BACKGROUND INFORMATION

Approval of Amendment No. 1 to Agreement No. 23-109 with Net Health Systems, Inc. (Net Health), will allow ARMC to use their software for the ARMC Employee Health Service database. The software maintains a separate database for healthcare personnel records as required per California Code of Regulations (CCR) Title 22 Section 70723.

The software allows for easy retrieval of records to satisfy follow-up of communicable disease exposures and other internal and external reports. The software currently interfaces with Employee Management and Compensation System (EMACS) for work related information and the California Immunization Registry (CAIR) for reporting immunizations at the state level.

On February 28, 2023 (Item No. 6), as the result of a non-competitive procurement, the Board of Supervisors approved Master Agreement 23-109 with Net Health including non-standard terms, for a software solution to track employee health data and monitor regulatory compliance, for a
