incurred by the County on account of any claim except where such indemnification is prohibited by law. This indemnification provision shall apply regardless of the existence or degree of fault of indemnities. The Contractor indemnification obligation applies to the County's "active" as well as "passive" negligence but does not apply to the County's "sole negligence" or "willful misconduct" within the meaning of Civil Code section 2782.

G.2 Additional Insured

All policies, except for Worker's Compensation, Errors and Omissions and Professional Liability policies shall contain additional endorsements naming the County and its officers, employees, agents and volunteers as additional named insured with respect to liabilities arising out of the performance of services hereunder. The additional insured endorsements shall not limit the scope of coverage for the County to vicarious liability but shall allow coverage for the County to the full extent provided by the policy. Such additional insured coverage shall be at least as broad as Additional Insured (Form B) endorsement form ISO, CG 2010.11 85.

G.3 Waiver of Subrogation Rights

Contractor shall require the carriers of required coverages to waive all rights of subrogation against the County, its officers, employees, agents, volunteers, contractors and subcontractors. All general or auto liability insurance coverage provided shall not prohibit Contractor and Contractor's employees or agents from waiving the right of subrogation prior to a loss or claim. Contractor hereby waives all rights of subrogation against the County.

G.4 Policies Primary and Non-Contributory

All policies required herein are to be primary and non-contributory with any insurance or self-insurance programs carried or administered by the County.

G.5 Severability of Interests

Contractor agrees to ensure that coverage provided to meet these requirements is applicable separately to each insured and there will be no cross liability exclusions that preclude coverage for suits between Contractor and County or between County and any other insured or additional insured under the policy.

G.6 Proof of Coverage

Contractor shall furnish Certificates of Insurance to the County Department administering the Contract evidencing the insurance coverage at the time the Contract is executed, additional endorsements, as required shall be provided prior to the commencement of performance of services hereunder, which certificates shall provide that such insurance shall not be terminated or expire without thirty (30) days written notice to the Department, and Contractor shall maintain such insurance from the time Contractor commences performance of services hereunder until the completion of such services. G.9 Failure to Procure Coverage

In the event that any policy of insurance required under this Contract does not comply with the requirements, is not procured, or is canceled and not replaced, County has the right but not the obligation or duty to cancel this Contract or obtain insurance if it deems necessary and any

premiums paid by County will be promptly reimbursed by Contractor or County payments to the Contractor will be reduced to pay for County purchased insurance.

G.10 Insurance Review

Insurance requirements are subject to periodic review by County. The Director of Risk Management or designee is authorized, but not required, to reduce, waive or suspend any insurance requirements whenever Risk Management determines that any of the required insurance is not available, is unreasonably priced, or is not needed to protect the interests of County. In addition, if the Department of Risk Management determines that heretofore unreasonably priced or unavailable types of insurance coverage or coverage limits become reasonably priced or available, the Director of Risk Management or designee is authorized, but not required, to change the above insurance requirements to require additional types of insurance coverage or higher coverage limits, provided that any such change is reasonable in light of past claims against County, inflation, or any other item reasonably related to the County's risk.

Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this contract. Contractor agrees to execute any such amendment within thirty (30) days of receipt.

Any failure, actual or alleged, on the part of County to monitor or enforce compliance with any of the insurance and indemnification requirements will not be deemed as a waiver of any rights on the part of County.

- G.11** Contractor agrees to provide insurance set forth in accordance with the requirements herein. If Contractor uses existing coverage to comply with these requirements and that coverage does not meet the specified requirements, Contractor agrees to amend, supplement or endorse the existing coverage to do so.

If Contractor has no employees, it may certify or warrant to the County that it does not currently have any employees or individuals who are defined as "employees" under the Labor Code and the requirement for Workers' Compensation coverage will be waived by the County's Director of Risk Management.

With respect to Contractors that are non-profit corporations organized under California or Federal law, volunteers for such entities are required to be covered by Workers' Compensation insurance.

- H.3** Death or Incapacity: If the Contractor transacts business as an individual, his/her death or incapacity shall automatically terminate this Contract as of the date of such event, and neither he/she nor his/her estate shall have any further right to perform hereunder, and County shall pay him/her or his/her estate the compensation payable under Article F, Fiscal Provisions, for any services rendered prior to such termination not heretofore paid, reduced by the amount of additional costs which will be incurred by County by reason of such termination. If there be more than one Contractor and any one of them die or become incapacitated and the others continue to render the services covered herein, County will make payment to those continuing as though

there had been no such death or incapacity and County will not be obliged to take any account of the person who died or became incapacitated or to make any payments to such person or his estate. The provision shall apply in the event of progressive or simultaneous occasions of death or incapacity among any group of persons named as Contractor herein, and if death or incapacity befalls the last one of such group before this Contract is fully performed, then the rights shall be as if there had been only one Contractor.

I. RIGHT TO MONITOR AND AUDIT

- J.2** In the event of a non-cured breach, County may, at its sole discretion and in addition to any other remedies available at law, in equity, or otherwise specified in this Contract:
 - J.2.1** Afford Contractor thereafter a time period within which to cure the breach, which period shall be established at the sole discretion of County; and/or
 - J.2.2** Discontinue reimbursement to Contractor for and during the period in which Contractor is in breach, which reimbursement shall not be entitled to later recovery; and/or

The cost to County shall be deducted from any sum due to Contractor under this Contract and the balance, if any, shall be paid by Contractor upon demand.
- J.3** Unless a remedy is specifically designated as exclusive, no remedy conferred by any of the specific provision of the Contract is intended to be exclusive of any other remedy, and each and every remedy shall be cumulative and shall be in addition to every other remedy given hereunder, now or hereafter existing at law or in equity or by statute or otherwise. The election of any one or more remedies by either Party shall not constitute a waiver of the right to pursue other available remedies.

ATTACHMENT C
REMOTE ACCESS ADDENDUM

Contractor requires remote access to the County Wide Area Network (WAN) pursuant to a contract to provide services to the County. This Remote Access Addendum (Addendum) governs access to and use of County's WAN by Contractor and Contractor personnel.

It is the policy of the County Board of Supervisors to provide the appropriate level of security for data within the County's computerized information systems. County has established information security practices and closely monitors the WAN to ensure network confidentiality, integrity, and availability. Use of and access to County computer systems are subject to compliance with County Policies. The County WAN is managed, maintained, and continuously monitored by the County Innovation and Technology Department (ITD).

A. DEFINITIONS

Any capitalized term used but not defined in this Addendum shall have the meaning given to it in the Contract. In addition, the following capitalized terms shall have the meaning ascribed herein:

1. "CISO": County Chief Information Security Officer or other County-designated officer responsible for cyber-infrastructure security.
2. "CONUS": Continental United States
3. "County Data": Any information, formulae, algorithms, or other content that County, County's employees, agents and end users upload, create or modify using the SaaS pursuant to this Contract. County Data also includes user identification information, personally identifiable information, and metadata which may contain County Data or from which County Data may be ascertainable.
4. "Data Breach": Any access, destruction, loss, theft, use, modification or disclosure of County Data by an unauthorized party or that is in violation of Contract terms and/or applicable state or federal law.

B. ACCESSING THE WAN

1. Provided that Contractor complies with the Addendum, Contractor personnel will be granted limited remote access to the County WAN for the purpose of fulfilling Contractor's obligations and accessing related computer information systems or data managed by the County that resides on the WAN.
2. Access to the WAN will be initiated by ITD.
3. The preferred method for establishing remote access will be through client-based VPN connectivity using two-factor authentication. A single generic VPN account used by multiple Contractor employees is not allowed. County will provide:
 - a. A VPN account for each Contractor personnel requiring remote access to the WAN;
 - b. The VPN client software and the authenticator (or token) needed for authentication;
 - c. Coordination for isolation and resolution of all problems involving connectivity to County's ISP or any of the equipment managed by County that is used to build the VPN tunnel on County's side of the connection;
 - d. Filtering in the configuration of the VPN account that limits access to allow specific Contractor IP addresses to access specific County IP addresses on specific ports.
4. If an issue prevents access using the preferred method, upon approval by ITD, an alternative method may be used. The alternative method for establishing remote access is through the creation of a VPN Site-to-Site tunnel between County and Contractor. Standard Internet Protocol Security (IPSEC) specifications will be used to create the encrypted secure tunnel across the Internet. County will provide Internet connectivity on County's side of the VPN Site-to-Site tunnel. County's side of the VPN Site-to-Site tunnel will terminate on equipment managed by County. County will be responsible to provide and configure this equipment. County will include filtering in the configuration of the tunnel. The filtering will only allow specific Contractor IP addresses to access specific County IP addresses on specific ports.

C. TERMS OF USE

1. Any attempt by Contractor personnel to access unauthorized applications or sectors on the WAN will constitute a material breach of this Addendum, and County may immediately suspend or terminate Contractor personnel's remote access to the WAN. If Contractor fails to correct the breach within a reasonable period of time, County may

terminate this Addendum, and reserves the right to seek any other legal remedies in law and equity that may be available.

2. Contractor acknowledges that County may perform periodic security audits and County reserves the right to terminate Contractor's remote access to the WAN if any audit discloses non-compliance with the information security practices and policies immediately upon written notice.
3. County assumes no liability for failure to provide or delay in providing remote access to County's WAN.
4. Contractor is responsible for obtaining and paying the costs of all permits, licenses or approvals required by regulatory agencies, as applicable to Contractor's uses authorized herein.
5. Contractor will:
 - a. Use appropriate measures to ensure that the remote connection remains secure;

 - f. Provide the County with name, address, phone number, and email address for each Contractor personnel that will have remote access to the WAN and ensure this information is kept current with the County;
 - g. Be responsible for the installation of the VPN client software on their devices;
 - h. Provide coordination for isolation and resolution of all problems involving connectivity to Contractor ISP and any hardware or software issues of the devices running the VPN client software or any of the equipment Contractor uses to build the VPN tunnel on Contractor's side of the connection;
 - i. Provide County with the IP addresses that Contractor intends to permit access across the VPN tunnel;
 - j. Provide and configure the necessary equipment managed by Contractor needed for the VPN tunnel creation;
 - k. Use reasonable effort to mitigate any impact due to a failure or delay by County in providing Contractor with remote access to the WAN;
 - l. Abide by all reasonable existing and future information security practices, policies and protocols established by County as communicated in advance from time to time, and as provided herein.
6. Ownership, and thereby authority over the use of data in the WAN, lies with County. Deliberate attempts to access unauthorized data will be recorded and may result in disciplinary action up to, and including, termination of access and prosecution under applicable laws.
7. Contractor shall hold as confidential and use reasonable care to prevent unauthorized access by, storage, disclosure, publication, dissemination to and/or use of confidential information that is: (1) provided by County to Contractor or otherwise made available to Contractor in connection with this Addendum; or (2) acquired, obtained, or learned by Contractor as a result of access granted under this Addendum. For purposes of this provision, confidential information means any data, files, software, information or materials in oral, electronic, tangible or intangible form and however stored, compiled or memorialize and includes, but is not limited to, technology infrastructure, architecture, financial data, trade secrets, equipment specifications, user lists, passwords, research data, and technology data.
