The Project involves milling the existing pavement and overlaying the roadway with new asphalt concrete, replacing deteriorated sections of asphalt concrete dike and pavement striping on Garnet Street, Florida Street and Greenspot Road in the Mentone area. All work for this Project will be done within the existing road right-of-way and no additional right-of-way will need to be acquired. The Project will meet the County and Chief Executive Officer's goals and objectives of ensuring the development of a well-planned, balanced and sustainable County and providing for the safety, health and social service needs of County residents by preserving and improving the structural integrity of existing road surfaces.

Environmental staff of the Department has reviewed this Project and determined that a categorical exemption in accordance with the California Environmental Quality Act (CEQA) Guidelines, Title 14 of the California Code of Regulations, Section 15301(c) is appropriate. This exemption is specific to existing highways and streets, sidewalks, gutters, bicycle and pedestrian trails, and similar facilities. The exemption allows for the operation, repair,
