Addendum A

Master of Science in Physician Assistant (MSPA) program

CSUSB desires to provide its physician assistant students enrolled in the Master of Science in Physician Assistant (MSPA) program ("Student" or "Students") with Supervised Clinical Practice Experiences through clinical preceptorships at the Department of Behavioral Health (DBH) for the clinical training portion (hereinafter called "Program") of the MSPA program. Licensed medical practitioners at DBH shall provide the Students with mentorship, in addition to real-world clinical training.

DBH OBLIGATION:

1. **Orientation.** DBH shall provide an orientation for the Program students with respect to applicable policies and procedures at all sites where Students will participate in supervised clinical practice experiences and with which students are expected to comply, including, but not limited to, those policies and procedures that promote personal safety and security measures and workplace security. DBH shall take reasonable steps to ensure the personal security and safety of Students while they are engaged in the supervised clinical practice experience.
2. **Student Supervision.** DBH shall ensure that staffing is adequate in number and quality to ensure safe continuous health care services to the patients. In the absence of CSUSB faculty, DBH shall permit students to perform services for patients only when under the supervision of a registered, licensed, or certified clinician/professional on DBH's staff. Such clinicians or professionals are to be certified or licensed in the discipline in which supervision is provided. Students shall train (students train vs. work), perform assignments, and participate in ward rounds, clinics, staff meetings, and in-service educational programs at the discretion of their CSUSB faculty and/or DBH-designated supervisors. DBH should not include students and faculty as part of staffing ratios. Students are to be regarded as trainees and must not substitute for or function as the DBH's clinical or administrative staff. All services rendered by Students must have educational value and align with the Program's learning outcomes. Students are not to render unsupervised patient care and/or services.
3. **Evaluations.** DBH staff (who provide supervision) shall evaluate the learning and performance of the Students by completing assessment forms for the supervised clinical practice experience. These assessments will be provided by the Program and should be returned to the Program in a timely manner following the conclusion of the experience.
