- A. Prevention is a proactive process that empowers individuals and systems to meet the challenges of life events and transitions by creating and reinforcing conditions that promote healthy behaviors, lifestyles and communities. Prevention activities are required to be comprehensive and yet address specific community needs. To be effective in the reduction of alcohol and other drug-related problems, prevention strategies should be coordinated and integrated with other community-based prevention activities. Proactive prevention services will employ prevention strategies that address the environment in which alcohol, tobacco, and drug use occurs. Families, caregivers, youth, human service agency personnel, and other community stakeholders should be encouraged to participate in the planning and implementation process in responding to the communities’ prevention needs.
- B. Under this Agreement, Contractor shall recruit, hire and maintain program staff with the knowledge and experience necessary in planning and implementing substance use disorder problem prevention strategies to provide required services. Program staffing should be multi-disciplinary and reflect the diverse communities in which the program serves. Prevention programs by design may employ personnel and/or others with expert knowledge and experience in substance abuse prevention, media advocacy and community organizing.

- C. It is believed that the relationship between substance use disorder related problems can be correlated to the availability and accessibility of alcohol, tobacco and other drugs across specific populations. This guiding principle behind SUD Prevention services requires utilizing a full range of strategies to reduce the availability and accessibility of alcohol, tobacco and other drugs. Since SUD problems occur within the context of larger social and personal problems, public and private policies regarding availability and other environmental factors must be developed to assist in fostering healthier communities.

H. Cultural Competency

The State mandates counties to develop and implement a Cultural Competency Plan (CCP). This Plan applies to all DBH services. Contract agencies will be included in the implementation process of the most recent State approved CCP for the County of San

Bernardino and shall adhere to all cultural competency standards and requirements. In addition, contract agencies will maintain a copy of the current DBH CCP.

1. Cultural and Linguistic Competency

Cultural competence is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers and professionals that enables that system, agency, or those professionals and consumer providers to work effectively in cross-cultural situations.

- a. To ensure equal access to quality care for diverse populations, Contractor shall adopt the federal Office of Minority Health Cultural and Linguistically Appropriate Service (CLAS) national standards.
- b. Contractor shall be required to assess the demographic make-up and population trends of its service area to identify the cultural and linguistic needs of the eligible beneficiary population. Such studies are critical to designing and planning for providing appropriate and effective behavioral health and substance use disorder services.
- c. Upon request provide DBH with culture-specific service options available to be provided by Contractor.
- d. DBH recognizes that cultural competence is a goal toward which professionals, agencies, and systems should strive. Becoming culturally competent is a developmental process and incorporates at all levels the importance of culture, the assessment of cross-cultural relations, vigilance towards the dynamics that result from cultural differences, the expansion of cultural knowledge, and the adaptation of services to meet culturally-unique needs. Providing mental health and substance use disorder treatment services in a culturally appropriate and responsive manner is fundamental in any effort to ensure success of high quality and cost-effective behavioral health services. Offering those services in a manner that fails to achieve its intended result due to cultural and linguistic barriers does not reflect high quality of care and is not cost-effective.
- e. To assist the Contractor's efforts towards cultural and linguistic competency, DBH shall provide the following:
  - i. Technical assistance to the Contractor regarding cultural competency implementation.
  - ii. Demographic information to the Contractor on service area for service(s) planning.
  - iii. Cultural competency training for DBH and Contractor personnel.

- iv. Interpreter training for DBH and Contractor personnel, when available.
- v. Technical assistance for the Contractor in translating mental health and substance use disorder services information to DBH's threshold language (Spanish).
- vi. Monitoring activities administered by DBH to demonstrate documented capacity to offer services in threshold language or contracted interpretation and translation.
- vii. Contractor's written organizational procedures must be in place to determine multilingual and competency level(s).
- viii. The Office of Equity and Inclusion (OEI) may be contacted for technical assistance and training offerings at [cultural\\_competency@dbh.sbcounty.gov](mailto:cultural_competency@dbh.sbcounty.gov) or by phone at (909) 386-8223.

I. Public Accessibility

Contractor shall ensure that services provided are accessible by public transportation.

J. Site Inspection

Contractor shall permit authorized County, State, and/or Federal Agency(ies), through any authorized representative, the right to inspect or otherwise evaluate the work performed or being performed hereunder including subcontract support activities and the premises which it is being performed. Contractor shall complete the monthly DATAR reporting requirements no later than the fifth (5<sup>th</sup>) day of the following month for the prior month's services and demographic information.

Should the Contractor experience system or service failure or other extraordinary circumstances that affect its ability to timely submit a monthly DATAR report, Contractor shall immediately, but no later than three (3) days before the submission deadline, report the problem to DBH in writing. Contractor shall include in the notice a corrective action plan that is subject to review and approval by DBH and DHCS. #### IV. Funding

A. This Agreement is contingent upon sufficient funds being made available by Federal, State, and/or County governments for the term of the Agreement. Funding is by fiscal year period July 1 through June 30. Costs and services are accounted for by fiscal year. Any unspent fiscal year allocation may not roll over and may not be available in future years. Each fiscal year period will be settled to Federal and/or State cost reporting accountability.

B. The maximum financial obligation of the County under this Agreement shall not exceed the sum referenced in the Schedules A and B. The maximum financial obligation is further limited by fiscal year, funding source and service modalities as delineated on the Schedules A and B. Budget line items applicable to the 10% rule are: (1) Total Salaries & Benefits and (2) Individual Operating Expense items. The County has the sole discretion of transferring funds between funding sources or modes of services.

1. It is understood between the parties that the Schedules A and B are budgetary guidelines. Contractor must adhere to the budget by categorical funding outlined in the Schedule A of the Contract as well as track year-to-date expenditures. Contractor understands that costs incurred for services not listed or in excess of categorical funding in the Schedule A shall result in non-payment to Contractor for these costs.
- C. Contractor agrees to renegotiate the dollar value of this Contract, at the option of the County, if the annualized projected units of service (minutes/hours of time) for any mode of service based on claims submitted for the operative fiscal year, is less than the target percentage of the projected minutes/hours of time for the modes of service as reported in the Schedules A and B.
- D. If the annualized projected units of service (minutes/hours of time) for any mode of service, based on claims submitted for the operative fiscal year, is greater than/or equal to 110% of the projected units (minutes/hours of time) reported in the Schedules A and B, the County and Contractor agree to meet to discuss the feasibility of renegotiating this Agreement. Contractor must timely notify the County of Contractor's desire to meet.
- E. County will take into consideration requests for changes to Contract funding, within the existing contracted amount. All requests must be submitted in writing by Contractor to DBH Fiscal and SUDRS program no later than March 1 for the operative fiscal year.
- F. A portion of the funding for these services includes Federal Funds. The Federal CFDA numbers are 93.959 and 93.778.
- G. In the event of a reduction of the County's allocation of Federal, State or County funding for substance use disorder programs, the Contractor agrees to accept a reduction in funding under this Contract to be determined by the County.
- H. Contractor shall maximize the Federal Financial Participation (FFP) reimbursement by claiming all possible Medi-Cal services. Therefore, Contractor must determine on a monthly basis, client eligibility for or entitlement to any and all of the categorical funding used by the County for services to pay for services under the terms and conditions of this Contract. Contractor shall then bill County for those services based on client eligibility or entitlement. Failure to verify eligibility or comply with all program and funding requirements will result in non-payment of services.
  1. The County may not be responsible for beneficiaries that do not reside within County boundaries and do not meet eligibility.
- I. If client eligibility for a categorical funding is found by the County to be different than eligibility determined by Contractor, County's determination of eligibility will be used to reimburse Contractor for said services. Additionally, no payment will be made for identified services if it is determined that Contractor is out of compliance with program and funding requirements.
- J. Contractor Prohibited From Redirections of Contracted Funds:
  1. Funds under this Agreement are provided for the delivery of SUD services to eligible beneficiaries under each of the funded programs identified in the Scope

2. Contractor may not redirect funds from one funded program to another funded program, except through a duly executed amendment to this Agreement.
- K. The maximum financial obligation under this contract shall not exceed \$2,466,000 for the contract term.
- L. The Schedules A and B will be submitted to, and approved by, the Director or designee at a later date.

- D. None of the funds made available through this Contract may be used for any activity that promotes the legalization of any drug or other substance included in Schedule I of Section 202 of the Controlled Substance Act (21USC 812).

#### VI. Payment

- A. Reimbursement for County services provided by Contractor will be at the actual net cost to Contractor in providing said services if services reported in the County's billing and transactional database system are comparable to the cost and services approved in Schedule A. Large variances between the cost per service and the services provided may require:
  1. Justification from provider.
  2. Adjustments to reimbursement and/or contract if it cannot be justified by provider.
- B. Contractor shall bill the County monthly in arrears for County services provided by Contractor on claim forms provided by DBH. All claims submitted shall clearly reflect all required information specified regarding the services for which claims are made. Contractor shall submit the organizations' Profit and Loss Statement with each monthly claim. Claims for Reimbursement shall be completed and forwarded to DBH within ten (10) days after the close of the month in which services were rendered. Following receipt of a complete and correct monthly claim, the County shall make payment within a reasonable period. Payment, however, for any mode of service covered hereunder, shall be limited to a maximum monthly amount, which amount shall be determined by County:

This indemnification provision shall apply regardless of the existence or degree of fault of indemnitees. The Contractor's indemnification obligation applies to the County's "active" as well as "passive" negligence but does not apply to the County's "sole negligence" or "willful misconduct" within the meaning of Civil Code Section 2782.

B. Additional Insured

All policies, except for the Workers' Compensation, Errors and Omissions and Professional Liability policies shall contain endorsements naming the County and its officers, employees, agents and volunteers as additional insured with respect to liabilities arising out of the performance of services hereunder. The additional insured endorsements shall not limit the scope of coverage for the County to vicarious liability but shall allow coverage for the County to the full extent provided by the policy. Such additional insured coverage shall be at least as broad as Additional Insured (Form B) endorsement form ISO, CG 2010.11 85.

C. Waiver of Subrogation Rights

Contractor shall require the carriers of required coverages to waive all rights of subrogation against the County, its officers, employees, agents, volunteers, contractors, and subcontractors. All general or auto liability insurance coverage provided shall not prohibit the Contractor and Contractor's employees or agents from waiving the right of subrogation prior to a loss or claim. The Contractor hereby waives all rights of subrogation against the County.

D. Policies Primary and Non-Contributory

All policies required herein are to be primary and non-contributory with any insurance or self-insurance programs carried or administered by the County.

E. Severability of Interests

Contractor agrees to ensure that coverage provided to meet these requirements is applicable separately to each insured and there will be no cross liability exclusions that preclude coverage for suits between the Contractor and the County or between the County and any other insured or additional insured under the policy.

F. Proof of Coverage

Contractor shall furnish Certificates of Insurance to the County Department administering the Contract evidencing the insurance coverage at the time the contract is executed. Additional endorsements, as required, shall be provided prior to the commencement of performance of services hereunder, which certificates shall provide that such insurance shall not be terminated or expire without thirty (30) days written notice to the Department and Contractor shall maintain such insurance from the time Contractor commences performance of services hereunder until the completion of such services. J. Insurance Review

Insurance requirements are subject to periodic review by the County. The Director of Risk Management or designee is authorized, but not required, to reduce, waive or suspend any insurance requirements whenever Risk Management determines that any of the required insurance is not available, is unreasonably priced, or is not needed to protect the interests of the County. In addition, if the Department of Risk Management determines that heretofore unreasonably priced or unavailable types of insurance coverage or coverage limits become reasonably priced or available, the Director of Risk Management or designee is authorized, but not required, to change the above insurance requirements to require additional types of insurance coverage or higher coverage limits, provided that any such change is reasonable in light of past claims against the County, inflation, or any other item reasonably related to the County's risk.

Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this Contract. Contractor agrees to execute any such amendment within thirty (30) days of receipt.

Any failure, actual or alleged, on the part of the County to monitor or enforce compliance with any of the insurance and indemnification requirements will not be deemed as a waiver of any rights on the part of the County.

If the Contractor uses existing coverage to comply with these requirements and that coverage does not meet the specified requirements, the Contractor agrees to amend, supplement or endorse the existing coverage to do so. **AGREEMENT FOR THE PROVISION OF  
SUBSTANCE USE DISORDER SERVICES  
ENVIRONMENTAL PREVENTION STRATEGIES AND SERVICES**

**CONTRACTOR NAME:** INSTITUTE FOR PUBLIC STRATEGIES

**A. Contractor shall provide Environmental Prevention Strategies and Services services as defined herein to San Bernardino County residents.**

**B. FACILITY LOCATIONS:**

Contractor shall provide the above services in and from the following address(es):

**San Bernardino Location**

242 E. Airport Dr., STE 204

San Bernardino, CA 92408-3450

**Victorville Location**

15490 Civic Dr., STE 102

Victorville, CA Zip 92392-2382

**C. Background**

In 1998, both the U.S. Department of Education and the Center for Substance Abuse Prevention proposed that funds allocated for substance use disorder prevention be awarded to programs that are scientifically defensible and performance-based. It is, therefore, expected that all prevention programs show evidence of performance-based prevention services that are scientifically defensible with measurable results.

DBH develops a strategic plan every five years that is reviewed on an annual basis which outlines the County's approach to SUD prevention services through the use of community-based, environmental prevention strategies. The DBH County Prevention Services are founded on the Strategic Plan for SUD Prevention and hereby incorporated by reference.

Successful environmental prevention services in the County produce effective community-level results through the use of five integrated strategies that produce sustainable outcomes, which include the following:

- Data collection and analysis
- Community organizing
- Policy development based on environmental or community condition change
- Media advocacy, and
- Enforcement

These five strategies are designed to produce changes in the community environment and align with the SUD Prevention Priority Areas: Alcohol Prevention, Marijuana Prevention, Methamphetamine Prevention, and Opioid Prevention.

Successful outcomes in prevention efforts have previously been developed through work that employs a logic model that integrates the five strategies into clear prevention campaigns.

**D. Program Requirements**

1. Program services are implemented through community collaborations consisting of prevention service providers, regional community members, and often, key members from law enforcement, school, and other health and social services systems. Within the region, these collaborations work to advance the goals of one or more of the SUD Prevention Priority Areas through specific regional campaign plans. Experience from successful prevention campaigns has also determined that many effective strategies begin in local communities and are then developed into regional, multi-regional and countywide efforts. Consequently, in addition to the regional efforts, the prevention service providers receive and provide support and leadership in planning, developing, and implementing the countywide campaigns for the prevention priority areas.
2. Prevention campaigns conducted will include problem identification, data collection and analysis, priority setting, research-supported strategy development, establishment of performance measures, program implementation, and evaluation and feedback. Logic Models and Work Plans will describe how each regional/community level prevention service develops local campaign plans in response to a prevention priority area and how the effort works in conjunction with other prevention service providers to implement countywide efforts on behalf of each priority area. In addition, the Logic Models and Work Plans shall describe how the goals will be advanced for each SUD Prevention Priority Area selected using a community-based environmental prevention approach and incorporating the five integrated strategies described. The Logic Model and Work Plan includes activities in support of countywide prevention efforts that assist in achieving the overall goals of SUD Prevention Priority Areas.
3. **Program Objective**

Contractor shall advocate, establish, and maintain evidence-based SUD prevention services and shall provide technical assistance to communities to achieve changes in conditions that reduce SUD problems among youth and young adults in San Bernardino County. The prevention services shall be provided in accordance with the County Strategic Prevention Framework and shall implement evidence-based prevention strategies in the regions. Contractor shall provide services as part of an integrated County effort, at community, regional, and county levels, to implement the Prevention Framework and support the SUD prevention priority areas described below and referred to as SUD Prevention Priority Areas.

- b. Marijuana Prevention
- c. Methamphetamine Prevention
- d. Opioid Prevention

The encryption solution must be full disk unless approved by DBH's Office of Information Technology.
2. **Server Security.** Servers containing unencrypted DBH PHI or PI must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review.
3. **Minimum Necessary.** Only the minimum necessary amount of DBH PHI or PI required to perform necessary business functions may be copied, downloaded, or exported.
4. **Removable Media Devices.** All electronic files that contain DBH PHI or PI data must be encrypted when stored on any removable media or portable device (i.e. USB thumb drives, floppies, CD/DVD, Blackberry, backup tapes, etc.). Encryption must be a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES.
5. **Antivirus / Malware Software.** All workstations, laptops and other systems that process and/or store DBH PHI or PI must install and actively use comprehensive anti-virus

software / Antimalware software solution with automatic updates scheduled at least daily.

6. Patch Management. All workstations, laptops and other systems that process and/or store DBH PHI or PI must have all critical security patches applied with system reboot if necessary. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within thirty (30) days of vendor release. Applications and systems that cannot be patched within this time frame due to significant operational reasons must have compensatory controls implemented to minimize risk until the patches can be installed. Application and systems that cannot be patched must have compensatory controls implemented to minimize risk, where possible.
7. User IDs and Password Controls. All users must be issued a unique user name for accessing DBH PHI or PI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password. Passwords are not to be shared. Passwords must be at least eight characters and must be a non-dictionary word. Passwords must not be stored in readable format on the computer. Passwords must be changed at least every ninety (90) days, preferably every sixty (60) days. Passwords must be changed if revealed or compromised. Passwords must be composed of characters from at least three of the following four groups from the standard keyboard:
  - a. Upper case letters (A-Z)
  - b. Lower case letters (a-z)
  - c. Arabic numerals (0-9)
  - d. Non-alphanumeric characters (special characters))
8. Data Destruction. When no longer needed, all DBH PHI or PI must be wiped using the Gutmann or U.S. Department of Defense (DoD) 5220.22-M (7 Pass) standard, or by degaussing and in accordance with 42 C.F.R. § 2.16 Security for Records. Media may also be physically destroyed in accordance with NIST Special Publication 800-88. Other methods require prior written permission of DBH's Office of Information Technology.
9. System Timeout. The system providing access to DBH PHI or PI must provide an automatic timeout, requiring re-authentication of the user session after no more than twenty (20) minutes of inactivity.
10. Warning Banners. All systems providing access to DBH PHI or PI must display a warning banner stating that data is confidential, systems are logged, and system use is for business purposes only by authorized users. User must be directed to log off the system if they do not agree with these requirements.
11. System Logging. The system must maintain an automated audit trail which can identify the user or system process which initiates a request for DBH PHI or PI, or which alters DBH PHI or PI. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users. If DBH PHI or PI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least three (3) years after occurrence.
12. Access Controls. The system providing access to DBH PHI or PI must use role based access controls for all user authentications, enforcing the principle of least privilege.
13. Transmission Encryption. All data transmissions of DBH PHI or PI outside the secure internal network must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES. Encryption can be end to end at the network level, or the data files containing DBH PHI can be encrypted. This requirement pertains to any type of DBH PHI or PI in motion such as website access, file transfer, and E-Mail.

14. Intrusion Detection. All systems involved in accessing, holding, transporting, and protecting DBH PHI or PI that are accessible via the Internet must be protected by a comprehensive intrusion detection and prevention solution.

### C. Audit Controls

1. System Security Review. Contractor must ensure audit control mechanisms that record and examine system activity are in place. All systems processing and/or storing DBH PHI or PI must have at least an annual system risk assessment/security review which provides assurance that administrative, physical, and technical controls are functioning effectively and providing adequate levels of protection. Reviews should include vulnerability scanning tools.
2. Log Review. All systems processing and/or storing DBH PHI or PI must have a routine procedure in place to review system logs for unauthorized access.
3. Change Control. All systems processing and/or storing DBH PHI or PI must have a documented change control procedure that ensures separation of duties and protects the confidentiality, integrity and availability of data.

### D. Business Continuity/Disaster Recovery Controls

1. Emergency Mode Operation Plan. Contractor must establish a documented plan to enable continuation of critical business processes and protection of the security of DBH PHI or PI held in an electronic format in the event of an emergency. Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this Agreement for more than 24 hours.
2. Data Backup Plan. Contractor must have established documented procedures to backup DBH PHI to maintain retrievable exact copies of DBH PHI or PI. The plan must include a regular schedule for making backups, storing backups offsite, an inventory of backup media, and an estimate of the amount of time needed to restore DBH PHI or PI should it be lost. At a minimum, the schedule must be a weekly full backup and monthly offsite storage of DBH data.

### E. Paper Document Controls

1. Supervision of Data. DBH PHI or PI in paper form shall not be left unattended at any time, unless it is locked in a file cabinet, file room, desk or office. Unattended means that information is not being observed by an employee authorized to access the information. DBH PHI or PI in paper form shall not be left unattended at any time in vehicles or planes and shall not be checked in baggage on commercial airplanes.
2. Escorting Visitors. Visitors to areas where DBH PHI or PI is contained shall be escorted and DBH PHI or PI shall be kept out of sight while visitors are in the area.
3. Confidential Destruction. DBH PHI or PI must be disposed of through confidential means, such as cross cut shredding and pulverizing and in accordance with 42 C.F.R. § 2.16 Security for Records.
4. Removal of Data. Removal of DBH PHI or PI may not be removed from the premises of Contractor unless authorized under 42 CFR Part 2.
5. Faxing. Faxes containing DBH PHI or PI shall not be left unattended and fax machines shall be in secure areas. Faxes shall contain a confidentiality statement notifying persons receiving faxes in error to destroy them. Fax numbers shall be verified with the intended recipient before sending the fax.
6. Mailing. Mailings containing DBH PHI or PI shall be sealed and secured from damage or inappropriate viewing of such PHI or PI to the extent possible.

### **ATTACHMENT III**

Mailings which include 500 or more individually identifiable records of DBH PHI or PI in a single package shall be sent using a tracked mailing method which includes verification of delivery and receipt, unless the prior written permission of DBH to use another method is obtained.
