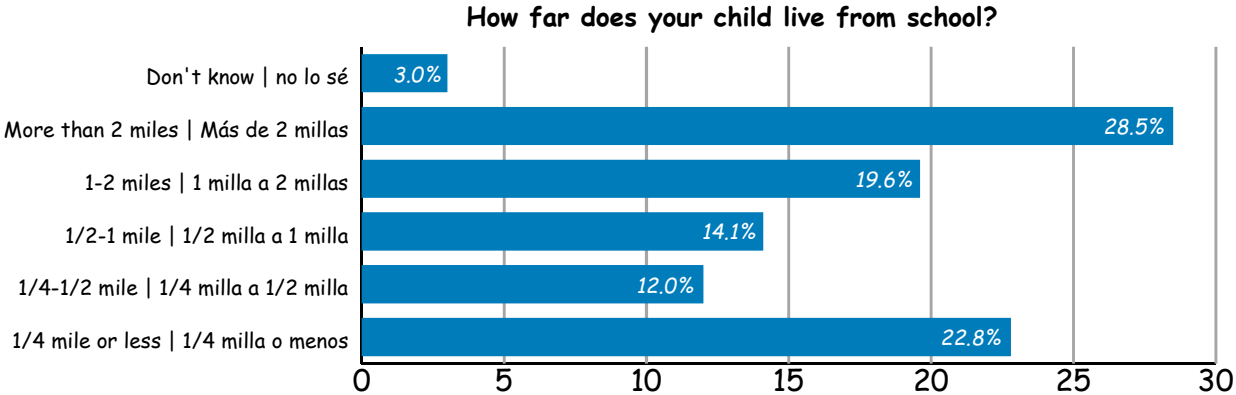

Figure 3.3 Parent Survey Question - Distance

What of the following issues affected your decision to allow, or not allow, your child to walk or bike from school?

San Bernardino County Safe Routes to School

Parent/Caregiver Survey

The San Bernardino County is developing a Safe Routes to School Plan for your school that aims to encourage students to take part in more physical activity, increase the use of public facilities such as bicycle and walking paths, create safer routes to school, and ensure that streets around your school are safe for everyone.

Your feedback is important to this project! Please take this 5-minute survey about your family's travel choices and perception of safety. What transportation concerns do you have?

Pacific High School

Encuesta de Padres/Cuidadores

El Plan de Rutas Seguras a la Escuela del Condado de San Bernardino tiene como objetivo alentar a los estudiantes a participar en más actividad física, aumentar el uso de instalaciones públicas como senderos para caminar y andar en bicicleta, crear rutas más seguras a la escuela y garantizar que las calles alrededor de su escuela sean seguras para todos.

Su opinión es importante para este proyecto. Por favor toma esta encuesta de 5 minutos sobre las opciones de viaje de su familia y las percepciones de viaje de su familia y la percepciones de seguridad.

Pacific High School

San Bernardino County Safe Routes to School Student Arrival and Departure Tally Survey

The San Bernardino County Safe Routes to School Plan aims to encourage students to take part in more physical activity, increase the use of public facilities such as bicycle and walking paths, create safer routes to school, and ensure that streets around your school are safe for everyone.

To help the County better understand your school, teachers are requested to survey students' modes of travel. Please conduct the surveys in the classroom. Please see the directions below:

1. Please conduct these counts on AT LEAST two of the following three days Tuesday, Wednesday or Thursday.
2. Please do not conduct these counts on Monday or Friday.
3. Before asking students to raise their hands, please read through all possible answer choices so they will know the available choices. Each student may only answer once.
4. Ask your students as a group the question, "How did you arrive at school today?"
5. Then, reread each answer choice and record the number of students that raised their hands for each choice.
6. Follow the same procedure for the question, "How do you plan to leave for home after school?"
7. Please conduct the survey once per day. During the count please ask students both school arrival and departure questions.
8. Please conduct the survey regardless of weather conditions.

San Bernardino County Safe Routes to School Walk Audit

Pacific High School

Tuesday
February 4,
2025

8:30 AM
Morning
Drop Off

Would you like to help improve the pedestrian and bicycle routes to your local school?
Come join the Walk Audit!

WHAT

San Bernardino County Public Works is working to develop Safe Routes to School plans and projects throughout San Bernardino County.

In addition to engineering solutions, we are looking for ideas on how schools can work with their local jurisdiction to fund Safe Routes to School engagement, education, and encouragement programming.

WHO

Parents, students, school staff, district transportation and health staff, city staff, and other community members. We will walk commonly-used routes and take notes on the experience.

Questions?

If you have any questions or input, please feel free to contact us at:

SBCountySRTS@mbakerintl.com

WHY

Join the County to identify the most pressing issues with sidewalks, intersections, traffic signals, and crosswalks.

San Bernardino County Safe Routes to School

Auditoría de caminata

Pacific High School

Martes
4 de Febrero,
2025

8:30 AM
entrega por la
mañana

¿Te gustaría ayudar a mejorar las rutas para peatones y ciclistas que llevan a tu escuela local?
¡Únete a la auditoría de caminatas!

QUÉ

Obras Públicas del Condado de San Bernardino está trabajando para desarrollar planes y proyectos de Rutas Seguras a la Escuela en todo el Condado de San Bernardino.

Además de soluciones de ingeniería, buscamos ideas sobre cómo las escuelas pueden trabajar con su jurisdicción local para financiar programas de participación, educación y estímulo de Rutas Seguras a la Escuela.

POR QUÉ

Join the County to identify the most pressing issues with sidewalks, intersections, traffic signals, and crosswalks.

OMS

Padres, estudiantes, personal escolar, personal de transporte y salud del distrito, personal de la ciudad y otros miembros de la comunidad. Recorreremos rutas de uso común y tomaremos notas sobre la experiencia.
