Amendment Amount	<u>\$0</u>
Total Contract Amount	<u>\$250,500</u>
Cost Center	<u>1970002510 F02934</u>
Grant Number (if applicable)	<u></u>

Briefly describe the general nature of the contract: The California Department of Water Resources (DWR) has implemented the Stream Gage Improvement Program (CalSIP) to improve the stream gaging network statewide and to provide reliable, real-time information about the conditions and amount of water flowing in our rivers and streams as California experiences more frequent shifts between climate extremes. Through this program, DWR is seeking to fund public entities to improve stream gage infrastructure and bridge data gaps. The District's Stream Gage Project is being implemented to support and improve the stream gage network within the State of California and is intended to provide publicly available data on natural surface waters and provide sound data that accurately informs water management decisions.
