24		An initial deposit is required for each actual cost service or process. The

The notice shall include the date by which the deposit must be made and shall inform the applicant that unless provision for payment is made by the date specified, the application will be deemed denied without prejudice, without further action by the San Bernardino County Flood Control District. Any such denial without prejudice is not appealable. Each estimate shall be the result of a good faith attempt to determine the probable actual cost of the service or process based on the nature of the project, the District's experience in processing similar services or processes, and applicable rates. In addition, the Flood Control Engineer or designee has the authority, with agreement of the applicant, to increase or decrease the required initial deposit amounts based on the complexity of the service or process. In addition, deposits may also be placed in a Developer Deposit Account. Deposited funds in a Developer Deposit Account may be used by an individual or entity to fund various Project Trust Accounts.

(4) Applicant's obligation to pay actual cost:

The applicant shall pay the actual cost of the project, regardless of any estimate; except that the applicant is not obligated for costs incurred after the applicant delivers to the San Bernardino County Flood Control District either an unconditional written withdrawal of the application, or a written notice to stop work which includes a waiver of any applicable time limits for

23 waiver/refund/deferral would not be immediately feasible; and
