Transportation Equipment Fund (6650002008) to assist in the purchase of future equipment as needed.

BACKGROUND INFORMATION

The Department owns and operates vehicles and heavy equipment pursuant to its mission of maintaining County roads. Department staff determined that it is no longer economically beneficial to continue to maintain or repair the surplus assets identified in this item.

Disposing of these surplus assets aligns with the County and Chief Executive Officer goals and objectives to improve County government operations and to operate in a fiscally-responsible and business-like manner.

The equipment has been replaced with newer units that produce fewer emissions, in accordance with mandates from the California Air Resources Board. Selling the older units is necessary to continue the Department's compliance with the South Coast Air Quality Management District. Heavy equipment that does not meet air quality standards must be sold out of state. Once approved for surplus, the equipment will be sent to the County's contracted auction vendors for disposition, coordinated through the Purchasing Department, Surplus Property Division, in accordance with Standard Practice No. 12-18 SP1.

PROCUREMENT

Not applicable.
