The ACAMS is an automated system for controlling and monitoring access of people crossing areas of differing security levels, and provides airport personnel with information needed to securely operate, enforce, and review airport security operations. Upgrade of the ACAMS system will also set the foundation for adding biometrics and other future access control technologies, and will allow for faster response of law enforcement and fire agencies. OIAA anticipates ongoing support costs for ONT will be reduced as a result of this upgrade. The Project is anticipated to be completed September 31, 2020. THIS FUNDING AGREEMENT 2020-1 (“Agreement”) is entered into by and between the **County of San Bernardino (“County”)**, a political subdivision of the State of California duly organized and existing under the Constitution and laws thereof and the **Ontario International Airport Authority (“Authority”)** (singularly, a **“Party”**, collectively, the **“Parties”**).

RECITALS

WHEREAS, the County and the City of Ontario (**“City”**) entered into a Joint Exercise of Powers Agreement (**“JPA”**) in August 2012 to provide overall direction and the continuing operation, maintenance, management, administration, development and marketing of the Ontario International Airport (**“Airport”**) for the benefit of the citizens of the City and the County; and

WHEREAS, Section 8 of the JPA authorizes the City and the County to make contributions, payments or advances of public funds to the Authority for the purposes identified in the JPA; and

WHEREAS, Section 4 of the JPA provides that the Authority possesses the powers common to the Parties “necessary or convenient to the operation, maintenance, management, development, and marketing of the Airport;” and

WHEREAS, the Authority has recognized the need for improving security at the Airport to include upgrade of the current Access Control and Alarm Management System (ACAMS), procurement of hardware, and software integration services and data migration (**“Project”**). The ACAMS is an automated system for controlling and monitoring access of people crossing areas of differing security levels, and provides airport personnel with information needed to securely operate, enforce, and review airport security operations. The Project will set the foundation for adding bio-metrics and other future access control technologies, and will allow for faster response of law enforcement and fire agencies to alarms due to integration of the ACAMS system with the Computer Aided Dispatch system of these agencies. The Project will also offer greater flexibility of vendors who may offer support, hardware and software integration. Through this Agreement, the County wishes to contribute the sum of \$250,000 towards the costs of the Project.

WHEREAS, the County desires to contribute to the Project utilizing \$250,000 in funds allocated to the Economic Development budget during the County 2019-20 budget process and approved by the County Board of Supervisors on June 11, 2019 (Item No. 106) for projects that support the Airport; and

WHEREAS, Section 8 of the JPA requires that either the City or County must enter into an agreement with the Authority for any funds provided, setting forth the method and manner of payment, disbursement and repayment of the funds; and

WHEREAS, the Parties desire to enter into this Agreement to provide the Authority with funds for use in the Project and to comply with the JPA.

Section 2. Assistance to the Authority. Pursuant to Section 8 of the JPA, the County desires to provide \$250,000 ("**County Funds**") to the Authority to assist with the Project. County will transmit the County Funds within 60 days of the full execution of this Agreement by both the County Board of Supervisors and the Authority Commission. The Authority will provide any necessary information requested by County staff for the transmission of the County Funds.
