SECTION 3. Policy TM-5.6 of the Transportation and Mobility Element is amended in its entirety, to read:

Policy TM-5.6 Unincorporated truck routes.

We establish local truck routes in unincorporated areas to efficiently funnel truck traffic to freeways while minimizing impacts on residents and other sensitive receptors. We establish routes where trucks are prohibited and prioritize enforcement in unincorporated environmental justice focus areas and to avoid overlaps or conflicts with safe routes to schools.

SECTION 4. Policy Map TM-5 Goods Movement of the Policy Plan is amended in its entirety as shown in Attachment "A" to this Resolution.

SECTION 5. Policy Map TM-5A Goods Movement, Valley Region is added to the Transportation and Mobility Element of the Policy Plan as shown in Attachment "B" to this Resolution.

Sensitive receptor. In the context of truck routes, sensitive receptor means one or more of the following:

 - (iii) Land developed at or adjacent to an airport or seaport for the express purpose of creating a buffer area between sensitive receptors and an airport or seaport facility.
- (5) Nursing homes, long-term care facilities, hospices, convalescent facilities, or similar live-in housing.
- (6) Hospitals, as defined in Section 128700 of the Health and Safety Code.

SECTION 7. Policy Plan Action IMP-2021-TM-10 of the Implementation Plan is amended in its entirety, to read:

IMP-2021-TM-10 Truck Route Updates.

Coordinate with the San Bernardino County Transportation Authority (SBCTA) and incorporated jurisdictions to develop and maintain a countywide system of regional truck routes. Ensure truck routes avoid to the maximum extent possible, safe routes to schools, and minimize exposure to other sensitive receptors. Conduct additional public engagement with unincorporated communities and local jurisdictions in early 2026 to identify potential revisions to County truck routes and restricted roads (where trucks are prohibited). Examples of roads identified for new truck restrictions include San Bernardino Avenue (from Live Oak Avenue to Elm Avenue) in unincorporated Fontana, and Santa Ana Avenue (from roughly 600 feet east of Cedar Avenue to the Rialto city boundary) in Bloomington. These new truck restrictions would limit vehicle access, except for public services like schools and trash pickup, to light-duty vehicles (Classes 1-3) that weigh less than 16,000 pounds. Beginning in 2026, and on an annual basis thereafter, review and, as appropriate, update County truck routes and restricted roads based on input from unincorporated residents and coordination with local jurisdictions, public agencies, and businesses.

SECTION 8. Policy Plan Action IMP-2021-TM-11 is added to the Implementation Plan of the Business Plan, to read:

IMP-2025-TM-11 Truck Route Enforcement.

Coordinate with the California Highway Patrol to ensure appropriate training and certification is obtained for the enforcement of truck routes consistent with state law. Evaluate appropriate increases in fines for operators illegally traveling along non-truck routes. Augment signage and fines with enforcement strategies and mechanisms such as education campaigns and, as appropriate to each roadway, time-of-day restrictions and physical roadway design changes. Coordinate with public agencies, mapping companies, and logistics and warehouse operators to electronically distribute route data (truck routes and non-truck routes) for use by truck drivers and for reference for enforcement entities and unincorporated residents. Prioritize the enforcement of truck routes and truck parking code violations in environmental justice focus areas.
