NOW, THEREFORE, in consideration of mutual covenants and conditions the parties hereto agree as follows:

WITNESSETH:

RESPONSIBILITIES AND DUTIES OF THE TOWN

1. The Town agrees to operate a Household Hazardous Waste Collection Facility (hereinafter referred to as "Facility") for the District at the following location: Town of Apple Valley, 13450 Nomwaket Rd, Apple Valley, CA, in accordance with the most recent edition of the District's "The Satellite Facilities Operations Manual", as referred to and amended from time to time in accordance with Section 7 hereof (hereinafter referred to as "Operations Manual"). Employees or contractors of the Town who have current training by the District will accept only "Household Hazardous Waste", as defined in Title 22, section 66260.10 of the California Code of Regulations and in California Health and Safety Code section 25218.1(d). The facility will be open to County residents for collection of Household Hazardous Waste at least ten (10) hours per month, except during inclement weather and Town observed holidays. The designated employees of the Town will categorize, pack and label the wastes in accordance with the Operations Manual. The wastes will be stored in their original packaging (except used motor oil and used antifreeze) and placed in the District provided containers inside the waste storage area (located within the fenced area of the Facility). The Town approves the Facility's storage area(s) of ignitable and/or reactive waste designated by the District. The Town approves the Facility's traffic control which is directed by authorized staff.
2. The Town shall be responsible for maintenance of the Facility, the safety of persons and materials on the property of the Facility and keeping the Facility secure. It shall not be necessary for the Town to require a person to be present at all times on the site of the Facility where the waste will be stored.
3. The Town shall notify and obtain approval from the District prior to making any changes in the maintenance and/or operations of the Facility. The Town shall notify the District of any changes in the management of the Facility.
4. The Town shall publicize to its residents the need to properly reduce, recycle, store, transport and dispose of Household Hazardous Waste and inform its residents of the availability of nearby household hazardous waste collection facilities for safe management of household hazardous waste, in the manner and form recommended by District.
5. The Town shall publicize to its residents the maximum quantities of hazardous waste allowed for transportation which are containers no larger than 5 gallons and maximum quantities of 15 gallons or 125 pounds per trip brought to a household hazardous waste collection facility per participant.
6. The Town shall publicize to its small businesses that need to dispose of small quantities of business waste to contact the District and make an appointment to use the Very Small Quantity Generator (VSQG) program for proper disposal.
7. The Town shall publicize to its residents that home generated sharps containers shall only contain needles, lancets and syringes with a needle attached that must be completely spent (used and no liquid remaining, this includes EpiPens). The public may use 2 gallon or smaller heavy-duty plastic household containers as an alternative to plastic bio-hazard sharps containers. The container should be leak-resistant, remain upright during use and have a tight fitting, puncture-resistant lid, such as a plastic laundry detergent container. Containers consisting of glass, metal, cardboard or paper will not be accepted.

8. Agreement Compliance. Town agrees to comply with all applicable Federal, State and County laws, regulations and policies in carrying out its responsibilities under this Agreement.

RESPONSIBILITIES AND DUTIES OF THE DISTRICT

9. The District shall continue to operate a comprehensive Household Hazardous Waste Program (Program) for the safe collection, recycling, treatment and disposal of household hazardous waste, including universal waste, Home-generated Sharps (HGS), and pharmaceutical waste excluding controlled substances. The District program shall be based on a Central Processing Facility and a regional network of collection centers sited so as to provide safe, convenient service to the public in a cost-effective manner.
10. The District shall act as the generator and transporter of the Household Hazardous Wastes and shall assume responsibility for maintaining the necessary site and transportation permits. Further, the District will train Town personnel or its contractor and provide the Operations Manual, which designates waste to be accepted, defines a categorization scheme for wastes anticipated, and specifies emergency procedures to be followed. The District shall continue to provide an initial 32-hour training course for new Household Hazardous Waste personnel of the Town and subsequent annual 8-hour "refresher" training course for Town Household Hazardous Waste employees. If there are changes to the Operations Manual, written notification and/or special training sessions shall be provided to the Town at least thirty (30) days prior to their effective date. The Operations Manual shall be consistent with all state and federal regulations applicable to Household Hazardous Waste facilities and amended as necessary.
11. The District will provide approved waste storage containers, meeting the specifications of the Department of Transportation for the disposal of hazardous waste and sufficient absorbent materials for "over packing" the waste containers. At the termination or expiration of this Agreement, all items provided by the District shall belong to the District, unless otherwise agreed upon in writing. The District will provide an Emergency Coordinator to offer support and assistance to the Town during Facility operating hours excluding County observed holidays.
12. The District shall either remove the household hazardous wastes at the Facility periodically or independently contract with a licensed hazardous waste hauler to remove the accumulated wastes, monthly, and to recycle or dispose of wastes at an approved facility at no additional cost to the Town.
13. The District shall provide an annual report to the Town, which shall include the amounts and types of waste collected, participation by jurisdiction, and final disposition of the waste. The report will be provided at no additional cost to the Town.
14. The District shall compile and provide to the California Department of Resources Recycling and Recovery (CalRecycle), the Department of Toxic Substances Control, and the Certified Unified Program Agency, the Town's Annual Form 303 Report. The report will be provided at no additional cost to the Town.
15. The District shall provide to the Town, flyers/brochures/education material that shall be distributed by the Town electronically. Hard copies will also be provided upon request, at no additional cost to the Town.
16. The District shall charge any business that disposes of household hazardous waste the actual cost of disposal as indicated in the District's fee ordinance. If the Town operates its own household hazardous waste collection facility and business waste is accepted at any satellite facility, the Town will be responsible for the disposal cost of the business waste.

17. The District shall provide an electronic biohazardous waste label to every participant that disposes of home generated sharps. As provided in Paragraph 7, the public may use 2 gallon or smaller heavy-duty plastic household containers such as a plastic laundry detergent container as an alternative to plastic bio-hazard sharps containers. The biohazardous waste label shall be placed on the rigid heavy-duty, puncture-resistant plastic container used to dispose of home generated sharps.
