Step 4

## (2500 max characters) positions to support our effort to increase primary care physicians in the underserved regions of San Bernardino County of

California. ARMC's mission is to train racially and ethnically diverse family medicine residents who are competent and culturally sensitive and who desire to practice in underserved areas after completing residency. San Bernardino County ranks in the bottom tier of counties in California for patient to primary care physician ratio and ranks in the lowest 15 for overall health outcomes. ARMC has set goals to develop expertise in our residents related to health disparities, advocacy and population health to improve population level outcomes in both of these metrics.

Residents spend the majority of their residency training in San Bernardino County at ARMC including their subspecialty/quaternary care experience Residents receive continuity clinic experience through three off ARMC Family Care Outpatient Clinics. Over 95% of our Family Medicine patient population have Medi-Cal or managed care Medi-Cal.

In their time at ARMC residents are exceptionally trained in their ACGME mandatory sub-specialty rotations with the goal of being competent to practice Family Medicine in areas of physician shortages without tertiary care centers. Residents are exposed to low income patients in the inpatient and outpatient setting and learn about the difficulties many individuals face with complex care needs and very limited resources. At ARMC, our residents work in interdisciplinary teams to address the cultural, social or economic barriers our patients experience.

The ARMC Family Medicine Residency Program participates in teaching medical students from Loma Linda University Health (LLUH), Western University, Saint Georges University, California University of Science and Medicine (CUSM), and University of California-Riverside Medical School (UCR). Finally, we have completed our multi year expansion of the program going from 14 residents up to 16 resident per year.
