RECOMMENDATION(S)

Approve Non-Financial Reciprocal Transfer **Agreement No. 20-281** with FMC/RAI Care Centers of Colton, LLC to allow for the transfer of patients between facilities, receive dialysis treatment and care services for a five-year period from August 25, 2020, through August 24, 2025.

(Presenter: William L. Gilbert, Director, 580-6150)

COUNTY AND CHIEF EXECUTIVE OFFICER GOALS & OBJECTIVES

Provide for the Safety, Health and Social Service Needs of County Residents.

FINANCIAL IMPACT

Approval of this Non-Financial Reciprocal Transfer Agreement will not result in the use of Discretionary General Funding (Net County Cost) as costs for patient care services provided at Arrowhead Regional Medical Center (ARMC) will be funded through State-Medical, Federal Medicare, private insurances, and other departmental revenue. No funds will be exchanged for the transfer of patients and the care of patient services. Each facility will be responsible for the costs associated with patient care provided at their facility. Sufficient appropriation and revenue will be included in the ARMC 2020-21 recommended budget and will be included in future recommended budgets for patients who receive services at ARMC.

BACKGROUND INFORMATION

Approval of the non-financial agreement with RAI Colton will allow ARMC to accept and transfer patients who require dialysis treatment to and from RAI Colton. The agreement will facilitate the continuity of care and timely transfer of patients and their records between facilities should an emergency render ARMC or RAI Colton either inoperable or inaccessible to some or all of its enrolled dialysis patients. All patient transfers shall be in accordance with applicable federal and state laws and regulations, standards of regulatory agencies, and reasonable policies and procedures of the facility.

State and federal law mandates that when a specialized healthcare facility with the ability to provide a patient with a higher level of care is contacted by an admitting hospital that is unable to provide the specific care that is needed, the specialized healthcare facility must accept the transfer of the critically ill patient.
