**IT IS HEREBY AGREED AS FOLLOWS*:***

**WHEREAS**, San Bernardino County (County) desires to provide Training Courses (Services); and

**WHEREAS**, the County conducted a competitive process (PROB24-PROB-5304) to find New Horizons Learning, LLC. dba New Horizons (Contractor) to provide these services, and

**WHEREAS,** the County finds Contractor qualified to provide Training Courses; and

**WHEREAS,** the County desires that such services be provided by Contractor and Contractor agrees to perform these services as set forth below;

**NOW, THEREFORE**, the County and Contractor mutually agree to the following terms and conditions:

**A.    DEFINITIONS**

**A.1**    Board of State and Community Corrections (BSCC): was established in statute effective July 1, 2012, to serve as an independent body providing leadership and technical assistance to the adult and juvenile criminal systems.

**A.2**    Contractor: Any individual, company, firm, corporation, partnership, or other organization identified as providing Services, and to whom a Contract award is made by the County.

**A.3** Probation or Probation Department: The County department that is responsible for building stronger families and safer communities by improving the lives of those Probation services through assessment, treatment, rehabilitative services and enforcement.

**A.4** Probation Training Coordinator: A Probation Supervising Officer assigned to coordinate training requirements for the Detention Corrections Bureau, Administrative Services Bureau and for the Community Corrections Bureau.

**A.5** Standard and Training for Corrections (STC): The STC Division at BSCC works in collaboration with local corrections systems to improve the professional competence of local corrections staff in California.

**A.6** Subcontractor: An individual, company, firm, corporation, partnership or other organization, not in the employment of or owned by Contractor who is performing services under this Contract on behalf of Contractor.

**A.7** Training Plan: Annual Probation Training Plan to establish general guidelines relating to training attendance as required by the Department, County, State, and/or Federal Government. The Plan is developed and approved by Probation to fulfill annual training requirement hours for sworn and non-sworn staff.

**B. CONTRACTOR RESPONSIBILITIES**

**B.1** Contractor shall facilitate instruction course(s) to Probation personnel per Attachment A – Cost and Attachment C – Course Catalog. Contractor's training coordinator will coordinate the date(s), time(s) and location(s) for all provided trainings.

**B.2** Contractor shall provide Services at County approved facilities throughout San Bernardino County.

**B.3** Contractor shall maintain all necessary professional license(s) and certifications, to render Services provided as required by the State of California (if applicable).

**B.4** Two weeks prior to anticipated course, Contractor shall provide training materials and any instruction consisting of web-based (use of internet needed) to the Probation Training Coordinator, including confirmation of date, time and location of course.

**B.5** Contractor shall notify Probation of any cancellations ten business prior to the scheduled training.

**B.6** On the day of the event, instructors shall be fully prepared with all materials, handouts, etc.

**B.7** Courses shall be Standards and Training for Corrections (STC) certified, or be able to be certified by the Probation Department, as needed.

**C. GENERAL CONTRACT REQUIREMENTS**

**C.1 Recitals**
The recitals set forth above are true and correct and incorporated herein by this reference.

**C.2 Contract Amendments**
Contractor agrees any alterations, variations, modifications, or waivers of the provisions of the Contract, shall be valid only when reduced to writing, executed and attached to the original Contract and approved by the person(s) authorized to do so on behalf of Contractor and County.

**C.3 Contract Assignability**
Without the prior written consent of the County, the Contract is not assignable by Contractor either in whole or in part.

**C.4 Contract Exclusivity**
This is not an exclusive Contract. The County reserves the right to enter into a contract with other contractors for the same or similar services. The County does not guarantee or represent that the

Contractor will be permitted to perform any minimum amount of work, or receive compensation other than on a per order basis, under the terms of this Contract.

**C.5    Attorney's Fees and Costs**
If any legal action is instituted to enforce any party's rights hereunder, each party shall bear its own costs and attorney's fees, regardless of who is the prevailing party. This paragraph shall not apply to those costs and attorney's fees directly arising from a third-party legal action against a party hereto and payable under Indemnification and Insurance Requirements.

**C.6    Background Checks for Contractor Personnel**
Contractor shall ensure that its personnel (a) are authorized to work in the jurisdiction in which they are assigned to perform Services; (d) do not use legal or illegal substances in any manner which will impact their ability to provide Services to the County; and (c) are not otherwise disqualified from performing the Services under applicable law.  If requested by the County and not in violation of applicable law, Contractor shall conduct a background check, at Contractor's sole expense, on all its personnel providing Services. If requested by the County, Contractor shall provide the results of the background check of each individual to the County.  Such background check shall be in the form generally used by Contractor in its initial hiring of employees or contracting for contractors or, as applicable, during the employment-screening process but must, at a minimum, have been performed within the preceding 12-month period.  Contractor personnel who do not meet the County's hiring criteria, in County's sole discretion, shall not be assigned to work on County property or Services, and County shall have the right, at its sole option, to refuse access to any Contract personnel to any County facility.

**C.7    Change of Address**
Contractor shall notify the County in writing, of any change in mailing address within ten (10) business days of the change.

**C.8    Choice of Law**
This Contract shall be governed by and construed according to the laws of the State of California.

**C.9    Compliance with County Policy**
In performing the Services and while at any County facilities, Contractor personnel (including subcontractors) shall (a) conduct themselves in a businesslike manner; (b) comply with the policies, procedures, and rules of the County regarding health and safety, and personal, professional and ethical conduct; (c) comply with the finance, accounting, banking, Internet, security, and/or other applicable standards, policies, practices, processes, procedures, and controls of the County; and (d) abide by all laws applicable to the County facilities and the provision of the Services, and all amendments and modifications to each of the documents listed in subsections (b), (c), and (d) (collectively, "County Policies").  County Policies, and additions or modifications thereto, may be communicated orally or in writing to Contractor or Contractor personnel or may be made available to Contractor or Contractor personnel by conspicuous posting at a County facility, electronic posting, or other means generally used by County to disseminate such information to its employees or contractors. Contractor shall be responsible for the promulgation and distribution of County Policies to Contractor personnel to the extent necessary and appropriate.

County shall have the right to require Contractor's employees, agents, representatives and subcontractors to exhibit identification credentials issued by County in order to exercise any right of access under this Contract.

**C.10    Confidentiality**
Contractor shall protect from unauthorized use or disclosure the names and other identifying information concerning persons receiving Services pursuant to this Contract, except for statistical information not identifying any participant.  Contractor shall not use or disclose any identifying information for any purpose other than carrying out the Contractor's obligations under this Contract,

except as may otherwise be required by law. This provision will remain in force even after the termination of the Contract.

**C.11    Primary Point of Contact**
Contractor will designate an individual to serve as the primary point of contact for the Contract. Contractor or designee must respond to County inquiries within two (2) business days. Contractor shall not change the primary contact without written acknowledgement to the County. Contractor will also designate a back-up point of contact in the event the primary contact is not available.

**C.12    County Representative**
The Chief Probation Officer of his/her designee shall represent the County in all matters pertaining to the services to be rendered under this Contract, including termination and assignment of this Contract, and shall be the final authority in all matters pertaining to the Services/Scope of Work by Contractor. If this contract was initially approved by the San Bernardino County Board of Supervisors, then the Board of Supervisors must approve all amendments to this Contract.

**C.13    Damage to County Property**
Contractor shall repair, or cause to be repaired, at its own cost, all damages to County vehicles, facilities, buildings or grounds caused by the willful or negligent acts of Contractor or its employees or agents. Such repairs shall be made immediately after Contractor becomes aware of such damage, but in no event later than thirty (30) days after the occurrence.

If the Contractor fails to make timely repairs, the County may make any necessary repairs. The Contractor, as determined by the County, shall repay all costs incurred by the County for such repairs, by cash payment upon demand, or County may deduct such costs from any amounts due to the Contractor from the County, as determined at the County's sole discretion.

**C.14    Debarment and Suspension**
Contractor certifies that neither it nor its principals or subcontractors is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency. (See the following United States General Services Administration's System for Award Management website https://www.sam.gov). Contractor further certifies that if it or any of its subcontractors are business entities that must be registered with the California Secretary of State, they are registered and in good standing with the Secretary of State.

**C.15    Drug and Alcohol Free Workplace**
In recognition of individual rights to work in a safe, healthful and productive work place, as a material condition of this Contract, the Contractor agrees that the Contractor and the Contractor's employees, while performing service for the County, on County property, or while using County equipment:
**C.15.1**    Shall not be in any way impaired because of being under the influence of alcohol or an illegal or controlled substance.

**C.15.2**    Shall not possess an open container of alcohol or consume alcohol or possess or be under the influence of an illegal or controlled substance.

**C.15.3**    Shall not sell, offer, or provide alcohol or an illegal or controlled substance to another person, except where Contractor or Contractor's employee who, as part of the performance of normal job duties and responsibilities, prescribes or administers medically prescribed drugs.

The Contractor shall inform all employees that are performing service for the County on County property, or using County equipment, of the County's objective of a safe, healthful and productive work place and the prohibition of drug or alcohol use or impairment from same while performing such service for the County.

The County may terminate for default or breach of this Contract and any other Contract the Contractor has with the County, if the Contractor or Contractor's employees are determined by the County not to be in compliance with above.

**C.16  Duration of Terms**
This Contract, and all of its terms and conditions, shall be binding upon and shall inure to the benefit of the heirs, executors, administrators, successors, and assigns of the respective parties, provided no such assignment is in violation of the provisions of this Contract.

**C.17  Employment Discrimination**
During the term of the Contract, Contractor shall not discriminate against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, sexual orientation, age, or military and veteran status. Contractor shall comply with Executive Orders 11246, 11375, 11625, 12138, 12432, 12250, 13672, Title VI and Title VII of the Civil Rights Act of 1964, the California Fair Employment and Housing Act and other applicable Federal, State and County laws and regulations and policies relating to equal employment and contracting opportunities, including laws and regulations hereafter enacted.

**C.18  Environmental Requirements**
In accordance with County Policy 11-08, the County prefers to acquire and use products with higher levels of post-consumer recycled content. Environmentally preferable goods and materials must perform satisfactorily and be available at a reasonable price. The County requires Contractor to use recycled paper for any printed or photocopied material created as a result of this Contract. Contractor is also required to use both sides of paper sheets for reports submitted to the County whenever practicable.

To assist the county in meeting the reporting requirements of the California Integrated Waste Management Act of 1989 (AB 939), Contractor must be able to annually report the County's environmentally preferable purchases. Contractor must also be able to report on environmentally preferable goods and materials used in the provision of their service to the County, utilizing a County approved form.

**C.19  Improper Influence**
Contractor shall make all reasonable efforts to ensure that no County officer or employee, whose position in the County enables him/her to influence any award of the Contract or any competing offer, shall have any direct or indirect financial interest resulting from the award of the Contract or shall have any relationship to the Contractor or officer or employee of the Contractor.

**C.20  Improper Consideration**
Contractor shall not offer (either directly or through an intermediary) any improper consideration such as, but not limited to cash, discounts, service, the provision of travel or entertainment, or any items of value to any officer, employee or agent of the County in an attempt to secure favorable treatment regarding this Contract.

The County, by written notice, may immediately terminate this Contract if it determines that any improper consideration as described in the preceding paragraph was offered to any officer, employee or agent of the County with respect to the proposal and award process. This prohibition shall apply to any amendment, extension or evaluation process once a contract has been awarded.

Contractor shall immediately report any attempt by a County officer, employee or agent to solicit (either directly or through an intermediary) improper consideration from Contractor. The report shall be made to the supervisor or manager charged with supervision of the employee or the

County Administrative Office.  In the event of a termination under this provision, the County is entitled to pursue any available legal remedies.

**C.21    Informal Dispute Resolution**
In the event the County determines that service is unsatisfactory, or in the event of any other dispute, claim, question or disagreement arising from or relating to this Contract or breach thereof, the parties hereto shall use their best efforts to settle the dispute, claim, question or disagreement. To this effect, they shall consult and negotiate with each other in good faith and, recognizing their mutual interests, attempt to reach a just and equitable solution satisfactory to both parties.

**C.22    Legality and Severability**
The parties' actions under the Contract shall comply with all applicable laws, rules, regulations, court orders and governmental agency orders. The provisions of this Contract are specifically made severable.  If a provision of the Contract is terminated or held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall remain in full effect.

**C.23    Licenses, Permits and/or Certifications**
Contractor shall ensure that it has all necessary licenses, permits and/or certifications required by the laws of Federal, State, County, and municipal laws, ordinances, rules and regulations.  The Contractor shall maintain these licenses, permits and/or certifications in effect for the duration of this Contract. Contractor will notify County immediately of loss or suspension of any such licenses, permits and/or certifications. Failure to maintain a required license, permit and/or certification may result in immediate termination of this Contract.

**C.24    Material Misstatement/Misrepresentation**
If during the course of the administration of this Contract, the County determines that Contractor has made a material misstatement or misrepresentation or that materially inaccurate information has been provided to the County, this Contract may be immediately terminated.  If this Contract is terminated according to this provision, the County is entitled to pursue any available legal remedies.

**C.25    Mutual Covenants**
The parties to this Contract mutually covenant to perform all of their obligations hereunder, to exercise all discretion and rights granted hereunder, and to give all consents in a reasonable manner consistent with the standards of "good faith" and "fair dealing".

**C.26    Nondisclosure**
Contractor shall hold as confidential and use reasonable care to prevent unauthorized access by, storage, disclosure, publication, dissemination to and/or use by third parties of, confidential information that is either: (1) provided by the County to Contractor or an agent of Contractor or otherwise made available to Contractor or Contractor's agent in connection with this Contract; or, (2) acquired, obtained, or learned by Contractor or an agent of Contractor in the performance of this Contract.  For purposes of this provision, confidential information means any data, files, software, information or materials in oral, electronic, tangible or intangible form and however stored, compiled or memorialize and includes, but is not limited to, technology infrastructure, architecture, financial data, trade secrets, equipment specifications, user lists, passwords, research data, and technology data.

**C.27    Notice of Delays**
Except as otherwise provided herein, when either party has knowledge that any actual or potential situation is delaying or threatens to delay the timely performance of this contract, that party shall, within twenty-four (24) hours, give notice thereof, including all relevant information with respect thereto, to the other party.

**C.28    Ownership of Documents**

All documents, data, products, graphics, computer programs and reports prepared by Contractor pursuant to the Contract shall be considered property of the County upon payment for services (and products, if applicable). All such items shall be delivered to County at the completion of work under the Contract, subject to the requirements of Section IV–Term of the Contract.  Unless otherwise directed by County, Contractor may retain copies of such items.

**C.29    Participation Clause**
The County desires that Municipalities, School Districts, and other Tax Districts within the San Bernardino County requiring the same services provided herein may at their option and through the County Purchasing agent, avail themselves of this Contract.  Upon notice, in writing, the Contractor agrees to the extension of the terms of a resultant contract with such governmental bodies as though they have been expressly identified in this bid, with the provisions that:

**C.29.1**  Such governmental body does not have and will not have in force any other contract for like purchases.

**C.29.2**  Such governmental body does not have under consideration for award any other bids or quotations for like purchases.

Such governmental body shall make purchases directly through and to the Contractor.  The County will not be liable for any such purchase made between the Contractor and another governmental body who avails themselves of this contract.

**C.30    Air, Water Pollution Control, Safety and Health**
Contractor shall comply with all air pollution control, water pollution, safety and health ordinances and statutes, which apply to the work performed pursuant to this Contract.

**C.31    Records**
Contractor shall maintain all records and books pertaining to the delivery of services under this Contract and demonstrate accountability for contract performance.  All records shall be complete and current and comply with all Contract requirements. Failure to maintain acceptable records shall be considered grounds for withholding of payments for invoices submitted and/or termination of the Contract.

All records relating to the Contractor's personnel, consultants, subcontractors, Services/Scope of Work and expenses pertaining to this Contract shall be kept in a generally acceptable accounting format. Records should include primary source documents. Fiscal records shall be kept in accordance with Generally Accepted Accounting Principles and must account for all funds, tangible assets, revenue and expenditures. Fiscal records must comply with the appropriate Office of Management and Budget (OMB) Circulars, which state the administrative requirements, cost principles and other standards for accountancy.

**C.32    Relationship of the Parties**
Nothing contained in this Contract shall be construed as creating a joint venture, partnership, or employment arrangement between the Parties hereto, nor shall either Party have the right, power or authority to create an obligation or duty, expressed or implied, on behalf of the other Party hereto.

**C.33    Release of Information**
No news releases, advertisements, public announcements or photographs arising out of the Contract or Contractor's relationship with County may be made or used without prior written approval of the County.

**C.34    Representation of the County**
In the performance of this Contract, Contractor, its agents and employees, shall act in an independent capacity and not as officers, employees, or agents of the San Bernardino County.

**C.35    Strict Performance**

Failure by a party to insist upon the strict performance of any of the provisions of this Contract by the other party, or the failure by a party to exercise its rights upon the default of the other party, shall not constitute a waiver of such party's right to insist and demand strict compliance by the other party with the terms of this Contract thereafter.

**C.36    Subcontracting**

Contractor shall obtain County's written consent, which County may withhold in its sole discretion, before entering into Contracts with or otherwise engaging any subcontractors who may supply any part of the Services to County. At County's request, Contractor shall provide information regarding the subcontractor's qualifications and a listing of a subcontractor's key personnel including, if requested by the County, resumes of proposed subcontractor personnel.  Contractor shall remain directly responsible to County for its subcontractors and shall indemnify County for the actions or omissions of its subcontractors under the terms and conditions specified in Section G.  All approved subcontractors shall be subject to the provisions of this Contract applicable to Contractor Personnel.

For any subcontractor, Contractor shall:
**C.36.1**   Be responsible for subcontractor compliance with the Contract and the subcontract terms and conditions; and
**C.36.2**   Ensure that the subcontractor follows County's reporting formats and procedures as specified by County.
**C.36.3**   Include in the subcontractor's subcontract substantially similar terms as are provided in Sections B. Contractor Responsibilities and C. General Contract Requirements.

Upon expiration or termination of this Contract for any reason, County will have the right to enter into direct Contracts with any of the Subcontractors. Contractor agrees that its arrangements with Subcontractors will not prohibit or restrict such Subcontractors from entering into direct Contracts with County.

**C.37    Subpoena**

In the event that a subpoena or other legal process commenced by a third party in any way concerning the Goods or Services provided under this Contract is served upon Contractor or County, such party agrees to notify the other party in the most expeditious fashion possible following receipt of such subpoena or other legal process. Contractor and County further agree to cooperate with the other party in any lawful effort by such other party to contest the legal validity of such subpoena or other legal process commenced by a third party as may be reasonably required and at the expense of the party to whom the legal process is directed, except as otherwise provided herein in connection with defense obligations by Contractor for County.

**C.38    Termination for Convenience**

The County reserves the right to terminate the Contract, for its convenience, with or without cause, with a thirty (30) day written notice of termination. Such termination may include all or part of the services described herein. Upon such termination, payment will be made to the Contractor for services rendered and expenses reasonably incurred prior to the effective date of termination. Upon receipt of termination notice Contractor shall promptly discontinue services unless the notice directs otherwise. Contractor shall deliver promptly to County and transfer title (if necessary) all completed work, and work in progress, including drafts, documents, plans, forms, data, products, graphics, computer programs and reports.

**C.39    Time of the Essence**

Time is of the essence in performance of this Contract and of each of its provisions.

**C.40    Venue**

The parties acknowledge and agree that this Contract was entered into and intended to be performed in San Bernardino County, California. The parties agree that the venue of any action

or claim brought by any party to this Contract will be the Superior Court of California, San Bernardino County, San Bernardino District. Each party hereby waives any law or rule of the court, which would allow them to request or demand a change of venue. If any action or claim concerning this Contract is brought by any third party and filed in another venue, the parties hereto agree to use their best efforts to obtain a change of venue to the Superior Court of California, San Bernardino County, San Bernardino District.

**C.41    Conflict of Interest**
Contractor shall make all reasonable efforts to ensure that no conflict of interest exists between its officers, employees, or subcontractors and the County. Contractor shall make a reasonable effort to prevent employees, Contractor, or members of governing bodies from using their positions for purposes that are, or give the appearance of being motivated by a desire for private gain for themselves or others such as those with whom they have family business, or other ties. Officers, employees, and agents of cities, counties, districts, and other local agencies are subject to applicable conflict of interest codes and state law. In the event the County determines a conflict of interest situation exists, any increase in costs, associated with the conflict of interest situation, may be disallowed by the County and such conflict may constitute grounds for termination of the Contract. This provision shall not be construed to prohibit employment of persons with whom Contractor's officers, employees, or agents have family, business, or other ties so long as the employment of such persons does not result in increased costs over those associated with the employment of any other equally qualified applicant.

**C.42    Former County Administrative Officials**
Contractor agrees to provide, or has already provided information on former San Bernardino County administrative officials (as defined below) who are employed by or represent Contractor. The information provided includes a list of former County administrative officials who terminated County employment within the last five years and who are now officers, principals, partners, associates or members of the business. The information also includes the employment with or representation of Contractor. For purposes of this provision, "County administrative official" is defined as a member of the Board of Supervisors or such officer's staff, County Executive Officer or member of such officer's staff, County department or group head, assistant department or group head, or any employee in the Exempt Group, Management Unit or Safety Management Unit.

**C.43    Disclosure of Criminal and Civil Procedures**
The County reserves the right to request the information described herein from the Contractor. Failure to provide the information may result in a termination of the Contract. The County also reserves the right to obtain the requested information by way of a background check performed by an investigative firm. The Contractor also may be requested to provide information to clarify initial responses. Negative information discovered may result in Contract termination.

Contractor is required to disclose whether the firm, or any of its partners, principals, members, associates or key employees (as that term is defined herein), within the last ten years, has been indicted on or had charges brought against it or them (if still pending) or convicted of any crime or offense arising directly or indirectly from the conduct of the firm's business, or whether the firm, or any of its partners, principals, members, associates or key employees, has within the last ten years, been indicted on or had charges brought against it or them (if still pending) or convicted of any crime or offense involving financial misconduct or fraud. If the response is affirmative, the Contractor will be asked to describe any such indictments or charges (and the status thereof), convictions and the surrounding circumstances in detail.

In addition, the Contractor is required to disclose whether the firm, or any of its partners, principals, members, associates or key employees, within the last ten years, has been the subject of legal proceedings as defined herein arising directly from the provision of services by the firm or those individuals. "Legal proceedings" means any civil actions filed in a court of competent jurisdiction, or any matters filed by an administrative or regulatory body with jurisdiction over the firm or the

individuals. If the response is affirmative, the Contractor will be asked to describe any such legal proceedings (and the status and disposition thereof) and the surrounding circumstances in detail.

For purposes of this provision "key employees" includes any individuals providing direct service to the County. "Key employees" do not include clerical personnel providing service at the firm's offices or locations.

**C.44 Copyright**

County shall have a royalty-free, non-exclusive and irrevocable license to publish, disclose, copy, translate, and otherwise use, copyright or patent, now and hereafter, all reports, studies, information, data, statistics, forms, designs, plans, procedures, systems, and any other materials or properties developed under this Contract including those covered by copyright, and reserves the right to authorize others to use or reproduce such material. All such materials developed under the terms of this Contract shall acknowledge the San Bernardino County as the funding agency and Contractor as the creator of the publication. No such materials, or properties produced in whole or in part under this Contract shall be subject to private use, copyright or patent right by Contractor in the United States or in any other country without the express written consent of County. Copies of all educational and training materials, curricula, audio/visual aids, printer material, and periodicals, assembled pursuant to this Contract must be filed with the County prior to publication.

**C.45 Artwork, Proofs and Negatives**

All artwork, proofs, and/or negatives in either print or digital format for anything produced under the terms of this Contract are the property of the County. These items must be returned to the County within ten (10) days, upon written notification to the Contractor. In the event of a failure to return the documents, the County is entitled to pursue any available legal remedies. In addition, the Contractor will be barred from all future solicitations, for a period of at least six (6) months.

**C.46 Iran Contracting Act**

IRAN CONTRACTING ACT OF 2010, Public Contract Code sections 2200 et seq. (Applicable for all Contracts of one million dollars ($1,000,000) or more). In accordance with Public Contract Code section 2204(a), the Contractor certifies that at the time the Contract is signed, the Contractor signing the Contract is not identified on a list created pursuant to subdivision (b) of Public Contract Code section 2203 as a person (as defined in Public Contract Code section 2202(e)) engaging in investment activities in Iran described in subdivision (a) of Public Contract Code section 2202.5, or as a person described in subdivision (b) of Public Contract Code section 2202.5, as applicable.

Contractors are cautioned that making a false certification may subject the Contractor to civil penalties, termination of existing contract, and ineligibility to bid on a contract for a period of three (3) years in accordance with Public Contract Code section 2205.

**C.47 RESERVED**

**C.48 California Consumer Privacy Act**

To the extent applicable, if Contractor is a business that collects the personal information of a consumer(s) in performing Services pursuant to this Contract, Contractor must comply with the provisions of the California Consumer Privacy Act (CCPA). (Cal. Civil Code §§1798.100, et seq.). For purposes of this provision, "business," "consumer," and "personal information" shall have the same meanings as set forth at Civil Code section 1798.140. Contractor must contact the County immediately upon receipt of any request by a consumer submitted pursuant to the CCPA that requires any action on the part of the County, including but not limited to, providing a list of disclosures or deleting personal information. Contractor must not sell, market or otherwise disclose personal information of a consumer provided by the County unless specifically authorized pursuant to terms of this Contract. Contractor must immediately provide to the County any notice provided by a consumer to Contractor pursuant to Civil Code section 1798.150(b) alleging a

violation of the CCPA, that involves personal information received or maintained pursuant to this Contract. Contractor must immediately notify the County if it receives a notice of violation from the California Attorney General pursuant to Civil Code section 1798.155(b).

**C.49 Executive Order N-6-22 Russia Sanctions**
On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. "Economic Sanctions" refers to sanctions imposed by the U.S. government in response to Russia's actions in Ukraine (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions), as well as any sanctions imposed under state law (https://www.dgs.ca.gov/OLS/Ukraine-Russia). The EO directs state agencies and their contractors (including by agreement or receipt of a grant) to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should it be determined that Contractor is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this agreement. Contractor shall be provided advance written notice of such termination, allowing Contractor at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the County.

**C.50 Campaign Contribution Disclosure (SB 1439)**
Contractor has disclosed to the County using Attachment B - Campaign Contribution Disclosure Senate Bill 1439, whether it has made any campaign contributions of more than $250 to any member of the Board of Supervisors or other County elected officer [Sheriff, Assessor-Recorder-Clerk, Auditor-Controller/Treasurer/Tax Collector and the District Attorney] within the earlier of: (1) the date of the submission of Contractor's proposal to the County, or (2) 12 months before the date this Contract was approved by the Board of Supervisors. Contractor acknowledges that under Government Code section 84308, Contractor is prohibited from making campaign contributions of more than $250 to any member of the Board of Supervisors or other County elected officer for 12 months after the County's consideration of the Contract.

In the event of a proposed amendment to this Contract, the Contractor will provide the County a written statement disclosing any campaign contribution(s) of more than $250 to any member of the Board of Supervisors or other County elected officer within the preceding 12 months of the date of the proposed amendment.

Campaign contributions include those made by any agent/person/entity on behalf of the Contractor or by a parent, subsidiary or otherwise related business entity of Contractor.

**C.51 RESERVED**

**D. TERM OF CONTRACT**
This Contract is effective as of July 1, 2024 and expires June 30, 2029 but may be terminated earlier in accordance with provisions of this Contract.

**E. COUNTY RESPONSIBILITIES**
**E.1** Provide Contractor access to materials and data as needed.

**E.2** Probation Training Coordinator is responsible for scheduling trainings date, time and location.

**F. FISCAL PROVISIONS**
**F.1** The maximum amount of payment under this Contract shall be subject to availability of other funds to the County. The consideration to be paid to Contractor, as provided herein, shall be in full payment for all Contractor's services and expenses incurred in the performance hereof, including travel and per diem.

**F.2** No payment will be made for missed or cancelled appointments.

**F.3** Contractor shall provide County itemized monthly invoices, in arrears, and in a format acceptable to the County for Services performed under the Contract, based on the rates listed in Attachment A – Cost, attached hereto and incorporated by reference, within twenty (20) days of the end of the previous month. Invoices shall be issued with a net sixty (60) day payment term with corresponding Purchase Order number stated on the invoice. All invoices shall be sent to the County via one of the following methods:

- **Mail Invoices to:** San Bernardino County – Probation Department
  Attn: Administration – Purchasing & Accounts Payable
  175 W 5th Street, 3rd Floor
  San Bernardino, CA 92415

- **Email invoices to: APPurchasingInquiries.Probation@prob.sbcounty.gov**

**F.4** Contractor shall accept all payments from County via electronic funds transfer (EFT) directly deposited into the Contractor's designated checking or other bank account. Contractor shall promptly comply with directions and accurately complete forms provided by County required to process EFT payments.

**F.5** County is exempt from Federal excise taxes and no payment shall be made for any personal property taxes levied on Contractor or on any taxes levied on employee wages. The County shall only pay for any State or local sales or use taxes on the services rendered or equipment and/or parts supplied to the County pursuant to the Contract.

**F.6** Costs for services under the terms of this Contract shall be incurred during the contract period except as approved by County. Contractor shall not use current year funds to pay prior or future year obligations.

**F.7** Funds made available under this Contract shall not supplant any federal, state or any governmental funds intended for services of the same nature as this Contract. Contractor shall not claim reimbursement or payment from County for, or apply sums received from County with respect to that portion of its obligations that have been paid by another source of revenue. Contractor agrees that it will not use funds received pursuant to this Contract, either directly or indirectly, as a contribution or compensation for purposes of obtaining funds from another revenue source without prior written approval of the County.

**F.8** Contractor shall adhere to the County's Travel Management Policy (8-02 and 08-02SP1) when travel is pursuant to this Contract and for which reimbursement is sought from the County. In addition, Contractor is encouraged to utilize local transportation services, including but not limited to, the Ontario International Airport.

## G. INDEMNIFICATION AND INSURANCE REQUIREMENTS
### G.1 Indemnification
The Contractor agrees to indemnify, defend (with counsel reasonably approved by County) and hold harmless the County and its authorized officers, employees, agents and volunteers from any and all claims, actions, losses, damages and/or liability arising out of this Contract from any cause whatsoever, and for any costs or expenses incurred by the County on account of any claim except where such indemnification is prohibited by law. This indemnification provision shall apply regardless of the existence or degree of fault of indemnitees. The Contractor indemnification obligation applies to the County's "active" as well as "passive" negligence but does not apply to the County's "sole negligence" or "willful misconduct" within the meaning of Civil Code section 2782.

### G.2 Additional Insured
All policies, except for Worker's Compensation, Errors and Omissions and Professional Liability policies shall contain additional endorsements naming the County and its officers, employees,

agents and volunteers as additional named insured with respect to liabilities arising out of the performance of services hereunder. The additional insured endorsements shall not limit the scope of coverage for the County to vicarious liability but shall allow coverage for the County to the full extent provided by the policy.  Such additional insured coverage shall be at least as broad as Additional Insured (Form B) endorsement form ISO, CG 2010.11 85.

**G.3    Waiver of Subrogation Rights**
The Contractor shall require the carriers of required coverages to waive all rights of subrogation against the County, its officers, employees, agents, volunteers, contractors and subcontractors. All general or auto liability insurance coverage provided shall not prohibit the Contractor and Contractor's employees or agents from waiving the right of subrogation prior to a loss or claim. The Contractor hereby waives all rights of subrogation against the County.

**G.4    Policies Primary and Non-Contributory**
All policies required herein are to be primary and non-contributory with any insurance or self-insurance programs carried or administered by the County.

**G.5    Severability of Interests**
The Contractor agrees to ensure that coverage provided to meet these requirements is applicable separately to each insured and there will be no cross liability exclusions that preclude coverage for suits between the Contractor and the County or between the County and any other insured or additional insured under the policy.

**G.6    Proof of Coverage**
The Contractor shall furnish Certificates of Insurance to the County Department administering the Contract evidencing the insurance coverage at the time the Contract is executed, additional endorsements, as required shall be provided prior to the commencement of performance of services hereunder, which certificates shall provide that such insurance shall not be terminated or expire without thirty (30) days written notice to the Department, and Contractor shall maintain such insurance from the time Contractor commences performance of services hereunder until the completion of such services. Within fifteen (15) days of the commencement of this contract, the Contractor shall furnish a copy of the Declaration page for all applicable policies and will provide complete certified copies of the policies and endorsements immediately upon request.

**G.7    Acceptability of Insurance Carrier**
Unless otherwise approved by Risk Management, insurance shall be written by insurers authorized to do business in the State of California and with a minimum "Best" Insurance Guide rating of "A- VII".

**G.8    Deductibles and Self-Insured Retention**
Any and all deductibles or self-insured retentions in excess of $10,000 shall be declared to and approved by Risk Management.

**G.9    Failure to Procure Coverage**
In the event that any policy of insurance required under this contract does not comply with the requirements, is not procured, or is canceled and not replaced, the County has the right but not the obligation or duty to cancel the contract or obtain insurance if it deems necessary and any premiums paid by the County will be promptly reimbursed by the Contractor or County payments to the Contractor will be reduced to pay for County purchased insurance.

**G.10   Insurance Review**
Insurance requirements are subject to periodic review by the County. The Director of Risk Management or designee is authorized, but not required, to reduce, waive or suspend any insurance requirements whenever Risk Management determines that any of the required insurance is not available, is unreasonably priced, or is not needed to protect the interests of the County. In addition, if the Department of Risk Management determines that heretofore

unreasonably priced or unavailable types of insurance coverage or coverage limits become reasonably priced or available, the Director of Risk Management or designee is authorized, but not required, to change the above insurance requirements to require additional types of insurance coverage or higher coverage limits, provided that any such change is reasonable in light of past claims against the County, inflation, or any other item reasonably related to the County's risk.

Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this contract. Contractor agrees to execute any such amendment within thirty (30) days of receipt.

Any failure, actual or alleged, on the part of the County to monitor or enforce compliance with any of the insurance and indemnification requirements will not be deemed as a waiver of any rights on the part of the County.

**G.11** The Contractor agrees to provide insurance set forth in accordance with the requirements herein. If the Contractor uses existing coverage to comply with these requirements and that coverage does not meet the specified requirements, the Contractor agrees to amend, supplement or endorse the existing coverage to do so.

Without in anyway affecting the indemnity herein provided and in addition thereto, the Contractor shall secure and maintain throughout the contract term the following types of insurance with limits as shown:

**G.11.1** <u>Workers' Compensation/Employer's Liability</u> – A program of Workers' Compensation insurance or a state-approved, self-insurance program in an amount and form to meet all applicable requirements of the Labor Code of the State of California, including Employer's Liability with $250,000 limits covering all persons including volunteers providing services on behalf of the Contractor and all risks to such persons under this contract.

If Contractor has no employees, it may certify or warrant to the County that it does not currently have any employees or individuals who are defined as "employees" under the Labor Code and the requirement for Workers' Compensation coverage will be waived by the County's Director of Risk Management.

With respect to Contractors that are non-profit corporations organized under California or Federal law, volunteers for such entities are required to be covered by Workers' Compensation insurance.

**G.11.2** <u>Commercial/General Liability Insurance</u> – The Contractor shall carry General Liability Insurance covering all operations performed by or on behalf of the Contractor providing coverage for bodily injury and property damage with a combined single limit of not less than one million dollars ($1,000,000), per occurrence.  The policy coverage shall include:
   a. Broad form property damage (including completed operations).
   b. Personal injury.
   c. Contractual liability.
   d. $2,000,000 general aggregate limit.

**G.11.3** <u>Automobile Liability Insurance</u> – Primary insurance coverage shall be written on ISO Business Auto coverage form for all owned, hired and non-owned automobiles or symbol 1 (any auto).  The policy shall have a combined single limit of not less than one million dollars ($1,000,000) for bodily injury and property damage, per occurrence.

If the Contractor is transporting one or more non-employee passengers in performance of contract services, the automobile liability policy shall have a combined

single limit of two million dollars ($2,000,000) for bodily injury and property damage per occurrence.

If the Contractor owns no autos, a non-owned auto endorsement to the General Liability policy described above is acceptable.

**G.11.4** <u>Umbrella Liability Insurance</u> – An umbrella (over primary) or excess policy may be used to comply with limits or other primary coverage requirements. When used, the umbrella policy shall apply to bodily injury/property damage, personal injury/advertising injury and shall include a "dropdown" provision providing primary coverage for any liability not covered by the primary policy. The coverage shall also apply to automobile liability.

**G.11.5** <u>Professional Liability</u> – Professional Liability Insurance with limits of not less than one million ($1,000,000) per claim and two million ($2,000,000) aggregate limits

<p align="center">**or**</p>

<u>Errors and Omissions Liability Insurance</u> – Errors and Omissions Liability Insurance with limits of not less than one million ($1,000,000) and two million ($2,000,000) aggregate limits

<p align="center">**or**</p>

<u>Directors and Officers Insurance</u> coverage with limits of not less than one million ($1,000,000) shall be required for Contracts with charter labor committees or other not-for-profit organizations advising or acting on behalf of the County.

If insurance coverage is provided on a "claims made" policy, the "retroactive date" shall be shown and must be before the date of the state of the contract work. The claims made insurance shall be maintained or "tail" coverage provided for a minimum of five (5) years after contract completion.

**G.11.6 RESERVED**

**G.11.7 RESERVED**

## H. RIGHT TO MONITOR AND AUDIT

**H.1** The County, State and Federal government shall have absolute right to review and audit all records, books, papers, documents, corporate minutes, and other pertinent items as requested, and shall have absolute right to monitor the performance of Contractor in the delivery of services provided under this Contract. Contractor shall give full cooperation, in any auditing or monitoring conducted. Contractor shall cooperate with the County in the implementation, monitoring, and evaluation of this Contract and comply with any and all reporting requirements established by the County.

**H.2** All records pertaining to services delivered and all fiscal, statistical and management books and records shall be available for examination and audit by County representatives for a period of three years after final payment under this Contract or until all pending County, State and Federal audits are completed, whichever is later.

## I. CORRECTION OF PERFORMANCE DEFICIENCIES

**I.1** Failure by Contractor to comply with any of the provisions, covenants, requirements or conditions of this Contract shall be a material breach of this Contract.

**I.2** In the event of a non-cured breach, County may, at its sole discretion and in addition to any other remedies available at law, in equity, or otherwise specified in this Contract:

a. Afford Contractor thereafter a time period within which to cure the breach, which period shall be established at the sole discretion of County; and/or
b. Discontinue reimbursement to Contractor for and during the period in which Contractor is in breach, which reimbursement shall not be entitled to later recovery; and/or
c. Withhold funds pending duration of the breach; and/or
d. Offset against any monies billed by Contractor but yet unpaid by County those monies disallowed pursuant to Item "b" of this paragraph; and/or
e. Terminate this Contract immediately and be relieved of the payment of any consideration to Contractor. In the event of such termination, the County may proceed with the work in any manner deemed proper by the County. The cost to the County shall be deducted from any sum due to the Contractor under this Contract and the balance, if any, shall be paid by the Contractor upon demand.

## J.    NOTICES

All written notices provided for in this Contract or which either party desires to give to the other shall be deemed fully given, when made in writing and either served personally, or by facsimile, or deposited in the United States mail, postage prepaid, and addressed to the other party as follows:

| | |
|---|---|
| San Bernardino County | Gregory Pierce |
| Probation Department | New Horizons Learning, LLC. dba New |
| 175 W. 5th Street, 4th Floor | Horizons |
| San Bernardino, CA. 92415 | 707 Landa Street |
| | New Braunfels, Texas 78130 |

Notice shall be deemed communicated two (2) County working days from the time of mailing if mailed as provided in this paragraph.

## K.    ENTIRE AGREEMENT

This Contract, including all Exhibits and other attachments, which are attached hereto and incorporated by reference, and other documents incorporated herein, represents the final, complete and exclusive agreement between the parties hereto.  Any prior agreement, promises, negotiations or representations relating to the subject matter of this Contract not expressly set forth herein are of no force or effect. This Contract is executed without reliance upon any promise, warranty or representation by any party or any representative of any party other than those expressly contained herein. Each party has carefully read this Contract and signs the same of its own free will.

## L.    ELECTRONIC SIGNATURES

This Agreement may be executed in any number of counterparts, each of which so executed shall be deemed to be an original, and such counterparts shall together constitute one and the same Agreement. The parties shall be entitled to sign and transmit an electronic signature of this Agreement (whether by facsimile, PDF or other mail transmission), which signature shall be binding on the party whose name is contained therein. Each party providing an electronic signature agrees to promptly execute and deliver to the other party an original signed Agreement upon request.

**IN WITNESS WHEREOF**, the San Bernardino County and the Contractor have each caused this Contract to be subscribed by its respective duly authorized officers, on its behalf.

## DEFINITIONS

Actively supporting the matter:  (a) Communicate directly with a member of the Board of Supervisors or other County elected officer [Sheriff, Assessor-Recorder-Clerk, District Attorney, Auditor-Controller/Treasurer/Tax Collector] for the purpose of influencing the decision on the matter; or (b) testifies or makes an oral statement before the County in a proceeding on the matter for the purpose of influencing the County's decision on the matter; or (c) communicates with County employees, for the purpose of influencing the County's decision on the matter; or (d) when the person/company's agent lobbies in person, testifies in person or otherwise communicates with the Board or County employees for purposes of influencing the County's decision in a matter.

Agent: A third-party individual or firm who, for compensation, is representing a party or a participant in the matter submitted to the Board of Supervisors.   If an agent is an employee or member of a third-party law, architectural, engineering or consulting firm, or a similar entity, both the entity and the individual are considered agents.

Otherwise related entity: An otherwise related entity is any for-profit organization/company which does not have a parent-subsidiary relationship but meets one of the following criteria:

  (1) One business entity has a controlling ownership interest in the other business entity;
  (2) there is shared management and control between the entities; or
  (3) a controlling owner (50% or greater interest as a shareholder or as a general partner) in one entity also is a controlling owner in the other entity.

For purposes of (2), "shared management and control" can be found when the same person or substantially the same persons own and manage the two entities; there are common or commingled funds or assets; the business entities share the use of the same offices or employees, or otherwise share activities, resources or personnel on a regular basis; or there is otherwise a regular and close working relationship between the entities.

Parent-Subsidiary Relationship: A parent-subsidiary relationship exists when one corporation has more than 50 percent of the voting power of another corporation.

**Contractors must respond to the questions on the following page.  If a question does not apply respond N/A or Not Applicable.**

1. Name of Contractor:  New Horizons Learning, LLC. dba New Horizons

2. Is the entity listed in Question No.1 a nonprofit organization under Internal Revenue Code section 501(c)(3)?

   Yes ☐   If yes, skip Question Nos. 3-4 and go to Question No. 5        No ☑

3. Name of Principal (i.e., CEO/President) of entity listed in Question No. 1, if the individual actively supports the matter and has a financial interest in the decision: _N/A_____

4. If the entity identified in Question No.1 is a corporation held by 35 or less shareholders, and not publicly traded ("closed corporation"), identify the major shareholder(s):

   _Educate 360, LLC is the sole member of New Horizons Learning, LLC. _____

5. Name of any parent, subsidiary, or otherwise related entity for the entity listed in Question No. 1 (see definitions above):

| Company Name | Relationship |
|---|---|
| Educate 360, LLC | Owner |
|  |  |

6. Name of agent(s) of Contractor:

| Company Name | Agent(s) | Date Agent Retained (if less than 12 months prior) |
|---|---|---|
| N/A |  |  |
|  |  |  |

7. Name of Subcontractor(s) (including Principal and Agent(s)) that will be providing services/work under the awarded contract if the subcontractor (1) actively supports the matter and (2) has a financial interest in the decision and (3) will be possibly identified in the contract with the County or board governed special district.

| Company Name | Subcontractor(s): | Principal and//or Agent(s): |
|---|---|---|
| N/A |  |  |
|  |  |  |

8. Name of any known individuals/companies who are not listed in Questions 1-7, but who may (1) actively support or oppose the matter submitted to the Board and (2) have a financial interest in the outcome of the decision:

| Company Name | Individual(s) Name |
|---|---|
| N/A |  |
|  |  |

9.  Was a campaign contribution, of more than $250, made to any member of the San Bernardino County Board of Supervisors or other County elected officer within the prior 12 months, by any of the individuals or entities listed in Question Nos. 1-8?

No  ☑   If **no**, please skip Question No. 10.

Yes  ☐   If **yes**, please continue to complete this form.

10. Name of Board of Supervisor Member or other County elected officer: _____

Name of Contributor: _____

Date(s) of Contribution(s): _____

Amount(s): _____

Please add an additional sheet(s) to identify additional Board Members or other County elected officers to whom anyone listed made campaign contributions.

By signing the Contract, Contractor certifies that the statements made herein are true and correct.  Contractor understands that the individuals and entities listed in Question Nos. 1-8 are prohibited from making campaign contributions of more than $250 to any member of the Board of Supervisors or other County elected officer while award of this Contract is being considered and for 12 months after a final decision by the County.

# 2024 Course Catalog

Edward Gans
Major Account Manager
714-940-8011
Edward.Gans@newhorizons.com

| Course Title | Length In Days | Price | Description | URL |
|---|---|---|---|---|
| 10 Soft Skills You Need | 1.00 | $ 395.00 | In this course, students will develop a core set of soft skills by managing and looking at the way people interact and seeing things in a new light. | https://www.newhorizons.com/course-outline/courseid/200009292 |
| 50255 Managing Windows Environments with Group Policy | 5.00 | $ 2,995.00 | In this course, you will learn how to reduce costs and increase efficiencies in your network. You will discover how to consolidate the administration of an enterprise IT infrastructure with Group Policy, and you will learn to control and manage computer systems and domain users running Windows Server 2016 and Windows clients. Create Group Policies, implement administrative and security templates, and determine best practices when deploying software packages. Walk away with the experience and tools needed to optimize your enterprise systems and networks, implement administrative and security templates, and determine best practices when deploying software packages. | https://www.newhorizons.com/course-outline/courseid/200004186 |
| 55123 Writing Reports with Report Builder and SSRS Level 1 | 2.00 | $ 1,295.00 | In this course, students will continue their learning on the foundations of report writing with Microsoft® SQL Server® Report Builder and SSRS. | https://www.newhorizons.com/course-outline/courseid/200008150 |
| 55128 Writing Reports with Report Builder and SSRS Level 2 | 2.00 | $ 1,295.00 | In this course, students will continue their learning on the foundations of report writing with Microsoft® SQL Server® Report Builder and SSRS. The focus will be on report creation by connecting to a database and manipulating the data. | https://www.newhorizons.com/course-outline/courseid/200008275 |
| 55133 PowerShell for System Center Configuration Manager Administrators | 3.00 | $ 1,895.00 | This course provides students with the knowledge and skills needed to use PowerShell for System Center Configuration Manager (SCCM) administration. In this course, students learn how to access the PowerShell cmdlets included with SCCM 2012 R2 and use them to perform configuration tasks for a primary site. Individual cmdlets will be used in working with objects such as Boundaries, Boundary Groups, Collections, Software Deployment, Patching, Compliance Settings, OSD Task Sequences, and many others. Basic scripting will also be covered so that students can learn how to put PowerShell to use when working with large sets of objects. | https://www.newhorizons.com/course-outline/courseid/200012026 |
| 55197 Microsoft SharePoint Server 2016 for the Site Owner/Power User | 2.00 | $ 1,295.00 | Students should take this course if they need to know how to manage the team collaboration, document management and social features of Microsoft SharePoint 2016 sites. This course is for an on-premise SharePoint environment. | https://www.newhorizons.com/course-outline/courseid/200009646 |
| 55202 PowerShell 5.0 and Desired State Configuration | 2.00 | $ 1,895.00 | This course is designed to get you up and running with Desired State Configuration (DSC). PowerShell DSC was introduced in version 4 and has been greatly expanded and enhanced in version 5. | https://www.newhorizons.com/course-outline/courseid/200009190 |
| 55205 Mastering Microsoft Project 2016 | 3.00 | $ 1,895.00 | The course begins with the basic concepts and leads students through all the functions they'll need to plan and manage a small to medium-size project, including how to level resources and capture both cost and schedule progress. NOTE: This course will earn you 21 PDUs. | https://www.newhorizons.com/course-outline/courseid/200009430 |
| 55215 SharePoint Online Power User | 4.00 | $ 2,495.00 | This course delivers the complete site owner story from start to finish in an engaging and practical way to ensure you have the confidence to plan and create new sites or manage your existing sites in SharePoint Online. Your goal is to learn how to make SharePoint online relevant to your team by using a sites functionality to help you share information and collaborate with your colleagues. During the class, you will also learn best practices and 'what not to do' as you watch live, interactive demonstrations and put theory into practice with hands on exercises in SharePoint Online. | https://www.newhorizons.com/course-outline/courseid/200009995 |
| 55232 Writing Analytical Queries for Business Intelligence | 3.00 | $ 1,895.00 | This course is about writing TSQL queries for the purpose of database reporting, analysis, and business intelligence. | https://www.newhorizons.com/course-outline/courseid/200009903 |
| 55234 SharePoint 2016 Site Collections and Site Owner Administration | 5.00 | $ 2,995.00 | This course is intended for power users and IT professionals who are tasked with working within the SharePoint 2016 environment and conduct site collection and site administration. This course is for an on-premise SharePoint environment. | https://www.newhorizons.com/course-outline/courseid/200009753 |
| 55238 SharePoint Online for Administrators | 3.00 | $ 1,895.00 | This course will introduce the audience to SharePoint Online Administration in Office 365 and explain and demonstrate the configuration options for SharePoint Online. The course is appropriate for existing SharePoint on-premises administrators and new administrators to Office 365 who need to understand how to correctly setup SharePoint Online for their company. The course will also help SharePoint on-premise administrators understand the differences between SharePoint on-premises and SharePoint Online. | https://www.newhorizons.com/course-outline/courseid/200010046 |
| 55246 SQL 2016 Always On High Availability | 3.00 | $ 1,895.00 | This three-day instructor-led course is designed for database administrators and Windows engineers to familiarize them with the concepts in SQL AlwaysOn and High Availability. The course utilizes SQL 2016, but explains the differences from SQL 2012- SQL 2014. | https://www.newhorizons.com/course-outline/courseid/100001051 |
| 55265 Microsoft® PowerApps | 2.00 | $ 1,295.00 | Students will be taught how to design, test and publish new apps that work with a variety of data sources. We will take users through a selection of well-crafted lessons to help them build new applications for their business. | https://www.newhorizons.com/course-outline/courseid/200012158 |
| 55268 Microsoft Power Automate for End Users | 1.00 | $ 695.00 | This course delivers an instructor-led product showcase for Microsoft Power Automate from start to finish in an engaging and practical way. Power Automate is a diverse product, turning business processes into automated, consistent and visual workPower Automates. Power Automate is designed to interweave the various products in Office 365 as well as connect to other on-premises and web-based solutions. This course will give you the confidence to select the right actions and workPower Automate logic for your business workPower Automates. | https://www.newhorizons.com/course-outline/courseid/200012386 |
| 55301 Mastering Microsoft Project 2019 | 3.00 | $ 1,895.00 | This three-day instructor-led course is intended for individuals who are interested in expanding their knowledge base and technical skills about Microsoft Project. The course begins with the basic concepts and leads students through all the functions they'll need to plan and manage a small to medium-size project, including how to level resources and capture both cost and schedule progress. | https://www.newhorizons.com/course-outline/courseid/300200619 |
| 55315 Introduction to SQL Databases | 3.00 | $ 1,895.00 | This three-day instructor-led course is aimed at people looking to move into a database professional role or whose job role is expanding to encompass database elements. The course describes fundamental database concepts including database types, database languages, and database designs. This course updates and replaces course 10985C previously published under the same title. | https://www.newhorizons.com/course-outline/courseid/100001083 |
| 55318 Advanced Automated Administration with Windows PowerShell | 3.00 | $ 1,895.00 | This three-day course teaches students how to automate administrative tasks using PowerShell. Students will learn crucial scripting skills such as creating advanced functions, writing controller scripts, and handling script errors. Candidates will learn how to use PowerShell when working with Microsoft Azure, SQL Server, Active Directory, IIS, Windows PowerShell Workflow, .NET resources, the REST API and XML, CSV & JSON formatted data files. | https://www.newhorizons.com/course-outline/courseid/300200597 |
| 55321 SQL Server Integration Services | 5.00 | $ 2,995.00 | SQL Server Integration Services is the Community Courseware version of 20767CC Implementing a SQL Data Warehouse. This five-day instructor-led course is intended for IT professionals who need to learn how to use SSIS to build, deploy, maintain, and secure Integration Services projects and packages, and to use SSIS to extract, transform, and load data to and from SQL Server. This course is similar to the retired Course 20767-C: Implementing a SQL Data Warehouse but focuses more on building packages, rather than the entire data warehouse design and implementation. | https://www.newhorizons.com/course-outline/courseid/100001088 |
| 55337 Introduction to Programming | 5.00 | $ 2,995.00 | In this 5-day course, students will learn the basics of computer programming through the use of Microsoft Visual Studio 2022 and the Visual C# and Visual Basic programming languages. The course assumes no prior programming experience and introduces the concepts needed to progress to the intermediate courses on programming, Programming in C#. The focus will be on core programming concepts such as computer storage, data types, decision structures, and repetition by using loops. The course also covers an introduction to object-oriented programming covering classes, encapsulation, inheritance, and polymorphism. Coverage is also included around exception handling, application security, performance, and memory management. | https://www.newhorizons.com/course-outline/courseid/100001082 |
| 55339 Programming in C# | 5.00 | $ 2,995.00 | This five- day training course teaches developers the programming skills that are required to create applications using the C# language. During their five days in the classroom, students review the basics of C# program structure, language syntax, and implementation details, and then consolidate their knowledge throughout the week as they build an application that incorporates several features of .NET. The course aims to follow the spirit of the Microsoft Official Curriculum course 20483, while bringing it completely up-to-date with the latest features of C#, .NET 6.0 and Visual Studio 2022.  55339A is the equivalent of the retired MOC Course 20483CC - Programming in C#. | https://www.newhorizons.com/course-outline/courseid/100001113 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| 55340 Developing ASP.NET Core Web Applications | 5.00 | $ 2,995.00 | In this 5-day course, professional web developers will learn to develop advanced ASP.NET Core applications using .NET tools and technologies. The focus will be on coding activities that enhance the performance and scalability of the Web site application. | https://www.newhorizons.com/course-outline/courseid/300201011 |
| 55341 Installation, Storage, and Compute with Windows Server | 5.00 | $ 2,995.00 | This five-day course is designed primarily for IT professionals who have some experience with Windows Server. It is designed for professionals who will be responsible for managing storage and compute by using Windows Server, and who need to understand the scenarios, requirements, and storage and compute options that are available and applicable to Windows Server. Although this course and the associated labs are written for Windows Server 2022, the skills taught will also be backwards compatible for Server 2016 and Server 2019. The course and labs also focus on how to administer Windows Server using not only the traditional tools such as PowerShell and Server manager, but also Windows Admin Center. | https://www.newhorizons.com/course-outline/courseid/300200702 |
| 55342 Supporting and Troubleshooting Windows 11 | 5.00 | $ 2,995.00 | This is a 5-day ILT course that is designed to provide you with the knowledge and skills required to support and troubleshoot Windows 11 PCs and devices in an on-premises Windows Server Active Directory domain environment. | https://www.newhorizons.com/course-outline/courseid/300201031 |
| 55343 Networking with Windows Server | 5.00 | $ 2,995.00 | 55343A is the Community Courseware equivalent of retired Legacy Course 20741BC - Networking with Windows Server 2016. This 5-day classroom-based course provides the fundamental networking skills required to deploy and support Windows Server in most organizations. It covers IP fundamentals, remote access technologies, and more advanced content including Software Defined Networking. Although this course and the associated labs are written for Windows Server 2022, the skills taught will also be backwards compatible for Server 2016 and Server 2019. | https://www.newhorizons.com/course-outline/courseid/100001090 |
| 55344 Identity with Windows Server | 5.00 | $ 2,995.00 | This five-day instructor-led course teaches IT professionals how to deploy and configure Active Directory Domain Services (AD DS) in a distributed environment, how to implement Group Policy, how to perform backup and restore, and how to monitor and troubleshoot Active Directory - related issues with Windows Server. Additionally, this course teaches students how to deploy other Active Directory server roles, such as Active Directory Federation Services (AD FS) and Active Directory Certificate Services (AD CS). Although this course and the associated labs are written for Windows Server 2022, the skills taught will also be backwards compatible for Server 2016 and Server 2019. The course and labs also focus on how to administer Windows Server using not only the traditional tools such as PowerShell and Server manager, but also Windows Admin Center. | https://www.newhorizons.com/course-outline/courseid/300200701 |
| 55348 Administering Microsoft Endpoint Configuration Manager | 5.00 | $ 2,995.00 | This five-day course describes how to use Configuration Manager and its associated site systems to efficiently manage network resources. In this five-day course, you will learn day-to-day management tasks, including how to manage applications, client health, hardware and software inventory, operating system deployment, and software updates by using Configuration Manager. You also learn how to optimize Endpoint Protection, manage compliance, and create management queries and reports. Although this course and the associated labs are written for Microsoft Endpoint Configuration Manager and Windows 11, the skills taught will also be backwards compatible with previous editions of System Center Configuration Manager and Windows 10. | https://www.newhorizons.com/course-outline/courseid/300200598 |
| 55353 Administering a SQL Database Infrastructure | 5.00 | $ 2,995.00 | This five-day instructor-led course provides students who administer and maintain SQL Server databases with the knowledge and skills to administer a SQL server database infrastructure. Additionally, it will be of use to individuals who develop applications that deliver content from SQL Server databases. | https://www.newhorizons.com/course-outline/courseid/300200700 |
| 55354 Administering Office 365 | 5.00 | $ 2,995.00 | This five-day course describes how to set up, configure and manage an Office 365 tenant including identities, and the core services of Microsoft 365. In this five-day course, you will learn how to plan the configuration of an Office 365 tenant including integration with existing user identities; plan, configure and manage core services; and report on key metrics. Although this course and the associated labs are written for Office 365 with Windows 11, the skills taught will also be backwards compatible with Windows 10. This course is based on the features available in the Office 365 E3 license as these are the core features in Office 365 and Microsoft 365 plans. | https://www.newhorizons.com/course-outline/courseid/100001086 |
| 55366 Querying Data with Transact-SQL | 5.00 | $ 2,995.00 | This five-day instructor-led course is intended for IT professionals who wish to use the Transact-SQL language to query and configure Microsoft SQL Server. Students are typically database developers and database administrators, but might also be Business Intelligence developers, report creators, or application developers. In this course, students learn how to query single tables, join data from multiple tables, filter and sort data, modify data, use procedures and functions, and implement error handling. | https://www.newhorizons.com/course-outline/courseid/300200886 |
| 55371 Windows Server Administration | 5.00 | $ 2,995.00 | This five-day instructor-led course is designed primarily for IT professionals who have some experience with Windows Server. It is designed for professionals who will be responsible for managing identity, networking, storage and compute by using Windows Server, and who need to understand the scenarios, requirements, and options that are available and applicable to Windows Server. The course teaches IT professionals the fundamental administration skills required to deploy and support Windows Server in most organizations. | https://www.newhorizons.com/course-outline/courseid/300201032 |
| 55399 Implementing and Managing Microsoft Intune | 3.00 | $ 1,895.00 | This three-day instructor-led course is aimed at modern device management professionals looking to manage their enterprise devices using Microsoft Intune. This course will cover Enrolment, Application Management, Endpoint Security and Windows Autopilot as well as Azure Active Directory Conditional Access and Identity Protection. The delegates will learn how to enroll devices, deploy applications and manage them to maximize user productivity and device security. | https://www.newhorizons.com/course-outline/courseid/300201033 |
| 5G Essentials | 3.00 | $ 1,795.00 | Work directly with your own 5G network! You will follow a step-by-step approach to analyze the key components in a working 5G network. You will work directly with the UE, RAN and core services. You will perform basic call flow analysis through demonstration and optional Wireshark downloads. A hands-on approach to learning 5G is the best way to learn this new technology! When you successfully complete this course, you will possess a well-rounded, vendor neutral, understanding of key components within the 5G network architecture and become fully empowered to take an active role in working with your 5G engineers. If you are an engineer and need a complete understanding of the 5G network, then strongly consider following up with our Deploying 5G Course. Includes Certification Exam | https://www.newhorizons.com/course-outline/courseid/300201132 |
| Access - Part 1 | 2.00 | $ 590.00 | Focuses on the design and construction of an Access database —viewing, navigating, searching, and entering data in a database, as well as basic relational database design and creating simple tables, queries, forms, and reports. | https://www.newhorizons.com/course-outline/courseid/100001093 |
| Access - Part 2 | 2.00 | $ 590.00 | In this course, you will expand your knowledge of relational database design; promote quality input from users; improve database efficiency and promote data integrity; and implement advanced features in tables, queries, forms, and reports. Extending your knowledge of Access will result in a robust, functional database for your users. Focuses on optimization of an Access database, including optimizing performance and normalizing data; data validation; usability; and advanced queries, forms, and reports. | https://www.newhorizons.com/course-outline/courseid/100001094 |
| Access 2013/2016 Programming with VBA | 3.00 | $ 885.00 | Students learn the Visual Basic for Applications language as well as the Access classes and objects needed to create VBA scripts to automate Access. Participants create procedures and functions using the VBA language and Access objects. | https://www.newhorizons.com/course-outline/courseid/200009931 |
| Accomplishing the Results You Want | 2.00 | $ 1,495.00 | Success is measured by results and results are only accomplished with effective planning efforts. Detailed plans and a captivating vision are important, but true accomplishment is in carrying your goals through to a winning outcome. In this workshop, you will learn how to find and strengthen your leadership voice and foster employee buy-in to exceed expectations while achieving the most positive outcome. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201066 |
| Accounting Skills | 1.00 | $ 395.00 | Many of us flinch when we hear terms like depreciation, cash flow, balance sheet, and (worst of all!) budgets. However, these are all important concepts to understand if you're going to succeed in today's business world, particularly as a supervisor. Even better, financial terms are not as scary as they seem. | https://www.newhorizons.com/course-outline/courseid/100001019 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| Administer, Extend, and Automate Salesforce (ADX211) | 4.00 | $ 3,600.00 | Take your Salesforce Administrator skills to the next level! Supercharge your knowledge in this 4-day class by creating and implementing solutions for pressing business needs. Discover how to extend Salesforce with custom objects and Lightning apps. Become an automation champion by designing and creating complex flows, and increase efficiency by generating advanced reports and dashboards. Our Salesforce experts will share tips and best practices to take your admin skills to the next level, giving you the skills you need to get more out of Salesforce. | https://www.newhorizons.com/course-outline/courseid/300200901 |
| Administering Cisco Contact Center Enterprise (CCEA) | 4.00 | $ 3,995.00 | The Administering Cisco Unified Contact Center Enterprise is a 4-day course intended for system engineers, administrators, and support engineers responsible for tier one support. This course provides hands-on practice with administrative tools used to perform routine adds, moves, and changes in the inbound contact center environment. | https://www.newhorizons.com/course-outline/courseid/300070001 |
| Administering Cisco DNA Spaces (DNASPA) | 3.00 | $ 3,395.00 | Cisco DNA Spaces helps resolve physical-space 'blind spots' in an organization. Through the Cisco wireless infrastructure, organizations can gain insights into how people and things move throughout their physical spaces. Based on these insights, organizations can drive operational efficiencies by monitoring and managing the location, movement, and utilization of assets. | https://www.newhorizons.com/course-outline/courseid/300040002 |
| Administering Cisco Unified Communications Manager (ACUCM with AUC) | 5.00 | $ 3,995.00 | Administering Cisco Unified Communications Manager (ACUCM with AUC) is a 5-day training program that provides system administrators and networking professionals with an understanding of the Cisco Unified Communications Manager System. This course teaches the concepts of IP telephony based in system administration, including its function, features, and configuration. This is an entry-level course that begins with the basic concepts of IP telephony and very quickly moves the learner forward into an understanding of system concepts: clustering, creation of phones and users, route plans, digit manipulation, media resources, and phone features, which are all important to supporting IP telephony in the enterprise network. This UC training course focuses on Cisco Unified Communications Manager v12 x. All labs are using CUCM v12.x. | https://www.newhorizons.com/course-outline/courseid/300040014 |
| Administering Cisco Unified Communications Manager (ACUCM) | 4.00 | $ 2,695.00 | Administering Cisco Unified Communications Manager (ACUCM) v12.0 is a 3-day training program that provides system administrators and networking professionals with an understanding of the Cisco Unified Communications Manager System. The Cisco IT training course teaches the concepts of IP telephony based in system administration, including its function, features, and configuration. This is an entry-level IP telephony course that begins with the basic concepts of IP telephony and very quickly moves the learner forward into an understanding of system concepts: clustering, creation of phones and users, route plans, digit manipulation, media resources, and phone features, which are all important to supporting IP telephony in the enterprise network. The course focuses on Cisco Unified Communications Manager version v12.x. The course is geared to individuals that will be using and managing the system and performing administration for Level 1 and Level 2 support. Level 1 support is geared toward supporting phone users and making moves, adds, and changes to the desktop phone environment. Level 2 support is oriented to supporting changes in the organization, such as opening new office locations or relocating departments. The Cisco training course does not cover issues of initial deployment, new cluster deployment or international deployments. Also, the course does not cover issues with the underlying network that involve routers, switches, or Cisco IOS software configuration. This information technology course includes various lab exercises to apply what was learned in each preceding lesson. Labs begin with a newly installed publisher and subscriber. The only element that is pre-configured is two MGCP gateways, for the headquarters (HQ) and branch (BR), and an intercluster trunk pointing to the neighbor's pod. Therefore, the student will become familiar with all the various concepts through configuration of the elements in the lab environment. | https://www.newhorizons.com/course-outline/courseid/300040019 |
| Administering SolidWorks PDM | 2.00 | $ 1,200.00 | The focus of this course is on the fundamental skills and concepts central to the successful use of SOLIDWORKS PDM. The intended audience for this course is anyone who will set up and/or administer SOLIDWORKS PDM. | https://www.newhorizons.com/course-outline/courseid/300200890 |
| Administering Splunk Enterprise Security (ASES) | 2.00 | $ 1,500.00 | It covers ES event processing and normalization, deployment requirements, technology add-ons, dashboard dependencies, data models, managing risk, and customizing threat intelligence. | https://www.newhorizons.com/course-outline/courseid/300180037 |
| Administrator Training: CDP Private Cloud Base | 4.00 | $ 3,520.00 | Cloudera's four-day administrator training course for CDP Private Cloud Base provides participants with a comprehensive understanding of all the steps necessary to operate and maintain on-premises clusters using Cloudera Manager. From installation and configuration through load balancing and tuning, this Cloudera training course is the best preparation for the real-world challenges faced by administrators who run CDP Private Cloud Base. | https://www.newhorizons.com/course-outline/courseid/300030043 |
| Adobe Acrobat Pro DC - Advanced | 1.00 | $ 395.00 | In this course, students will learn to use advanced document tools and modify document properties, compare documents, enhance scans, as well as enhance documents by adding rich media such as sound, video, and interactive buttons. Students will learn to use the measurement tool, the distance tool, the perimeter tool and the area tool. Students will create interactive forms from a Word document or InDesign document, add form elements, add check boxes and radio buttons, and distribute forms for feedback. Students will understand the importance of accessibility and test for accessibility. Finally, students will understand signatures, create signatures, and add signatures to a document. | https://www.newhorizons.com/course-outline/courseid/200008684 |
| Adobe Acrobat Pro DC - Introduction | 1.00 | $ 395.00 | Adobe Acrobat Pro DC puts the power of the Portable Document Format, literally, at your fingertips. By taking advantage of the functionality & features available in Acrobat, you will ensure the integrity of your documents regardless of who views them. | https://www.newhorizons.com/course-outline/courseid/200007877 |
| Adobe Captivate 2019 - Beyond The Essentials | 2.00 | $ 790.00 | A course that teaches the higher-end, more advanced functionality of Adobe Captivate 2019. | https://www.newhorizons.com/course-outline/courseid/200012102 |
| Adobe Captivate 2019 - The Essentials | 2.00 | $ 790.00 | A course that teaches the core Adobe Captivate skills needed to create eLearning courses. | https://www.newhorizons.com/course-outline/courseid/200012101 |
| Adobe Illustrator CC - Advanced | 1.00 | $ 395.00 | You have created simple artwork by using the basic drawing and painting tools available in Adobe® Illustrator®. You now want to use advanced tools, options, and effects to create complex artwork. In addition, you want to ensure that your artwork is ready for commercial printing and also save it for the web. In this course, you will draw complex illustrations and enhance them by using various painting options. You will also use painting tools, manage colors, format type, work with effects, prepare artwork for commercial printing, and prepare graphics for the web. This course is a great component of your preparation for the Adobe Certified Professional in Graphic Design & Illustration Using Adobe Illustrator exam. | https://www.newhorizons.com/course-outline/courseid/300200724 |
| Adobe Illustrator CC - Introduction | 1.00 | $ 395.00 | To meet the demands of individuals and organizations for flexible, reusable, and easily modified visual content, Adobe Systems has created a cadre of applications that collectively provide a scalable, end-to-end solution for nearly every type of visual design project one can contemplate. Called Creative Cloud®, the collection of applications perform specialized design tasks while interoperating among each other to deliver content. This course focuses on Adobe® Illustrator® CC, the component within Creative Cloud used to create "drawn" graphics, while enabling its users to integrate content from other domains (such as photo-oriented graphics and animation, which belong to Adobe® Photoshop® and other applications). With Illustrator's many easily used tools, you will discover that not only can you unlock the same creative impulses you've always had as you've picked up a pencil to sketch out an idea, but also capture those multiple ideas and "what ifs" during the creative process in ways that you never imagined. And for those of you who are just embarking on building your creative skills, you will be surprised at "how good" your work will appear, even at the outset of your exploration of the world of graphic design. This course is a great component of your preparation for the Adobe Certified Professional in Graphic Design & Illustration Using Adobe Illustrator exam. | https://www.newhorizons.com/course-outline/courseid/300200723 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Adobe InDesign CC - Advanced | 1.00 | $ 395.00 | In Adobe® InDesign® CC: Part 1 you were introduced to the many features that help you create professional looking documents. Now you need to create much lengthier interactive documents that need to be accessed across a range of devices. In Adobe® InDesign® CC: Part 2, you will learn advanced InDesign techniques to enhance the look and functionality of your documents. Using Adobe InDesign, you can create interactive documents and export them for viewing in a web browser with various features such as buttons, page transitions, movies and audio files, hyperlinks, and animation. You have the ability to assign color profiles and establish print presets. In creating longer documents, you'll be able to include such features as a table of contents, footnotes, cross-references, and an index. This course is a great component of your preparation for the Adobe Certified Associate (ACA) Print & Digital Media Publication Using Adobe InDesign CC exam. | https://www.newhorizons.com/course-outline/courseid/300200726 |
| Adobe InDesign CC - Introduction | 1.00 | $ 395.00 | Giving your documents a well-designed, professional look will put you a step ahead in the marketplace cluttered with all kinds of communications. Paragraph and character styles that allow you to format pages of text uniformly, layout features that help you to build alternate size configurations of your document, and various panels that enable you to easily customize both text and graphics; Adobe® InDesign® CC has all the tools you need to elevate the look of your document and get it out to the people who need to see it, whether it be in print or on the web. This course is a great component of your preparation for the Adobe Certified Associate (ACA) Print & Digital Media Publication Using Adobe InDesign exam. | https://www.newhorizons.com/course-outline/courseid/300200725 |
| Adobe Photoshop CC - Advanced | 1.00 | $ 395.00 | Adobe® Photoshop® is a leading graphic creation application, popular among graphic designers, illustrators, and photographers. Photoshop's numerous features work together to provide a comprehensive toolset for you, the design professional. This course delves into some of the more advanced image creation and editing techniques, and offers you hands-on activities that demonstrate how these techniques can be used in combination to create exciting visual effects. This course is a great component of your preparation for the Adobe Certified Professional (ACP) in Visual Design Using Adobe Photoshop exam. | https://www.newhorizons.com/course-outline/courseid/300200728 |
| Adobe Photoshop CC - Introduction | 1.00 | $ 395.00 | Adobe® Photoshop® CC: Part 1 focuses on some of the basic features of Photoshop so that the student can navigate the environment and use Photoshop tools to work with photographic images. In addition, the orientation to Adobe® Bridge and organization of files in Bridge is covered. Although Photoshop is used by a variety of professionals, from photographers to designers to videographers, Photoshop Part 1 will focus mainly on the photography component. The illustration and animation techniques are covered in subsequent levels of Photoshop. This course is a great component of your preparation for the Adobe Certified Professional (ACP) in Visual Design Using Adobe Photoshop exam. | https://www.newhorizons.com/course-outline/courseid/300200727 |
| Advanced ACI (ADVACI) | 5.00 | $ 4,495.00 | Advanced ACI is a 5-day course designed to help students understand new and advanced features of Cisco ACI 5.x with VMware v6.x that help simplify, scale, and optimize complex data center networking environments. | https://www.newhorizons.com/course-outline/courseid/300200931 |
| Advanced Architecting on AWS | 3.00 | $ 2,025.00 | In this course, each module presents a scenario with an architectural challenge to be solved. You will examine available AWS services and features as solutions to the problem. You will gain insights by participating in problem-based discussions and learning about the AWS services that you could apply to meet the challenges. Over 3 days, the course goes beyond the basics of a cloud infrastructure and covers topics to meet a variety of needs for AWS customers. Course modules focus on managing multiple AWS accounts, hybrid connectivity and devices, networking with a focus on AWS Transit Gateway connectivity, container services, automation tools for continuous integration/continuous delivery (CI/CD), security and distributed denial of service (DDoS) protection, data lakes and data stores, edge services, migration options, and managing costs. The course concludes by presenting you with scenarios and challenging you to identify the best solutions. | https://www.newhorizons.com/course-outline/courseid/300030000 |
| Advanced Certified ScrumMaster (A-CSM) Training | 2.00 | $ 995.00 | This A-CSM training course provides the essential foundation for obtaining your Advanced Certified ScrumMaster Certification. | https://www.newhorizons.com/course-outline/courseid/300200770 |
| Advanced ColdFusion 10 Development | 3.00 | $ 1,495.00 | Advanced ColdFusion 10 Development provides ColdFusion application developers with the knowledge and hands-on practice that they need to build, maintain, and scale effective web applications. Topics include using the Application Framework, creating advanced queries, manipulating complex data in arrays and structures, structuring your code with ColdFusion Components, gracefully handling errors and exceptions, encapsulating your user-interface with custom tags, leveraging external Java code libraries, and creating highly interactive interfaces using Flash Forms. It includes optional content on exposing and reusing application functionality as web services and working with XML documents. This course focuses on creating and delivering scalable and well-performing applications. | https://www.newhorizons.com/course-outline/courseid/300201242 |
| Advanced Developing on AWS | 3.00 | $ 2,025.00 | The Advanced Developing on AWS course uses the real-world scenario of taking a legacy, on-premises monolithic application and refactoring it into a serverless microservices architecture. This three-day advanced course covers advanced development topics such as architecting for a cloud-native environment; deconstructing on-premises, legacy applications and repackaging them into cloud-based, cloud-native architectures; and applying the tenets of the Twelve-Factor Application methodology. | https://www.newhorizons.com/course-outline/courseid/300030017 |
| Advanced Editing & Finishing Techniques with Final Cut Pro (FCP 301) | 3.00 | $ 1,595.00 | This three-day, hands-on course teaches students hard-to-find advanced editing and finishing techniques. Learn how to edit multi-camera projects, dive deeper with audio effects, work with compound clips, create video effect presets, understand the 360 video workflow and how HDR color correction works. This course also covers advanced workflows for managing media and sharing and receiving XML's. | https://www.newhorizons.com/course-outline/courseid/300200793 |
| Advanced Java 9 | 4.00 | $ 2,796.00 | This course provides an in-depth treatment of the many significant Java 9 features and updates, with the goal of demonstrating how these features can be used to improve the performance and functionality of Java applications. | https://www.newhorizons.com/course-outline/courseid/200010008 |
| Advanced Machine Learning with TensorFlow on Google Cloud Platform (MLTF) | 5.00 | $ 2,995.00 | This course will give you hands-on experience optimizing, deploying, and scaling a variety of production ML models. You'll learn how to build scalable, accurate, and production-ready models for structured data, image data, time-series, and natural language text, along with recommendation systems. | https://www.newhorizons.com/course-outline/courseid/300180018 |
| Advanced Root Cause Analysis | 2.00 | $ 1,395.00 | Problem determination skills cannot be acquired by reading a book. They mostly come from experience. After this course, you will have a general understanding of a structured problem determination approach, which you can then apply in your daily work. | https://www.newhorizons.com/course-outline/courseid/200008077 |
| Advanced ThousandEyes Operations & Troubleshooting (ATEOTS) | 2.00 | $ 2,495.00 | This advanced course dives deeper into operations and troubleshooting of the ThousandEyes platform and introduces Cisco's FSO (Full Stack Observability) Solution. | https://www.newhorizons.com/course-outline/courseid/300200932 |
| Agile Business Analysis | 2.00 | $ 995.00 | This two-day workshop provides the essential information needed for those in the business analyst role to be successful on Agile projects. You will learn the core agile concepts and have an opportunity to try them out immediately in a simulated project setting. You will use Scrum processes to write and prioritize user stories and get the detail needed for the Agile Team to plan and build user stories. Note: This course has been approved by PMI for 14 PDUs and by IIBA for 14 CDUs. | https://www.newhorizons.com/course-outline/courseid/300200749 |
| Agile Change Agent Certification Training | 2.00 | $ 1,195.00 | In this two-day workshop, participants will learn about agile ways of working and how an agile approach impacts their role and interaction with those driving and leading change. The course also equips participants with pioneering tools to ensure change initiatives are embedded, adopted, and deliver benefits throughout their organizations. This class includes an exam voucher. | https://www.newhorizons.com/course-outline/courseid/300200769 |

| Agile for Leadership Workshop | .50 | $ 495.00 | Successful Agile journeys require strong leadership to help navigate the organizational culture change that Agile introduces. Organizational leaders need to understand Agile to be change agents and help achieve the benefits of Agile, including delivering better products faster and delighting customers. In this workshop, learn what it means to be Agile, including the mindset, key practices, and techniques. Explore how leaders can support everyone in the organization to achieve organizational agility and realize organizational goals. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. Note: This course has been approved for 4 PDUs | https://www.newhorizons.com/course-outline/courseid/300200905 |
| Agile Fundamentals | 1.00 | $ 795.00 | For many organizations, business success and even survival hinge on embracing an Agile mindset. Continuous delivery of value, an unwaveringly customer-centric perspective, and adaptive change management characterize many of today's best-performing organizations. The Agile Fundamentals course provides a solid foundation for anyone seeking to develop fluency in Agile concepts, terms, and practices. It teaches the values and principles of the Agile Manifesto, as well as the values of key Agile frameworks and methods, including Scrum. This course equips participants with the tools and knowledge to adopt a holistic Agile approach toward achieving organizational goals. This course has been approved by PMI for 8 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200764 |
| Agile Fundamentals Workshop | 1.00 | $ 795.00 | This one-day workshop provides a solid foundation for anyone seeking to develop fluency in Agile concepts, terms, and practices. It includes the values and principles articulated in the Agile Manifesto, as well as the values of key Agile frameworks and methods, including Scrum. Through discussion and hands-on practice of the most commonly used Agile techniques, participants will gain an understanding of the tools and an appreciation for the mindset needed to engage stakeholders and collaborate to move forward on your organization's Agile journey. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300200943 |
| Agile in Action | .50 | $ 495.00 | With its focus on iterative and incremental approach to project development, Agile is becoming the preferred project management methodology in many industries. While our PMI-ACP® course will help you pass the Agile certification exam, our Agile in Action course focuses on applying Agile principles in your every day work, to help you be better prepared to use these concepts to improve project success and efficiency. This course will focus on critical components of Agile project management and will go beyond PMI-ACP® content by addressing areas most important for project managers to get right. Learners will gain an understanding of best practices, discuss project issues incurred and identify potential solutions. This is an interactive course where participants will provide insight on best practices and learn from each other. Note: This course has been approved by PMI for 5 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200954 |
| Agile Project Management using JIRA Software Training | 2.00 | $ 1,495.00 | This course introduces students to JIRA Software which is one of the most popular agile project management tools. Agile methods help in accelerating the delivery of initial business value. Continuous planning and feedback ensures that value is maximized throughout the development process. JIRA Software lets you manage project backlog, plan and execute sprints, and manage releases. It also lets you view useful reports, such as, velocity, various burndown / burn-up charts. | https://www.newhorizons.com/course-outline/courseid/200012953 |
| AI for Business Professionals (AIBIZ™) | .50 | $ 495.00 | Course Overview Artificial intelligence (AI) is not just another technology or process for the business to consider—it is a truly disruptive force, one that delivers an entirely new level of results across business sectors. Even organizations that resist adopting AI will feel its impact. If the organization wants to thrive and survive in this transforming business landscape, it will need to harness the power of AI. This course is designed to help business professionals conquer and move beyond the basics of AI to apply AI concepts for the benefit of the business. It will give you the essential knowledge of AI you'll need to steer the business forward. | https://www.newhorizons.com/course-outline/courseid/200012576 |
| AI-050T00 Develop Generative AI Solutions with Azure OpenAI Service | 1.00 | $ 695.00 | Note Generative AI is a fast-evolving field of artificial intelligence, and the Azure OpenAI service is subject to frequent changes. The course materials are maintained to reflect the latest version of the service at the time of writing. Azure OpenAI Service provides access to OpenAI's powerful large language models such as GPT; the model behind the popular ChatGPT service. These models enable various natural language processing (NLP) solutions to understand, converse, and generate content. Users can access the service through REST APIs, SDKs, and Azure OpenAI Studio. In this course, you'll learn how to provision Azure OpenAI service, deploy models, and use them in generative AI applications. | https://www.newhorizons.com/course-outline/courseid/300200961 |
| AI-102T00 Designing and Implementing an Azure AI Solution | 4.00 | $ 2,495.00 | AI-102 Designing and Implementing an Azure AI Solution is intended for software developers wanting to build AI infused applications that leverage Azure AI Services, Azure AI Search, and Azure OpenAI. The course will use C# or Python as the programming language. | https://www.newhorizons.com/course-outline/courseid/100001009 |
| AI-3002 Create document intelligence solutions with Azure AI Document Intelligence | 1.00 | $ 595.00 | In this learning path, you'll see how Azure AI Document Intelligence solutions can enable you to capture data from typed or hand-written forms. You'll also learn how to build a solution for your custom form types and integrate that solution into an Azure Cognitive Search pipeline. | https://www.newhorizons.com/course-outline/courseid/300201160 |
| AI-3003 Build a natural language processing solution with Azure AI Services | 1.00 | $ 595.00 | Natural language processing (NLP) solutions use language models to interpret the semantic meaning of written or spoken language. You can use the Language Understanding service to build language models for your applications. | https://www.newhorizons.com/course-outline/courseid/300201161 |
| AI-3004 Build an Azure AI Vision solution with Azure AI services | 1.00 | $ 595.00 | Computer vision is an area of artificial intelligence that deals with visual perception. Azure AI Vision includes multiple services that support common computer vision scenarios. | https://www.newhorizons.com/course-outline/courseid/300201162 |
| AI-900T00 Microsoft Azure AI Fundamentals | 1.00 | $ 695.00 | This course introduces fundamentals concepts related to artificial intelligence (AI), and the services in Microsoft Azure that can be used to create AI solutions. The course is not designed to teach students to become professional data scientists or software developers, but rather to build awareness of common AI workloads and the ability to identify Azure services to support them. | https://www.newhorizons.com/course-outline/courseid/200015263 |
| An Introduction to Motion 5 (Motion 101) | 3.00 | $ 1,595.00 | Create brilliant titles, transitions, effects, and more with Motion 5, the motion graphics companion to Final Cut Pro X. This hands-on course starts with motion graphics fundamentals and moves into compositing, animation, and the world of 3D. Explore new intelligent templates to quickly and flexibly create high-quality effects, titles, transitions, and generators as well as create rigs to adjust related parameters with a single control. | https://www.newhorizons.com/course-outline/courseid/300200794 |
| Analyzing and Visualizing Data with Looker | 1.00 | $ 595.00 | This course is an introductory-level training that outlines Looker's capabilities for working with data and provides guided demos and hands-on practice with Looker functionality for data exploration, analysis and visualization. This course enables learners to do the kind of data exploration and analysis in Looker that would formerly be done primarily by SQL developers or analysts. Participants will learn how to leverage Looker's modern analytics platform to find and explore relevant content in their organization's Looker instance, ask questions of data, create new metrics as needed, and build and share visualizations and dashboards to facilitate data-driven decision making. | https://www.newhorizons.com/course-outline/courseid/300180008 |
| Android Studio Development Essentials | 5.00 | $ 3,495.00 | This course will teach the basics of Android Development using the Java Programming Language and Android Studio. | https://www.newhorizons.com/course-outline/courseid/200004547 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Animate Fundamentals: An Introduction to Animate | 2.00 | $ 795.00 | Adobe Animate CC provides a comprehensive authoring environment for creating interactive and media-rich applications. Animate CC is widely used to create engaging projects integrating video, sound, graphics, and animation. You can create original content in Animate CC or import assets from other Adobe applications such as Photoshop or Illustrator. Animate CC lets you easily design animation add video and sound, then use a language to integrate sophisticated interactivity.  With Animate CC you have the opportunity to use HTML5 or ActionScript as the interactive language. There is also the chance to Preview the new standard WebGL. Use Animate CC to build innovative and immersive Web sites, to create stand-alone applications for the desktop, or to create apps to distribute to mobile devices running on the Android or the iOS system.  With extensive controls for animation, intuitive and flexible drawing tools, and a powerful object-oriented coding language, Animate CC delivers one of the only robust environments that let your imagination become reality. | https://www.newhorizons.com/course-outline/courseid/300201239 |
| Ansible 101 - Essentials | 5.00 | $ 2,395.00 | Ansible is a powerful IT automation engine used to accelerate DevOps initiatives. It's an open-source tool that executes repetitive network and system admin tasks. Ansible is used to bring structure and consistency to system deployments, implementations, and changes. | https://www.newhorizons.com/course-outline/courseid/300201133 |
| Ansible 102 - Storage Devices | 5.00 | $ 2,395.00 | This course offers a flexible (customizable) overview of using Ansible to automate the suite of Dell storage products including PowerMax, Isilon/PowerScale and PowerStore. Examples highlight Ansible's latest current release capabilities, building complex playbooks, and developing workflow strategies all while observing best-practice techniques. Students will be encouraged to share with the class the manual ways they are currently doing work in an effort to create highly applicable Ansible solutions. Through these demonstrations, students will learn how to use code to extend structure and consistency to their specific job operations. Although this course focuses on Dell Storage solutions, Ansible is a Swiss-Army knife of abstracted automation. Every lesson is highly applicable beyond "just" the Dell storage suite. | https://www.newhorizons.com/course-outline/courseid/300201134 |
| Ansible 201 - Network Automation with Ansible | 5.00 | $ 2,395.00 | No two networks are the same! This Network Automation training course teaches students to blend Python skillsets with Ansible through the lens of automating networks. Continue your studies of Ansible, with a focus on automating common elements within the network. In addition to Ansible, students will study enough Python to understand Ansible's plugin architecture. Lessons and labs focus on using both Python and Ansible to interact with and configure your network devices. At the conclusion of this course you will return to work empowered with skills necessary to automate network management. This class is a combination of live demonstrations and hands-on labs with virtual network devices and endpoints as targets for your configuration. | https://www.newhorizons.com/course-outline/courseid/300201135 |
| Ansible 202 - Linux Server Automation | 5.00 | $ 2,395.00 | Continue your studies of Ansible, with a focus on automating servers and applications. In addition to Ansible, students will study enough Python to understand Ansible's plugin architecture. Lessons and labs focus on using both Python and Ansible to interact with and configure your Linux and Windows servers, as well as common applications. At the conclusion of this course you will return to work empowered with skills necessary to create or improve Ansible solutions. This class is a combination of live demonstrations and hands-on labs with virtual network devices and endpoints as targets for your configuration. For many of the lessons, we use the Dell PowerEdge (including the iDRAC and RedFish APIs) as a source of reference and study. However, the lessons are transferable to all server platforms. Linux and Windows are both covered. | https://www.newhorizons.com/course-outline/courseid/300201136 |
| Ansible 203 - Windows Server Automation | 5.00 | $ 2,395.00 | Continue your studies of Ansible, with a focus on automating servers and applications. In addition to Ansible, students will study enough Python to understand Ansible's plugin architecture. Lessons and labs focus on using both Python and Ansible to interact with and configure your Windows servers, as well as common applications. At the conclusion of this course, you will return to work empowered with skills necessary to create or improve Ansible solutions. This class is a combination of live demonstrations and hands-on labs with virtual network devices and endpoints as targets for your configuration. For many of the lessons, we will focus on tasks targeting Windows. | https://www.newhorizons.com/course-outline/courseid/300201137 |
| Ansible 301 - Customizing Ansible | 4.00 | $ 2,595.00 | This course is designed to move students beyond Ansible Essentials, and joins Ansible with other DevOps skill sets, including: Python scripting, utilizing Ansible Galaxy, running automated solutions with Jenkins, syncing code with Git and GitHub, continuous integration, debugging / linting, and much more! The lessons are built around current concepts observed within enterprises using Ansible. Class is a combination of lecture by demonstration, coding along with the instructor, and hands-on labs. Students are invited to help customize this course by bringing their own projects, solutions, and ideas to ensure class subjects remain as relevant as possible. | https://www.newhorizons.com/course-outline/courseid/300201138 |
| Ansible 302 - Ansible Tower/Ansible AWX | 4.00 | $ 2,595.00 | In this course students will focus on controlling the latest version of Ansible Tower AWX. This begins with a deployment into a Kubernetes cluster, and moves quickly into exploring the configuration options of AWX. Students will learn to navigate the AWX GUI, trigger jobs with webhooks, build and deploy custom execution environments, and design workflow job templates. All enrolled students have the opportunity to earn an AWX certification at the conclusion of the course. Note: The focus of this course focuses on using AWX, not writing Ansible playooks. | https://www.newhorizons.com/course-outline/courseid/300201139 |
| Anypoint Platform Development: Fundamentals (DEX401) | 5.00 | $ 4,500.00 | Get started with Anypoint Platform™ to build APIs and integrations, and gain skills to become a MuleSoft Certified Developer. In the first part of the course, you use Anypoint Platform to discover, design, build, deploy, manage, and govern APIs. In the second part, you focus on using Mule 4 and Anypoint Studio™ to build applications for use as API implementations and integrations. | https://www.newhorizons.com/course-outline/courseid/300200903 |
| Apache Spark Programming with Databricks | 2.00 | $ 1,500.00 | In this course, you will explore the fundamentals of Apache Spark and Delta Lake on Databricks. You will learn the architectural components of Spark, the DataFrame and Structured Streaming APIs, and how Delta Lake can improve your data pipelines. Lastly, you will execute streaming queries to process streaming data and understand the advantages of using Delta Lake.  This course will prepare you to take the Databricks Certified Associate Developer for Apache Spark exam. | https://www.newhorizons.com/course-outline/courseid/300201223 |
| Architecting Hybrid Cloud Infrastructure with Anthos | 2.00 | $ 1,495.00 | This two-day instructor-led course prepares students to modernize, manage, and observe their applications using Kubernetes whether the application is deployed on-premises or on Google Cloud Platform (GCP). Through presentations, and hands-on labs, participants explore and deploy using Kubernetes Engine (GKE), GKE connect, Istio service mesh and Anthos Config Management capabilities that enable operators to work with modern applications even when split among multiple clusters hosted by multiple providers, or on-premises. This is a continuation of Architecting with GKE and assumes hands-on experience with the technologies covered in that course. | https://www.newhorizons.com/course-outline/courseid/300180021 |
| Architecting on AWS | 3.00 | $ 2,025.00 | Architecting on AWS is for solutions architects, solution-design engineers, and developers seeking an understanding of AWS architecting. In this course, you will learn to identify services and features to build resilient, secure and highly available IT solutions on the AWS Cloud.  Architectural solutions differ depending on industry, types of applications, and business size. AWS Authorized Instructors emphasize best practices using the AWS Well-Architected Framework, and guide you through the process of designing optimal IT solutions, based on real-life scenarios. The modules focus on account security, networking, compute, storage, databases, monitoring, automation, containers, serverless architecture, edge services, and backup and recovery. At the end of the course, you will practice building a solution and apply what you have learned with confidence. | https://www.newhorizons.com/course-outline/courseid/200007908 |
| Architecting with Google Cloud Platform - Design and Process | 2.00 | $ 1,495.00 | This two-day instructor-led class equips students to build highly reliable and efficient solutions on Google Cloud using proven design patterns. It is a continuation of the Architecting with Google Compute Engine or Architecting with Google Kubernetes Engine course and assumes hands-on experience with the technologies covered in either of those courses. Through a combination of presentations, design activities, and hands-on labs, participants learn to define and balance business and technical requirements to design Google Cloud deployments that are highly reliable,highly available, secure, and cost-effective. | https://www.newhorizons.com/course-outline/courseid/300180007 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| Architecting with Google Compute Engine | 3.00 | $ 1,995.00 | This course will familiarize you with Google Cloud's flexible infrastructure and platform services, with a specific focus on Compute Engine. This course uses a combination of lectures, demos, and hands-on labs to explore and deploy solution elements, including infrastructure components like networks, systems, and application services. You'll also learn how to deploy practical solutions such as hybrid networking, customer-supplied encryption keys, security and access management, quotas and billing, and resource monitoring. | https://www.newhorizons.com/course-outline/courseid/300180028 |
| Architecting with Google Kubernetes Engine | 3.00 | $ 1,995.00 | This course introduces participants to deploying and managing containerized applications on Google Kubernetes Engine (GKE) and other services provided by Google Cloud. Through a combination of presentations, demos, and hands-on labs, participants explore and deploy solution elements, including infrastructure components such as pods, containers, deployments, and services, as well as networks and application services. This course also covers deploying practical solutions, including security and access management, resource management, and resource monitoring. | https://www.newhorizons.com/course-outline/courseid/300180027 |
| Aruba Advanced Mobility Troubleshooting & Solutions (AAMTS) | 5.00 | $ 4,000.00 | This course is structured to help the student build a better understanding of the Aruba technologies, designing mobility first networks, strategize their implementation/configuration and their troubleshooting methodologies. This course teaches how to take a complex scenario and break down into manageable blocks and while still managing your time accordingly. This course is approximately 35% lecture and 65% hands-on lab scenario-based exercises. | https://www.newhorizons.com/course-outline/courseid/300201238 |
| Aruba ClearPass Configuration (CPC) | 5.00 | $ 4,000.00 | The 5-day Aruba ClearPass Configuration course prepares participants with foundational skills in Network Access Control using the ClearPass product portfolio. The course includes both instructional modules and labs to teach participants about the major features in the ClearPass portfolio. Participants learn how to setup ClearPass as an AAA server and configure the Policy Manager, Guest, OnGuard and Onboard feature sets. In addition, the course covers integration with external Active Directory servers, monitoring and reporting, as well as deployment best practices. The student gains insight into configuring authentication with ClearPass on both wired and wireless networks. | https://www.newhorizons.com/course-outline/courseid/300201131 |
| Aruba Network Security Fundamentals (ANSF) | 4.00 | $ 3,200.00 | The Aruba Network Security Fundamentals course covers foundational security concepts and prepares candidates to take the exam to achieve Aruba Certified Networking Security Associate (ACNSA) certification. The course describes common security threats and vulnerabilities and provides an overview of important security technologies. It teaches how to create a trusted network infrastructure with Aruba mobility solutions and switches. In addition to discussing device hardening, the course discusses implementing security at the edge with AAA, basic roles and firewall policies, dynamic segmentation, and endpoint classification. The course will further explain basic threat detection technologies and how to collect logs and alarms and use them to initiate an investigation. | https://www.newhorizons.com/course-outline/courseid/300201130 |
| Aruba OS-CX Switching Fundamentals (CXF) | 5.00 | $ 4,000.00 | This course teaches you the fundamental skills necessary to configure and manage modern, open standards-based networking solutions using Aruba's OS-CX routing and switching technologies. This course consists of approximately 60% lecture and 40% hands-on lab exercises to help you learn how to implement and validate small to medium enterprise network solutions. This 5-day course prepares network professionals for the Aruba Certified Switching Associate exam. In this course, participants learn about ArubaOS-CX switch technologies including: Virtual Local Area Networks (VLANs), secure access using features like dynamic segmentation, redundancy technologies such as Multiple Spanning Tree Protocol (MSTP), link aggregation techniques including Link Aggregation Control Protocol (LACP), and switch virtualization with Aruba's Virtual Switching Framework (VSF). You also learn about IP Routing including static and dynamic IP routing with Open Shortest Path First (OSPF). | https://www.newhorizons.com/course-outline/courseid/300201127 |
| Audition Fundamentals: An Introduction to Audition CC | 3.00 | $ 1,195.00 | Adobe Audition CC software delivers the cross-platform tools that video and film professionals, broadcast engineers, and audio specialists need for recording, editing, mixing, creating soundtracks, and restoring audio. A new, high-performance audio playback engine drastically speeds up operation; enables work on multiple simultaneous audio and multitrack files; and allows effects, noise reduction, and audio sweetening processing in the background. Royalty-free content makes creating sound beds, scores, and soundscapes easy. Native 5.1 surround sound capability and roundtrip editing with Adobe Premiere® Pro CC software promote a smooth video production workflow, while Open Media Format (OMF) and XML support project exchange with Avid Pro Tools and third-party NLEs. | https://www.newhorizons.com/course-outline/courseid/300201240 |
| AutoCAD Level 1: Essentials | 3.00 | $ 1,495.00 | Learn to design and shape the world around you using the powerful, flexible features found in AutoCAD® design and documentation software, one of the world's leading 2D and 3D CAD tools. In this course, you will learn to navigate the AutoCAD user interfaces and use the fundamental features of AutoCAD. You will learn to use the precision drafting tools in AutoCAD to develop accurate technical drawings and you'll discover ways to present drawings in a detailed and visually impressive way. | https://www.newhorizons.com/course-outline/courseid/300200858 |
| AutoCAD Level 2: Intermediate | 2.00 | $ 1,195.00 | Discover the powerful tools and techniques for drawing, dimensioning, and printing 2D drawings in this course that enables you to reuse content and extract information from your drawings. With an understanding of the tools and concepts you'll learn in class, you can begin to streamline the design process and become more productive with AutoCAD. | https://www.newhorizons.com/course-outline/courseid/300200860 |
| AutoCAD Level 3: Creating and Presenting 3D Models | 3.00 | $ 1,495.00 | In this course, you will learn the fundamental concepts and workflows for creating 3D models using AutoCAD. You will learn to create solid primitives, solid or surface models from cross-sectional geometry, or composite models from multiple solid models, and you'll learn to add the necessary features to detail, duplicate, and position 3D models. You will learn to document a 3D design by creating 2D drawings for production and visualization, and you'll learn to convert 2D objects to 3D objects. You will learn to communicate design ideas using visual styles, lights, model walk-through tools, and renderings. | https://www.newhorizons.com/course-outline/courseid/300200861 |
| Autodesk Revit Architecture | 4.00 | $ 1,995.00 | In this course on Revit Architecture, you will learn to create full 3D architectural project models and set them up in working drawings. You will spend most of the course learning to use design development tools, including building the 3D model with walls, windows, doors, floors, roofs, and stairs, and creating reflected ceiling plans and furniture plans. You will also learn about the concepts of building information modeling (BIM) and the tools for parametric building design and documentation. Autodesk Revit Architecture is purpose-built for BIM. BIM is an integrated process built on coordinated, reliable information about a project from design through construction and into operations. By adopting BIM, architecture firms can use this consistent information throughout the process to design and document innovative projects, accurately visualize appearance for better communication, and simulate real-world performance for better understanding of cost, scheduling, and environmental impact. | https://www.newhorizons.com/course-outline/courseid/300201250 |
| Automate No-Code Solutions Using Flow (ADX301) | 3.00 | $ 2,700.00 | Streamline business processes and automate manual tasks across your organization by building no-code automation solutions with Flow Builder. In this 3-day class designed for administrators, our experts will introduce you to Screen and Record-Trigger Flows, in addition to various Flow elements and resources. Learn how to effectively create and manage Flows that champion automation best practices, solve for user requirements, and empower you to get more out of Salesforce. | https://www.newhorizons.com/course-outline/courseid/300200902 |
| Automating Fortinet FortiOS & FortiGate with Terraform | 3.00 | $ 1,795.00 | Get hands-on and use Terraform to automate the Fortinet FortiOS and FortiGate NGFWs products. Students will learn to manage various aspects of config, such as data interfaces and security policies with Terraform. All lessons focus on best practice techniques, including interacting with git, GitHub or GitLab, and writing prompts for AI LLM tools to generate relevant solutions. | https://www.newhorizons.com/course-outline/courseid/300201184 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| Automating Palo Alto with Terraform | 3.00 | $ 1,795.00 | Get hands-on and use Terraform to automate the PAN-OS operating system for Palo Alto Networks NGFWs and Panorama products. Students will learn to manage various aspects of a firewall's or a Panorama's config, such as data interfaces and security policies. Optional lecture may also cover Palo Alto Networks Terraform providers for Prisma Cloud, Bridgecrew Security Platform, or Palo Alto Networks Cloud Next-Gen Firewalls for AWS. All lessons focus on best practice techniques, including interacting with git, GitHub or GitLab, and writing prompts for AI LLM tools to generate relevant solutions. | https://www.newhorizons.com/course-outline/courseid/300201183 |
| AWS Cloud Financial Management for Builders | 3.00 | $ 2,025.00 | This course is for individuals who seek an understanding of how to manage, optimise, and predict costs as you run workloads on AWS. You learn how to implement architectural best practices, explore cost optimisation strategies, and design patterns to help you architect cost-efficient solutions on AWS. | https://www.newhorizons.com/course-outline/courseid/300030006 |
| AWS Cloud Practitioner Essentials | 1.00 | $ 695.00 | This course is for individuals who seek an overall understanding of the Amazon Web Services (AWS) Cloud, independent of specific technical roles. You will learn about AWS Cloud concepts, AWS services, security, architecture, pricing, and support to build your AWS Cloud knowledge. This course also helps you prepare for the AWS Certified Cloud Practitioner exam. | https://www.newhorizons.com/course-outline/courseid/300030010 |
| AWS Data Analytics Bootcamp | 4.00 | $ 2,700.00 | This bootcamp is a collection of four one-day AWS courses including Building Data Lakes on AWS, Building Batch Data Analytics Solutions on AWS, Building Data Analytics Solutions Using Amazon Redshift, and Building Streaming Data Analytics Solutions on AWS. By attending this training you'll receive comprehensive training for developing modern data skills, including how to modernize data solutions end to end, how to leverage AWS data Services to store, process, analyze, stream, and query data to make decisions with speed and agility at scale, as well as skills to put your data to work to make better, more informed decisions, respond faster to the unexpected, and uncover new opportunities. These courses will deep dive into Amazon Lake Formation, Amazon Glue, Amazon EMR, Amazon Kinesis, and Amazon Redshift and the current thinking in building and operating data analytics pipelines to turn data into insights. | https://www.newhorizons.com/course-outline/courseid/300201024 |
| AWS Migration Essentials | 1.00 | $ 695.00 | This course is intended to provide solutions architects with the foundational knowledge required to successfully plan and perform lift and shift migrations to the AWS Cloud. In this course you will learn about methodologies for discovering, planning, performing, and tracking migrations by using various AWS tools and services. | https://www.newhorizons.com/course-outline/courseid/300200944 |
| AWS Security Essentials | 1.00 | $ 695.00 | This course covers fundamental AWS cloud security concepts, including AWS access control, data encryption methods, and how network access to your AWS infrastructure can be secured. Based on the AWS Shared Security Model, you learn where you are responsible for implementing security in the AWS Cloud and what security-oriented services are available to you and why and how the security services can help meet the security needs of your organization. | https://www.newhorizons.com/course-outline/courseid/300030014 |
| AWS Technical Essentials | 1.00 | $ 695.00 | AWS Technical Essentials introduces you to AWS services, and common solutions. It provides you with fundamental knowledge to become more proficient in identifying AWS services. It helps you make informed decisions about IT solutions based on your business requirements and get started working on AWS. | https://www.newhorizons.com/course-outline/courseid/200007909 |
| AWS Well-Architected Best Practices | 1.00 | $ 675.00 | The Well-Architected Framework enables customers to make informed decisions about their architectures in a cloud-native way and understand the impact of design decisions that are made. By using the Well-Architected Framework, customers will understand the risks in their architecture and ways to mitigate them. This course is designed to provide a deep dive into the AWS Well-Architected Framework and its 5 pillars. This course also covers the Well-Architected Review process, and using the AWS Well-Architected Tool to complete reviews. | https://www.newhorizons.com/course-outline/courseid/300090014 |
| AZ-040T00 Automating Administration with Powershell | 5.00 | $ 2,995.00 | This course provides students with the fundamental knowledge and skills to use PowerShell for administering and automating administration of Windows servers. This course provides students the skills to identify and build the command they require to perform a specific task. In addition, students learn how to build scripts to accomplish advanced tasks such as automating repetitive tasks and generating reports. This course provides prerequisite skills supporting a broad range of Microsoft products, including Windows Server, Windows Client, Microsoft Azure, and Microsoft 365. In keeping with that goal, this course will not focus on any one of those products, although Windows Server, which is the common platform for all of those products, will serve as the example for the techniques this course teaches. | https://www.newhorizons.com/course-outline/courseid/100001056 |
| AZ-1001 Deploy and manage containers using Azure Kubernetes Service | 1.00 | $ 595.00 | In this learning path, you practice deploying containers, container orchestration, and managing clusters on Azure Kubernetes Service. The skills validated include deploying, configuring, and scaling an Azure Kubernetes Service cluster. Also, deploying an Azure Container Registry instance and deploying an application into an Azure Kubernetes Service cluster. | https://www.newhorizons.com/course-outline/courseid/300201163 |
| AZ-1002 Configure secure access to your workloads using networking with Azure Virtual Network | 1.00 | $ 595.00 | In this learning path, you practice configuring secure access to workloads using Azure networking. | https://www.newhorizons.com/course-outline/courseid/300201164 |
| AZ-1003 Secure storage for Azure Files and Azure Blob Storage | 1.00 | $ 595.00 | In this learning path, you practice storing business data securely by using Azure Blob Storage and Azure Files. The skills validated include creating storage accounts, storage containers, and file shares. Also, configuring encryption and networking to improve the security posture. | https://www.newhorizons.com/course-outline/courseid/300201165 |
| AZ-1004 Deploy and configure Azure Monitor | 1.00 | $ 595.00 | In this learning path, you practice implementing Azure Monitor to collect, analyze and act on monitoring telemetry from Azure environments. You learn to configure and interpret monitoring for virtual machines, networking, and web applications. | https://www.newhorizons.com/course-outline/courseid/300201166 |
| AZ-1005 Configuring Azure Virtual Desktop for the Enterprise | 1.00 | $ 595.00 | This abbreviated one-day course teaches Azure administrators how to plan, deliver, and manage virtual desktop experiences and remote apps, for any device, on Azure. Summarized lessons include implementing and managing networking for Azure Virtual Desktop, configuring host pools and session hosts, creating session host images, implementing, and managing FSLogix, monitoring Azure Virtual Desktop performance and health, and automating Azure Virtual Desktop management tasks. Students will learn through a mix of condensed demonstrations deploying virtual desktop experiences on Azure Virtual Desktop and running in multi-session virtual environments. This course assumes familiarity with Azure Virtual Desktop, including virtualization, networking, identity, storage, backup and restore, and disaster recovery. Students should have knowledge of on-premises virtual desktop infrastructure technologies as they relate to migrating to Azure Virtual Desktop. Students are expected to have used tools common to the Azure environment, such as the Azure PowerShell and Cloud Shell. | https://www.newhorizons.com/course-outline/courseid/300201118 |
| AZ-1006 Migrate and Modernize SAP in the Microsoft Cloud | 1.00 | $ 595.00 | This 1-day course teaches IT professionals who have experience with SAP solutions how to use Azure resources that include setting up and configuration of SAP environments in Azure for virtual machines, virtual networks, storage accounts, and Microsoft Entra ID. Learners will also explore backup, disaster recovery, and monitoring of SAP systems in Azure. Learn through the application of concepts, scenarios, and procedures through hands-on labs using Azure Center for SAP solutions. | https://www.newhorizons.com/course-outline/courseid/300201167 |
| AZ-104T00 Microsoft Azure Administrator | 4.00 | $ 2,495.00 | This course teaches IT Professionals how to manage their Azure subscriptions, secure identities, administer the infrastructure, configure virtual networking, connect Azure and on-premises sites, manage network traffic, implement storage solutions, create and scale virtual machines, implement web apps and containers, back up and share data, and monitor your solution. | https://www.newhorizons.com/course-outline/courseid/200015042 |
| AZ-120T00 Planning and Administering Microsoft Azure for SAP Workloads | 3.00 | $ 1,895.00 | This course teaches IT Professionals experienced in SAP solutions how to leverage Azure resources that include deployment and configuration of virtual machines, virtual networks, storage accounts, and Azure AD that includes implementing and managing hybrid identities. Students of this course will learn through concepts, scenarios, procedures, and hands-on labs how to best plan and implement migration and operation of an SAP solution on Azure. Your will receive guidance on subscriptions, create and scale virtual machines, implement storage solutions, configure virtual networking, back up and share data, connect Azure and on-premises sites, manage network traffic, implement Azure Active Directory, secure identities, and monitor your solution. | https://www.newhorizons.com/course-outline/courseid/100001008 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| AZ-140T00 Configuring and Operating Microsoft Azure Virtual Desktop | 4.00 | $ 2,495.00 | This course teaches Azure administrators how to plan, deliver, and manage virtual desktop experiences and remote apps, for any device, on Azure. Lessons include implementing and managing networking for Azure Virtual Desktop, configuring host pools and session hosts, creating session host images, implementing, and managing FSLogix, monitoring Azure Virtual Desktop performance and health, and automating Azure Virtual Desktop management tasks. Students will learn through a mix of demonstrations and hands-on lab experiences deploying virtual desktop experiences and apps on Azure Virtual Desktop and optimizing them to run in multi-session virtual environments. Candidates of this course must have solid Azure administration skills. This course assumes prior experience, including virtualization, networking, identity, storage, backup and restore, and disaster recovery. Students should have knowledge of on-premises virtual desktop infrastructure technologies as they relate to migrating to Azure Virtual Desktop. Students are expected to have used the tools common to the Azure environment, such as the Azure PowerShell and Cloud Shell. | https://www.newhorizons.com/course-outline/courseid/100001048 |
| AZ-2001T00 Implement security through a pipeline using Azure DevOps | 1.00 | $ 695.00 | *Pilot Program*This learning path helps you prepare for the Implement security through a pipeline assessment using Azure DevOps. Learn how to configure and secure Azure Pipelines. You'll also get opportunities to practice hands-on skills. These skills include configuring secure access to pipeline resources, configuring, and validating permissions, configuring a project and repository structure, extending a pipeline, configuring pipelines to use variables and parameters securely, and managing identity for projects, pipelines, and agents. | https://www.newhorizons.com/course-outline/courseid/300201117 |
| AZ-2002 Develop an ASP.NET Core web app that consumes an API | 1.00 | $ 595.00 | Learn how to gather information from API documentation and perform HTTP operations in an ASP.NET Core Razor Pages web app. | https://www.newhorizons.com/course-outline/courseid/300201169 |
| AZ-2003 Deploy cloud-native apps using Azure Container Apps | 1.00 | $ 595.00 | Develop the skills necessary to configure a secure deployment solution for cloud-native apps. Learn how to build, deploy, scale, and manage containerized cloud-native apps using Azure Container Apps, Azure Container Registry, and Azure Pipelines. | https://www.newhorizons.com/course-outline/courseid/300201170 |
| AZ-2008 DevOps Foundations: The Core Principles and Practices | 1.00 | $ 595.00 | Explore DevOps practices using GitHub. Your development and operations teams will experience improved collaboration, agility, continuous integration, continuous delivery, automation, and operational excellence throughout all phases of the application lifecycle. | https://www.newhorizons.com/course-outline/courseid/300201207 |
| AZ-204T00 Developing Solutions for Microsoft Azure | 5.00 | $ 2,995.00 | This course teaches developers how to create end-to-end solutions in Microsoft Azure. Students will learn how to implement Azure compute solutions, create Azure Functions, implement and manage web apps, develop solutions utilizing Azure storage, implement authentication and authorization, and secure their solutions by using KeyVault and Managed Identities. Students will also learn how to connect to and consume Azure services and third-party services, and include event- and message-based models in their solutions. The course also covers monitoring, troubleshooting, and optimizing Azure solutions. | https://www.newhorizons.com/course-outline/courseid/200015087 |
| AZ-305T00 Designing Microsoft Azure Infrastructure Solutions | 4.00 | $ 2,495.00 | This course teaches Azure Solution Architects how to design infrastructure solutions. Course topics cover governance, compute, application architecture, storage, data integration, authentication, networks, business continuity, and migrations. The course combines lecture with case studies to demonstrate basic architect design principles. | https://www.newhorizons.com/course-outline/courseid/100001063 |
| AZ-400T00 Designing and Implementing Microsoft DevOps Solutions | 4.00 | $ 2,495.00 | This course provides the knowledge and skills to design and implement DevOps processes and practices. Students will learn how to plan for DevOps, use source control, scale Git for an enterprise, consolidate artifacts, design a dependency management strategy, manage secrets, implement continuous integration, implement a container build strategy, design a release strategy, set up a release management workflow, implement a deployment pattern, and optimize feedback mechanisms | https://www.newhorizons.com/course-outline/courseid/100001023 |
| AZ-500T00 Microsoft Azure Security Technologies | 4.00 | $ 2,495.00 | This course provides IT Security Professionals with the knowledge and skills needed to implement security controls, maintain an organization's security posture, and identify and remediate security vulnerabilities. This course includes security for identity and access, platform protection, data and applications, and security operations. | https://www.newhorizons.com/course-outline/courseid/200012404 |
| AZ-700T00 Designing and Implementing Microsoft Azure Networking Solutions | 3.00 | $ 1,895.00 | This course teaches Network Engineers how to design, implement, and maintain Azure networking solutions. This course covers the process of designing, implementing, and managing core Azure networking infrastructure, Hybrid Networking connections, load balancing traffic, network routing, private access to Azure services, network security and monitoring. Learn how to design and implement a secure, reliable, network infrastructure in Azure and how to establish hybrid connectivity, routing, private access to Azure services, and monitoring in Azure. | https://www.newhorizons.com/course-outline/courseid/100001057 |
| AZ-800T00 Administering Windows Server Hybrid Core Infrastructure | 4.00 | $ 2,495.00 | This course teaches IT Professionals how to manage core Windows Server workloads and services using on-premises, hybrid, and cloud technologies. The course teaches IT Professionals how to implement and manage on-premises and hybrid solutions such as identity, management, compute, networking, and storage in a Windows Server hybrid environment. | https://www.newhorizons.com/course-outline/courseid/100001068 |
| AZ-801T00 Configuring Windows Server Hybrid Advanced Services | 4.00 | $ 2,495.00 | This course teaches IT Professionals to configure advanced Windows Server services using on-premises, hybrid, and cloud technologies. The course teaches IT Professionals how to leverage the hybrid capabilities of Azure, how to migrate virtual and physical server workloads to Azure IaaS, and how to secure Azure VMs running Windows Server. The course also teaches IT Professionals how to perform tasks related to high availability, troubleshooting, and disaster recovery. The course highlights administrative tools and technologies including Windows Admin Center, PowerShell, Azure Arc, Azure Automation Update Management, Microsoft Defender for Identity, Azure Security Center, Azure Migrate, and Azure Monitor. | https://www.newhorizons.com/course-outline/courseid/100001069 |
| AZ-900T00 Microsoft Azure Fundamentals | 1.00 | $ 695.00 | This course will provide foundational level knowledge on cloud concepts; core Azure services; and Azure management and governance features and tools. | https://www.newhorizons.com/course-outline/courseid/200012878 |
| Becoming a Transformational Leader | 2.00 | $ 1,495.00 | This course will help students develop authentic leadership qualities that motivate and drive others to reach their full potential, and become the transformational leaders of the future. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201067 |
| Blockchain for Healthcare Professionals | 3.00 | $ 1,895.00 | The Blockchain for Healthcare Professionals course reviews how Blockchain is being applied in the Healthcare industry. As the healthcare industry faces many critical issues, healthcare professionals are turning to, and implementing Blockchain solutions to improve privacy, data integrity, cost reductions, and regulatory compliance, just to name a few. Including discussions of current and new use cases, as well as detailed coverage of the regulatory environment, this course focuses on how the Blockchain is being used to improve and resolve many of the current and future healthcare industry problems. | https://www.newhorizons.com/course-outline/courseid/300080005 |
| Blockchain Security Training | 3.00 | $ 1,895.00 | This dynamic instructor led course covers all known aspects of Blockchain security that exist in the Blockchain environment today. This course provides a detailed overview of all Blockchain security issues, including threats, risk mitigation, node security integrity, confidentiality, best security practices, advanced Blockchain security and more. The in-depth lab sessions will provide the student with practical, real world tools for not only recognizing security threats, but mitigation and prevention as well. | https://www.newhorizons.com/course-outline/courseid/300080002 |
| Blockchain Solution Architecture Training | 3.00 | $ 1,895.00 | This instructor-led 3 day Blockchain Architecture training is for technical leaders who need to make decisions about architecture, environment, and development platforms. The Certified Blockchain Solution Architecture exam is included with class. | https://www.newhorizons.com/course-outline/courseid/300080003 |
| Blockchain Training: An Overview for Business Professionals | 1.00 | $ 399.00 | This course provides general overview of Blockchain technology. | https://www.newhorizons.com/course-outline/courseid/300080008 |
| BOW310 SAP Web Intelligence - Report Design I | 2.00 | $ 1,636.00 | This two-day instructor-led course is designed to give you the comprehensive skills and in-depth knowledge needed to access, analyze and share data using SAP BusinessObjects BI launch pad and SAP BusinessObjects Web Intelligence. | https://www.newhorizons.com/course-outline/courseid/200008170 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| Build and Analyze Customer Journeys using Marketing Cloud (MKT101) | 5.00 | $ 3,000.00 | Start your journey to becoming a Marketing Cloud Specialist. In this 5-day you will learn how to build customer journeys within Marketing Cloud. Our team of Marketing Cloud pros will walk you through best practices related to executing, monitoring, and analyzing your journeys, arming you with the tools and know-how to design personalized journeys and engage with your customers in a whole new way.  NOTE: This course is offered in the standard 5-day format and also the extended 10-day format. | https://www.newhorizons.com/course-outline/courseid/300200897 |
| Build Applications Programmatically on the Salesforce Platform (DEX450) | 5.00 | $ 4,500.00 | Learn how to customize and design applications programmatically on the Salesforce Platform. In this 5-day class our platform experts will introduce you to Apex (Salesforce's programming language) and Visualforce markup, so you can customize your Salesforce applications using code and explore how Apex interacts with declarative customizations on the platform. Learn how to retrieve, manipulate, and store data programmatically in data objects (sObjects), write and test custom logic, write Visualforce pages to customize your user interface, and deploy your solutions to another environment. Get an overview of the declarative automation tools available on the platform and a brief introduction to the Lightning Component framework. Plus, explore the nuances of working on a multi-tenant platform so you can extend the platform to meet business demands. | https://www.newhorizons.com/course-outline/courseid/300200895 |
| Build Modern Applications with AWS NoSQL Databases | 1.00 | $ 695.00 | This course is for developers, architects, and database engineers who want to build applications that involve complex data characteristics and millisecond performance requirements from their databases. In this course, you use AWS purpose-built databases to build a typical modern application with diverse access patterns and real-time scaling needs. By the end of the class, you should be able to describe advanced features of Amazon DynamoDB, Amazon DocumentDB (with Mongo compatibility), and Amazon ElastiCache for Redis. | https://www.newhorizons.com/course-outline/courseid/300201219 |
| Building Batch Data Analytics Solutions on AWS | 1.00 | $ 675.00 | In this course, you will learn to build batch data analytics solutions using Amazon EMR, an enterprise-grade  Apache Spark and Apache Hadoop managed service. You will learn how Amazon EMR integrates with  open-source projects such as Apache Hive, Hue, and HBase, and with AWS services such as AWS Glue and  AWS Lake Formation. The course addresses data collection, ingestion, cataloging, storage, and processing  components in the context of Spark and Hadoop. You will learn to use EMR Notebooks to support both  analytics and machine learning workloads. You will also learn to apply security, performance, and cost  management best practices to the operation of Amazon EMR. | https://www.newhorizons.com/course-outline/courseid/300201021 |
| Building Better Business Cases | 1.00 | $ 795.00 | Project professionals often find themselves developing business cases for the performing organization. When asked to do so, it is critical to create a solid business case. All too often, project teams are asked to implement a solution before the underlying problem is known or assessed. An essential ingredient to successful projects is a clear and relevant business case. It provides both insights into and a proposed solution for important business needs. Strong business cases contain feasible and effective ways of justifying and recommending projects that squarely address business needs, both problems and opportunities. Through this course, you will learn a repeatable process that starts with identifying business needs and ends with a strong business case. You will learn and practice applying each step in a 5-part approach to developing business cases.  This course has been approved by PMI for 7 PDUs and by IIBA for 7 CDUs. | https://www.newhorizons.com/course-outline/courseid/300200747 |
| Building Data Analytics Solutions using Amazon Redshift | 1.00 | $ 675.00 | In this course, you will build a data analytics solution using Amazon Redshift, a cloud data warehouse service. The course focuses on the data collection, ingestion, cataloging, storage, and processing components of the analytics pipeline. You will learn to integrate Amazon Redshift with a data lake to support both analytics and machine learning workloads. You will also learn to apply security, performance,  and cost management best practices to the operation of Amazon Redshift. | https://www.newhorizons.com/course-outline/courseid/300201023 |
| Building Data Lakes on AWS | 1.00 | $ 695.00 | In this course, you will learn how to build an operational data lake that supports analysis of both structured and unstructured data. You will learn the components and functionality of the services involved in creating a data lake. You will use AWS Lake Formation to build a data lake, AWS Glue to build a data catalog, and Amazon Athena to analyze data. The course lectures and labs further your learning with the exploration of several common data lake architectures. | https://www.newhorizons.com/course-outline/courseid/300030054 |
| Building Resilient Microservices with Istio and Red Hat OpenShift Service Mesh (DO328) | 4.00 | $ 3,210.00 | Control, manage, trace, monitor, and test your microservices with Red Hat OpenShift Service Mesh  Building Resilient Microservices with Istio and Red Hat OpenShift Service Mesh (DO328) teaches students installation, service monitoring, service management, and service resilience of Red Hat OpenShift® Service Mesh.  Openshift created an enterprise-ready, multi-tenant platform that made deploying and scaling microservice applications efficient and easily repeatable. But as these architectures become larger and more complex, defining how these services interact with each other becomes increasingly difficult. Red Hat OpenShift Service Mesh comprises 3 products—Istio, Jaeger, and Kiali—that facilitate service interaction management, provide service tracing, and create a visual representation of communication pathways.  This course is based on Red Hat OpenShift® Container Platform 4.4 and Red Hat OpenShift Service Mesh 1.1. | https://www.newhorizons.com/course-outline/courseid/300160006 |
| Building Streaming Data Analytics Solutions on AWS | 1.00 | $ 695.00 | In this course, you will learn to build streaming data analytics solutions using AWS services, including Amazon Kinesis and Amazon Managed Streaming for Apache Kafka (Amazon MSK). Amazon Kinesis is a massively scalable and durable real-time data streaming service. Amazon MSK offers a secure, fully managed, and highly available Apache Kafka service. You will learn how Amazon Kinesis and Amazon MSK integrate with AWS services such as AWS Glue and AWS Lambda. The course addresses the streaming data ingestion, stream storage, and stream processing components of the data analytics pipeline. You will also learn to apply security, performance, and cost management best practices to the operation of Kinesis and Amazon MSK. | https://www.newhorizons.com/course-outline/courseid/300201022 |
| Building Successful Work Relationships | 2.00 | $ 1,495.00 | In the interdependent workplace, we rely on each other to get things done. A professional network isn't something we can take for granted – mapping work relationships can be a complex task and understanding different behavioral styles takes effort - but it pays off! Good working relationships means more than just reducing conflict and misunderstandings. It also means building trust, increasing influence, and benefitting from the knowledge and advice of co-workers and senior managers. This workshop will help you develop relationship building skills so you can communicate who you are, what you need, and why you need it in a way that builds trust, respect, and a professional reputation. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201068 |
| Business Acumen For Leaders | 1.00 | $ 795.00 | Students will learn to understand the mechanics of the organization – reading and interpreting financials, making sound business decisions, and setting a course – while also developing the skills to guide and direct your workforce. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201069 |
| Business Analysis Foundations | 2.00 | $ 1,195.00 | Whether you are new to business analysis, or are experienced and want a more formal approach, it's essential to know and practice the "basics." This course provides you with the foundational skills you need to deliver value to your stakeholders and organization. You will learn how to help your business clients articulate their business problem or opportunity, plan business analysis activities, as well as learn the basics of eliciting, analyzing, documenting, managing, and communicating requirements through the life cycle of the project. By grasping these foundational skills, you can contribute significantly to the success of your organization's projects. | https://www.newhorizons.com/course-outline/courseid/300200746 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Business Analysis Modeling Essentials | 2.00 | $ 1,195.00 | To paraphrase an expert, "if you don't get the requirements right, nothing else matters on the project." This course presents several common Business Analysis (BA) modeling techniques to help you elicit and analyze requirements. You will practice analyzing, modeling, and reviewing the requirements as you work through an engaging case study. You will also learn and practice industry-standard modeling notation for each model. The models in this class follow the concurrent modeling framework, emphasizing process, data, interaction, and interface requirements. This simple framework will help you develop a quicker and more complete set of requirements. This course conforms to and aligns with the BABOK® Guide version 3.0 of the IIBA® (International Institute of Business Analysis). | https://www.newhorizons.com/course-outline/courseid/300200754 |
| Business Etiquette | 1.00 | $ 395.00 | This course examines the basics, most importantly to be considerate of others, dress/appearance, the workplace versus social situations, business meetings, proper introductions and 'the handshake', conversation skills/small talk, & much more. | https://www.newhorizons.com/course-outline/courseid/200008513 |
| Business Process Improvement | 2.00 | $ 1,195.00 | Perhaps no other skill can yield such immediate results and payback than learning how to improve business processes. Business process improvement efforts can increase quality, reduce costs and waste, increase operational efficiency, and enhance productivity. This course explores the need for a business process focus, the essential steps for process improvement, and the critical success factors for making the effort successful. It provides a practical framework for improving processes, process improvement concepts and techniques, and valuable tips on how to introduce process change into the organization and to get the most from your process improvement effort. | https://www.newhorizons.com/course-outline/courseid/200008078 |
| Business Process Management Foundations | 1.00 | $ 795.00 | To maintain competitiveness in local and international markets, formally managing your business processes is increasingly essential. This course explores the need for a business process focus, the essential steps for process management, and the critical success factors for making the effort successful. It provides a practical framework for understanding processes, using and developing metrics to manage processes, and describes the role of the Process Owner. Presented in a methodology-neutral way, participants can easily apply the knowledge and skills to any environment and use the techniques immediately upon leaving class. | https://www.newhorizons.com/course-outline/courseid/300200762 |
| Business Process Modeling | 2.00 | $ 1,195.00 | To harness the work done in organizations and to increase productivity, it is essential to understand how to model business processes. This course explores the need for modeling business processes, how process modeling is one part of a larger framework for achieving higher quality through Business Process Management, the essential steps to process modeling, and the critical success factors for making the effort successful. It provides a practical framework for understanding and modeling business processes and describes when and how to develop a variety of process model types at varying levels of detail. | https://www.newhorizons.com/course-outline/courseid/300200758 |
| Business Relationship Management Foundations | 3.00 | $ 1,595.00 | Business Relationship Manager (BRM) professionals serve as the relationship linkage between the business and the service provider. They provide highly-valued strategic consulting support and guidance on key initiatives to ensure business value is achieved. Business Relationship Managers proactively serve as a "trusted advisor," and function as a key point of contact between the business stakeholders and the service provider. They represent the service provider to the business by promoting the provider's vision, value, product, services, and capabilities. They also act as advocates on behalf of business stakeholders to ensure the provider meets their business priorities and needs. Individuals in this role must be able to communicate clearly and build strong relationships. This course provides practical hand's on exercises and provides template to use in your organization. | https://www.newhorizons.com/course-outline/courseid/300200906 |
| Business Relationship Management Professional (BRMP®) Training | 3.00 | $ 1,995.00 | The Business Relationship Management Professional (BRMP) training and certification course will provide you with a foundational understanding of business relationship management (BRM). This course provides the "why" business relationship management is critical to your organization and "what" a BRM does to add value to your organization. This interactive course includes discussions and real-life exercises that will provide you with the opportunity to apply the learning to your unique organizational situations and allow you to show immediate value in your Business Relationship Management (BRM) role, as well as prepare you for the BRMP Certification exam. Exam fee included in the cost of the course | https://www.newhorizons.com/course-outline/courseid/300200773 |
| Business Writing | 1.00 | $ 395.00 | Writing is a key method of communication for most people, and it's one that many people struggle with. This workshop will give participants a refresher on basic writing concepts (such as spelling, grammar, and punctuation), and an overview of the most common business documents (such as proposals, reports, and agendas), giving you that extra edge in the workplace. | https://www.newhorizons.com/course-outline/courseid/200006660 |
| CCAS: Check Point Certified Automation Specialist | 2.00 | $ 2,000.00 | The goal of this course is to provide an understanding of the advanced concepts and skills necessary to automate and orchestrate tasks relating to managing Check Point Security Policies. | https://www.newhorizons.com/course-outline/courseid/300020033 |
| CCCS: Check Point Certified Cloud Specialist | 2.00 | $ 2,000.00 | Learn basic concepts and develop skills necessary to administer Check Point CloudGuard security solutions. | https://www.newhorizons.com/course-outline/courseid/300020045 |
| CCES: Check Point Certified Endpoint Specialist | 2.00 | $ 2,000.00 | The goal of this course is to provide a comprehensive understanding of Check Point Endpoint Security and how to deploy it within the corporate network environment. | https://www.newhorizons.com/course-outline/courseid/300020032 |
| CCMS: Check Point Certified Multi-Domain Security Management Specialist | 2.00 | $ 2,000.00 | Gain advanced skills for effectively securing and managing a multi-domain enterprise security network. Apply understanding of open-source and Check Point troubleshooting tools and techniques to investigate and resolve complex issues. | https://www.newhorizons.com/course-outline/courseid/300020012 |
| CCSA Check Point Certified Security Administrator | 3.00 | $ 3,000.00 | Learn basic concepts and develop skills necessary to administer IT security fundamental tasks. | https://www.newhorizons.com/course-outline/courseid/300020001 |
| CCSA+CCSE Check Point Cybersecurity Boot Camp (CCSA+CCSE) | 5.00 | $ 5,000.00 | This special CCSA and CCSE bundle covering Check Point Certified Security Administrator and Security Expert content (R80.40) validates and enhances your skills to manage Check Point advanced security management systems and to administer IT security fundamental tasks. | https://www.newhorizons.com/course-outline/courseid/300020002 |
| CCSE Check Point Certified Security Expert (R81.x) | 3.00 | $ 3,000.00 | The goal of this course is to provide an understanding and skills necessary to configure and optimally manage Check Point Next Generation Firewalls. | https://www.newhorizons.com/course-outline/courseid/300020009 |
| CCTA: Check Point Certified Troubleshooting Administrator | 2.00 | $ 2,000.00 | The goal of this course is to provide an understanding of the concepts and skills necessary to troubleshoot issues which may occur when managing the Check Point Security Management architecture and Security Gateways. | https://www.newhorizons.com/course-outline/courseid/300020039 |
| CCTE: Check Point Certified Troubleshooting Expert | 2.00 | $ 2,000.00 | Provide advanced troubleshooting skills to investigate and resolve more complex issues that may occur while managing your Check Point Security environment. | https://www.newhorizons.com/course-outline/courseid/300020038 |
| CCVS: Check Point Certified VSX Specialist | 2.00 | $ 2,000.00 | This course provides a comprehensive understanding of the Check Point VSX solution and describes how to deploy it within the corporate network environment. | https://www.newhorizons.com/course-outline/courseid/300020031 |
| Certification in Business Data Analytics (IIBA®- CBDA) Training | 2.00 | $ 1,195.00 | Business data analytics is the discipline by which a specific set of techniques, competencies and practices are applied to perform the continuous exploration and investigation of business data. It focuses on effective business decision-making through data analysis, enabling organizations to make more informed decisions. This two-day session will prepare you for the Certification in Business Data Analytics (IIBA®-CBDA) exam awarded by the International Institute of Business Analysis™ (IIBA®) and help you make the most of your post-class study time. This course was designed to help candidates focus on the critical areas to study and to provide insights into the exam. We are excited to introduce a special add-on bundle to enhance your learning experience with our IBA certification courses. This unique bundle includes a 1-year membership, providing access to exclusive resources and benefits, coupled with an extraordinary 30% discount on exam fees and applicable application fees. To benefit from this exclusive offer, we encourage you to reach out to your dedicated representative or contact us indicating your interest in taking advantage of this exclusive offer. | https://www.newhorizons.com/course-outline/courseid/300200759 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| Certification of Capability in Business Analysis (IIBA-CCBA®) Certification Exam Prep | 4.00 | $ 1,995.00 | This comprehensive workshop will prepare you for the Certification of Capability in Business Analysis™ (CCBA®) exam and help you make the most of the limited study time you have. The course was designed, created, and is taught by expert IIBA-certified instructors who will help you focus on critical study areas and provide insights into the exam. This course conforms to and aligns with the BABOK® Guide version 3.0 of the IIBA® (International Institute of Business Analysis). Whether working in traditional Waterfall, Agile or hybrid project environments, Business Analysis skills are central to facilitating communication and achieving consensus among stakeholders. From understanding the business need and writing business cases, to requirements management, through evaluating solutions, those filling the role of BA are addressing the most pressing issue facing businesses today: How to deliver value and meet the business need. CCBA® candidates will learn the full repertoire of BA techniques and elevate their understanding of their own experience as seen through the lens of industry best practices. The investment in a CCBA® certification enhances the effectiveness and professionalism of practitioners and translates into a robust return on the investment for both individuals and organizations that will benefit from improved business processes, higher rates of project success, and better business outcomes. This course satisfies the 35 hours of formal education required to sit for the CCBA® Exam. We are excited to introduce a special add-on bundle to enhance your learning experience with our IBA certification courses. This unique bundle includes a 1-year membership, providing access to exclusive resources and benefits, coupled with an extraordinary 30% discount on exam fees and applicable application fees. To benefit from this exclusive offer, we encourage you to reach out to your dedicated representative or contact us indicating your interest in taking advantage of this exclusive offer. | https://www.newhorizons.com/course-outline/courseid/300200755 |
| Certified Agile Service Manager (CASM)® | 2.00 | $ 1,590.00 | This course provides an introduction to Agile Service Management, the application, and integration of agile thinking into service management processes and process design projects. Agile thinking improves IT's effectiveness and efficiency and enables IT to continue to deliver value in the face of changing requirements. | https://www.newhorizons.com/course-outline/courseid/200009640 |
| Certified Artificial Intelligence (AI) Practitioner (CAIP) | 5.00 | $ 3,495.00 | Artificial intelligence (AI) and machine learning (ML) have become an essential part of the toolset for many organizations. When used effectively, these tools provide actionable insights that drive critical decisions and enable organizations to create exciting, new, and innovative products and services. This course shows you how to apply various approaches and algorithms to solve business problems through AI and ML, follow a methodical workflow to develop sound solutions, use open source, off-the-shelf tools to develop, test, and deploy those solutions, and ensure that they protect the privacy of users. This course includes hands on activities for each topic area. | https://www.newhorizons.com/course-outline/courseid/200012853 |
| Certified Associate in Project Management (CAPM) | 3.00 | $ 1,595.00 | If you are a recent college graduate or young professional looking to stand out in a competitive job market, then the CAPM certification is a great choice to not only learn the foundations of Project Management but to add a credential to your resume to validate your knowledge. The CAPM certification from Project Management Institute (PMI®) allows aspiring project managers and recent graduates to distinguish themselves in the job market. Our CAPM certification boot camp fully prepares candidates for the 150-question, multiple-choice CAPM exam and satisfies the educational requirement to sit for the exam. Unlike the PMP certification, there is no additional work experience required to sit for the CAPM exam. Note: This course has been approved by PMI for 23 PDUs | https://www.newhorizons.com/course-outline/courseid/300200716 |
| Certified Business Analysis Practitioner (IIBA-CBAP®) Certification Exam Prep | 4.00 | $ 1,995.00 | The International Institute of Business Analysis (IIBA®) Certified Business Analysis Practitioner™ (CBAP®) certification has long been recognized as the gold standard in business analysis certifications. The high standards for eligibility and a rigorous exam have made this the most sought-after certification for senior Business Analysis (BA) professionals. This comprehensive workshop will help you make the most of your study time. The course was designed, created, and is taught by expert IIBA-certified instructors who will help you focus on critical study areas and provide insights into the exam. This course conforms to and aligns with the BABOK® Guide version 3.0 of the IIBA® (International Institute of Business Analysis). Whether working in traditional Waterfall, Agile or hybrid project environments, Business Analysis skills are central to facilitating communication and achieving consensus among stakeholders. From understanding the business need and writing business cases, to requirements management, through evaluating solutions, those filling the role of BA are addressing the most pressing issue facing businesses today: How to deliver value and meet the business need. CBAP® candidates will learn the full repertoire of BA techniques and elevate their understanding of their own experience as seen through the lens of industry best practices. The investment in a CBAP® certification enhances the effectiveness and professionalism of practitioners and translates into a robust return on the investment for both individuals and organizations that will benefit from improved business processes, higher rates of project success, and better business outcomes. This course satisfies the 35 hours of formal education required to sit for the CBAP exam. We are excited to introduce a special add-on bundle to enhance your learning experience with our IBA certification courses. This unique bundle includes a 1-year membership, providing access to exclusive resources and benefits, coupled with an extraordinary 30% discount on exam fees and applicable application fees. To benefit from this exclusive offer, we encourage you to reach out to your dedicated representative or contact us indicating your interest in taking advantage of this exclusive offer. | https://www.newhorizons.com/course-outline/courseid/300200753 |
| Certified Cloud Security Professional (CCSP) | 5.00 | $ 4,549.00 | The goal of the course is to prepare professionals for the challenging CCSP exam by covering the objectives of the exam based on the six domains as defined in the (ISC)2 CCSP common body of knowledge. | https://www.newhorizons.com/course-outline/courseid/200009621 |
| Certified CMMC Assessor (CCA) | 5.00 | $ 2,995.00 | The Cybersecurity Maturity Model Certification (CMMC) program provides a standard model and process for conducting a conformity assessment of Department of Defense (DoD) suppliers and service providers. Organizations wanting to provide products and services to the DoD will be required to demonstrate their cybersecurity competency and compliance under the CMMC program. A Certified CMMC Assessor (CCA) applies a rigorous Assessment Process to ensure the relevant security controls have been effectively implemented and that there is evidence that these controls can be sustained. This course covers identifying the scope of an Assessment, assessing the CMMC Level 2 practices, and using an established process and workflow to enable efficiencies during an Assessment. | https://www.newhorizons.com/course-outline/courseid/300200870 |
| Certified CMMC Professional (CCP) | 5.00 | $ 2,995.00 | This course prepares students for the CMMC-AB Certified CMMC Professional (CCP) certification, which authorizes the holder to use the CMMC-AB Certified CMMC Professional logo, to participate as an Assessment Team Member under the supervision of a Certified CMMC Assessor, and to be listed in the CMMC-AB Marketplace. The CCP certification is also prerequisite for the other Certified CMMC Assessor certifications (CCA-1, CCA-3, and CCA-5). | https://www.newhorizons.com/course-outline/courseid/100001061 |
| Certified Data Science Practitioner (CDSP) | 5.00 | $ 3,495.00 | For a business to thrive in our data-driven world, it must treat data as one of its most important assets. Data is crucial for understanding where the business is and where it's headed. Not only can data reveal insights, it can also inform—by guiding decisions and influencing day-to-day operations. This calls for a robust workforce of professionals who can analyze, understand, manipulate, and present data within an effective and repeatable process framework. In other words, the business world needs data science practitioners. This course will enable you to bring value to the business by putting data science concepts into practice. This course includes hands on activities for each topic area. | https://www.newhorizons.com/course-outline/courseid/100001066 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Certified Ethical Emerging Technologist TM (CEET) | 3.00 | $ 2,085.00 | Mutually reinforcing innovations in computing and engineering are catapulting advances in technological production. From blockchain and artificial intelligence (AI) to gene editing and the Internet of Things (IoT), these advances come with tremendous opportunities for improvement in productivity, efficiency, and human well-being. But as scandals increasingly demonstrate, these advances also introduce new and serious risks of conflict and harm. Technology professionals now face growing demands to identify and mitigate ethical risks to human rights and the environment, as well as to navigate ethical tradeoffs between qualities such as privacy and accuracy, fairness and utility, and safety and accountability. This course provides the tools to identify and manage common ethical risks in the development of emerging data-driven technologies. It distills ethical theory, public regulations, and industry best practices into concrete skills and guidelines needed for the responsible development of digital products and services. By following the course's practical, problems- based approach, learners will become adept at applying theories, principles, frameworks, and techniques in their own roles and organizations. | https://www.newhorizons.com/course-outline/courseid/300200957 |
| Certified in Risk and Information Systems Control (CRISC) | 3.00 | $ 2,037.00 | The CRISC course is designed for those who have experience with risk identification, assessment, and evaluation; risk response; risk monitoring; information systems control design and implementation; and information systems control monitoring and maintenance. | https://www.newhorizons.com/course-outline/courseid/200010144 |
| Certified Information Security Manager (CISM) | 3.00 | $ 1,995.00 | In this course, students will establish processes to ensure that information security measures align with established business needs. | https://www.newhorizons.com/course-outline/courseid/200005415 |
| Certified Information Security Systems Professional (CISSP) | 5.00 | $ 3,395.00 | In this course, students will expand upon their knowledge by addressing the essential elements of the 8 domains that comprise a Common Body of Knowledge (CBK)® for information systems security professionals. | https://www.newhorizons.com/course-outline/courseid/200002333 |
| Certified Information Systems Auditor (CISA) | 5.00 | $ 3,250.00 | In this course, students will evaluate organizational policies, procedures, and processes to ensure that an organizations information systems align with its overall business goals and objectives. | https://www.newhorizons.com/course-outline/courseid/200004062 |
| Certified Internet of Things (IoT) Practitioner (CIoTP) | 3.00 | $ 2,085.00 | In this course, students will learn general strategies for planning, designing, developing, implementing, and maintaining an IoT system through various case studies and by assembling and configuring an IoT device to work in a sensor network. Students will create an IoT device based on an ESP8266 microcontroller, implementing various common IoT features, such as analog and digital sensors, a web-based interface, MQTT messaging, and data encryption. This course prepares students for taking the CertNexus Certified Internet of Things (IoT) Practitioner (Exam ITP-110). This course includes an exam voucher. | https://www.newhorizons.com/course-outline/courseid/200010601 |
| Certified Internet of Things Security Practitioner (CIoTSP) | 3.00 | $ 2,085.00 | The Internet of Things (IoT) enables data to be collected and analyzed on a massive scale, enabling well-informed decisions to be made quickly. However, the deluge of data handled by IoT systems is often acquired, processed, and presented using new technologies that are rapidly evolving and in some cases being rushed to market, creating new concerns for data privacy and cybersecurity. Securing IoT systems can be a complicated proposition, involving hazards that many IT workers have never had to deal with. Solutions may involve resource-constrained IoT devices and technologies from many different vendors. IoT devices may be installed in vulnerable locations, and new network devices and protocols add complexity to the overall network architecture. | https://www.newhorizons.com/course-outline/courseid/200012560 |
| Certified Kubernetes Administrator (CKA) | 5.00 | $ 2,395.00 | This class prepares students for the Certified Kubernetes Administrator (CKA) exam. Kubernetes is a Cloud Orchestration Platform providing reliability, replication, and stability while maximizing resource utilization for applications and services. By the conclusion of this hands-on, vendor agnostic training you will go back to work with the knowledge, skills, and abilities to design, implement, and maintain a production-grade Kubernetes cluster. We prioritize covering all objectives and concepts necessary for passing the Certified Kubernetes Administrator (CKA) exam. You will be provided the components necessary to assemble your own high availability Kubernetes environment and configure, nexpand, and control it to meet the demands made of cluster administrators. Your week of intensive, hands-on training will conclude with a mock CKA exam that simulates the real exam. | https://www.newhorizons.com/course-outline/courseid/300201140 |
| Certified Kubernetes Application Developer (CKAD) | 5.00 | $ 2,395.00 | This class prepares students for the Certified Kubernetes Application Developer (CKAD) exam. Kubernetes is a Cloud Orchestration Platform providing reliability, replication, and stability while maximizing resource utilization for applications and services. By the conclusion of this hands-on training, you will go back to work with all necessary commands and practical skills to empower your team to succeed, as well as gain knowledge of important concepts like Kubernetes architecture and container orchestration. We prioritize covering all objectives and concepts necessary for passing the Certified Kubernetes Application Developer (CKAD) exam. You will command and configure a high availability Kubernetes environment (and later, build your own!) capable of demonstrating all "K8s" features discussed and demonstrated in this course. Your week of intensive, hands-on training will conclude with a mock CKAD exam that matches the real thing. | https://www.newhorizons.com/course-outline/courseid/300201141 |
| Certified Scrum Product Owner (CSPO) Training | 2.00 | $ 995.00 | Scrum is a framework that relies on cross-functional teams to deliver valuable products and services in short cycles or "increments" that enable continuous improvement, fast incorporation of end-user feedback, and accelerated delivery. Product Owners have a unique and demanding role in a Scrum environment. They decide what the Scrum team will create next in order to deliver more value to the customer and maximize the return on investment (ROI) for an organization. This comprehensive workshop prepares you for the Certified Scrum Product Owner (CSPO) certification and fulfills the requirement of a two-day CSPO training course taught by a Certified Scrum Trainer®. Upon active participation throughout the course, students will be eligible for the Certified Scrum Product Owner (CSPO) certification (there's no exam) and will receive a 2-Year Scrum Alliance Membership. | https://www.newhorizons.com/course-outline/courseid/300200766 |
| Certified ScrumMaster (CSM) | 2.00 | $ 995.00 | This two-day Certified ScrumMaster (CSM)® certification course will give participants an opportunity to work with an experienced practitioner to hear real stories and learn first-hand what it means to be a ScrumMaster. Working in a safe environment to experiment and explore, students will be able to dive in and get the hands-on feel of working on a Scrum Team. This course gives students what they need to effectively facilitate Scrum Teams and collaborate with stakeholders to deal with complexity, deliver value to customers, and achieve business goals. The experience and knowledge gained in this course sets students up for success in the CSM exam and in the field as they help their organizations navigate their Scrum implementations. Upon completion of the course, students will be eligible to sit for the CSM certification exam to earn their CSM® Certification from the Scrum Alliance. | https://www.newhorizons.com/course-outline/courseid/300200765 |
| Change Management Foundation | 3.00 | $ 2,000.00 | Dealing with change and more importantly, the impact of change is a high priority for all organisations. The Change Management Certification has been developed by APMG in partnership with the Change Management Institute (CMI), an independent, global professional association of change managers. Together they have developed a professional 'body of knowledge' for the discipline of change management. This body of knowledge now provides an independent benchmark for the professional knowledge expected of an effective change manager. APMG's refreshed Change Management certification is fully aligned with the change management body of knowledge. | https://www.newhorizons.com/course-outline/courseid/100001070 |
| Change Management Practitioner | 2.00 | $ 1,500.00 | Dealing with change and more importantly, the impact of change is a high priority for all organizations. The Change Management Certification has been developed by APMG in partnership with the Change Management Institute (CMI), an independent, global professional association of change managers. Together they have developed a professional 'body of knowledge' for the discipline of change management. This body of knowledge now provides an independent benchmark for the professional knowledge expected of an effective change manager. APMG's refreshed Change Management certification is fully aligned with the change management body of knowledge. | https://www.newhorizons.com/course-outline/courseid/100001071 |

|---|---|---|---|---|
| Cisco 8000 Series Routers Essentials v1 (SP8KE) | 5.00 | $ 4,195.00 | The Cisco 8000 Series Routers Essentials (SP8KE) v1.0 course introduces you to the features and functions of the Cisco® 8000 Series router platforms. Through a combination of lectures and labs, you will gain an understanding of all major aspects of the platform, including hardware, software, Layer 2 and Layer 3 services, Quality of Service (QoS) features, network virtualization, and programmability. | https://www.newhorizons.com/course-outline/courseid/300201283 |
| Cisco Administering and Positioning Cisco Umbrella Operations v2.1 (ADMUMB) | 3.00 | $ 3,395.00 | Cisco Umbrella is a cloud security platform that provides the first line of defense against threats on the Internet. Being able to understand and position how Cisco Umbrella works and what are the features is the key focus of this 3-day Cisco online IT class. Students who enter the course with a basic understanding of Cisco products and IT solutions will be able to describe the Cisco Umbrella, understand Secure Internet Gateway and Ransomware Protection, discuss Threat Intelligence, and use Cisco Roaming Client.  The course qualifies for 18 Cisco Continuing Education Credits (CE). | https://www.newhorizons.com/course-outline/courseid/300040008 |
| Cisco Administering Cisco UCS X-Series Solutions with InterSight (INTUCSX) | 5.00 | $ 4,495.00 | This deep-dive training covers Cisco UCS X-Series server family and how Intersight can be the enablement platform for all UCS servers. We will cover Intersight features such as IWOM, IST, ICO, and programmability either On-Prem or in the Cloud. Attendees will learn the breadth of the physical X-Series (pools, policies, firmware, so much more) platform as well as maintaining existing infrastructure with Intersight Infrastructures Services. Also covered is how to manage physical, virtual, cloud platforms and deploy to any or all.  The course qualifies for 40 Cisco Continuing Education Credits (CE). | https://www.newhorizons.com/course-outline/courseid/300200935 |
| Cisco Administering Cisco Unified Communications 12.X/14 (ACUCC) V1.0 | 5.00 | $ 4,995.00 | This is a 5-day hands-on one of a kind Cisco UC in-depth course takes student from initial endpoint configuration to a full solution deployment using all of the Cisco UC Components. Students will have extensive labs in which they will Administer and troubleshoot a Cisco 12.x / 14.0 UC Deployment. Participants will gain in-depth practical knowledge with exercises on administering and troubleshooting all Cisco UC Components. | https://www.newhorizons.com/course-outline/courseid/300201185 |
| Cisco Aggregation Services Router 9000 Series Essentials v6.1 (ASR9KE) | 4.00 | $ 3,595.00 | The Cisco Aggregation Services Router 9000 Series Essentials (ASR9KE) v6.1 course introduces you to the features and functions of the Cisco® Aggregation Services Router (ASR) 9000 Series platforms. You will gain an understanding of all major aspects of the platform and will also learn how to install Cisco IOS® XR 64-Bit software packages. | https://www.newhorizons.com/course-outline/courseid/300201252 |
| Cisco Application Centric Infrastructure Operations and Troubleshooting v5.2 (DCACIO) | 3.00 | $ 3,495.00 | The Cisco Application Centric Infrastructure Operations and Troubleshooting (DCACIO) v5.2 course shows you how to manage, monitor, and troubleshoot Cisco® Nexus® 9000 Series Switches in Application-Centric Infrastructure (ACI) mode. Through expert instruction and hands-on practice, you will learn about operational tools, best practices, caveats, and practice troubleshooting common issues on a live fabric. Based on lessons learned in wide range of production deployments, this course gives you the real-world knowledge and skills to boost operational efficiencies in your own deployment. | https://www.newhorizons.com/course-outline/courseid/300201260 |
| Cisco Catalyst Center (formerly DNAC) and SD-Access Training (SDAINT) | 2.00 | $ 2,495.00 | Introduction to Cisco SD-Access and Catalyst Center (formerly DNA Center) offer Cisco's next-generation programmable digital network to help automate common network access security features and streamline the redundant, complex configuration required to allow different groups of users access to the network infrastructure. This 2-day network security training course allows network administrators to quickly allow differentiated access for end users on the network while allowing the network to react automatically to day zero and other types of attacks using integration with Cisco ISE for Policy Enforcement with Cisco Catalyst Center (formerly DNA Center). The course qualified for 21 Cisco Continuing Education Credits (CE). | https://www.newhorizons.com/course-outline/courseid/300040007 |
| Cisco Contact Center Enterprise Advanced Administration (CCEAA) | 3.00 | $ 2,695.00 | Cisco Contact Center Enterprise Advanced Administration (CCEAA) is a 3-day instructor-led course intended for system engineers and customers who will be deploying and administering advanced Packaged Contact Center Enterprise functionality. | https://www.newhorizons.com/course-outline/courseid/300070002 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| Cisco Customer Success Manager v2.2 (DTCSM) | 3.00 | $ 2,195.00 | The Cisco Customer Success Manager (DTCSM) v2.2 course gives you the confidence and competence to fulfill the Customer Success Manager (CSM) role successfully, helping your customers realize value from their solutions and achieve their business outcomes. The course offers experiential learning through practical exercises using situations based on real-life use cases and case studies. In this highly interactive course, you can practice and gain confidence in fulfilling core tasks using best-practice tools and methodologies while receiving feedback from the facilitator and your peers. This course is based on understanding the customer lifecycle and how to optimize that journey, increasing the value realized by the customer, and maximizing your likelihood to maintain their loyalty and renew or expand their business opportunities. The course helps you prepare for the 820-605 Cisco Customer Success Manager (CSM) exam. By passing this exam, you earn the Cisco Customer Success Manager Specialist certification. | https://www.newhorizons.com/course-outline/courseid/300201264 |
| Cisco CyberVision Deployment and Operation (INCVDO) | 3.00 | $ 3,395.00 | INCVDO, Cisco Cyber Vision Deployment and Operation, is a 3-day instructor-led course. Security is every enterprise's top priority in today's connected world and keeping enterprise architecture secure will protect business values and outcomes. Thus, a critical element to the success of any network is ensuring and maintaining security – it's a need that is applicable to all networks and network devices, including those that power Cisco Internet of Things technologies and solutions. In an effort to simplify cybersecurity and increase device visibility within systems utilized by our IoT customers and partners, Cisco introduces Cisco Cyber Vision – a software cybersecurity solution for Operations Technology (OT). This course uses Cisco Validated Designs (CVD) to build a foundational understanding of the potential security threats impacting todays IoT Extended Enterprise and IT – OT integration using Cyber Vision. The goal of this course is to help the student understand the types of attacks, the types of targets and the tools available to protect the Industrial IoT architecture and to use Cyber Vision to keep the IoT infrastructure safe. Practical skills will be achieved using real-world scenarios and examples in a lab developed for such a purpose. Cisco Cyber Vision provides organizations the ability to gain visibility into industrial environments including full details of what assets are on the network, how those assets are communicating, and application level understanding of operational information. As a result, Cisco Cyber Vision provides views and capabilities, including integrations, that can be leveraged by security teams, IT infrastructure teams, and operational teams to ensure system integrity and protect against cyber risks. | https://www.newhorizons.com/course-outline/courseid/300040020 |
| Cisco Designing and Implementing Cloud Connectivity v1 (ENCC) | 4.00 | $ 3,295.00 | The Designing and Implementing Cloud Connectivity training helps you develop the skills required to design and implement enterprise cloud connectivity solutions. You will learn how to leverage both private and public internet-based connectivity to extend the enterprise network to cloud providers. You will explore the basic concepts surrounding public cloud infrastructure and how services like Software as a Service (SaaS) can be integrated. You will practice how to analyze and recommend connectivity models that provide the best quality of experience for users. You will learn to implement both Internet Protocol Security (IPsec) and Software-Defined Wide-Area Network (SD-WAN) cloud connectivity, as well as build overlay routing with Open Shortest Path First (OSPF) and Border Gateway Protocol (BGP). Finally, you will practice troubleshooting cloud connectivity issues relating to IPsec, SD-WAN, routing, application performance, and policy application. This training prepares you for the 300-440 ENCC exam. If passed, you can earn the Cisco Certified Specialist–Enterprise Cloud Connectivity certification and satisfy the concentration exam requirement for the Cisco Certified Network Professional (CCNP) Enterprise certification. This training also earns you 32 Continuing Education (CE) credits toward recertification. | https://www.newhorizons.com/course-outline/courseid/300201266 |
| Cisco Designing Cisco Data Center Infrastructure v7.1 (DCID) | 5.00 | $ 4,095.00 | The Designing Cisco Data Center Infrastructure (DCID) provides training on designing data centers using Cisco data centers solutions and technologies. Topics covered include network designs with virtualization technologies, Layer 2 and Layer 3 technologies and routing protocols, and data center interconnect design options. You'll learn design practices for the Cisco Unified Computing System™ (Cisco UCS®) solution based on Cisco UCS B-Series and C-Series servers, Cisco UCS Manager, and Cisco Unified Fabric, while gaining experience with network management technologies including Cisco UCS Manager, Cisco Data Center Network Manager (DCNM), and Cisco UCS Director. This training also earns you 40 Continuing Education (CE) credits towards recertification.  This training helps you prepare to take the exam:  300-610 Designing Cisco Data Center Infrastructure (DCID) | https://www.newhorizons.com/course-outline/courseid/300010049 |
| Cisco Designing Cisco Enterprise Networks v2 (ENSLD) | 5.00 | $ 4,095.00 | The Designing Cisco Enterprise Networks (ENSLD) training deepens your knowledge of designing enterprise networks. Topics covered include enterprise network design, including protocols and media for wired and wireless networks, SD-Access, VPN, Quality of Service (QoS), IPv6, and network programmability. This training earns you 40 Continuing Education (CE) credits towards recertification and helps prepare you to take the 300-420 Designing Cisco Enterprise Networks (ENSLD) exam, which is part of the CNP Enterprise, Cisco Certified Specialist - Enterprise Design certification. | https://www.newhorizons.com/course-outline/courseid/300201268 |
| Cisco Designing Cisco Enterprise Wireless Networks v2 (ENWLSD) | 5.00 | $ 4,295.00 | The Designing Cisco Enterprise Wireless Networks (ENWLSD) training introduces you to concepts you need to know when planning advanced designs of Cisco wireless products. The training covers design specifics from scenario design concepts, through the installation phase, and into post-deployment validation.   This training prepares you for the 300-425 ENWLSD exam. If passed, you earn the Cisco Enterprise Wireless Design Specialist certification and satisfy the concentration exam requirement for the CCNP Enterprise certification. This training also earns you 40 Continuing Education (CE) credits toward recertification. | https://www.newhorizons.com/course-outline/courseid/300040012 |
| Cisco Developing Applications and Automating Workflows Using Cisco Core Platforms v1.1 (DEVASC) | 5.00 | $ 4,495.00 | The Developing Applications and Automating Workflows Using Cisco Core Platforms (DEVASC) training helps you prepare for Cisco DevNet Associate certification and for associate-level network automation engineer roles. You will learn how to implement basic network applications using Cisco platforms as a base, and how to implement automation workflows across network, security, collaboration, and computing infrastructure. The course gives you hands-on experience solving real world problems using Cisco Application Programming Interfaces (APIs) and modern development tools.  This training helps you prepare to take the 200-901 DevNet Associate (DEVASC) exam. By passing this exam, you earn Cisco Certified DevNet Associate certification. Note: This class includes lecture sections and self-study sections. In the instructor-led classes, lectures are delivered in real-time. You will need to review self-study sections on your own before taking the certification exam. | https://www.newhorizons.com/course-outline/courseid/300040017 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Cisco Developing Applications Using Cisco Core Platforms and APIs v2 (DEVCOR) | 5.00 | $ 4,495.00 | The Developing Applications Using Cisco Core Platforms and APIs training is designed to help you prepare for the Cisco DevNet Professional certification and professional-level network automation engineer roles. The focus of this training is implementation of network applications using Cisco platforms as a base, from initial software design to diverse system integration, as well as testing and deployment automation. The training provides hands-on experience solving real world problems using Cisco Application Programming Interfaces (APIs) and modern development tools. This training prepares you for the 350-901 DEVCOR exam. If passed, you earn the Cisco Certified DevNet Specialist – Core certification and satisfy the core exam requirement for the Cisco Certified DevNet Professional and Cisco Certified DevNet Expert certifications. This training also earns you 64 Continuing Education (CE) credits toward recertification. | https://www.newhorizons.com/course-outline/courseid/300040018 |
| Cisco Engineering Cisco Meraki Solutions Part 2 v2 (ECMS2) | 3.00 | $ 2,795.00 | The course, Engineering Cisco Meraki Solutions Part 2 (ECMS2) v2.0 elevates your knowledge of Cisco® Meraki™ technology suite. In this advanced technical training course, you'll learn how to plan for network deployments and integrations using the Cisco Meraki platform. Through practical hands-on instruction and experiences, you will learn how to operate Meraki networks and troubleshoot complex network incidents using the Meraki Dashboard and analytics. You will also learn how to design Meraki architectures for redundancy, high-density, and scalability by implementing comprehensive Meraki product features to meet design objectives. This course is the second of two courses that prepares you for Cisco Meraki certification. | https://www.newhorizons.com/course-outline/courseid/300040028 |
| Cisco Implementing and Administering Cisco Solutions v2 (CCNA) | 5.00 | $ 4,195.00 | The Implementing and Administering Cisco Solutions (CCNA) v2.0 course gives you a broad range of fundamental knowledge for all IT careers. Through a combination of lecture, hands-on labs, and self-study, you will learn how to install, operate, configure, and verify basic IPv4 and IPv6 networks. The course covers configuring network components such as switches, routers, and wireless LAN controllers; managing network devices; and identifying basic security threats. The course also gives you a foundation in network programmability, automation, and software-defined networking. This course helps you prepare to take the 200-301 Cisco® Certified Network Associate (CCNA®) exam. By passing this one exam, you earn the CCNA certification. The course qualifies for 30 Cisco Continuing Education Credits (CE) towards recertification. | https://www.newhorizons.com/course-outline/courseid/300200948 |
| Cisco Implementing and Administering Cisco Solutions with Virtual Reality v2.0. (CCNAVR (CCNA v2.0 + VR)) | 5.00 | $ 4,195.00 | Implementing and Administering Cisco Solutions with Virtual Reality (CCNAVR) v2.0 is a robust 5-day blended class that teaches learners how to install, operate, configure, and verify IPv4 and IPv6 networks, leveraging Virtual Reality technology as part of the learning medium. Students will learn to configure the network components, such as switches, routers, and Wireless LAN Controllers; managing network devices, and identifying basic security threats. Learners will also gain experience by participating in virtual classrooms lectures about selected topics and hands-on experience with racking and connecting Cisco routing and switching devices in a virtual environment. Today's networking professional job roles are changing more than ever, thus, the new CCNA will now cover wireless, overview of SD-WAN, DNA Center and Security threats. The goal of the course is to provide learners with the knowledge and skills that are necessary to install, configure, and operate a small to medium-sized network. Practical skills will be achieved using real-world scenarios and examples in a traditional lab as well as a state-of-the-art virtual reality environment. A VR headset will be sent to be used for the duration of the class and will include a return label. If you would like to purchase the VR headset it can be added for an additional fee. | https://www.newhorizons.com/course-outline/courseid/300040048 |
| Cisco Implementing and Administering DNA Center for Assurance v2.0 (IADNACA) | 5.00 | $ 4,495.00 | The need for intent-based networking is growing as more segments of the business depend on reliable, secure digital networks. Cisco DNA Center provides a centralized management dashboard for complete control of this new network. Full automation capabilities for provisioning and change management are enhanced with intelligent analytics that pull telemetry data from everywhere in the network. Applications, services, and users are prioritized based on business goals, within policy parameters and security best practices. Shortcomings in network, application, or device performance are flagged, and instant remediation guidance saves hours of IT troubleshooting. This interconnection of automation and assurance forms a continuous validation-and-verification loop, checking alignment of network operation with business intent. Cisco DNA Center is an open, extensible platform for streamlining IT workflows and greater business innovation. Cisco DNA Assurance, which is the main component of Cisco DNA Center covered by this training, provides a comprehensive solution to assure better and consistent service levels to meet growing business demands. Assurance addresses not just reactive network monitoring and troubleshooting, but also the proactive and predictive aspects of running the network, ensuring client, application, and service performance. Assurance is a multipurpose, real-time, network data collection and analytics engine that can significantly increase the business potential of network data. The course qualifies for 30 Cisco Continuing Education Credits (CE). | https://www.newhorizons.com/course-outline/courseid/300200934 |
| Cisco Implementing and Operating Cisco Collaboration Core Technologies v1.3 (CLCOR) | 5.00 | $ 4,295.00 | The Implementing and Operating Cisco Collaboration Core Technologies (CLCOR) training provides you with the knowledge and skills to deploy, configure and troubleshoot core collaboration and networking technologies. Topics include infrastructure design protocols, codecs, and endpoints, Cisco Internetwork Operating System (IOS) XE gateway and media resources, call control, and Quality of Service (QoS). This training also earns you 64 Continuing Education (CE) credits towards recertification. This training helps prepare you to take the exam: 350-801 Implementing Cisco Collaboration Core Technologies (CLCOR) | https://www.newhorizons.com/course-outline/courseid/300010002 |
| Cisco Implementing and Operating Cisco Data Center Core Technologies v1.2 (DCCOR) | 5.00 | $ 4,595.00 | The Implementing and Operating Cisco Data Center Core Technologies (DCCOR) v1.2 course helps you prepare for the Cisco® CCNP® Data Center and CCIE® Data Center certifications for advanced-level data center roles. In this course, you will master the skills and technologies you need to implement data center compute, LAN and SAN infrastructure. You will also learn the essentials of automation and security in data centers. You will gain hands-on experience deploying, securing, operating, and maintaining Cisco data center infrastructure including: Cisco MDS Switches and Cisco Nexus Switches; Cisco Unified Computing System™ (Cisco UCS®) B-Series Blade Servers, and Cisco UCS C-Series Rack Servers. This course also earns you 64 Continuing Education (CE) credits towards recertification. This course, including the self-paced material prepares you to take the exam: 350-601 Implementing Cisco Data Center Core Technologies (DCCOR) | https://www.newhorizons.com/course-outline/courseid/300010006 |
| Cisco Implementing and Operating Cisco Enterprise Network Core Technologies v1.3 (ENCOR) | 5.00 | $ 4,295.00 | The Implementing and Operating Cisco Enterprise Network Core Technologies (ENCOR) v1.3 training gives you the knowledge and skills needed to install, configure, operate, and troubleshoot an enterprise network and introduces you to overlay network design by using SD-Access and SD-WAN solutions. You'll also learn to understand and implement security principles and automation and programmability within an enterprise network. This course also prepares you for the 350-401 Implementing Cisco Enterprise Network Core Technologies (ENCOR) exam. | https://www.newhorizons.com/course-outline/courseid/200012918 |
| Cisco Implementing and Operating Cisco Service Provider Network Core Technologies v1.1 (SPCOR) | 5.00 | $ 4,295.00 | The Implementing and Operating Cisco Service Provider Network Core Technologies (SPCOR) course teaches you how to configure, verify, troubleshoot, and optimize next-generation, Service Provider IP network infrastructures. It provides a deep dive into Service Provider technologies including core architecture, services, networking, automation, quality of services, security, and network assurance. This course also helps you prepare to take the 350-501 Implementing and Operating Cisco®Service Provider Network Core Technologies (SPCOR) exam, which is part of the new CCNP® Service Provider certification and the Cisco Certified Specialist–Service Provider Core certification. This course also earns you 64 Continuing Education (CE) credits towards recertification. | https://www.newhorizons.com/course-outline/courseid/300201285 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Cisco Implementing Automation for Cisco Data Center Solutions v1.2 (DCAUI) | 3.00 | $ 2,995.00 | The Implementing Automation for Cisco Data Center Solutions (DCAUI) training shows you how to implement Cisco Data Center automated solutions, including programming concepts, orchestration, and automation tools. The goal of this 3-day training is to highlight the tools and benefits of leveraging programmability and automation in the Cisco-powered Data Center. Examined platforms include Cisco ACI (the controller-based Data Center environment), Cisco NX-OS on all Cisco Nexus platforms for device-centric automation, and Cisco UCS for Data Center compute. Their current ecosystem of APIs, software development toolkits, and relevant workflows is inspected in detail together with open industry standards, tools, and APIs, such as Python, Ansible, Git, JSON/YAML, NETCONF/RESTCONF, and YANG. This training prepares you for the 300-635 Automating and Programming Cisco Data Center Solutions (DCAUTO) certification exam. Introducing Automation for Cisco Solutions (CSAU) is required prior to enrolling in Implementing Automation for Cisco Data Center Solutions (DCAUI) because it provides crucial foundational knowledge essential to success. This training also earns you 24 Continuing Education (CE) credits towards recertification. | https://www.newhorizons.com/course-outline/courseid/300201262 |
| Cisco Implementing Automation for Cisco Enterprise Solutions v1.2 (ENAUI) | 3.00 | $ 2,995.00 | The Implementing Automation for Cisco Enterprise Solutions (ENAUI) v.1.2 course teaches you how to implement Cisco Enterprise automated solutions, including programming concepts, orchestration, telemetry, and automation tools.  This course highlights the tools and the benefits of leveraging programmability and automation in the Cisco-powered Enterprise Campus and WAN. You will also examine platforms including IOS XE software for device-centric automation, Cisco DNA Center for the intent-based enterprise network, Cisco Software-Defined WAN, and Cisco Meraki. Their current ecosystem of APIs, software development toolkits, and relevant workflows are studied in detail together with open industry standards, tools, and APIs, such as Python, Ansible, Git, JSON/YAML, NETCONF/RESTCONF, and YANG. | https://www.newhorizons.com/course-outline/courseid/300040031 |
| Cisco Implementing Automation for Cisco Security Solutions v1 (SAUI) | 3.00 | $ 2,895.00 | The Implementing Automation for Cisco Security Solutions (SAUI) v1.0 course teaches you how to design advanced automated security solutions for your network. Through a combination of lessons and hands-on labs, you will master the use of modern programming concepts, RESTful Application Program Interfaces (APIs), data models, protocols, firewalls, web, Domain Name System (DNS), cloud, email security, and Cisco® Identity Services Engine (ISE) to strengthen cybersecurity for your web services, network, and devices. You will learn to work within the following platforms: Cisco Firepower® Management Center, Cisco Firepower Threat Defense, Cisco ISE, Cisco pxGrid, Cisco Stealthwatch® Enterprise, Cisco Stealthwatch Cloud, Cisco Umbrella®, Cisco Advanced Malware Protection (AMP), Cisco Threat grid, and Cisco Security Management Appliances. This course will teach you when to use the API for each Cisco security solution to drive network efficiency and reduce complexity. This course prepares you for 300-735 Automating and Programming Cisco Security Solutions (SAUTO) certification exam. Introducing Automation for Cisco Solutions (CSAU) is required prior to enrolling in Implementing Automation for Cisco Security Solutions (SAUI) because it provides crucial foundational knowledge essential to success. This course also earns you 24 Continuing Education (CE) credits towards recertification. | https://www.newhorizons.com/course-outline/courseid/300201278 |
| Cisco Implementing Automation for Cisco Service Provider Solutions v1 (SPAUI) | 3.00 | $ 2,995.00 | The Implementing Automation for Cisco Service Provider Solutions (SPAUI) v1.0 course prepares you to implement and support automation solutions in a Service Provider network infrastructure, using network programmability principles, protocols, tools, and mechanisms. Through a combination of lessons and hands-on labs, you will learn to deploy, configure, monitor, and operate Service Provider network environments using modern data models. These models allow you to represent operational data and new network management protocols in order to administer hundreds or thousands of devices in a single operation, replacing traditional, time-consuming, error prone, device-by-device Command Line Interface (CLI) management. The course also introduces powerful automation solutions that can streamline network operations. This course covers Yet Another Next Generation (YANG) data models and validation tools, Representational State Transfer Configuration Protocol RESTCONF and Network Configuration Protocol (NETCONF) management protocols, model-driven telemetry with Google Remote Procedure Call (gRPC) and Google Network Management Interface (gNMI), traffic automation with XR Transport Control (XTC), Secure Shell (SSH)-based automation tools like NetMiko and Ansible, orchestration provided by Network Services Orchestration (NSO), Network Function Virtualization (NFV) lifecycle management with Elastic Services Controller (ESC), and network operations automation with WAN Automation Engine (WAE). This course prepares you for the 300-535 Automating and Programming Cisco® Service Provider Solutions (SPAUTO) exam. Introducing Automation for Cisco Solutions (CSAU) is required prior to enrolling in Implementing Automation for Cisco Service Provider Solutions (SPAUI) because it provides crucial foundational knowledge essential to success. This course also earns you 24 Continuing Education (CE) credits towards recertification. | https://www.newhorizons.com/course-outline/courseid/300201284 |
| Cisco Implementing Cisco Advanced Call Control and Mobility Services v1.1 (CLACCM) | 5.00 | $ 4,195.00 | The Implementing Cisco Advanced Call Control and Mobility Services (CLACCM) training provides you with knowledge about advanced call control and mobility services, focusing on Cisco Unified Communications Manager features such as Globalized Call Routing, Global Dial Plan Replication, Cisco Unified Mobility, Cisco Extension Mobility, SIP URI call routing, Call Admission Control, Cisco Unified Communications Manager Express and SRST gateway technologies, Cisco Unified Border Element Call deployments, signaling and media protocols, and features such as call coverage and time of day routing.  This training prepares you for the 300-815 CLACCM exam. If passed, you earn the Cisco Collaboration Specialist – Collaboration Call Control and Mobility Implementation certification and you satisfy the concentration exam requirement for the Cisco Certified Network Professional (CCNP) Collaboration certification. This training also earns you 40 Continuing Education (CE) credits toward recertification. | https://www.newhorizons.com/course-outline/courseid/300010038 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Cisco Implementing Cisco Application Centric Infrastructure - Advanced v1.2 (DCACIA) | 5.00 | $ 4,495.00 | The Implementing Cisco Application Centric Infrastructure--Advanced (DCACIA) training shows you how to integrate the capabilities of the Cisco Nexus 9000 Series Switches in Cisco Application Centric Infrastructure (Cisco ACI) mode. You will learn how to configure and manage Cisco Nexus 9000 Series Switches in ACI mode providing enhanced management and policy framework, along with the protocols used in the underlying fabric. The course also covers how to use Cisco ACI as a policy-driven solution that integrates software and hardware, and how to implement Cisco ACI Multi-Pod and Multi-Site deployments. You will gain hands-on practice implementing advanced ACI capabilities such as Rogue Endpoint Feature, Transit Routing, VRF Route Leaking, Contracts and Zoning Rules, Policy Based Redirect to Layer 4–7 Service Node, Multi-Pod Fabric and Cisco ACIMulti-Site Orchestrator. This course also earns you 40 Continuing Education (CE) credits toward recertification. | https://www.newhorizons.com/course-outline/courseid/300201258 |
| Cisco Implementing Cisco Application Centric Infrastructure v1.2 (DCACI) | 5.00 | $ 4,595.00 | The Implementing Cisco Application Centric Infrastructure (DCACI) training introduces you to the implementation and management of the Cisco Nexus 9000 Series Switches in Cisco Application Centric Infrastructure (ACI) mode. The 5-day lab-intensive training covers the key components and procedures you need to know to understand, configure, and manage Cisco Nexus 9000 Series Switches in ACI mode, how to connect the Cisco ACI fabric to external networks and services, and fundamentals of Virtual Machine Manager (VMM) integration.  This training prepares you for the 300-620 DCACI exam, which certifies your knowledge of working with Cisco switches in ACI mode including configuration, implementation, and management. After you pass 300-620 DCACI, you earn the Cisco Certified Specialist – Data Center ACI Implementation certification and you satisfy the concentration exam requirement for the CCNP Data Center certification. This training also earns you 40 Continuing Education (CE) credits toward recertification. | https://www.newhorizons.com/course-outline/courseid/300010004 |
| Cisco Implementing Cisco Application Centric Infrastructure with Virtual Reality. (DCACIVR (DCACI v1.1 + VR)) | 5.00 | $ 4,595.00 | This hands-on lab, virtual reality-enabled course immerses learners to ACI (Application Centric Infrastructure) in its latest 5.x release and discusses architecture, functionality, and new features for EN, Service Provider, Multi-cloud, 5G, and IoT. Learners will examine how ACI is implemented greenfield and in parallel with traditional networks. You will also learn to analyze and leverage metrics to demonstrate and recognize the value of operational efficiency at scale.   A VR headset will be sent to be used for the duration of the class and will include a return label. If you would like to purchase the VR headset it can be added for an additional fee. | https://www.newhorizons.com/course-outline/courseid/300040050 |
| Cisco Implementing Cisco Catalyst 9000 Switches v4 (ENC9K) | 3.00 | $ 2,995.00 | The Implementing Cisco Catalyst 9000 Series Switches (ENC9K) v4.0 course provides you with insight into Cisco Catalyst 9000 Series Switches and its solution components. You will learn about the architecture, capabilities, positioning, and implementation of the Cisco Catalyst 9000 Series switches, as well as the management of the switches using CLI, Cisco DNA Center, and IOS-XE web user GUI. Additionally, you will be introduced to security, cloud, automation, and other important features of Cisco Catalyst 9000 Series switches. | https://www.newhorizons.com/course-outline/courseid/300201265 |
| Cisco Implementing Cisco Collaboration Applications v1.2 (CLICA) | 5.00 | $ 4,295.00 | The Implementing Cisco Collaboration Applications (CLICA) training teaches you the knowledge and skills to configure and troubleshoot Single Sign-On (SSO), Cisco Unity Connection and Cisco Unity Express, and Application clients. Topics covered include streamlining communication procedures, strengthening compliance measures, and enhancing communication systems and devices. This course also earns you 40 Continuing Education (CE) credits towards recertification. The 300-810 CLICA exam certifies your knowledge and skills related to collaboration applications, including SSO, Cisco Unified IM and Presence, Cisco Unity Connection, Cisco Unity Express, and application clients.  After you pass 300-810 CLICA, you earn the Cisco Certified Specialist - Collaboration Applications Implementation certification, and you satisfy the concentration exam requirement for the CCNP® Collaboration certification. | https://www.newhorizons.com/course-outline/courseid/300010039 |
| Cisco Implementing Cisco Collaboration Cloud and Edge Solutions v1.2 (CLCEI) | 5.00 | $ 4,295.00 | The Implementing Cisco Collaboration Cloud and Edge Solutions (CLCEI) training provides you with an understanding of Cisco Expressway Series solutions, such as B2B calls, Cisco Mobile and Remote Access for remote workers, authentication options, and additional Cisco Expressway Series features. Topics covered also include details about the Webex solutions, and the benefits of hybrid integrations between Cisco on-premises solutions and Webex Meetings in the cloud. This training also earns you 40 Continuing Education (CE) credits towards recertification. This training helps prepare you to take the exam: 300-820 Implementing Cisco Collaboration Cloud and Edge Solutions (CLCEI) | https://www.newhorizons.com/course-outline/courseid/300010001 |
| Cisco Implementing Cisco Collaboration Conferencing v1.1 (CLCNF) | 5.00 | $ 4,295.00 | The Implementing Cisco Collaboration Conferencing (CLCNF) v1. course focuses on Cisco on-premises conferencing architecture and solutions. You will gain knowledge and skills to design and implement common conferencing deployment scenarios of Cisco Meeting Server, its integration with call control features such as Cisco Unified Communications Manager and Cisco Expressway, and other Cisco collaboration conferencing devices.  This course offers lessons and hands-on labs to prepare you for the 300-825 Implementing Cisco Collaboration Conferencing (CLCNF) exam. | https://www.newhorizons.com/course-outline/courseid/300040032 |
| Cisco Implementing Cisco Contact Center Enterprise Chat and Email v1 (CCECE) | 4.00 | $ 3,595.00 | The Implementing Cisco Contact Center Enterprise Chat and Email (CCECE) v1.0 course prepares you to deploy Cisco® Enterprise Chat and Email (ECE) into an existing Enterprise Contact Center environment, as well as provides you the knowledge necessary to configure both Cisco Packaged Contact Center Enterprise and ECE environments for integration. | https://www.newhorizons.com/course-outline/courseid/300201254 |
| Cisco Implementing Cisco Contact Center Enterprise v1 (CCEI) | 3.00 | $ 2,695.00 | The Implementing Cisco Contact Center Enterprise (CCEI) v1.0 course teaches you how to build and implement a Cisco® Packaged Contact Center Enterprise (PCCE) solution, including advanced integration of external data, Single Sign-On (SSO), and process detail for the Contact Center Enterprise (CCE) solution with examples of the various deployment models. This integration process enables businesses and organizations to deliver a connected digital experience of continuous and capability-rich journeys for your customers, across time and channels. This course teaches you to install the CCE solution and provide Tier 2–3 solution support. The focus is on Day 1 support for a new CCE deployment. | https://www.newhorizons.com/course-outline/courseid/300201255 |
| Cisco Implementing Cisco Converged SDN Transport Solution v1 (SPSDNTXP) | 4.00 | $ 3,595.00 | The Implementing Converged SDN Transport Solutions (SPSDNTXP) v1.0 course introduces you to Software-Defined Networking (SDN)-ready architecture. This architecture evolves traditional Metro network design into an SDN-enabled programmable network capable of delivering all services (residential, business, 5G mobile backhauling, video, and IoT) on the premise of simplicity, full programmability, and cloud integration with guaranteed service level agreements (SLAs). You will examine the evolution of service provider design principles such as Unified Multiprotocol Label Switching, Evolved Programmable Networks, and the Cisco® Compass Metro Fabric. Additionally, you'll explore and configure individual components of the design including segment routing and its supporting features. | https://www.newhorizons.com/course-outline/courseid/300201289 |
| Cisco Implementing Cisco Enterprise Advanced Routing and Services v1 (ENARSI) | 5.00 | $ 4,295.00 | The Implementing Cisco Enterprise Advanced Routing and Services (ENARSI) v1.0 gives you the knowledge you need to install, configure, operate, and troubleshoot an enterprise network. This course covers advanced routing and infrastructure technologies, expanding on the topics covered in the Implementing and Operating Cisco Enterprise Network Core Technologies (ENCOR)v1.0 course.  This course helps prepare you to take the exam, 300-410 Implementing Cisco Enterprise Advanced Routing and Services (ENARSI), which leads to the new CCNP Enterprise and Cisco Certified Specialist–Enterprise Advanced Infrastructure Implementation certifications. | https://www.newhorizons.com/course-outline/courseid/200012826 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Cisco Implementing Cisco Enterprise SD-Branch v1 (ENSDBI) | 2.00 | $ 1,995.00 | The Implementing Cisco Enterprise SD-Branch (ENSDBI) v1.0 course is designed to teach you to understand the Cisco® Software-Defined (SD)-Branch architecture and Cisco Enterprise Network Functions Virtualization (ENFV) solution. Through a series of in-person or e-learning lectures and labs, you will learn about the supported hardware platforms with a focus on the components, installation, and upgraded workflows of the Cisco Enterprise Network Compute System (ENCS) 5400 series. Additionally, this course will help you build your skills on Virtual Network Functions (VNF) deployment and orchestration solutions on Cisco ENCS. | https://www.newhorizons.com/course-outline/courseid/300201267 |
| Cisco Implementing Cisco Enterprise Wireless Networks v2 (ENWLSI) | 5.00 | $ 4,295.00 | The Implementing Cisco Enterprise Wireless Networks (ENWLSI) training helps you implement network settings to provide a secure wireless network infrastructure and troubleshoot any related issues. The goal of this 5-day instructor-led training is to prepare you to secure and implement the wireless infrastructure, and use Cisco Identity Service Engine (ISE), Cisco Prime Infrastructure (PI), Cisco DNA Center, Cisco Spaces, and Cisco Connect Mobile Experience to monitor and troubleshoot network issues. This training provides you with hands-on labs to reinforce concepts including deploying Cisco Catalyst 9800 Wireless Controller Release IOS XE Bengaluru 17.6.3, Cisco Digital Network Architecture (DNA) Center Release 2.3.3, Cisco Prime Infrastructure Release 3.5, Cisco Spaces, Cisco CMX Release 10.5, features, and Cisco Identity Services Engine (ISE) Release 3.0.  This training prepares you for the 300-430 ENWLSI: Implementing Cisco Enterprise Wireless Networks exam. If passed, you earn the Cisco Certified Specialist – Enterprise Wireless Implementation certification and satisfy the concentration exam requirement for the CCNP Enterprise certification. This training also earns you 40 Continuing Education (CE) credits toward recertification. | https://www.newhorizons.com/course-outline/courseid/300010014 |
| Cisco Implementing Cisco Multicast v2 (MCAST) | 5.00 | $ 4,295.00 | The Implementing Cisco Multicast (MCAST) v2.0 course teaches you the fundamentals of IP multicasting, including multicast applications, sources, receivers, group management, and IP multicast routing protocols such as Protocol Independent Multicast (PIM) used within a single administrative domain. You will learn about issues in switched LAN environments and reliable IP multicasting, and technical solutions for simple deployments of IP multicast within a provider or customer network. The course reviews the configuration and troubleshooting guidelines for implementation of IP multicast on Cisco® routers. Labs offer hands-on experience to help you prepare to deploy IP multicast successfully. | https://www.newhorizons.com/course-outline/courseid/300201271 |
| Cisco Implementing Cisco Nexus 9000 Switches in NX-OS Mode - Advanced v1 (DCNXA) | 4.00 | $ 3,995.00 | The Implementing Cisco Nexus 9000 Switches in NX-OS Mode–Advanced (DCNXA) v1.0 course provides advanced training in applying and managing the Cisco Nexus® 9000 Series Switches in NX-OS mode. The Cisco® NX-OS platform deploys Virtual Extensible LAN (VXLAN) and Ethernet VPN (EVPN) using Cisco Data Center Network Manager (DCNM), implements Multi-Site VXLAN EVPN, and integrates L4-L7 services into the fabric providing external connectivity, utilizing advanced tenant features. You will also learn how to implement Cisco NX-OS Enhanced Policy-Based Redirect (ePBR) and Intelligent Traffic Director (ITD) features. | https://www.newhorizons.com/course-outline/courseid/300201263 |
| Cisco Implementing Cisco Quality of Service v3 (QoS) | 5.00 | $ 4,295.00 | The Implementing Cisco Quality of Service (QoS) training provides you with in-depth knowledge of QoS requirements, conceptual models such as best effort, IntServ, and DiffServ, and the implementation of QoS on Cisco platforms. The training covers the theory of QoS, design issues, and configuration of various QoS mechanisms to facilitate the creation of effective administrative policies providing QoS. The training also gives you design and usage rules for advanced QoS features. This gives you the opportunity to design and implement efficient, optimal, and trouble-free multiservice networks. The new version of the training also includes QoS for modern wireless networks and software-defined networks. This training earns you 40 Continuing Education (CE) credits toward recertification. | https://www.newhorizons.com/course-outline/courseid/300201277 |
| Cisco Implementing Cisco SD-WAN Security and Cloud Solutions v1.1 (SDWSCS) | 3.00 | $ 2,895.00 | The Implementing Cisco SD-WAN Security and Cloud Solutions (SDWSCS) v1.1 course is an advanced training course focused on Cisco SD-WAN security and cloud services. Through a series of labs and lectures you will learn about on-box security services, including application-aware enterprise firewall, intrusion prevention, URL filtering, malware protection, and Transport Layer Security (TLS) or Secure Socket Layer (SSL) decryption. You will also learn about cloud integration with multiple cloud service providers across multiple use cases. Additionally, the course labs will allow you to configure and deploy local security services and cloud security services with the Cisco Umbrella Secure Internet Gateway (SIG), as well as integrate the Cisco SD-WAN fabric with a cloud service provider using the Cisco vManage automated workflows. | https://www.newhorizons.com/course-outline/courseid/300201280 |
| Cisco Implementing Cisco SD-WAN Solutions v3 (ENSDWI) | 5.00 | $ 4,295.00 | The Implementing Cisco SD-WAN Solutions (ENSDWI) training helps you design, deploy, configure, and manage the Cisco Software-Defined WAN (SD-WAN) solution in a large-scale network, including how to migrate from legacy WAN to Cisco SD-WAN. You will learn best practices for configuring routing protocols in the data center and the branch, and how to implement advanced control, data, and application-aware policies. This training also covers Cisco SD-WAN deployment and migration options, placement of controllers, how to deploy WAN Edge devices, multicast and quality of service (QoS), how to configure Direct Internet Access (DIA) breakout, and how to deploy a Multi-Region Cisco SD-WAN fabric. You will also learn about the various Application Quality of Experience (AppQoE) traffic optimization capabilities. Finally, the training looks at the different Cisco SD-WAN security options available. This course helps you prepare to take the Implementing Cisco SD-WAN Solutions (300-415 ENSDWI) exam which is part of the CCNP® Enterprise certification. | https://www.newhorizons.com/course-outline/courseid/300040034 |
| Cisco Implementing Cisco Service Provider Advanced Routing Solutions v1.1 (SPRI) | 5.00 | $ 4,295.00 | The Implementing Cisco Service Provider Advanced Routing Solutions (SPRI) course teaches you theories and practices to integrate advanced routing technologies including routing protocols, multicast routing, policy language, Multiprotocol Label Switching (MPLS), and segment routing, expanding your knowledge and skills in service provider core networks. This course prepares you for the 300-510 Implementing Cisco® Service Provider Advanced Routing Solutions (SPRI) exam. This course also earns you 40 Continuing Education (CE) credits towards recertification. | https://www.newhorizons.com/course-outline/courseid/300201288 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Cisco Implementing Cisco Service Provider VPN Services v1 (SPVI) | 5.00 | $ 4,295.00 | The Implementing Cisco Service Provider VPN Services (SPVI) v1.0 course prepares you to manage end-customer Virtual Private Network (VPN) environments built over a common service provider Multiprotocol Label Switching (MPLS) backbone. You will complete hands-on labs to reinforce MPLS VPN fundamental concepts, benefits, and classification, MPLS components, MPLS control plane and data plane operations, MPLS VPN routing using Virtual Routing and Forwarding (VRF), Layer 2 and Layer 3 MPLS VPNs, IPv6 MPLS VPN implementations, IP Multicast VPNs, and shared services VPNs. The course also covers solutions for deploying MPLS VPN crossing multiple Service Provider domains that improve the use of network bandwidth. This course prepares you for the 300-515 Implementing Cisco®Service Provider VPN Services (SPVI) exam. By passing this exam, you earn the Cisco Certified Specialist - Service Provider VPN Services Implementation certification, and you satisfy the concentration exam requirement for the CCNP®Service Provider certification. This course also earns you 40 Continuing Education (CE) credits towards recertification. | https://www.newhorizons.com/course-outline/courseid/300201290 |
| Cisco Implementing Cisco Unified Communications Security v1 (UCSEC) | 5.00 | $ 4,295.00 | Implementing Cisco Unified Communications Security (UCSEC) v1.0 is a new 5-day ILT class designed to provide students with the necessary knowledge and skills to implement security features in a Cisco Unified Communications environment. Cisco Unified Communications support several features and mechanisms to secure voice signaling and communications and to mitigate attacks against Cisco Unified Communications networks. The Implementing Cisco Unified Communications Security (UCSEC) v1.0 course introduces security mechanisms and describes different implementation scenarios that increase the security level of Cisco Unified Communications networks. | https://www.newhorizons.com/course-outline/courseid/300201296 |
| Cisco Implementing Segment Routing on Cisco IOS XR v2 (SEGRTE201) | 4.00 | $ 3,995.00 | The Implementing Segment Routing on Cisco IOS XR (SEGRTE201) v2.0 course covers the fundamental concepts of segment routing (SR), how to configure and verify segment routing within an Interior Gateway Protocol (IGP), and the interworking of Label Distribution Protocol (LDP) with segment routing. You will learn how to implement topology-independent loop-free alternate (TI-LFA) using segment routing, and how to instantiate and verify segment routing traffic engineering policies. You will also learn how to implement segment routing within Border Gateway Protocol (BGP). | https://www.newhorizons.com/course-outline/courseid/300201281 |
| Cisco Implementing the Cisco NCS540 Series Routers v1 (NCS540HWE) | 5.00 | $ 4,395.00 | Implementing the Cisco NCS540 Series Routers training is designed for network professionals to learn how to deploy Cisco NCS 540 Series routers in their network environment. Topics covered include understanding the features and functions of the Cisco NCS 540 Series platforms, system architecture, services implementation, Quality of Service (QoS), and system security, along with the utilization of model-driven telemetry and programmability. | https://www.newhorizons.com/course-outline/courseid/300201272 |
| Cisco Integrating Multi-domain Solutions with SD-Access, ACI, and SD-WAN (DNADDC) | 5.00 | $ 3,595.00 | DNADDC is a 5-day course designed for Channel partners and Integrators that covers SD-Access, ACI, and SD-WAN fabric deployments and integration. The integration covers the policy plane synchronization between Cisco ISE, DNAC, Cisco APIC, and vManage controllers. This allows for seamless Secure Group Tags (SGTs) to End Point Groups (EPG) mapping, thereby stretching the micro-segmentation from the user all the way to the hosted application. Along with the inbuilt macro-segmentation, the course also walks through end-to-end micro-segmentation across WAN sites by leveraging the Cisco Trustsec Secure Group Tags (SGTs). The resulting SDA fabric can then be stretched across remote WAN sites. | https://www.newhorizons.com/course-outline/courseid/300040044 |
| Cisco Intersight UCS and Hyperflex Programmability and Orchestration | 2.00 | $ 3,395.00 | INTPRO is a 2-day course is for users that want to begin using programmability with Cisco Intersight to enhance the management and operation of their Cisco UCS and HyperFlex infrastructure. This training will demonstrate how programmability on Cisco compute platforms has evolved and how Cisco Intersight always-on cloud-based management can simplify UCS infrastructure management on a global scale by leveraging the Intersight Open API and developer tools. | https://www.newhorizons.com/course-outline/courseid/300040045 |
| Cisco Introducing Automation for Cisco Solutions v1.1 (CSAU) | 3.00 | $ 2,895.00 | The Introducing Automation for Cisco Solutions (CSAU) v1.1 course gives you a broad overview of network automation skills. Through a combination of lecture and hands-on labs, you will learn the fundamentals of automation such as working on model-driven programmability solutions with Representational State Transfer Configuration Protocol (RESTCONF) and Network Configuration Protocol (NETCONF) protocols. The course also covers data formats and types, including Extensible Markup Language (XML), JavaScript Object Notation (JSON), Yaml Ain't Markup Language (YAML), and Yet Another Next Generation (YANG), and their value in network automation, along with DevOps tools such as Ansible and Git. This course is a requirement prior to enrolling in professional level automation courses and exams because it provides crucial foundational knowledge essential to success. | https://www.newhorizons.com/course-outline/courseid/300201257 |
| Cisco Introduction to 802.1X Operations for Cisco Security Professionals v1 (802.1X) | 3.00 | $ 1,995.00 | The Introduction to 802.1X Operations for Cisco Security Professionals (802.1X) v1.0 shows you how to configure and prepare to deploy Cisco® Identity-Based Networking Services (IBNS) solutions based on Cisco Identity Services Engine (ISE), Cisco Catalyst switches, and Cisco Wireless LAN Controllers. You will learn the fundamentals of the 802.1X protocol and configuration. | https://www.newhorizons.com/course-outline/courseid/300201251 |
| Cisco Introduction to Artificial Intelligence (CIAI) | 2.00 | $ 2,495.00 | In this 2-day course, Cisco Introduction to Artificial Intelligence (CIAI) v1.0, we will introduce the learner to the Artificial Intelligence, Machine Learning, and Deep Learning essentials in addition to compute platforms such as Cisco UCS, through a combination of lecture and hands-on labs. Artificial Intelligence (AI) and Machine Learning (ML) are opening up new ways for enterprises to solve complex problems, but they will also have a profound effect on the underlying infrastructure and processes of IT. AI/ML is a dominant trend in the enterprise with the ubiquity of large amounts of observed data, the rise of distributed computing frameworks and the prevalence of large hardware-accelerated computing infrastructure became essential. | https://www.newhorizons.com/course-outline/courseid/300040001 |
| Cisco Introduction to Cisco IOS XR v2.1 (IOSXR100) | 4.00 | $ 3,495.00 | The Introduction to Cisco IOS XR (IOSXR100) v2.1 course introduces you to the features and functions of the Cisco® Internetwork Operating System (Cisco IOS®) XR Software operating system. You learn the fundamental concepts on which the operating system is based and Cisco IOS XR basic operations, system administration, and troubleshooting. Through a combination of lecture and hands-on lab exercises, you gain an understanding of all major aspects of the operating system, including the architecture, high-availability components, scalability features, configuration basics, basic software operations, configuration file overview, Authentication, Authorization, and Accounting (AAA) services, Network Time Protocol (NTP) configuration, packet filtering, and management plane protection. You also learn how to monitor the Cisco IOS XR operating system, and how to work with error messages and core dumps. | https://www.newhorizons.com/course-outline/courseid/300201269 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Cisco IOS XR Software Essentials v1 (IOSXRE) | 4.00 | $ 3,595.00 | The Cisco IOS XR Software Essentials (IOSXRE) training introduces you to the essential features and functions of the Cisco IOS XR Software operating system that powers many Cisco products. Through a combination of lectures and hands-on lab exercises, you will gain an understanding of all major aspects of the operating system including the architecture, installation and upgrade, automatic provisioning, and using the software command-line interface (CLI). You will also learn how to implement essential software services including system security, logging, timing and synchronization, AAA services, and how to use modular QoS. In addition, you will learn how to implement basic routing and forwarding using Multiprotocol Label Switching (MPLS). Finally, you will learn how to implement and use programmability and monitoring features including Simple Network Management Protocol (SNMP), telemetry, process monitoring, and IOS XR programmability. This training also earns you 24 Continuing Education (CE) credits toward recertification. | https://www.newhorizons.com/course-outline/courseid/300201270 |
| Cisco IPv6 Fundamentals, Design, and Deployment v4 (IP6FD) | 5.00 | $ 4,295.00 | The IPv6 Fundamentals, Design, and Deployment (IP6FD) is a five-day training that provides individuals with the knowledge and skills needed to implement and configure the IP version 6 (IPv6) features of Cisco IOS Software. The training also provides an overview of IPv6 technologies; covers IPv6 design and implementation; describes IPv6 operations, addressing, routing, services, and transition; and describes deployment of IPv6 in enterprise networks as well as in service provider networks. The training also includes case studies that are useful for deployment scenarios and remote labs. This training also earns you 40 Continuing Education (CE) credits toward recertification. | https://www.newhorizons.com/course-outline/courseid/300010045 |
| Cisco Leveraging Cisco Intent-Based Networking DNA Assurance v2.1 (DNAAS) | 2.00 | $ 1,995.00 | The Leveraging Cisco Intent-Based Networking DNA Assurance (DNAAS) v2.1 course provides you with the skills to monitor and troubleshoot a traditional brownfield network infrastructure using Cisco Digital Network Architecture (Cisco DNA) Assurance. The course focuses on highlighting issues rather than on monitoring data. The advanced artificial intelligence and machine learning features within Cisco DNA Assurance enable you to isolate the root cause of a problem and to take appropriate actions to quickly resolve issues. Cisco DNA Assurance can be used to perform the work of a Level 3 support engineer. | https://www.newhorizons.com/course-outline/courseid/300040035 |
| Cisco Leveraging Cisco IOS XR VPN Services v1 (XRVPNS) | 3.00 | $ 2,695.00 | The Leveraging Cisco® IOS XR VPN Services (XRVPNS) training teaches you how to implement and troubleshoot Layer 2 and Layer 3 Virtual Private Network services in a service provider network operating on Cisco IOS XR software. Cisco IOS XR is the foundational operating system of most service provider networks and operates Cisco's service provider portfolio of network devices. You will learn how to implement a label switched network infrastructure for the enablement of VPN services using Multiprotocol Label Switching (MPLS) or Segment Routing (SR). You will also learn how to implement and troubleshoot both IPv4 and IPv6 Layer 3 VPN services and Multicast VPN services using IOS XR. In addition, you will learn how to implement Ethernet VPN (EVPN) services including EVPN Integrated Routing and Bridging (EVPN IRB) and EVPN-SR data center fabric. Finally, you will learn how to implement EVPN advanced features. This training also earns you 24 Continuing Education (CE) credits toward recertification. | https://www.newhorizons.com/course-outline/courseid/300201297 |
| Cisco NCS 2000 Deploying 96-Channel Flex Spectrum v3 (OPT201) | 3.00 | $ 2,995.00 | The Cisco NCS2000 Deploying 96-Channel Flex Spectrum (OPT201) v3.0 course shows you how to plan, configure, and control optical networks using the Cisco® Network Convergence System (NCS) 2000 series Flex Spectrum platform. The course teaches you how to design Flex Spectrum networks with multi-degree Reconfigurable Optical Add-Drop Multiplexer (ROADM) multi-shelf nodes using the Cisco Transport Planner (CTP) software. | https://www.newhorizons.com/course-outline/courseid/300201276 |
| Cisco NSO Administration and DevOps v4 (NSO303) | 4.00 | $ 3,595.00 | The Cisco Network Services Orchestrator (NSO) Administration and DevOps (NSO303) v4.0 course continues the learning journey of the NSO Essentials for Programmers and Network Architects (NSO201) v4.0 and NSO Advanced for Python Programmers (NSO300) v4.0 courses by introducing you to the system administration and DevOps focusing on NSO; the robust bridge linking network automation and orchestration tools, examining the development, operation, and administration task functions. You will learn how to set up, configure, deploy, and maintain a Cisco Network Services Orchestrator solution, and learn best practices for using DevOps. The examples shown in this course demonstrate real-world scenarios to prepare you for deployment and management of new or existing NSO instances. The course guides you through the setup of a production ready NSO instances using system installation with access control settings, the deployment of NSO in Docker containers, and introduces modern DevOps concepts and tools such as Git and Continuous Delivery/Continuous Deployment (CI/CD). You will learn how to migrate CDM devices, how to build NETCONF NEDs from the NSO CLI, how to handle NSO Alarms, and many more features that benefit you in your journey with Cisco NSO. | https://www.newhorizons.com/course-outline/courseid/300201275 |
| Cisco NSO Advanced for Python Programmers v4 (NSO300) | 5.00 | $ 4,295.00 | The Cisco Network Services Orchestrator (NSO) Advance Python Programmers (NSO300) v4.0 course continues the learning journey of the NSO Essentials for Programmers and Network Architects (NSO201) v4.0 course with NSO to include customizing templates with Python programming, Docker deployment, and Nano services. You will learn to create advanced services using the NSO application framework and Python scripting with both new and existing Layer 3 Multiprotocol Label Switching (MPLS) VPN services. You will also learn how to manage and scale these services to reduce operation consumption, and increase both security and available physical space, since virtualized network functions (VNFs) replace physical hardware. You will use Network Functions Virtualization (NFV) orchestration features, and Cisco Elastic Services Controller (ESC) to manage virtualized network functions. | https://www.newhorizons.com/course-outline/courseid/300201274 |
| Cisco NSO Essentials for Programmers and Network Architects v4.2 (NSO201) | 4.00 | $ 3,595.00 | The NSO Essentials for Programmers and Network Architects (NSO201) training introduces you to Cisco Network Services Orchestrator (NSO). You will learn to install Cisco NSO and use it to manage devices and create services based on YANG templates with XPath. This training provides an overview of NSO as a network automation solution as well as introducing you to NETCONF, YANG, and XPath. You will learn about managing devices and creating device templates, service management and service package creation, network element drivers, interfacing with other systems using APIs, configuring and troubleshooting system settings, managing alarms and reporting, configuring NSO for scalability and performance, and capabilities that can be added to Cisco NSO. | https://www.newhorizons.com/course-outline/courseid/300201273 |
| Cisco Operating and Implementing Cisco WAN Automation Engine v1 (SPWAE) | 3.00 | $ 2,895.00 | The Operating and Implementing Cisco WAN Automation Engine (SPWAE) v1.0 course teaches you, through a combination of lectures and labs, how to install the Cisco® WAN Automation Engine (WAE), builds your confidence with Cisco WAE configuration and basic troubleshooting, and enables you to practice designing and managing bandwidth and traffic engineering. Additionally, you'll learn the basic knowledge necessary to plan, deploy, configure, and maintain the Cisco WAN Automation Engine solutions. | https://www.newhorizons.com/course-outline/courseid/300201291 |
| Cisco Operating Cisco SD-WAN Meraki 2.0 (SDWMER) | 3.00 | $ 3,395.00 | This 3-day course is hands-on training on Cisco Meraki SD-WAN implementations, basic and advanced Cisco Meraki SD-WAN Security features that are available on Meraki MX routers. Deep dive into capabilities like Firewall and Traffic, Application Aware Firewall, AMP Integration, Content Filtering and Threat protection and many other advanced features are covered as a part of this training. This course also provides hands-on training on Cisco Meraki SD-WAN Programmability features. The course qualified for 24 Cisco Continuing Education Credits (CE). | https://www.newhorizons.com/course-outline/courseid/300040036 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| Cisco Operationalizing Cisco Full-Stack Observability with AppDynamics, ThousandEyes, and Intersight (OPCFSO) | 5.00 | $ 4,495.00 | When completely integrated, AppDynamics, ThousandEyes, and Intersight give real-time insights correlated across domains and linked with business context across the entire stack of apps, infrastructure (network and cloud, computing, storage), and security. Cisco Full-Stack Observability gives you a unified view of resource allocation, infrastructure, and security, allowing you to fine-tune an application ecosystem to deliver the best possible application experience while keeping key performance indicators (KPI) in these areas. This course covers the key aspects of AppDynamics, Intersight Workload Optimizer and ThousandEyes and how they are integrated to provide FSO. You will learn the architecture and features of the individual products and then incorporate them using hands-on labs to solve common customer use cases. The course qualified for 43 Cisco Continuing Education Credits (CE). | https://www.newhorizons.com/course-outline/courseid/300200936 |
| Cisco Performing CyberOps Using Cisco Security Technologies v1 (CBRCOR) | 5.00 | $ 3,995.00 | The Performing CyberOps Using Cisco Security Technologies (CBRCOR) v1.0 course guides you through cybersecurity operations fundamentals, methods, and automation. The knowledge you gain in this course will prepare you for the role of Information Security Analyst on a Security Operations Center (SOC) team. You will learn foundational concepts and their application in real-world scenarios, and how to leverage playbooks in formulating an Incident Response (IR). The course teaches you how to use automation for security using cloud platforms and a SecDevOps methodology. You will learn the techniques for detecting cyberattacks, analyzing threats, and making appropriate recommendations to improve cybersecurity. This course also earns you 40 Continuing Education (CE) credits towards recertification and prepares you for the 350-201 CBRCOR core exam. | https://www.newhorizons.com/course-outline/courseid/300201253 |
| Cisco Programming for Network Engineers v2 (PRNE) | 4.00 | $ 3,595.00 | The Programming for Network Engineers (PRNE) v2.0 course is designed to equip you with fundamental skills in Python programming. Through a combination of lectures and lab experience in simulated network environments, you will learn to use Python basics to create useful and practical scripts with Netmiko to retrieve data and configure network devices. Upon completion of this course, you should have a basic understanding of Python, including the knowledge to create, apply, and troubleshoot simple network automation scripts. | https://www.newhorizons.com/course-outline/courseid/300040037 |
| Cisco Protecting Against Malware Threats with Cisco AMP for Endpoints v6 (SSFAMP) | 3.00 | $ 2,995.00 | The Protecting Against Malware Threats with Cisco AMP for Endpoints (SSFAMP) v6.0 course shows you how to deploy and use Cisco® AMP for Endpoints, a next-generation endpoint security solution that prevents, detects, and responds to advanced threats. Through expert instruction and hands-on lab exercises, you will learn how to implement and use this powerful solution through several step-by-step attack scenarios. You'll learn how to build and manage a Cisco AMP for Endpoints deployment, create policies for endpoint groups, and deploy connectors. You will also analyze malware detections using the tools available in the AMP for Endpoints console. | https://www.newhorizons.com/course-outline/courseid/300040038 |
| Cisco SDA and ISE Integration (SDAISE) | 3.00 | $ 3,395.00 | SD-Access is Cisco's Next Generation campus networking solution that simplifies management, automation, and improves security implications. Who (People), what (Devices), when (Time) and where (Location) are questions we would like answered when working with users and devices! These questions are answered within a single pane of glass known as the Cisco Identity Services Engine (ISE). Once users and devices are identified we often segment these groups for management purposes. Cisco's Digital Networks Architecture Center (DNAC) is a means of configuring and maintaining that segmentation using software defined access. DNA Center is not limited to configuration changes. DNA Center also provides a policy-based approach to services that support the network such as NTP, DNS, DHCP. In this course, you integrate ISE and DNAC which gives you the ability to manage physical devices, logical segmentation, IP, transport rules as well as Authentication, Authorization and Accounting (AAA) of users and devices along with an overview and introduction to SD-Access and DNA Center. | https://www.newhorizons.com/course-outline/courseid/300200938 |
| Cisco SD-WAN Advanced Policy and Security (SDWSEC) | 3.00 | $ 3,495.00 | SDWSEC is a Cisco SASE (Secure Access Service Edge) training targeted to engineers and technical personnel involved in designing, deploying, operating, and securing Cisco Edge solutions both in enterprise and Service Provider environments. This training is specifically designed for partners and customers implementing secure Cisco SD-WAN integrated with the complete feature set of Cisco Umbrella including DNS Security, Cloud Based Firewall and Secure Internet Gateway. The course walks you through how each integration works and how to design and implement it step-by-step. | https://www.newhorizons.com/course-outline/courseid/300040039 |
| Cisco SD-WAN Day-N Advanced Monitoring & Troubleshooting (SDWADV) | 4.00 | $ 3,395.00 | This Cisco SD-WAN training is targeted to engineers and technical personnel involved in deploying, implementing, operating and optimizing Cisco SD-WAN solution, both in enterprise and Service Provider environments, including advanced features for centralized AAR/Data policies, QoS, application performance routing, configuration templates, control policies and troubleshooting common and advanced operating issues. The Cisco SD-WAN course is lab-intensive, and objectives are accomplished mainly through hands on learning. Students taking this Cisco SD-Wan training course should be familiar with Wide Area Networks (WANs) in a variety of ways, which can be found below. Ideal candidates for this course include engineering and planning teams who evaluate WAN evolution, personnel involved in SD-WAN Design, Implementation and Operation, and others. | https://www.newhorizons.com/course-outline/courseid/300040015 |
| Cisco SDWAN Fundamentals v2 (SDWFND) | 2.00 | $ 1,995.00 | The Cisco SD-WAN Operation and Deployment (SDWFND) v2.0 course provides a comprehensive overview of the Cisco® Software-Defined WAN (SD-WAN) solution and Cisco SD-WAN components such as vManage, vSmart and vBond. You will learn how to deploy, manage, and operate a secure, programmable, and scalable SD-WAN fabric using IOS XE Cisco SD-WAN products. The course also covers how to configure, operate, and monitor overlay routing across the Cisco SD-WAN network. In addition, you will learn about data and control policies, and how to deploy Quality of Service (QoS) and Direct Internet Access (DIA) in the SD-WAN overlay network. The course will allow you to earn 12 Continuing Education (CE) credits toward recertification. | https://www.newhorizons.com/course-outline/courseid/300201279 |
| Cisco SD-WAN Operations, Troubleshooting, and Best Practices (SDWOTS) | 5.00 | $ 4,495.00 | This five-day course covers the new deployment, options and features of version 20.x Cisco Software-Defined WAN (SD-WAN). SD-WAN is an overlay architecture that overcomes the biggest drawbacks of traditional WAN. Students will learn how to design, configure and operate a Cisco SD-WAN utilizing any transport (MPLS, Broadband, LTE, VSAT etc.). Candidates will discuss and build an SD-WAN environment starting from Day 0 provisioning and will also be able to provide troubleshooting, management, policy control and application visibility across the enterprise network. This hands-on Course covers the Cisco SD-WAN product and contains extensive labs to reinforce the knowledge learned. | https://www.newhorizons.com/course-outline/courseid/300040006 |
| Cisco Securing Cisco Networks With Open Source Snort v2.1 (SSFSNORT) | 4.00 | $ 3,595.00 | The Securing Cisco Networks with Open Source Snort (SSFSNORT) v2.1 course shows you how to deploy a network intrusion detection system based on Snort. Through a combination of expert instruction and hands-on practice, you will learn how to install, configure, operate, and manage a Snort system, rules writing with an overview of basic options, advanced rules writing, how to configure Pulled Pork, and how to use OpenAppID to provide protection of your network from malware. You will learn techniques of tuning and performance monitoring, traffic flow through Snort rules, and more. | https://www.newhorizons.com/course-outline/courseid/300201294 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Cisco Securing Cisco Networks with Snort Rule Writing Best Practices v2.1 (SSFRULES) | 3.00 | $ 2,795.00 | The Securing Cisco Networks with Snort Rule Writing Best Practices (SSFRules) v2.1 course shows you how to write rules for Snort, an open-source intrusion detection and prevention system. Through a combination of expert-instruction and hands-on practice, this course provides you with the knowledge and skills to develop and test custom rules, standard and advanced rules-writing techniques, how to integrate OpenAppID into rules, rules filtering, rules tuning, and more. The hands-on labs give you practice in creating and testing Snort rules. | https://www.newhorizons.com/course-outline/courseid/300201293 |
| Cisco Securing Data Center Networks and VPNs with Cisco Secure Firewall Threat Defense v1 (SFWIPA) | 5.00 | $ 3,995.00 | The Securing Data Center Networks and VPNs with Cisco Secure Firewall Threat Defense training shows you how to deploy and configure Cisco Secure Firewall Threat Defense system and its features as a data center network firewall or as an Internet Edge firewall with Virtual Private Network (VPN) support. You will learn how to configure identity-based policies, Secure Sockets Layer (SSL) decryption, remote-access VPN, and site-to-site VPN before moving on to advanced Intrusion Prevention System (IPS) configuration and event management, integrations with other systems, and advanced troubleshooting. You will also learn how to automate configuration and operations of Cisco Secure Firewall Threat Defense system using programmability and Application Programming Interfaces (APIs) and how to migrate configuration from Cisco Secure Firewall Adaptive Security Appliances (ASA). This training prepares you for the 300-710 Securing Networks with Cisco Firepower (SNCF) exam. If passed, you earn the Cisco Certified Specialist – Network Security Firepower certification and satisfy the concentration exam requirement for the Cisco Certified Networking Professional (CCNP) Security certification. This training also earns you 40 Continuing Education (CE) credits toward recertification. | https://www.newhorizons.com/course-outline/courseid/300201282 |
| Cisco Securing Networks with Cisco Firepower Next Generation Firewall v1 (SSNGFW) | 5.00 | $ 4,295.00 | The Securing Networks with Cisco Firepower Next Generation Firewall (SSNGFW) v1.0 course shows you how to deploy and use Cisco Firepower® Threat Defense system. This hands-on course gives you knowledge and skills to use and configure Cisco® Firepower Threat Defense technology, beginning with initial device setup and configuration and including routing, high availability, Cisco Adaptive Security Appliance (ASA) to Cisco Firepower Threat Defense migration, traffic control, and Network Address Translation (NAT). You will learn how to implement advanced Next-Generation Firewall (NGFW) and Next-Generation Intrusion Prevention System (NGIPS) features, including network intelligence, file type detection, network-based malware detection, and deep packet inspection. You will also learn how to configure site-to-site VPN, remote-access VPN, and SSL decryption before moving on to detailed analysis, system administration, and troubleshooting. This course helps you prepare to take the exam, Securing Networks with Cisco Firepower (300-710 SNCF), which leads to CCNP Security and Cisco Certified Specialist–Network Security Firepower certifications. The 300-710 SNCF exam has a second preparation course as well, Securing Networks with Cisco Firepower Next-Generation Intrusion Prevention System (SSFIPS). You can take these courses in any order. This course also earns you 40 Continuing Education (CE) credits towards recertification. | https://www.newhorizons.com/course-outline/courseid/300201295 |
| Cisco Securing Networks with Cisco Firepower Next-Generation IPS v4 (SSFIPS) | 5.00 | $ 4,295.00 | The Securing Networks with Cisco Firepower Next-Generation IPS (SSFIPS)v4.0 course shows you how to deploy and use Cisco Firepower® Next-Generation Intrusion Prevention System (NGIPS). This hands-on course gives you the knowledge and skills to use the platform features and includes firewall security concepts, platform architecture and key features; in-depth event analysis including detection of network-based malware and file type, NGIPS tuning and configuration including application control, security intelligence, firewall, and network-based malware and file controls; Snort® rules language; file and malware inspection, security intelligence, and network analysis policy configuration designed to detect traffic patterns; configuration and deployment of correlation policies to take action based on events detected; troubleshooting; system and user administration tasks, and more. This course helps you prepare to take the exam, Securing Networks with Cisco Firepower (300-710 SNCF), which leads to CCNP Security and Cisco Certified Specialist–Network Security Firepower certifications. The 300-710 SNCF exam has a second preparation course as well, Securing Networks with Cisco Firepower Next Generation Firewall (SSNGFW). You can take these courses in any order. This course also earns you 40 Continuing Education (CE) credits towards recertification. | https://www.newhorizons.com/course-outline/courseid/300201292 |
| Cisco Service Provider 5G Technologies Foundations v1 (SPMBL100) | 4.00 | $ 3,795.00 | The Cisco Service Provider 5G Technologies Foundations (SPMBL100) v1.0 course introduces mobile network components, basic 5G concepts, and features of 5G technology including faster data speeds, higher device capacity, and improved user experience. You will examine the mobile packet core solutions, 5G transport architecture, and Cisco® automation and orchestration tools used in 5G networks. You will also learn about the Cisco 5G Non-standalone (NSA) and the Cisco Ultra Cloud Core 5G standalone (SA) platform solutions, the Cisco 5G converged Software-Defined Networking (SDN) transport architecture, and Cisco edge computing solutions. You will study the Cisco Network Function Virtualization (NFVI) architecture, Cisco Network Services Orchestrator (NSO), and Cisco Elastic Services Controller (ESC). You will learn how 5G is distributed with Telco Data Center (DC) with Cisco Application Centric Infrastructure (Cisco ACI®). And finally, Zero-Touch Provisioning (ZTP), Cisco Crosswork™, and the Cisco 5G security architecture will also be presented. | https://www.newhorizons.com/course-outline/courseid/300201287 |
| Cisco Software-Defined Access (SDA): Use Case Implementation, Operations, & Troubleshooting (SDAOTS) | 5.00 | $ 4,495.00 | This 5-day deep dive training course explores the capabilities of the Cisco Software-Defined Access (SDA) solution. Students will learn how to implement SDA for different solution verticals. It also addresses the details of how to operate and troubleshoot the different capabilities of the underlying solution components. The course qualified for 50 Cisco Continuing Education Credits (CE). | https://www.newhorizons.com/course-outline/courseid/300040021 |
| Cisco ThousandEyes Deployment and Implementation (TEDI) | 5.00 | $ 4,495.00 | TEDI, Cisco ThousandEyes Deployment and Implementation, is a 5-day course designed to help you understand, deploy, and manage the ThousandEyes platform. This course provides the details and hands-on activities necessary to successfully deploy ThousandEyes and perform outage and performance analysis by leveraging data patterns and correlating test output. | https://www.newhorizons.com/course-outline/courseid/300040022 |
| Cisco Transforming to a Cisco Intent-Based Network v1.1 (IBNTRN) | 5.00 | $ 4,595.00 | The Transforming to a Cisco Intent-Based Network (IBNTRN) v1.1 course teaches you how the functionality of Cisco® SD-Access fits into Cisco Digital Network Architecture (Cisco DNA™). Through a combination of lessons and hands-on learning, you will practice operating, managing, and integrating Cisco DNA Center, programmable network infrastructure, and Cisco SD-Access fundamentals. You will learn how Cisco delivers intent-based networking across the campus, branch, WAN, and extended enterprise and ensures that your network is operating as intended. | https://www.newhorizons.com/course-outline/courseid/300040041 |
| Cisco Troubleshooting Cisco Application Centric Infrastructure v5.2 (DCACIT) | 2.00 | $ 2,095.00 | The Troubleshooting Cisco Application-Centric Infrastructure (DCACIT) v5.2 course teaches you through a combination of lectures and labs the key components and procedures needed to troubleshoot Cisco Nexus 9000 Series Switches in Application-Centric Infrastructure (ACI) mode. This course is for advanced engineers who have installed and managed existing fabrics or for those who have completed the Implementing Cisco Application-Centric Infrastructure-Advanced (DCACI) course. | https://www.newhorizons.com/course-outline/courseid/300201261 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Cisco Troubleshooting Cisco Contact Center Enterprise v1 (CCET) | 2.00 | $ 1,795.00 | The Troubleshooting Cisco Contact Center Enterprise (CCET) v1.0 course is focused on Day 2 support of a Packaged Contact Center Enterprise (PCCE) deployment by Tier 3 support personnel. Cisco® PCCE provides an enterprise-class contact center in a prepackaged deployment model that offers simplified deployment, operation, and maintenance. You will learn to identify the processes and tools used to diagnose common deployment issues so that support personnel can select optimal methods to resolve those issues. | https://www.newhorizons.com/course-outline/courseid/300201256 |
| Cisco Troubleshooting Cisco Data Center Infrastructure v7.1 (DCIT) | 5.00 | $ 4,595.00 | The Troubleshooting Cisco Data Center Infrastructure (DCIT) training builds your knowledge and skills in troubleshooting LANs, SANs, Cisco Unified Fabric, Cisco Unified Computing System (Cisco UCS), and Cisco Application-Centric Infrastructure (Cisco ACI). You'll gain hands-on experience resolving problems on Cisco Multilayer Director Switch (MDS) switches, Cisco Nexus switches, Cisco Fabric Extenders (FEXs), Cisco UCS, Cisco ACI, and more. This training also earns you 50 Continuing Education (CE) credits towards recertification. | https://www.newhorizons.com/course-outline/courseid/300010011 |
| Cisco Understanding Cisco Collaboration Foundations v1.2 (CLFNDU) | 5.00 | $ 4,195.00 | The Understanding Cisco Collaboration Foundations (CLFNDU) training gives you the skills and knowledge needed to administer and support a simple, single-site Cisco Unified Communications Manager (CM) solution with Session Initiation Protocol (SIP) gateway. The course covers initial parameters, management of devices including phones and video endpoints, management of users, and management of media resources, as well as Cisco Unified Communications solutions maintenance and troubleshooting tools. In addition, you will learn the basics of SIP dial plans including connectivity to Public Switched Telephone Network (PSTN) services, and how to use class-of-service capabilities. This training does not lead directly to a certification exam, but it does cover foundational knowledge that can help you prepare for several professional-level collaboration courses and exams. | https://www.newhorizons.com/course-outline/courseid/300010003 |
| Cisco Understanding Cisco Data Center Foundations v1.1 (DCFNDU) | 5.00 | $ 4,595.00 | The Understanding Cisco Data Center Foundations (DCFNDU) v1.1 course helps you prepare for entry-level data center roles. In this course, you will learn the foundational knowledge and skills you need to configure Cisco® data center technologies including networking, virtualization, storage area networking, and unified computing. You will get an introduction to Cisco Application Centric Infrastructure (Cisco ACI), automation and cloud computing. You will get hands-on experience configuring features on Cisco Nexus Operating System (Cisco NX-OS) and Cisco Unified Computing System (Cisco UCS). This course also earns you 30 Continuing Education (CE) credits towards recertification. This course does not lead directly to a certification exam, but it does cover foundational knowledge that can help you prepare for several CCNP and other professional-level data center courses and exams. | https://www.newhorizons.com/course-outline/courseid/300010008 |
| Cisco Understanding Cisco Service Provider Network Foundations v1 (SPFNDU) | 5.00 | $ 4,495.00 | The Understanding Cisco Service Provider Network Foundations (SPFNDU) v1.0 course is designed to provide you with the foundational knowledge for the suite of Cisco® CCNP® Service Provider courses. The course expands what you learned from the Cisco CCNA® course with a focus on theoretical and practical knowledge needed for the Service Provider environment. Through a combination of lessons and hands-on practice, you will learn about architectures, protocols, software and hardware platforms, and solutions within the Service Provider realm. While this course does not lead directly to a certification exam, it does cover foundational knowledge critical to the success in the Service Provider Technology track. | https://www.newhorizons.com/course-outline/courseid/300201286 |
| Cisco Understanding Cisco Wireless Foundations v2 (WLFNDU) | 5.00 | $ 4,295.00 | The Understanding Cisco Wireless Foundations (WLFNDU) training teaches you the knowledge and skills you need to configure, manage, and troubleshoot a Cisco wireless LAN (WLAN) network. Topics include understanding critical aspects of RF technology, industry standards for Wi-Fi and security, how to design, install, and configure a WLAN network of any size, and using Cisco DNA Center. This training also earns you 30 Continuing Education (CE) credits towards recertification. | https://www.newhorizons.com/course-outline/courseid/300010028 |
| Cisco Webex Teams Collaboration Workshop (WXTW) | 3.00 | $ 3,295.00 | Cisco Webex Teams is an app-centric, cloud-based service that provides a complete collaboration suite for teams to create, meet, message, call, care, whiteboard, and share, regardless of whether they're together or apart—in one continuous work stream before, during, and after meetings. Being able to understand how this works and what the features are is the key focus of this 3-day course. NterOne's Webex Teams Collaboration Workshop should be taken by students who have a working understanding of Cisco Collaboration Products. This Cisco Webex Teams Workshop enables learners to describe Cisco Webex Teams, comprehend Cisco Webex Teams Meetings, and grasp Cisco Webex Teams Messaging, among much more. This workshop is intended to be taken by system engineers, system administrators, architects, and channel partners. | https://www.newhorizons.com/course-outline/courseid/300040024 |
| CiscoDesigning Cisco Application Centric Infrastructure v1 (DCACID) | 5.00 | $ 3,895.00 | The Designing Cisco Application Centric Infrastructure (DCACID) v1.0 is a 5-day product training course that provides you with the knowledge and skills to understand and utilize a programmable fabric design built on Cisco Nexus® 9000 Series Switches in Application-Centric Infrastructure (ACI) mode. This course is a deep dive into Cisco ACI design, covering design considerations and best practices, so you can build solid ACI solutions and avoid common mistakes that can impact the network infrastructure. With a focus on various design use cases, this course provides information that can help you practice design decisions, validate your designs, and apply best practices while using Cisco ACI in your multiservice or cloud data centers. | https://www.newhorizons.com/course-outline/courseid/300201259 |
| Citrix (NetScaler) Advanced Concepts - Security, Management, and Optimization (CNS-320) | 5.00 | $ 5,000.00 | Learn how to configure your Citrix networking environment to address application services security requirements with Citrix Web App Firewall; automate and manage network services for scale-out of application architectures with Citrix Application Delivery Management; and optimize Citrix ADC-managed application delivery traffic. This fiveday course for experienced Citrix networking architects, engineers and administrators will teach you to deploy and manage Web App Firewall to protect web applications against different types of attacks. It will also give you a practical understanding of Citrix Application Delivery Management capabilities for centralized management of multiple Citrix ADC platforms, orchestration of changes, transaction reporting, infrastructure visualization and planning. This class includes an exam voucher. | https://www.newhorizons.com/course-outline/courseid/300020028 |
| Citrix Daas Deployment and Administration (CWS-250) | 3.00 | $ 3,000.00 | In this course you will learn how to create a new Citrix DaaS deployment and how to migrate to Citrix DaaS from an on-premises Citrix Virtual Apps and Desktops Site. Get hands-on as the course guides you through the architecture, communications, management, installation, and configuration of Citrix DaaS on Citrix Cloud and resource locations that the host apps and desktops for your users. This course is a necessary step in enabling you with the right training and skills, to not only understand, manage, and deliver successfully, but also to make well-informed planning decisions along the way. | https://www.newhorizons.com/course-outline/courseid/300200710 |
| Citrix Virtual Apps and Desktops 7 Administration On-Premises and in Citrix Cloud (CWS-215) | 5.00 | $ 5,000.00 | In this course you will learn how to create a new Citrix Virtual Apps and Desktops deployment. Get hands-on as the course guides you through the architecture, communications, management, installation, and configuration of Citrix Virtual Apps and Desktops to host apps and desktops for your users. And it will also introduce you to Citrix Cloud and Citrix DaaS to become familiar with these products. This course is a necessary step in enabling you with the right training and skills, to not only understand, manage, and deliver successfully, but also to make well-informed planning decisions along the way. | https://www.newhorizons.com/course-outline/courseid/300020008 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Citrix Virtual Apps and Desktops 7 Advanced Configuration and WEM Administration (CWS-322) | 5.00 | $ 5,000.00 | Designed for experienced IT professionals, this course builds on the foundational implementation and management skills introducing scalability, redundancy, and security configurations. You will learn to build to implement Workspace Environment Management to improve logon times, centralize user settings management, and optimize the performance of machines. In the advanced troubleshooting section, you will learn techniques to investigate many of the common issues that can affect environment health and how to solve issues more effectively. You will leave this course with a good understanding of how to manage more complex solutions such as multi-location environments with configurations around StoreFront, the Delivery Controllers, Cloud Connectors, and HDX. | https://www.newhorizons.com/course-outline/courseid/300200893 |
| Citrix Virtual Apps and Desktops 7 Architect Design Solutions (CWS-415) | 5.00 | $ 5,000.00 | This advanced 5-day training course teaches the design principles for creating a Citrix Virtual Apps and Desktops virtualization solution. In this training, you will also learn how to assess existing environments, explore different scenarios, and make design decisions based on business requirements. This course covers the Citrix Consulting approach to design and covers the key design decisions through lectures, lab exercises, and interactive discussions. You will also learn about additional considerations and advanced configurations for multi-location solutions and disaster recovery planning. This training will help you prepare for the Citrix Certified Expert in Virtualization (CCE-V) exam. This class includes an exam voucher. | https://www.newhorizons.com/course-outline/courseid/300020015 |
| Cloud Native Operations Bootcamp | 5.00 | $ 4,000.00 | CN251 is an intensive cloud native training bootcamp for IT professionals looking to develop skills in deploying and administering containerized applications in Kubernetes. Over the course of five days, students will start with learning about first principles for application containerization followed by learning how to stand up a containerized application in Kubernetes, and, finally, ramping up the skills for day-1 operating tasks for managing a Kubernetes production environment. CN251 is an ideal course for those who need to accelerate the development of their IT skills for a rapidly-changing technology landscape. | https://www.newhorizons.com/course-outline/courseid/300201237 |
| Cloud Operations on AWS | 3.00 | $ 2,025.00 | This course teaches systems operators and anyone performing cloud operations functions how to manage and operate automatable and repeatable deployments of networks and systems on AWS. You will learn about cloud operations functions, such as installing, configuring, automating, monitoring, securing, maintaining, and troubleshooting these services, networks, and systems. The course also covers specific AWS features, tools, and best practices related to these functions. | https://www.newhorizons.com/course-outline/courseid/200007919 |
| Cloud Storage With Red Hat Ceph Storage (CL260) | 5.00 | $ 4,000.00 | Build skills to manage hybrid cloud Red Hat Ceph Storage for medium and cloud-scale enterprise applications and for Red Hat OpenStack Platform. Cloud Storage with Red Hat Ceph Storage (CL260) is designed for storage administrators and cloud operators who deploy Red Hat Ceph Storage in a production data center environment or as a component of a Red Hat OpenStack Platform infrastructure. Learn how to deploy, manage, and scale a Ceph storage cluster to provide hybrid storage resources, including Amazon S3 and OpenStack Swift-compatible object storage, Ceph-native and iSCSI-based block storage, and shared file storage. This course is based on Red Hat Ceph Storage version 4.2. | https://www.newhorizons.com/course-outline/courseid/300160002 |
| Cloudera Data Analyst Training | 4.00 | $ 3,195.00 | Apache Hive makes transformation and analysis of complex, multi-structured data scalable in Hadoop. Apache Impala enables real-time interactive analysis of the data stored in Hadoop using a native SQL environment. Together, they make multi-structured data accessible to analysts, database administrators, and others without Java programming expertise. | https://www.newhorizons.com/course-outline/courseid/300030042 |
| Cloudera Data Engineering: Developing Applications with Apache Spark | 4.00 | $ 3,520.00 | This four-day hands-on training course delivers the key concepts and knowledge developers need to use Apache Spark to develop high-performance, parallel applications on the Cloudera Data Platform (CDP). Hands-on exercises allow students to practice writing Spark applications that integrate with CDP core components, such as Hive and Kafka. Participants will learn how to use Spark SQL to query structured data, how to use Spark Streaming to perform real-time processing on streaming data, and how to work with "big data" stored in a distributed file system. After taking this course, participants will be prepared to face real-world challenges and build applications to execute faster decisions, better decisions, and interactive analysis, applied to a wide variety of use cases, architectures, and industries. | https://www.newhorizons.com/course-outline/courseid/300201221 |
| Cloudera DataFlow: Flow Management with Apache NiFi | 3.00 | $ 2,640.00 | One of the most critical functions of a data-driven enterprise is the ability to manage ingest and data flow across complex ecosystems. Does your team have the tools and skill sets to succeed at this? Apache NiFi provides this capability and our three-day Cloudera Dataflow: Flow Management with Apache Nifi course delivers the foundational training you'll need to succeed with NiFi. In addition to learning NiFi's key features and concepts, participants will gain hands-on experience creating, executing, managing, and optimizing NiFi dataflows throughout a variety of scenarios. | https://www.newhorizons.com/course-outline/courseid/300201222 |
| Cloudera Developer Training for Spark & Hadoop | 4.00 | $ 3,195.00 | This four-day hands-on training course delivers the key concepts and expertise developers need to use Apache Spark to develop high-performance parallel applications. Participants will learn how to use Spark SQL to query structured data and Spark Streaming to perform real-time processing on streaming data from a variety of sources. Developers will also practice writing applications that use core Spark to perform ETL processing and iterative algorithms. The course covers how to work with "big data" stored in a distributed file system, and execute Spark applications on a Hadoop cluster. After taking this course, participants will be prepared to face real-world challenges and build applications to execute faster decisions, better decisions, and interactive analysis, applied to a wide variety of use cases, architectures, and industries. | https://www.newhorizons.com/course-outline/courseid/300030047 |
| Cloud-Native API Administration with Red Hat 3scale API Management (DO240) | 4.00 | $ 3,210.00 | Build and Administer APIs with Red Hat 3scale API Management (DO240) is a hands-on, lab-based course that gives SREs and administrators an introduction to managing cloud-native APIs with Red Hat® 3scale API Management. This course enables developers and administrators to install, administer, monetize, secure and document your cloud-native APIs. This course is based on Red Hat 3scale API Management 2.11. | https://www.newhorizons.com/course-outline/courseid/300200853 |
| Cloud-native integration with Red Hat Fuse (AD221) | 4.00 | $ 3,210.00 | Cloud-native Integration with Red Hat Fuse (AD221) emphasizes learning architectural patterns and implementing integration services based on Apache Camel and OpenShift. Camel and Red Hat Fuse enable developers to create complex integrations in a simple and maintainable format. You will learn how to use the most common integration components in Camel and develop, test, and deploy integration focused applications on OpenShift. This course is based on Red Hat Fuse 7.10 and OpenShift 4. | https://www.newhorizons.com/course-outline/courseid/300160024 |
| CMMC for Business Professionals: A Practical Guide to Getting Ready for CMMC | 1.00 | $ 595.00 | The Cybersecurity Maturity Model Certification (CMMC), managed by The Cyber AB (formerly known as the CMMC Accreditation Body or the CMMC-AB), is a program through which an organization's cybersecurity program maturity is measured by their initial and ongoing compliance with applicable cybersecurity practices, as well as their integration of corresponding policies and plans into their overall business operations. Once rule-making has concluded and CMMC 2.0 has been implemented, all organizations providing products or services to the United States Department of Defense (DoD) must comply with the requirements of their applicable CMMC Level.     This course provides a complete review of the key elements of this important program and will entitle you to a CMMC Trailblazer badge. | https://www.newhorizons.com/course-outline/courseid/300201005 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Coaching and Mentoring | 1.00 | $ 395.00 | You are in your office looking over your performance report and it happened again. Your low performing employee failed to meet quota this month even after you spoke with them about the importance of meeting goals. This employee has a great attitude and you know they can do better. You just do not know how to motivate them to reach the goal. Money used to work, but that has worn off. You are baffled and you know being frustrated makes matters worse. What do you do? | https://www.newhorizons.com/course-outline/courseid/200006764 |
| Coaching, Mentoring and Apprenticeship | 1.00 | $ 795.00 | In the ever-changing landscape of today's business world, the role of a manager extends beyond traditional boundaries, evolving into the dynamic spheres of coaching, mentoring, and apprenticeships. This course is designed for managers who aspire to excel in these pivotal roles. Participants will learn to employ the AOR coaching method to identify activities, set definitive objectives, and accurately measure results, cultivating a culture of continuous growth and effective performance management. They will also explore the art of mentoring and apprenticeships, building long-term developmental relationships that guide employees to improve their behaviors and qualities as well as their skills and expertise. | https://www.newhorizons.com/course-outline/courseid/300201304 |
| COBIT 2019 Foundation | 2.00 | $ 1,330.00 | COBIT 2019 builds on and integrates more than 25 years of development in this field, not only incorporating new insights from science, but also operationalizing these insights as practice. The heart of the COBIT framework updates COBIT principles while laying out the structure of the overall framework including: New concepts are introduced and terminology is explained—the COBIT Core Model and its 40 governance and management objectives provide the platform for establishing your governance program. The performance management system is updated and allows the flexibility to use maturity measurements as well as capability measurements. Introductions to design factors and focus areas offer additional practical guidance on flexible adoption of COBIT 2019, whether for specific projects or full implementation. From its foundation in the IT audit community, COBIT has developed into a broader and more comprehensive information and technology (I&T) governance and management framework and continues to establish itself as a generally accepted framework for I&T governance. | https://www.newhorizons.com/course-outline/courseid/200012667 |
| Communicating Across Your Organization | 2.00 | $ 1,495.00 | Effective communication is how employees and management interact to reach organizational goals. Getting this right results in a happier, more engaged workforce who get more done. Unfortunately, there are often significant barriers – language, culture, distrust, distance – to effective communication. The activities and discussions in this workshop will help you identify the essential elements of effective communications within your organization and develop communication strategies that harness both interpersonal and organizational awareness to build trust, strengthen collaboration, and increase productivity. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201070 |
| Communication Strategies | 1.00 | $ 395.00 | For the better part of every day, we are communicating to and with others. Whether it's the speech you deliver in the boardroom, the level of attention you give your spouse when they are talking to you, or the look you give the cat, it all means something. This workshop will help participants understand the different methods of communication and how to make the most of each of them. | https://www.newhorizons.com/course-outline/courseid/200006664 |
| Comprehensive Angular 12 Programming | 5.00 | $ 3,140.00 | This intensive 5-day Angular 12 training course is a combination of theoretical learning and hands-on labs that includes an introduction to Angular, followed by TypeScript, components, directives, services, HTTPClient, testing, and debugging. | https://www.newhorizons.com/course-outline/courseid/300201008 |
| Comprehensive Angular 15 Programming Training | 5.00 | $ 2,995.00 | This intensive Angular 15 training course is a combination of theoretical learning and hands-on labs that includes an introduction to Angular, followed by TypeScript, components, directives, services, HTTPClient, testing, and debugging. It will teach attendees skills they can use immediately in their work. Students learn the fundamentals of Angular 15 development such as single-page browser applications, responsive websites, and hybrid mobile applications. | https://www.newhorizons.com/course-outline/courseid/300201007 |
| Compressor - Introduction to Compressor | 1.00 | $ 595.00 | Compressor is Apple's tool for optimizing audio and video content for a variety of scenarios. The interface is simple, but underneath there is a lot of complexity for creating deliverables. In this one day class, we will explore Compressor in combination with a variety of media and targets. | https://www.newhorizons.com/course-outline/courseid/300201246 |
| CompTIA A+ | 5.00 | $ 2,495.00 | CompTIA A+ certified professionals are proven problem solvers. They support today's core technologies from security to cloud to data management and more. CompTIA A+ is the industry standard for launching IT careers into today's digital world. It is the only industry recognized credential with performance-based items to prove pros can think on their feet to perform critical IT support tasks in the moment. It is trusted by employers around the world to identify the go-to person in end point management and technical support roles. CompTIA A+ is regularly re-invented by IT experts to ensure that it validates core skills and abilities demanded in the workplace. | https://www.newhorizons.com/course-outline/courseid/300200589 |
| CompTIA A+ Part 1 | 5.00 | $ 2,495.00 | CompTIA A+ certified professionals are proven problem solvers. They support today's core technologies from security to cloud to data management and more. CompTIA A+ is the industry standard for launching IT careers into today's digital world. It is the only industry-recognized credential with performance-based items to prove pros can think on their feet to perform critical IT support tasks in the moment. It is trusted by employers around the world to identify the go-to person in end-point management and technical support roles. CompTIA A+ is regularly re-invented by IT experts to ensure that it validates core skills and abilities demanded in the workplace. | https://www.newhorizons.com/course-outline/courseid/300201085 |
| CompTIA A+ Part 2 | 5.00 | $ 2,495.00 | CompTIA A+ certified professionals are proven problem solvers. They support today's core technologies from security to cloud to data management and more. CompTIA A+ is the industry standard for launching IT careers into today's digital world. It is the only industry recognized credential with performance-based items to prove pros can think on their feet to perform critical IT support tasks in the moment. It is trusted by employers around the world to identify the go-to person in end point management and technical support roles. CompTIA A+ is regularly re-invented by IT experts to ensure that it validates core skills and abilities demanded in the workplace. This course follows after the A+ Part 1 course and prepares you for the A+ Core 2 exam 220-1101. | https://www.newhorizons.com/course-outline/courseid/300201086 |
| CompTIA Advanced Security Practitioner (CASP+) | 5.00 | $ 3,295.00 | In this course, students will examine advanced security concepts, principles, and implementations that pertain to enterprise level security. | https://www.newhorizons.com/course-outline/courseid/200004857 |
| CompTIA Cloud Essentials+ | 3.00 | $ 1,485.00 | Students will weigh the pros and cons of cloud computing to make effective decisions and meet IT challenges. | https://www.newhorizons.com/course-outline/courseid/200005152 |
| CompTIA Cloud+ | 5.00 | $ 2,495.00 | In this course, you will learn how to implement, maintain, and deliver cloud technologies including network, storage, and virtualization technologies to create cloud solutions. | https://www.newhorizons.com/course-outline/courseid/200009901 |
| CompTIA Cybersecurity Analyst (CySA+) | 5.00 | $ 2,495.00 | The course introduces tools and tactics to manage cybersecurity risks, identify various types of common threats, evaluate the organization's security, collect and analyze cybersecurity intelligence, and handle incidents as they occur. | https://www.newhorizons.com/course-outline/courseid/200010103 |
| CompTIA Data+ | 5.00 | $ 2,495.00 | CompTIA Data+ is an early-career data analytics certification for professionals tasked with developing and promoting data-driven business decision-making. CompTIA Data+ gives you the confidence to bring data analysis to life. As the importance for data analytics grows, more job roles are required to set context and better communicate vital business intelligence. Collecting, analyzing, and reporting on data can drive priorities and lead business decision-making. | https://www.newhorizons.com/course-outline/courseid/100001074 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| CompTIA DataSys+ | 5.00 | $ 2,495.00 | | https://www.newhorizons.com/course-outline/courseid/300201017 |
| CompTIA IT Fundamentals+ | 5.00 | $ 2,495.00 | This course will prepare participants to take the FC0-U61 exam to obtain the IT Fundamentals+ certification and help participants learn some of the basic principles and techniques of providing PC, mobile, applications, and network support. | https://www.newhorizons.com/course-outline/courseid/200007612 |
| CompTIA Linux+ | 5.00 | $ 2,495.00 | The Official CompTIA® Linux+® courseware builds on your existing experience with systems operations and administration to provide you with the knowledge and skills required to configure, manage, operate, and troubleshoot a Linux environment by using security best practices, scripting, and automation. This course will also prepare you for the Exam XKO-005. | https://www.newhorizons.com/course-outline/courseid/300200731 |
| CompTIA Network+ | 5.00 | $ 2,495.00 | CompTIA's Network+ certification is a foundation-level certification designed for IT professionals with around one year of experience, whose job role is focused on network administration.The CompTIA Network+ exam will certify the successful candidate has the knowledge and skills required to troubleshoot, configure, and manage common network devices; establish basic network connectivity; understand and maintain network documentation; identify network limitations and weaknesses; and implement network security, standards, and protocols. The candidate will have a basic understanding of enterprise technologies, including cloud and virtualization technologies.  The Official CompTIA® Network+® (Exam N10-008): will teach you the fundamental principles of installing, configuring, and troubleshooting network technologies and help you to progress a career in network administration. In this course, you will build on your existing user-level knowledge and experience with personal computer operating systems and networks to master the fundamental skills and concepts that you will need to use on the job in any type of networking career. | https://www.newhorizons.com/course-outline/courseid/200001083 |
| CompTIA PenTest+ (PenTest) | 5.00 | $ 3,295.00 | Security remains one of the hottest topics in IT and other industries. It seems that each week brings news of some new breach of privacy or security. As organizations scramble to protect themselves and their customers, the ability to conduct penetration testing is an emerging skill set that is becoming ever more valuable to the organizations seeking protection, and ever more lucrative for those who possess these skills. In this course, you will be introduced to some general concepts and methodologies related to pen testing, and you will work your way through a simulated pen test for a fictitious company. | https://www.newhorizons.com/course-outline/courseid/200010496 |
| CompTIA Project+ | 5.00 | $ 2,495.00 | In this course, students will apply recognized practices of project management and understand a project's life cycle and roles and skills necessary to effectively initiate, plan, execute, monitor and control, and close a project. | https://www.newhorizons.com/course-outline/courseid/200003921 |
| CompTIA Security+ | 5.00 | $ 2,495.00 | CompTIA Security+ is a global certification that validates the baseline skills necessary to perform core security functions and is the first security certification a candidate should earn.  CompTIA Security+ establishes the core knowledge required of any cybersecurity role and provides a springboard to intermediate-level cybersecurity jobs. | https://www.newhorizons.com/course-outline/courseid/100001029 |
| CompTIA Server+ | 5.00 | $ 2,495.00 | This course builds on existing professional experience with personal computer hardware support to present the next tier of skills & concepts students will use on the job when administering any type of network server. | https://www.newhorizons.com/course-outline/courseid/200001485 |
| Computer Vision with Python OpenCV | 3.00 | $ 3,000.00 | OpenCV, once released by INTEL to benchmark their processors, comes with a huge array of functionality, even deep learning-based, and allows for efficient image processing and computer vision. Tracking, Object Detection, Facial Recognition, and much more – all in one library. Understanding how to work with image and video data is becoming vital in modern applications. The most popular platforms in the world are generating never before seen amounts of image and video data. Every 60 seconds users upload more than 300 hours of video to Youtube, Netflix subscribers stream over 80,000 hours of video, and Instagram users like over 2 million photos! Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200919 |
| Configure and Administer a Salesforce CPQ Solution (CPQ301) | 5.00 | $ 4,500.00 | Discover how to configure an end-to-end Salesforce CPQ solution with out-of-the-box functionality. In this 5-day class, our CPQ experts will give you an in-depth look at Salesforce CPQ and its applications. You'll learn how to set up and manage products, configure discount and pricing methods, create and manage subscriptions, and formulate solutions to meet common CPQ business requirements so you can successfully implement a Salesforce CPQ solution for your company. | https://www.newhorizons.com/course-outline/courseid/300200904 |
| Configuring Aruba Mobility Level 1 (CAM1) | 3.00 | $ 2,400.00 | This course teaches the knowledge, skills and practical experience required to set up and configure a basic Aruba WLAN utilizing the OS 8.X architecture and features. Using lecture and labs, this course provides the technical understanding and hands-on experience of configuring a single Mobility Master with one controller and AP Aruba WLAN. Participants will learn how to use Aruba hardware and ArubaOS to install and build a complete, secure controller network with multiple SSIDs. This course provides the underlying material required to prepare candidates for the Aruba Certified Mobility Associate (ACMA) V8 certification exam. | https://www.newhorizons.com/course-outline/courseid/300201125 |
| Configuring Aruba Mobility Level 2 (CAM2) | 5.00 | $ 4,000.00 | This course teaches the knowledge, skills and practical experience required to set up and configure advanced features on Aruba WLAN utilizing the AOS 8.X architecture and features. This course includes lectures and labs which provide the technical understanding and hands-on experience of configuring a redundant Mobility Master with two controllers and two APs. Participants will learn how install a redundant Aruba WLAN network with clustering while using many features like Multizone for guest access, voice optimization and tunneled node. This course includes the AirWave management system and troubleshooting commands. The SWDI course provides the underlying material required to prepare candidates for the Aruba Certified Mobility Professional (ACMP) V8 certification exam. | https://www.newhorizons.com/course-outline/courseid/300201126 |
| Configuring Cisco Catalyst 9800 and Intro to WIFI6 (C98WF6) | 3.00 | $ 3,395.00 | Configuring Cisco Catalyst 9800 and Intro to WIFI6 is a course designed to help students understand how the Catalyst 9800 Series wireless controllers combine the best of RF excellence with IOS XE benefits. This course begins with a description of the Cisco Catalyst 9800 and its benefits while introducing the learner to WIFI6. The configuration, migration, and troubleshooting will also be covered in this instructor-led course. | https://www.newhorizons.com/course-outline/courseid/300040025 |
| Configuring Cisco Unified Computing System (DCCUCS) | 3.00 | $ 3,695.00 | The Configuring Cisco Unified Computing System (DCCUCS) v1.0 shows you how to deploy, secure, operate, and maintain Cisco Unified Computing System (Cisco UCS) B-series blade servers, Cisco UCS C-Series, and S-Series rack servers for use in data centers. You will learn how to implement management and orchestration software for Cisco UCS. You will gain hands-on practice on: configuring key features of Cisco UCS, Cisco UCS Director, and Cisco UCS Manager; implementing UCS management software including Cisco UCS Director, Cisco UCS Manager, and Cisco Intersight; and more. This course can be used to prepare for the new CCNP Data Center and CCIE Data Center certifications. | https://www.newhorizons.com/course-outline/courseid/300010007 |
| Constructive Conflict Management | 2.00 | $ 1,495.00 | In this course, students will learn to recognize the warning signs that precede quarrels and how to mitigate their impact, as well as constructive ways to harness the differences between team members and shift them toward productive, positive outcomes. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201059 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| Cortex XDR: Prevention, Analysis, and Response (EDU-260) | 3.00 | $ 2,995.00 | This instructor-led training enables you to prevent attacks on your endpoints. After an overview of the Cortex XDR components, the training introduces the Cortex XDR management console and demonstrates how to install agents on your endpoints and how to create Security profiles and policies. The training enables you to perform and track response actions, tune profiles, and work with Cortex XDR alerts. It concludes by discussing basic troubleshooting of the agent, the on-premises Broker VM component, and Cortex XDR deployment. | https://www.newhorizons.com/course-outline/courseid/300180000 |
| Critical Facilitation Skills for Leaders | 2.00 | $ 1,495.00 | Students will learn how to develop and apply facilitation techniques to support their team at every stage of the team life cycle. Students will enhance their interpersonal competencies and observational abilities to deal with disruptions and more. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201057 |
| Critical Thinking | 1.00 | $ 395.00 | In this course, students will learn develop their ability to analyze and evaluate information. | https://www.newhorizons.com/course-outline/courseid/200009303 |
| Crystal Reports 2016 - Part 1 | 2.00 | $ 990.00 | In this course, students will create a basic report by connecting to a database and modifying the report's presentation. | https://www.newhorizons.com/course-outline/courseid/200009249 |
| Crystal Reports 2016 - Part 2 | 2.00 | $ 990.00 | In this course, students will create complex reports & data sources using the tools in Crystal Reports 2016. Students will not only create more complex reports including sub-reports and cross-tabs, but will also increase their speed and efficiency. | https://www.newhorizons.com/course-outline/courseid/200009250 |
| Customer Service | 1.00 | $ 395.00 | As a customer service representative, you are expected to handle customer interactions in the best way possible. The expectations of both your company and your customers hinge on your ability to provide the right service in the right way. In this course, you will explore the background and techniques of customer interactions. Providing quality customer care ensures that every single contact with your company is a positive experience. Customers can range from external consumers to internal employees in other departments. Knowing how to provide the same level of service to all customers will enrich your time spent at work by establishing positive business relationships. Recognizing crucial points throughout customer interactions increases your ability to solve problems and offer affirmative solutions. Applying this knowledge to trends in service and consumer desires allows you to contribute to the company's bottom line and make a customer's life a little easier. | https://www.newhorizons.com/course-outline/courseid/200004871 |
| Cyber Secure Coder (CSC) | 3.00 | $ 2,085.00 | The stakes for software security are very high, and yet many development teams deal with software security only after the code has been developed and the software is being prepared for delivery. As with any aspect of software quality, to ensure successful implementation, security and privacy issues should be managed throughout the entire software development lifecycle. This course presents an approach for dealing with security and privacy throughout the entire software development lifecycle. You will learn about vulnerabilities that undermine security, and how to identify and remediate them in your own projects. You will learn general strategies for dealing with security defects and misconfiguration, how to design software to deal with the human element in security, and how to incorporate security into all phases of development. | https://www.newhorizons.com/course-outline/courseid/100001055 |
| CyberSAFE: End User Security | .50 | $ 295.00 | Welcome to CyberSAFE: End User Security (Exam CBS-410). Regardless of your computer experience, this class will help you become more aware of technology-related risks and what you can do to protect yourself and your organization from them. | https://www.newhorizons.com/course-outline/courseid/100001087 |
| CyberSec First Responder (CFR) | 5.00 | $ 3,495.00 | This course covers network defense and incident response methods, tactics, and procedures that are in alignment with industry frameworks such as NIST 800-61r2 (Computer Security Incident Handling Guide), US-CERT's National Cyber Incident Response Plan (NCIRP), and Presidential Policy Directive (PPD)-41 on Cyber Incident Coordination, NIST 800.171r2 (Protecting Controlled Unclassified Information in Nonfederal Systems and Organizations). It is ideal for candidates who have been tasked with the responsibility of monitoring and detecting security incidents in information systems and networks, and for executing standardized responses to such incidents. The course introduces tools, tactics, and procedures to manage cybersecurity risks, defend cybersecurity assets, identify various types of common threats, evaluate the organization's security, collect and analyze cybersecurity intelligence, and remediate and report incidents as they occur. This course provides a comprehensive methodology for individuals responsible for defending the cybersecurity of their organization.This course is designed to assist students in preparing for the CertNexus CyberSec First Responder (Exam CFR-410) certification examination. What you learn and practice in this course can be a significant part of your preparation.Purchase of this course includes the associated exam voucher. | https://www.newhorizons.com/course-outline/courseid/200007697 |
| Data Analysis and Visualization with Microsoft Excel | 2.00 | $ 590.00 | Analyzing data to find issues, insights and opportunities, is now a critical part of many job roles. Beyond the analysis, data analysts in all job roles must be able to effectively present and communicate their findings in visually compelling ways. Microsoft® Excel® is designed for this purpose. Excel can connect to a wide range of data sources, perform robust data analysis and create diverse and robust data-backed visualizations to show insights, trends, and create reports. These capabilities enable people who use Excel for data analysis to turn data into thoughtful action. | https://www.newhorizons.com/course-outline/courseid/200012857 |
| Data Analysis using Power BI Desktop - Level 1 - Report Builder | 2.00 | $ 1,100.00 | This is the first course in the exclusive Data Analysis using Power BI Desktop series. This course lays the foundation for Power BI Report Builders. Report Builders will learn everything they need to create highly effective stand-alone and multi-page narrative reports using data sources that are created using Power BI Desktop. This course covers the use of both the Power BI Desktop application as well as the Power BI Service. | https://www.newhorizons.com/course-outline/courseid/300090000 |
| Data Center Automation with vRealize Orchestrator and vSphere PowerCLI | 5.00 | $ 4,250.00 | This advanced technology course equips experienced administrators with the knowledge to use the automation tools that all vSphere customers have access to. Students learn how to automate administration tasks with VMware vSphere® PowerCLI™ and VMware vRealize® Orchestrator™. | https://www.newhorizons.com/course-outline/courseid/200008848 |
| Data Center Integrated Infrastructure Administration (DCIIA) | 5.00 | $ 4,595.00 | Data Center Integrated Infrastructure Administration is a 5-day instructor-led course designed to provide learners with experience planning, designing, and implementing integrated infrastructure platforms that include Cisco Unified Computing System servers, Cisco Nexus fabric, VMware vSphere virtualization platform, NetApp® and other 3rd party unified storage systems. Using real-world scenarios and examples, this course will explore all of the components of the full stack integrated systems and guide you through the installation, management, and troubleshooting of the platform as a whole, as well as all of the individual components. | https://www.newhorizons.com/course-outline/courseid/300040043 |
| Data Engineering on Google Cloud Platform | 4.00 | $ 2,495.00 | Get hands-on experience with designing and building data processing systems on Google Cloud. This course uses lectures, demos, and hand-on labs to show you how to design data processing systems, build end-to-end data pipelines, analyze data, and implement machine learning. This course covers structured, unstructured, and streaming data. | https://www.newhorizons.com/course-outline/courseid/300180010 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Data Engineering with Databricks | 2.00 | $ 1,500.00 | Data professionals from all walks of life will benefit from this comprehensive introduction to the components of the Databricks Lakehouse Platform that directly support putting ETL pipelines into production. You will leverage SQL and Python to define and schedule pipelines that incrementally process new data from a variety of data sources to power analytic applications and dashboards in the Lakehouse. This course offers hands-on instruction in Databricks Data Science & Engineering Workspace, Databricks SQL, Delta Live Tables, Databricks Repos, Databricks Task Orchestration, and the Unity Catalog.  This course will prepare you to take the Databricks Certified Data Engineer Associate exam. | https://www.newhorizons.com/course-outline/courseid/300201224 |
| Data Ethics for Business Professionals (DEBIZ ™) | 1.00 | $ 795.00 | The power of extracting value from data utilizing Artificial Intelligence, Data Science and Machine Learning exposes the learning differences between humans and machines. Humans can apply ethical principles throughout the decision-making process to avoid discrimination, societal harm, and marginalization to maintain and even enhance acceptable norms. Machines make decisions autonomously. So how do we apply ethical principles to data driven technology? This course provides business professionals and consumers of technology core concepts of ethical principles, how they can be applied to emerging data driven technologies and the impact to an organization which ignores ethical use of technology. | https://www.newhorizons.com/course-outline/courseid/100001077 |
| Data Literacy | 1.00 | $ 795.00 | Data literacy is the ability to read, understand, create, and communicate data as information. Much like literacy as a general concept, data literacy focuses on the competencies involved in working with data. This Data Literacy training is designed to give you a high level overview of the key topics in Data Science and Machine Learning. | https://www.newhorizons.com/course-outline/courseid/300200708 |
| Data Model Design using Power BI Desktop - Level 2 | 1.00 | $ 650.00 | This is the second course in the custom Power BI Desktop training series. What makes Power BI for such a vast improvement over simple Excel worksheets is the Power Query engine in both Power BI and Excel. Power Query allows data to be pulled and transformed from multiple data sources. This course is designed for Report Builders who are ready to create custom data models for themselves and for other Power BI Report Users. | https://www.newhorizons.com/course-outline/courseid/300090010 |
| Data Science and Blockchain | 3.00 | $ 1,895.00 | This course reviews why blockchain is the future of data science. There are many decisions and issues that face the technical team and data leadership, and this class will enable participants to effectively make those decisions both offensively and defensively. | https://www.newhorizons.com/course-outline/courseid/300080006 |
| Data Science for Business Professionals (DSBIZ ™) | .50 | $ 495.00 | The ability to identify and respond to changing trends is a hallmark of a successful business. Whether those trends are related to customers and sales, or to regulatory and industry standards, businesses are wise to keep track of the variables that can affect the bottom line. In today's business landscape, data comes from numerous sources and in diverse forms. By leveraging data science concepts and technologies, businesses can mold all of that raw data into information that facilitates decisions to improve and expand the success of the business. | https://www.newhorizons.com/course-outline/courseid/100001065 |
| Data Services - Platform and Transforms Virtual Class | 3.00 | $ 2,601.00 | | https://www.newhorizons.com/course-outline/courseid/200008178 |
| Data Warehousing on AWS | 3.00 | $ 2,025.00 | Data Warehousing on AWS introduces you to concepts, strategies, and best practices for designing a cloudbased data warehousing solution using Amazon Redshift, the petabyte-scale data warehouse in AWS. This course demonstrates how to collect, store, and prepare data for the data warehouse by using AWS services such as Amazon DynamoDB, Amazon EMR, Amazon Kinesis, and Amazon S3. Additionally, this course demonstrates how to use Amazon QuickSight to perform analysis on your data. | https://www.newhorizons.com/course-outline/courseid/300030013 |
| Db2 11.1 Administration Workshop for Linux | 4.00 | $ 3,340.00 | This course teaches database administrators to perform basic database administrative tasks using Db2 11.1. These tasks include creating database objects like tables, indexes and views, and loading data into the database with Db2 utilities like LOAD and INGEST. Various diagnostic methods will be presented, including using db2pd command options, and monitoring with SQL statements that reference Db2 monitor functions. Students will learn how to implement automatic archival for database logs and how to recover a database to a specific point in time using the archived logs. The course covers using EXPLAIN tools to review the access plans for SQL statements and adding indexes to improve SQL performance. We will cover the locking performed by Db2 and the effect the application isolation level has on locking and lock wait conditions. Students will learn how to implement database security, including adding a security administrator, SECADM user, and implement database roles to simplify security management. We will also describe implementing Db2 native encryption for a database. | https://www.newhorizons.com/course-outline/courseid/300030019 |
| Db2 11.1 Advanced Database Administration | 2.00 | $ 1,860.00 | | https://www.newhorizons.com/course-outline/courseid/300030020 |
| Declarative Development for Platform App Builders in Lightning Experience (DEX403) | 5.00 | $ 4,500.00 | Discover the fundamentals of declarative app development and how to customize multi-user Salesforce applications to meet changing business needs. In this 5-day class, our Salesforce experts will walk you through how to build a data model, assign and define profiles and permissions, and control access to records. Take a deep dive into Flow Builder and discover how to automate complex business processes using automation. Learn how to manage data, develop unique UIs for specific users, and deploy Salesforce applications using clicks, not code. | https://www.newhorizons.com/course-outline/courseid/300200899 |
| Deep Learning with PyTorch | 3.00 | $ 1,895.00 | This PyTorch training course is designed for students familiar with the basics of data science and machine learning who want to learn how to use Facebook's PyTorch library for deep learning and neural network based applications. PyTorch is an open source deep learning platform that provides a seamless path from research prototyping to production deployment. It is rapidly becoming one of the most popular deep learning frameworks for Python. Deep integration into Python allows popular libraries and packages to be used for easily writing neural network layers in Python. A rich ecosystem of tools and libraries extends PyTorch and supports development in computer vision, NLP and more. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200920 |
| Deep Learning with Tensorflow and Keras | 3.00 | $ 1,895.00 | Google's Open Source Deep Learning ecosystem, Tensorflow, is the world's most popular framework for developing powerful deep neural networks. Packaged directly with Keras, the official API, it allows simple and interpretable creation and training of deep learning models. This Tensorflow and Keras course is designed for students familiar with the basics of data science and machine learning who want to dive into the world of deep learning by learning Tensorflow & Keras. This training covers different modalities of neural networks, including Artificial Neural Networks, Convolutional Neural Networks, Recurrent Neural Networks, and Generative Adversarial Networks.  Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200921 |
| Dell - Advanced Methods in Data Science & Big Data Analytics | 5.00 | $ 5,000.00 | | https://www.newhorizons.com/course-outline/courseid/300200609 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Dell - Cloud Infrastructure & Services | 4.00 | $ 2,500.00 | Digital transformation is a priority for all businesses. Emerging technology trends such as mobile, big data analytics and social media are driving organizations to optimize and innovate business models. As businesses adopt a digital mindset they need to innovate faster or be left behind in an increasingly digital market.This course provides an overview of digital transformation, role of Cloud to help organizations address the current IT challenges to meet their overall digital transformation objectives. This cloud essentials course will help to gain the knowledge on technologies, processes, and mechanisms required to build a cloud infrastructure. This course takes an open approach, and uses the Cloud Reference Architecture to describe the concepts and technologies related to cloud computing, which is further illustrated and reinforced with DELL EMC product examples. | https://www.newhorizons.com/course-outline/courseid/300200610 |
| Dell - Cloud Infrastructure Planning & Design | 5.00 | $ 3,120.00 | This course presents the knowledge and skills to successfully design a cloud infrastructure that supports multiple types of services. The course takes an "open" approach and outlines infrastructure, application platform, and cloud management platform as the fundamental layers in a cloud. It explores the business needs and challenges that have led the organization to adopt a cloud solution. This course highlights the benefits, challenges, and considerations of design choices and emphasizes the importance of proper requirements gathering in the design process. Additionally, students are provided with opportunities to practice these new skills while performing exercises and labs. This course prepares the student for the Dell Technologies Proven Professional Cloud Architect Specialist level certification exam. | https://www.newhorizons.com/course-outline/courseid/300200611 |
| Dell - Cloud Services Management | 5.00 | $ 3,000.00 | This course provides technical professionals the knowledge and skills necessary to plan and design for robust cloud services. The course focuses on the governance, organizational, financial, and technology aspects as well as the management and operation of cloud services. The six key areas covered in this course are: 1) Cloud Services Lifecycle and Management, 2) Workforce Transformation for Cloud Services, 3) Multi-Cloud Strategy for Cloud Services, 4) Cloud Services Operating Model, 5) Cloud-Native Application Development , and 6) Business Resiliency for Cloud Services. | https://www.newhorizons.com/course-outline/courseid/300200612 |
| Dell - Data Science & Big Data Analytics | 5.00 | $ 3,120.00 | This course provides practical foundation level training that enables immediate and effective participation in big data and other analytics projects. It includes an introduction to big data and the Data Analytics Lifecycle to address business challenges that leverage big data. The course provides grounding in basic and advanced analytic methods and an introduction to big data analytics technology and tools, including MapReduce and Hadoop. Labs offer opportunities for students to understand how these methods and tools may be applied to real world business challenges by a practicing data scientist. The course takes an Open, or technology-neutral approach, and includes a final lab which addresses a big data analytics challenge by applying the concepts taught in the course in the context of the Data Analytics Lifecycle. The course prepares the student for the Dell EMC Proven Professional Data Scientist Associate certification exam. | https://www.newhorizons.com/course-outline/courseid/300200608 |
| Dell - EMC Unity Implementation and Administration | 4.00 | $ 4,400.00 | This instructor-led course covers the knowledge necessary to understand the features and functionality and key use cases of a Unity storage system. Topics include system administration, storage provisioning, storage resource access, scalability and performance features, storage efficiency features, data protection features and data mobility features. | https://www.newhorizons.com/course-outline/courseid/300201195 |
| Dell - Information Storage and Management v5 | 5.00 | $ 3,125.00 | This unique course provides a comprehensive mastery of the various storage infrastructure components and options in a modern data center environment. Participants will learn to apply storage-related technologies in a fast changing and complex IT environment due to the adoption of new technologies such as cloud, edge computing, Big Data, IoT, AI/ML, and 5G).  This course covers intelligent storage systems, networking technologies business continuity solutions, information security, and storage infrastructure management. The course content takes an open-approach to describe all the concepts and technologies, which are further illustrated and reinforced with Dell product examples. | https://www.newhorizons.com/course-outline/courseid/300201196 |
| Dell - Integrated System for Microsoft Azure Stack HCI Features and Administration | 2.00 | $ 2,200.00 | This course introduces learners to the Dell Integrated System for Microsoft Azure Stack HCI. It defines the value of Azure Stack HCI and provides an overview of the hardware, software, and management components of the system. Finally, through several demonstrations, the course covers common administrative tasks such as cluster registration, configuration, and lifecycle management. | https://www.newhorizons.com/course-outline/courseid/300201197 |
| Dell - NetWorker Implementation and Administration | 5.00 | $ 5,500.00 | This course explains and demonstrates the deployment, configuration, and use of NetWorker. Students learn how to deploy the NetWorker components; how to upgrade NetWorker to the latest release; and how to configure NetWorker for operation. Students also learn how to create and manage user accounts; how to configure and initiate backup and restore of data, and how to monitor NetWorker operation. This course includes labs to reinforce these skills through exercises. | https://www.newhorizons.com/course-outline/courseid/300201198 |
| Dell - OpenManage Enterprise Fundamentals Features Implementation Administration | 2.00 | $ 1,600.00 | The OpenManage Enterprise course is a baseline course that provides a learner with a good understanding of the functions and features of OpenManage Enterprise. Lecture and lab activities cover the following topics for students: Installation/Configuration, navigating/using the web interface, describe and use the Discovery and Inventory process, manage devices, and perform tasks using OpenManage Enterprise. Students learn about and use profiles and configuration templates. The course covers the integration of OME adaptors with SupportAssist Enterprise and Secure Connect Gateway. Checklists have been incorporated to provide students with a "what to look for" when issues arise. | https://www.newhorizons.com/course-outline/courseid/300201199 |
| Dell - PowerEdge Features, Administration and Troubleshooting | 3.00 | $ 2,400.00 | This three-day instructor-led course provides an overview of the latest generations of Dell EMC PowerEdge rack and tower servers. It is recommended to successfully complete Dell EMC PowerEdge Server Concepts prior to taking this course. This course will assist the participant to identify how to successfully install, manage and troubleshoot Dell EMC PowerEdge servers, providing best practice information consisting of instructor-led training and hands-on activities. This course is part of the recommended training path leading to the Dell Technologies Specialist Implementation Engineer, PowerEdge certification. (Certification exam not included.) (DES-4122) | https://www.newhorizons.com/course-outline/courseid/300201200 |
| Dell - PowerEdge MX Modular Platform Installation, Implementation and Administration | 3.00 | $ 2,400.00 | This Dell PowerEdge MX7000 Installation, Implementation and Administration course assists the learner to successfully configure, manage and troubleshoot Dell EMC PowerEdge MX7000 systems providing best practice information. This three day training focuses on the MX7000 chassis as well as installed compute and storage sleds. | https://www.newhorizons.com/course-outline/courseid/300200602 |
| Dell - PowerFlex 3.6 Implementation and Administration | 4.00 | $ 4,400.00 | This course provides a comprehensive view to installing, upgrading, and scaling a PowerFlex system. Consumption models discussed include PowerFlex rack, PowerFlex appliance, PowerFlex custom node, and PowerFlex software-only. Course content addresses both the physical architecture and the logical architecture of a PowerFlex solution. Lab exercises include best practices for managing SDS, SDC, MDM, and LIA components, in both VMware and Linux environments. Further lab exercises include volume operations – creation, mobility, snapshots – followed by monitoring and troubleshooting a PowerFlex solution. | https://www.newhorizons.com/course-outline/courseid/300201201 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| Dell - PowerMax and VMAX Family Configuration and Business Continuity Administration | 5.00 | $ 5,500.00 | This Specialist level course provides participants with an in-depth understanding of configuration tasks on PowerMax and VMAX All Flash arrays. It also provides the knowledge required to deploy and manage PowerMax and VMAX All Flash array-based local and remote replication solutions for business continuity needs. Key features and functions of the arrays are covered in detail. Topics include storage provisioning concepts, virtual provisioning, device creation and port management, and service level-based storage allocation to hosts.  Operational details and implementation considerations for Dell EMC TimeFinder SnapVX and Symmetrix Remote Data Facility (SRDF) are covered. Participants will use Unisphere for PowerMax and Solutions Enabler (SYMCLI) to manage configuration changes on the arrays.  Hands-on lab exercises using Symmetrix Command Line Interface (SYMCLI) and Unisphere for PowerMax will be performed on Open Systems hosts attached to PowerMax and VMAX All Flash arrays. | https://www.newhorizons.com/course-outline/courseid/300201202 |
| Dell - PowerProtect Cyber Recovery Design and Administration | 3.00 | $ 3,300.00 | This course covers the concepts, features, management, design and troubleshooting of PowerProtect Cyber Recovery solutions. The course contains security considerations as well as the steps to manage storage, applications and policies, copies, sandboxes, and the Cyber Recovery operations with Dell PowerProtect Data Manager, Dell NetWorker, and Dell Avamar. This course also contains important considerations and limitations when designing, sizing, and hardening a PowerProtect Cyber Recovery solution. Common troubleshooting techniques and learning experiences covering Cyber Recovery problem identification, collecting log files, alerts, main system components issues, cause identification and possible resolutions are also covered in this course. | https://www.newhorizons.com/course-outline/courseid/300201203 |
| Dell - PowerProtect Data Manager Implementation and Administration | 5.00 | $ 5,500.00 | This course explains and demonstrates the deployment, configuration, and integration of Dell EMC PowerProtect Data Manager with Microsoft Exchange, Microsoft SQL, Kubernetes, Oracle, SAP HANA, and VMware virtual machines. It describes various databases backup and restore operations with PowerProtect Data Manager. This course includes labs to reinforce these skills through exercises. | https://www.newhorizons.com/course-outline/courseid/300200604 |
| Dell - PowerProtect DD System Administration | 4.00 | $ 4,400.00 | The PowerProtect DD System Administration course provides the knowledge and skills needed for configuring and maintaining PowerProtect DD systems. The course provides lectures, instructor demonstrations, hands-on exercises, reviews, knowledge checks, and pointers to further study. | https://www.newhorizons.com/course-outline/courseid/300200603 |
| Dell - PowerProtect DP Series Appliance Administration | 5.00 | $ 5,500.00 | This course explains and demonstrates how to administer and use all features of the PowerProtect DP Series Appliance. The student will learn about each of the models in the PowerProtect DP Series Appliance model family and how to administer and use the PowerProtect DP Series Appliance ACM, PowerProtect DP Series Appliance System Manager, the Backup Server (Avamar), Protection Storage (Data Domain), Reports and Analytics (Data Protection Advisor), and Search. This course includes labs to reinforce these skills through exercises | https://www.newhorizons.com/course-outline/courseid/300200605 |
| Dell - PowerScale Administration | 5.00 | $ 5,500.00 | The PowerScale Administration course prepares students to implement, configure and administer the Dell PowerScale NAS Solution. Topics include an overview of hardware, the configuration and verification of basic and advanced networking, authentication, identity management and authorization, client and data access, data layout, and OneFS modules such as SmartPools, SnapshotIQ, SyncIQ, SmartDedupe, and others. This training consists of 8 modules. The total time required to complete this course and the accompanying lab exercises is approximately 5 days. This course is an update to the Isilon Administration and Management course. | https://www.newhorizons.com/course-outline/courseid/300200600 |
| Dell - PowerStore Implementation and Administration | 5.00 | $ 5,500.00 | This course provides instruction for the implementation and administration of PowerStore systems. It includes a PowerStore system portfolio and  feature introduction along with practice opportunities to achieve a functional production storage state. Day-to-day PowerStore administrative tasks for block, file, and VMware storage resources and services are also provided as well as basic troubleshooting. | https://www.newhorizons.com/course-outline/courseid/300200601 |
| Dell - PowerSwitch Data Center Implementation and Administration | 5.00 | $ 3,125.00 | The Dell EMC Networking – Data Center Configuration and Administration course is part of the certification training path leading to Dell EMC Certified Specialist, Networking. This course assists you to successfully configure, manage, and troubleshoot Dell EMC Data Center Networking products using best-practice information. This course is delivered through instructor-led training and hands-on activities. | https://www.newhorizons.com/course-outline/courseid/300200606 |
| Dell - VCF 4.2 on VxRail Administration | 2.00 | $ 2,200.00 | This course enables an administrator to manage a VMware Cloud Foundation (VCF) on VxRail solution. It covers reviewing the management interfaces, managing users, roles, and passwords, managing certificates and licenses, managing the workload domains, deploying NSX-T Edge cluster, performing lifecycle management, configuring multi-instance management, and exploring troubleshooting and support options. Hands on labs and simulated interactions are included in the course to provide a walk-through of the key steps involved in the administration of a VCF on VxRail solution. | https://www.newhorizons.com/course-outline/courseid/300201204 |
| Dell - VxRail Administration | 3.00 | $ 3,300.00 | This course presents the skills necessary to administer and manage a VxRail cluster. Key topics include management interfaces, managing cluster configurations, resource provisioning and expansion, monitoring, managing availability, and basic troubleshooting. Hands-on labs, video demonstrations, and interactive simulations are included in the course to provide a step-by-step walkthrough of the key procedures to manage the cluster. | https://www.newhorizons.com/course-outline/courseid/300200599 |
| Deploy and Manage Citrix NetScaler 13.x with Citrix Gateway (CNS-227) | 5.00 | $ 5,000.00 | Expand your Citrix networking knowledge and skills by enrolling in this five-day course. It covers Citrix ADC essentials, including secure load balancing, high availability and operations management, and also focuses on Citrix Gateway. You will learn to deliver secure remote access to apps and desktops integrating Citrix Virtual Apps and Citrix Desktops with Citrix Gateway. This class includes an exam voucher. | https://www.newhorizons.com/course-outline/courseid/300020004 |
| Deploy and Manage Citrix NetScaler 13.x with Traffic Management (CNS-225) | 5.00 | $ 5,000.00 | Build your Citrix ADC knowledge and skills by enrolling in this five-day course. It covers Citrix ADC essentials (platforms, architecture, licensing and functionality) and also focuses on traffic management, including content switching, traffic optimization and global server load balancing (GSLB). You will learn about key ADC capabilities such as high availability, security and performance, and explore SSL offload, load balancing and monitoring. The traffic management curriculum will cover the AppExpert policy engine, the Rewrite and Responder features, and Content Switching. This class includes an exam voucher. | https://www.newhorizons.com/course-outline/courseid/300020005 |
| Deploying 5G Open Source Software | 2.00 | $ 1,595.00 | This course builds directly on the 5G Essentials class. Since you are standing on a strong foundation, you are ready to deploy a 5G network at scale. You will write 5G docker files and learn how to build and test container-based services in the context of 5G. You will then use docker compose to build all services in a test environment. Finally, you will deploy your 5G services onto your own kubernetes cloud, test and troubleshoot. When you have completed this class, you will have a clear picture of the 5G landscape. You will be able to continue studies in our advanced courses such as docker, microservices, kubernetes, and programming, standing on a strong foundational knowledge of how it all goes together in a real 5G network. | https://www.newhorizons.com/course-outline/courseid/300201142 |
| Deploying and Managing Windows Workloads on Google Cloud | 2.00 | $ 1,495.00 | This course teaches you about deploying and managing Microsoft Windows® workloads on Google Cloud. This course uses lectures and hands-on labs to show you how to plan and configure Microsoft Windows Server and Microsoft SQL Server in Google Cloud. You will configure identity solutions including Managed Service for Microsoft Active Directory, deploy Windows workloads to Compute Engine and Google Kubernetes Engine, and learn to manage and operate Windows workloads with Cloud Console, Cloud Logging, and Cloud Monitoring. | https://www.newhorizons.com/course-outline/courseid/300180012 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Designing and Implementing Storage on AWS | 3.00 | $ 2,025.00 | AWS offers a broad portfolio of storage services and solutions with diverse capabilities for storing, accessing, and protecting your data. In this course, you will learn where, how, and when to take advantage of these different service offerings. You will learn which services to consider when looking to solve your data storage challenges. You will learn how to best evaluate your options in selecting the appropriate AWS storage service to meet your use case and business requirements. You will also gain a better understanding of how to store, manage, and protect your data in the cloud. Through a series of hands-on exercises that demonstrate the ease and power of AWS platform, you will learn how to quickly provision powerful storage solutions in minutes. | https://www.newhorizons.com/course-outline/courseid/300201218 |
| Developing Advanced Automation with Red Hat Ansible Automation Platform (DO374) | 5.00 | $ 4,280.00 | Advance your Ansible skills and develop automation that scales by applying recommended practices with the new, container focused tools from Red Hat Ansible Automation Platform Developing Advanced Automation with Red Hat Ansible Automation Platform (DO374) is designed for automation content developers to leverage the new, container focused tools from Red Hat® Ansible Automation Platform to efficiently develop automation that can be managed by the automation controller. Learn recommended practices for automation development using reusable code, advanced playbook techniques, shared execution environments, and preparing for scalable automation with the automation content navigator. This course is based on Red Hat Ansible Automation Platform 2.0. | https://www.newhorizons.com/course-outline/courseid/300160023 |
| Developing Applications with Google Cloud Platform | 3.00 | $ 1,995.00 | In this course, application developers learn how to design, develop, and deploy applications that seamlessly integrate components from the Google Cloud ecosystem. Through a combination of presentations, demos, and hands-on labs, participants learn how to use GCP services and pre-trained machine learning APIs to build secure, scalable, and intelligent cloud-native applications. | https://www.newhorizons.com/course-outline/courseid/300180009 |
| Developing Applications with Red Hat OpenShift Serverless and Knative (DO244) | 2.00 | $ 800.00 | Learn how to develop, deploy, and auto-scale event driven serverless applications on the Red Hat OpenShift Container Platform. Red Hat OpenShift Serverless enables developers and Site Reliability Engineers (SREs) to focus on the core business logic of their applications and functions by delegating operational concerns and infrastructure services to the Red Hat® OpenShift Serverless platform. This course is based on Red Hat OpenShift Serverless 1.23 and OpenShift Container Platform 4.10. | https://www.newhorizons.com/course-outline/courseid/300200736 |
| Developing Event-Driven Applications with Apache Kafka and Red Hat AMQ Streams (AD482) | 4.00 | $ 3,210.00 | Develop, scale, and troubleshoot event-driven microservice applications. Learn to use Kafka and AMQ Streams to design, develop, and test event-driven applications. Event-driven microservices scale globally, store and stream process data, and provide low-latency feedback to customers. This course is for application developers and is based on Red Hat AMQ Streams 1.8 and Red Hat OpenShift Container Platform 4.6. | https://www.newhorizons.com/course-outline/courseid/300160021 |
| Developing Generative AI Applications on AWS | 2.00 | $ 1,350.00 | This course is designed to introduce generative AI to software developers interested in leveraging large language models without fine-tuning. The course provides an overview of generative AI, planning a generative AI project, getting started with Amazon Bedrock, the foundations of prompt engineering, and the architecture patterns to build generative AI applications using Amazon Bedrock and LangChain. | https://www.newhorizons.com/course-outline/courseid/300201217 |
| Developing on AWS | 3.00 | $ 2,025.00 | This course teaches experienced developers how to programmatically interact with AWS services to build web solutions. It guides you through a high-level architectural discussion on resource selection and dives deep into using the AWS Software Development Kits (AWS SDKs) and Command Line Interface (AWS CLI) to build and deploy your cloud applications. You will build a sample application during this course, learning how to set up permissions to the development environment, adding business logic to process data using AWS core services, configure user authentications, deploy to AWS cloud, and debug to resolve application issues. The course includes code examples to help you implement the design patterns and solutions discussed in the course. The labs reinforce key course content and help you to implement solutions using the AWS SDK for Python, .Net, and Java, the AWS CLI, and the AWS Management Console. | https://www.newhorizons.com/course-outline/courseid/300030009 |
| Developing Serverless Solutions on AWS | 3.00 | $ 2,025.00 | This course gives developers exposure to and practice with best practices for building serverless applications using AWS Lambda and other services in the AWS serverless platform. You will use AWS frameworks to deploy a serverless application in hands-on labs that progress from simpler to more complex topics. You will use AWS documentation throughout the course to develop authentic methods for learning and problem-solving beyond the classroom. | https://www.newhorizons.com/course-outline/courseid/300030055 |
| Developing Successful Interpersonal Skills | 1.00 | $ 795.00 | This course will prepare students for the collaborative situations inherent in every facet of business, whether working with colleagues, partners, vendors, or clients. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201062 |
| Developing Yourself as a Leader | 1.00 | $ 395.00 | You have transitioned from an individual contributor to a manager, or as an individual contributor, you\'ve acquired practical skills to enhance your leadership abilities. When you want to take your leadership skills to the next level, you assess your leadership traits, develop your communication skills, and build your reputation. These strategies can increase your ability to effectively influence others and get results. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201050 |
| DevOps Continuous Testing Foundation (CTF)℠ | 2.00 | $ 1,495.00 | This comprehensive course addresses testing in a DevOps environment and covers concepts such as the active use of test automation, testing earlier in the development cycle, and instilling testing skills in developers, quality assurance, security, and operational teams. The course is relevant for every modern IT professional involved in defining or deploying a DevOps testing strategy for their organization, as test engineering is the backbone of DevOps and the primary key for successful DevOps pipeline to support digital transformation. Actionable and exciting exercises will be used to apply the concepts covered in the course and sample documents, templates, tools, and techniques will be provided to leverage after the class. This certification positions learners to successfully complete the Continuous Testing Foundation exam. | https://www.newhorizons.com/course-outline/courseid/200009642 |
| DevOps Engineering on AWS | 3.00 | $ 2,025.00 | DevOps Engineering on AWS teaches you how to use the combination of DevOps cultural philosophies, practices, and tools to increase your organization's ability to develop, deliver, and maintain applications and services at high velocity on AWS. This course covers Continuous Integration (CI), Continuous Delivery (CD), infrastructure as code, microservices, monitoring and logging, and communication and collaboration. Hands-on labs give you experience building and deploying AWS CloudFormation templates and CI/CD pipelines that build and deploy applications on Amazon Elastic Compute Cloud (Amazon EC2), serverless applications, and container-based applications. Labs for multi-pipeline workflows and pipelines that deploy to multiple environments are also included. | https://www.newhorizons.com/course-outline/courseid/300030003 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| DevOps Foundation | 2.00 | $ 1,495.00 | The course includes the latest thinking, principles and practices from the DevOps community including real-world case studies from high performing organizations including ING Bank, Ticketmaster, Capital One, Alaska Air, Target, Fannie Mae, Societe Generale, and Disney that engage and inspire learners, leveraging multimedia and interactive exercises that bring the learning experience to life, including the Three Ways as highlighted in the Phoenix Project by Gene Kim and the latest from the State of DevOps report.  Learners will gain an understanding of DevOps, the cultural and professional movement that stresses communication, collaboration, integration, and automation to improve the flow of work between software developers and IT operations professionals.  The course is designed for a broad audience, enabling those on the business side to obtain an understanding of Kubernetes and Containers. Those on the technical side will obtain an understanding as to the business value of DevOps to reduce cost (15-25% overall IT cost reduction) with increased quality (50-70% reduction in change failure rate) and agility (up to 90% reduction in provision and deployment time) to support business objectives in support of digital transformation initiatives. NOTE: This course will earn you 14 PDUs. | https://www.newhorizons.com/course-outline/courseid/200008888 |
| DevOps Leader (DOL)® | 2.00 | $ 1,495.00 | The DevOps Leader course is a unique and practical experience for participants who want to take a transformational leadership approach and make an impact within their organization by implementing DevOps. Leading people through a cultural transformation requires new skills, innovative thinking, and transformational leadership. Leaders up, down and across the IT organization must align and collaborate to break down silos and evolve the organization. The course highlights the human dynamics of cultural change and equips participants with practices, methods, and tools to engage people across the DevOps spectrum through the use of real-life scenarios and case studies. Upon completion of the course, participants will have tangible takeaways to leverage when back in the office such as understanding Value Stream Mapping. | https://www.newhorizons.com/course-outline/courseid/200009644 |
| DevOps Site Reliability Engineering (SRE) Foundation℠ | 2.00 | $ 1,495.00 | The SRE (Site Reliability Engineering) Foundation? course is an introduction to the principles & practices that enable an organization to reliably and economically scale critical services. Introducing a site-reliability dimension requires organizational re-alignment, a new focus on engineering & automation, and the adoption of a range of new working paradigms. The course highlights the evolution of SRE and its future direction, and equips participants with the practices, methods, and tools to engage people across the organization involved in reliability and stability evidenced through the use of real-life scenarios and case stories. Upon completion of the course, participants will have tangible takeaways to leverage when back in the office such as understanding, setting and tracking Service Level Objectives (SLO's). The course was developed by leveraging key SRE sources, engaging with thought-leaders in the SRE space and working with organizations embracing SRE to extract real-life best practices and has been designed to teach the key principles & practices necessary for starting SRE adoption. | https://www.newhorizons.com/course-outline/courseid/200013991 |
| DevSecOps Foundation | 2.00 | $ 1,495.00 | In this course, students will gain a solid understanding of the leadership requirements for successful DevOps adoption at both the tactical and strategic levels for those who help design, influence, implement and motivate the cultural transformation. | https://www.newhorizons.com/course-outline/courseid/200010507 |
| Disciplined Agile Scrum Master (DASM) Certification | 2.00 | $ 1,195.00 | Disciplined Agile (DA) is a process-decision tool kit that provides straightforward guidance to help people, teams, and organizations to streamline their processes in a context-sensitive manner. Disciplined Agile (DA) provides a solid foundation for business agility by showing how the various activities such as Solution Delivery (software development), IT Operations, Enterprise Architecture, Portfolio Management, Security, Finance, Vendor Management, and many others work together. DA also describes what these activities should address, provides a range of options for doing so, and describes the trade-offs associated with each option. Becoming a Disciplined Agile Scrum Master enables you to improve team performance through the use of agile and lean approaches like Scrum, Kanban, SAFe®, and more.  This course has been approved by PMI for 14 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200767 |
| Discovering Your Leadership Voice | 2.00 | $ 1,495.00 | Leaders inspire followership in others. Whether speaking conversationally or presenting before a group, a powerful leadership message delivered with impact and focused on the needs of the audience, can motivate and energize others. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201071 |
| Django Development with Python | 3.00 | $ 1,895.00 | This Django training course is for students who want to learn how to use the Django framework to create fully functional and beautiful websites. Django is a high level and open source python framework that allows fast and clean web-development without the necessity of manually handling the connection between front- and backend. Django comes with built-in tools for rapidly deploying and scaling websites, including database management tools and administration capabilities. Students will discover the rapid development and clean, pragmatic design that is possible with Django.   Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200916 |
| Docker Containerization Essentials | 1.00 | $ 800.00 | In this course, you'll learn how to create and manage individual containers using the Docker Engine. We'll cover best practices in container image design and container deployment and auditing, as well as an introduction to single-node container networking and storage. This course is best practices focused, and is designed to enable rapid successful adoption of containerization from first principles. | https://www.newhorizons.com/course-outline/courseid/300201236 |
| Docker Swarm Application Essentials | 1.00 | $ 800.00 | In this course, you'll learn what a containerized application looks like when orchestrated by Docker Swarm. We'll cover scheduling workloads across a cluster, networking stateless and stateful applications, provisioning dynamic configuration and persistent storage, and scaling highly available applications in this course intended to set a strong foundation in orchestration for all technical roles. | https://www.newhorizons.com/course-outline/courseid/300201298 |
| DP-080T00 Querying Data with Microsoft Transact-SQL | 2.00 | $ 1,295.00 | This course will teach the basics of Microsoft's dialect of the standard SQL language: Transact-SQL. Topics include both querying and modifying data in relational databases that are hosted in Microsoft SQL Server-based database systems, including: Microsoft SQL Server, Azure SQL Database and, Azure Synapse Analytics. | https://www.newhorizons.com/course-outline/courseid/100001039 |
| DP-100T01 Designing and Implementing a Data Science Solution on Azure | 4.00 | $ 2,495.00 | Learn how to operate machine learning solutions at cloud scale using Azure Machine Learning. This course teaches you to leverage your existing knowledge of Python and machine learning to manage data ingestion and preparation, model training and deployment, and machine learning solution monitoring with Azure Machine Learning and MLflow. | https://www.newhorizons.com/course-outline/courseid/200012538 |
| DP-203T00 Data Engineering on Microsoft Azure | 4.00 | $ 2,495.00 | In this course, the student will learn how to implement and manage data engineering workloads on Microsoft Azure, using Azure services such as Azure Synapse Analytics, Azure Data Lake Storage Gen2, Azure Stream Analytics, Azure Databricks, and others. The course focuses on common data engineering tasks such as orchestrating data transfer and transformation pipelines, working with data files in a data lake, creating and loading relational data warehouses, capturing and aggregating streams of real-time data, and tracking data assets and lineage. | https://www.newhorizons.com/course-outline/courseid/100001038 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| DP-3001 Migrate SQL Server workload to Azure SQL | 1.00 | $ 595.00 | This learning path prepares you for the task of migrating SQL Server workloads to Azure SQL Database. You'll learn how to assess SQL Server components and compatibility for migration using the Azure SQL Migration Extension and Database Migration Assistant. This training guides you through the process of provisioning and configuring Azure SQL Database resources. You gain hands-on experience in choosing the best migration option to meet business requirements for downtime, handling migration state, and monitoring database migration. Additionally, you'll also learn to perform post-migration tasks like disaster recovery and monitoring for Azure SQL Database. These skills are essential for ensuring a smooth, efficient transition to Azure SQL Database, and maintaining its operation post-migration. | https://www.newhorizons.com/course-outline/courseid/300201171 |
| DP-3007 Train and deploy a machine learning model with Azure Machine Learning | 1.00 | $ 595.00 | To train a machine learning model with Azure Machine Learning, you need to make data available and configure the necessary compute. After training your model and tracking model metrics with MLflow, you can decide to deploy your model to an online endpoint for real-time predictions. Throughout this learning path, you explore how to set up your Azure Machine Learning workspace, after which you train and deploy a machine learning model. | https://www.newhorizons.com/course-outline/courseid/300201172 |
| DP-300T00 Administering Microsoft Azure SQL Solutions | 4.00 | $ 2,495.00 | This course provides students with the knowledge and skills to administer a SQL Server database infrastructure for cloud, on-premises and hybrid relational databases and who work with the Microsoft PaaS relational database offerings. Additionally, it will be of use to individuals who develop applications that deliver content from SQL-based relational databases. | https://www.newhorizons.com/course-outline/courseid/200015262 |
| DP-3011 Implementing a Data Analytics Solution with Azure Databricks | 1.00 | $ 695.00 | Learn how to harness the power of Apache Spark and powerful clusters running on the Azure Databricks platform to run large data engineering workloads in the cloud. | https://www.newhorizons.com/course-outline/courseid/300201119 |
| DP-3012 Implementing a Data Analytics Solution with Azure Synapse Analytics | 1.00 | $ 595.00 | This is a single day Instructor Lead Course designed to give the learners instruction on the SQL dedicated and serverless Spark pools and providing instruction of data wrangling and the ELT process using Synapse Pipelines which is very similar to those familiar with Azure Data Factory (ADF) to move data into the Synapse dedicated pool database. | https://www.newhorizons.com/course-outline/courseid/300201120 |
| DP-3014 Implementing a Machine Learning solution with Azure Databricks | 1.00 | $ 595.00 | Azure Databricks is a cloud-scale platform for data analytics and machine learning. Data scientists and machine learning engineers can use Azure Databricks to implement machine learning solutions at scale. | https://www.newhorizons.com/course-outline/courseid/300201121 |
| DP-3015 Getting Started with Cosmos DB NoSQL Development | 1.00 | $ 595.00 | This course teaches developers to utilize Azure Cosmos DB for NoSQL API and SDK. Students will learn query execution, resource configuration, SDK operations, and design strategies for non-relational data modeling and data partitioning. | https://www.newhorizons.com/course-outline/courseid/300201173 |
| DP-420T00: Designing and Implementing Cloud-Native Applications Using Microsoft Azure Cosmos DB | 4.00 | $ 2,495.00 | This course teaches developers how to create application using the NoSQL API and SDK for Azure Cosmos DB. Students will learn how to write efficient queries, create indexing policies, manage and provisioned resources, and perform common operations with the SDK. | https://www.newhorizons.com/course-outline/courseid/100001064 |
| DP-500T00 Designing and Implementing Enterprise-Scale Analytics Using Azure and Power BI | 4.00 | $ 2,495.00 | This course covers methods and practices for performing advanced data analytics at scale. Students will build on existing analytics experience and will learn to implement and manage a data analytics environment, query and transform data, implement and manage data models, and explore and visualize data. In this course, students will use Microsoft Purview, Azure Synapse Analytics, and Power BI to build analytics solutions. | https://www.newhorizons.com/course-outline/courseid/300200618 |
| DP-600T00 Microsoft Fabric Analytics Engineer | 4.00 | $ 2,380.00 | This course covers methods and practices for implementing and managing enterprise-scale data analytics solutions using Microsoft Fabric. Students will build on existing analytics experience and will learn how to use Microsoft Fabric components, including lakehouses, data warehouses, notebooks, dataflows, data pipelines, and semantic models, to create and deploy analytics assets. This course is best suited for those who have the PL-300 certification or similar expertise in using Power BI for data transformation, modeling, visualization, and sharing. Also, learners should have prior experience in building and deploying data analytics solutions at the enterprise level. | https://www.newhorizons.com/course-outline/courseid/300201122 |
| DP-601T00 Implementing a Lakehouse with Microsoft Fabric | 1.00 | $ 695.00 | This course is designed to build your foundational skills in data engineering on Microsoft Fabric, focusing on the Lakehouse concept. This course will explore the powerful capabilities of Apache Spark for distributed data processing and the essential techniques for efficient data management, versioning, and reliability by working with Delta Lake tables. This course will also explore data ingestion and orchestration using Dataflows Gen2 and Data Factory pipelines. This course includes a combination of lectures and hands-on exercises that will prepare you to work with lakehouses in Microsoft Fabric. | https://www.newhorizons.com/course-outline/courseid/300200963 |
| DP-602T00 Implement a Data Warehouse with Microsoft Fabric | 1.00 | $ 595.00 | Explore the data warehousing process and learn how to load, monitor, and query a warehouse in Microsoft Fabric. | https://www.newhorizons.com/course-outline/courseid/300201205 |
| DP-603T00 Implementing Real Time Analytics with Microsoft Fabric | 1.00 | $ 595.00 | In this learning path, the student is exposed to various ways to: Source streaming data sources into Microsoft Fabric. Use real time Eventstream in Microsoft Fabric. Query data in a KQL database in Microsoft Fabric. Create real time dashboards in Microsoft Fabric. | https://www.newhorizons.com/course-outline/courseid/300201208 |
| DP-604T00 Implement a data science and machine learning solution for AI with Microsoft Fabric | 1.00 | $ 595.00 | Explore the data science process and learn how to train machine learning models to accomplish artificial intelligence in Microsoft Fabric. | https://www.newhorizons.com/course-outline/courseid/300201206 |
| DP-605T00 Develop dynamic reports with Microsoft Power BI | 1.00 | $ 595.00 | Transform and load data, define semantic model relationships and calculations, create interactive visuals, and distribute reports using Power BI. | https://www.newhorizons.com/course-outline/courseid/300201123 |
| DP-900T00 Microsoft Azure Data Fundamentals | 1.00 | $ 695.00 | In this course, students will gain foundational knowledge of core data concepts and related Microsoft Azure data services. Students will learn about core data concepts such as relational, non-relational, big data, and analytics, and build their foundational knowledge of cloud data services within Microsoft Azure. Students will explore fundamental relational data concepts and relational database services in Azure. They will explore Azure storage for non-relational data and the fundamentals of Azure Cosmos DB. Students will learn about large-scale data warehousing, real-time analytics, and data visualization. | https://www.newhorizons.com/course-outline/courseid/200015362 |
| Dreamweaver Fundamentals: An Introduction to Dreamweaver | 3.00 | $ 1,150.00 | Adobe Dreamweaver CC web design software provides an intuitive visual interface for making and editing HTML websites and mobile apps. This course will provide web designers with the knowledge and hands-on practice they need to build and manage professional websites. | https://www.newhorizons.com/course-outline/courseid/300201243 |
| EC-Council Certified Application Security Engineer (CASE).NET | 3.00 | $ 2,097.00 | The Certified Application Security Engineer (CASE) credential is developed in partnership with large application and software development experts globally. The CASE credential tests the critical security skills and knowledge required throughout a typical software development life cycle (SDLC), focusing on the importance of the implementation of secure methodologies and practices in today's insecure operating environment. The CASE certified training program is developed concurrently to prepare software professionals with the necessary capabilities that are expected by employers and academia globally. It is designed to be a hands-on, comprehensive application security course that will help software professionals create secure applications. The training program encompasses security activities involved in all phases of the Software Development Lifecycle (SDLC): planning, creating, testing, and deploying an application. Unlike other application security trainings, CASE goes beyond just the guidelines on secure coding practices and includes secure requirement gathering, robust application design, and handling security issues in post development phases of application development. This makes CASE one of the most comprehensive certifications on the market today. It is desired by software application engineers, analysts, testers globally, and respected by hiring authorities. | https://www.newhorizons.com/course-outline/courseid/200011868 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| EC-Council Certified Chief Information Security Officer (C\|CISO) | 4.00 | $ 3,495.00 | In this course, students will learn in-depth content in each of the 5 CCISO Domains. The CCISO Certification is an industry-leading program that recognizes the real-world experience necessary to succeed at the highest executive levels of information security. Bringing together all the components required for a C-Level positions, the CCISO program combines audit management, governance, IS controls, human capital management, strategic program development, and the financial expertise vital to leading a highly successful IS program. The job of the CISO is far too important to be learned by trial and error. Executive level management skills are not areas that should be learned on the job. Material in the CCISO Program assumes a high-level understanding of technical topics and doesn't spend much time on strictly technical information, but rather on the application of technical knowledge to an information security executive's day-to-day work. The CCISO aims to bridge the gap between the executive management knowledge that CISOs need and the technical knowledge that many sitting and aspiring CISOs have. This can be a crucial gap as a practitioner endeavors to move from mid-management to upper, executive management roles. Much of this is traditionally learned as on the job training, but the CCISO Training Program can be the key to a successful transition to the highest ranks of information security management. | https://www.newhorizons.com/course-outline/courseid/200008552 |
| EC-Council Certified Cloud Security Engineer (CCSE) | 5.00 | $ 3,495.00 | EC-Council's Certified Cloud Security Engineer (C\|CSE) course is a specialized program curated by cloud security professionals in collaboration with subject matter experts from around the globe. C\|CSE is a hands-on learning certification course that adopts a detailed and methodological approach to teaching the fundamental concepts of cloud security. EC-Council's C\|CSE program blends vendor-neutral and vendor-specific cloud security concepts, offering aspirants an unbiased learning approach. Vendor-neutral concepts emphasize universally applicable cloud security best practices, technologies, and frameworks to help individuals strengthen their grasp of the fundamentals. Vendor-specific concepts help individuals gain the practical skills needed to work with specific cloud platforms. | https://www.newhorizons.com/course-outline/courseid/100001075 |
| EC-Council Certified Cybersecurity Technician (C\|CT) | 5.00 | $ 3,495.00 | EC-Council's C\|CT certification immerses students in well-constructed knowledge transfer. Training is accompanied by critical thinking challenges and immersive lab experiences that allow candidates to apply their knowledge and move into the skill development phase in the class itself. Upon completing the program, C\|CT-certified professionals will have a strong foundation in cybersecurity principles and techniques as well as hands-on exposure to the tasks required in real-world jobs. | https://www.newhorizons.com/course-outline/courseid/100001076 |
| EC-Council Certified DevSecOps Engineer (ECDE) | 3.00 | $ 1,799.00 | EC-Council Certified DevSecOps Engineer (E\|CDE) is a hands-on, instructor-led comprehensive DevSecOps certification program that helps professionals build the essential skills to design, develop, and maintain secure applications and infrastructure. | https://www.newhorizons.com/course-outline/courseid/300200815 |
| EC-Council Certified Ethical Hacker (CEH) v12 | 5.00 | $ 3,495.00 | CEH provides an in-depth understanding of ethical hacking phases, various attack vectors, and preventative countermeasures. It will teach you how hackers think and act maliciously so you will be better positioned to setup your security infrastructure and defend against future attacks. An understanding of system weaknesses and vulnerabilities helps organizations strengthen their system security controls to minimize the risk of an incident. CEH was built to incorporate a hands-on environment and systematic process across each ethical hacking domain and methodology, giving you the opportunity to work towards proving the required knowledge and skills needed to achieve the CEH credential. You will be exposed to an entirely different posture toward the responsibilities and measures required to be secure. Now in its 12th version, CEH continues to evolve with the latest operating systems, tools, tactics, exploits, and technologies. | https://www.newhorizons.com/course-outline/courseid/300200704 |
| EC-Council Certified Incident Handler (ECIH) | 3.00 | $ 1,799.00 | EC-Council's Certified Incident Handler program equips students with the knowledge, skills, and abilities to effectively prepare for, deal with, and eradicate threats and threat actors in an incident. This program provides the entire process of incident handling and response and hands-on labs that teach the tactical procedures and techniques required to effectively plan, record, triage, notify and contain. Students will learn the handling of various types of incidents, risk assessment methodologies, as well as laws and policies related to incident handling. After attending the course, students will be able to create IH&amp;R policies and deal with different types of security incidents such as malware, email security, network security, web application security, cloud security, and insider threat-related incidents. The E\|CIH (EC-Council Certified Incident Handler) also covers post incident activities such as containment, eradication, evidence gathering and forensic analysis, leading to prosecution or countermeasures to ensure the incident is not repeated. | https://www.newhorizons.com/course-outline/courseid/200004540 |
| EC-Council Certified Network Defender (CND) | 5.00 | $ 3,495.00 | Certified Network Defender (CND) is a vendor-neutral, hands-on, instructor-led comprehensive network security certification training program. It is a skills-based, lab intensive program based on a job-task analysis and cybersecurity education framework presented by the National Initiative of Cybersecurity Education (NICE). The course has also been mapped to global job roles and responsibilities and the Department of Defense (DoD) job roles for system/network administrators. The course is designed and developed after extensive market research and surveys. | https://www.newhorizons.com/course-outline/courseid/200009181 |
| EC-Council Certified Network Defense (CND) v3 | 5.00 | $ 3,495.00 | EC-Council's Certified Network Defender (C\|ND) is an essential vendor-neutral network security certification for every IT and systems administrator who needs to operate with a secure mindset. Students will learn the critical skills required to defend their networks and operating environments across local networks, endpoints, cloud infrastructure, applications, OT, and Mobile. They will also acquire knowledge of effective proper log analysis, network traffic monitoring, basic investigation and response, as well as business continuity and disaster recovery. Additionally, they will dive into threats, analyzing the attack surface, and studying threat prediction and threat intelligence as it relates to their administration and defense responsibilities. Often referred to as blue-teaming, C\|NDs will be able to apply defense and countermeasure strategies in their organizations, playing a critical role not only in attack prevention but also in detection, response, and remediation as they configure networks and systems to operate securely.  he C\|ND program will cover the concepts and fortify skills through hands-on practice across over 110 labs delivered on live target machines. The C\|ND program designed by industry experts prepares network defenders with strategic, technological, and operational network security capabilities, enabling them to design, develop, and  maintain secure networks. | https://www.newhorizons.com/course-outline/courseid/300201193 |
| EC-Council Certified Penetration Tester (CPENT) | 5.00 | $ 3,495.00 | EC-Council's Certified Penetration Tester (CPENT) program teaches you how to perform an effective penetration test in an enterprise network environment that must be attacked, exploited, evaded, and defended. If you have only been working in flat networks, CPENT's live practice range will teach you to take your skills to the next level by teaching you how to pen test IoT systems, OT systems, how to write your own exploits, build your own tools, conduct advanced binaries exploitation, double pivot to access hidden networks, and also customize scripts/exploits to get into the innermost segments of the network. | https://www.newhorizons.com/course-outline/courseid/300200617 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| EC-Council Certified Secure Computer User (CSCU) v3 | 2.00 | $ 1,095.00 | The CSCU program is designed to educate students on the safe operation of computers, devices, and networks by focusing on the more practical aspects of networking and security, allowing them to expand their skills. Students will develop a fundamental understanding of computer, device, and network security issues, including identity theft, credit card fraud, online banking phishing scams, malware, loss of sensitive information, and social engineering. This certification is an excellent complement to educational offerings for knowledge workers and end-users interested in becoming secure power users. | https://www.newhorizons.com/course-outline/courseid/100001052 |
| EC-Council Certified SOC Analyst (CSA) | 3.00 | $ 2,097.00 | The Certified SOC Analyst (CSA) program is the first step to joining a security operations center (SOC). It is engineered for current and aspiring Tier I and Tier II SOC analysts to achieve proficiency in performing entry-level and intermediate-level operations. CSA is a training and credentialing program that helps the candidate acquire trending and in-demand technical skills through instruction by some of the most experienced trainers in the industry. The program focuses on creating new career opportunities through extensive, meticulous knowledge with enhanced level capabilities for dynamically contributing to a SOC team. Being an intense 3-day program, it thoroughly covers the fundamentals of SOC operations, before relaying the knowledge of log management and correlation, SIEM deployment, advanced incident detection, and incident response. Additionally, the candidate will learn to manage various SOC processes and collaborate with CSIRT at the time of need. | https://www.newhorizons.com/course-outline/courseid/100001027 |
| EC-Council Certified Threat Intelligence Analyst (CTIA) | 3.00 | $ 2,097.00 | Do you possess an analytical mind? Is critical thinking a part of who you are? Then you've come to the right place. A Certified Threat Intelligence Analyst (CTIA) acts as a force multiplier for organizations looking to reinforce their cyber defense security measures. Threat intelligence is akin to what conventional intelligence agencies across the world engage in to perceive and neutralize threats before any harm can be done. As a certified threat intelligence analyst, you'll be at the vanguard of your organization's cybersecurity ecosystem, keeping a 360 degree vigil on existing and foreseen/unforeseen threats. The Certified Threat Intelligence Analyst (CTIA) program is designed and developed in collaboration with cybersecurity and threat intelligence experts across the globe. The aim is to help organizations hire qualified cyber intelligence trained professionals to identify and mitigate business risks by converting unknown internal and external threats into quantifiable threat entities and stop them in their tracks. Much like a 'hunter-killer' team, you'll be deployed as a 'Blue Team' operative, tasked with threat identification, and asked to employ the tools at hand to thwart active and potential cyberattacks. | https://www.newhorizons.com/course-outline/courseid/100001028 |
| EC-Council Certified Threat Intelligence Analyst (CTIA) v2 | 3.00 | $ 2,097.00 | EC-Council's Certified Threat Intelligence Analyst (C\|TIA) Certification is a comprehensive specialist-level professional program focused on the ever-evolving domain of threat intelligence. The program is designed for individuals involved in collecting, analyzing, and disseminating threat intelligence information. C\|TIA covers various topics, including the fundamentals of threat intelligence, the use of threat intelligence tools and techniques, and the development of a threat intelligence program. This course focuses on refining data and information into actionable intelligence that can be used to prevent, detect, and monitor cyber-attacks. It addresses all stages involved in the threat intelligence lifecycle, and this attention toward a realistic and futuristic approach makes it one of the most comprehensive threat intelligence certifications in the market today. The program provides credible professional insights required for a successful threat intelligence career and enhances your overall skills, thus increasing your employability. It is desired by most cybersecurity engineers, analysts, and professionals globally and is respected by hiring authorities. Ideal for individuals working in information security, network security, incident response, and other related fields. Mastering skills and earning this certification can help enhance threat intelligence operations and investments for cybersecurity individuals and teams. | https://www.newhorizons.com/course-outline/courseid/300201194 |
| EC-Council Computer Hacking Forensics Investigator (CHFI) v10 | 5.00 | $ 3,495.00 | EC-Council's Certified Hacking Forensic Investigator (CHFI) is the only comprehensive ANSI accredited, lab-focused program in the market that gives organizations vendor-neutral training in digital forensics. CHFI provides its attendees with a firm grasp of digital forensics, presenting a detailed and methodological approach to digital forensics and evidence analysis that also pivots around Dark Web, IoT, and Cloud Forensics. The tools and techniques covered in this program will prepare the learner for conducting digital investigations using ground-breaking digital forensics technologies. | https://www.newhorizons.com/course-outline/courseid/100001081 |
| EC-Council Computer Hacking Forensics Investigator (CHFI) v11 | 5.00 | $ 3,495.00 | EC-Council's C\|HFI program prepares cybersecurity professionals with the knowledge and skills to perform effective digital forensics investigations and bring their organization into a state of forensic readiness. Establishing the forensics process, lab, evidence handling procedures, and investigation techniques are required to validate/triage incidents and point the incident response teams in the right direction. Forensic readiness is crucial as it can differentiate between a minor incident and a major cyber-attack that brings a company to its knees. This intense hands-on digital forensics program immerses students in over 68 forensic labs, working on crafted evidence files utilizing the tools of the world's top digital forensics professionals. Students will go beyond traditional hardware and memory forensics, covering current topics in cloud forensics, mobile and IoT, and investigating web application attacks and malware forensics. The C\|HFI presents a methodological approach to computer forensics, including searching and seizing, chain-of-custody, acquisition, preservation, analysis, and reporting of digital evidence. Students learn various forensic investigation techniques and standard forensic tools. As they learn how to acquire and manage evidence through various operating environments, students also learn the chain of custody and legal procedures required to preserve evidence and ensure it is admissible in court, enabling the eventual prosecution of cyber criminals and containing liability on the victim organization. | https://www.newhorizons.com/course-outline/courseid/300201192 |
| Effective Interpersonal Communication for Business Professionals | 1.00 | $ 395.00 | To be successful in the workplace, you must be able to effectively communicate and cooperate with coworkers and external people. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201044 |
| Effective Leadership through Coaching | 2.00 | $ 1,495.00 | In the face of rapid, disruptive change, companies understand that command-and-control leadership is no longer viable. As a result, many firms are moving toward a coaching model in which managers facilitate problem solving and encourage employees' development by asking questions and offering support and guidance rather than giving orders and making judgments. Leaders can use the GROW and Thought models of coaching to become more skilled at listening, questioning, and drawing insights out of the people they supervise. This course will help you develop coaching skills that motivate employees to reach their full potential. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201072 |
| Effective Management | 1.00 | $ 395.00 | In this course, students will gain an understanding of the basic fundamentals of becoming an effective manager for their team. | https://www.newhorizons.com/course-outline/courseid/300201039 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Effective Presentations | 1.00 | $ 435.00 | The ability to deliver presentations is vital to achieving advancement for yourself and for your ideas. Few skills in life will contribute to your success as much as presentation skills. Without a dynamic and coherent presentation, even stellar ideas can fail to convince your audience. In this course, you will learn to organize your ideas to create coherent and convincing oral presentations, while also utilizing available visual aids and using public-speaking techniques to strengthen your delivery. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201051 |
| Eliciting Requirements | 1.00 | $ 795.00 | "Getting it right" on any project is the ability to give stakeholders what they need, not necessarily what they ask for. Solid elicitation skills are the means of identifying real needs versus the stated needs and can make or break a project's success. In organizations with project professionals who use good eliciting skills to gather requirements, stakeholders have shared expectations and face fewer surprises, team members are more efficient in developing solutions, and project environments are more collaborative and productive. Note: This course has been approved by PMI for 7 PDUs and by IIBA for 7 CDUs. | https://www.newhorizons.com/course-outline/courseid/300200748 |
| Email Etiquette | 1.00 | $ 395.00 | In this course, students will learn about e-mail policies and learn how to write professional e-mail memos that convey appropriate messages. | https://www.newhorizons.com/course-outline/courseid/200002326 |
| Emotional Intelligence for Business Professionals | 1.00 | $ 395.00 | It was once believed that intelligence was the metric that would determine a person\'s success in the workplace. Intelligence matters because it contributes to your ability to do your job. But intelligence is not the best indicator of whether or not you\'ll succeed. Your ability to understand and manage your own emotions, and get along well with others, has at least as much impact on your performance and effectiveness as intelligence. In this course, you\'ll explore strategies to increase your awareness of your emotions, develop your ability to manage your emotions, and improve your social skills. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201046 |
| Employee Engagement and Motivation | .50 | $ 495.00 | Are you struggling with employees who disengage from their work and simply collect a paycheck? This course is for new managers looking to motivate and engage their employees amidst contemporary challenges such as remote work, generational change, and evolving employee expectations. The focus is on integrating time-tested motivational theories with a personality and preference-based approach suited to today's modern workplace. | https://www.newhorizons.com/course-outline/courseid/300201305 |
| Employee Motivation | 1.00 | $ 395.00 | This course will assist students in understanding and implementing strategies that will help to motivate their work force. | https://www.newhorizons.com/course-outline/courseid/200008473 |
| Engineering Cisco Meraki Solutions v2 - Part I (ECMS1) | 1.00 | $ 995.00 | Engineering Cisco Meraki Solutions Part 1 (ECMS1) v2.0 is a 1-day course that equips you with the knowledge and skills to confidently operate Cisco Meraki solutions as a unified management system of an entire network from a centralized dashboard. Through a full day of instruction including live demos and guided lab practice, you will learn how to implement core configurations for a full stack solution in the Meraki Dashboard and leverage essential Meraki Dashboard tools to enforce device security policies, deploy software and apps, and perform remote, live troubleshooting on managed devices. This is the first of two courses that prepare you to take the Cisco Meraki Solutions Specialist certification exam. This course, along with ECMS - Part 2 prepares you for the exam #500-220. | https://www.newhorizons.com/course-outline/courseid/300040027 |
| Enterprise Kubernetes Storage with Red Hat OpenShift Data Foundation (DO370) | 5.00 | $ 4,280.00 | Teaches the essential skills required to design, implement, and manage a Red Hat OpenShift Data Foundation cluster and perform day-to-day Kubernetes storage management tasks.Traditional storage options available to Kubernetes administrators are limited and lack flexibility and/or versatility. Red Hat OpenShift Data Foundation provides real advantages, even when it is backed by cloud storage such as AWS EBS and sophisticated on-prem legacy storage like SAN arrays. Many companies rely on third-party solutions to manage backup and disaster recovery in production. However, proper planning to implement these solutions requires knowledge of the Kubernetes CSI and OAPD APIs. This course walks the student through the recommended steps of configuring and managing storage services for container and Kubernetes services. | https://www.newhorizons.com/course-outline/courseid/300160020 |
| Entry Certificate in Business Analysis (IIBA-ECBA®) Certification Exam Prep | 3.00 | $ 1,595.00 | For professionals new to business analysis roles and responsibilities within their organization, this course will provide you with not only the preparation you will need to pass IIBA's Entry Certificate in Business Analysis (ECBA) exam, but also a foundation for a career in business analysis. Participants will learn invaluable tips and tricks needed to pass the ECBA exam. This course follows IIBAs ECBA exam blueprint based on the BABOK® Guide v.3.0. This course satisfies the 21 hours of formal education required to sit for the ECBA exam. We are excited to introduce a special add-on bundle to enhance your learning experience with our IBA certification courses. This unique bundle includes a 1-year membership, providing access to exclusive resources and benefits, coupled with an extraordinary 30% discount on exam fees and applicable application fees. To benefit from this exclusive offer, we encourage you to reach out to your dedicated representative or contact us indicating your interest in taking advantage of this exclusive offer. | https://www.newhorizons.com/course-outline/courseid/300200751 |
| ES52G IBM z/OS REXX Programming Workshop | 5.00 | $ 4,175.00 | This course is designed to teach you the basic skills required to write programs using the REXX language in z/OS. The course covers the TSO extensions to REXX and interaction with other environments such as the MVS console, running REXX in batch jobs, and compiling REXX. | https://www.newhorizons.com/course-outline/courseid/200007641 |
| Essentials for New Lightning Experience Administrators (ADX201) | 5.00 | $ 4,500.00 | Discover the world of a Salesforce Administrator by working firsthand to configure and customize a Salesforce org. This 5-day class is designed for new admins. In the class, experts guide you through the important tasks and features that Salesforce Administrators encounter daily. You'll learn about Salesforce's architecture, how to manage users, and how to keep your org secure. Dive into best practices surrounding customization, set up automations to improve efficiency, and create reports and dashboards for data analysis. NOTE: This course is offered in the standard 5-day format and also the extended 10-day format. | https://www.newhorizons.com/course-outline/courseid/300200898 |
| Ethereum Training: Hands-on Ethereum Development Bootcamp | 3.00 | $ 1,895.00 | This 3 day instructor-led course is designed for programmers and developers who want to take a comprehensive deep dive in writing smart contracts and building applications that interact with them. This course provides detailed overviews of Ethereum, smart contracts, and the development language, Solidity. The student will be exposed to Ethereum's adaptable feature set which allows the developer to design decentralized applications for countless applications. Students will also participate in hands-on programming lab sessions to learn, develop, and advance their skills in Ethereum development. The Ethereum Development Training Course is designed for those seeking an in-depth understanding and development experience of the Ethereum Blockchain platform. | https://www.newhorizons.com/course-outline/courseid/300080001 |
| Evolving into the Manager Role | 3.00 | $ 2,250.00 | In this course, students will learn how to confidently acquire and build these skills through relevant discussions, team and individual activities. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201073 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Evolving Into the Supervisor's Role | 1.00 | $ 795.00 | This course is for those taking on supervisory positions looking to motivate and engage their employees amidst challenges such as determining their leadership style, communicating with former peers, and providing feedback that is more readily accepted. The emphasis is on making the change from being a co-worker to engaging in a position of authority while at the same time maintaining a sense of control and expedience. | https://www.newhorizons.com/course-outline/courseid/300201307 |
| Excel - Data Analysis with PivotTables | .50 | $ 148.00 | Being able to harness the power of PivotTable features & create PivotCharts will help students gain an edge. Not only will students be able to summarize data to analyze, but they can organize the data in a way that can be meaningfully presented to others. | https://www.newhorizons.com/course-outline/courseid/100001095 |
| Excel - Data Analysis with Power Pivot | .50 | $ 148.00 | Excel provides Power Pivot to help students organize, manipulate, and report on their data in the best way possible. In this course, students gain a solid understanding of Power Pivot to maximize their effectiveness when analyzing data. | https://www.newhorizons.com/course-outline/courseid/100001096 |
| Excel - Formulas & Charts | .50 | $ 148.00 | In This Course, students will analyze Excel data, create Formulas, Charts and Data to Support Excel Spreadsheets and Workbooks. | https://www.newhorizons.com/course-outline/courseid/100001101 |
| Excel - Part 1 | 1.00 | $ 295.00 | This course aims to provide you with a foundation for Excel knowledge and skills, which you can build upon to eventually become an expert in data manipulation. This course covers Microsoft Office Specialist Program exam objectives to help you prepare for the Excel Associate (Office 365 and Office 2019): Exam MO-200 and Excel Expert (Office 365 and Office 2019): Exam MO-201. | https://www.newhorizons.com/course-outline/courseid/100001097 |
| Excel - Part 2 | 1.00 | $ 295.00 | This course builds upon the foundational knowledge presented in the Microsoft Excel- Part 1 course and will help start you down the road to creating advanced workbooks and worksheets that can help deepen your understanding of organizational intelligence. The ability to analyze massive amounts of data, extract actionable information from it, and present that information to decision makers is at the foundation of a successful organization that is able to compete at a high level. This course covers Microsoft Office Specialist Program exam objectives to help you prepare for the Excel Associate (Office 365 and Office 2019): Exam MO-200 and Excel Expert (Office 365 and Office 2019): Exam MO-201 certifications. | https://www.newhorizons.com/course-outline/courseid/100001098 |
| Excel - Part 3 | 1.00 | $ 295.00 | In this course, you will build upon the foundational and intermediate knowledge presented in the Microsoft Excel - Part 1 and Microsoft Excel - Part 2 courses to help you get the most of your Excel experience. The ability to collaborate with colleagues, automate complex or repetitive tasks, and use conditional logic to construct and apply elaborate formulas and functions will put the full power of Excel right at your fingertips. The more you learn about how to get Excel to do the hard work for you, the more you'll be able to focus on getting the answers you need from the vast amounts of data your organization generates. | https://www.newhorizons.com/course-outline/courseid/100001099 |
| Excel - Pivot Tables and Conditional Formatting | .50 | $ 148.00 | In This Course, students will analyze Excel data, create PivotTables, Pivot Charts as well as Analyzing Pivot Tables. | https://www.newhorizons.com/course-outline/courseid/100001100 |
| Excel Dashboards | 1.00 | $ 295.00 | Today's world runs on data more than ever before and that's a trend not likely to change, or even slow down, any time soon. With the tremendous amount of available data, the ability to make sense of it continues to be an ongoing challenge. You already know how to use Excel to perform simple calculations and modify worksheets to make them easier to read, interpret, and present to others. But Excel is capable of doing so much more. To gain a truly competitive edge, you need to be able to extract actionable organizational intelligence from your raw data, and present it in a visually compelling format that enables decision makers to view key trends and gain insights. And that's exactly what this course aims to help you do. | https://www.newhorizons.com/course-outline/courseid/300201036 |
| Expanding Your Emotional Intelligence | 2.00 | $ 1,495.00 | It's a jungle out there! The workplace can be filled with stress, pressure, excitement, and anxiety. Emotional Intelligence (EI) is how we identify and regulate our own feelings, tune into the feelings of others and understand their perspectives, and use this knowledge to guide us toward constructive interactions. Emotional Intelligence is more than your average "soft skill". It is essential to successful teamwork, effective leadership, and overall competence. Most of all, it is a skill that takes practice and focus to master.\" The activities and discussions in this workshop will help you build the social and emotional skills that sustain positive relationships at work. These skills support everything from good management - with happier employees who take fewer sick days - to better teamwork, conflict resolution, and recovery from setbacks. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201074 |
| Extending Your Sphere of Influence | 2.00 | $ 1,495.00 | In this course, you will learn to become proficient in the art of persuasion, selecting and utilizing appropriate styles and strategies to have the most influential effect, as well as understanding how to protect yourself from being manipulated by others. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201075 |
| F5 Networks Administering BIG-IP | 2.00 | $ 2,310.00 | This course gives network administrators, network operators, and network engineers a functional understanding of the BIG-IP system as it is commonly deployed in an application delivery network. The course introduces students to the BIG-IP system, its configuration objects, how it processes traffic, and how typical administrative and operational activities are performed. The course includes lecture, hands-on labs, interactive demonstrations, and discussions. | https://www.newhorizons.com/course-outline/courseid/300090001 |
| F5 Networks Configuring BIG-IP Advanced WAF: Web Application Firewall | 4.00 | $ 4,620.00 | In this 4 day course, students are provided with a functional understanding of how to deploy, tune, and operate F5 Advanced Web Application Firewall to protect their web applications from HTTP-based attacks. The course includes lecture, hands-on labs, and discussion about different F5 Advanced Web Application Firewall tools for detecting and mitigating threats from multiple attack vectors such web scraping, Layer 7 Denial of Service, brute force, bots, code injection, and zero day exploits. | https://www.newhorizons.com/course-outline/courseid/300090007 |
| F5 Networks Configuring BIG-IP AFM: Advanced Firewall Manager | 2.00 | $ 2,310.00 | This course uses lectures and hands-on exercises to give participants real-time experience in setting up and configuring the BIG-IP Advanced Firewall Manager (AFM) system. Students are introduced to the AFM user interface, stepping through various options that demonstrate how AFM is configured to build a network firewall and to detect and protect against DoS (Denial of Service) attacks. Reporting and log facilities are also explained and used in the course labs. Further Firewall functionality and additional DoS facilities for DNS and SIP traffic are discussed. | https://www.newhorizons.com/course-outline/courseid/300090012 |
| F5 Networks Configuring BIG-IP APM: Access Policy Manager | 3.00 | $ 3,465.00 | This three-day course gives network administrators, network operators, and network engineers a functional understanding of BIG-IP Access Policy Manager as it is commonly deployed in both application delivery network and remote access settings. The course introduces students to BIG-IP Access Policy Manager, its configuration objects, how it commonly deployed, and how typical administrative and operational activities are performed. The course includes lecture, hands-on labs, interactive demonstrations, and discussions. | https://www.newhorizons.com/course-outline/courseid/300090003 |
| F5 Networks Configuring BIG-IP DNS: Domain Name System | 2.00 | $ 2,310.00 | This course gives networking professionals a functional understanding of the BIG-IP DNS system as it is commonly used. The course covers configuration and ongoing management of the BIG-IP DNS system, and includes a combination of lecture, discussion, and hands-on labs. | https://www.newhorizons.com/course-outline/courseid/300090005 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| F5 Networks Configuring BIG-IP LTM: Local Traffic Manager | 3.00 | $ 3,465.00 | This course gives network professionals a functional understanding of BIG-IP Local Traffic Manager, introducing students to both commonly used and advanced BIG-IP LTM features and functionality. Incorporating lecture, extensive hands-on labs, and classroom discussion, the course helps students build the well-rounded skill set needed to manage BIG-IP LTM systems as part of a flexible and high performance application delivery network. | https://www.newhorizons.com/course-outline/courseid/300090002 |
| F5 Networks Developing iRules for BIG-IP | 3.00 | $ 3,300.00 | This course provides networking professionals a functional understanding of iRules development. The course builds on the foundation of the Administering BIG-IP or Configuring LTM course, demonstrating how to logically plan and write iRules to help monitor and manage common tasks involved with processing traffic on the BIG-IP system. Extensive course labs consist of writing, applying and evaluating the effect of iRules on local traffic. This hands-on course includes lectures, labs, and discussions. | https://www.newhorizons.com/course-outline/courseid/300090008 |
| F5 Networks Troubleshooting BIG-IP | 2.00 | $ 2,310.00 | This course gives networking professionals hands-on knowledge of how to troubleshoot a BIG-IP system using a number of troubleshooting techniques as well as troubleshooting and system tools. This course includes lectures, labs, and discussions. | https://www.newhorizons.com/course-outline/courseid/300090004 |
| Facilitation Skills Workshop | 1.00 | $ 795.00 | An effective facilitator helps a group accomplish a goal, such as understand or solve a problem, explore opportunities, define requirements, make decisions, or other objectives. The ability to keep the group on task to achieve the goal is the value a good facilitator brings to an organization. The investment in developing facilitation skills is rewarded with increased leadership capabilities, more effective time management in meetings and other group settings, and improved likelihood of achieving team and business goals. | https://www.newhorizons.com/course-outline/courseid/300200772 |
| Fast Track to ColdFusion 10 | 3.00 | $ 1,495.00 | Fast Track to ColdFusion 10 is a 3-day course that provides experienced Web developers with the knowledge and hands-on practice they need to start building and maintaining dynamic and interactive Web applications using ColdFusion 10. | https://www.newhorizons.com/course-outline/courseid/300201241 |
| Final Cut Pro for Post Production | 2.00 | $ 399.00 | This two-day class will teach you about several advanced workflow topics in Final Cut Pro including 360 video and HDR color, how to edit and create content in Apple Motion and how to make the most out of Compressor for exporting. Like all of FMCs classes students will have hands on exercise files to follow along with as well as a guide they can refer to containing the most significant information. | https://www.newhorizons.com/course-outline/courseid/300200804 |
| Final Cut Pro for Social Media | 1.00 | $ 299.00 | This one day live + self-paced class will teach you some of the fundamentals of post-production and walk you through creating a trailer from start to finish. In this class, we'll learn how to import footage from our phone and other sources as well as create, edit, add video effects, color correct and share stories with our audience. | https://www.newhorizons.com/course-outline/courseid/300200797 |
| Final Cut Pro for Video | 2.00 | $ 399.00 | The two-day live class will teach you the fundamentals of post-production and walk you through editing two pieces of content; a high impact trailer with graphics and multi-cam interview from start to finish. In this class, we'll learn how to import and robustly organize footage from multiple sources as well as create, edit, add video effects and animation, use video scopes, perform color correction tasks and export video for multiple formats and devices. | https://www.newhorizons.com/course-outline/courseid/300200798 |
| Firewall Essentials: Configuration and Management (EDU-210) | 5.00 | $ 4,995.00 | Successful completion of this five-day, instructor-led course should enhance the student's understanding of how to configure and manage Palo Alto Networks next-generation firewalls. The student should learn and get hands-on experience configuring, managing, and monitoring a firewall in a lab environment . | https://www.newhorizons.com/course-outline/courseid/300180025 |
| Firewall: Troubleshooting (EDU-330) | 3.00 | $ 2,995.00 | Successful completion of this three-day, instructor-led course should enhance the participant's understanding of how to troubleshoot the full line of Palo Alto Networks next-generation firewalls. Participants will perform hands-on troubleshooting related to the configuration and operation of the Palo Alto Networks firewall. Completion of this class will help participants develop an in-depth knowledge of how to troubleshoot visibility and control over applications, users, and content. | https://www.newhorizons.com/course-outline/courseid/300180022 |
| Flask Development with Python | 3.00 | $ 1,895.00 | This Flask training course is designed for developers familiar with the basics of Python who want to learn how to create functional websites with the microframework Flask. Flask provides core functionality for fast and simple website creation while ensuring to be as small and efficient as possible. "Flask can be everything you need and nothing you don't." To deliver on this promise, it focuses on keeping its core as simple as possible and instead allowing for easy implementation of desired extensions. Multiple global players, such as Netflix, Airbnb, Uber and Samsung use Flask in their technology stack!  Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200917 |
| ForgeRock Access Management: Deep Dive | 5.00 | $ 5,625.00 | The aim of this course is to showcase the key features and capabilities of the versatile and powerful ForgeRock® Access Management (AM). It provides the student with the knowledge and confidence to manage their own environment. It is accepted that this course is not able to demonstrate all the features and capabilities of AM. | https://www.newhorizons.com/course-outline/courseid/300201233 |
| ForgeRock Identity Gateway Deep Dive | 5.00 | $ 5,625.00 | The aim of this course is to showcase the key features and capabilities of the versatile and powerful edge security solution with the ForgeRock® Identity Gateway (IG) environment. It provides the student with the knowledge and confidence to manage their own environment. It is accepted that this course is not able to demonstrate all the features and capabilities of IG. | https://www.newhorizons.com/course-outline/courseid/300201235 |
| ForgeRock Identity Management Deep Dive | 5.00 | $ 5,625.00 | Learn how to install and deploy ForgeRock® Identity Management (IDM) in an on-prem or self-managed cloud environment to manage the lifecycle and relationship of digital identities. Topics include how to model identity objects in IDM, create connector configurations and synchronization mappings to manage the flow identity objects and properties with various external identity resources, manage workflows, and deploy IDM within a cluster. This course explores the identity management-related features in depth, how they work, and the configuration options available during implementation. | https://www.newhorizons.com/course-outline/courseid/300201234 |
| FortiADC | 2.00 | $ 1,900.00 | In this course, you will learn how to configure and administer the most commonly used features of FortiADC. You will explore Layer 4 and Layer 7 server load balancing, link load balancing, global load balancing, high availability (HA), firewall policies, advanced routing, and more. | https://www.newhorizons.com/course-outline/courseid/300201210 |
| FortiAnalyzer Administrator | 1.00 | $ 950.00 | In this course, you will learn how to deploy, configure, and secure FortiAnalyzer. You will also learn how to register and manage devices with FortiAnalyzer. Finally, you will explore the fundamentals of the logging and reporting management capabilities included in FortiAnalyzer. These skills will provide you with a solid foundation for becoming a professional FortiAnalyzer administrator.  This course is intended to help you prepare for the Fortinet NSE 6 - FortiAnalyzer 7.2 Administrator certification exam. This exam is part of the Fortinet Certified Professional - Network Security certification track. | https://www.newhorizons.com/course-outline/courseid/300201027 |
| FortiAnalyzer Analyst | 1.00 | $ 950.00 | In this course, you will learn the fundamentals of using FortiAnalyzer for centralized logging. You will also learn how to identify current and potential threats through log analysis. Finally, you will examine the management of events, incidents, reports, and task automation with playbooks. These skills will provide you with a solid foundation for becoming a SOC analyst in an environment using Fortinet products.  This course is intended to help you prepare for the Fortinet NSE 5 - FortiAnalyzer 7.2 Analyst exam. This exam is part of the Fortinet Certified Professional - Security Operations certification track. | https://www.newhorizons.com/course-outline/courseid/300201028 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| FortiClient EMS- NSE 5 | 2.00 | $ 1,900.00 | In this 1-day course, you will learn how to use the FortiClient feature and provision FortiClient using the FortiClient EMS. In interactive labs, you will explore the FortiClient installation and features. You will also explore EMS components, database management, operation modes, how to deploy FortiClient, and more. These administration fundamentals will provide you with a solid understanding of how to implement and manage endpoint security and the Security Fabric. This course is intended to help you prepare for the FortiClient 6.2 specialist exam. This is one of the courses that prepares you to take the NSE 5 certification exam | https://www.newhorizons.com/course-outline/courseid/300180040 |
| FortiGate Administrator | 4.00 | $ 3,800.00 | In this course, you will learn how to use the most common FortiGate features. In interactive labs, you will explore firewall policies, user authentication, high availability, SSL VPN, site-to-site IPsec VPN, Fortinet Security Fabric, and how to protect your network using security profiles, such as IPS, antivirus, web filtering, application control, and more. These administration fundamentals will provide you with a solid understanding of how to implement the most common FortiGate features. | https://www.newhorizons.com/course-outline/courseid/300201211 |
| FortiGate Immersion | 1.00 | $ 950.00 | In this course, you are assigned a series of do-it-yourself (DIY) configuration tasks in a virtual lab environment. The configuration tasks cover some of the topics in the FortiOS certification exam and include the use of the most common FortiGate features, such as firewall policies, the Fortinet Security Fabric, user authentication, SSL and IPsec VPNs, equal-cost multi-path (ECMP) routing, IPS, high availability (HA), and content inspection. | https://www.newhorizons.com/course-outline/courseid/300201212 |
| FortiGate Infrastructure- NSE4 | 2.00 | $ 1,900.00 | In this two-day course, you will learn how to use advanced FortiGate networking and security. Topics include features commonly applied in complex or larger enterprise or MSSP networks, such as advanced routing, transparent mode, redundant infrastructure, site-to-site IPsec VPN, single sign-on (SSO), web proxy, and diagnostics. This course and the FortiGate Security course are intended to help you prepare for the NSE 4 certification exam. | https://www.newhorizons.com/course-outline/courseid/300180041 |
| FortiGate Security- NSE4 | 3.00 | $ 2,900.00 | In this three-day course, you will learn how to use basic FortiGate features, including security profiles. In interactive labs, you will explore firewall policies, security fabric, user authentication, SSL VPN, and how to protect your network using security profiles such as IPS, antivirus, web filtering, application control, and more. These administration fundamentals will provide you with a solid understanding of how to implement basic network security. | https://www.newhorizons.com/course-outline/courseid/300180038 |
| FortiManager- NSE 5 | 2.00 | $ 1,900.00 | In this two-day class, you will learn the fundamentals of using FortiManager for centralized network administration of many FortiGate devices. In interactive labs, you will explore deployment strategies, which include single or multiple ADOMs, device registration, policy packages, shared objects, installing configuration changes, provisioning FortiManager as a local FortiGuard distribution server, and troubleshooting the features that are critical to day-to-day use after you deploy FortiManager. This course is part of the preparation for the NSE 5 certification exam. | https://www.newhorizons.com/course-outline/courseid/300180042 |
| FortiSIEM- NSE 5 | 3.00 | $ 2,900.00 | In this three-day course, you will learn how to use FortiSIEM, and how to integrate FortiSIEM into your network awareness infrastructure. You will learn about initial configurations, architecture, and the discovery of devices on the network. You will also learn how to collect performance information and aggregate it with syslog data to enrich the overall view of the health of the environment. Additionally, you will learn how you can use the configuration database to greatly facilitate compliance audits. This course is part of the preparation for the NSE 5 certification exam. | https://www.newhorizons.com/course-outline/courseid/300180043 |
| FortiSOAR Design and Development | 3.00 | $ 2,900.00 | In this course, you will learn how to use FortiSOAR to design simple to complex playbooks, examine the role of FortiSOAR in mitigating malicious indicators, and learn how to create interactive dashboards to display relevant information about alerts and incidents. You will also learn how to integrate FortiSOAR with FortiGate, FortiSIEM, and FortiMail. | https://www.newhorizons.com/course-outline/courseid/300201213 |
| Foundations of Business Analysis | 4.00 | $ 2,790.00 | This course is aligned to the IIBA BABOK Version 3 and covers the IIBA knowledge areas on the Entry Certificate in Business Analysis (ECBA) exam. This Foundations of Business Analysis course is a practioner based, skills training course for a beginner to intermediate audience, not an exam preparation course. The course provides students a clear understanding and total immersion into all of the facets of the business analyst role, including a thorough walkthrough of the various domain/knowledge areas that comprise the business analysis profession. Students are provided an opportunity to try their hand at several business analysis techniques for eliciting, analyzing, and modeling requirements. The business analysis work performed in strategy analysis and solution evaluation, which is most often the least familiar to business analysts, is thoroughly presented and explored. Students completing this course will be well equipped with new skills and knowledge that can be immediately applied on current and future projects. | https://www.newhorizons.com/course-outline/courseid/200007940 |
| From Data to Insights with Google Cloud Platform | 3.00 | $ 1,995.00 | Explore ways to derive insights from data at scale using BigQuery, Google Cloud's serverless, highly scalable, and cost-effective cloud data warehouse. This course uses lectures, demos, and hands-on labs to teach you the fundamentals of BigQuery, including how to create a data transformation pipeline, build a BI dashboard, ingest new datasets, and design schemas at scale. | https://www.newhorizons.com/course-outline/courseid/300180011 |
| Fundamentals of Cisco Firewall Threat Defense and Intrusion Prevention (SFWIPF) | 5.00 | $ 4,000.00 | The Fundamentals of Cisco Firewall Threat Defense and Intrusion Prevention (SFWIPF) training shows you how to implement and configure Cisco Secure Firewall Threat Defense for deployment as a next generation firewall at the internet edge. You'll gain an understanding of Cisco Secure Firewall architecture and deployment, base configuration, packet processing and advanced options, and conducting Secure Firewall administration troubleshooting. This training prepares you for the CCNP Security certification, which requires passing the 350-701 Implementing and Operating Cisco Security Core Technologies (SCOR) core exam and one concentration exam such as the 300-710 Securing Networks with Cisco Firepower (SNCF) concentration exam. This training also earns you 40 Continuing Education (CE) credits towards recertification. | https://www.newhorizons.com/course-outline/courseid/300201029 |
| Get Going with QuickBooks | 2.00 | $ 790.00 | This course is an introduction to QuickBooks. Students will be introduced to the basic features and functionality in QuickBooks and will learn how to use QuickBooks to effectively track and manage their company's financial data and determine the health of the business. QuickBooks users will quickly learn the new features and functionality of QuickBooks 2015, 2016, 2018 or 2020. | https://www.newhorizons.com/course-outline/courseid/200010584 |
| Getting Started with Google Kubernetes Engine | 1.00 | $ 595.00 | This course introduces participants to creating and deploying containerized applications on Google Kubernetes Engine (GKE). Through a combination of presentations, demos, and hands-on labs, participants explore and deploy solution elements, including infrastructure components such as pods and containers. | https://www.newhorizons.com/course-outline/courseid/300180017 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| Git and GitHub (Beginner) | 1.00 | $ 995.00 | The course "Git and GitHub Fundamentals" is designed to introduce students to the basic concepts and workflows of using Git for version control and GitHub for collaboration. Through hands-on exercises and projects, students will learn how to create a Git repository, make and commit changes, create and merge branches, resolve conflicts, and push changes to a remote repository on GitHub. They will also learn how to collaborate with others on a project, including how to fork, clone, and submit pull requests. By the end of the course, students will have a solid foundation in Git and GitHub that will enable them to manage and collaborate on code projects effectively. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200930 |
| Google Analytics - Foundation | 1.00 | $ 395.00 | In this course, students will create a Google Analytics account, create multiple web properties, & tag website pages with code. Students will then create multiple views for collecting & analyzing data, and create filters & funnels for your views. | https://www.newhorizons.com/course-outline/courseid/200008143 |
| Google Cloud Fundamentals: Big Data and Machine Learning | 1.00 | $ 595.00 | This one-day instructor-led course introduces participants to the big data capabilities of Google Cloud Platform. Through a combination of presentations, demos, and hands-on labs, participants get an overview of the Google Cloud platform and a detailed view of the data processing and machine learning capabilities. This course showcases the ease, flexibility, and power of big data solutions on Google Cloud Platform. | https://www.newhorizons.com/course-outline/courseid/300180013 |
| Google Cloud Fundamentals: Core Infrastructure | 1.00 | $ 595.00 | This one-day instructor-led class provides an overview of Google Cloud Platform products and services. Through a combination of presentations, demos, and hands-on labs, participants learn the value of Google Cloud Platform and how to incorporate cloud-based solutions into business strategies. | https://www.newhorizons.com/course-outline/courseid/300180014 |
| Grammar Essentials | 1.00 | $ 395.00 | You learned the rules of grammar in school, but now you'd like to refresh and refine your grammar usage for your professional life. You need to state your ideas clearly and concisely in written communications and present yourself in a professional manner. In this course, you will review the rules of grammar, identify common grammar errors, and refine your business writing style. Improving your grammar will help you deliver polished and professional written communications. Correct grammar and a refined, concise writing style can help you clearly express your ideas to others, streamline the directions and instructions that you deliver, and create impressive presentations and reports. | https://www.newhorizons.com/course-outline/courseid/200003053 |
| HA200 SAP HANA - Installation & Administration | 5.00 | $ 4,600.00 | The course covers the most important tasks for the daily work of an SAP HANA system administrator. Furthermore, it provides details about starting and stopping, changing the configuration, troubleshooting and assuring the high-availability of an SAP HANA SPS09 system. | https://www.newhorizons.com/course-outline/courseid/200008184 |
| Healthcare Information Security and Privacy Practitioner (HCISPP) | 3.00 | $ 2,037.00 | This class is based on the six HCISPP domains of the (ISC)² Common Body of Knowledge (CBK), ensuring students successfully prepare for the HCISPP exam and enhance their overall competencies in healthcare security and privacy. | https://www.newhorizons.com/course-outline/courseid/200010031 |
| HTML5 - Content Authoring Fundamentals | 1.00 | $ 395.00 | HTML5 is one of the most integral and evolving web technologies that enables a user to structure content and present it on the web. This course lays the foundation for mastering this popular web publishing technology. | https://www.newhorizons.com/course-outline/courseid/200006958 |
| HTML5 - Content Authoring with New and Advanced Features | 1.00 | $ 395.00 | This course focuses on the new and advanced features of HTML5, covering how to create HTML5 and CSS3 markup that will work well on the widest possible variety of web browsers, mobile devices, and machine readers, such as search engine web crawlers. | https://www.newhorizons.com/course-outline/courseid/200006959 |
| Hyperledger Fabric v2.X (Bootcamp) | 5.00 | $ 3,100.00 | This 5-day bootcamp is designed for system administrators to gain a deep understanding on running a day-to-day network operation on a stood up Hyperledger Fabric Network. Exam voucher included with purchase (a $300 value). You will learn about the integral base files in which Fabric are built upon. You will learn about how identity, and permissions are administered throughout Membership Only networks. Additionally, you will gather the experience necessary to enter into and manage nodes/peer needs (i.e. chaincode installation, securing communication, etc). | https://www.newhorizons.com/course-outline/courseid/300080010 |
| IBM AIX Basics | 2.00 | $ 2,660.00 | This course enables you to perform everyday tasks using the AIX operating system. | https://www.newhorizons.com/course-outline/courseid/200007025 |
| IBM App Connect Enterprise V11 Application Development | 5.00 | $ 4,175.00 | This course teaches you how to use IBM App Connect Enterprise to develop, deploy, and support message flow applications. These applications use various messaging topologies to transport messages between service requesters and service providers, and allow the messages to be routed, transformed, and enriched during processing. In this course, you learn how to construct applications to transport and transform data. The course explores how to control the flow of data by using various processing nodes, and how to use databases and maps to transform and enrich data during processing. You also learn how to construct data models by using the Data Format Description Language (DFDL). | https://www.newhorizons.com/course-outline/courseid/300030063 |
| IBM Cognos Analytics: Author Reports Advanced (V11.1.x) | 2.00 | $ 1,860.00 | This course teaches experienced authors advanced report building techniques to enhance, customize, manage, and distribute reports. Additionally, the student will learn how to create highly interactive and engaging reports that can be run offline by creating Active Reports. | https://www.newhorizons.com/course-outline/courseid/200012219 |
| IBM Cognos Analytics: Author Reports Fundamentals (V11.1.x) | 3.00 | $ 2,565.00 | This course provides authors with an introduction to build reports using Cognos Analytics. Techniques to enhance, customize, and manage reports will be explored. Activities will illustrate and reinforce key concepts during this learning opportunity. | https://www.newhorizons.com/course-outline/courseid/300030023 |
| IBM Cognos Analytics: Enterprise Administration (V11.1.x) | 2.00 | $ 1,775.00 | This offering covers the fundamental concepts of installing and configuring IBM Cognos Analytics, and administering servers and content, in a distributed environment. In the course, participants will identify requirements for the installation and configuration of a distributed IBM Cognos Analytics software environment, implement security in the environment, and manage the server components. Students will also monitor and schedule tasks, create data sources, and manage and deploy content in the portal and IBM Cognos Administration. | https://www.newhorizons.com/course-outline/courseid/300030024 |
| IBM Cognos Framework Manager: Design Metadata Models (v11.1.x) | 4.00 | $ 3,280.00 | This offering provides participants with introductory to advanced knowledge of metadata modeling concepts, and how to model metadata for predictable reporting and analysis results using IBM Cognos Framework Manager. Participants will learn the full scope of the metadata modeling process, from initial project creation, to publishing of metadata to the web, enabling end users to easily author reports and analyze data. | https://www.newhorizons.com/course-outline/courseid/300030025 |
| IBM DB2 SQL Workshop | 2.00 | $ 1,715.00 | This course is appropriate for customers working in all DB2 environments, that is, z/OS, VM/VSE, iSeries, Linux, UNIX, and Windows. It is also appropriate for customers working in an Informix environment. | https://www.newhorizons.com/course-outline/courseid/200006504 |
| IBM Engineering Requirements Management DOORS V9.6 - Foundation | 1.00 | $ 915.00 | This course is for new IBM Engineering Requirements Management DOORS (DOORS) users. It introduces basic DOORS concepts and functionality. It includes hands-on exercises that teach users to create, edit, manipulate, and analyze requirements data in DOORS. | https://www.newhorizons.com/course-outline/courseid/300030026 |
| IBM Engineering Requirements Management DOORS V9.6 - Practitioner | 1.00 | $ 915.00 | This course builds on the content learned in the - IBM Engineering Requirements Management DOORS V9.6 - Foundation- course. It is designed for those who will be in the role of team lead or project manager, or who want to learn more about advanced DOORS end-user functionality. It discusses creating and structuring DOORS projects, defining linking relationships and attributes, setting access permissions, and managing change. It also discusses external linking, working with spreadsheets, and applying configuration management strategies to DOORS data. | https://www.newhorizons.com/course-outline/courseid/300030027 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| IBM FileNet P8 Platform Administration (V5.5.x) | 5.00 | $ 4,280.00 | This course teaches you the configuration and administration of an IBM FileNet P8 Platform 5.5.x system. It introduces you to the key concepts of IBM FileNet P8 Platform architecture and organizing the content across the enterprise. You will learn how to build content repositories, configure metadata, create storage areas, manage security, logging, and auditing, run bulk processing, use the sweep framework, extend the functionality with Events and Subscription, migrate and deploy FileNet P8 assets between environments, and configure content-based retrieval searches. | https://www.newhorizons.com/course-outline/courseid/300030028 |
| IBM i System Administration | 5.00 | $ 4,280.00 | Learn how to plan for, implement, and manage the ongoing operations of an IBM i. | https://www.newhorizons.com/course-outline/courseid/200007180 |
| IBM InfoSphere DataStage Essentials (v11.5) | 4.00 | $ 3,550.00 | This course enables the project administrators and ETL developers to acquire the skills necessary to develop parallel jobs in DataStage. The emphasis is on developers. Only administrative functions that are relevant to DataStage developers are fully discussed. Students will learn to create parallel jobs that access sequential and relational data and combine and transform the data using functions and other job components. | https://www.newhorizons.com/course-outline/courseid/300030029 |
| IBM Integration Bus V10 System Administration | 5.00 | $ 4,175.00 | In this course, students learn how to administer IBM Integration Bus on distributed operating systems, such as Windows and AIX, by using the IBM Integration Bus administrative interfaces. | https://www.newhorizons.com/course-outline/courseid/200008618 |
| IBM MQ V9.1 System Administration (using Windows for labs) | 5.00 | $ 4,175.00 | This course teaches you how to customize, operate, administer, and monitor IBM MQ on-premises on distributed operating systems. The course covers configuration, day-to-day administration, problem recovery, security management, and performance monitoring. In addition to the instructor-led lectures, the hands-on exercises provide practical experience with distributed queuing, working with MQ clients, and implementing clusters, publish/subscribe messaging. You also learn how to implement authorization, authentication, and encryption, and you learn how to monitor performance. | https://www.newhorizons.com/course-outline/courseid/300030032 |
| IBM QRadar SIEM Advanced Topics | 2.00 | $ 1,860.00 | IBM® Security QRadar® enables you to minimize the time gap between when a suspicious activity occurs and when you detect it. Attacks and policy violations leave their footprints in log events and network flows of your IT systems. To connect the dots, QRadar SIEM correlates these scattered events and flows into offenses that alert you to suspicious activities. Using the skills taught in this course, you will be able to configure processing of uncommon events, work with reference data, and develop custom rules, custom actions, and custom anomaly detection rules. The lab environment for this course uses the IBM QRadar SIEM 7.3 platform. | https://www.newhorizons.com/course-outline/courseid/300030033 |
| IBM QRadar SIEM Foundations | 3.00 | $ 2,660.00 | IBM QRadar SIEM provides deep visibility into network, user, and application activity. It provides collection, normalization, correlation, and secure storage of events, flows, asset profiles, and vulnerabilities. QRadar SIEM classifies suspected attacks and policy violations as offenses. | https://www.newhorizons.com/course-outline/courseid/300030034 |
| IBM SAN Volume Controller (SVC) Planning and Implementation Workshop | 4.00 | $ 3,880.00 | Leverage networked storage connectivity by integrating a layer of intelligence - the SAN Volume Controller (SVC) - to facilitate storage application data access independence from storage management functions and requirements ...and more. | https://www.newhorizons.com/course-outline/courseid/200007278 |
| IBM Security Verify Access Foundations | 3.00 | $ 2,640.00 | IBM Security Verify Access helps you simplify your users' access while more securely adopting web, mobile, IoT, and cloud technologies. It can be deployed on premises, in a virtual or hardware appliance, or containerized with Docker. Verify Access also directly connects with Verify SaaS for a modernized, hybrid IAM approach to enable your organization's migration to identity as a service (IDaaS) at a comfortable pace. Using the skills taught in this course, you learn how to run Verify Access via Docker, configure authentication and authorization mechanisms, implement policy access control, and set up reverse proxy junctions to process web requests. Hands-on exercises reinforce the skills learned. | https://www.newhorizons.com/course-outline/courseid/300030061 |
| IBM Spectrum Protect Plus 10.1.6 - Implementation and Administration | 3.00 | $ 2,740.00 | In this three-day course, you learn how to install, configure and administer IBM Spectrum Protect Plus v10.1.6. You begin with a review of the software capabilities, requirements, and architecture. Then, through lecture and hands-on labs, you learn how to perform the various tasks required to configure the environment on an installed virtual appliance. You customize SLA policies and make use of available options to protect virtual machines and applications, as well as the IBM Spectrum Protect Plus catalog. You monitor and manage jobs, plan and prepare for disaster recovery, view log files, and create custom reports. | https://www.newhorizons.com/course-outline/courseid/300030036 |
| IBM Spectrum Protect version 8.1.12 Implementation and Administration | 5.00 | $ 4,295.00 | IBM Spectrum Protect 8.1.12 is a data backup and recovery solution designed to help you manage your data retention, reduce the cost of storage, and provide appropriate recovery point objectives to meet any service level agreement. IBM Spectrum Protect offers improved efficiency and flexibility using object-based data management and policy driven retention. This five-day course will focus on implementation and basic administration of an IBM Spectrum Protect environment. The hands-on lab exercises are performed on a Windows 2016 environment. The course materials include examples of AIX and Linux commands, when different from Windows. | https://www.newhorizons.com/course-outline/courseid/300030060 |
| IBM Spectrum Scale Advanced Administration for Linux | 3.00 | $ 3,030.00 | The course includes information on the Spectrum Scale installer toolkit, installer GUI, cluster upgrade scenarios, cluster health monitoring, cluster performance data collection and monitoring, management GUI, file system encryption, cluster security, and call home features. Many of the features are described in lecture materials and implemented in lab exercises. | https://www.newhorizons.com/course-outline/courseid/300030038 |
| IBM Spectrum Scale Basic Administration for Linux and AIX | 3.00 | $ 2,660.00 | This course is intended for IT professionals tasked with administering an IBM Spectrum Scale storage cluster in environments running Linux and AIX nodes. The course includes information on installing, configuring, and monitoring an IBM Spectrum Scale cluster. Many Spectrum Scale features are described in lecture materials and then implemented in lab exercises. These features include: Storage management, high availability options, cluster management, and information lifecycle management (ILM) tools.  Note: Although the lab environment is running the Linux operating system, the differences in Spectrum Scale compared with an AIX environment are minor. Therefore, the skills acquired during the course can be applied in both Linux and AIX environments. | https://www.newhorizons.com/course-outline/courseid/300030039 |
| IBM SPSS Statistics Essentials (V26) | 2.00 | $ 1,775.00 | This course guides students through the fundamentals of using IBM SPSS Statistics for typical data analysis. Students will learn the basics of reading data, data definition, data modification, data analysis, and presentation of analytical results. In addition to the fundamentals, students will learn shortcuts that will help them save time. This course uses the IBM SPSS Statistics Base; one section presents an add-on module, IBM SPSS Custom Tables. | https://www.newhorizons.com/course-outline/courseid/300030058 |
| IBM Sterling B2B Integrator Fundamentals | 5.00 | $ 4,175.00 | Provides end-to-end enterprise integration server for dynamic real-time and near-real time business collaboration and commerce automation. | https://www.newhorizons.com/course-outline/courseid/200009425 |
| IBM WebSphere Application Server V8.5.5 Administration | 5.00 | $ 4,295.00 | This 5-day instructor-led course teaches you the skills that are needed to install and administer IBM WebSphere Application Server V8.5.5. This release offers users enhanced support for standards, emerging technology, and a choice of development frameworks.  In this course, you learn how to install, configure, and maintain IBM WebSphere Application Server V8.5.5 base, Network Deployment (ND), and the Liberty profile. You learn how to deploy enterprise Java applications in a single computer or clustered configuration. In addition, you learn how to work with features of WebSphere Application Server V8.5.5, such as IBM Installation Manager, WebSphere Customization Toolbox, security enhancements, Intelligent Management, and centralized installation. | https://www.newhorizons.com/course-outline/courseid/200007657 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| IBM Workload Scheduler 9.4 Administration | 2.00 | $ 1,825.00 | This course teaches the administrative functions necessary to plan, install, configure, maintain, and troubleshoot an IBM Workload Scheduler 9.4 network. This course includes an in-depth look at designing an IBM Workload Scheduler network architecture, background processes in Workload Scheduler, workstation and network configuration options, workload production cycle and processing, effective use of Workload Scheduler security, and techniques for Identifying and resolving common problems. Hands-on lab exercises include planning a network, defining workstations and domains, and installing and configuring Workload Scheduler components. | https://www.newhorizons.com/course-outline/courseid/200008782 |
| IBM Workload Scheduler 9.4 Operations and Scheduling | 3.00 | $ 2,660.00 | This course introduces IBM Workload Scheduler features, environment, and terminology. You learn about distributed environments and how to use both the Dynamic Workload Console and command-line interfaces with Workload Scheduler. You monitor production workflow and create a production day plan. Production workflow consists of job and job stream instances, designed with plan objects. You manage changes to objects, the plan, jobs, events, and job streams. You optimize production workflow and troubleshoot plan problems. You also learn to use Workload Scheduler with classic batch scheduling and dynamic and event-driven workloads. | https://www.newhorizons.com/course-outline/courseid/200008781 |
| IC-002T00: Microsoft Cloud for Sustainability | 2.00 | $ 1,295.00 | As a result of attending this course, the learner should be able to understand the sustainability concepts and how the business thinks of tracking and reporting emissions, describe Microsoft Cloud for Sustainability customer scenarios, and configure the features of Microsoft Sustainability Manage. | https://www.newhorizons.com/course-outline/courseid/300200955 |
| IIBA® Agile Analysis (IIBA®-AAC) Exam Prep | 1.00 | $ 795.00 | This one-day session will prepare you for the IIBA®-Agile Analysis Certification exam and help you make the most of your post-class study time. This course was designed, created, and is taught by IIBA®-AAC certified professionals to help candidates focus on the critical areas to study and to provide insights into the exam. Participants will learn invaluable tips and tricks needed to pass the IIBA®-AAC exam. This course follows IIBA®- AAC exam blueprint based on the Agile Extension to the BABOK® Guide v.2.0. It also includes the use of Watermark's acclaimed online exam simulator, which provides detailed answer explanations for both correct and incorrect answers. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course has been approved for 6 PDUs. We are excited to introduce a special add-on bundle to enhance your learning experience with our IBA certification courses. This unique bundle includes a 1-year membership, providing access to exclusive resources and benefits, coupled with an extraordinary 30% discount on exam fees and applicable application fees. To benefit from this exclusive offer, we encourage you to reach out to your dedicated representative or contact us indicating your interest in taking advantage of this exclusive offer. | https://www.newhorizons.com/course-outline/courseid/300200907 |
| Implement and Manage CRM Analytics (ANC301) | 3.00 | $ 2,700.00 | Take your CRM Analytics skills to the next level. In this 3-day, expert-led class, you'll learn how to develop and implement a CRM Analytics environment that contains both Salesforce and non-Salesforce data. ANC 301 Our team of experts will walk you through CRM Analytics features and settings, user setup, how to load and transform data, data security, and how to modify queries to customize dashboards so you can work more efficiently, spot trends, and predict outcomes faster. | https://www.newhorizons.com/course-outline/courseid/300200900 |
| Implement Citrix NetScaler 13.x with Citrix Gateway (CNS-226) | 2.00 | $ 2,000.00 | Learn the skills required to configure and manage Citrix Gateway features. At the end of the course, students will be able to configure their Citrix Gateway environments to address remote access requirements for Apps and Desktops. | https://www.newhorizons.com/course-outline/courseid/300020010 |
| Implementation & Troubleshooting Networks using Cisco ThousandEyes (ENTEIT) | 3.00 | $ 3,395.00 | The Implementing and Troubleshooting Networks Using Cisco ThousandEyes (ENTEIT) course is designed to introduce you to and familiarize you with Cisco® ThousandEyes. Through a combination of lectures and hands-on experience, you will learn to implement and configure the Cisco ThousandEyes solution. You will also learn to install and configure the Cisco ThousandEyes agents with different test types. This solution will also enable you to perform root cause analysis when troubleshooting. | https://www.newhorizons.com/course-outline/courseid/300040023 |
| Implementing and Configuring Cisco Identity Services Engine (SISE) | 5.00 | $ 3,995.00 | The Implementing and Configuring Cisco Identity Services Engine (SISE) v4.0 course teaches you to deploy and use Cisco® Identity Services Engine (ISE) v3.x, an identity and access control policy platform that simplifies the delivery of consistent, highly secure access control across wired, wireless, and VPN connections. This 5-day hands-on course provides you with the knowledge and skills to implement and apply Cisco ISE capabilities to support use cases for Zero Trust security posture. These use cases include tasks such as policy enforcement, profiling services, web authentication and guest access services, BYOD, endpoint compliance services, and Terminal Access Controller Access Control Server (TACACS+) device administration. Through hands-on practice via lab exercises, you will learn how to use Cisco ISE to gain visibility into what is happening in your network, streamline security policy management, and contribute to operational efficiency. | https://www.newhorizons.com/course-outline/courseid/300010020 |
| Implementing and Operating Cisco Security Core Technologies (SCOR) | 5.00 | $ 4,295.00 | In this course, Implementing and Operating Cisco Security Core Technologies (SCOR), students will master the skills and technologies needed to implement core Cisco security solutions to provide advanced threat protection against cybersecurity attacks. Students will learn security for networks, cloud and content, endpoint protection, secure network access, visibility and enforcements. They will get extensive hands-on experience deploying Cisco Firepower Next-Generation Firewall and Cisco ASA Firewall; configuring access control policies, mail policies, and 802.1X Authentication; and more. Students will also get introductory practice on Cisco Stealthwatch Enterprise and Cisco Stealthwatch Cloud threat detection features. This course will help you prepare to take the Implementing and Operating Cisco Security Core Technologies (350-701 SCOR) exam. It also helps you prepare for the CCNP Security and CCIE Security certifications and for senior-level security roles featuring Cisco security solutions. | https://www.newhorizons.com/course-outline/courseid/300040009 |
| Implementing Aruba Network Security (IANS) | 5.00 | $ 4,000.00 | The Implementing Aruba Network Security course covers intermediate security concepts and prepares candidates to take the exam to achieve Aruba Certified Networking Security Professional (ACNSP) certification. This course helps admins use the Aruba portfolio to implement Zero Trust Security (ZTS) and protect their networks from threats. It explains how to configure Aruba network infrastructure and ClearPass solutions to authenticate and control both wired and wireless users, as well as remote users on a client-to-site VPN. The course further explains how to collect a variety of contextual information on ClearPass Policy Manager (CPPM) and implement advanced role mapping and enforcement policies. The course also covers using ClearPass Device Insight to enhance visibility. Learners will learn how to set up features such as the ArubaOS-CX Network Analytics Engine (NAE), Aruba Wireless Intrusion Detection System/Intrusion Prevention System (WIDS/WIPS), and Aruba gateway IDS/IPS, as well as how to investigate alerts. | https://www.newhorizons.com/course-outline/courseid/300201129 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Implementing Aruba OS-CX Switching (ICX) | 5.00 | $ 4,000.00 | This course teaches you the advanced skills necessary to implement and operate enterprise level Aruba campus switching solutions. You will build on the skills you learned at the Associate level to configure and manage modern, open standards-based networking solutions using Aruba's OS-CX routing and switching technologies. In this course, participants learn about ArubaOS-CX switch technologies including: securing port access with Aruba's dynamic segmentation, redundancy technologies such as Multiple Spanning Tree Protocol (MSTP), link aggregation techniques including Link Aggregation Protocol (LACP) and switch virtualization with Aruba's Virtual Switching Extension (VSX) and Aruba's Virtual Switching Framework (VSF). This course is approximately 50% lecture and 50% hands-on lab exercises. | https://www.newhorizons.com/course-outline/courseid/300201128 |
| Implementing Automation for Cisco Collaboration Solutions (CLAUI) | 3.00 | $ 3,000.00 | The Implementing Automation for Cisco Collaboration Solutions (CLAUI) course teaches you how to implement Cisco® Collaboration automated, programmable solutions for voice, video, collaboration, and conferencing on-premises or in the cloud. Through a combination of lessons and hands-on labs, you will combine tools and processes to tackle communication challenges using key platforms including Cisco Unified Communications Manager, Cisco IP Phone Services, Cisco Unity® Connection, Cisco Finesse®, Cisco Collaboration Endpoints, Cisco Webex Teams™, and Cisco Webex® Meetings. You will also learn how to use Application Programming Interfaces (APIs) interfaces such as Representational State Transfer (REST) and Simple Object Access Protocol (SOAP), parsing data in Extensible Markup Language (XML) and JavaScript Object Notation (JSON) formats, and leverage frameworks such as Python. This course prepares you for the 300-835 Automating and Programming Cisco Collaboration Solutions (CLAUTO) certification exam. | https://www.newhorizons.com/course-outline/courseid/300040030 |
| Implementing Cisco NX-OS Switches and Fabrics in the Data Center (DCNX) | 5.00 | $ 4,595.00 | The Implementing Cisco NX-OS Switches and Fabrics in the Data Center (DCNX) course gives you a detailed understanding of the Cisco® Nexus switch platform and teach you how to install, configure, and manage Cisco Nexus® switch platforms in a scalable, highly available environment. Through a combination of lectures and hands-on labs, you will learn how to describe various aspects of the Cisco Nexus product families and platforms, including implementation, management, security, programmability and storage. Additionally, you will learn how to configure device aliases and zoning, Fibre Channel over Ethernet (FCoE), and N-Port Identifier Virtualization (NPIV), and N-Port Virtualization (NPV) modes. | https://www.newhorizons.com/course-outline/courseid/300040004 |
| Implementing DevOps Solutions and Practices Using Cisco Platforms (DEVOPS) | 5.00 | $ 4,500.00 | Implementing DevOps Solutions and Practices Using Cisco Platforms (DEVOPS) is a 5-day course which teaches students how to automate application deployment, enable automated configuration, enhance management, and improve scalability of cloud microservices and infrastructure processes on Cisco® platforms. Students will also learn how to integrate Docker and Kubernetes to create advanced capabilities and flexibility in application deployment. This course prepares you for the 300-910 Implementing DevOps Solutions and Practices Using Cisco Platforms (DEVOPS) certification exam. | https://www.newhorizons.com/course-outline/courseid/300040016 |
| Implementing Mindfulness | 1.00 | $ 795.00 | Stress and burnout can stop us from doing our best work. Every day, we face changing workplace dynamics that have left many of us routinely exhausted or withdrawn, resulting in strained relationships and lower productivity. Implementing mindfulness has never been so important, giving us the tools and resources to feel our best. This course provides evidence-based techniques that address your mental wellbeing from the inside out. This means reducing stress and avoiding burnout - and that means better focus, more effective teamwork, and higher performance. | https://www.newhorizons.com/course-outline/courseid/300201088 |
| Implementing Secure Solutions with Virtual Private Networks (SVPN) | 5.00 | $ 4,295.00 | The Implementing Secure Solutions with Virtual Private Networks (SVPN) v1.0 course teaches you how to implement, configure, monitor, and support enterprise Virtual Private Network (VPN) solutions. Through a combination of lessons and hands-on experiences you will acquire the knowledge and skills to deploy and troubleshoot traditional Internet Protocol Security (IPsec), Dynamic Multipoint Virtual Private Network (DMVPN), FlexVPN, and remote access VPN to create secure and encrypted data, remote accessibility, and increased privacy. | https://www.newhorizons.com/course-outline/courseid/300010042 |
| Incident Response for Business Professionals (IRBIZ ™) | 1.00 | $ 695.00 | This course covers incident response methods and procedures are taught in alignment with industry frameworks such as US-CERT's NCISP (National Cyber Incident Response Plan), and Presidential Policy Directive (PPD) 41 on Cyber Incident Coordination Policy. It is ideal for candidates who have been tasked with managing compliance with state legislation and other regulatory requirements regarding incident response, and for executing standardized responses to such incidents. The course introduces procedures and resources to comply with legislative requirements regarding incident response. This course is designed to assist students in preparing for the CertNexus Incident Responder Credential (CIR-110). What you learn and practice in this course can be a significant part of your preparation. | https://www.newhorizons.com/course-outline/courseid/100001067 |
| Influencing Without Authority | 1.00 | $ 795.00 | Collaborative environments largely rely on influence, not authority. Participants will learn and practice tips, tools, and techniques to influence others. Organizations with effective influencers enjoy better collaboration among stakeholders, improved trust among team members, and improved ability to move the organization forward to achieve business goals. | https://www.newhorizons.com/course-outline/courseid/300200771 |
| Integrating Agile in a Waterfall Practice | 1.00 | $ 795.00 | Industry trends have shown Agile project management can increase project success rates. This is leading many organizations to integrate Agile into their predictive or more traditional project management practices. This course will provide you with best practices and considerations for bringing Agile methodologies into your traditional project delivery environment. You'll learn how to create a strategy for setting goals and deciding on the appropriate Agile methods to integrate into your organization. This course has been approved by PMI for 8 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200768 |
| Intermediate Angular 12 Programming | 2.00 | $ 1,460.00 | Master Angular 12, the latest version of Google's popular TypeScript-based web framework! This course covers more advanced topics of this next generation of the Angular framework. This Angular 12 Training course is intended for those that already have a basic understanding of the Angular 12 fundamentals and now want to cover more advanced features the Angular 12 framework offers. | https://www.newhorizons.com/course-outline/courseid/300201009 |
| Interpersonal Communication for Project Leaders | 1.00 | $ 795.00 | Successful Project Managers must be able to listen and communicate effectively with their teams and all levels of their organizations. It is important to understand communication needs across the project lifecycle, be able to assess a social situation, select an appropriate communication approach, and ultimately control the dialog to become effective at leading teams. This course is part of the PMI Talent Triangle Fast Pass bundle and fulfills the Leadership segment (8 PDUs) of the PMI Talent Triangle for PMP credential holders. | https://www.newhorizons.com/course-outline/courseid/300200778 |
| Introducing Cisco Cloud Consumer Security (SECICC) | 1.00 | $ 1,495.00 | Introducing Cisco Cloud Consumer Security (SECICC) is a one-day course that gives you a technical overview of basic concepts and components of the cloud, and the Cisco® solutions used to provide comprehensive security of your cloud-based environment. In this primarily lecture-based course, you'll learn the basics from a cloud consumer perspective including securing cloud and software as a service (SaaS) application environment. This introductory course provides insights on using Cisco Stealthwatch™ Cloud, Cisco CloudLock, Cisco Umbrella™ and more to protect the user when using cloud-based applications. | https://www.newhorizons.com/course-outline/courseid/300040047 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Introducing Cisco Unified Computing System (DCIUCS) | 2.00 | $ 2,195.00 | The Introducing Cisco Unified Computing System (DCIUCS) v1.0 is an introductory course that shows you how to deploy, secure, operate and maintain the Cisco Unified Computing system (Cisco UCS) B-Series blade server, Cisco UCS C-Series and S-Series rack servers, and Cisco HyperFlex product family, for use in data centers. You will gain hands-on practice on basic Cisco UCS server configuration and performing backup and restore activities. This course can be used to prepare for the new CCNP Data Center and CCIE Data Center certifications. | https://www.newhorizons.com/course-outline/courseid/300010012 |
| Introduction to Angular 15 Training | 3.00 | $ 1,995.00 | Angular is a powerful framework that can be used to build complex web applications. It includes features such as dependency injection, routing, and forms that make it easy to build maintainable and scalable applications. This Angular training course teaches attendees how to use Typescript to develop robust single page Angular applications. | https://www.newhorizons.com/course-outline/courseid/300201006 |
| Introduction to DAX for Power BI | 2.00 | $ 1,295.00 | This two-day instructor-led course is intended for business users who have been using Power BI and want to use DAX to create custom calculations in their data models. In this class, you will be introduced to using Data Analysis Expressions (DAX), which is the expression language that is used to create custom calculations in the Power BI Data model. The course covers some of the theoretical underpinnings of the data model and the DAX language, but the emphasis is on using DAX to solve common business problems. You will learn how to write your own calculated columns, measures, and tables, how to visualize the way Power BI computes DAX calculations, and how to troubleshoot custom code. | https://www.newhorizons.com/course-outline/courseid/300201042 |
| Introduction to Final Cut Pro (FCP 101) | 3.00 | $ 1,495.00 | This three-day, hands-on course teaches all the tools and techniques that make Final Cut Pro one of the best editing tools in the business. This class is designed to help students become familiar with the user interface while learning how to perform editing functions. Students will work with real-world media to learn practical approaches to video editing—from basic techniques to powerful advanced features. | https://www.newhorizons.com/course-outline/courseid/300200792 |
| Introduction to IBM i for New Users | 1.00 | $ 940.00 | In his classroom course, you will learn basic concepts and skills you need to be productive users on Power Systems with IBM i. With plenty of hands-on lab exercises, we show everything from signing onto the available user interfaces; green screen environment and IBM Navigator for i. You will learn how objects are managed on the system and how you display these objects. You will learn to use control language (CL) commands (fast path) and how to work with and manage messages on the system. We will also address how to the system manages work and how you manage your printouts. We will also provide a basic overview of security. | https://www.newhorizons.com/course-outline/courseid/200008677 |
| Introduction to Java 9 | 5.00 | $ 3,495.00 | This is a five-day, comprehensive, and hands-on training course geared for developers who have little or no prior working knowledge of object-oriented programming languages, such as those working on C, COBOL, 4GL, etc. | https://www.newhorizons.com/course-outline/courseid/200010007 |
| Introduction to Logic Pro (Logic 101) | 3.00 | $ 1,495.00 | This three-day hands-on course introduces students to the primary features and basic user interface of Logic Pro. Attendees will learn how to generate a customized audio and MIDI configuration that will seamlessly integrate with their own personal production studio. Students will also create their own song using a comprehensive array of software instruments, Apple Loops, and DSP effects. The in-depth lessons cover MIDI and audio recording; streamlined editing, mixing, and arrangement techniques; user defined key commands; automation; using external MIDI controllers; and creating final output.  Certification Exam Participants take an exam to earn Apple Certified Pro - Logic Pro status.  The primary features and basic user interface of Logic Pro. Students learn how to generate a customized audio and midi configuration that will seamlessly integrate with their own personal production studio. Students also create their own song using Logic Pro's comprehensive array of software instruments, Apple Loops and DSP effects. In-depth lessons will cover MIDI and audio recording, streamlined editing and arrangement techniques, user defined key commands, automation, scoring to picture and surround mixing. | https://www.newhorizons.com/course-outline/courseid/300200805 |
| Introduction to PostgreSQL | 2.00 | $ 2,000.00 | Modern companies are generating more data every day, and key competitive advantages will stem from being able to query and understand this data. Data is often stored in relational databases, which are queried using a specific language: SQL. SQL, which stands for Structured Query Language, allows communication with relational databases and is one of the most demanded tech skills of the 21st century.  Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200913 |
| Introduction to Premiere Pro | 3.00 | $ 1,195.00 | In this three-day course, you'll get a thorough overview of the interface, tools, features, and production flow for Premiere Pro CC. The course is an ideal combination of instructor-led demonstration and hands-on practice to introduce you to Adobe Premiere Pro software, a revolutionary 64-bit nonlinear video-editing application. You will learn powerful real-time video and audio editing tools that give you precise control over virtually every aspect of your production. | https://www.newhorizons.com/course-outline/courseid/300201244 |
| Introduction to Python | 3.00 | $ 1,795.00 | Our Introduction to Python course is designed to take complete beginners or experienced developers up to speed on Python's capabilities, setting up students for success in using Python for their specific field of expertise.  Whether you have never programmed before, already know basic syntax, or want to learn about the advanced features of Python, this course is for you! In this course we will teach you Python 3. Learn how to use Python for real-world tasks, such as working with PDF Files, sending emails, reading Excel files, scraping websites for information, working with image files, and much more! This course will teach you Python in a practical manner and provides a full coding screencast and a corresponding code notebook to review the concepts and exercises conducted in class.  Please note, this course is able to be offered in either 3 full day sessions or 5 partial day sessions.  See the schedule below.This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200705 |
| Introduction to R Programming | 2.00 | $ 1,295.00 | Over the past few years, R has been steadily gaining popularity with business analysts, statisticians and data scientists as a tool of choice for conducting statistical analysis of data as well as supervised and unsupervised machine learning. | https://www.newhorizons.com/course-outline/courseid/200010119 |
| Introduction to Red Hat OpenShift Applications (DO101) | 1.00 | $ 1,070.00 | A developer-focused introduction to OpenShift application building, deployment, scaling, and troubleshooting.  Red Hat® OpenShift® Container Platform is a containerized application platform that allows enterprises to accelerate and streamline application development, delivery, and deployment on-premise or in the cloud. As OpenShift and Kubernetes continue to become widely adopted, developers are increasingly required to understand how to develop, build, and deploy applications with a containerized application platform. While some developers are interested in managing the underlying infrastructure, most developers want to focus on developing applications and using OpenShift for its simple building, deployment, and scaling capabilities. | https://www.newhorizons.com/course-outline/courseid/300160003 |
| iOS Support Essentials | 2.00 | $ 1,195.00 | iOS Support Essentials is a two-day core class to teach you how to use and support iOS and how to get the most out of your iPhone or iPad. Students will learn how to share files, create documents, surf the web, back up and restore data, stay secure and keep software up to date, among other topics. | https://www.newhorizons.com/course-outline/courseid/300200791 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| IoT for Business Professionals (IoTBIZ™) | .50 | $ 350.00 | The Internet of Things (IoT) allows organization to collect an extraordinary volume of data and new analysis tools can enable you to use this data to make well-informed decisions to be made quickly. But before you can successfully plan and implement an IoT solution, you must understand the various factors that will drive your decisions. Putting IoT systems into place can be a complicated proposition with unique considerations distinctly different from traditional IT solutions. This course will familiarize you with IoT components, understand the challenges that you may face, and make design decisions about your IoT projects. This course prepares students for taking the CertNexus® IoTBIZ Credential (IOZ-110). This course includes a FREE exam voucher for IOZ-110. | https://www.newhorizons.com/course-outline/courseid/200012303 |
| ISO 22301 Foundation | 2.00 | $ 1,395.00 | This training course is designed to help participants understand the fundamental concepts and principles of a business continuity management system (BCMS) based on ISO 22301. By attending this training course, participants will learn more about the structure and requirements of the standard including the BCMS policy, the top management's commitment, internal audit, management review, and continual improvement process. After attending the training course, you can sit for the exam and, if you successfully pass it, you can apply for the "PECB Certificate Holder in ISO 22301 Foundation" credential. A PECB Foundation certificate shows that you have knowledge on the fundamental concepts, principles, methodologies, requirements, framework, and management approach used in business continuity. Certification and examination fees are included in the price of the training course. | https://www.newhorizons.com/course-outline/courseid/300200007 |
| ISO 22301 Lead Auditor | 5.00 | $ 2,475.00 | Given the increasing number of disruptions and the unpredictability of disasters of any kind (natural, occupational, information security), organizations nowadays are aiming at getting certified against ISO 22301 in order to show commitment toward business continuity and ensure that disruptive incidents are detected and properly addressed, thus the management system is continually improved. By becoming a PECB certified auditor, you will achieve a formal and independent recognition of your personal competences, and you qualify yourself to conduct BCMS audits for a certification body. Recognizing the importance of an effective audit and the means used to successfully conduct it, PECB has designed the ISO 22301 Lead Auditor training course. Attending this training course allows you to obtain the knowledge and skills to plan and carry out audits in compliance with ISO 19011 and the certification process according to ISO/IEC 17021-1. Through interactive sessions, explanatory information, exercises, and questions for discussion, you will be able to acquire knowledge on the business continuity management system as well as audit techniques and become competent to perform a BCMS audit by applying widely recognized audit principles, procedures, and techniques, and to manage an audit program and an audit team. After attending the training course, you can sit for the exam and, if you successfully pass the exam, you can apply for the "PECB Certified ISO 22301 Lead Auditor" credential. The internationally recognized "PECB Certified ISO 22301 Lead Auditor" certificate will prove that you have the professional capabilities and competences to audit organizations based on the requirements of ISO 22301 and auditing best practices. Certification and examination fees are included in the price of the training course. | https://www.newhorizons.com/course-outline/courseid/300200009 |
| ISO 22301 Lead Implementer | 5.00 | $ 2,475.00 | No two disasters in the world cause equal damage. Between the unpredictability of natural disasters, information security breaches, and incidents of different nature, preparedness can make you stand out in the crowd and predict the future of your business. In light of this, proper planning is essential to mitigating risks, avoiding consequences, coping with the negative effects of disasters and incidents, but at the same time, continuing your daily operations so that customer needs do not remain unfulfilled. Organizations can make progress towards understanding and managing disasters, incidents, and risks by having a BCMS based on ISO 22301 in place. Therefore, PECB has designed this training course to prepare its participants implement a business continuity management system (BCMS) in compliance with the requirements of ISO 22301. Attending this training course allows you to gain a comprehensive understanding of the best practices of the business continuity management system and to be able to establish a framework that allows the organization to continue operating efficiently during disruptive events. After attending the training course, you can sit for the exam and, if you successfully pass the exam, you can apply for the "PECB Certified ISO 22301 Lead Implementer" credential. The internationally recognized "PECB Certified ISO 22301 Lead Implementer" certificate will prove that you have the professional capabilities and practical knowledge to implement a BCMS based on the requirements of ISO 22301 in an organization. Certification and examination fees are included in the price of the training course. | https://www.newhorizons.com/course-outline/courseid/300200008 |
| ISO 31000 Foundation | 2.00 | $ 1,350.00 | The ISO 31000 Foundation training course presents the basic principles and approaches of managing risks and opportunities based on the guidelines of ISO 31000. This training course focuses on the main components of ISO 31000: basic terms and definitions, principles of risk management, risk management framework, and risk management process. In addition, each step of the risk management process is analyzed and elaborated individually. Upon completion of the training course, you can sit for the exam and apply to obtain the "PECB Certificate Holder in ISO 31000 Foundation" credential. The credential demonstrates that you understand the fundamental concepts and methodologies for risk management, based on the guidelines of ISO 31000. Certification and examination fees are included in the price of the training course. | https://www.newhorizons.com/course-outline/courseid/300200005 |
| ISO 31000 Lead Risk Manager | 5.00 | $ 2,475.00 | The ISO 31000 Lead Risk Manager training course helps participants develop their competences to support an organization create and protect value by managing risks, making decisions, and improving performance using the ISO 31000 guidelines. It provides information regarding the core elements and the effective implementation of a risk management framework, the application of the risk management process, and the actions necessary for the successful integration of these elements to meet organizational objectives. Furthermore, it provides guidance on the selection and application of techniques for assessing risks in a wide range of situations. Upon completion of the training course, participants can sit for the exam and apply to obtain the "PECB Certified ISO 31000 Lead Risk Manager" credential. The credential demonstrates that the participant possesses the theoretical and practical knowledge and professional capabilities to support and lead risk management processes based on ISO 31000 guidelines and best practices in this field. Certification and examination fees are included in the price of the training course. | https://www.newhorizons.com/course-outline/courseid/300200006 |
| ISO 9001 Foundation | 2.00 | $ 1,395.00 | ISO 9001 Foundations is a two-day training courses which focuses on the concepts of quality and quality management, and provides an overall explanation of ISO 9001 requirements for a quality management system (QMS). In this training course, you will be acquainted with the various aspects of a QMS based on ISO 9001, such as the role of top management, risks and opportunities, quality policy, processes that shape product and service provision activities, requirements for performance evaluation, and the importance of continual improvement. After completing this course, you can sit for the exam. If you successfully pass the exam, you can apply for the "Certificate Holder in ISO 9001 Foundation" designation. This certificate demonstrates that you have a general knowledge of ISO 9001 requirements for a QMS and enables you to be part of QMS implementation projects. | https://www.newhorizons.com/course-outline/courseid/300200010 |

| | | | | |
|---|---|---|---|---|
| ISO 9001 Lead Auditor | 5.00 | $ 2,475.00 | The PECB ISO 9001 Lead Auditor training course enables you to develop the necessary competence to perform quality management system (QMS) audits by applying widely recognized audit principles, procedures, and techniques. This training course combines the requirements of ISO/IEC 17021-1, the recommendations of ISO 19011, and other good practices of auditing and integrates them into a comprehensive methodology which enables you to successfully plan, conduct, and close ISO 9001 conformity assessment audits. Apart from a theoretical basis, the training course also provides you examples, exercises, and quizzes to help you practice the most important aspects of conformity assessment audits: interpretation of ISO 9001 requirements in the context of an audit, principles of auditing, application of audit methods, approaches to evidence collection and verification, leading an audit team, drafting nonconformity reports, and preparing the final audit report. The successful completion of the training course is followed by an exam. If you successfully pass the exam, you can apply for the "PECB Certified ISO 9001 Lead Auditor" credential. An UKAS accredited and internationally recognized "PECB ISO 9001 Lead Auditor" certificate validates your professional capabilities and demonstrates that you have the knowledge and skills to audit a QMS based on ISO 9001. Certification and examination fees are included in the price of the training course. | https://www.newhorizons.com/course-outline/courseid/300200012 |
| ISO 9001 Lead Implementer | 5.00 | $ 2,475.00 | The PECB ISO 9001 Lead Implementer is a five-day training course that aims to help you develop the competence necessary to establish, implement, operate, maintain, and continually improve a QMS. This training course aims to equip you with in-depth knowledge on ISO 9001 requirements, as well as the best practices and approaches used for the implementation and subsequent maintenance of a QMS. By attending this training course, you can help organizations utilize a structured and evidence-based approach for managing the quality of their products and services. Apart from this, you will also learn about the importance of customer focus and benefits of setting the foundations of an organizational culture which enables and supports quality. The training course is followed by a certification exam. If you pass, you can apply for the "PECB Certified ISO 9001 Lead Implementer" credential. UKAS accredited and internationally recognized, the "PECB ISO 9001 Lead Implementer" certificate validates your competence to implement a QMS based on the requirements of ISO 9001. Certification and examination fees are included in the price of the training course. | https://www.newhorizons.com/course-outline/courseid/300200011 |
| ISO/IEC 27001 Foundation | 2.00 | $ 1,395.00 | ISO/IEC 27001 Foundation training allows you to learn the basic elements to implement and manage an Information Security Management System as specified in ISO/IEC 27001. During this training course, you will be able to understand the different modules of ISMS, including ISMS policy, procedures, performance measurements, management commitment, internal audit, management review and continual improvement. After completing this course, you can sit for the exam and apply for the "PECB Certificate Holder in ISO/IEC 27001 Foundation" credential. A PECB Foundation Certificate shows that you have understood the fundamental methodologies, requirements, framework and management approach. Certification and examination fees are included in the price of the training course | https://www.newhorizons.com/course-outline/courseid/300200000 |
| ISO/IEC 27001 Lead Auditor | 5.00 | $ 2,475.00 | ISO/IEC 27001 Lead Auditor training enables you to develop the necessary expertise to perform an Information Security Management System (ISMS) audit by applying widely recognized audit principles, procedures and techniques. During this training course, you will acquire the knowledge and skills to plan and carry out internal and external audits in compliance with ISO 19011 and ISO/IEC 17021-1 certification process. Based on practical exercises, you will be able to master audit techniques and become competent to manage an audit program, audit team, communication with customers, and conflict resolution. After acquiring the necessary expertise to perform this audit, you can sit for the exam and apply for a "PECB Certified ISO/IEC 27001 Lead Auditor" credential. By holding a PECB Lead Auditor Certificate, you will demonstrate that you have the capabilities and competencies to audit organizations based on best practices. Certification and examination fees are included in the price of the training course. | https://www.newhorizons.com/course-outline/courseid/300200002 |
| ISO/IEC 27001 Lead Implementer | 5.00 | $ 2,475.00 | ISO/IEC 27001 Lead Implementer training course enables participants to acquire the knowledge necessary to support an organization in effectively planning, implementing, managing, monitoring, and maintaining an information security management system (ISMS). Information security threats and attacks increase and improve constantly. The best form of defense against them is the proper implementation and management of information security controls and best practices. Information security is also a key expectation and requirement of customers, legislators, and other interested parties. This training course is designed to prepare participants in implementing an information security management system (ISMS) based on ISO/IEC 27001. It aims to provide a comprehensive understanding of the best practices of an ISMS and a framework for its continual management and improvement. After attending the training course, you can take the exam. If you successfully pass it, you can apply for a "PECB Certified ISO/IEC 27001 Lead Implementer" credential, which demonstrates your ability and practical knowledge to implement an ISMS based on the requirements of ISO/IEC 27001. Certification and examination fees are included in the price of the training course. | https://www.newhorizons.com/course-outline/courseid/300200001 |
| ISO/IEC 27005 Information Security Risk Management Foundation | 2.00 | $ 1,395.00 | SO/IEC 27005 Foundation training course provides information on the fundamental concepts and principles of information security risk management based on ISO/IEC 27005. Why Should You Attend? ISO/IEC 27005 Foundation is a two-day training course that focuses on the information security risk management process introduced by ISO/IEC 27005 and the structure of the standard. It provides an overview of the guidelines of ISO/IEC 27005 for managing information security risks, including context establishment, risk assessment, risk treatment, communication and consultation, recording and reporting, and monitoring and review. After attending the training course, you can sit for the exam. If you successfully pass the exam, you can apply for the "PECB Certificate Holder in ISO/IEC 27005 Foundation" designation. This certificate demonstrates that you have a general knowledge of ISO/IEC 27005 guidelines for information security risk management. | https://www.newhorizons.com/course-outline/courseid/300200003 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| ISO/IEC 27005 Information Security Risk Management Lead Risk Manager | 5.00 | $ 2,475.00 | The ISO/IEC 27005 Lead Risk Manager training course enables participants to acquire the necessary competencies to assist organizations in establishing, managing, and improving an information security risk management (ISRM) program based on the guidelines of ISO/IEC 27005. Apart from introducing the activities required for establishing an information security risk management program, the training course also elaborates on the best methods and practices related to information security risk management.  Risk management is an essential component of any information security program. An effective information security risk management program enables organizations to detect, address, mitigate, and even prevent information security risks.  The ISO/IEC 27005 Lead Risk Manager training course provides an information security risk management framework based on ISO/IEC 27005 guidelines, which also supports the general concepts of ISO/IEC 27001. The training course also provides participants with a thorough understanding of other best risk management frameworks and methodologies, such as OCTAVE, EBIOS, MEHARI, CRAMM, NIST, and Harmonized TRA.  The PECB ISO/IEC 27005 Lead Risk Manager certificate demonstrates the individual has acquired the necessary skills and knowledge to successfully perform the processes needed for effectively managing information security risks. It also proves that the individual is able to assist organizations in maintaining and continually improving their information security risk management program.  The training course is followed by an exam. If you pass, you can apply for a "PECB Certified ISO/IEC 27005 Lead Risk Manager" credential. For more information about the examination process, please refer to the Examination, Certification, and General Information section below. | https://www.newhorizons.com/course-outline/courseid/300200004 |
| ISO/IEC 42001 Artificial Intelligence Management System - Lead Auditor | 5.00 | $ 2,475.00 | ISO/IEC 42001 Lead Auditor training course enables you to gain the necessary expertise to audit artificial intelligence management systems (AIMS) by applying widely recognized audit principles, procedures, and techniques.   Artificial intelligence (AI) has become integral to the success of many organizations by enhancing efficiency through automation and improving decision-making by utilizing advanced data analytics. However, organizations should ensure the appropriate and ethical use of AI. ISO/IEC 42001 enables organizations to implement appropriate processes and controls to ensure the responsible use and management of AI system.  As the number of organizations seeking ISO/IEC 42001 compliance increases, there is a simultaneous surge in demand for skilled auditors possessing the necessary knowledge to assess and verify compliance. Therefore, PECB has developed the ISO/IEC 42001 Lead Auditor training course to empower participants with the knowledge and skills essential for planning and conducting ISO/IEC 42001 audits based on best audit practices.  The ISO/IEC 42001 Lead Auditor training course is beneficial for professionals seeking to stay ahead of the competition. This training course equips you with the expertise needed to navigate the intricate realm of AI-influenced organizational frameworks, ensuring you are well-prepared to contribute to the success of organizations in this transformative era.  After finishing the training course, you will be eligible to take the exam. After passing the exam, you will be able to apply for the ""PECB Certified ISO/IEC 42001 Lead Auditor"" credential. This certification proves your professional expertise in auditing organizations against ISO/IEC 42001 based on best auditing practices. | https://www.newhorizons.com/course-outline/courseid/300201232 |
| ISO/IEC 42001 Artificial Intelligence Management System - Lead Implementer | 5.00 | $ 2,475.00 | The ISO/IEC 42001 Lead Implementer training course provides the participants with the essential competencies needed to effectively plan, implement, manage, monitor, maintain, and continually improve an artificial intelligence management system (AIMS).   Artificial intelligence (AI) is becoming a driving force in today's technology landscape. Its application has spanned across numerous sectors. Its rapid expansion brought unique challenges and considerations that demand specific expertise to ensure its effective implementation and responsible management. The PECB ISO/IEC 42001 Lead Implementer training course is your gateway to mastering the practical implementation and responsible management of AI management system.  The PECB ISO/IEC 42001 Lead Implementer training course is designed to prepare you to implement AI management system in accordance with ISO/IEC 42001. It provides you with the necessary competencies to effectively translate AI strategies into actionable solutions. It aims to provide a comprehensive understanding of AI implementation best practices and a framework for its successful integration within organizations, equipping you with the hands-on expertise to drive AIMS implementation projects.  After successfully completing the course and passing the exam, you can apply for the "PECB Certified ISO/IEC 42001 Lead Implementer" credential that demonstrates your ability to effectively implement AI strategies. | https://www.newhorizons.com/course-outline/courseid/300201231 |
| IT Management and Leadership Executive (ITMLE©) Certification | 3.00 | $ 1,995.00 | The ITMLE Certification Bootcamp is ideal for seasoned IT Managers and IT Directors (Managers of Managers) wanting to enhance their current job performance, position them for promotion, accelerate their upward mobility and get a seat at the business strategy/decision making table. NOTE: The course fee includes the cost of the ITMLE© certification exam. | https://www.newhorizons.com/course-outline/courseid/300190000 |
| IT Management and Leadership Professional (ITMLP©) Certification | 3.00 | $ 1,995.00 | The ITMLP Certification Boot Camp workshop contains a collection of key IT topics designed to increase the effectiveness of soon-to-be, new, and experienced first-line IT Managers, by: Widening their knowledge of IT, Discussing strategies to maximize user support and satisfaction, Providing insights into IT innovation and technology trends, Providing information on the use of various IT best-practices. NOTE: The course fee includes the cost of the ITMLP© certification exam. | https://www.newhorizons.com/course-outline/courseid/300190001 |
| ITIL® 4 Foundation | 3.00 | $ 1,695.00 | ITIL® is the world's leading best practice framework for implementing IT Service Management. ITIL version 4 introduces IT Service Management through the lens of a Service Value System (SVS), which provides a holistic end-to-end view of how to successfully contribute to business value, and also how to leverage concepts from models such as Lean IT, Agile, DevOps and Organizational Change Management. This foundational course immerses you in the guiding principles, dimensions, and practices of ITIL® 4.  This course will earn you 21 PDUs.  This class includes an exam voucher. | https://www.newhorizons.com/course-outline/courseid/300201004 |
| ITIL® 4 High Velocity IT (HVIT) | 3.00 | $ 2,385.00 | ITIL 4 is a framework for quality IT service management (ITSM) through proven best practice, providing practical and flexible guidance to support your organization on its journey to digital transformation while empowering your IT teams to continue to play a crucial role in the wider business strategy. This course highlights the ways in which digital organizations and digital operating models function in high-velocity environments, including the use of working practices such as Agile and Lean, and technical practices and technologies such as Cloud, Automation, and Automatic Testing. This class includes an exam voucher. | https://www.newhorizons.com/course-outline/courseid/200012771 |
| ITIL® 4 Specialist - Create Deliver and Support (CDS) | 3.00 | $ 2,385.00 | This course begins your journey toward the ITIL Managing Professional designation. You will acquire insight that will allow you to integrate different value streams and activities to create, deliver and support IT-enabled products and services. Armed with this knowledge and skill set, you will be confident in running those IT-enabled services, teams and workflows successfully. This class includes an exam voucher. | https://www.newhorizons.com/course-outline/courseid/200012691 |
| ITIL® 4 Specialist - Drive Stakeholder Value (DSV) | 3.00 | $ 2,385.00 | This course covers key topics such as SLA design, multi-supplier management, communication, relationship management, CX and UX design, customer journey mapping, and more. It will provide candidates with the tools to increase stakeholder satisfaction which is integral to business success in the current competitive landscape. This class includes an exam voucher. | https://www.newhorizons.com/course-outline/courseid/200012690 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| ITIL® 4 Strategic Leader: Digital and IT Strategy (DITS) | 3.00 | $ 2,385.00 | This course takes you on a digital strategy journey. Its iterative, eight-step model moves from "vision" through to "actions" and is about creating sustainable, digital momentum. You experience the four key capabilities to develop a holistic, digital capability framework: digital leadership, managing innovation and emerging technologies, risk management and structuring a digital enterprise. This class includes an exam voucher. | https://www.newhorizons.com/course-outline/courseid/200016689 |
| ITIL® 4 Strategist - Direct Plan and Improve (DPI) | 3.00 | $ 2,385.00 | This unique and central course covers requirements in both the ITIL Managing Professional and ITIL Strategic Leader designations. As such, this course is a must-have in any ITIL 4 professional development plan. You will gain the practical skills needed to establish a "learning and improving" IT organization that possess a strong and targeted strategic direction. This class includes an exam voucher. | https://www.newhorizons.com/course-outline/courseid/200012692 |
| JavaScript Essentials with jQuery | 5.00 | $ 3,495.00 | JavaScript Essentials with jQuery provides an introduction to and experience working with the JavaScript programming language in the environment it's used in the most: the browser. | https://www.newhorizons.com/course-outline/courseid/200008779 |
| Keep Going with QuickBooks | 2.00 | $ 790.00 | From reporting to automating tasks, working with more advanced features and accounts, this course moves beyond the basics and enables students to work with more advanced features in QuickBooks. | https://www.newhorizons.com/course-outline/courseid/200010585 |
| Leadership Excellence for Senior Management | 3.00 | $ 2,250.00 | To maximize performance and foster a healthy environment, senior managers must also motivate others, nurturing and utilizing the distinctive skills of each team member. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201063 |
| Leading Remote/Hybrid Teams | .50 | $ 495.00 | Leading teams when team members are working remotely is demanding. Team development takes longer, communication is more labor-intensive, and trust can be elusive. In general, leaders must be more intentional with everything they do to create that high-performing team environment. In this interactive workshop, explore the dynamics of working with virtual teams and learn how to develop a team no matter where they are located. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course has been approved for 4 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200908 |
| Lean Foundations Workshop | 2.00 | $ 1,195.00 | Embark on a journey of learning and discovery with our interactive, foundational two-day training course, where you will explore the world of Lean methodology and apply the concepts during a simulated Kaizen event. This powerful approach encompasses a meticulously crafted set of principles and practices that have the remarkable ability to not only enhance but also revolutionize the efficiency and effectiveness of any process within your organization. From streamlining workflows to minimizing waste and maximizing value, this course will equip you with the tools to drive meaningful process improvements and elevate your professional prowess to new heights. This course will earn you 19.5 PDUs. | https://www.newhorizons.com/course-outline/courseid/300201026 |
| Lean Six Sigma Black Belt (LSSBB) Training | 10.00 | $ 3,595.00 | Lean Six Sigma saves organizations time and money through continuous improvement. Employers therefore often pay a premium for Six Sigma trained and certified managers. Our Lean Six Sigma Black Belt training teaches you the strategies and tools necessary for leading process improvement in your organization and provides you with the Lean Six Sigma Black Belt Certification. Take your career to the next level by getting your Lean Six Sigma certification today! Upon successfully completing the course (attending all days, completing all assignments, passing the final exam, and submitting and passing the final Lean Six Sigma project), you will earn the Lean Six Sigma Black Belt (LSSBB) credential from Project Management Academy®. Project Management Academy is accredited by the Council for Six Sigma Certification (CSSC), an Official Industry Standard for Six Sigma Accreditation. Your final Lean Six Sigma project must demonstrate your ability to carry out a Six Sigma project (from creation to the final stages using the DMAIC/DMADV method). Note: This course is conducted 2 Days/Week for 5 Weeks (Wednesdays & Fridays: 9am-5pm CST) for a total of 10 days of training to allow time for review and project development between course sessions. This course will earn you 80 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200761 |
| Lean Six Sigma Green Belt (LSSGB) Training | 5.00 | $ 2,295.00 | Lean Six Sigma saves organizations time and money through continuous improvement. Employers therefore often pay a premium for Six Sigma-trained and certified managers. Our Lean Six Sigma Green Belt training teaches you the strategies and tools necessary for process improvement and provides you with the Lean Six Sigma Green Belt Certification. Take your career to the next level by getting your Lean Six Sigma certification today! Upon successfully completing the course (attending all days and completing all assignments), you will earn the Lean Six Sigma Green Belt (LSSGB) credential from Project Management Academy®. Project Management Academy is accredited by the Council for Six Sigma Certification (CSSC), an Official Industry Standard for Six Sigma Accreditation. Note: This course will earn you 40 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200760 |
| Link Your Salesforce Data Using Marketing Cloud Connect (MCC201) | 4.00 | $ 2,400.00 | Unify and analyze your data in one place with Marketing Cloud Connect. In this 4-day class, you'll learn how to link your Marketing, Sales, and Service Clouds to seamlessly engage with your customers. Discover how to segment Salesforce data to create personalized, targeted emails. Track and report on those emails to see what resonates most with your customers so you can strengthen your relationships with them. NOTE: This class is offered in our extended 10-day format. | https://www.newhorizons.com/course-outline/courseid/300200896 |
| Mac Integration Basic v13 - Ventura | .50 | $ 595.00 | Organizations are increasingly integrating Mac computers into Windows or other standards-based network environments. But users and the IT professionals who support them can relax because Mac integration is easy. | https://www.newhorizons.com/course-outline/courseid/300200788 |
| Mac Integration Basics v14 | 1.00 | $ 595.00 | Organizations are increasingly integrating Mac computers into Windows or other standards-based network environments. But users and the IT professionals who support them can relax because Mac integration is easy. | https://www.newhorizons.com/course-outline/courseid/300201092 |
| macOS 100: Introduction to macOS Sonoma | 1.00 | $ 595.00 | macOS 100: Introduction to macOS Sonoma is a hands- on class designed to help beginning Mac users and transitioning Windows users become more familiar in using the macOS. | https://www.newhorizons.com/course-outline/courseid/300201094 |
| macOS 100: Introduction to macOS Ventura | 1.00 | $ 595.00 | macOS 100: Introduction to macOS Ventura is a hands-on class designed to help beginning Mac users and transitioning Windows users become more familiar in using the macOS. | https://www.newhorizons.com/course-outline/courseid/300200807 |
| macOS Support Essentials v13 - Ventura | 3.00 | $ 2,100.00 | macOS Support Essentials v13, is a top-notch primer for anyone who needs to support, troubleshoot, or optimize macOS Ventura, such as IT professionals, technicians, help desk specialists, and ardent Mac users. This is the only Apple Pro Training Series course that covers Ventura. Students will find in-depth, step-by-step instructions on everything from upgrading, updating, reinstalling, and configuring macOS Ventura to setting up network services like the Content Caching service. | https://www.newhorizons.com/course-outline/courseid/300200808 |
| macOS Support Essentials v14 | 3.00 | $ 2,100.00 | macOS Support Essentials v14, is a top-notch primer for anyone who needs to support, troubleshoot, or optimize macOS Sonoma, such as IT professionals, technicians, help desk specialists, and ardent Mac users. This is the only Apple Pro Training Series course that covers Sonoma. Students will find in-depth, step-by-step instructions on everything from upgrading, updating, reinstalling, and configuring macOS Sonoma to setting up network services like the Content Caching service. | https://www.newhorizons.com/course-outline/courseid/300201093 |

| Making ChatGPT and Generative AI Work for You (GenAIBIZ) | 1.00 | $ 795.00 | A major milestone in business automation has been reached—generative AI. Despite its recency, it has already started having a significant impact on our lives. But, the rapid pace at which generative AI is growing can be overwhelming. And, there are so many facets to this field that it can be difficult to know how to use it effectively to improve the business.  This course is designed to demystify generative AI for business professionals, as well as to trace its power to actionable, real-world business goals. It will give you the essential knowledge of generative AI you'll need to elevate the organization in these exciting times. | https://www.newhorizons.com/course-outline/courseid/300200960 |
| Making the Right Decisions Under Pressure | 2.00 | $ 1,495.00 | In this course, students will learn to evaluate options, generate possible solutions, and decide on logical strategies. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201077 |
| Managing Aruba Cloud-Based Networks with Aruba Central (AOS 10) (AA-MACC) | 3.00 | $ 2,400.00 | This 3-day course teaches students how Aruba Central, Aruba's cloudbased networking system, enables IT staff to manage and monitor both wired and wireless environments. This course includes topics such as Central RESTAPI and teaches students new MSP features within HPE GreenLake. Students will learn how to simplify the onboarding and provisioning process for new network devices, such as Aruba access points, switches and gateways.  This course will teach learners how VisualRF integrates with Central and how to configure traditional IAPs (AOS8) and AOS10 APs with Aruba Central as well as and how to leverage other value-added network services such as guest access, AIOps, contact tracing and presence analytics. Students will also learn several best practices for administration, monitoring, troubleshooting and reporting services that will help them proactively assess and improve their network performance. This course includes training and hands-on labs. | https://www.newhorizons.com/course-outline/courseid/300201303 |
| Managing Azure with Terraform | 3.00 | $ 1,795.00 | As enterprises seek to deploy and maintain increasingly complex Azure cloud infrastructure, there is a necessity to use "Infrastructure as Code" (IaC) tools, like Terraform. An open-source, state management tool developed by HashiCorp, Terraform allows developers to use a common coding interface to work through their various clouds safely and efficiently. Attendees will leave being able to write and understand Terraform code (HCL), have a clear understanding of Terraform's various components and supporting tools, as well as when to reach for Terraform over another IaC tool, such as Ansible. | https://www.newhorizons.com/course-outline/courseid/300201182 |
| Managing Conflict | 1.00 | $ 395.00 | An organization improves its likelihood of success by effectively managing conflict. As a leader within your organization, you share in that responsibility. This course will help you cultivate the skills necessary to help manage conflict and ultimately to decrease the presence of conflict in the workplace. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201054 |
| Managing Enterprise Automation with Red Hat Ansible Automation Platform (DO467) | 5.00 | $ 4,280.00 | Managing Enterprise Automation with Red Hat Ansible Automation Platform (DO467) is for experienced Ansible automation engineers, DevOps practitioners, and Linux system administrators seeking to deploy, control, and support centralized automation execution on a large scale. Students will use Red Hat Ansible Automation Platform 2 to scale up Ansible automation. They will deploy automation controller to centrally manage automation workflows, automation mesh to scale up and distribute execution capacity, and private automation hub to manage Ansible Content Collections and automation execution environments for use by automation developers. Large scale automation cluster design and approaches to ensure high availability of Ansible Automation Platform will also be discussed.  This course is based on Red Hat Ansible Automation Platform 2.2. | https://www.newhorizons.com/course-outline/courseid/300200739 |
| Managing LAN Networks with Cisco Nexus Dashboard (MNDFC) | 5.00 | $ 4,495.00 | This 5-day class on Nexus Dashboard covers data center and campus operations with VXLAN and EVPN, then dives into Nexus Dashboard Fabric Controller (NDFC) to deploy and manage VXLAN and EVPN.   The course qualifies for 40 Cisco Continuing Education credits (CE) towards recertification. | https://www.newhorizons.com/course-outline/courseid/300200939 |
| Managing Remote and Virtual Teams | 2.00 | $ 1,495.00 | The business model of managing remote and hybrid teams is constantly evolving.  Managing remote teams—a rarity just a few years ago—is now a common occurrence.  Working virtually offers unique advantages  and challenges. But how do you best leverage these benefits while overcoming impediments?  This workshop will teach you to adjust your  management style to successfully improve communication, foster connections, increase productivity, and develop remote and virtual teams. Focused on practical skills, this workshop includes activities to apply these techniques and drive results. | https://www.newhorizons.com/course-outline/courseid/300201087 |
| Managing Requirements for SharePoint Projects | 2.00 | $ 1,395.00 | Many Project Management and Business Analyst professionals are finding themselves leading, managing and analyzing SharePoint initiatives - only to find that many of the tools and techniques applied no longer work as effectively or at all. In order to do more than survive in this iterative development environment, today's Project Manager and Business Analyst must employ additional project management and business analysis tools and techniques to effectively lead their teams and deliver their projects.  Requirements can change frequently during a SharePoint project, and therefore projects need a streamlined, flexible approach to requirements change management. SharePoint professionals want to develop systems and services which are both high-quality and high-value, and the easiest way to achieve this is to implement the highest priority requirements first. This enables the projects to maximize value for their stakeholders. The course will explore how your projects can easily and successfully manage requirements in an effective SharePoint environment. (BA09)  NOTE: This course will earn you 14 PDUs. | https://www.newhorizons.com/course-outline/courseid/200004232 |
| Managing the Virtual Workplace | 1.00 | $ 395.00 | Virtual workers and virtual teams are an essential part of today's workforce. More than ever, people are using technology to work anywhere, anytime. There are benefits to today's virtual workplace, but there can be challenges, too. This course will teach managers and supervisors how to prepare employees for the virtual workplace, create telework programs, build virtual teams, leverage technology, and overcome cultural barriers. | https://www.newhorizons.com/course-outline/courseid/100001040 |
| Managing Virtual Machines with Red Hat OpenShift Virtualization (DO316) | 4.00 | $ 3,210.00 | Managing Virtual Machines with OpenShift Virtualization teaches the essential skills required to create and manage virtual machines (VM) on OpenShift using the Red Hat OpenShift Virtualization operator. This course does not require previous knowledge of containers and Kubernetes. | https://www.newhorizons.com/course-outline/courseid/300200703 |
| Mastering Meaningful Engagement | 2.00 | $ 1,495.00 | What's the difference between good engagement and incredible engagement? How do you know when your audience, employees, or teammates are committed to everything you say and do? The answer is Authentic Engagement. When you notice amazing leaders, you will notice they possess all seven of these traits, regardless of whether they have been in the profession twenty years or twenty weeks. This course is the map toward shaping the next wave of leaders, regardless of style, audience, or modality! The question is: Are you ready to embark on your voyage? In this course, you will learn how to authentically engage others, build a more purposeful message that resonates, and learn the strategies to gain stronger engagement and input back from the people you work with. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201043 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Mastering Positive Assertiveness | 2.00 | $ 1,595.00 | In this course, students will discover the best techniques to be properly assertive, and what are the ideal approaches in differing situations. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201078 |
| MB-210T01 Dynamics 365 for Customer Engagement for Sales | 2.00 | $ 1,295.00 | Microsoft Dynamics 365 Sales is an end-to-end application to manage the handling of customers and potential customers. Using Dynamics 365 Sales, organizations can track data against sales goals, automate best practices, learn from data, and more. Join our team of globally recognized experts as they take you step by step from lead to opportunity to closed deal. Using the application's available automation and customization options you will learn how to enable sales staff to be their most productive selves. | https://www.newhorizons.com/course-outline/courseid/200012224 |
| MB-220T00 Microsoft Dynamics 365 Customer Insights (Journeys) Functional Consultant | 4.00 | $ 2,495.00 | This course will review the Dynamics 365 Customer Insights - Journeys application configuration needed to drive business growth. It will also dive into lead management, marketing forms and pages, segmentation, real-time marketing, and email marketing messages. All these pieces are tied together through interactive customer journey design, including event and survey configuration. | https://www.newhorizons.com/course-outline/courseid/100001015 |
| MB-230T00 Microsoft Dynamics 365 Customer Service | 4.00 | $ 2,495.00 | Microsoft Dynamics 365 Customer Service offers any organization an opportunity for customer success. Using tools such as automatic case creation and queue management frees up your time to dedicate it where you can have a greater impact, directly with your customers.Join our team of globally recognized experts as they take you step by step from creating cases to interacting with customers to resolving those cases. Once you've resolved those cases you can learn from data analysis the key details to help you resolve similar cases faster or avoid new issues altogether. | https://www.newhorizons.com/course-outline/courseid/100001058 |
| MB-240T00 Dynamics 365 for Field Service | 4.00 | $ 2,495.00 | Learn how to effectively configure a Dynamics 365 for Field Service implementation to maximize the tools and features available to efficiently manage a mobile work force. | https://www.newhorizons.com/course-outline/courseid/200012407 |
| MB-260T00: Microsoft Customer Data Platform Specialty | 4.00 | $ 2,495.00 | Dynamics 365 Customer Insights - Data specialists implement solutions that provide insight into customer profiles and that track engagement activities to help improve customer experiences and increase customer retention. In this course, students will learn about the Dynamics 365 Customer Insights - Data solution, including how to unify customer data with prebuilt connectors, predict customer intent with rich segmentation, and maintain control of customer data. This course begins with importing and transforming your customer data and culminates with extending your customer data platform solution into the Power Platform and Dynamics 365 applications. | https://www.newhorizons.com/course-outline/courseid/100001073 |
| MB-300T00 Microsoft Dynamics 365 Core Finance and Operations | 2.00 | $ 1,295.00 | This course covers the following core features in Dynamics 365: core common features, core configuration, data migration, and preparing to go live. | https://www.newhorizons.com/course-outline/courseid/200012698 |
| MB-310T00 Microsoft Dynamics 365 Finance | 4.00 | $ 2,495.00 | This course covers the financial aspects of Dynamics 365: configure and use essential financial components, accounts payable, accounts receivable, collections, budgeting, fixed assets, and additional functionality | https://www.newhorizons.com/course-outline/courseid/200012699 |
| MB-330T00 Microsoft Dynamics 365 Supply Chain Management | 5.00 | $ 2,995.00 | This course is designed to build your foundation in Dynamics 365 Supply Chain Management application knowledge. This course will cover the most important features and functionalities needed by Dynamics 365 Supply Chain Management functional consultant including: The product information and how to configure, create, and manage your product and inventory. Supply chain management configuration and processing. The transportation management features, and the warehouse management features. Quality management and quality control functionalities. Master planning configuration and processing. This course includes lectures and several hands-on exercises. The exercises will be introduced to you in the form of a case study presented to a Dynamics 365 Supply Chain Management functional consultant. Each exercise will be based on a business scenario followed by a question or discussion then a step-by-step guidance to perform the system related steps. | https://www.newhorizons.com/course-outline/courseid/200015328 |
| MB-335T00: Microsoft Dynamics 365 Supply Chain Management, Expert | 5.00 | $ 2,995.00 | This course is designed to build your in Dynamics 365 Supply Chain Management application knowledge. This course will cover the most important features and functionalities needed by Dynamics 365 Supply Chain Management functional consultant including: The product information and how to configure, create, and manage your product and inventory. Supply chain management configuration and processing. The transportation management features, and the warehouse management features. Asset Management functionalities. Master planning configuration and processing. Sales and procurement processes. This course includes lectures and several hands-on exercises. The exercises will be introduced to you in the form of a case study presented to a Dynamics 365 Supply Chain Management Functional Consultant, Expert. Each exercise will be based on a business scenario followed by a question or discussion then a step-by-step guidance to perform the system related steps. | https://www.newhorizons.com/course-outline/courseid/300200962 |
| MB-500T00 Microsoft Dynamics 365: Finance and Operations Apps Developer | 5.00 | $ 2,995.00 | In this course we discuss the tasks needed to fulfill the role of developer in Dynamics 365 Finance and Operations Apps. The Dynamics 365 Finance and Operations apps developer is a key technical resource that implements and extends the application to meet the requirements of the business. | https://www.newhorizons.com/course-outline/courseid/200012876 |
| MB-700T00 Microsoft Dynamics 365: Finance and Operations Apps Solution Architect | 5.00 | $ 2,495.00 | The Dynamics 365 Finance and Operations solution architect is a trusted advisor who consults with organizations and implementation team members to refine business needs into a well-defined and cost-effective solution. The architect is accountable for the integrity and successful delivery of the complete solution design. The architect provides critical guidance and support from pre-sales throughout the remainder of the project lifecycle. They have great breadth of knowledge and experience designing solutions that meet business needs. The solution architect may have a technical, functional, or industry background. The solution architect must demonstrate knowledge of all Dynamics 365 apps and Power Platform. They must have deep understanding of Finance and Operations apps. In addition, they have extensive domain knowledge in one or more industry verticals. This course is designed to prepare those who are aspired to be solution architects and those who are new to this role to learn more about the technical information that solution architects will be dealing with during implantation. | https://www.newhorizons.com/course-outline/courseid/200015175 |
| MB-800T00 Microsoft Dynamics 365 Business Central Functional Consultant | 5.00 | $ 2,495.00 | Built and optimized for small and medium businesses, Dynamics 365 Business Central is an application for companies that have outgrown their entry-level business applications. Growing businesses often outgrow their basic accounting software or legacy enterprise resource planning (ERP) systems that are unable to handle increased inventory and transactions, lack integration with other line-of-business systems, and have reporting limitations. Businesses are also challenged with the logistics of providing services that have more scalability, increased mobility, and availability in the cloud. With Business Central, you can manage your financials, automate and secure your supply chain, sell smarter, improve customer service and project performance, and optimize your operations. | https://www.newhorizons.com/course-outline/courseid/100001031 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| MB-820T00 Dynamics 365 Business Central Developer | 5.00 | $ 2,995.00 | A Dynamics 365 Business Central developer develops apps that extend Business Central. This can include creating new modules and modifying existing modules. The developer can add new business logic or change existing business logic by using events. A developer also makes it possible to integrate Business Central with other applications, including Microsoft Power Platform products. Business Central developers are responsible for troubleshooting and debugging issues in the system. This may involve identifying the root cause of a problem, fixing bugs, and testing the solution to ensure it works as expected. Business Central developers may be required to optimize the performance of the system by identifying bottlenecks and improving code quality. Business Central developers are responsible for upgrading the system, migrating data, and maintaining the system to ensure it remains up to date and secure. | https://www.newhorizons.com/course-outline/courseid/300201124 |
| MB-910T00 Microsoft Certified Dynamics 365 Fundamentals (CRM) | 1.00 | $ 695.00 | Do you want to learn more about Dynamics 365? This course will provide you with a broad introduction to the customer engagement capabilities of Dynamics 365. You will become familiar with the concept of customer engagement, the core capabilities of customer engagement apps as well as with each of the customer engagement apps, including Dynamics 365 Marketing, Dynamics 365 Sales, Dynamics 365 Customer Service and Dynamics 365 Field Service. This course will include lecture as well as hands-on-labs. | https://www.newhorizons.com/course-outline/courseid/100001053 |
| MB-920T00 Microsoft Dynamics 365 Fundamentals (ERP) | 1.00 | $ 695.00 | Do you want to learn more about Dynamics 365? This course will provide you with a broad introduction to the finance and operations capabilities of Dynamics 365. You will become familiar with the concept of enterprise resource management (ERP), and learn about the core capabilities of the finance and operations app. Then we will discuss each of the apps individually, including Dynamics 365 Supply Chain Management, Dynamics 365 Finance, Dynamics 365 Commerce, Dynamics 365 Human Resources, and the ERP capabilities of Dynamics 365 Project Operations. This course will include lecture and hands-on-labs. | https://www.newhorizons.com/course-outline/courseid/100001054 |
| MD-102T00 Microsoft 365 Endpoint Administrator | 5.00 | $ 2,995.00 | In this course, students will learn to plan and execute an endpoint deployment strategy using contemporary deployment techniques and implementing update strategies. The course introduces essential elements of modern management, co-management approaches, and Microsoft Intune integration. It covers app deployment, management of browser-based applications, and key security concepts such as authentication, identities, access, and compliance policies. Technologies like Microsoft Entra ID, Azure Information Protection, and Microsoft Defender for Endpoint are explored to protect devices and data. | https://www.newhorizons.com/course-outline/courseid/300200925 |
| Microsoft Office 365 Online (with Teams for the Desktop) | 1.00 | $ 295.00 | This course introduces working with shared documents in the familiar Office 365 online apps—Word, PowerPoint®, and Excel®—as an alternative to installing the Microsoft® Office desktop applications. This course also introduces several productivity apps including Yammer™, Planner, and Delve® that can be used in combination by teams for communication and collaboration. | https://www.newhorizons.com/course-outline/courseid/200012634 |
| Microsoft Office Publisher 2016/2019 | 1.00 | $ 295.00 | Microsoft® Office Publisher is an application capable of producing greeting cards, certificates, newsletters, and other printed publications. Publisher includes a large collection of templates that provide a great way to start a new publication. | https://www.newhorizons.com/course-outline/courseid/200008589 |
| Microsoft Power BI - Data Analysis Practitioner | 2.00 | $ 800.00 | As technology progresses and becomes more interwoven with our businesses and lives, more data is collected about business and personal activities. This era of "big data" has exploded due to the rise of cloud computing, which provides an abundance of computational power and storage, allowing organizations of all sorts to capture and store data. Leveraging that data effectively can provide timely insights and a competitive advantage. | https://www.newhorizons.com/course-outline/courseid/200012237 |
| Microsoft Power BI Data Analysis Professional | 3.00 | $ 1,895.00 | As technology progresses and becomes more interwoven with our businesses and lives, more data is collected about business and personal activities. This era of ""big data"" has exploded due to the rise of cloud computing, which provides an abundance of computational power and storage, allowing organizations of all sorts to capture and store data. Leveraging that data effectively can provide timely insights and competitive advantage.     The creation of data-backed visualizations is a key way data scientists, or any professional, can explore, analyze, and report insights and trends from data. Microsoft® Power BI® software is designed for this purpose. Power BI was built to connect to a wide range of data sources, and allows users to quickly create visualizations of connected data to gain insights, show trends, and create reports. Power BI's data connection capabilities and visualization features go far beyond those that can be found in spreadsheets, allowing users to create compelling and interactive worksheets, dashboards, and stories that bring data to life and turn data into thoughtful action. | https://www.newhorizons.com/course-outline/courseid/300201030 |
| Microsoft SharePoint 2016 - Advanced Site Owner with Workflow Administration | 1.00 | $ 495.00 | In this course, students will learn how to create, configure, and manage a SharePoint site so that your team or organization can collaborate effectively, manage the flow of digital information, automate business processes, & meet records management needs. This course is for an on-premise SharePoint environment. | https://www.newhorizons.com/course-outline/courseid/200008586 |
| Microsoft SharePoint 2016 - Site Owner | 1.00 | $ 495.00 | In this course, students will learn how to create, configure, and manage a SharePoint team site so that your team or organization can share information and collaborate effectively. This course is for an on-premise SharePoint environment. | https://www.newhorizons.com/course-outline/courseid/200008585 |
| Microsoft SharePoint 2016 - Site User | 1.00 | $ 495.00 | SharePoint is a complex platform. A strong understanding of the platform will allow students to work more efficiently & effectively. In this course, students will learn how to use a SharePoint Team Site to access, store, and share information & documents. This course is for an on-premise SharePoint environment. | https://www.newhorizons.com/course-outline/courseid/200008584 |
| Microsoft Windows Automation with Red Hat Ansible Automation Platform (DO417) | 5.00 | $ 4,280.00 | In this course, you will gain the insight to automate administration on Windows Server to empower your DevOps workflow.  If you are a Windows Server professional without previous Ansible® experience this course will be of great benefit. You will leverage Ansible to write automation playbooks for Microsoft Windows systems to perform common system administration tasks reproducibly at scale. You will also gain advantage with Red Hat® Ansible Tower to securely manage and run your Ansible playbooks from a central web-based user interface. This course is based on Red Hat Ansible Engine 2.8, Red Hat Ansible Tower 3.5, and Windows Server 2016 and 2019. | https://www.newhorizons.com/course-outline/courseid/200012903 |
| Microsoft® Windows® 11: Transition from Windows® 10 | .50 | $ 148.00 | As an experienced Windows® 10 user, when you are ready to move to Windows 11, you might like some guidance in using the new and updated features. This course will help you identify and use those features efficiently and effectively. | https://www.newhorizons.com/course-outline/courseid/100001085 |
| Migrating to AWS | 3.00 | $ 2,025.00 | This course is for individuals who seek an understanding of how to plan and migrate existing workloads to the AWS Cloud. You will learn about various cloud migration strategies and how to apply each step of the migration process, including portfolio discovery, application migration planning and design, conducting a migration, and post-migration validation and application optimization. Hands-on labs reinforce learning, and each lab is designed to provide you with the understanding and foundation necessary to complete migration tasks in your organization. | https://www.newhorizons.com/course-outline/courseid/300030012 |
| Migration from VMware NSX for vSphere to NSX-T | 3.00 | $ 2,775.00 | This three-day, hands-on training course provides you with the skills, techniques, and tools required to successfully migrate your current VMware NSX® Data Center for vSphere® environment to VMware NSX-T™ Data Center. You will learn to choose between different migration approaches and how to perform the type of migration that best suits your current environment. In addition, you are presented with common migration problems and resolutions | https://www.newhorizons.com/course-outline/courseid/300200965 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| MLOps Engineering on AWS | 3.00 | $ 2,025.00 | This course builds upon and extends the DevOps practice prevalent in software development to build, train, and deploy machine learning (ML) models. The course stresses the importance of data, model, and code to successful ML deployments. It will demonstrate the use of tools, automation, processes, and teamwork in addressing the challenges associated with handoffs between data engineers, data scientists, software developers, and operations. The course will also discuss the use of tools and processes to monitor and take action when the model prediction in production starts to drift from agreed-upon key performance indicators. | https://www.newhorizons.com/course-outline/courseid/300030056 |
| Monitoring and Troubleshooting Network Performance using DNA Center with Assurance (DNACAM) | 3.00 | $ 3,295.00 | Monitoring and Troubleshooting Network Performance using Cisco DNA Center with Assurance is a 3-day course which provides students with the skills to implement, monitor, troubleshoot, and remediate network infrastructure, applications, and devices using Cisco DNA Center Assurance tools and techniques. | https://www.newhorizons.com/course-outline/courseid/300040029 |
| MS-080T00 Employee Experience Platform Specialist | 1.00 | $ 695.00 | In this course, you'll learn how to bring people together to create an optimal employee experience that enables your organization to improve productivity, develop empathetic leadership, and transform how employees feel about their work. In your organization today, are people being treated well, or are their needs neglected? Are your teams aligned on goals with a sense of purpose? Are you driving the business outcomes that you need? The Microsoft Viva employee experience platform provides the infrastructure to create the culture of trust, collaboration, well-being, and active listening that you envision. This training course will provide Microsoft Employee Experience Platform Specialists with a comprehensive overview of Microsoft Viva, as well as Microsoft 365, Teams, and SharePoint. It will cover how to identify requirements for designing experiences for employee onboarding, career and skill development, rewards and recognition, compensation and benefits, employee wellbeing, and employee retention. It will also cover how to design solutions to meet these requirements, and how to collaborate with senior executive leadership, human resources, IT, adoption and change management, and learning and organizational development departments. Finally, it will cover how to continuously improve employee experiences based on data-driven insights and feedback. | https://www.newhorizons.com/course-outline/courseid/300200928 |
| MS-102T00 Microsoft 365 Administrator Essentials | 5.00 | $ 2,995.00 | This course covers the following key elements of Microsoft 365 administration: Microsoft 365 tenant management, Microsoft 365 identity synchronization, and Microsoft 365 security and compliance. In Microsoft 365 tenant management, you learn how to configure your Microsoft 365 tenant, including your organizational profile, tenant subscription options, component services, user accounts and licenses, security groups, and administrative roles. You then transition to configuring Microsoft 365, with a primary focus on configuring Office client connectivity. Finally, you explore how to manage user-driven client installations of Microsoft 365 Apps for enterprise deployments. The course then transitions to an in-depth examination of Microsoft 365 identity synchronization, with a focus on Microsoft Entra Connect and Connect Cloud Sync. You learn how to plan for and implement each of these directory synchronization options, how to manage synchronized identities, and how to implement password management in Microsoft 365 using multifactor authentication and self-service password management. In Microsoft 365 security management, you begin examining the common types of threat vectors and data breaches facing organizations today. You then learn how Microsoft 365's security solutions address each of these threats. You are introduced to the Microsoft Secure Score, as well as to Microsoft Entra ID Protection. You then learn how to manage the Microsoft 365 security services, including Exchange Online Protection, Safe Attachments, and Safe Links. Finally, you are introduced to the various reports that monitor an organization's security health. You then transition from security services to threat intelligence; specifically, using Microsoft 365 Defender, Microsoft Defender for Cloud Apps, and Microsoft Defender for Endpoint. Once you have this understanding of Microsoft 365's security suite, you then examine the key components of Microsoft 365 compliance management. This begins with an overview of all key aspects of data governance, including data archiving and retention, Microsoft Purview message encryption, and data loss prevention (DLP). You then delve deeper into archiving and retention, paying particular attention to Microsoft Purview insider risk management, information barriers, and DLP policies. You then examine how to implement these compliance features by using data classification and sensitivity labels. | https://www.newhorizons.com/course-outline/courseid/300200924 |
| MS-4001 Build collaborative apps for Microsoft Teams | 1.00 | $ 595.00 | Learn how to build and distribute Microsoft Teams apps that retrieve user information using the Microsoft Graph API. Practice building and deploying apps in the guided project at the end of the learning path. | https://www.newhorizons.com/course-outline/courseid/300201174 |
| MS-4005 Craft effective prompts for Microsoft Copilot for Microsoft 365 | 1.00 | $ 595.00 | Discover ways to craft effective and contextual prompts for Microsoft Copilot for Microsoft 365 that create, simplify, transform, and compile content across Microsoft 365 applications. Learn the importance of providing a clear goal, context, source, and expectation in your prompt for the best results. This course covers real world scenarios and examples using Copilot in Microsoft 365 apps like Word, Excel, PowerPoint, Teams, Outlook, OneNote, and Chat. | https://www.newhorizons.com/course-outline/courseid/300201209 |
| MS-4006 Copilot for Microsoft 365 for Administrators | 1.00 | $ 695.00 | This course begins by examining the Microsoft Copilot for Microsoft 365 design. Its main focus, however, is on the security and compliance features that administrators must configure in their Microsoft 365 tenant to protect their company's organizational data before they implement Copilot for Microsoft 365. | https://www.newhorizons.com/course-outline/courseid/300201227 |
| MS-4007 Copilot for Microsoft 365 User Enablement Specialist | 1.00 | $ 695.00 | Learn how to drive adoption of Microsoft Copilot for Microsoft 365 using the Microsoft 365 adoption framework to create and implement a robust adoption plan. | https://www.newhorizons.com/course-outline/courseid/300201228 |
| MS-700T00 Managing Microsoft Teams | 4.00 | $ 2,495.00 | The Managing Microsoft Teams course is designed for persons who are aspiring to the Microsoft 365 Teams Admin role. A Microsoft Teams administrator plans, deploys, configures, and manages Microsoft Teams to focus on efficient and effective collaboration and communication in a Microsoft 365 environment. In this course, you will learn about various Teams management tools, security and compliance feature for Teams, network requirement for Teams deployment as well as different Teams settings and policies for managing collaboration and communication experience in Teams. | https://www.newhorizons.com/course-outline/courseid/200012880 |
| MS-721T00 Collaboration Communications Systems Engineer | 4.00 | $ 2,380.00 | This training course is designed to give participants the knowledge and skills to become a Collaboration Communications Systems Engineer. Participants should understand the fundamentals of networking, telecommunications, audio/visual and meeting room technologies, identity and access management, and Microsoft Teams. They will gain hands-on experience configuring and deploying Microsoft Teams Phone, meetings and certified devices including Microsoft Teams Rooms and Surface Hub. The course will also cover how to manage and monitor Teams Phone, meetings, and certified devices using the Microsoft Teams admin center, PowerShell, the Microsoft Teams Rooms Pro Portal, and the Call Quality Dashboard. In addition, the course will cover configuring and deploying Microsoft Teams Phone with PSTN connectivity through Microsoft Calling Plans, Operator Connect, Teams Phone Mobile, and Direct Routing. | https://www.newhorizons.com/course-outline/courseid/300200956 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| MS-900T01 Microsoft 365 Fundamentals | 1.00 | $ 695.00 | This course introduces Microsoft 365, an integrated cloud platform that delivers industry-leading productivity apps along with intelligent cloud services, and world-class security. You'll learn foundational knowledge on the considerations and benefits of adopting cloud services and the Software as a Service (SaaS) cloud model, with a specific focus on Microsoft 365 cloud service offerings. You will begin by learning about cloud fundamentals, including an overview of cloud computing. You will be introduced to Microsoft 365 and learn how Microsoft 365 solutions improve productivity, facilitate collaboration, and optimize communications. The course then analyzes how security, compliance, privacy, and trust are handled in Microsoft 365, and it concludes with a review of Microsoft 365 subscriptions, licenses, billing, and support. | https://www.newhorizons.com/course-outline/courseid/200012189 |
| Multicluster Management with Red Hat OpenShift Platform Plus (DO480) | 5.00 | $ 4,280.00 | Multicluster Management with Red Hat OpenShift Platform Plus teaches the skills required to maintain a diverse portfolio of applications, running across a fleet of OpenShift clusters. Applications follow placement rules determined by capacity and criticality; cluster configurations comply with governance and security policies; all automated according to DevOps principles. This course is based on Red Hat OpenShift Container Platform 4.10 and Red Hat Advanced Cluster Management 2.4. | https://www.newhorizons.com/course-outline/courseid/300200740 |
| Natural Language Processing | 2.00 | $ 1,895.00 | Natural Language Processing is the use of machine learning and data analysis to build models and reveal insights based on natural text data. This course is designed for experienced Python developers who want to learn how to apply state of the art Natural Language Processing frameworks and techniques, such as the open source frameworks SpaCy and NLTK, to any kinds of natural language text data. Students taking this course will discover the latest techniques in semantic analysis, topic modeling, text classification, and more! Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200922 |
| Navigating Difficult Conversations | 1.00 | $ 795.00 | This course provides a framework and techniques to help develop actions when facing difficult conversations. Students will gain confidence in their ability to constructively address stressful situations. They will also assess their own conflict management styles and learn tools and techniques to reframe discussions to yield more productive outcomes. Note: This course will earn you 7 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200774 |
| Navigating The Modern Workforce - Diversity, Culture, Generations | 2.00 | $ 1,495.00 | In this course, students will learn how to capitalize on the strengths of your diverse team while directing and guiding them to even greater achievements. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201079 |
| NCSP® 800-53 Practitioner Certificate | 5.00 | $ 3,655.00 | The NCSP® 800-53 Specialist looks at the impact of adapting a principled approach to enterprise risk management framework to better support cybersecurity decisions within the context of the NIST 800-53 informative reference. It guides students on the best approach to adapt, implement, and operate (AIO) a comprehensive cybersecurity program that integrates into existing organizational capabilities incorporating NIST 800-53. Study includes lectures, informative supplemental reference materials, workshops, and a formal examination - workshops are a critical aspect of the course and develop examinable material. Accredited through APMG International, certified in the UK by the National Cyber Security Centre (NCSC) and listed as qualified cyber training by Department of Homeland Security Cybersecurity and Infrastructure Security Agency (DHS CISA) in the US, the NIST Cyber Security Professional (NCSP®) training program teaches individuals and organizations how to engineer, operationalize and continually improve a NIST Cyber Security Framework (NIST-CSF) Program. | https://www.newhorizons.com/course-outline/courseid/300200729 |
| NCSP® Awareness Certificate | 1.00 | $ 595.00 | Accredited through APMG International, certified in the UK by the National Cyber Security Centre (NCSC) and listed as qualified cyber training by Department of Homeland Security Cybersecurity and Infrastructure Security Agency (DHS CISA) in the USA, the NIST Cyber Security Professional (NCSP®) training program teaches individuals and organizations how to engineer, operationalize and continually improve a NIST Cybersecurity Framework program. This introductory level, non-examinable NCSP® Digital Business Risk Awareness Certificate course takes learners on a journey to understand how the ever-changing cyber threat landscape impacts an organization's ability to secure the value of its digital business services. | https://www.newhorizons.com/course-outline/courseid/300200757 |
| NCSP® Foundation Certificate | 2.00 | $ 2,010.00 | Accredited through APMG International, certified in the UK by the National Cyber Security Centre (NCSC) and listed as qualified cyber training by Department of Homeland Security Cybersecurity and Infrastructure Security Agency (DHS CISA) in the USA, the NIST Cyber Security Professional (NCSP®) training program teaches individuals and organizations how to engineer, operationalize and continually improve a NIST Cybersecurity Framework program. This NCSP® Foundation Certificate course is designed to teach IT, Business and Cybersecurity professionals the fundamentals of digital transformation, cyber security risk management and the NIST Cybersecurity Framework (NIST-CSF). Accredited through APMG International, certified in the UK by the National Cyber Security Centre (NCSC) and listed as qualified cyber training by Department of Homeland Security Cybersecurity and Infrastructure Security Agency (DHS CISA) in the US, the NIST Cyber Security Professional (NCSP®) training program teaches individuals and organizations how to engineer, operationalize and continually improve a NIST Cyber Security Framework (NIST-CSF) Program. | https://www.newhorizons.com/course-outline/courseid/300200730 |
| NECA: Nutanix Enterprise Cloud Administration | 4.00 | $ 3,495.00 | The Nutanix Enterprise Cloud Administration (ECA) 6.5 course enables those experienced with administering a Nutanix environment to extend, deepen, and broaden their knowledge as they grow in their career as a Nutanix administrator. Designed with Prism Central as the focal point, this course illustrates the breadth and depth of Nutanix's centralized management capabilities, and allows you to explore the wide variety of features that are available in this one, single web console. | https://www.newhorizons.com/course-outline/courseid/300020018 |
| Negotiation Skills | 1.00 | $ 795.00 | Being able to negotiate well is critical for any project professional. You need to clarify what you hope to gain from negotiating, as well as understand the other side's objectives to reach a mutually beneficial result. This course provides essential tips on how to prepare for negotiation, including managing emotions and understanding what all parties contribute to the process. You will also learn the difference between positions and interests and how to bargain to generate options to find the win-win. The course provides an opportunity to apply concepts taught to a real-life situation and to practice negotiating in a safe environment. Note: This course will earn you 7 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200777 |
| Network Automation with Red Hat Ansible Automation Platform (DO457) | 5.00 | $ 4,280.00 | As a network administrator or infrastructure automation engineer, this course will empower you to use network automation to centrally manage the switches, routers, and other devices in your organization's network infrastructure. You will discover how to use Red Hat Ansible Automation for Networking to remotely automate configuration of network devices, test and validate the current network state, and perform compliance checks to detect and correct configuration drift. This course is based on Red Hat® Ansible Engine 2.5 and Red Hat® Ansible Tower 3.2. | https://www.newhorizons.com/course-outline/courseid/200012164 |
| Networking in Google Cloud Platform | 2.00 | $ 1,495.00 | This 2-day instructor-led course gives participants a broad study of networking options on Google Cloud Platform. Through presentations, demonstrations, and hands-on labs, learners explore and deploy GCP networking technologies, such as Google Virtual Private Cloud (VPC) networks, subnets, firewalls, interconnection among networks, load balancing, Cloud DNS, and Cloud CDN. The course also covers common network design patterns and automated deployment using Cloud Deployment Manager. | https://www.newhorizons.com/course-outline/courseid/300180019 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| NIS 2 Directive Foundation | 2.00 | $ 1,395.00 | The NIS 2 Directive Foundation training course outlines the essential insights necessary for understanding the requirements of NIS 2 Directive regarding cybersecurity measures. It provides the core concepts required to support organizations in the initial phases of planning, implementation, and management of cybersecurity programs. The NIS 2 Directive Foundation training course provides an introduction to the NIS 2 Directive aiming to help organizations enhance their cybersecurity in the face of ever-emerging cyber threats. This legislation serves as a central role in strengthening cybersecurity within critical infrastructure sectors such as energy, transport, healthcare, and digital services. The PECB NIS 2 Directive Foundation training course covers the fundamental concepts related to the Directive's requirements. It provides information that will help you understand the best practices for protecting critical infrastructure from cyber threats. After attending the training course, you can take the exam, and if you successfully pass it, you can apply for a "PECB Certificate Holder in NIS 2 Directive Foundation" credential. | https://www.newhorizons.com/course-outline/courseid/300201229 |
| NIS 2 Directive Lead Implementer | 5.00 | $ 2,475.00 | The Certified NIS 2 Directive Lead Implementer training course enables participants to gain the necessary competencies to support organizations in effectively planning, implementing, managing, monitoring, and maintaining a cybersecurity program that meets the requirements of the NIS 2 Directive. The importance of robust cybersecurity measures cannot be overstated, as organizations are increasingly facing all types of cyberattacks. The NIS 2 Directive is a legislation that has been designed to strengthen the cybersecurity posture of critical infrastructure sectors, including energy, transport, healthcare, and digital services. By attending the NIS 2 Directive Lead Implementer training course, you gain in-depth knowledge of the directive's requirements, implementation strategies, and best practices that protect critical infrastructure from cyber threats. Through interactive sessions and practical exercises, you will learn how to assess organization's cybersecurity risks, develop robust incident response plans, and implement effective security measures to meet the requirements of NIS 2 Directive. Moreover, you will gain insights into industry standards and best practices that will enable you to stay up to date with the evolving threat landscape and implement cutting-edge cybersecurity solutions. After successfully completing this training course, you will become a trusted cybersecurity professional that possesses the expertise to navigate the complex landscape of critical cybersecurity infrastructure and contribute to the resilience of your organization and society as a whole. After passing the exam, you can apply for the "PECB Certified NIS 2 Directive Lead Implementer" credential. | https://www.newhorizons.com/course-outline/courseid/300201230 |
| Nutanix Advanced Administration & Performance Management | 4.00 | $ 4,000.00 | This course features comprehensive coverage of advanced administration and performance management for Nutanix clusters. You'll learn how to monitor and tune clusters for better system performance, and optimize datacenter administration. This course explains in detail how to use Acropolis services such as Volumes, Files and Objects. The course also explains how to define, manage, and secure workloads and applications using Calm and Flow, including automation of the Life Cycle Management (LCM) application, and how to implement and configure Self Service Portal and governance. This course also covers Data Protection solutions such as Metro Availability with Witness. Advanced management using the new features of Prism Central and the command line are also covered in detail. This includes how to take advantage of machine learning with entity management and resource optimization as well as how to plan for future growth using Scenario Management using Prism Pro. | https://www.newhorizons.com/course-outline/courseid/300020048 |
| OL66G IBM i Performance Tuning - II - Advanced Analysis and Capacity Tuning | 4.00 | $ 3,910.00 | This course will help you to better understand the techniques of performance analysis and capacity planning on systems and partitions running IBM i and develop an appreciation of how IBM i operates and interfaces with applications. This course is expected to build skills to better manage performance and capacity on systems and partitions running IBM i. The course explains IBM i concepts, including the Technology Independent Machine Interface (TIMI), main storage pools, auxiliary storage pools, management of jobs, threads, and tasks, job run-time structure, performance monitoring, data collection, and analysis of performance data. This 4-day course includes hands-on activities using performance data from IBM i systems to help the student appreciate the concepts discussed. This course is designed for those running Power Systems on IBM i. While it includes i 7.2 content, it is suitable for those currently using prior versions of IBM i. | https://www.newhorizons.com/course-outline/courseid/200008676 |
| OneNote | 1.00 | $ 295.00 | This course provides a way for students to create and collect their notes. This course will introduce students to using OneNote notebooks to store a variety of content in an organized way, access the content from anywhere, and also share it. | https://www.newhorizons.com/course-outline/courseid/200008371 |
| OpenAI Python API Bootcamp | 2.00 | $ 1,195.00 | In this comprehensive course, you will learn how to harness the power of OpenAI to build intelligent applications and solutions using Python. The OpenAI API is one of the most advanced artificial intelligence platforms available, providing a range of capabilities for natural language processing, computer vision, and more. With this API, you can create AI applications that can understand and respond to human language, generate text, perform sentiment analysis, and much more. This course is project-oriented, with every section has a unique project designed to be the basis of a start-up idea! You'll gradually learn new skills as you proceed frThis course includes 6-months access to the full course content in on-demand format to support post-class reference and review. om project to project throughout the sections of the course By the end of this course, you will have a solid understanding of how to use the OpenAI API with Python and will be able to integrate AI into your own projects. You will learn how to authenticate with the API, how to make API calls, and how to process and analyze the results. You will also learn how to perform NLP tasks, such as text generation and question answering, and how to use the API for building AI-powered solutions. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200923 |
| Optimizing Apache Spark on Databricks | 2.00 | $ 1,500.00 | In this course, you will explore the five key problems that represent the vast majority of performance issues in an Apache Spark application: skew, spill, shuffle, storage, and serialization. With examples based on 100 GB to 1+ TB datasets, you will investigate and diagnose sources of bottlenecks with the Spark UI and learn effective mitigation strategies. You will also discover new features introduced in Spark 3 that can automatically address common performance problems. Lastly, you learn how to design and configure clusters for optimal performance based on specific team needs and concerns. | https://www.newhorizons.com/course-outline/courseid/300201225 |
| Oracle 12c Administration I | 5.00 | $ 2,695.00 | In this course, students will focus on configuration on supported systems. Also how the database fits in with other systems. | https://www.newhorizons.com/course-outline/courseid/200012392 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Oracle BI 12c: Create Analyses and Dashboards | 5.00 | $ 5,000.00 | This Oracle BI 12c: Create Analyses and Dashboards course for Release 12.2.1 provides step-by-step instructions for creating Oracle BI analyses and dashboards in business intelligence applications. You'll begin by building basic analyses to include in dashboards, with more complexity as the course progresses. Learn To: Build analyses and dashboards, Build and use views and graphs in analyses, Create and work with KPIs and scorecards, Create and modify Oracle BI dashboards, Use Oracle Business Intelligence Mobile to access BI content, Create mobile applications with Oracle Business Intelligence Mobile App Designer, Integrate BI content into MS Office applications using Oracle Hyperion Smart View for Office, Administer objects in the Presentation Services Catalog. | https://www.newhorizons.com/course-outline/courseid/300170022 |
| Oracle BI Publisher 12c R1: Fundamentals | 3.00 | $ 3,600.00 | This Oracle BI Publisher 12c training will help you build a foundation of understanding how to best leverage this solution. Through Classroom Training or Live Virtual Class Training, you'll learn the ins and outs of how to use this solution. Learn To: Create data models by using the Data Model Editor, Create BI Publisher reports based on data models, Create report layouts by using the Layout Editor (online), Create reports based on OBI EE data sources, Publish the reports on OBI EE Dashboards, Schedule reports and burst these reports. | https://www.newhorizons.com/course-outline/courseid/300170001 |
| Oracle Data Integrator 12c: Advanced Integration and Development | 3.00 | $ 3,600.00 | This Oracle Data Integrator course covers advanced techniques for using Oracle Data Integrator 12c (ODI). You learn how to implement high-performance movement and transformation of data among various platforms. Learn how to: Develop and customize Knowledge Modules with substitution methods and Java, Perform data integration and transformation among various platforms using advance techniques, Design advanced ODI mappings, procedures, and packages to perform EL-T data transformations; Use variables to create reusable packages, Automate ODI tasks by using the Groovy script editor, Extract data from different types of complex file, Use ODI web services and perform integration of ODI in an enterprise environment and SOA, Set up ODI security by implementing a strongly secured approach with non-generic profiles and external user authentication, Implement integration strategies with ODI by using best practices and an example using GoldenGate, Create and populate cubes and dimensions. | https://www.newhorizons.com/course-outline/courseid/300170016 |
| Oracle Data Integrator 12c: Integration and Administration | 5.00 | $ 5,000.00 | Oracle Data Integrator is a comprehensive data integration platform that covers all data integration requirements from high-volume, high-performance batch loads, to event-driven integration processes and SOA-enabled data services. Oracle Data Integrator's Extract, Load, Transform (E-LT) architecture leverages disparate RDBMS engines to process and transform the data - the approach that optimizes performance, scalability and lowers overall solution costs. Learn How To: Use Oracle Data Integrator to perform transformation of data among various platforms, Design ODI mappings, procedures, and packages to perform ELT data transformations; Administer ODI resources and set up security with ODI, Perform data integration and transformation among various platforms, Use the ODI graphical interface to define procedures, packages, and ELT jobs; Set up and maintain a secure, multi-user ODI environment; Implement changed data capture with ODI, Use ODI Web services and perform integration of ODI with SOA. | https://www.newhorizons.com/course-outline/courseid/300170014 |
| Oracle Database 19c: Administration Workshop | 5.00 | $ 4,000.00 | This course provides detailed information on the architecture of an Oracle Database instance and database, enabling you to effectively manage your database resources. You learn how to create database storage structures appropriate for the business applications supported by your database. In addition, you learn how to create users and administer database security to meet your business requirements. Basic information on backup and recovery techniques is presented in this course. To provide an acceptable response time to users and manage resources effectively, you learn how to monitor your database and manage performance. | https://www.newhorizons.com/course-outline/courseid/300170003 |
| Oracle Database 19c: Advanced PL/SQL | 3.00 | $ 3,600.00 | This Oracle Database 19c: Advanced PL/SQL training teaches you how to use the advanced features of PL/SQL to design and tune PL/SQL to interface with the database and other applications. Expert Oracle University instructors will help you explore advanced features of program design, packages, cursors, extended interface methods and collections. In this course, you will be introduced to Oracle Database Exadata Express Cloud Service. | https://www.newhorizons.com/course-outline/courseid/300200811 |
| Oracle Database 19c: Backup and Recovery | 5.00 | $ 4,000.00 | The student begins by gaining a deeper understanding of possibly the most important job of a DBA – backup and recovery. The concepts and architecture that support backup and recovery, along with implementation in various ways and situations are covered in detail. Students gain knowledge of the Recovery Manager (RMAN) command-line interface for various backup, failure, restore, and recovery scenarios, including data duplication. Extensive hands-on practices and workshop scenarios provide the student with experience in a realistic technical environment. This course includes an interactive workshop that provide participants with opportunities to diagnose and recover from several failure scenarios, based on backup and recovery case studies. After completing this course, students should be able to evaluate their own recovery requirements and develop an appropriate strategy for backup and recovery procedures. Versions Supported: 19c, 18c, 12c | https://www.newhorizons.com/course-outline/courseid/300200809 |
| Oracle Database 19c: Data Guard Administration Workshop | 5.00 | $ 5,000.00 | This course teaches you how to use Oracle Data Guard. Expert Oracle University instructors will demonstrate how this solution protects your Oracle database against planned and unplanned downtimes. | https://www.newhorizons.com/course-outline/courseid/300170005 |
| Oracle Database 19c: Multitenant Architecture | 4.00 | $ 4,000.00 | This course covers all aspects of the multitenant architecture, providing detailed information on the components of a CDB and its regular and application PDBs. You learn why and how to create and manage a CDB and its regular and application PDBs, with storage structures appropriate for the business applications. You practice cold and hot cloning, plugging unplugged PDBs in CDBs using various methods. In addition, you learn how to ensure the security within the containers of the CDB. You create common and local users, grant common and local privileges and roles, and administer database security to meet your business requirements by using encryption, Database Vault and auditing. This course includes CDB and PDBs backup, duplicate, recovery and flashback procedures. You learn how to monitor the performance and manage resources within a CDB and its PDBs, and within each PDB. It introduces the data movement capabilities between non-CDBs and PDBs, and between PDBs and learn about upgrade methods and paths. | https://www.newhorizons.com/course-outline/courseid/300170007 |
| Oracle Database 19c: New Features for Administrators | 2.00 | $ 2,700.00 | The course provides the Oracle Database 19c new features and enhancements related to database overall, security, availability, performance, data warehousing, and diagnosability. In the lessons, you learn the new and enhanced features of Oracle Database 19c amongst different areas such as database overall, security, availability, performance, big data and warehousing, and diagnosability. | https://www.newhorizons.com/course-outline/courseid/300170002 |
| Oracle Database 19c: PL/SQL Workshop | 5.00 | $ 4,000.00 | This course introduces students to PL/SQL, Procedural Language for SQL. Explore the differences between SQL and PL/SQL. Examine the characteristics of PL/SQL and how it is used to extend and automate SQL. | https://www.newhorizons.com/course-outline/courseid/300200810 |
| Oracle Database 19c: SQL Workshop | 5.00 | $ 4,000.00 | The Oracle Database 19c: SQL Workshop course offers students an introduction to Oracle Database 19c database technology. In this class, students learn the concepts of relational databases and the powerful SQL programming language. This course provides the essential SQL skills that allow developers to write queries against single and multiple tables, manipulate data in tables, and create database objects. | https://www.newhorizons.com/course-outline/courseid/300170006 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| Oracle Enterprise Manager Cloud Control 13c: Install & Upgrade | 2.00 | $ 2,700.00 | In the Oracle Enterprise Manager Cloud Control 13c: Install & Upgrade course, you'll learn about the architecture of Oracle Enterprise Manager Cloud Control 13c, implementation options and you'll perform a standard single-server installation. In this course we will also review the available upgrade paths from previous versions and execute a 1-system upgrade from Enterprise Manager Cloud Control 12c 12.1.0.5 Learn To: Install Oracle Enterprise Manager Cloud Control 13c, Plan and execute a 1-system upgrade from Oracle Enterprise Manager Cloud Control 12c. | https://www.newhorizons.com/course-outline/courseid/300170020 |
| Oracle Essbase 11.1.2 Bootcamp | 5.00 | $ 5,000.00 | This Oracle Essbase 11.1.2 Bootcamp teaches you the principal techniques and theories to design Essbase block storage databases. Block storage databases are deployed independently for budgeting, forecasting and planning, and as the underlying data storage and analytic engine for Hyperion Planning applications. Learn To: Create block storage databases, Build rules files, Analyze data with Smart View, Create basic calculations, Extend analysis capabilities; Create a database outline, load data into the database and analyze data with Smart View; Perform advanced analysis on the database by implementing varying attribute dimensions and typed measures. | https://www.newhorizons.com/course-outline/courseid/300170011 |
| Oracle Fusion Middleware 11g: Build Applications with Oracle Forms | 5.00 | $ 5,000.00 | This course is also suitable for customers using Forms 12c. This Oracle Fusion Middleware 11g: Build Applications with Oracle Forms training explores building Oracle Forms Builder 11g. Expert instructors will teach you how to create high-performance applications for the Web that are also scalable. Learn To: Use Oracle Forms Builder 11g, Enhance applications with various GUI controls, Add functionality to applications by writing triggers, Use the Forms Debugger to troubleshoot applications, Validate user input and display meaningful error messages, Use WebUtil to interact with client computers, Validate user input, control navigation and display meaningful messages to users, Use WebUtil to interact with the client machine and pass values from one form to another, Replace or supplement default transaction processing. | https://www.newhorizons.com/course-outline/courseid/300170010 |
| Oracle GoldenGate 19c: Fundamentals For Oracle | 4.00 | $ 4,000.00 | This Oracle GoldenGate 19c: Fundamentals for Oracle training focuses on Oracle-to-Oracle database replication. Expert Oracle University instructors will deep dive into the Oracle GoldenGate product suite, walking you through various product features. | https://www.newhorizons.com/course-outline/courseid/300170004 |
| Oracle Identity Governance 12c: Essentials | 5.00 | $ 5,000.00 | In this course, you learn essential concepts about implementing identity management solutions with Oracle Identity Governance. After, you learn of the importance, benefits, values, terminology, and functional aspects of identity management. Then, you learn about the Identity Governance infrastructure and the suite of Oracle Identity Management products. Next, you learn about the relationship that Oracle Identity Governance has with several Oracle Identity Management products (including Oracle Identity Analytics and Oracle Privileged Account Manager, which, along with Oracle Identity Governance, compose the Oracle Identity Governance Suite). Then, after you learn about the tiers of the Oracle Identity Governance architecture, you learn how to launch Oracle Identity Governance. | https://www.newhorizons.com/course-outline/courseid/300170000 |
| Oracle Middleware 12c: Build Rich Client Applications with ADF | 5.00 | $ 5,000.00 | Build and customize a business service by using ADF Business Components, Expose the data model in a web application with a rich ADF Faces user interface, Create JSF pages, Use rich client components in JSF pages, Add validation to ADF applications, Secure web applications, Test, debug, and deploy the ADF Business Components and the web application. | https://www.newhorizons.com/course-outline/courseid/300170012 |
| Oracle Service Bus 12c: Design & Integrate Services | 4.00 | $ 4,000.00 | This Oracle Service Bus 12c: Design and Integrate Services training takes a use case driven approach to explain the OSB capabilities of connecting, mediating and coordinating the interaction between different applications and services across a variety of platforms, protocols, and interface technologies. Expert Oracle University instructors discuss OSB as a common infrastructure in support of a broad scale SOA initiative. Learn To: Use Oracle Service Bus 12c to make services interact in a decouple manner, Implement enterprise-quality message flows with Service Bus 12c, Implement message validation, routing, transformation and enrichment; Integrate services with legacy systems, Enable service level abstraction. | https://www.newhorizons.com/course-outline/courseid/300170019 |
| Oracle Smart View for Office 11.1.2 for Essbase | 1.00 | $ 2,000.00 | In this course, you learn how to use Oracle Smart View 11.1.2.5, a common Microsoft Office(Excel, Word and PowerPoint) add-in to query, analyze, and share data stored in Essbase databases. In this course you learn how to connect to data sources and create ad-hoc queries and free-form grids. Learn To: Query and analyze data stored in Essbase, Create advanced reports, Set Smart View options, Create reports using Smart Query, Query Designer, and functions; Embed dynamic data points into Microsoft Office documents, Create reports with smart slices. | https://www.newhorizons.com/course-outline/courseid/300170018 |
| Oracle SOA Suite 12c: System Architecture and Administration | 5.00 | $ 5,000.00 | This Oracle SOA Suite 12c: Architecture and Administration training helps you develop the knowledge and skills to plan, prepare and install an Enterprise Deployment Architecture to run Oracle SOA Suite 12c products. You'll learn the step-by-step process needed to create an Oracle SOA Suite 12c configuration by using two virtual machines for creating a cluster of WebLogic Server instances. Learn To: Install and configure Oracle SOA Suite 12c in a cluster configuration, Initiate and create run-time instances, Configure a Weblogic Server clustered domain with Oracle Fusion Middleware Infrastructure components, Deploy application, monitor, tune and troubleshoot the environment for optimal day-to-day operations; Configure and test the email notification service used by SOA composite applications and the human workflow operations, Install and use Oracle Enterprise Scheduler Service, Create Oracle Database schemas for Oracle Fusion Middleware products, Configure a load balancer for servicing client requests. | https://www.newhorizons.com/course-outline/courseid/300170017 |
| Oracle WebLogic Server 14c: Administration I | 5.00 | $ 5,000.00 | This Oracle WebLogic Server 14c: Administration I training teaches you how to install and configure Oracle WebLogic Server 14c. It gives administrators an overview of the basic concepts and architecture of WebLogic Server. Learn how to: Install, configure, and administer Oracle WebLogic Server, Monitor domain resources, Deploy applications, Create a domain,Start servers, Monitor domain resources, Set up and use node manager, Deploy applications, Deploy share libraries and associated applications, Configure database resources and configure a cluster. | https://www.newhorizons.com/course-outline/courseid/300200813 |
| Oracle WebLogic Server 14c: Troubleshooting Workshop | 2.00 | $ 2,700.00 | This Oracle WebLogic Server 14c: Troubleshooting Workshop training teaches administrators how to diagnose and troubleshoot Oracle WebLogic Server 12c problems and issues. Emphasizing hands-on practices rather than lectures, the course requires prior WebLogic Server 14c administration experience. | https://www.newhorizons.com/course-outline/courseid/300200812 |
| Organizational Change Management | 1.00 | $ 795.00 | All projects introduce change into organizations which invariably change the way stakeholders work. Organizational change management (OCM) is about the people side of change – helping them let go of old practices and embrace the new. Through this interactive workshop, you will learn techniques to clearly define the change, generate support, assess organizational readiness, develop a change management plan, effectively address resistance, and identify the critical success factors to sustain the change once it is implemented. In short, you will leave class ready to participate as a valuable change agent in any change initiative. Note: This course will earn you 7 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200776 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Organizational Communication | 1.00 | $ 435.00 | This course teaches basic communication terms and organization basics. Students will learn how to communicate effectively, motivate employees, overcome communication barriers, develop leadership habits, understand how communication flows within an organization, develop networks, and identify the roles that individuals fulfill in an organization. Course activities also cover applying technology to organizational communication, discussing innovation and change, examining how environmental context affects communication, and discussion how power and politics affect an organization. Students will also learn how to manage change, stress, conflict, and empower individuals. The manual is designed for quick scanning in the classroom and filled with interactive exercises that help ensure student success. | https://www.newhorizons.com/course-outline/courseid/300201038 |
| Organizational Skills | 1.00 | $ 395.00 | Developing good Organizational Skill is an investment that will provide benefits for years. To be successful means to be organized. These skills will filter through all aspects of your participants professional and personal lives. | https://www.newhorizons.com/course-outline/courseid/200006763 |
| Outlook - Part 1 | 1.00 | $ 295.00 | In this course, you will use Outlook to send, receive, and manage email messages, manage your contact information, schedule appointments and meetings, create tasks and notes for yourself, and customize the Outlook interface to suit your working style. This course covers the Microsoft Office Specialist Program exam objectives to help you prepare for the Outlook Associate (Office 365 and Office 2019): Exam MO-400 certification exam. | https://www.newhorizons.com/course-outline/courseid/100001102 |
| Outlook - Part 2 | 1.00 | $ 295.00 | In this course, you will customize command sets, configure mail accounts, set global options, perform advanced searches, apply filters to intercept mail and control spam, create rules to automate mail management tasks, work with calendars and contacts, manage tasks, preserve data with archives and data files, as well as share and delegate access to your Outlook items. In short, you'll work with a wide range of features and options and, in so doing, understand why Outlook is a leading personal management system. This course builds upon the foundational knowledge presented in the Microsoft Outlook - Part 1 course and will help you customize a communication system well-suited to your work style. This course covers Microsoft Office Specialist Program exam objectives to help you prepare for the Outlook Associate (Office 365 and Office 2019): Exam MO-400. | https://www.newhorizons.com/course-outline/courseid/100001103 |
| Panorama: Managing Firewalls at Scale | 2.00 | $ 1,995.00 | The Palo Alto Networks Panorama 10.1: Managing Firewalls at Scale (EDU-220) course is two days of instructor-led training that should help you: Learn how to configure and manage the next-generation Panorama management server Gain experience configuring templates (including template variables) and device groups Gain experience with administration, log collection, and logging and reporting Become familiar with planning and design considerations for Panorama deployment | https://www.newhorizons.com/course-outline/courseid/300180023 |
| Performance Management | 1.00 | $ 395.00 | In this course, students learn to identify and manage difficult employees, monitor their behavior, develop clear and effective communications techniques, give and receive feedback, identify workplace conflicts and present resolutions. | https://www.newhorizons.com/course-outline/courseid/200008474 |
| PL-100T00 Microsoft Power Platform App Maker | 3.00 | $ 1,895.00 | This course will teach you how to build apps with low-code techniques to simplify, automate, and transform business tasks and processes using Microsoft Power Platform. This course contains a 1-day Applied Workshop. This workshop will allow you to practice your App Maker skills by creating an end-to-end solution to solve a problem for a fictitious company. The solution will include a Microsoft Dataverse database, Power Apps canvas app, and Power Automate flows. | https://www.newhorizons.com/course-outline/courseid/200015405 |
| PL-200T00 Microsoft Power Platform Functional Consultant | 5.00 | $ 2,495.00 | This course will teach you to use Microsoft Power Platform solutions to simplify, automate, and empower business processes for organizations in the role of a Functional Consultant. A Microsoft Power Platform Functional Consultant is responsible for creating and configuring apps, automations, and solutions. They act as the liaison between users and the implementation team. The functional consultant promotes utilization of solutions within an organization. The functional consultant may perform discovery, engage subject matter experts and stakeholders, capture requirements, and map requirements to features. They implement components of a solution including application enhancements, custom user experiences, system integrations, data conversions, custom process automation, and simple visualizations. This course may contain a 1-day Applied Workshop. This workshop will allow you to practice your Functional Consultant skills by creating an end-to-end solution to solve a problem for a fictitious company. The solution will include a Microsoft Dataverse database, Power Apps canvas app, and Power Automate flows. | https://www.newhorizons.com/course-outline/courseid/100001010 |
| PL-300T00 Microsoft Power BI Data Analyst | 3.00 | $ 1,895.00 | This course covers the various methods and best practices that are in line with business and technical requirements for modeling, visualizing, and analyzing data with Power BI. The course will show how to access and process data from a range of data sources including both relational and non-relational sources. Finally, this course will also discuss how to manage and deploy reports and dashboards for sharing and content distribution. | https://www.newhorizons.com/course-outline/courseid/100001072 |
| PL-400T00 Microsoft Power Platform Developer | 5.00 | $ 2,995.00 | The Microsoft Power Platform helps organizations optimize their operations by simplifying, automating and transforming business tasks and processes. In this course, students will learn how to build Power Apps, Automate Flows and extend the platform to complete business requirements and solve complex business problems. | https://www.newhorizons.com/course-outline/courseid/100001017 |
| PL-500T00 Microsoft Power Automate RPA Developer | 5.00 | $ 2,495.00 | Candidates for this course automate time-consuming and repetitive tasks by using Microsoft Power Automate. They review solution requirements, create process documentation, and design, develop, troubleshoot, and evaluate solutions. Candidates work with business stakeholders to improve and automate business workflows. They collaborate with administrators to deploy solutions to production environments, and they support solutions. | https://www.newhorizons.com/course-outline/courseid/100001092 |
| PL-600T00 Power Platform Solution Architect | 4.00 | $ 2,495.00 | The Solution Architect is responsible for the successful design, implementation, deployment and adoption of an overall solution. The Solution Architect ensures that the solution meets the customer's needs now and in the future. In this course, students will learn about decisions a Solution Architect makes during an implementation, covering security, integrations, Power Apps architecture, Power Automate architecture, and more. This course is designed to give you an introduction to the Solution Architect role. | https://www.newhorizons.com/course-outline/courseid/100001050 |
| PL-7001 Create and Manage Canvas Apps with Power Apps | 1.00 | $ 595.00 | Create your own data model and canvas app to support a scenario for a fictional company. You're provided high-level specifications on the custom tables, columns and canvas app needed to complete this project. | https://www.newhorizons.com/course-outline/courseid/300201175 |
| PL-7002 Create and Manage Automated Processes by using Power Automate | 1.00 | $ 595.00 | Get started with Power Automate by create and manage automated processes with Power Automate. Including creating triggers for cloud flows, configuring actions, implementing conditional logic for a cloud flow, testing a cloud flow, creating and configuring approvals by using Power Automate, and sharing cloud flows. | https://www.newhorizons.com/course-outline/courseid/300201176 |
| PL-7003 Create and Manage Model-Driven Apps with Power Apps and Dataverse | 1.00 | $ 595.00 | In this learning path, you practice building model-driven apps by using Microsoft Power Apps. The skills validated include creating Dataverse tables, modifying forms and views, and configuring a model-driven app. The scenario in this experience represents real-world challenges faced by individuals with business-specific expertise who build model-driven apps. | https://www.newhorizons.com/course-outline/courseid/300201177 |
| PL-900T00 Microsoft Power Platform Fundamentals | 1.00 | $ 695.00 | Learn the business value and product capabilities of Microsoft Power Platform. Create simple Power Apps, connect data with Dataverse, build a Power BI Dashboard, and automate processes with Power Automate. | https://www.newhorizons.com/course-outline/courseid/200012912 |

|---|---|---|---|---|
| Planning and Designing Databases on AWS | 3.00 | $ 2,025.00 | In this course, you will learn about the process of planning and designing both relational and nonrelational databases. You will learn the design considerations for hosting databases on Amazon Elastic Compute Cloud (Amazon EC2). You will learn about our relational database services including Amazon Relational Database Service (Amazon RDS), Amazon Aurora, and Amazon Redshift. You will also learn about our nonrelational database services including Amazon DocumentDB, Amazon DynamoDB, Amazon ElastiCache, Amazon Neptune, and Amazon QLDB. By the end of this course, you will be familiar with the planning and design requirements of all 8 of these AWS databases services, their pros and cons, and how to know which AWS databases service is right for your workloads. | https://www.newhorizons.com/course-outline/courseid/300030016 |
| PMI Agile Certified Practitioner | 2.00 | $ 1,195.00 | For many organizations, business success and even survival hinges on embracing an Agile mindset. Continuous delivery of value, an unwavering customer-centric perspective, and the ability to respond and adapt to change characterize many of today's best performing organizations. Even if not formally implementing a specific approach, Agile practices are often employed in more traditional organizations competing in today's disrupted, hyper-dynamic business environment. This exam prep course provides a solid foundation for anyone seeking to develop fluency in Agile concepts, terms, and practices as well as the necessary knowledge to be prepared for the PMI Agile Certified Practitioner (PMI-ACP)® exam. This course covers the values and principles articulated in the Agile Manifesto, as well as the values of key Agile frameworks and methods, including Scrum, XP, and Lean. Our 2-day PMI-ACP exam prep course, with successful completion of an online mock exam, satisfies the 21 hours of formal education required to sit for the certification exam. | https://www.newhorizons.com/course-outline/courseid/300200763 |
| PMI Talent Triangle® Workshop Bundle for PDUs | 3.00 | $ 1,695.00 | Every day, employers are asking more of their project managers to drive innovation and success at their companies. Possessing the core skills of project management is no longer enough. Project managers now need business and leadership skills as well. Project Management Institute Project Management Institute (PMI)® defines this combination of skills as the PMI Talent Triangle. Fulfilling the requirements of the triangle can seem confusing and complicated—but it doesn't have to be. We have created a 3-day virtual course, covering leadership, business, and technical topics to make the PMI Talent Triangle easy. Our content experts will provide you with everything you need to grow your project management core competencies while providing the necessary hours in each area to meet the PMI Talent Triangle PDU requirements. This series of classes contains topics specifically selected for project management development and is consistent with the skills described in the PMI Talent Triangle. At the end of this course, you will have the necessary skills and hours to satisfy the PMI Talent Triangle requirements. This course bundle has been approved by PMI for 24 PDUs: 8 PDUs in alignment to Ways of Working (Technical); 8 PDUs in alignment to Power Skills (Leadership); 8 PDUs in alignment to Business Acumen (Strategic and Business Management) | https://www.newhorizons.com/course-outline/courseid/300200719 |
| PMI-Risk Management Professional (PMI-RMP)® Certification Exam Prep | 1.00 | $ 795.00 | Project Managers who master risk-related concepts can help organizations manage both positive and negative risks. The PMI Risk Management Professional (PMI-RMP®) exam prep training course focuses on planning and monitoring for risk throughout a project. This course prepares PMP® Certification holders to pass the more advanced and specialized PMI-RMP® exam. The 1-day training proivides detailed insights into the seven project risk management domains, then linking those domains back to core PMP® principles. Students completing the PMI-RMP certification training will have the knowledge and skills needed to plan, manage and control project risks - and have the knowledge, study resources, and confidence to pass the PMI-RMP exam. Note: This course has been approved by PMI for 8 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200721 |
| PMP Refresher Course | 2.00 | $ 1,195.00 | If it's been a while since you completed a PMP exam prep training course, don't try to struggle by cramming for the exam on your own. Our instructor will guide you through the critical exam elements in this PMP crash course while providing tips for tackling some of the trickier concepts from the applicable versions of the A Guide to the Project Management Body of Knowledge (PMBOK® Guide) and the 30 other PMP exam references. | https://www.newhorizons.com/course-outline/courseid/300200945 |
| Power BI for Data-driven Decision Makers | 1.00 | $ 395.00 | As data acquisition, access, analysis, and reporting are interwoven with our businesses and lives, more and more data is collected about business and personal activities. This abundance of data and the computing power to analyze it has increased the use of data analysis and data visualization across a broad range of job roles. Decision makers of all types, including managers and executives, must interact with, interpret, and develop reports based on data and analysis provided to them. Microsoft Power BI software is designed for data analysis and the creation of visualizations. Data analysts prepare data, perform initial analysis, and create visualizations that are then passed to business data decision makers. These decision makers can use Power BI's tools to explore the data, perform further analysis to find new insights, make decisions, and create customized reports to share their findings. | https://www.newhorizons.com/course-outline/courseid/300201035 |
| Power BI: Dashboard in a Day | 1.00 | $ 695.00 | Students will discover the full capabilities of Power BI in a one-day, hands-on workshop. Please Note: This workshop is primarily self-directed and students will work at their own pace while having access to an instructor for questions. | https://www.newhorizons.com/course-outline/courseid/200013965 |
| PowerPoint - Part 1 | 1.00 | $ 295.00 | By exploring the vast array of features and functionality contained within PowerPoint, you will gain the ability to organize your content, enhance it with high-impact visuals, and deliver it with a punch. In this course, you will use PowerPoint to begin creating engaging, dynamic multimedia presentations. The course material will also enable you to access and effectively utilize many web-based resources provided with your Office subscription. This includes brief coverage of key skills for using PowerPoint for the Web and OneDrive. Helpful notes throughout the material alert you to cases where the online version of the application may function differently from the primary, desktop version. | https://www.newhorizons.com/course-outline/courseid/100001104 |
| PowerPoint - Part 2 | 1.00 | $ 295.00 | Meetings, instruction, training, pitches; these are all a part of our daily lives. We are often called upon to deliver presentations with little notice, at multiple venues, and with varying requirements. And, some of these presentations include sensitive information that needs to be guarded. Given all the variables, it may seem an overwhelming task to deliver your content, on time, to all audiences, and to only those who need to see it. Oh, and by the way, you need to make it interesting, informative, and memorable. So, how do you do it? Without the help of a robust set of tools, it would be nearly impossible. But Microsoft® PowerPoint® provides you with a variety of such tools that can help you deliver content in nearly any situation, while saving time and effort. By taking advantage of these tools, you will be creating presentations that not only stand out from the crowd, but also don't consume all of your available time. This course covers Microsoft Office Specialist Program exam objectives to help you prepare for the PowerPoint Associate (Office 365 and Office 2019): Exam MO-300. | https://www.newhorizons.com/course-outline/courseid/100001105 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Practical Data Science with Amazon SageMaker | 1.00 | $ 675.00 | You will learn how to solve a real-world use case with Machine Learning (ML) and produce actionable results using Amazon SageMaker. This course walks through the stages of a typical data science process for Machine Learning from analyzing and visualizing a dataset to preparing the data, and feature engineering. Individuals will also learn practical aspects of model building, training, tuning, and deployment with Amazon SageMaker. Real life use case includes customer retention analysis to inform customer loyalty programs. | https://www.newhorizons.com/course-outline/courseid/300030015 |
| Practical Leadership | 1.00 | $ 395.00 | You have developed skills to be successful in your field. In this course, you will learn the practical skills you need to be an effective leader in your organization. Leadership enhances the skills employees at all levels need to be truly successful. When you learn practical leadership skills, you\'ll have the ability to motivate, coach, communicate with, and teach employees in such a way that they are more effective in their jobs and, as a result, you become more effective in your job. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201055 |
| Premiere Pro Advanced | 2.00 | $ 795.00 | This 2-day course provides a thorough overview of the interface, tools, features, and production flow for using Premiere Pro. The course is an ideal combination of instructor-led demonstration and hands-on practice for getting to know this revolutionary nonlinear video-editing application. You will perform basic editing functions while familiarizing yourself with the user interface, and you will learn to use Premiere Pro's powerful real-time video and audio editing tools to give you precise control over virtually every aspect of your production. | https://www.newhorizons.com/course-outline/courseid/300201245 |
| Prepare for your Administrator Certification Exam (CRT101) | 1.00 | $ 900.00 | Are you ready to take the next step in your career by becoming a Salesforce Certified Administrator? By covering the details around the exam objectives, this course will help hone your problem-solving skills and reinforce your knowledge of key topics. Instructors will present different administration and configuration scenarios tied to the exam objectives. Questions related to these scenarios will help you prepare for your exam. This course includes a voucher to sit for the Salesforce Administrator certification exam. | https://www.newhorizons.com/course-outline/courseid/300201220 |
| Presentation Skills | 1.00 | $ 395.00 | This program can benefit anyone who presents; a trainer, a meeting facilitator, speaker, or seminar discussion leader. No matter which role you are assuming, this workshop will help you become more efficient and proficient with the skills of providing information to others. | https://www.newhorizons.com/course-outline/courseid/200006662 |
| Prioritizing Your Time Effectively | 2.00 | $ 1,495.00 | Time is limited, so getting the most out of every minute is critical. In this course, students will learn to improve their focus, prioritize tasks, identify and avoid obstacles to staying on track, and develop strategies to get the most out of their time. Students will acquire time management tools and decision-making techniques to help focus on purpose and achieve your goals, balancing the needs of both business and personal life. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201065 |
| Prisma Access SASE Security: Design and Operation Lecture Only (EDU-318) | 3.00 | $ 2,995.00 | The Prisma Access 2.0 SASE Security: Design and Operation (EDU-318) course describes Prisma Access Secure Access Service Edge (SASE) and how it helps organizations embrace cloud and mobility by providing network and network security services from the cloud. This course is intended for people in the fields of public cloud security and cybersecurity, or for anyone who wants to learn how to secure remote networks and mobile users. | https://www.newhorizons.com/course-outline/courseid/300180001 |
| Problem Solving and Decision Making | 1.00 | $ 795.00 | Understanding how to quickly address problems and bring your project team to a consensus is a crucial skill for Project Managers if they want to stay ahead of the curve. This course will help you unlock the key principles necessary to keep your projects moving forward. This course is part of the PMI Talent Triangle Fast Pass bundle and fulfills the Strategic and Business Management segment (8 PDUs) of the PMI Talent Triangle for PMP credential holders. | https://www.newhorizons.com/course-outline/courseid/300200775 |
| Professional in Business Analysis (PMI-PBA®) Certification Exam Prep | 4.00 | $ 1,995.00 | Participants in this course will learn what they need to pass the Project Management Institute Professional in Business Analysis (PMI-PBA®) exam, PMI's fastest growing certification. They will also refine their understanding of BA best practices as captured in the PMI business analysis-related standards. PMI-PBA® candidates will learn the full repertoire of BA techniques and elevate their understanding of their own experience as seen through the lens of industry best practices. Business analysis has become a critical competency of project management, and the PMI-PBA certification can help advance your career. If you work with project teams and manage requirements or product development, or if you're a project or program manager who performs business analysis in your role, then the PMI-PBA certification is right for you. This course conforms to the PMI-PBA Exam Content Outline (ECO) and aligns with the PMI Guide to Business Analysis and the Business Analysis for Practitioners: A Practice Guide. This course satisfies the 35 hours of formal education required to sit for the PMI Professional in Business Analysis (PMI-PBA) exam. | https://www.newhorizons.com/course-outline/courseid/300200752 |
| Program Management Essentials | 3.00 | $ 1,595.00 | Many organizations fail because they do not use "joined up" thinking. They manage projects extremely effectively, but this work does not seem to translate into useful benefits that contribute to the organization's overall strategy. Managing related projects and other activities in a coordinated way, as part of a larger program can provide efficiencies and benefits that would not accrue if this work was managed independently. For a Program Manager, the focus is no longer on specific deliverables, but instead is concerned with providing benefits to the organization and aligning the program with the organization's overall strategy. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201084 |
| Program Management Fundamentals | 1.00 | $ 795.00 | Increasingly organizations face the challenge of limited resources amongst conflicting projects, which often leads to budget overruns and failed strategic objectives. The goal of program management is to coordinate projects that share similar objectives and resources to obtain synergies that would not otherwise be possible. This translates into a more efficient utilization of project resources, including increased productivity, less waste and reduced conflict. In this course students will learn how to implement program management best practices in your organization. Materials Included: Program Management Fundamentals Main Presentation Video-on-demand: 3 hours and 12 minutes Executive Dashboard Example 6 section quizzes – 126 questions (static) Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300200909 |
| Program Management Professional (PgMP)® Certification Exam Prep | 4.00 | $ 1,995.00 | This Program Management Professional (PgMP)® certification training course will guide you through the Standard for Program Management and support your journey to the PgMP® exam. Through the guidance provided during this boot camp and subsequent study, you will know what to expect on the day of the PgMP® exam itself. This PgMP® training course will be taught by a PgMP® accredited instructor who will guide you based on personal experience of the process. Supplemental materials such as simulated exams to prepare you for the actual test, as well as 20-question exams at the end of each section of the course will help boost your confidence for exam day. Note: This course has been approved by PMI for 35 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200718 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| Programming and Data Wrangling with VBA and Excel | 3.00 | $ 885.00 | VBA (Visual Basic for Applications) enables you to enhance and extend the capabilities of Microsoft® Excel® and other applications in the Microsoft® Office application suite. You can use VBA to perform tasks that would be difficult or impossible to do using only worksheet functions, and you can automate a wide range of tasks involving the collection, processing, analysis, and visualization of data. This course will give you a good foundation for understanding, creating, and using VBA in your own Excel workbooks, show you how to work with data across different applications, and how to package the macros and functions you create so you can back them up, move them to other computers, and share them with other users | https://www.newhorizons.com/course-outline/courseid/100001043 |
| Project - Part 1 | 1.00 | $ 395.00 | This course will familiarize you with the basic features and functions of Microsoft Project so that you can use it effectively and efficiently in a real-world environment. You will develop the critical knowledge and skills you need to create a project plan with Project during the planning phase. In other words, if your supervisor assigns you to lead a project, this course will enable you to draft a project plan and share it with your supervisor (and others) for review and approval. | https://www.newhorizons.com/course-outline/courseid/100001106 |
| Project - Part 2 | 1.00 | $ 395.00 | This course empowers you with the advanced knowledge and skills you need to update a project plan in Project during the execution, monitoring, and controlling phases of a project. In other words, once your project plan is approved by the project sponsor, this course will enable you to manage the project so that it is completed on time, within budget, and according to scope. | https://www.newhorizons.com/course-outline/courseid/100001107 |
| Project Communications and Stakeholder Management | 2.00 | $ 1,190.00 | This course, based on PMI®'s PMBOK® Guide, Sixth Edition, focuses on both improving the efficiency and effectiveness of all project-related communications, from initial planning through closure. It also examines best practices for identifying and engaging stakeholders, a critical component for successful project. Participants will apply all course principles to a work-related case study taken directly from their work environment. NOTE: This course will earn you 14 PDUs. | https://www.newhorizons.com/course-outline/courseid/200007118 |
| Project Management Best Practices | 1.00 | $ 795.00 | Building a foundational knowledge of project management principles throughout your company can significantly improve organizational efficiency and effectivness. Whether your goal is to ensure cross-functional stakeholders are using the same tools, templates, and terminology or to train new employees on standards and best practices, the Project Management Foundations course offers in-depth expertise that can accelerate your organization's speed, agility, and outcomes. | https://www.newhorizons.com/course-outline/courseid/300200926 |
| Project Management Foundations | 2.00 | $ 1,195.00 | Building a foundational knowledge of project management principles throughout your company can significantly improve organizational efficiency and effectivness. Whether your goal is to ensure cross-functional stakeholders are using the same tools, templates, and terminology or to train new employees on standards and best practices, the Project Management Foundations course offers in-depth expertise that can accelerate your organization's speed, agility, and outcomes.  This course provides a more extensive dive into key principles of the project management lifecycle and offers actionable tools and techniques for project execution. With an additional focus on detailed project planning, including scope management, scheduling, cost estimating and budget creation, risk identification and mitigation, project monitoring, and project close, this course prepares students to quickly translate their learnings into improved productivity and efficiency within their organizational roles.   Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300200927 |
| Project Management Foundations - Workshop | 2.00 | $ 1,195.00 | This 2-day hands-on, discussion-oriented workshop allows students to gain a foundational knowledge of project management best practices and provides the opportunity to apply their project management learnings to real-life scenarios. Covering both predictive and adaptive approaches, the workshop emphasizes utilizing the practices that will be most effective within your organization.  Students will benefit from this course by understanding the foundational principles, terms, and approaches of project management, learning more effective use of industry-standard project management tools and techniques, and by gaining experience via workshop activities to practice utilizing project management frameworks. Concepts learned and practiced in this course are immediately applicable to ongoing projects.  Note: This course has been approved by PMI for 16 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200717 |
| Project Management Fundamentals | 1.00 | $ 795.00 | This 1-Day virtual Project Management Best-Practices course provides an overview of fundamental elements of the project lifecycle – from project initiation through project close. With a focus on traditional project management concepts, students will complete this course with an improved ability to understand the best path forward for bringing projects to successful completion.   Students will benefit from this course by understanding the foundational principles of project management, improving their project management skills, utilizing tools and techniques to effectively manage projects, gaining a common project management language to improve communication, and learning frameworks to identify, manage, and mitigate risk. Concepts learned in this course are immediately applicable to ongoing projects.  Note: This course has been approved by PMI for 8 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200722 |
| Project Management Professional (PMP)® Certification Exam Prep | 4.00 | $ 1,995.00 | Project management experts are in high demand because it's a role that can ensure major projects are executed successfully. The Project Management Professional (PMP)® certification is governed by the Project Management Institute. It is considered the gold standard for project management certifications and validates skills across predictive, hybrid, and agile project approaches and tests your understanding of people skills such as building teams, managing conflict, addressing challenges, and process skills that emphasize the technical aspects of project management such as managing risk, schedules, budgets, and assessing the business environment to make projects successful.  This course is powered by Project Management Academy, a PMI Authorized Training Partner. Prepare to pass the PMP exam on your first attempt with an instructor-led PMP Exam Prep Training course - The PMA Way™ and with a 100% money-back guarantee. Project Management Academy (PMA) is known for taking complex project management topics tested on the PMP exam and teaching them in a way that instills confidence in your understanding of the concepts. Throughout the course, an infusion of detailed concept explanations, real-world examples, and interactive knowledge checks to make sure you understand the materials and are set up for success to pass the exam. Note: This course has been approved by PMI for 35 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200709 |
| Project Scope and Schedule Management | 2.00 | $ 1,190.00 | This course provides participants with tools and techniques to help them determine and deliver products, services, and results that meet requirements, expectations, and deadlines. NOTE: This course will earn you 14 PDUs. | https://www.newhorizons.com/course-outline/courseid/200007117 |
| Project Sponsorship Workshop | .50 | $ 495.00 | Sponsorship is crucial to project success, particularly for large or risky projects. Without sponsorship, or with ineffective sponsorship, even small projects flounder. Invested, supportive sponsors are able to effectively foster more confident project managers, higher-performing projects, and better business outcomes. In this interactive workshop, students will learn and practice techniques for becoming engaged project sponsors who can lead their teams and organizations to success.  Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300200910 |

| | | | | |
|---|---|---|---|---|
| Project Team Leadership | 2.00 | $ 1,190.00 | Project success depends on choosing, motivating, and leading the project team. This course focuses on improving the project manager's human resource expertise, from initial planning through project closure. Participants will apply all course principles to a work-related case study taken directly from their work environment. At course completion, students will be able to develop a human resource plan, acquire optimal team members, develop and motivate team members, and manage team members to accomplish project goals. NOTE: This course will earn you 14 PDUs. | https://www.newhorizons.com/course-outline/courseid/200007070 |
| Providing Outstanding Customer Service | 2.00 | $ 1,495.00 | This course offers practical tools and techniques to win clients, create loyal advocates for your business, and deliver excellent customer service. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201060 |
| Publisher for Office 365 | 1.00 | $ 295.00 | Microsoft® Publisher for Office 365™ is a desktop publishing software application capable of producing greeting cards, certificates, newsletters, and other printed publications. Publisher includes a large collection of templates that provide a great way to start a new publication. Publisher offers a large selection of "building blocks" that can be dragged into your documents, helping you to create page elements such as calendars, newsletter sidebars, and borders. Publisher integrates online sharing and mail merge features, which are handy when you need to send publications to a list of customers, and it's possible to export publications as HTML web pages or PDF documents. With a user-friendly interface, Publisher makes it easy to create and edit publications. | https://www.newhorizons.com/course-outline/courseid/100001046 |
| Python for Data Science | 3.00 | $ 1,795.00 | Data Science is the critical skill of the modern workforce. Data science skills allow for the extraction of key insights and relevant knowledge from large datasets. This data science training course is for Python developers who want to learn how to use the key libraries in the Python Data Science ecosystem. This course covers NumPy for numerical data processing, Pandas for data analysis, and Matplotlib and Seaborn for quick visualizations and statistical reporting. The training is all conducted in a modern Jupyter Notebook format, allowing students to read and write code directly within our training notebooks.You'll learn everything you need to know for the full data science tech stack required to work at the world's top companies. This Python for Data Science course takes a structured approach that will guide you through understanding not just how to use data science, but why we use them by providing a balance between practical real world case studies and mathematical theory behind the data science algorithms.Please note, this course is able to be offered in either 3 full day sessions or 5 evening sessions. See the schedule below.This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200706 |
| Python for Finance | 3.00 | $ 1,895.00 | This Python for Finance course is for students familiar with python who want to learn how to use python for financial data and algorithmic trading. Core financial concepts and strategies, such as Modern Portfolio Theory paired with clean python code build a solid ground to implement trading algorithms on the Quantconnect platform with their Lean engine. Quantconnect offers large functionality for implementation, backtesting and deployment of custom algorithms for algorithmic trading. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200915 |
| Python for Machine Learning | 2.00 | $ 1,895.00 | Master the skills to use machine learning in your day-to-day work with this Python course. Create algorithms to predict classes, continuous values, and more. This course is designed for the student who already knows some Python and is ready to dive deeper into using those Python skills for Machine Learning. With a focus on SciKit Learn, you'll learn all aspects of Machine Learning ranging from a variety of regression types (Linear / Lasso /Ridge), Elastic Net, K Nearest Neighbors and Means Clustering, Hierarchal Clustering, DBSCAN, PCA, and Model Deployment. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200707 |
| Python Programming with Red Hat (AD141) | 5.00 | $ 3,200.00 | Python is a popular programming language used by system administrators, data scientists, and developers to create web applications, custom Red Hat Ansible Automation modules, perform statistical analysis, and train AI/ML models. This course introduces the Python language and teaches fundamental concepts like control flow, loops, data structures, functions, file I/O, regular expressions, parsing JSON, and debugging. This course is based on Python 3 and RHEL 9.0. | https://www.newhorizons.com/course-outline/courseid/300200732 |
| Python-based Dashboards with Plotly and Dash | 2.00 | $ 1,195.00 | Effective and efficient data visualization is one of the core skills of the 21st century. This Plotly and Dash training course is designed for data analysts, engineers and scientists who want to learn how to quickly create beautiful, shareable and interactive visualization and dashboards. By leveraging simple design and coding patterns, Dash abstracts away everything that would otherwise be required to build a full stack web app for interactive data visualization. Together with the interactive, browser based plotting library Plotly, this allows for quick development of plots and dashboards leading to actionable insights! Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200914 |
| R for Data Analysis | 3.00 | $ 1,795.00 | R is a programming language designed specifically for statistical analysis and has an ecosystem of data focused libraries such as caret and ggplot2. This course will teach you how to program with R and RStudio, how to create amazing data visualizations with ggplot2, and how to use Machine Learning with R! Become an expert in R at your own pace through our on-demand subscription to our entire data science training catalog. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200912 |
| R12.2.9 Oracle Applications System Administrator Fundamentals | 5.00 | $ 5,000.00 | This course is for customers implementing R12, R12.1 and R12.2 In this intensive course, you'll learn the concepts and functions that are critical to the System Administrator role. This includes managing security, managing concurrent processing, monitoring your system using Oracle Applications Manager, SOA and web services for system administration, and other related topics. Learn To: Set up and administer security-related features, Monitor Oracle E-Business Suite activities using OAM, Understand the fundamentals of Oracle Workflow, including its setup, Configure flexfields and understand how they are used by Oracle E-Business Suite, Set up and manage profile options, printers, personalizations, and other features, Describe service-oriented architecture (SOA) and manage service life cycle activities. | https://www.newhorizons.com/course-outline/courseid/300170009 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| R12.2.9 Oracle General Ledger Management Fundamentals | 5.00 | $ 5,000.00 | This R12.2 Oracle General Ledger Management Fundamentals will help you maximize accounting process efficiency across the enterprise, while still achieving a high level of information and setup security. It will teach you how Oracle General Ledger integrates with the eBusiness Suite of applications. Learn To: Understand the steps for completing the full accounting cycle, as well as the ledger concept, Describe the various implementation considerations, Use the capabilities of securing data within Oracle General Ledger, Perform simultaneous accounting for multiple reporting requirements, Access and process data for multiple ledgers and legal entities at the same time using the power of ledger sets, Understand how Oracle General Ledger integrates with the eBusiness Suite of applications, Understand the steps for completing the full accounting cycle | https://www.newhorizons.com/course-outline/courseid/300170008 |
| Red Hat Ansible Automation Platform Boot Camp (DO710) | 10.00 | $ 10,000.00 | The Ansible Automation Platform Boot Camp (DO710) is designed for Linux administrators and developers who need to automate repeatable and error-prone steps for system provisioning, configuration, application deployment, and orchestration. Learn recommended practices for automation development using reusable code, advanced playbook techniques, shared execution environments, and preparing for scalable automation with the automation content navigator. Deploy automation controller to centrally manage automation workflows, automation mesh to scale up and distribute execution capacity, and private automation hub to manage Ansible Content Collections and automation execution environments for use by automation developers. This collection of courses is based on Red Hat Ansible Automation Platform 2.2. As part of enrollment, you will receive one year of Red Hat Learning Subscription Standard, which gives you unlimited access to all of our courses online, plus up to five certification exams. | https://www.newhorizons.com/course-outline/courseid/300201019 |
| Red Hat Application Development I: Programming in Java EE (AD183) | 5.00 | $ 3,200.00 | As an experienced Java Standard Edition (Java SE) developer, this course introduces you to the world of Java Enterprise Edition (Java EE). You will learn about the various specifications that make up Java EE. Through hands-on labs, you will transform a simple Java SE command line application into a multi-tiered enterprise application using various Java EE specifications, including Enterprise Java Beans, Java Persistence API, Java Messaging Service, JAX-RS for REST services, Contexts and Dependency Injection (CDI), and JAAS for securing the application. This course is based on Red Hat® Enterprise Application Platform 7.0. | https://www.newhorizons.com/course-outline/courseid/200012165 |
| Red Hat Cloud-native Microservices Development with Quarkus (DO378) | 5.00 | $ 4,280.00 | Develop microservice-based applications with Quarkus and OpenShift. Many enterprises are looking for a way to take advantage of cloud-native architectures, but many do not know the best approach. Quarkus is an exciting new technology that brings the reliability, familiarity, and maturity of Java Enterprise with a container-ready lightning fast deployment time. Red Hat Cloud-native Microservices Development with Quarkus (DO378) emphasizes learning architectural principles and implementing microservices based on Quarkus and OpenShift. You will build on application development fundamentals and focus on how to develop, monitor, test, and deploy modern microservices applications.. This course is based on OpenShift 4.5 and Quarkus 1.7L | https://www.newhorizons.com/course-outline/courseid/300160007 |
| Red Hat Container Adoption Boot Camp for Administrators (DO700) | 10.00 | $ 10,000.00 | The Container Adoption Boot Camp for Administrators (DO700) immerses you in intensive, hands-on management of container-native applications deployed on Red Hat's implementation of Kubernetes, Red Hat® OpenShift® Container Platform, at enterprise scale. This course is for those seeking to make a quantum leap in their digital transformation journey. Making this shift requires the ability to support a growing number of clusters, stakeholders, applications, and users to achieve large-scale deployments. As part of enrollment, you will receive one year of Red Hat Learning Subscription Standard, which gives you unlimited access to all of our courses online, plus up to five certification exams and two retakes. This collection of courses is based on Red Hat OpenShift Container Platform 4.10. | https://www.newhorizons.com/course-outline/courseid/300201018 |
| Red Hat Container Adoption Boot Camp for Developers (DO720) | 10.00 | $ 10,000.00 | The Container Adoption Boot Camp for Developers (DO720) immerses you in intensive, hands-on development of container-native applications deployed on Red Hat's implementation of Kubernetes, Red Hat® OpenShift® Container Platform. As part of enrollment, you will receive one year of Red Hat Learning Subscription Standard, which gives you unlimited access to all of our courses online, plus up to five certification exams and two retakes. This boot camp is for those seeking to make a quantum leap in their journey toward digital transformation. Making this shift involves developing software in tight iterations so that business value can be realized sooner. In order to accomplish this goal, this offering can facilitate the adoption of container-native applications, including microservices. This collection of courses is based on Red Hat OpenShift Container Platform 4.10. | https://www.newhorizons.com/course-outline/courseid/300201020 |
| Red Hat DevOps Pipelines and Processes: CI/CD with Jenkins, Git, and Test Driven Development (TDD) (DO400) | 5.00 | $ 4,280.00 | DevOps practices have enabled organizations to undergo a digital transformation, moving from a monolithic waterfall approach to a rapidly deploying cloud-based agile process. This transformation requires a team of developers trained to use tools that enable them to spend more time coding and testing and less time troubleshooting. Red Hat DevOps Pipelines and Processes: CI/CD with Jenkins, Git, and Test-Driven Development (TDD) is a practical introduction to DevOps for developers that teaches students the necessary skills and technologies for automated building and deploying of cloud-native applications. | https://www.newhorizons.com/course-outline/courseid/300200737 |
| Red Hat Enterprise Linux 8 New Features for Experienced Linux Administrators (RH354) | 4.00 | $ 3,210.00 | This course offers a rapid orientation to Red Hat Enterprise Linux 8 based on the pre-release beta. The offering prepares operators, managers, principal system administrators, and other IT professionals with experience in Red Hat Enterprise Linux 7 for deployments and migrations to the new release. | https://www.newhorizons.com/course-outline/courseid/200012366 |
| Red Hat Enterprise Linux Automation with Ansible (RH294) | 5.00 | $ 4,280.00 | Red Hat System Administration III: Linux Automation (RH294) is designed for Linux® system administrators and developers who need to automate provisioning, configuration, application deployment, and orchestration. | https://www.newhorizons.com/course-outline/courseid/200012540 |
| Red Hat Enterprise Linux Automation with Ansible and Exam (RH295) | 5.00 | $ 4,541.00 | Red Hat System Administration III: Linux Automation (RH294) is designed for Linux® system administrators and developers who need to automate provisioning, configuration, application deployment, and orchestration. | https://www.newhorizons.com/course-outline/courseid/300160013 |
| Red Hat High Availability Clustering (RH436) | 5.00 | $ 4,400.00 | Deploy reliable, available critical production services in a high availability cluster In the Red Hat High Availability Clustering (RH436) course, you will learn how to provide highly available network services to a mission-critical enterprise environment through the deployment and management of shared storage and server clusters. Created for senior Linux system administrators, this 4-day course strongly emphasizes lab-based activities. You will set up a cluster of systems running the Pacemaker component of the Red Hat Enterprise Linux High-Availability Add-On, and deploy Linux-based services such as web servers and databases on that cluster. Cluster storage components from the Resilient Storage Add-On are also covered; installations and applications that require multiple cluster nodes can access the same storage simultaneously. This includes Logical Volume Manager (LVM) Shared Volume Groups, Red Hat Global File System 2 (GFS2), and Device-Mapper Multipath. This course is based on Red Hat Enterprise Linux 8.3. | https://www.newhorizons.com/course-outline/courseid/200003381 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Red Hat High Availability Clustering for SAP Solutions (RH445) | 5.00 | $ 5,500.00 | Learn how to deploy, protect, and scale SAP infrastructure with Red Hat Enterprise Linux for SAP Solutions. This course teaches best practices for deploying SAP HANA and SAP S/4HANA in a high availability configuration. In addition, you will discover how to efficiently automate deployments with Red Hat Ansible Automation Platform and Red Hat supported Ansible roles specific to SAP. | https://www.newhorizons.com/course-outline/courseid/300200856 |
| Red Hat JBoss Application Administration I (AD248) | 5.00 | $ 4,000.00 | In this course, you'll discover the best practices for installing and configuring Red Hat® JBoss® Enterprise Application Platform (JBoss EAP) 7. Through hands-on labs, you'll learn the essential, real-world tasks that you need to know as a system administrator to effectively deploy and manage applications on JBoss EAP.  This course will help prepare you to take the Red Hat Certified Specialist in Enterprise Application Server Administration exam. | https://www.newhorizons.com/course-outline/courseid/200006447 |
| Red Hat JBoss Application Administration I with Exam (AD249) | 5.00 | $ 4,275.00 | In this course, you'll discover the best practices for installing and configuring Red Hat® JBoss® Enterprise Application Platform (JBoss EAP) 7. Through hands-on labs, you'll learn the essential, real-world tasks that you need to know as a system administrator to effectively deploy and manage applications on JBoss EAP.  This course will help prepare you to take the Red Hat Certified Specialist in Enterprise Application Server Administration exam. | https://www.newhorizons.com/course-outline/courseid/300160018 |
| Red Hat JBoss Application Administration II (AD348) | 5.00 | $ 4,280.00 | This course empowers you to provision and manage Red Hat® JBoss® Enterprise Application Platform (JBoss EAP) in large-scale production environments. Intended for experienced administrators, this course will help you gain a deeper understanding of how to work with JBoss EAP by taking a closer look at installation, clustering, deployments, scripting, management, messaging, and security with a view towards building on the skills established in the Red Hat JBoss Application Administration I (JB248) course. | https://www.newhorizons.com/course-outline/courseid/200006448 |
| Red Hat Linux Diagnostics and Troubleshooting (RH342) | 5.00 | $ 4,280.00 | This course enriches your skills by providing the tools and techniques that you need to successfully diagnose, and fix, a variety of potential issues. You will work through hands-on problems in various subsystems to diagnose and fix common issues.  You will learn develop the skills to apply the scientific method to a structured form of troubleshooting. You will then apply this approach in troubleshooting various types of problems, including boot issues, hardware issues, storage issues, RPM issues, network issues, third-party application issues, security issues, and kernel issues. At the end of the course, you will be empowered to complete various comprehensive review labs to test your skills. | https://www.newhorizons.com/course-outline/courseid/200010571 |
| Red Hat OpenShift Administration I: Containers & Kubernetes (DO180) | 5.00 | $ 4,280.00 | This course helps you build core knowledge in managing containers through hands-on experience with containers, Kubernetes, and the Red Hat® OpenShift® Container Platform. These skills are needed for multiple roles, including developers, administrators, and site reliability engineers. | https://www.newhorizons.com/course-outline/courseid/200012113 |
| Red Hat OpenShift Administration II: Operating a Production Kubernetes Cluster (DO280) | 5.00 | $ 4,280.00 | This course will empower you to install and administer the Red Hat® OpenShift® Container Platform, with hands-on, lab-based materials that show you how to install, configure, and manage OpenShift clusters and deploy sample applications to further understand how developers will use the platform.  This course is based on Red Hat® Enterprise Linux® 7.5 and Openshift Container Platform 3.9.  OpenShift is a containerized application platform that allows your enterprise to manage container deployments and scale your applications using Kubernetes. OpenShift provides predefined application environments and builds upon Kubernetes to provide support for DevOps principles such as reduced time to market, infrastructure-as-code, continuous integration (CI), and continuous delivery (CD). | https://www.newhorizons.com/course-outline/courseid/200009780 |
| Red Hat OpenShift Administration II: Operating a Production Kubernetes Cluster with Exam (DO281) | 5.00 | $ 4,541.00 | This course will empower you to install and administer the Red Hat® OpenShift® Container Platform, with hands-on, lab-based materials that show you how to install, configure, and manage OpenShift clusters and deploy sample applications to further understand how developers will use the platform.  This course is based on Red Hat® Enterprise Linux® 7.5 and Openshift Container Platform 3.9.  OpenShift is a containerized application platform that allows your enterprise to manage container deployments and scale your applications using Kubernetes. OpenShift provides predefined application environments and builds upon Kubernetes to provide support for DevOps principles such as reduced time to market, infrastructure-as-code, continuous integration (CI), and continuous delivery (CD). | https://www.newhorizons.com/course-outline/courseid/300160014 |
| Red Hat OpenShift Administration III: Scaling Deployments in the Enterprise (DO380) | 5.00 | $ 4,280.00 | This course will empower you to build robust clusters that provide high availability and the ability to run large numbers of applications. You will learn about OpenShift integration with datacenter infrastructure such as load balancers, identity management, monitoring, proxies, and storage. You will also develop more troubleshooting and Day 2 operations skills in this course.  You will design an OpenShift HA cluster, then build and test it, using this cluster to examine more advanced topics in the administration and operation of a robust OpenShift cluster through the remainder of the course.  This course is based on Red Hat® OpenShift Container Platform 3.6. | https://www.newhorizons.com/course-outline/courseid/200012161 |
| Red Hat OpenShift Developer II: Building Kubernetes Applications (DO288) | 5.00 | $ 4,280.00 | This course will enhance your understanding of containers as a key technology for configuring and deploying applications and microservices. As the second course in the OpenShift development track, this offering will teach you how to design, build, and deploy containerized software applications to an OpenShift cluster.  Whether you're writing container-native applications or migrating existing brownfield applications, you'll learn how to boost developer productivity powered by Red Hat® OpenShift Container Platform, a containerized application platform that allows enterprises to manage container deployments and scale their applications using Kubernetes.  This course is based on Red Hat OpenShift Container Platform 4.1. | https://www.newhorizons.com/course-outline/courseid/200012115 |
| Red Hat OpenShift Development I: Introduction to Containers with Podman (DO188) | 4.00 | $ 3,210.00 | Red Hat OpenShift Development I: Introduction to Containers with Podman (DO188) introduces students to building, running, and managing containers with Podman and Red Hat OpenShift Container Platform. This course helps students build the core skills for developing containerized applications through hands-on experience.  This course is based on Red Hat® Enterprise Linux® 8.6 and OpenShift® Container Platform 4.10. | https://www.newhorizons.com/course-outline/courseid/300200735 |
| Red Hat OpenShift Development II: Containerizing Applications with Exam (DO289) | 5.00 | $ 4,541.00 | This course will enhance your understanding of containers as a key technology for configuring and deploying applications and microservices. As the second course in the OpenShift development track, this offering will teach you how to design, build, and deploy containerized software applications to an OpenShift cluster.  Whether you're writing container-native applications or migrating existing brownfield applications, you'll learn how to boost developer productivity powered by Red Hat® OpenShift Container Platform, a containerized application platform that allows enterprises to manage container deployments and scale their applications using Kubernetes.  This course is based on Red Hat OpenShift Container Platform 4.1. | https://www.newhorizons.com/course-outline/courseid/300160015 |
| Red Hat OpenShift Installation Lab (DO322) | 3.00 | $ 2,140.00 | Installing OpenShift on a cloud, virtual, or physical infrastructure.  Red Hat OpenShift Installation Lab (DO322) teaches essential skills for installing an OpenShift cluster in a range of environments, from proof of concept to production, and how to identify customizations that may be required because of the underlying cloud, virtual, or physical infrastructure.  This course is based on Red Hat OpenShift Container Platform 4.6. | https://www.newhorizons.com/course-outline/courseid/300160005 |
| Red Hat OpenStack Administration I - Core Operations for Domain Operators (CL110) | 5.00 | $ 4,000.00 | This course will teach students to install a proof-of-concept, configure, use, and maintain Red Hat OpenStack Platform. The focus on this course will be managing OpenStack using the Horizon dashboard and the command-line interface and managing instances, leaving students with proof-of-concepts. | https://www.newhorizons.com/course-outline/courseid/200012163 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Red Hat OpenStack Administration II: Day 2 Operations for Cloud Operators (CL210) | 5.00 | $ 4,280.00 | Build advanced skills for performing Red Hat OpenStack Platform day 2 operations and management of hybrid cloud infrastructure Red Hat OpenStack Administration II: Day 2 Operations for Cloud Operators (CL210) is designed for cloud operators, service administrators, and automation engineers who operate and manage a full-featured hybrid and private cloud-computing environment using Red Hat OpenStack Platform. You will learn how to manage, monitor, troubleshoot, and scale a Red Hat OpenStack Platform infrastructure. This course focuses on using the OpenStack Client command-line user interface to configure metrics, policies, and architecture in order to support enterprise cloud applications and daily operations. This course is based on Red Hat OpenStack version 16.1 and Red Hat Enterprise Linux version 8.2 | https://www.newhorizons.com/course-outline/courseid/300160001 |
| Red Hat OpenStack Administration II: Day 2 Operations for Cloud Operators with Exam (CL211) | 5.00 | $ 4,541.00 | Build advanced skills for performing Red Hat OpenStack Platform day 2 operations and management of hybrid cloud infrastructure Red Hat OpenStack Administration II: Day 2 Operations for Cloud Operators (CL210) is designed for cloud operators, service administrators, and automation engineers who operate and manage a full-featured hybrid and private cloud-computing environment using Red Hat OpenStack Platform. You will learn how to manage, monitor, troubleshoot, and scale a Red Hat OpenStack Platform infrastructure. This course focuses on using the OpenStack Client command-line user interface to configure metrics, policies, and architecture in order to support enterprise cloud applications and daily operations. This course is based on Red Hat OpenStack version 16.1 and Red Hat Enterprise Linux version 8.2 | https://www.newhorizons.com/course-outline/courseid/300160017 |
| Red Hat Performance Tuning: Linux in Physical, Virtual, and Cloud (RH442) | 4.00 | $ 4,280.00 | Red Hat® Enterprise Performance Tuning is designed to teach senior Linux® system administrators the methodology of performance tuning for Red Hat Enterprise Linux. This course discusses system architecture with an emphasis on understanding the implications of system architecture on system performance, methods for testing the effects of performance adjustments, open source benchmarking utilities, methods for analyzing system and networking performance, and tuning configurations for specific application loads. | https://www.newhorizons.com/course-outline/courseid/300160011 |
| Red Hat RHCSA Rapid Track Course (RH199) | 5.00 | $ 5,250.00 | This course combines the foundations and applications established and covered in Red Hat System Administration I (RH124) and Red Hat System Administration II (RH134). The rapid pace of review and consolidated course timeline allow you to focus on practical application, making this offering best suited for you if you already have significant experience with Linux® administration. This course is based on Red Hat® Enterprise Linux 8. | https://www.newhorizons.com/course-outline/courseid/200007017 |
| Red Hat Satellite 6 Administration (RH403) | 5.00 | $ 4,400.00 | Red Hat Satellite 6 Administration (RH403) is a lab-based course that explores the concepts and methods necessary for successful large-scale management of Red Hat® Enterprise Linux® systems. You will learn how to configure Red Hat Satellite 6 on a server and populate it with software packages. You will use Red Hat Satellite to manage the software development life cycle of a subscribed host and its configuration, and learn how to provision hosts integrated with software and Ansible® configuration management upon deployment. This course is based on Red Hat Enterprise Linux 8 and Red Hat Satellite 6.6. | https://www.newhorizons.com/course-outline/courseid/200009263 |
| Red Hat Security - Linux in Physical, Virtual, and Cloud (RH415) | 5.00 | $ 4,280.00 | This course is ideal for security administrators and system administrators who need to manage the secure operation of servers running Red Hat® Enterprise Linux®, whether deployed on physical hardware, as virtual machines, or as cloud instances. Maintaining security of computing systems is a process of managing risk through the implementation of processes and standards backed by technologies and tools. In this course, you will discover and understand the resources that can be used to help you implement and comply with your security requirements. This course is based on Red Hat Enterprise Linux 7.5, Red Hat Satellite 6.3, Red Hat Ansible® Engine 2.5, Red Hat Ansible Tower 3.2, and Red Hat Insights. | https://www.newhorizons.com/course-outline/courseid/200011886 |
| Red Hat Security: Identity Management and Authentication (RH362) | 5.00 | $ 4,280.00 | This course will empower you with the skills to configure and manage IdM, the comprehensive Identity Management solution bundled with Red Hat® Enterprise Linux. You will master these skills on the most requested Red Hat Identity Management (IdM) capabilities, including Active Directory trusts, multi-product federation, configuration management with Ansible, integrated certificate management, single sign-on, one-time passwords, and cybersecurity policy conformance. | https://www.newhorizons.com/course-outline/courseid/200010572 |
| Red Hat Services Management and Automation (RH358) | 5.00 | $ 5,350.00 | Learn how to configure, manage, and scale key services used in the data center Red Hat Services Management and Automation (RH358) is designed for IT professionals with some experience managing Linux® systems and want to learn more about how to manage and deploy network services included with Red Hat® Enterprise Linux which are particularly important in the modern IT data center. You will learn how to install, configure, and manage basic configurations of these services manually, and then use Red Hat Ansible® Engine to automate your work in a scalable, repeatable manner. This course is based on Red Hat Ansible Engine 2.9 and Red Hat Enterprise Linux 8.1. | https://www.newhorizons.com/course-outline/courseid/300160010 |
| Red Hat Single Sign-On Administration (DO313) | 3.00 | $ 2,140.00 | Red Hat Single Sign-On Administration (DO313) is designed for system administrators who want to install, configure and manage Red Hat Single Sign-On servers for securing applications. Learn about the different ways to authenticate and authorize applications using single sign-on standards like OAuth and OpenID Connect (OIDC). You will also learn how to install and configure Red Hat Single Sign-On on the OpenShift Container Platform. This course is based on Red Hat Single Sign-On version 7.6. | https://www.newhorizons.com/course-outline/courseid/300200855 |
| Red Hat System Administration I (RH124) | 5.00 | $ 4,000.00 | Red Hat System Administration I (RH124) equips you with Linux® administration "survival skills" by focusing on foundational Linux concepts and core tasks. You will learn how to apply command-line concepts and enterprise-level tools, starting you on your journey toward becoming a full-time Linux system administrator. This path continues with the follow-on course, Red Hat System Administration II (RH134). | https://www.newhorizons.com/course-outline/courseid/200004200 |
| Red Hat System Administration II (RH134) | 5.00 | $ 5,000.00 | Red Hat System Administration II (RH134) is designed as the second part of the Red Hat® Certified System Administrator (RHCSA®) training track for IT professionals who have taken Red Hat System Administration I (RH124). The course goes deeper into core Linux® system administration skills, including storage configuration, security feature management, task control, and installation and deployment of Red Hat® Enterprise Linux. | https://www.newhorizons.com/course-outline/courseid/200007011 |
| Red Hat System Administration II with RHCSA Exam (RH135) | 5.00 | $ 5,225.00 | This course focuses on the key tasks needed to become a full time Linux administrator and goes deeper into enterprise Linux administration including file systems and partitioning, logical volumes, SELinux, firewalling, and troubleshooting. | https://www.newhorizons.com/course-outline/courseid/200007014 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Red Hat Training: DevOps Culture and Practice Enablement (TL500) | 5.00 | $ 8,000.00 | DevOps Culture and Practice Enablement (TL500) is a five-day, immersive class offering students an opportunity to experience and implement cultural shifts that are utilized in many successful DevOps adoption journeys. Many agile training offerings focus on a particular framework, delivery mechanism, or technology. Instead, DevOps Culture & Practice combines the best tools from many leading frameworks to blend continuous discovery and continuous delivery with cultural and technical practices into a unique, highly-engaging experience simulating real-world scenarios and applications. To achieve the learning objectives, participants should include multiple roles from an organization. Business product owners, architects, developers, and site reliability engineers will gain the experience of working outside of their traditional silos. The daily routine simulates a real-world delivery team, where cross-functional teams learn how collaboration breeds innovation. Armed with shared experiences and best practices, the team can apply what it has learned to help the organization's culture and mission succeed in the pursuit of new projects and improved processes. This course includes a copy of the Red Hat Training: Open Practices for your DevOps Journey course book, which can be used as a resource as students take the learnings from this course and apply them to other real world scenarios. | https://www.newhorizons.com/course-outline/courseid/300200745 |
| Red Hat Training: Open Practices for your DevOps Journey (TL250) | 4.00 | $ 3,210.00 | Open Practices for your DevOps Journey (TL250) prepares a student to facilitate and participate in discovery, planning, and delivery of projects where DevOps transformation is desired. At the end of this course, you will establish a toolbox of select practices and rethink your approach to cross-functional team projects. Utilizing new skills will enable your organization to effectively discover team purpose, align on project options, and deliver value that achieves target outcomes. | https://www.newhorizons.com/course-outline/courseid/300200744 |
| Red Hat Transformational Learning: Introduction to Pragmatic Site Reliability Engineering (TL112) | 3.00 | $ 2,140.00 | Red Hat Transformational Learning: Introduction to Pragmatic Site Reliability Engineering (TL112) teaches the vocabulary, concepts and cultural considerations required to prepare to adopt an implementation of DevOps referred to as Site Reliability Engineering (SRE). In this course, the history, definitions, and Red Hat specific take on this practice will be explored as the student prepares to continue the learning path of joining or implementing an SRE team. | https://www.newhorizons.com/course-outline/courseid/300200743 |
| Red Hat Virtualization (RH318) | 5.00 | $ 4,280.00 | Deploy, configure, manage, and migrate virtual environments  Red Hat Virtualization (RH318) teaches you the skills needed to deploy, administer, and operate virtual machines in your organization using Red Hat® Virtualization. Through numerous hands-on exercises, you will demonstrate the ability to deploy and configure the Red Hat Virtualization infrastructure and use it to provision and manage virtual machines. This offering also prepares you for the Red Hat Certified Specialist in Virtualization exam.  This course is based on Red Hat Enterprise Virtualization 4.3 and Red Hat Enterprise Linux® 7.6 and 8, as well as Red Hat Hyperconverged Infrastructure for Virtualization 1.6. | https://www.newhorizons.com/course-outline/courseid/300160009 |
| Reporting Cisco Contact Center Enterprise (CCER) | 2.00 | $ 1,795.00 | Enable Contact Center support teams to access reporting solutions for end-to-end reporting in a CCE deployment. After attending this course, you will be able to assist customers and partners in the task of creating reports from disparate data sources in a Cisco Contact Center deployment. The course considers the nuances of analyzing and troubleshooting in various deployment scenarios. Designed Tier 2/Day 2 Support. | https://www.newhorizons.com/course-outline/courseid/300070003 |
| RHCSA Rapid Track Course with Exam (RH200) | 5.00 | $ 5,462.50 | This course combines the foundations and applications established and covered in Red Hat System Administration I (RH124) and Red Hat System Administration II (RH134). The rapid pace of review and consolidated course timeline allow you to focus on practical application, making this offering best suited for you if you already have significant experience with Linux® administration. This course is based on Red Hat® Enterprise Linux 8. | https://www.newhorizons.com/course-outline/courseid/300160012 |
| Running Containers on Amazon Elastic Kubernetes Service (Amazon EKS) | 3.00 | $ 2,025.00 | In this course, you will learn how to use Amazon EKS to manage and orchestrate containers with Kubernetes. With Amazon EKS you can run Kubernetes on AWS without needing to install, operate, and maintain your own Kubernetes control plane. You will manage container images using Amazon Elastic Container Registry (Amazon ECR) and learn how to automate application deployment. You will deploy applications using continuous integration and delivery (CI/CD) tools. You will learn how to monitor and scale your environment by using metrics, logging, tracing, and horizontal and vertical scaling. You will also manage storage for your containerized applications, configure AWS networking services to support the cluster, and learn how to secure your Amazon EKS environment. | https://www.newhorizons.com/course-outline/courseid/300030018 |
| SAFe SA Certification Training | 2.00 | $ 1,195.00 | New to the Scaled Agile Framework®? Leading SAFe® offers you an introduction to the foundations of SAFe, and provides the principles and practices to confidently drive your Lean-Agile transformation. The course and resulting certification offer the guidance and tools to build a culture of resiliency and a shared language that engages employees and focuses on customers so that organizations can work with agility at scale.  Take a Leading SAFe course to discover how companies can build business agility, and how to make SAFe work inside your organization. You'll come away with an understanding of how to align your entire organization around the same clear objectives, and how to improve the flow of value and work from strategy to delivery. You'll learn what makes companies more customer-centric and how to run key SAFe alignment and planning events, like PI planning.  Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300200911 |
| Sales Processing in SAP ERP Virtual Class | 5.00 | $ 4,335.00 | Successfully implement sales processes with SAP ERP. | https://www.newhorizons.com/course-outline/courseid/200008221 |
| Salesforce Build Data Architect Expertise (ARC201) | 3.00 | $ 2,700.00 | Discover how to unlock your data and streamline business practices by implementing high-performing enterprise data management solutions on the Salesforce Platform. In this 3-day instructor-led class, learn about foundational data architecture concepts, including data modeling, master data management, large data volumes, data migration, data governance, and more. Design robust data management solutions that address business requirements, appropriately account for various considerations, and provide a comprehensive understanding of business data across systems in order to make informed, data-driven decisions that reduce costs, drive revenue, and champion operational efficiency. | https://www.newhorizons.com/course-outline/courseid/300201186 |
| Salesforce Reporting Fundamentals in Lightning Experience (RPX101) | 1.00 | $ 600.00 | Reporting Fundamentals in Lightning Experience is a must for all users who need to report on the data managed within their Salesforce instance. This course will teach you how to customize existing reports as well as use the Salesforce reporting toolset to create your own reports. Information on building dashboards and enhancing your reports via formulas and filters is also provided to help you better analyze your business. Note: This class uses Trailhead for hands-on exercises. | https://www.newhorizons.com/course-outline/courseid/300201215 |
| SAP BusinessObjects Business Intelligence Platform: Administering Servers | 3.00 | $ 2,760.00 | | https://www.newhorizons.com/course-outline/courseid/200008166 |
| SAP BusinessObjects Web Intelligence 4.3: Report Design I | 2.00 | $ 1,734.00 | This 2-day course is designed to give you the skills needed to access, analyze and share data using SAP BusinessObjects Web Intelligence features through the Fiorified BI Launch Pad. You will learn how to create Web Intelligence documents for your reporting and analytical needs: to retrieve data by building queries using SAP BusinessObjects universes, to restrict data with query filters, to display and format data in tables and charts. You'll also learn how to organize, manage and distribute documents using the Fiorified BI Launch Pad. | https://www.newhorizons.com/course-outline/courseid/300201214 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| SAP BusinessObjects Web Intelligence: Report Design II | 2.00 | $ 1,840.00 | Participants will gain the comprehensive skills and in-depth knowledge needed to apply alternative query and reporting techniques when creating complex Web Intelligence documents. | https://www.newhorizons.com/course-outline/courseid/200008171 |
| SAP Overview | 3.00 | $ 2,760.00 | | https://www.newhorizons.com/course-outline/courseid/200008193 |
| SC-100T00 Microsoft Cybersecurity Architect | 4.00 | $ 2,495.00 | This is an advanced, expert-level course. Although not required to attend, students are strongly encouraged to have taken and passed another associate level certification in the security, compliance and identity portfolio (such as AZ-500, SC-200 or SC-300) before attending this class. This course prepares students with the expertise to design and evaluate cybersecurity strategies in the following areas: Zero Trust, Governance Risk Compliance (GRC), security operations (SecOps), and data and applications. Students will also learn how to design and architect solutions using zero trust principles and specify security requirements for cloud infrastructure in different service models (SaaS, PaaS, IaaS). | https://www.newhorizons.com/course-outline/courseid/100001091 |
| SC-200T00 Microsoft Security Operations Analyst | 4.00 | $ 2,495.00 | Learn how to investigate, respond to, and hunt for threats using Microsoft Sentinel, Microsoft Defender for Cloud, and Microsoft 365 Defender. In this course you will learn how to mitigate cyberthreats using these technologies. Specifically, you will configure and use Microsoft Sentinel as well as utilize Kusto Query Language (KQL) to perform detection, analysis, and reporting. The course was designed for people who work in a Security Operations job role and helps learners prepare for the exam SC-200: Microsoft Security Operations Analyst. | https://www.newhorizons.com/course-outline/courseid/100001034 |
| SC-300T00 Microsoft Identity and Access Administrator | 4.00 | $ 2,495.00 | The Microsoft Identity and Access Administrator course explores how to design, implement, and operate an organization's identity and access management systems by using Microsoft Entra ID. Learn to manage tasks such as providing secure authentication and authorization access to enterprise applications. You will also learn to provide seamless experiences and self-service management capabilities for all users. Finally, learn to create adaptive access and governance of your identity and access management solutions ensuring you can troubleshoot, monitor, and report on your environment. The Identity and Access Administrator may be a single individual or a member of a larger team. Learn how this role collaborates with many other roles in the organization to drive strategic identity projects. The end goal is to provide you knowledge to modernize identity solutions, to implement hybrid identity solutions, and to implement identity governance. | https://www.newhorizons.com/course-outline/courseid/100001035 |
| SC-400T00 Administering Information Protection and Compliance in Microsoft 365 | 4.00 | $ 2,495.00 | Learn how to protect information in your Microsoft 365 deployment. This course focuses on data lifecycle management and information protection and compliance within your organization. The course covers implementation of data loss prevention policies, sensitive information types, sensitivity labels, data retention policies, Microsoft Purview Message Encryption, audit, eDiscovery, and insider risk among other related topics. The course helps learners prepare for the Microsoft Information Protection Administrator exam (SC-400). | https://www.newhorizons.com/course-outline/courseid/100001036 |
| SC-5001 Configure SIEM security operations using Microsoft Sentinel | 1.00 | $ 595.00 | Get started with Microsoft Sentinel security operations by configuring the Microsoft Sentinel workspace, connecting Microsoft services and Windows security events to Microsoft Sentinel, configuring Microsoft Sentinel analytics rules, and responding to threats with automated responses. | https://www.newhorizons.com/course-outline/courseid/300201178 |
| SC-5002 Secure Azure services and workloads with Microsoft Defender for Cloud regulatory compliance controls | 1.00 | $ 595.00 | This learning path guides you in securing Azure services and workloads using Microsoft Cloud Security Benchmark controls in Microsoft Defender for Cloud via the Azure portal. | https://www.newhorizons.com/course-outline/courseid/300201179 |
| SC-5003 Implement information protection and data loss prevention by using Microsoft Purview | 1.00 | $ 695.00 | Gain the skills to use Microsoft Purview to improve your data security in Microsoft 365. In this training, you learn how to create sensitive information types, create sensitivity labels, and use auto-labeling policies based on these labels. You also learn how to set up DLP (Data Loss Prevention) policies to safeguard your organization's data. | https://www.newhorizons.com/course-outline/courseid/300201226 |
| SC-900T00 Microsoft Security Compliance and Identity Fundamentals | 1.00 | $ 695.00 | This course provides foundational level knowledge on security, compliance, and identity concepts and related cloud-based Microsoft solutions. | https://www.newhorizons.com/course-outline/courseid/100001037 |
| Scrum Developer Certified (SDC™) | 2.00 | $ 1,495.00 | Scrum Developer Certified (SDC™) is an entry level certification for Scrum Team members and those who interact with any Scrum Team. The objective of this certification is to ensure that Scrum Team members know enough about Scrum to effectively contribute to a Scrum project. This course will earn you 14 PDUs. This course includes an exam voucher. | https://www.newhorizons.com/course-outline/courseid/200008376 |
| Securing Cloud Deployments with Cisco Technologies (SECCLD) | 4.00 | $ 4,495.00 | The Securing Cloud Deployments with Cisco Technologies (SECCLD) v1.0 course shows you how to implement Cisco® cloud security solutions to secure access to the cloud, workloads in the cloud, and software as a service (SaaS) user accounts, applications, and data. Through expert instruction and hands-on labs, you'll learn a comprehensive set of skills and technologies including: how to use key Cisco cloud security solutions; detect suspicious traffic flows, policy violations, and compromised devices; implement security controls for cloud environments; and implement cloud security management. This course covers usage of Cisco Cloudlock, Cisco Umbrella™, Cisco Cloud Email Security, Cisco Advanced Malware Protection (AMP) for Endpoints, Cisco Stealthwatch® Cloud and Enterprise, Cisco Firepower® NGFW (next-generation firewall), and more. | https://www.newhorizons.com/course-outline/courseid/300010018 |
| Securing Email with Cisco Email Security Appliance (SESA v3.1) | 4.00 | $ 2,750.00 | The Securing Email with Cisco Email Security Appliance (SESA) v3.1 course shows you how to deploy and use Cisco® Email Security Appliance to establish protection for your email systems against phishing, business email compromise, and ransomware, and to help streamline email security policy management. This hands-on course provides you with the knowledge and skills to implement, troubleshoot, and administer Cisco Email Security Appliance, including key capabilities such as advanced malware protection, spam blocking, anti-virus protection, outbreak filtering, encryption, quarantines, and data loss prevention. | https://www.newhorizons.com/course-outline/courseid/300010019 |
| Securing Kubernetes - (CKS) | 5.00 | $ 2,395.00 | This class prepares students for the Certified Kubernetes Security Specialist (CKS) exam. Kubernetes is a Cloud Orchestration Platform providing reliability, replication, and stability while maximizing resource utilization for applications and services. Our Securing Kubernetes course emphasizes the skills and knowledge for securing container-based applications and Kubernetes platforms, during build, deployment and runtime. As a security expert in the DEVOPS world, your role is to observe and track activity. This means you need to understand processes without inserting secure systems or gatekeepers into the process and slowing it down. You must be able to observe rapidly progressing devops processes and pinpoint which container, process, or subsystem causes a security concern. | https://www.newhorizons.com/course-outline/courseid/300201143 |
| Securing the Web with Cisco Web Security Appliance (SWSA v3.0) | 2.00 | $ 1,995.00 | The Securing the Web with Cisco Web Security Appliance (SWSA) v3.0 course shows you how to implement, use, and maintain Cisco® Web Security Appliance (WSA), powered by Cisco Talos, to provide advanced protection for business email and control against web security threats. Through a combination of expert instruction and hands-on practice, you'll learn how to deploy proxy services, use authentication, implement policies to control HTTPS traffic and access, implement use control settings and policies, use the solution's anti-malware features, implement data security and data loss prevention, perform administration of Cisco WSA solution, and more. | https://www.newhorizons.com/course-outline/courseid/300010023 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Security Engineering on AWS | 3.00 | $ 2,025.00 | This course demonstrates how to efficiently use AWS security services to stay secure in the AWS Cloud. The course focuses on the security practices that AWS recommends for enhancing the security of your data and systems in the cloud. The course highlights the security features of AWS key services including compute, storage, networking, and database services. You will also learn how to leverage AWS services and tools for automation, continuous monitoring and logging, and responding to security incidents. | https://www.newhorizons.com/course-outline/courseid/300030004 |
| Security Governance at Scale | 1.00 | $ 675.00 | Security is foundational to AWS. Governance at scale is a new concept for automating cloud governance that can help companies retire manual processes in account management, budget enforcement, and security and compliance. By automating common challenges, companies can scale without inhibiting agility, speed, or innovation. In addition, they can provide decision makers with the visibility, control, and governance necessary to protect sensitive data and systems.  In this course, students will learn how to identify and engage opportunities for governance at scale in new and existing AWS environments. Such solutions will enable developer speed and agility, and incorporate preventive and detective controls. As a result, this model will help students provide the right operational capabilities to achieve proper governance. By the end of this course, students will be able to apply governance best practices to a typical organization's journey and identify opportunities to improve success with AWS. | https://www.newhorizons.com/course-outline/courseid/300090015 |
| Security in Google Cloud Platform | 3.00 | $ 1,995.00 | This course gives participants broad study of security controls and techniques on Google Cloud Platform. Through lectures, demonstrations, and hands-on labs, participants explore and deploy the components of a secure GCP solution. Participants also learn mitigation techniques for attacks at many points in a GCP-based infrastructure, including Distributed Denial-of-Service attacks, phishing attacks, and threats involving content classification and use. | https://www.newhorizons.com/course-outline/courseid/300180026 |
| Selenium WebDriver with Python (Intermediate) | 2.00 | $ 1,195.00 | This course is designed to teach students how to automate web testing using Selenium WebDriver and Python. Throughout the course, students will learn the fundamentals of using Selenium WebDriver with Python, including how to set up their development environment, interact with web pages, and manipulate web elements. The course covers a range of important topics, such as web page navigation, event handling, and effective testing techniques. In addition, students will learn how to debug and troubleshoot common problems that may arise when using Selenium WebDriver. By the end of the course, students will have gained a strong foundation in using Selenium WebDriver with Python to automate web testing tasks and will be well on their way to becoming proficient automation engineers.  Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200929 |
| Serverless Data Processing with Dataflow | 3.00 | $ 1,995.00 | This training is intended for big data practitioners who want to further their understanding of Dataflow in order to advance their data processing applications. Beginning with foundations, this training explains how Apache Beam and Dataflow work together to meet your data processing needs without the risk of vendor lock-in.The section on developing pipelines covers how you convert your business logic into data processing applications that can run on Dataflow. This training culminates with a focus on operations, which reviews the most important lessons for operating a data application on Dataflow, including monitoring, troubleshooting, testing, and reliability. | https://www.newhorizons.com/course-outline/courseid/300180020 |
| SharePoint - Advanced Site Owner (Modern Experience) | 1.00 | $ 495.00 | Microsoft® SharePoint®, in conjunction with the Microsoft 365™ productivity and office automation suite, provides tools to create and manage a corporate intranet, facilitate content sharing and collaboration, and enable users to create, access, store, and track documents and data in a central location.  Users who already have experience as SharePoint site members and owners may be ready to move on to more advanced site-building tasks such as using custom site templates, custom themes, applying advanced permissions settings, improving security, and preparing sites to support governance and compliance.  Advanced site builders may be ready to undertake more advanced site management tasks, working in conjunction with their SharePoint Administrator to create and use custom site templates, term sets and metadata, manage information governance and compliance, and get deeper into SharePoint security configuration. This course focuses on these advanced site-building and administration tasks. | https://www.newhorizons.com/course-outline/courseid/200012757 |
| SharePoint - Site Basics (Modern Experience) | 1.00 | $ 495.00 | In many professional environments, people work collaboratively in teams. Information technology and applications facilitate this by enabling people to easily share, access, edit, and save information. Microsoft® SharePoint® is a platform specifically designed to facilitate communication and collaboration, enabling people to use familiar applications and web-based tools to create, access, store, and track documents and data in a central location. In this course, you will use SharePoint to access, store, share, and collaborate with information and documents. | https://www.newhorizons.com/course-outline/courseid/300200942 |
| SharePoint - Site Owner with Power Platform (Modern Experience) | 1.00 | $ 495.00 | Microsoft® SharePoint®, in conjunction with the Microsoft 365 suite of productivity and office automation tools, provides tools to create and manage a corporate intranet, facilitate content sharing and collaboration, and enable users to create, access, store, and track documents and data in a central location. By default, SharePoint provides end users with a generous set of permissions, enabling users to create and customize their own sites as site owners, and create and collaborate on team site content. Users who have grown comfortable with these fundamental content-authoring capabilities may want to move on to more advanced features, such as connecting multiple SharePoint sites through a hub, importing list data from external sources, implementing user input validation features, applying conditional formatting, and using Power Apps® to provide custom user interfaces for data collected in SharePoint. This course focuses on issues related to planning and implementing an intranet with multiple communication sites and team sites interconnected through a hub site to provide unified navigation search, and formatting. | https://www.newhorizons.com/course-outline/courseid/300200941 |
| SHRM Essentials of HR Management | 2.00 | $ 1,390.00 | Gain the critical knowledge necessary to help reduce costs, avoid potential lawsuits, and improve your ability to handle challenging HR issues. This program is ideal if you are just starting out in the HR profession. | https://www.newhorizons.com/course-outline/courseid/200009481 |
| SHRM-CP/SHRM-SCP Certification Preparation | 5.00 | $ 3,495.00 | Earning your SHRM Certified Professional (SHRM-CP) or SHRM Senior Certified Professional (SHRM-SCP) credential makes you a recognized expert and leader in the HR field and a valuable asset to your organization, keeping you and your organization more competitive in today's economy. This professional distinction sets you apart from your colleagues, proving your high level of knowledge and skills. Students will be able to identify areas of strength and build on them. They will also see where they will need further concentrated study in preparation for their exam. | https://www.newhorizons.com/course-outline/courseid/200009482 |
| Software Testing Workshop | 2.00 | $ 1,195.00 | All too often the software products delivered to the business do not meet their expectations, especially with regard to the quality of the product. An effective testing process addresses this issue by confirming the functionality and performance of the product prior to its release to the business.  This two day class looks at the business issues which drive the need for a fully functional testing process and describes the components of such a process. It is designed to help the testers develop an understanding of their role, the process, and the deliverables associated with testing. (BA39) | https://www.newhorizons.com/course-outline/courseid/300200275 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| SolidWorks Advanced Part & Assembly Modeling | 5.00 | $ 2,500.00 | Assembly Modeling teaches you how to maximize your use of the assembly modeling capabilities of SOLIDWORKS mechanical design automation software. Advanced Part Modeling teaches you how to use multi-body solids, sweeping and lofting features, and the more advanced shaping capabilities of SOLIDWORKS. | https://www.newhorizons.com/course-outline/courseid/300200888 |
| SolidWorks Essentials | 5.00 | $ 2,000.00 | SOLIDWORKS Essentials teaches you how to use the SOLIDWORKS mechanical design automation software to build parametric models of parts and assemblies and make drawings of those parts and assemblies. | https://www.newhorizons.com/course-outline/courseid/300200887 |
| SolidWorks Sheet Metal & Weldments | 3.00 | $ 1,500.00 | Sheet Metal teaches you how to build sheet metal parts using SOLIDWORKS mechanical design automation software. Building standalone sheet metal parts, and converting conventional parts to sheet metal, including in the assembly context, are covered. Weldments teaches you how to create welded structures with standard structural members. Weld beads are also covered. | https://www.newhorizons.com/course-outline/courseid/300200891 |
| SolidWorks Simulation | 3.00 | $ 1,500.00 | The course is designed to make SOLIDWORKS users productive more quickly with SOLIDWORKS Simulation Bundle. This course will provide in-depth coverage of the basics of Finite Element Analysis (FEA), covering the entire analysis process from meshing to evaluation of results for parts and assemblies. The class discusses linear stress analysis, gap/contact analysis, and best practices. | https://www.newhorizons.com/course-outline/courseid/300200889 |
| Splunk Enterprise Data Administration (SEDA) | 3.00 | $ 2,250.00 | The course provides the fundamental knowledge of Splunk forwarders and methods to get remote data into Splunk indexers. It covers installation, configuration, management, monitoring, and troubleshooting of Splunk forwarders and Splunk Deployment Server components. | https://www.newhorizons.com/course-outline/courseid/300180034 |
| Splunk Enterprise System Administration (SESA) | 2.00 | $ 1,500.00 | The course provides the fundamental knowledge of Splunk license manager, indexers and search heads. It covers configuration, management, and monitoring core Splunk Enterprise components. | https://www.newhorizons.com/course-outline/courseid/300180033 |
| SQL Querying Fundamentals - Part 1 | 1.00 | $ 695.00 | In this course, students will compose SQL queries to retrieve desired information from a database. | https://www.newhorizons.com/course-outline/courseid/200001492 |
| SQL Querying Fundamentals - Part 2 | 1.00 | $ 695.00 | In this course, students will work with advanced queries to manipulate and index tables. Students will also create transactions so that you can choose to save or cancel data entry process. | https://www.newhorizons.com/course-outline/courseid/200001493 |
| Statistical Analysis Using IBM SPSS Statistics (V26) | 2.00 | $ 1,775.00 | This course provides an application-oriented introduction to the statistical component of IBM SPSS Statistics. Students will review several statistical techniques and discuss situations in which they would use each technique, how to set up the analysis, and how to interpret the results. This includes a broad range of techniques for exploring and summarizing data, as well as investigating and testing relationships. Students will gain an understanding of when and why to use these various techniques and how to apply them with confidence, interpret their output, and graphically display the results. | https://www.newhorizons.com/course-outline/courseid/300030057 |
| Strategic Business Analysis | 2.00 | $ 1,395.00 | Strategy analysis identifies the business needs (problem or opportunities) of tactical or strategic importance to the organization and supports the organization in responding to those needs. It provides the focus upon which all other business analyst efforts must align. Shortcutting strategy analysis often results in delivering solutions that are misaligned to the organization's strategy and to the expectations and needs of the business. This course will help you understand the criticality of defining the business need correctly and pursuing a thorough analysis of the internal and external environments of the enterprise before assisting the organization in selecting the best solution. You will also learn the key activities needed in strategy analysis, the key components in building and communicating a strong business case and how to evaluate the value of the solution once it is implemented. To help assimilate the tools and techniques learned, there is a mixture of individual and team exercises throughout the course. Students will need to be prepared for a high level of participation. Each participant will receive a comprehensive student guide complete with examples, handouts and a business case template that can be used back on the job. Note: This course has been approved by PMI for 14 PDUs and IIBA for 14 CDUs. | https://www.newhorizons.com/course-outline/courseid/200004234 |
| Strategic Negotiation Skills | 2.00 | $ 1,495.00 | Students will learn the essential strategies and techniques needed to guide negotiations from opening discussions through to a positive result. Students will leave with practical solutions to negotiating effectively. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201080 |
| Strategic Risk Management | 1.00 | $ 795.00 | Project risks left unidentified and unmanaged, can derail organizational performance. Project managers and project participants need to be proficient at identifying and managing risks on their projects. This course is designed to teach you hands-on approaches to identifying and managing risks. Note: This course has been approved by PMI for 8 PDUs. | https://www.newhorizons.com/course-outline/courseid/300200720 |
| Streamlining Your Daily Workflow | 1.00 | $ 795.00 | This course is for those interested in improving their daily productivity and finding ways to get more done without requiring more time. The focus is on finding more efficient and effective methods that require minimum disruption and provide maximum return. Students will explore alternatives to their current processes and discover options that they can utilize immediately. | https://www.newhorizons.com/course-outline/courseid/300201306 |
| Supervising Others | 1.00 | $ 395.00 | In this course, students will develop the skills required to be more efficient and proficient supervisors. | https://www.newhorizons.com/course-outline/courseid/200009320 |
| SUSE Kubernetes Administration | 2.00 | $ 1,600.00 | This course is designed for system administrators, DevOps, system engineers and others who need an introduction to containers and Kubernetes. The course begins with an introduction to containers and container orchestration. Students will then learn about and explore Kubernetes, including launching applications, configuring networking, storage and security, and using Helm to deploy applications. The course includes comprehensive presentation content to introduce new concepts and processes and extensive hands-on experience. | https://www.newhorizons.com/course-outline/courseid/300201144 |
| SUSE Linux Enterprise 15 High Availability Deployment | 3.00 | $ 2,400.00 | This course teaches students to deploy and configure the SUSE Linux Enterprise (SLE) 15 High Availability (HA) product to be ready to deploy workloads. The course introduces the product features and implementation planning for both on premise and public cloud implementations. A SLE15 HA cluster is deployed and then configured to provide corosync network redundancy. Next the fencing configuration is updated which includes adding a quorum arbitrator system. The cluster configuration is then tested before an additional node is added to the existing cluster. This course prepares students for the SCDS in SUSE Linux Enterprise High Availability exam. | https://www.newhorizons.com/course-outline/courseid/300201145 |
| SUSE Linux Enterprise 15 High Availability Operations | 4.00 | $ 3,200.00 | This course provides students with the knowledge and skills to effectively administer the SUSE Linux Enterprise High Availability 15 product. Through this course, students will gain an understanding of the product\'s features and a high-level overview of its components. Configuring, testing, and managing clustered applications and storage will be covered in detail. Participants will gain an understanding of the maintenance modes available for cluster upkeep, followed by an exploration of the process for performing rolling software upgrades of both SLES and HA components. This course prepares students for the SCE in SUSE Linux Enterprise 15 High Availability exam. | https://www.newhorizons.com/course-outline/courseid/300201146 |
| SUSE Linux Enterprise Server 15 Administration | 4.00 | $ 3,200.00 | This course is designed for those who are seeking a fundamental understanding of the SUSE Linux Enterprise Server (SLES) operating system. Students will be able to configure a SLES 15 server and integrate it into an existing network. They will be able to perform the most important system administration tasks. This course helps prepare students for the SUSE Certified Administrator (SCA) in Enterprise Linux 15 certification exam. | https://www.newhorizons.com/course-outline/courseid/300201147 |

| | | | | |
|---|---|---|---|---|
| SUSE Linux Enterprise Server 15 Advanced Administration | 4.00 | $ 3,200.00 | The course SUSE Linux Enterprise Server 15 Advanced Administration builds upon the SUSE Linux Enterprise Server 15 Administration course and teaches advanced system administration tasks on SLES 15. Attending students should have a good working knowledge of general system configuration and working with the Linux command line. After attending the course, the student should be capable of administering SLES 15 and be able to deal with specialized networking and storage configuration. They should also have a solid understanding of basic Bash scripting. This course helps prepare students for the SCE in Enterprise Linux 15 certification exam. | https://www.newhorizons.com/course-outline/courseid/300201148 |
| SUSE Linux Enterprise Server 15 Deployment | 3.00 | $ 2,400.00 | This course is designed to present current deployment technologies for those who want to deploy SLES on bare metal systems, in virtual environment or into Public Cloud platforms. Students will learn and perform basic installation using the unified installer along with more advanced deployment using AutoYaST and image-based deployment with images built using the KIWI tool. This course helps prepare for the SCDS in SUSE Linux Enterprise Server 15 exam. | https://www.newhorizons.com/course-outline/courseid/300201149 |
| SUSE Manager 4 Basic Operations | 3.00 | $ 2,400.00 | This course focuses on the types of day-to-day administrative tasks that SUSE Manager makes easy to complete and monitor. Generally, the major topics that are discussed in detail are: Exploring the SUSE Manager (SUMA) Web UI Management Console, Implementing Channel Management, Delegating Management Authority in SUMA, Managing Minions using Salt commands, Performing common administrative activities. This course prepares students for the SUSE Certified Administrator (SCA) in SUSE Manager 4 certification exam. | https://www.newhorizons.com/course-outline/courseid/300201150 |
| SUSE Manager 4 Deployment and Initial Configuration | 3.00 | $ 2,400.00 | This course is intended to teach the student the purpose, features, and benefits of SUSE Manager (SUMA) 4.x. The course will present the architecture of a SUMA System and the requirements for successfully installing these architectural components. You will learn how to deploy and configure these architectural components of a SUSE Manager (SUMA) 4.x system in a step-by-step fashion. Specifically, you will learn to install and configure the SUMA Server, all types of SUMA Proxy Server, and the Salt Minion code for target client servers. This training will enable you to setup a functional SUMA system to begin exploring the myriad of management capabilities SUMA provides for your managed client servers. Regardless of the size of your organization, this course will get you up and running with a fully functional SUSE Manager 4.x system. This course prepares students for the SUSE Certified Deployment Specialist (SCDS) in SUSE Manager 4 certification exam. | https://www.newhorizons.com/course-outline/courseid/300201151 |
| SUSE NeuVector 5 Deployment | 2.00 | $ 1,600.00 | This course provides information about the SUSE NeuVector container security platform, its architecture, and the various deployment methods available. The course covers the various deployment models that are available for SUSE NeuVector, and delves into the specifics of each one, helping learners to make informed decisions about which deployment method is best suited for their specific needs. Please note that this course does not include operations and administration of SUSE NeuVector. This course prepares students for the SUSE Certified Deployment Specialist in SUSE NeuVector 5 exam. | https://www.newhorizons.com/course-outline/courseid/300201152 |
| SUSE NeuVector 5.x Operations | 3.00 | $ 2,400.00 | This course covers the fundamentals of container security and how to utilize SUSE NeuVector to monitor and secure the containerized applications and related services in multi-cluster environments. This course prepares students for the SUSE Certified Administrator in SUSE NeuVector 5 exam. | https://www.newhorizons.com/course-outline/courseid/300201153 |
| SUSE Rancher Kubernetes Engine 2 Deployment | 2.00 | $ 1,600.00 | This course covers the deployment of Rancher Kubernetes Engine 2 (RKE2). You will start by learning the basics of installing RKE2, and then progress to installing a highly available RKE2 cluster. Next, you will delve into installing additional clusters with different configurations, Including custom Kubernetes Addons as an auto deployed service, advanced networking such as the Multus CNI plugin, and CIS hardening. Additionally, you will learn how to install a cluster in an air-gapped environment. After performing the different cluster installations, you will backup and restore an RKE2 cluster. Finally, you will learn how to upgrade both standard and air-gapped RKE2 clusters. This course will help prepare for the SCDS in Rancher Kubernetes Engine 2 exam. | https://www.newhorizons.com/course-outline/courseid/300201154 |
| SUSE Rancher Manager 2.7 for Rancher Prime Deployment | 2.00 | $ 1,600.00 | This course covers deploying and administering Rancher Manager for Rancher Prime in existing Kubernetes clusters. The course begins with an introduction to Rancher Manager, what is required for a deployment, different deployment strategies, and best practices for deployment. The next sections provide an understanding of deploying Rancher Manager in three different ways, using self-signed certificates, Let's Encrypt and signed certificates, depending on your specific needs. Deployment in an air-gapped environment is also covered. Students are taught how to back up and restore Rancher Manager, migrate it to a new cluster, and how to upgrade it from a previous version to the current one.   This course will help prepare for the SUSE Certified Deployment Specialist (SCDS) in Rancher Manager 2.7 for Rancher Prime certification exam. | https://www.newhorizons.com/course-outline/courseid/300201155 |
| SUSE Rancher Manager 2.7 for Rancher Prime Operations | 3.00 | $ 2,400.00 | This course is designed for system administrators responsible for deploying and administering multiple Kubernetes cluster distributions with Rancher Manager for Rancher Prime. It begins with an introduction to Rancher Manager and its architecture. Students will then learn how to access Rancher Manager using a web browser. During the course an existing RKE2 Kubernetes cluster will be registered and a new RKE cluster will be provisioned with Rancher Manager and Kubernetes cluster administrative activities will be introduced. It also covers Kubernetes cluster management and hosted Kubernetes providers' deployments in the public cloud. This course prepares students for the SCA in Rancher Manager 2.7 for Rancher Prime exam. | https://www.newhorizons.com/course-outline/courseid/300201156 |
| SUSE Using SLES for SAP Applications 15 to Provide High Availability for S/4HANA and Netweaver | 3.00 | $ 2,400.00 | This course is designed to enable you to deploy the SAP Enqueue Replication Server with High Availability using SLES for SAP Applications. The course uses SUSE best practices leading to a deployment that complies with the SAP certification NW-HA-CLU 7.40 for ENSA1 and S/4-HA-CLU 1.0 for ENSA2. First the Enqueue Server is introduced along with an architectural overview. Next the environment required for the deployment is explored including the storage requirements for deploying the enqueue server with high availability. The preparation is followed by tuning the systems for the SAP workload, creating and configuring the required cluster resources and integrating the SAP environment with the HA environment using the sap_suse_cluster_connector. Cluster tests are then planned and executed, the cluster monitored and best practice administration tips provided. This course helps prepare students for the SCE in SLES for SAP Applications - Part 1 exam. | https://www.newhorizons.com/course-outline/courseid/300201157 |
| SUSE Using SLES for SAP Applications 15 to Provide High Availability for SAP HANA Scale Up | 2.00 | $ 1,600.00 | This course provides an understanding of the tasks and processes involved in deploying SAP HANA with System Replication in a Scale Up Performance Optimized configuration on SLES for SAP Applications with HA. This course is based on SUSE best practices. The course starts by providing an overview of SAP HANA and using System Replication (SR) to provide high availability for SAP HANA. It then covers the storage and configuration required to successfully deploy SAP HANA SR on SLE High Availability (HA). Next the required cluster resources are configured and tested. The course finishes by discussing administration procedures specific to the configuration then the SLE cluster nodes are tuned specifically to host SAP HANA. This course helps prepare students for the SCE in SLES for SAP Applications - Part 2 exam. | https://www.newhorizons.com/course-outline/courseid/300201158 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Swift Fundamentals - Getting Started with App Development | 4.00 | $ 1,995.00 | Students learn the basics of data, operators, and control flow in Swift, as well as documentation, debugging, Xcode, building and running an app, and Interface Builder. They then apply this knowledge to the guided project, Light, in which they create a simple flashlight app that lets the user tap the screen to toggle its color between black and white. Students will also define their own app idea for a specific audience. | https://www.newhorizons.com/course-outline/courseid/300201247 |
| Swift Fundamentals - Introduction to UIKit | 5.00 | $ 2,495.00 | Students explore Swift strings, functions, structures, collections, and loops. They also learn about UIKit—the system views and controls that make up a user interface—and how to display data using Auto Layout and stack views. | https://www.newhorizons.com/course-outline/courseid/300201248 |
| Swift Fundamentals - Navigation and Workflows | 5.00 | $ 2,495.00 | Students discover how to build simple workflows and navigation hierarchies using navigation controllers, tab bar controllers, and segues. They also examine two powerful tools in Swift: optionals and enumerations. | https://www.newhorizons.com/course-outline/courseid/300201249 |
| System Operator for IBM i | 4.00 | $ 3,865.00 | This introductory course enables a new system operator to develop basic to intermediate level skills needed for day-to-day operations of the Power System with IBM i. Focus is given to using the GUI (IBM i Access Client Solutions and IBM Navigator for i) as well as 5250 emulation sessions to perform tasks including job control, monitoring, sending messages, managing systems devices, and more. Hands-on exercises reinforce the lecture topics and prepare the student to successfully operate a Power System with IBM i. | https://www.newhorizons.com/course-outline/courseid/300030040 |
| Tableau Desktop - Part 1 | 2.00 | $ 1,400.00 | As technology progresses and becomes more interwoven with our businesses and lives, more and more data is collected about business and personal activities. This era of "big data" has exploded due to the rise of cloud computing, which provides an abundance of computational power and storage, allowing organizations of all sorts to capture and store data. Leveraging that data effectively can provide timely insights and competitive advantage. The creation of data-backed visualizations is a key way data scientists, or any professional, can explore, analyze, and report insights and trends from data. Tableau® software is designed for this purpose. Tableau was built to connect to a wide range of data sources and allows users to quickly create visualizations of connected data to gain insights, show trends, and create reports. Tableau's data connection capabilities and visualization features go far beyond those that can be found in spreadsheets, allowing users to create compelling and interactive worksheets, dashboards, and stories that bring data to life and turn data into thoughtful action. | https://www.newhorizons.com/course-outline/courseid/300201013 |
| Tableau Desktop - Part 2 | 2.00 | $ 1,400.00 | The advent of cloud computing and storage has ushered in the era of "big data." With the abundance of computational power and storage, organizations and employees with many different roles and responsibilities can benefit from analyzing data to find timely insights and gain competitive advantage. Data-backed visualizations allow anyone to explore, analyze, and report insights and trends from data. Tableau® software is designed for this purpose. Tableau was built to connect to a wide range of data sources and allows users to quickly create visualizations of connected data to gain insights, show trends, and create reports. Beyond the fundamental capabilities of creating data driven visualizations, Tableau allows users to manipulate data with calculations to show insights, make visualizations interactive, and perform statistical analysis. This gives users the ability to create and share data driven insights with peers, executives, and clients. | https://www.newhorizons.com/course-outline/courseid/300201014 |
| Tableau Desktop I & II: Accelerated | 3.00 | $ 2,100.00 | This unique course combines our popular Desktop I and II courses to ramp you up on Tableau Desktop quickly. You'll learn the foundational concepts of Tableau and also more complex skills that will distinguish you as a power user. Take advantage of the flexible class options below. We have this class available as either full days or spread out over 5 half days. | https://www.newhorizons.com/course-outline/courseid/300120001 |
| Tableau for Data-Driven Decision Makers | 1.00 | $ 695.00 | As data acquisition, access, analysis, and reporting are interwoven with our businesses and lives, more and more data is collected about business and personal activities. This abundance of data and the computing power to analyze it has increased the use of data analysis and data visualization across a broad range of job roles. Decision makers of all types, including managers and executives, must interact with, interpret, and develop reports based on data and analysis provided to them. Tableau® software is designed for data analysis and the creation of visualizations. Data analysts prepare data, perform initial analysis, and create visualizations that are then passed on to business data-driven decision makers. These decision makers can use Tableau's tools to explore the data, perform further analysis to find new insights, make decisions, and create customized reports to share their findings. | https://www.newhorizons.com/course-outline/courseid/300201040 |
| Teamwork and Team Building | 1.00 | $ 395.00 | This workshop will encourage you to explore the different aspects of a team, as well as ways that they can become a top-notch team performer. | https://www.newhorizons.com/course-outline/courseid/200006765 |
| Terraform 101 Infrastructure as Code (IaC) | 3.00 | $ 1,795.00 | As enterprises seek to deploy and maintain increasingly complex cloud infrastructure, there is a necessity to use "Infrastructure as Code" (IaC) tools, like Terraform. An open-source, state management tool developed by HashiCorp, Terraform allows developers to use a common coding interface to work through their various clouds safely and efficiently. Attendees will leave being able to write and understand Terraform code (HCL), have a clear understanding of Terraform's various components and supporting tools, as well as when to reach for Terraform over another IaC tool, such as Ansible. This class prepares you for Terraform Certifcation. | https://www.newhorizons.com/course-outline/courseid/300201181 |
| The Art of Effective Presentations | 2.00 | $ 1,495.00 | Whether speaking publicly or to a specific audience, your ability to build, develop and deliver a purposeful presentation is key to being able to convey your message and achieve your desired results. From open to close, it is crucial to learn the tools necessary to maintain engagement and to organize ideas to create coherent and convincing oral presentations. In this course, you will learn strategies to structure and develop presentation content focused on audience need and key points, identifying the areas in which you are most polished, as well as picking up hints and tips to address any gaps. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201064 |
| The Machine Learning Pipeline on AWS | 4.00 | $ 2,700.00 | Learn how to use the machine learning (ML) pipeline with Amazon SageMaker with hands-on exercises and four days of instruction. You will learn how to frame your business problems as ML problems and use Amazon SageMaker to train, evaluate, tune, and deploy ML models. Hands-on learning is a key component of this course, so you'll choose a project to work on, and then apply the knowledge and skills you learn to your chosen project in each phase of the pipeline. You'll have a choice of projects: fraud detection, recommendation engines, or flight delays. | https://www.newhorizons.com/course-outline/courseid/300030007 |
| Thinking with Critical Insight | 2.00 | $ 1,495.00 | Students will learn to explore challenges, defy incorrect assumptions, and look at things with new and differing perspectives, incorporating these insights into your thought process, and enabling them to find solutions to even the most difficult tasks. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201061 |
| Time Management | 1.00 | $ 395.00 | Time management training most often begins with setting goals. These goals are recorded and may be broken down into a project, an action plan, or a simple task list. Activities are then rated based on urgency and importance, priorities assigned, and deadlines set. This process results in a plan with a task list or calendar of activities. Routine and recurring tasks are often given less focus to free time to work on tasks that contribute to important goals. This entire process is supported by a skill set that should include personal motivation, delegation skills, organization tools, and crisis management. | https://www.newhorizons.com/course-outline/courseid/200006659 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Time Management & Goal Setting | 2.00 | $ 1,150.00 | Time management training most often begins with setting goals and staying focused. The process of planning and controlling how much time to spend on specific activities.  The ability to prioritize tasks to maximize personal efficiency in the workplace and decide which order to tackle tasks and chores to make sure you complete them on schedule.  Effectively using goals and the ability to break down into a project, create an action plan, or a simple task list will improve your ability to manage your time.  Learn to deal with a constant barrage of technology, people, and tasks that can contribute to that disorganization. Many people find that they move from one task to another, trying to get everything done, but often fall short.  You will learn how to make the most of your time by getting a handle on your workflow, workspace, using your planner effectively, and delegating some of your work to other people. | https://www.newhorizons.com/course-outline/courseid/100001005 |
| Time Series Forecasting with Python | 3.00 | $ 1,895.00 | This training is designed to provide students who are familiar with Python both the theory and practical toolkit to perform accurate time series analysis and forecasting. The course content begins with overviews of key python data libraries, including NumPy and Pandas . Afterwards students will learn about the statsmodels library and its powerful built in Time Series Analysis Tools. Including learning about Error-Trend-Seasonality decomposition and basic Holt-Winters methods. Students will then learn about creating AutoCorrelation and Partial AutoCorrelation charts and using them in conjunction with powerful ARIMA based models, including Seasonal ARIMA models and SARIMAX to include Exogenous data points. The course also covers state of the art Deep Learning techniques with Recurrent Neural Networks that use deep learning to forecast future data points. The training ends with Facebook's Prophet library, a simple to use, yet powerful Python library developed to forecast into the future with time series data.   Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. This course includes 6-months access to the full course content in on-demand format to support post-class reference and review. | https://www.newhorizons.com/course-outline/courseid/300200918 |
| Trainer & Facilitator Workshop: Skills for the Modern Classroom | 3.00 | $ 1,485.00 | This course includes multiple techniques for leading classes virtually or in person.  Effective facilitation of group sessions, whether remote or in person, is a key skill for Trainers, Supervisors, and Managers as an expression of their leadership and their ability to focus a group.  This 3-day course covers multiple techniques and provides a solid foundation in facilitation, instruction, interactive learning, and presenting skills. Dedicated to anyone who delivers content to a group regardless of the setting. Attendees will have ample opportunity to prepare, practice and deliver to the group and receive instruction, coaching, and feedback to support their development of outstanding training skills. Upon successful course completion and test teach, you will earn a badge from Credly. | https://www.newhorizons.com/course-outline/courseid/300200885 |
| Transitioning into Leadership for an IT Manager | 3.00 | $ 2,250.00 | From developing an inspiring vision and empowering members to reach it, to meeting deadlines, and evaluating results. This course will teach students the skills and behaviors needed to successfully transition into an IT manager role. Private classes on this topic are available. We can address your organization's issues, time constraints, and save you money, too. Contact us to find out how. | https://www.newhorizons.com/course-outline/courseid/300201081 |
| Troubleshooting Splunk Enterprise (TSE) | 2.00 | $ 1,000.00 | It covers topics and techniques for troubleshooting a standard Splunk distributed deployment using the tools available with Splunk Enterprise.  This lab-oriented class is designed to help you gain troubleshooting experience before attending more advanced courses. You will debug a distributed Splunk Enterprise environment using the live system.  This course does not cover the issues surrounding Splunk Cloud, Splunk Clusters, or Splunk premium apps. | https://www.newhorizons.com/course-outline/courseid/300180036 |
| Troubleshooting VMware vRealize Operations [V8.x] | 2.00 | $ 1,850.00 | This two-day course gives VMware vRealize® Operations™ administrators the skills to perform basic troubleshooting tasks. The course also gives administrators the skills to ensure that their vRealize Operations instance meets its use-case objectives of continuous performance optimization, app-aware intelligent remediation, and integrated compliance.  The hands-on training provides an overview of the tools and processes available to ensure a vRealize Operations deployment is running in a healthy state. | https://www.newhorizons.com/course-outline/courseid/300200966 |
| Understanding Behaviors & Personalities with DISC | 2.00 | $ 1,595.00 | One of DISC's most intriguing applications is leveraging behavioral identification and adaptability. This workshop will guide you on the path of heightened self-awareness and personal discovery. You can make this your cornerstone seminar, revealing your unique behavioral style blend. You will also understand how to apply that knowledge prescriptively to others, based on their style blend; thus boosting communication effectiveness. Studies indicate that 92% of workplace conflict is the result of misunderstanding and communication breakdowns. Your entire organization can apply DISC's prescriptive lessons of behavioral adaptability to reduce employee conflict and turnover, increase productivity, and optimize team performance. | https://www.newhorizons.com/course-outline/courseid/300201089 |
| Understanding Cisco Contact Center Foundations (CCEF) | 1.00 | $ 995.00 | An overview of the Cisco Packaged Contact Center Enterprise and Unified Contact Center Enterprise solutions based on version 12.5. Architectural overviews explore solution components, sizing and deployment considerations, and key functionality and features. The course is intended for a broad audience including Business Decision Makers, Account Managers, Systems Engineers, Administrators, Application Specialists, and Deployment Engineers seeking to understand functional and business applications of the CCE solution. | https://www.newhorizons.com/course-outline/courseid/300070000 |
| Understanding Cisco Cybersecurity Operations Fundamentals (CBROPS) | 5.00 | $ 4,295.00 | The Understanding Cybersecurity Operations Fundamentals (CBROPS) v1.0 course teaches an understanding of the network infrastructure devices, operations, and vulnerabilities of the Transmission Control Protocol/Internet Protocol (TCP/IP) protocol suite. You will learn basic information about security concepts, common network application operations and attacks, the Windows and Linux operating systems, and the types of data used to investigate security incidents. After completing this course, you will have the basic knowledge required to perform the job role of an associate-level cybersecurity analyst in a threat-centric security operations center to strengthen network protocol, protect your devices and increase operational efficiency. This course prepares you for the Cisco Certified CyberOps Associate certification. New – Recommended as preparation for the following exams: 200-201 - CBROPS Understanding Cisco Cybersecurity Operations Fundamentals Please note that this course is a combination of Instructor-Led and Self-Paced Study - 5 days in the classroom and approx. 1 day of self-study. The self-study content will be provided as part of the digital courseware that you will receive at the beginning of the course and should be part of your preparation for the exam. | https://www.newhorizons.com/course-outline/courseid/300010046 |
| Understanding Cisco SDA Fundamentals (SDAFND) | 3.00 | $ 2,600.00 | The Understanding Cisco SDA Fundamentals (SDAFND) course introduces you to Cisco® Software-Defined Access and teaches you, through a combination of lectures and labs, how to implement simple, single-site fabric networks.  You will learn the benefits of leveraging Software-Defined Access in the Cisco-powered Enterprise Campus network. SDAFND will introduce the solution, its architecture and components, and guide you through labs to design and deploy simple Cisco SD-Access networks.  The course qualified for 18 Cisco Continuing Education Credits (CE). | https://www.newhorizons.com/course-outline/courseid/300200937 |

| Course | Days | Price | Description | Link |
|---|---|---|---|---|
| Use Case Modeling Training | 2.00 | $ 1,195.00 | Use cases provide a structured, industry-standard way of eliciting and documenting visibly observable functional requirements from the point of view of the business. The process enhances communication between business analysts and stakeholders and helps the stakeholders articulate their needs in a way other elicitation techniques can't. It also lays the foundation for user interface design and test case development. You will learn where use cases are most effective, a step-by-step method for creating them, and guidelines and tips to enhance them. This course provides the right blend of knowledge and skills for people to understand and model business use cases effectively. | https://www.newhorizons.com/course-outline/courseid/300200871 |
| User Acceptance Testing for Business Analysts | 2.00 | $ 1,395.00 | This course is designed to help the Business Analyst (BA) to develop an understanding of their role, the process, and the deliverables associated with UAT. NOTE: This course will earn you 14 PDUs. | https://www.newhorizons.com/course-outline/courseid/200008082 |
| Using Microsoft Windows 10 | 1.00 | $ 295.00 | In this course, students will learn the features and functionality of the Windows 10 operating system for professional and personal use. | https://www.newhorizons.com/course-outline/courseid/200008028 |
| Using Microsoft® Windows® 11 | 1.00 | $ 295.00 | Whether you're new to computers or have used them in the past, this class will help you become more comfortable using Windows® 11 by familiarizing you with the Windows 11 user interface and its basic capabilities. In this course, you will explore Windows 11 and learn how to work with locally installed apps and cloud-based apps, browse the Internet, and manage basic Windows 11 settings. | https://www.newhorizons.com/course-outline/courseid/100001084 |
| Using Oracle Enterprise Manager Cloud Control 13c | 3.00 | $ 3,600.00 | This Using Oracle Enterprise Manager Cloud Control 13c training teaches you how to use Enterprise Manager Cloud Control to monitor and manage your enterprise-computing environment. You'll learn how to use the Cloud Control framework, the out-of-box capability to manage Oracle targets, individually or in groups with templates, monitor the compliance of targets, use the job system to automate commonly performed tasks, view and compare configurations and create and use predefined and customized reports. Learn To: Navigate and monitor the overall health of your Cloud Control system, Organize targets and groups, Setup targets monitoring, alerts and notifications; Use the job system to create and manage jobs to automate commonly performed tasks, View, search and compare configurations; Explain provisioning and manage targets patching, Use compliance policies and evaluate policy violations, Use BI Publisher to generate custom reports. | https://www.newhorizons.com/course-outline/courseid/300170021 |
| Using Splunk Enterprise Security (USES) | 3.00 | $ 1,500.00 | This course prepares security practitioners to use Splunk Enterprise Security (ES). Students identify and track incidents, analyze security risks, use predictive analytics, and discover threats. | https://www.newhorizons.com/course-outline/courseid/300180035 |
| VBA with Microsoft Excel | 1.00 | $ 655.00 | VBA (Visual Basic for Applications) enables you to enhance and extend the capabilities of Microsoft Excel and other applications in the Microsoft 365 application suite. You can use VBA to perform tasks that would be difficult or impossible to do using only worksheet functions, and you can automate a wide range of tasks so they can be performed faster, more consistently, and with less effort than performing them manually. This course will give you a good foundation for understanding, creating, and using VBA in your own Excel workbooks. You will learn how to use the macro recorder effectively, as well as how to write your own VBA code from scratch. You will use tools built into Excel to explore and learn VBA's capabilities and to optimize and debug your code. | https://www.newhorizons.com/course-outline/courseid/300201037 |
| Veeam Backup & Replication Architecture and Design (VMCA v11-12) | 2.00 | $ 2,000.00 | The two-day, Veeam Backup & Replication v11/v12: Architecture and Design training course, is focused on teaching IT professionals how to effectively architect a Veeam solution through attaining technical excellence following the Veeam Architecture Methodology used by Veeam's own Solution Architects. During the two days, attendees will explore the goals of requirement gathering and infrastructure assessment, and use that information to design Veeam solutions within team exercises. Attendees will analyze considerations when turning logical designs into physical designs and describe the obligations to the implementation team that will implement that design. Other topics covered will include security, governance and validation impacts when architecting a Veeam solution and how to build these into the overall design. Attendees should expect to contribute to team exercises, present designs and defend decision making. | https://www.newhorizons.com/course-outline/courseid/300201187 |
| Veeam Backup & Replication v12: Configure, Manage and Recover (VMCE-12) | 3.00 | $ 3,000.00 | The Veeam® Backup & Replication™ v12: Configure, Manage and Recover training course is a three-day technical course focused on teaching IT professionals the skills to configure, manage and support a Veeam Backup & Replication v12 solution. With extensive hands-on labs, the class enables administrators and engineers to effectively protect and manage data in an ever-changing technical and business environment, bringing tangible benefit to business in the digital world. This course is based on Veeam Backup & Replication v12, part of Veeam Data Platform. | https://www.newhorizons.com/course-outline/courseid/300201025 |
| Veritas InfoScale Storage 8.0 for UNIX/Linux: Administration | 5.00 | $ 4,500.00 | The Veritas InfoScale Storage 8.0 for UNIX/Linux: Administration course is designed for IT professionals tasked with installing, configuring, and maintaining Veritas InfoScale Storage environments, including Volume Manager (VxVM), File System (VxFS), Cluster File System (CFS), and InfoScale for Cloud environments. This course covers how to use InfoScale Storage to manage disks, disk groups, and volumes using a variety of InfoScale Storage user interfaces, including the Veritas InfoScale Operations Manager (VIOM) Web console. It also discussed the basics of online file system administration and recovery from disk failures. In addition, the course covers data replication using Veritas File Replicator and Veritas Volume Replicator. The course also describes how to configure Veritas Cluster Volume Manager and Veritas Cluster File System and support for cloud environments. | https://www.newhorizons.com/course-outline/courseid/300201302 |
| Veritas NetBackup 10.0 Administration | 5.00 | $ 4,500.00 | Acquire the skills to make your data protection strategy successful with the Veritas NetBackup 10.0: Administration course. You will learn the general principles, configuration, and management of NetBackup, including how to best utilize the NetBackup tools and interfaces, effectively monitor backup and restore operations, and ensure that the data recovery objectives are met. | https://www.newhorizons.com/course-outline/courseid/300201299 |
| Veritas NetBackup 10.0: Advanced Administration | 5.00 | $ 4,500.00 | Acquire the skills to make your data protection strategy successful with the Veritas NetBackup 10.0: Advanced Administration course. You will learn advanced NetBackup topics, including NetBackup performance, security, disaster recovery, application, and database protection on physical and virtual machines, and protecting data backed up to and from the cloud. This course also covers using NetBackup to manage Oracle, Microsoft Exchange, Microsoft SQL, Microsoft SharePoint, Cassandra, and Hadoop backups and restores along with other modern workloads like containerized applications, and Nutanix Acropolis Hypervisor. NetBackup APIs, Parallel Streaming Framework, Universal Shares, Bare Metal Restore, and NetBackup MSDP Cloud are also discussed in this course. | https://www.newhorizons.com/course-outline/courseid/300201300 |
| Veritas NetBackup 10.x: Maintenance and Troubleshooting | 5.00 | $ 4,500.00 | The NetBackup 10.x: Maintenance and Troubleshooting course provides IT professionals with instructions on troubleshooting Veritas NetBackup software. This course covers general error detection tools and troubleshooting methodologies. It enables students to learn how to resolve issues related to the NetBackup database, devices, media, disk, cloud, OST, deduplication, and virtualization. In addition, students study the functions of key NetBackup processes and learn how to enable, view, and manage the associated logs. | https://www.newhorizons.com/course-outline/courseid/300201301 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| Virtual Delivery for Educators | .50 | $ 149.00 | This course is designed to enhance your skills in facilitating classes in a virtual environment. You will gain the skills needed to engage students and effectively use technology within your organization or classroom. Based on the client's needs, we can focus specifically on their virtual platform. | https://www.newhorizons.com/course-outline/courseid/100001001 |
| Visio - Part 1 | 1.00 | $ 395.00 | From the earliest eras of human existence, visual images have been used to represent knowledge, data, and information. Beginning with the Paleolithic cave paintings and continuing to today's most complex computer networks, these images leverage the ability of the human brain to rapidly perceive patterns and trends from visual representations. In today's workplace, visual diagrams are an essential part of communication, from road maps to sales flows to process charts. Microsoft® Visio® provides you with an intuitive, customizable tool to easily create a professional-looking visual product by using its extensive gallery of shapes. By following the exercises in this course, you will create visually engaging diagrams, maps, and drawings, using graphical elements to make information easier to comprehend. | https://www.newhorizons.com/course-outline/courseid/100001108 |
| Visio - Part 2 | 1.00 | $ 395.00 | Microsoft® Visio® stands out among similar applications because of its unique ability to draw a wide variety of diagrams, flowcharts, workflows, and organization structures—anything that can be represented by shapes connected by lines. Most importantly, these shapes can be rearranged and with corresponding lines remaining intact. Visio has improved over the years as features common among Microsoft® Office applications have been added. Today, Visio is well integrated with other members of the Office family as well as Microsoft's cloud-based services. This greatly enriches the sharing and publishing of Visio drawings. In Microsoft Visio - Part 1, you learned the basic skills needed to create and modify various Visio drawings. In Microsoft Visio - Part 2, you will learn about more advanced features—making you a more efficient and effective Visio user. | https://www.newhorizons.com/course-outline/courseid/100001109 |
| VMware App Volumes and Dynamic Environment Manager | 3.00 | $ 2,550.00 | This three-day course builds your skills in application management using VMware App Volumes™ and VMware Dynamic Environment Manager™. You will learn how to use App Volumes to deliver applications and data to desktops and users in seconds and at scale. You will gain skills in managing application lifecycles from installation to update and replacement. You will also learn how to use Dynamic Environment Manager to provide personalization and dynamic policy configuration across virtual, physical, and cloud-based environments to simplify end-user profile management. Product Alignment App Volumes 4 Dynamic Environment Manager 9.10 Objectives: By the end of the course, you should be able to meet the following objectives: Describe the features and functions of App Volumes and Dynamic Environment Manager Demonstrate the architectures of App Volumes and Dynamic Environment Manager Install and configure App Volumes Create and deploy Application Packages and writable volumes Install and configure Dynamic Environment Manager Manage application configurations, user environment settings, and personalization settings | https://www.newhorizons.com/course-outline/courseid/300130013 |
| VMware Aria Automation: Advanced Topics [V8.14] | 4.00 | $ 3,700.00 | This four-day course is a follow-on to the VMware Aria Automation: Install, Configure, Manage course. During this course, you will take a deeper dive into advanced topics using features of VMware Aria Automation such as deploying user systems and interfacing Aria Automation with other platforms. You will also learn how to deploy a cluster environment using VMware Aria Suite Lifecycle and interface with, and use, vSphere with Tanzu Kubernetes. This course makes heavy use of hands-on labs. | https://www.newhorizons.com/course-outline/courseid/300201190 |
| VMware Aria Automation: Install, Configure, Manage [V8.10] | 5.00 | $ 4,250.00 | During this five-day course, you focus on installing, configuring, and managing VMware Aria Automation 8.10™ on-premises systems. You learn how it can be used to automate the delivery of virtual machines, applications, and personalized IT services across different data centers and hybrid cloud environments. The course covers how VMware Aria Automation Consumption™ can aggregate content in native formats from multiple clouds and platforms into a common catalog. This course also covers interfacing VMware Aria Automation with other systems using VMware Aria Orchestrator and how to use VMware Aria Automation to manage Kubernetes systems and leverage other systems. In this course, you will use VMware Aria Automation Config™ as a configuration management tool. | https://www.newhorizons.com/course-outline/courseid/300200967 |
| VMware Aria Operations for Logs: Install, Configure, Manage [V8.12] | 3.00 | $ 2,550.00 | This three-day course features hands-on training that focuses on deploying, configuring, and managing VMware Aria Operations™ for Logs 8.12. You will learn the UI enhancements, features, architecture, use cases, and benefits of VMware Aria Operations for Logs. This course provides you with the knowledge and skills to use VMware Aria Operations for Logs 8.12 to monitor your environment. | https://www.newhorizons.com/course-outline/courseid/300201095 |
| VMware Aria Operations for Networks: Install, Configure, and Manage [v6.8] | 2.00 | $ 1,700.00 | This two-day, hands-on course gives you the skills to deploy and use VMware Aria Operations™ for Networks to ensure an optimized, highly available, and secure infrastructure for your applications. You will learn the features, components, architecture, and benefits of VMware Aria Operations for Networks and how to use it to simplify daily operation and troubleshooting tasks. | https://www.newhorizons.com/course-outline/courseid/300201096 |
| Vmware Aria Suite Lifecycle: Install, Configure, Manage [V8.10] | 2.00 | $ 1,700.00 | This two-day, hands-on training course focuses on installing, configuring, and managing VMware Aria Suite Lifecycle™, which manages products such as VMware Aria Operations™, VMware Aria Operations™ for Logs, and VMware Aria Automation™. This course prepares you to perform Day 0 to Day 2 operations for your environment using VMware Aria Suite Lifecycle. | https://www.newhorizons.com/course-outline/courseid/300201097 |
| VMware Cloud Director: Advanced Networking with NSX-T Data Center [V10.2] | 5.00 | $ 4,625.00 | In this five-day course, you focus on deploying, configuring, integrating, designing, and managing VMware Cloud Director™ 10.x network objects with VMware NSX-T™M Data Center. This course also focuses on designing, integrating, configuring, and managing VMware Cloud Director™ 10.x with VMware NSX® Advanced Load Balancer™. This course also focuses on the VMware Cloud Director Migration tool, using which the system administrator can perform the actual migration by migrating the workload and networks of the organization VDC supported by VMware NSX® Data Center for vSphere® to the organization VDC supported by NSX-T Data Center in the same organization. This course also showcases how to monitor VMware Cloud Director networking objects using VMware vRealize® Operations™ and VMware vRealize® Operations Tenant App. | https://www.newhorizons.com/course-outline/courseid/300201098 |
| VMware Cloud Director: Advanced Workshop [V10.2] | 5.00 | $ 4,625.00 | This five-day, hands-on training course provides you with the advanced knowledge, skills, and tools to design and utilize a cloud solution based on VMware Cloud Director™. Besides learning about an advanced cloud architecture, you learn about the integration of VMware Cloud Director with the products VMware Cloud Director Availability™, VMware vRealize® Orchestrator™, VMware vRealize® Operations™ (including the Tenant App), VMware NSX-T® Data Center and VMware NSX® Advanced Load Balancer™ (Avi Networks). This course covers the migration from VMware NSX® for vSphere® (NSX-V) to VMware NSX-T® Data Center in a VMware Cloud Director environment. You learn about how the NSX Advanced Load Balancer can be used and integrated in a service provider environment and how to configure the load balancing services using VMware NSX-T Data Center. Besides the advanced know-how of the vRealize Operations Tenant App and Cloud Availability, the course also discusses the extensibility and orchestration of workflows in Cloud Director. For all the topics covered in the class, intensive hands-on labs will be taken by the students to provide proper insights into all the products. | https://www.newhorizons.com/course-outline/courseid/300201099 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| VMware Cloud Director: Deploy, Configure, Manage [V10.5] | 5.00 | $ 4,250.00 | In this five-day course, you focus on installing, configuring, and managing on-premises VMware Cloud Director 10.5.1. You will learn how to set up and manage VMware Cloud Director, including the provisioning of workloads, creating organizations and Virtual Data Centers (VDCs), and use catalog services that include predefined virtual machines. You will learn about different networks that a system administrator and an organization administrator can configure and use with virtual machines and vApps. | https://www.newhorizons.com/course-outline/courseid/300201189 |
| VMware Cloud Director: Install, Configure, Manage [V10.4] | 5.00 | $ 4,250.00 | This five-day course provides comprehensive training to install, configure, and manage an on-premises VMware Cloud Director environment. This course covers key features and functionality offered in the VMware Cloud Director 10.4.0 and VMware Cloud Director 10.4.1. You will learn about workload provisioning, the creation of organizations, virtual data centers (VDCs), and catalog services that include predefined virtual machines. You will learn about different networks that a system administrator and an organization administrator can configure and use with virtual machines and vApps. | https://www.newhorizons.com/course-outline/courseid/300200970 |
| VMware Cloud Foundation: Deploy, Configure, Manage [V5.0] | 5.00 | $ 4,250.00 | This five-day course includes instruction on the capabilities of VMware Cloud Foundation™ and how to successfully plan, deploy, manage, and operate hybrid and cloud infrastructures, including customization. The course explains the architecture of VMware Cloud Foundation and explains licensing, certificates, and storage and network management. The course also covers workload domains, availability, life cycle management, and troubleshooting. | https://www.newhorizons.com/course-outline/courseid/300201100 |
| VMware Cloud on AWS: Design, Configure, Manage 2023 | 4.00 | $ 3,700.00 | This four-day, hands-on training course provides you with the knowledge, skills, and tools for deploying and managing a VMware Cloud™ on AWS infrastructure. You will explore the common use cases of the VMware Cloud on AWS infrastructure that allows you to modernize, protect, and scale applications based on VMware vSphere® that leverages Amazon Web Services (AWS). In this course, you are introduced to various rapid and easy migration options for moving workloads based on vSphere from on-prem to VMware Cloud on AWS. In addition, you are presented with VMware Cloud Disaster Recovery™, which is a Disaster Recovery as-a-service (DRaaS) solution. This solution provides fast recovery capabilities that can be used to cost-effectively protect a broad set of your virtualized applications. | https://www.newhorizons.com/course-outline/courseid/300201191 |
| VMware Data Center Virtualization: Core Technical Skills | 4.00 | $ 3,400.00 | This four-day, hands-on training course is an introduction to VMware vSphere®. In this course, you acquire the skills needed to perform Day 2 operational tasks that are typically assigned to the roles of operator or junior administrator in a vSphere environment. | https://www.newhorizons.com/course-outline/courseid/300200991 |
| VMware End-User Computing: Design | 5.00 | $ 4,625.00 | This five-day course presents a methodology for designing a VMware end-user computing (EUC) solution. The design methodology includes recommendations for the types of information and data that must be gathered and analyzed to make sound design decisions for the client systems, the desktop options, the VMware vSphere® infrastructure, VMware Horizon®, VMware Horizon® Cloud ServiceTM, VMware Workspace ONE® UEM, VMware Workspace ONE® AccessTM, VMware NSX-TTM, and VMware Unified Access GatewayTM. VMware best practices are presented for each phase of the design process. In this course, you apply your new knowledge by working with other participants to design a VMware EUC solution for a real-world project. | https://www.newhorizons.com/course-outline/courseid/300201188 |
| VMware HCX: Deploy, Configure, Manage | 3.00 | $ 2,550.00 | This three-day training course provides you with the knowledge, skills, and abilities to achieve competence with VMware HCX. This course teaches you how to deploy the different architectural components of HCX, and perform the tasks required to migrate and rebalance workloads across data centers and clouds. | https://www.newhorizons.com/course-outline/courseid/300201101 |
| VMware Horizon 8: Infrastructure Administration and Troubleshooting | 5.00 | $ 4,250.00 | VMware Horizon 8: Infrastructure Administrator and Troubleshooting is a five-day combination course of VMware Horizon 8: Infrastructure Administration & VMware Horizon 8: Infrastructure Troubleshooting. This training collection gives you the skills to install and configure a virtual desktop infrastructure platform. This course builds your skills in installing and configuring VMware Horizon® through a combination of lecture and hands-on labs. You learn how to install and configure VMware Horizon® Connection Server™, VMware Unified Access Gateway™, how to configure a load balancer for use with Horizon, and how to establish Cloud Pod Architecture. Also, this course provides you with the advanced knowledge, skills, and abilities to troubleshoot VMware Horizon 8 infrastructure. This workshop teaches the required skill and competence for troubleshooting Horizon Connection Server, Unified Access Gateway, protocols, connections, and certificates. This course provides a challenge lab designed to present participants with infrastructure issues that may arise in actual Horizon environments. The lab objective is to put into practice the contents covered during the training to create a working environment. | https://www.newhorizons.com/course-outline/courseid/300200972 |
| VMware Horizon 8: Troubleshooting Bootcamp | 5.00 | $ 4,625.00 | VMware Horizon 8: Troubleshooting Bootcamp is a five-day combination course of VMware Horizon 8: Virtual Desktop Troubleshooting & VMware Horizon 8: Infrastructure Troubleshooting. This training collection gives you the hands-on skills in resolving common issues that occur in a VMware Horizon® environment. You will engage in a series of lab exercises to bring existing environment issues to resolution. The exercises mirror real-world troubleshooting use cases. These exercises equip learners with the knowledge and practical skills to manage typical challenges faced by Tier 1 virtual desktop administrators and operators, as well as advanced knowledge, skills, and abilities to troubleshoot VMware Horizon 8 infrastructure. This workshop teaches the required skill and competence for troubleshooting Horizon Connection Server, Unified Access Gateway, protocols, connections, and certificates. VMware Horizon 8 Troubleshooting bootcamp provides two challenge labs designed to present participants with virtual desktops and infrastructure issues that may arise in actual Horizon environments. The lab objective is to put into practice the contents covered during the training to create a working environment. | https://www.newhorizons.com/course-outline/courseid/300200993 |
| VMware Horizon 8: Virtual Desktop Bootcamp | 5.00 | $ 4,250.00 | VMware Horizon® 8: Virtual Desktop Bootcamp is a five-day combination course of VMware Horizon 8: Skills for Virtual Desktop Management and VMware Horizon 8: Virtual Desktop Troubleshooting. This training combination gives you the skills to deliver virtual desktops and applications through a single virtual desktop infrastructure platform. You build skills in configuring and managing VMware Horizon 8 through a combination of lecture and hands-on labs. You learn how to configure and deploy pools of virtual machines and how to provide a customized desktop environment to end-users. Additionally, you learn how to resolve common issues that occur in a VMware Horizon environment. You engage in a series of lab exercises to bring existing environment issues to resolution. The exercises mirror real-world troubleshooting use cases. These exercises equip learners with the knowledge and practical skills to manage typical challenges faced by virtual desktop administrators and operators. | https://www.newhorizons.com/course-outline/courseid/300130022 |
| VMware Horizon 8: Virtual Desktop Troubleshooting | 2.00 | $ 1,850.00 | This two-day course builds your skills in resolving common issues that occur in a VMware Horizon® environment. You will engage in a series of lab exercises to bring existing environment issues to resolution. The exercises mirror real-world troubleshooting use cases. These exercises equip learners with the knowledge and practical skills to manage typical challenges faced by Tier 1 virtual desktop administrators and operators. This course also provides a challenge lab designed to present participants with virtual desktops issues that may arise in actual Horizon environments. The lab objective is to put into practice the contents covered during the training to create a working environment. | https://www.newhorizons.com/course-outline/courseid/300200994 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| VMware Horizon Cloud Services Next Gen on Microsoft Azure: Deploy and Manage | 5.00 | $ 4,250.00 | This five-day, hands-on training provides you with the knowledge, skills, and abilities to successfully deploy and manage VMware Horizon® Cloud Service™ on Microsoft Azure. This training also teaches you how to use the VMware Horizon Cloud administration console and Microsoft Azure portal. Through a combination of hands-on labs and interactive lectures, you learn how to import and manage images for single- and multisession assignments. You also learn how to configure and use the Universal Broker function, VMware App Volumes™, VMware Workspace ONE® Access™, and VMware Dynamic Environment Manager™ in the Horizon Cloud Service on Microsoft Azure deployment. | https://www.newhorizons.com/course-outline/courseid/300200973 |
| VMware Horizon: Deploy and Manage [V8.8] | 5.00 | $ 4,250.00 | This five-day course gives you the hands-on skills to deliver virtual desktops and applications through a single virtual desktop infrastructure platform. You build on your skills in configuring and managing VMware Horizon® 8 through a combination of lecture and hands-on labs. You learn how to configure and deploy pools of virtual machines and how to provide a customized desktop environment to end-users. Additionally, you learn how to install and configure a virtual desktop infrastructure platform. You learn how to install and configure VMware Horizon® Connection Server™, VMware Unified Access Gateway™, how to configure a load balancer for use with Horizon, and how to establish Cloud Pod Architecture. | https://www.newhorizons.com/course-outline/courseid/300200996 |
| VMware Kubernetes Fundamentals and Cluster Operations | 4.00 | $ 3,400.00 | This four-day course is the first step in learning about Containers and Kubernetes Fundamentals and Cluster Operations. Through a series of lectures and lab exercises, the fundamental concepts of containers and Kubernetes are presented and put to practice by containerizing and deploying a two-tier application into Kubernetes. | https://www.newhorizons.com/course-outline/courseid/300201103 |
| VMware NSX for Intrinsic Security [V4.x] | 5.00 | $ 4,250.00 | This five-day, hands-on training course provides you with the knowledge, skills, and tools to achieve competency in configuring, operating, and troubleshooting VMware NSX® for intrinsic security. This course introduces all the security features in NSX, including Distributed Firewall and Gateway Firewall, Intrusion Detection and Prevention (IDS/IPS), NSX Application Platform, NSX Malware Prevention, VMware NSX® Intelligence™, and VMware NSX® NDR™. In addition, this course presents common configuration issues and gives a methodology to resolve them. | https://www.newhorizons.com/course-outline/courseid/300201110 |
| VMware NSX: Design [V4.x] | 5.00 | $ 4,625.00 | This five-day course provides comprehensive training on considerations and practices to design a VMware NSX® environment as part of a software-defined data center strategy. This course prepares the student with the skills to lead the design of an NSX environment, including design principles, processes, and frameworks. The student gains a deeper understanding of the NSX architecture and how it can be used to create solutions to address the customer's business needs. | https://www.newhorizons.com/course-outline/courseid/300200976 |
| VMware NSX: Install, Configure, Manage [V4.0] | 5.00 | $ 4,250.00 | This five-day, fast-paced course provides comprehensive training to install, configure, and manage a VMware NSX® environment. This course covers key features and functionality offered in the NSX 4.0.0.1 and NSX 4.0.1 releases, including the overall infrastructure, logical switching, logical routing, networking and security services, firewalls and advanced threat prevention, and more. | https://www.newhorizons.com/course-outline/courseid/300200784 |
| VMware NSX: Troubleshooting and Operations [V4.x] | 5.00 | $ 4,625.00 | This five-day, hands-on training course provides the advanced knowledge, skills, and tools to achieve competency in operating and troubleshooting the VMware NSX infrastructure. This course introduces you to workflows of various networking and security constructs along with several operational and troubleshooting tools that help you manage and troubleshoot your VMware NSX environment. In addition, various types of technical problems are presented to you, which you will identify, analyze, and solve through a systematic process. | https://www.newhorizons.com/course-outline/courseid/300200997 |
| VMware NSX-T Data Center: Install, Configure, Manage [V3.2] | 5.00 | $ 4,250.00 | This five-day, fast-paced course provides comprehensive training on how to install, configure, and manage a VMware NSX-T™ Data Center environment. This course covers key NSX-T Data Center features and functionality offered in the NSX-T Data Center 3.2 release, including the overall infrastructure, logical switching, logical routing, networking and security services, firewalls and advanced threat prevention, and more. | https://www.newhorizons.com/course-outline/courseid/300130002 |
| VMware NSX-T Data Center: Multi-Site Deployments with Federation | 3.00 | $ 2,775.00 | This three-day, hands-on training course provides you with the knowledge and skills to achieve competency in deploying, configuring, and managing the VMware NSX-TTM Data Center Federation. This course first introduces you to the architecture of the NSX-T Data Center Federation and then covers all features and functionality offered in the Federation, including the deployment of logical switching, logical routing, and security policies across multiple sites. Finally, the course describes various disaster recovery scenarios for the Federation. | https://www.newhorizons.com/course-outline/courseid/300201104 |
| VMware Site Recovery Manager: Install, Configure, Manage [V8.6] | 2.00 | $ 1,700.00 | This two-day, hands-on training course gives experienced VMware vSphere® administrators the knowledge to install, configure, and manage VMware Site Recovery Manager™ 8.6. This course also shows you how to write and test disaster recovery plans that use Site Recovery Manager. | https://www.newhorizons.com/course-outline/courseid/300201111 |
| VMware Tanzu Kubernetes Grid: Install, Configure, Manage [V2.0] | 4.00 | $ 3,400.00 | During this four-day course, you learn about installing VMware Tanzu® Kubernetes Grid™ in a VMware vSphere® environment and provisioning and managing Tanzu Kubernetes Grid clusters. The course covers how to install Tanzu Kubernetes Grid packages to provide services such as image registry, authentication, logging, ingress, multipod network interfaces, service discovery, image registry, and monitoring, in addition to day 2 operations such as backup, life cycle management, and application-specific tools. The concepts learned in this course are applicable for users who must install Tanzu Kubernetes Grid on supported clouds. | https://www.newhorizons.com/course-outline/courseid/300201112 |
| VMware Tanzu Mission Control: Management and Operations 2024 | 3.00 | $ 2,775.00 | During this three-day course, you focus on using VMware Tanzu® Mission Control™ to provision and manage Kubernetes clusters. The course covers how to apply image registry, network, security, quota, custom, and mutation policies to Kubernetes environments. It focuses on how to deploy, upgrade, back up, and monitor Kubernetes clusters on VMware vSphere® with VMware Tanzu®, and it also covers package management using the VMware Tanzu Mission Control catalog. | https://www.newhorizons.com/course-outline/courseid/300201105 |
| VMware vRealize Automation: Orchestration and Extensibility [V8.6] | 5.00 | $ 4,625.00 | During this five-day course, you focus on using VMware vRealize® Orchestrator™ to extend the functionality of VMware vRealize® Automation™. You learn how to provide XaaS (Anything as a Service) and implement Machine Lifecycle Extensibility using the VMware vRealize® Automation™ Event Broker. You also learn how to create vRealize Orchestrator workflows and vRealize Automation ABX actions. You learn about various features, including basic scripting implementation along with logic processing to implement a variety of functions to use in your environment. This course teaches implementing debugging, loops, conditions, and user interactions in vRealize Orchestrator. The course introduces the new vRealize Orchestrator HTML 5 interface, along with API calls and REST functions, to give you the groundwork to implement a variety of plugins and scripts. This course is designed to give you the tools to craft custom solutions in the product. | https://www.newhorizons.com/course-outline/courseid/300200995 |
| VMware vRealize Automation: Troubleshooting [V8.6] | 3.00 | $ 2,775.00 | This three-day, hands-on training course provides you with the advanced knowledge, skills, and tools to achieve competency in troubleshooting VMware vRealize® Automation. vRealize Automation can be used to automate the delivery of virtual machines, applications, and personalized IT services across different data centers and hybrid cloud environments. This course will enable you to troubleshoot common problems with hands on lab problems. | https://www.newhorizons.com/course-outline/courseid/300201107 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| VMware vRealize Operations for Operators [V8.6] | 2.00 | $ 1,700.00 | This two-day course is for users who are responsible for day-to-day management of VMware vRealize® Operations™. This course explains policies, capacity concepts, and workload optimization with real-world use cases. This course covers application monitoring, troubleshooting using workbench, alerts, predefined dashboards, and explains how to manage compliance and configurations. Note: If you have taken the VMware vRealize Operations: Install, Configure, Manage course, duplicate content makes this course unsuitable for you. | https://www.newhorizons.com/course-outline/courseid/300200985 |
| VMware vRealize Operations: Advanced Use Cases [v8.x] | 2.00 | $ 1,850.00 | This two-day hands-on training course provides advanced knowledge, skills, and tools to achieve competency in operating VMware vRealize® Operations™ 8.X. This course explains the design and creation of advanced dashboards, capacity concepts, and the REST API with real-world use cases. | https://www.newhorizons.com/course-outline/courseid/300201108 |
| VMware vRealize Operations: Install, Configure, Manage [V8.6] | 5.00 | $ 4,250.00 | This five-day, hands-on training course provides you with the knowledge and skills to deploy a VMware vRealize® Operations™ cluster that meets the monitoring requirements of your environment. This course includes advanced capabilities such as customizing alerts, views, reports, and dashboards and explains the architecture in vRealize Operations. This course explains application monitoring, certificates, capacity and cost concepts, and workload optimization with real-world use cases. This course covers troubleshooting using the workbench, alerts, and redefined dashboards and describes how to manage compliance and configurations. This course also covers several management packs. | https://www.newhorizons.com/course-outline/courseid/300130030 |
| VMware vSAN: Install, Configure, Manage [V7] | 5.00 | $ 4,250.00 | During this five-day course, you will gain the knowledge, skills, and tools to plan and deploy a VMware vSAN™ cluster. You will learn about managing and operating vSAN. This course focuses on building the required skills for common Day-2 vSAN administrator tasks such as vSAN node management, cluster maintenance, security operations, and advanced vSAN cluster operations. You will learn these skills through the completion of instructor-led activities and hands-on lab exercises. | https://www.newhorizons.com/course-outline/courseid/300201113 |
| VMware vSAN: Install, Configure, Manage [V8] | 4.00 | $ 3,400.00 | During this four-day course, you will gain the knowledge, skills, and tools to plan and deploy a VMware vSAN™ cluster. You will learn about managing and operating vSAN. This course focuses on building the required skills for common Day-2 vSAN administrator tasks such as vSAN node management, cluster maintenance, security operations, troubleshooting and advanced vSAN cluster operations. You will learn these skills through the completion of instructor-led activities and hands-on lab exercises. | https://www.newhorizons.com/course-outline/courseid/300200783 |
| VMware vSAN: Management and Operations [V7] | 3.00 | $ 2,550.00 | In this three-day course, you learn about managing and operating VMware vSAN™ 7. This course focuses on building the required skills for common Day-2 vSAN administrator tasks such as, vSAN node management, cluster maintenance, security operations and advanced vSAN cluster operations. You also gain practical experience through the completion of instructor-led activities and hands-on lab exercises. | https://www.newhorizons.com/course-outline/courseid/300130031 |
| VMware vSAN: Plan and Deploy [V7] | 2.00 | $ 1,700.00 | This two-day, hands-on training course provides you with the knowledge, skills, and tools to plan and deploy a VMware vSAN™ cluster. In this course, you are taught the many considerations that the end vSAN configuration has on the initial planning of the vSAN datastore. You also perform a fully manual configuration of a vSAN cluster. | https://www.newhorizons.com/course-outline/courseid/300130032 |
| VMware vSAN: Troubleshooting [V7] | 2.00 | $ 1,700.00 | In this two-day course, you focus on learning the tools and skills necessary to troubleshoot VMware vSAN 7 implementations. You gain practical experience with vSAN troubleshooting concepts through the completion of instructor-led activities and hands-on lab exercises. Product Alignment VMware ESXi 7 VMware vCenter Server 7 VMware vSAN 7 Objectives: By the end of the course, you should be able to meet the following objectives: Describe the software components of vSAN and their roles Diagram how the components relate to each other Use Skyline Health to investigate and help determine failure conditions Use the command-line tools to help determine failure conditions | https://www.newhorizons.com/course-outline/courseid/300130033 |
| VMware vSAN: Troubleshooting [V8] | 2.00 | $ 1,850.00 | This two-day, hands-on training course provides the knowledge to troubleshoot VMware vSAN™ clusters. In this course, you will learn the best practices to maintain a healthy vSAN environment and mitigate potential issues that may occur with operation of the software. You will learn the GUI and CLI vSAN monitoring and troubleshooting tools. The course provides a logical framework for a systematic troubleshooting approach. You will learn how to troubleshoot vSAN common issues with examples. The labs provided in the course simulate real-world problems to evaluate and enhance your troubleshooting skills. | https://www.newhorizons.com/course-outline/courseid/300201114 |
| VMware vSphere with Tanzu: Deploy and Manage [V7] | 3.00 | $ 2,775.00 | During this 3-day course, you focus on deploying and managing VMware vSphere® with Tanzu. You learn about how vSphere with Tanzu can be used to orchestrate the delivery of Kubernetes clusters and containerized applications in a vSphere environment. | https://www.newhorizons.com/course-outline/courseid/300130010 |
| VMware vSphere with Tanzu: Deploy, Configure, Manage [V8] | 3.00 | $ 2,775.00 | During this three-day course, you focus on deploying and managing VMware vSphere® with VMware Tanzu® in a VMware vSphere® 8 environment. You learn how vSphere with Tanzu provides services to deploy and manage virtual machines, vSphere Pods, Supervisor Services, and VMware Tanzu® Kubernetes Grid™ clusters. You will also gain experience with day 2 operations and life cycle management of a vSphere with Tanzu environment. | https://www.newhorizons.com/course-outline/courseid/300201109 |
| VMware vSphere: Advanced Administration [V8] | 5.00 | $ 4,625.00 | This five-day course provides hands-on training to equip students with a range of skills, from performing routine VMware vSphere 8 administrative tasks to complex vSphere operations and configurations. Through lab-based activities, students are immersed in real-life situations faced by VMBeans, a fictitious company. These situations expose students to real-life scenarios faced by companies that are building and scaling their virtual infrastructure. This course uses scenario-based lab exercises and does not provide guided step-by-step instructions. To complete the scenario-based lab exercises, you are required to analyze the task, research, and deduce the required solution. References and suggested documentation are provided. This course utilizes labs to teach students how to effectively navigate and manage vSphere. The course aligns fully with the VMware Certified Advanced Professional – Data Center Virtualization Deploy exam objectives. | https://www.newhorizons.com/course-outline/courseid/300201115 |
| VMware vSphere: Design [V8] | 3.00 | $ 2,775.00 | This three-day course equips you with the knowledge, skills, and abilities to design a VMware vSphere 8 virtual infrastructure. You follow a proven approach to design a virtualization solution that ensures availability, manageability, performance, recoverability, and security. The approach presented follows VMware best practices. This course discusses the benefits and risks of available design alternatives and provides information to support making sound design decisions. | https://www.newhorizons.com/course-outline/courseid/300201116 |
| VMware vSphere: Fast Track [V8] | 5.00 | $ 6,475.00 | This five-day, extended hour course takes you from introductory to advanced VMware vSphere® 8 management skills. Building on the installation and configuration content from our best-selling course, you will also develop advanced skills needed to manage and maintain a highly available and scalable virtual infrastructure. Through a mix of lecture and hands-on labs, you will install, configure, and manage vSphere 7. You will explore the features that build a foundation for a truly scalable infrastructure and discuss when and where these features have the greatest effect. This course prepares you to administer a vSphere infrastructure for an organization of any size using vSphere 8, which includes VMware ESXi™ 8 and VMware vCenter Server® 8. | https://www.newhorizons.com/course-outline/courseid/300200862 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| VMware vSphere: Install Configure Manage v7.0 | 5.00 | $ 4,250.00 | This course features intensive hands-on training that focuses on installing, configuring, and managing VMware vSphere® 7, which includes VMware ESXi™ 7 and VMware vCenter Server® 7. This course prepares you to administer a vSphere infrastructure for an organization of any size. This course is the foundation for most of the other VMware technologies in the software-defined data center | https://www.newhorizons.com/course-outline/courseid/200013982 |
| VMware vSphere: Install Configure Manage v8.0 | 5.00 | $ 4,250.00 | This five-day course features intensive hands-on training that focuses on installing, configuring, and managing VMware vSphere 8, which includes VMware ESXi 8 and VMware vCenter 8. This course prepares you to administer a vSphere infrastructure for an organization of any size. This course is the foundation for most VMware technologies in the software-defined data center. | https://www.newhorizons.com/course-outline/courseid/300200756 |
| VMware vSphere: Operate, Scale and Secure [V8] | 5.00 | $ 4,625.00 | This five-day course teaches you advanced skills for configuring and maintaining a highly available and scalable virtual infrastructure. Through a mix of lecture and hands-on labs, you configure and optimize the VMware vSphere 8 features that build a foundation for a truly scalable infrastructure. You also discuss when and where these features have the greatest effect. Attend this course to deepen your understanding of vSphere and learn how its advanced features and controls can benefit your organization. | https://www.newhorizons.com/course-outline/courseid/300200779 |
| VMware vSphere: Optimize and Scale [V7] | 5.00 | $ 4,625.00 | This five-day course teaches you advanced skills for configuring and maintaining a highly available and scalable virtual infrastructure. Through a mix of lecture and hands-on labs, you configure and optimize the VMware vSphere® 7 features that build a foundation for a truly scalable infrastructure, and you discuss when and where these features have the greatest effect. Attend this course to deepen your understanding of vSphere and learn how its advanced features and controls can benefit your organization. | https://www.newhorizons.com/course-outline/courseid/300130009 |
| VMware vSphere: Troubleshooting [V7] | 5.00 | $ 4,625.00 | This five-day, hands-on training course provides you with the advanced knowledge, skills, and abilities to achieve competence in troubleshooting the VMware vSphere® 7.x environment. This workshop increases your skill and competence in using the command-line interface, VMware vSphere® Client™, log files, and other tools to analyze and solve problems. | https://www.newhorizons.com/course-outline/courseid/300130035 |
| VMware vSphere: Troubleshooting [V8] | 5.00 | $ 4,625.00 | This five-day training course provides you with the knowledge, skills, and abilities to achieve competence in troubleshooting the VMware vSphere® 8 environment. This course increases your skill level and competence in using the command-line interface, VMware vSphere® Client™, log files, and other tools to analyze and solve problems. | https://www.newhorizons.com/course-outline/courseid/300200863 |
| VMware vSphere: What's New [V8] | 2.00 | $ 1,700.00 | In this 2-day course, you will explore the new features and enhancements in VMware vCenter® 8.0, VMware ESXi™ 8.0, and VMware vSphere® 8.0. Through use-case scenarios, demonstrations, labs, and simulations, you develop skills to implement and configure vSphere 8.0. | https://www.newhorizons.com/course-outline/courseid/300200953 |
| VMware Workspace ONE: Deploy and Manage [V22.x] | 5.00 | $ 4,250.00 | In this five-day course, you learn how to apply the fundamental techniques for launching and maintaining an intelligence-driven, multi-platform endpoint management solution with VMware Workspace ONE® UEM. Through a combination of hands-on labs, simulations, and interactive lectures, you will configure and manage the endpoint life cycle. After the course, you will have the foundational knowledge necessary to implement Workspace ONE UEM effectively. You will also learn how to apply the fundamental techniques for integrating VMware Workspace ONE® Access™ with Workspace ONE UEM to securely distribute business-critical applications and configure access management controls from any device. Through a combination of hands-on labs, simulations, and interactive lectures, you configure enterprise, productivity, and Workspace ONE Access integrations. This course lays out the principles of identity and access management. You will leave with a fundamental understanding of how Workspace ONE uses various authentication methods and protocols to determine user access permissions and enable single sign-on. | https://www.newhorizons.com/course-outline/courseid/300200786 |
| VMware Workspace ONE: Deploy and Manage plus UEM Troubleshooting Fast Track [V22.x] | 5.00 | $ 6,475.00 | In this extended five-day course, you learn how to apply the fundamental techniques for launching and maintaining an intelligence-driven, multiplatform endpoint management solution with VMware Workspace ONE® UEM. Through a combination of hands-on labs, simulations, and interactive lectures, you will configure and manage the endpoint life cycle. After the course, you will have the foundational knowledge necessary to implement Workspace ONE UEM effectively. In addition, you learn how to apply the fundamental techniques for integrating VMware Workspace ONE® Access™ with Workspace ONE UEM to distribute business-critical applications securely from any device and configure access management controls. You will learn how Workspace ONE uses various authentication methods and protocols to determine user access permissions and enable single sign-on, and you will leave with an understanding of the fundamental principles of identity and access management. Finally, you learn to investigate, analyze, and determine issues that might occur with the different components of Workspace ONE UEM. Troubleshooting is the backbone of service maintenance and management. By understanding how to effectively troubleshoot product issues, administrators can understand how product services communicate and function, in turn optimizing service and software health management. | https://www.newhorizons.com/course-outline/courseid/300200988 |
| VMware Workspace ONE: Integrations [V22.x] | 2.00 | $ 1,700.00 | In this two-day course, you learn how to apply the fundamental techniques for integrating VMware Workspace ONE® Access™ with VMware Workspace ONE® UEM to securely distribute business-critical applications from any device and configure access management controls. Through a combination of hands-on labs, simulations, and interactive lectures, you configure system and productivity integrations for Workspace ONE Access and Workspace ONE UEM. The course provides the principles of identity and access management. You will leave with a foundational understanding of how Workspace ONE uses various authentication methods and protocols to determine user access permissions and enable single sign-on. | https://www.newhorizons.com/course-outline/courseid/300200787 |
| VMware Workspace ONE: Skills for UEM [V22.x] | 3.00 | $ 2,550.00 | In this three-day course, you learn how to apply the fundamental techniques for launching and maintaining an intelligence-driven, multiplatform endpoint management solution with VMware Workspace ONE® UEM. Through a combination of hands-on labs, simulations, and interactive lectures, you will configure and manage the endpoint life cycle. After the three days, you will have the foundational knowledge for effectively implementing Workspace ONE UEM. | https://www.newhorizons.com/course-outline/courseid/300200989 |
| VMware Workspace ONE: UEM Bootcamp [V22.x] | 5.00 | $ 4,250.00 | In this five-day course, you learn how to apply the fundamental techniques for launching and maintaining an intelligence-driven, multiplatform endpoint management solution with VMware Workspace ONE® UEM. Through a combination of hands-on labs, simulations, and interactive lectures, you will configure and manage the endpoint life cycle. You will also learn to investigate, analyze, and determine issues that might occur with all the different components of Workspace ONE UEM. By understanding how to effectively troubleshoot product issues, administrators can understand how product services communicate and function, in turn optimizing service and software health management. At the end of five days, you will have the foundational knowledge for effectively managing and conducting basic troubleshooting for Workspace ONE UEM. | https://www.newhorizons.com/course-outline/courseid/300200990 |

| Course | Days | Price | Description | URL |
|---|---|---|---|---|
| VoLTE and the IMS | 5.00 | $ 2,595.00 | Learn Voice over Long Term Evolution (VoLTE), IP Multimedia Subsystem (IMS), and Session Initiation Protocol (SIP) in this intensive 5-day class. This mobile communications course thoroughly studies call flow through the EU-TRAN, the EPC and into the IMS core. We will make the entire picture clear and backup all that we teach with call flows using an IMS platform. This course also covers enough of other technologies like Diameter and DNS to allow you to understand the complete picture. We'll award your VoLTE Certification at the end of our 5-day training. | https://www.newhorizons.com/course-outline/courseid/300201159 |
| Warehouse Management | 5.00 | $ 4,335.00 | | https://www.newhorizons.com/course-outline/courseid/200008226 |
| Web Development with HTML5, CSS, and JavaScript | 4.00 | $ 2,380.00 | Modern organizations depend heavily on the web to perform core business operations such as marketing, advertising, and selling products, providing services, and communicating with customers, partner organizations, and employees. Whatever you're creating on the web, HTML, CSS, and JavaScript™ likely play an important role. These three languages provide the core toolkit for anyone looking to perform web development work. This course covers the fundamentals of web development using these three languages. | https://www.newhorizons.com/course-outline/courseid/300201034 |
| WebSphere Application Server V9 Administration | 3.00 | $ 2,655.00 | This course teaches you the skills that are needed to administer IBM WebSphere Application Server V9. This release of IBM WebSphere Application Server provides enhanced support for standards (notably Java 7 EE), emerging technology, and a choice of development frameworks. In this course, you learn how to configure and maintain IBM WebSphere Application Server V9 in a single-server environment. You learn how to deploy enterprise Java applications in a single computer configuration. In addition, you learn how to work with features of WebSphere Application Server V9, such as the wsadmin scripting interface, security, and performance monitoring. Hands-on exercises throughout the course give you practical experience with the skills you develop in the lectures. | https://www.newhorizons.com/course-outline/courseid/300030041 |
| WebSphere Application Server V9 Administration in a Federated Environment | 2.00 | $ 1,770.00 | This course teaches you the skills that are needed to administer IBM WebSphere Application Server V9 in a federated environment. This release of IBM WebSphere Application Server provides enhanced support for standards (notably Java 7 EE), emerging technology, and a choice of development frameworks. In this course, you learn how to configure and maintain IBM WebSphere Application Server V9 Network Deployment. You learn how to deploy and create a deployment manager and federate a cell. In addition, you learn how to create a cluster within the federated cell. Throughout the course, hands-on exercises and demonstrations reinforce lecture content. You gain practical experience with WebSphere Application Server V9 by completing tasks such as creating a deployment manager, federating a stand-alone application server, creating a custom profile, and clustering an existing application server. | https://www.newhorizons.com/course-outline/courseid/300030062 |
| Word - Part 1 | 1.00 | $ 295.00 | In this course, you'll learn how to use Word on the desktop to create and edit simple documents; format documents; add tables and lists; add design elements and layout options; and proof documents.
