NOT FOR BID

1 INTRODUCTION

Ninyo & Moore was retained by the County of San Bernardino (herein referred to as the client) to perform a Phase I Environmental Site Assessment (ESA) of the approximate 1.8-acre property consisting of portions of San Bernardino County Assessor's Parcel Numbers (APNs) 0273-011-23 and -24 in San Bernardino, California (hereinafter referred to as the site) in accordance with our proposal dated May 25, 2022. The following sections discuss the purpose, the involved parties, the scope of services, and the limitations and exceptions associated with the Phase I ESA.

1.1 Purpose

Ninyo & Moore prepared this ESA for the purpose of facilitating planned acquisition of the site. In accordance with the ASTM International (ASTM) Standard Practice for ESAs on Commercial Real Estate E1527-13 and United States Environmental Protection Agency's (EPA) All Appropriate Inquiries (AAI) rule (40 Code of Federal Regulations Part 312 Section 312.25), the objective of the Phase I ESA is to evaluate recognized environmental conditions (RECs). The term recognized environmental conditions means "the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. *De minimis* conditions are not recognized environmental conditions."

Identification of RECs fall into the following three categories: existing RECs (as defined above); Historical RECs (HRECs); or Controlled RECs (CRECs). HRECs and CRECs are defined as follows:

- HREC – An HREC is defined as "a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations [AULs], institutional controls, or engineering controls)." An HREC is an environmental condition, which in the past, would have been considered a REC, but currently may or may not be considered a REC. An example of an HREC may be a former gas station where a release of gasoline had occurred, but the site was cleaned up to an unrestricted land use standard.
- CREC – A CREC is defined as a "recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by a regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, AULs, institutional controls, or engineering controls)." An example of a CREC could be a former gas station where a release of gasoline has been cleaned up to a commercial use standard, but does not meet unrestricted residential cleanup criteria.

1.2 Scope of Services

Ninyo & Moore's scope of services for this Phase I ESA included the activities listed below.

- Reviewed federal and state environmental record sources for the site and for properties located within the search radii prescribed by ASTM for the respective environmental record sources.
- Reviewed readily available historical information for the site, such as historical aerial photographs, historical topographic maps, reverse street directories, Sanborn fire insurance maps, and building department records.
- Performed a site reconnaissance to visually evaluate site conditions.
- Conducted interviews with present owners, operators, and occupants of the site as well as other knowledgeable parties as appropriate.
- Performed a site vicinity reconnaissance and evaluated conditions of adjacent and nearby properties for possible environmental influences on the site.
- Prepared this Phase I ESA report that meets ASTM E1527-13 and EPA AAI reporting criteria, summarizing findings and providing opinions and conclusions regarding RECs at the site.

1.3 Significant Assumptions

Ninyo & Moore assumes the information sources from the third-party environmental database vendor, regulatory agencies, and interviewees utilized for this report provided adequate and accurate information. Other significant assumptions were not made during the preparation of this report.

1.4 Limitations and Exceptions

The environmental services described in this report have been conducted in general accordance with current regulatory guidelines and the standard of care exercised by environmental consultants performing similar work in the project area. No warranty, expressed or implied, is made regarding the professional opinions presented in this report.

This document is intended to be used only in its entirety. No portion of the document, by itself, is designed to completely represent any aspect of the project described herein. Ninyo & Moore should be contacted if the reader requires any additional information or has questions regarding the content, interpretations presented, or completeness of this document.

The findings, opinions, and conclusions are based on an analysis of the observed site conditions and the referenced literature. It should be understood that the conditions of a site could change with time as a result of natural processes or the activities of man at the subject site or nearby sites. In addition, changes to the applicable laws, regulations, codes, and standards of practice may occur due to government action or the broadening of knowledge. The findings of this report

may, therefore, be invalidated over time, in part or in whole, by changes over which Ninyo & Moore has no control. Ninyo & Moore cannot warrant or guarantee that not finding indicators of any particular hazardous material means that this particular hazardous material or any other hazardous materials do not exist on the site. Additional research, including invasive testing, can reduce the uncertainty, but no techniques now commonly employed can eliminate the uncertainty altogether.

1.5 Special Terms and Conditions

This study did not include an evaluation of geotechnical conditions or potential geologic hazards. In addition, unless otherwise indicated in this report, this Phase I ESA does not include analysis of the following, which is not intended to be all-inclusive: asbestos-containing materials, methane gas, lead-based paint, lead-containing surfaces, lead in drinking water, underground pipelines, regulatory compliance, cultural and historic resources, industrial hygiene, health and safety, ecological resources, endangered species, or high voltage power lines.

1.6 User Reliance

This report may be relied upon by, and is intended exclusively for, the client, their lenders, capital partners, and assigns. Any use or reuse of the findings, opinions, and/or conclusions of this report by parties other than the above-referenced client is undertaken at said parties' sole risk.

1.7 Involved Parties

Ms. Aileen Chea, Staff Engineer, performed regulatory and historical research and conducted the site reconnaissance on July 13, 2022. Mr. Patrick Cullip, Senior Project Engineer, and Mr. Jeff Aguilar, Principal Environmental Operations Manager, performed quality review.

2 SITE DESCRIPTION

The following table provides a general description of the subject site. Photographs taken during the site reconnaissance are provided in Appendix A.

| General Site Setting | Description |
|-----------------------------|--|
| Location | The site is located west of Del Rosa Avenue North (Figures 1 and 2). The site does not have an address associated with it. |
| Assessor Parcel No. | Portions of 0273-011-23 and 0273-011-24 (County of San Bernardino) |
| Property Owner | County of San Bernardino |
| Size (approximate) | 1.8 acres |
| Site Use / Occupants | The site is currently vacant land. |
| Structures | At the time of the site reconnaissance, the site was vacant land. |
| Roads | The site is accessible via Del Rosa Avenue North from the east. |
| Heating and Cooling Systems | Not applicable |

Table 1 – General Site Setting

| General Site Setting | Description |
|--------------------------------------|---|
| Electricity and Natural Gas Provider | Not applicable |
| Sewer Disposal Provider | Not applicable |
| Potable Water Provider | Not applicable |
| Site Vicinity Description | Residential properties to the south, a fire station to the east, and vacant land to the north and west. |

3 USER-PROVIDED INFORMATION

Mr. Beville Lloyd with the County of San Bernardino filled out the User Questionnaire. The following table summarizes information provided by Mr. Lloyd. A copy of the questionnaire is provided in Appendix B.

Table 2 – Summary of User-Provided Information

| User's Responsibilities | User's Responses |
|--|--|
| Title Records | Title records were not provided. |
| Environmental Liens or Activity and Use Limitations (AULs) | Mr. Lloyd was not aware of environmental liens or AULs recorded against the site. |
| Specialized Knowledge | Mr. Lloyd did not have specialized knowledge regarding the site. |
| Commonly Known or Reasonably Ascertainable Information | Mr. Lloyd did not have commonly known or reasonably ascertainable information regarding the site. |
| Valuation Reduction for Environmental Issues | The user did not indicate whether the fair market value of the property was affected by contamination. |
| Reason for Performing Phase I ESA | Planned development of fire station |

4 RECORDS REVIEW

The following sections summarize records reviewed for the site.

4.1 Standard Environmental Record Source - Environmental Database Search

An environmental information database search was performed by Environmental Data Resources, Inc. (EDR) on July 7, 2022. The search included federal, state, tribal, and local databases. A summary of the environmental databases searched, their corresponding search radii, and number of noted properties of potential environmental concern, is presented in the EDR report (Appendix C). The review was conducted to evaluate whether the site or properties within the site vicinity have been documented as having experienced significant unauthorized releases of hazardous substances or other events with potentially adverse environmental effects.

4.1.1 Geocoded (Mapped) Listings

Properties within a 1-mile radius from the site were searched for listings on various regulatory agency databases. The following table lists databases that were searched and the number of listings (excluding non-geocoded [unmapped] properties).

Table 3 – Summary of Environmental Database Search

| Database Name | Search Radius (mile) | Number of Listings |
|--|----------------------|--------------------|
| Federal Databases | | |
| NPL (National Priority List) | 1 | 0 |
| Proposed NPL (Proposed National Priority List Sites) | 1 | 0 |
| NPL LIENS (Federal Superfund Liens) | 1 | 0 |
| Delisted NPL (National Priority List Deletions) | 1 | 0 |
| FEDERAL FACILITY (Federal Facility Site Information listing) | 0.5 | 0 |
| SEMS (Superfund Enterprise Management System; formerly Comprehensive Environmental Response Compensation and Liability Information System) | 0.5 | 0 |
| SEMS-ARCHIVE (Superfund Enterprise Management System Archive) | 0.5 | 0 |
| CORRACTS (facilities subject to Corrective action under RCRA) | 1 | 0 |
| RCRA-TSDF (hazardous waste treatment, storage, or disposal facilities) | 0.5 | 0 |
| RCRA-LQG (large quantity generator) | 0.25 | 1 |
| RCRA-SQG (small quantity generator) | 0.25 | 3 |
| RCRA-VSQG (very small quantity generator) | 0.25 | 1 |
| LUCIS (Land Use Control Information System) | 0.5 | 0 |
| US ENGINEERING CONTROL (EC) | 0.5 | 0 |
| US INSTITUTIONAL CONTROL (IC) | 0.5 | 0 |
| ERNS (Emergency Notification System) | TP | 0 |
| State/Tribal Databases | | |
| RESPONSE (State Response Sites, State- and Tribal- equivalent NPL) | 1 | 1 |
| ENVIROSTOR (The Department of Toxic Substance Control's [DTSC's] Site Mitigation and Brownfields Reuse Program; CERCLIS-equivalent) | 1 | 3 |
| SWF/LF (SWIS) (Solid Waste Information System) | 0.5 | 0 |
| LUST (Geotracker's Leaking Underground Fuel Tank Report) | 0.5 | 1 |
| INDIAN LUST (Leaking Underground Storage Tanks on Indian Land) | 0.5 | 0 |
| CPS-SLIC (Cleanup Program Sites- Spills, Leaks, Investigation, and Cleanup) | 0.5 | 0 |
| FEMA UST (Underground Storage Tank Listing) | 0.25 | 0 |
| UST (registered underground storage tanks [USTs]) | 0.25 | 0 |
| AST (registered aboveground storage tanks [ASTs]) | 0.25 | 1 |
| INDIAN UST (Underground Storage Tanks on Indian Land) | 0.25 | 0 |
| VCP (Voluntary Cleanup Priority Listing) | 0.5 | 0 |
| INDIAN VCP (Voluntary Cleanup Priority Listing) | 0.5 | 0 |
| BROWNFIELDS (Project Tracking Database) | 0.5 | 0 |
| Other Databases | | |
| WMUDS/SWAT (Waste Management Unit Database/State Water Resources Control Board) | 0.5 | 0 |
| SWRCY (Recycler Database) | 0.5 | 1 |
| CERS HAZ WASTE (California Environmental Reporting System Hazardous Waste) | 0.25 | 5 |
| SWEEPS UST (Statewide Environmental Evaluation and Planning System UST) | 0.25 | 1 |
| HIST UST (Hazardous Substance Storage Container Database) | 0.25 | 2 |
| CERS TANKS (California Environmental Reporting System Tanks) | 0.25 | 1 |
| CA FID UST (Facility Inventory Database) | 0.25 | 1 |
| DEED (Deed Restriction Listing) | 0.5 | 0 |
| CHMIRS (California Hazardous Material Incident Reporting System) | TP | 0 |
| RCRA NonGen/NLR (Resource Conservation and Recovery Act - Non Generators / No Longer Regulated) | 0.25 | 11 |
| FINDS (Facility Index System) | TP | 0 |
| Cortese ("Cortese" Hazardous Waste & Substances Sites List) | 0.5 | 1 |
| DRYCLEANERS (Cleaner Facilities) | 0.25 | 3 |
| ENF (Enforcement Action Listing) | TP | 0 |
| HAZNET (Facility and Manifest Data) | TP | 0 |
| HIST Cortese (Hazardous Waste & Substance Site List) | 0.5 | 0 |
| HWP (EnviroStor Permitted Facilities Listing) | 1 | 0 |
| San Bern. Co. Permit (San Bernardino County Permit) | 0.25 | 13 |
| CIWQS (California Integrated Water Quality System) | TP | 0 |
| EDR MGP (EDR Proprietary Manufactured Gas Plants) | 1 | 0 |
| EDR Historical Auto (EDR Exclusive Historical Auto Stations) | 0.125 | 2 |
| EDR Historical Cleaner (EDR Exclusive Historical Cleaners) | 0.125 | 0 |
| Notes: | | |
| TP – Target Property | | |
| LUST – Leaking Underground Storage Tank | | |

The site was not listed under any of the searched environmental databases.

Off-site properties/facilities listed in the database report were evaluated as to their potential to impact soil and/or groundwater at the site. To supplement the information in the EDR report, the State Water Resources Control Board (SWRCB) GeoTracker online database and the Department of Toxic Substances Control (DTSC) EnviroStor online database were reviewed. Information from the EDR database report and supplemental sources is included in the facilities of potential concern summaries below. The review was conducted to evaluate whether the site or properties within the site vicinity have been documented as having experienced significant unauthorized releases of hazardous substances or other events with potentially adverse environmental effects.

Table 4 – Off-Site Facilities of Potential Concern

| Facility Name / Address | Distance/ Direction from Site (Approximation by EDR) | Database | Summary |
|---|--|--|---|
| SB City Fire Station #226 1920 Del Rosa Avenue North | Adjoining to the east | AST HIST UST HWTS HIST UST HAZNET SWEEPS UST CA FID UST CERS TANKS SAN BERN. CO. PERMIT CERS | <p>According to the HIST UST, the facility reported two USTs (280-gallon of diesel product, and 50-gallon of gasoline), which were installed in 1976. According to the Registered Aboveground Storage Tanks (AST), the facility reported a 2,000-gallon aboveground storage tank, which was observed during the site reconnaissance (Section 5). The contents were not reported. Records were not available indicating the removal of the USTs. Based on aerial photographs (Section 4.4.3) and the site reconnaissance (Section 5), the current fueling area for the fire station is approximately 140 feet east of the site. Although records did not indicate the locations of the USTs, they may have been located in the current fueling area.</p> <p>CERS listed the facility for multiple violations in 2015, 2017, and 2020 for failure to implement a Spill Prevention Control and Countermeasure (SPCC) Plan. The facility returned to compliance within several months. Based on the lack of a reported leak and/or spill, the nature of the databases, and the estimated distance from the USTs, this listing is not considered an environmental concern to the site.</p> |
| Del Rosa Villa LLC 2018 N Del Rosa Ave | 0.07 mile north | SAN BERN. CO. PERMIT CERS | <p>CERS listed the facility for multiple violations in 2013 and 2019 for improper administration and recordkeeping. The facility returned to compliance within the month or several months. Based on the lack of a reported leak and/or spill and the nature of the databases, this listing is not considered an environmental concern to the site.</p> |
| Arrowhead Regional Medical Center 1499 East Highland Avenue | 0.159 mile north | HWTS HAZNET NPDES SAN BERN. CO. PERMIT | <p>In 2017, this facility was listed as a landfill containing 5.75 tons of asbestos containing waste, with a planned closure including on-site treatment/stabilization. Based on the nature of the database and type of waste, this facility is not considered an environmental concern to the site.</p> |
| Del Rosa Cleaners Inc 1568 E Highland Avenue | 0.178 mile north | DRYCLEANERS | <p>According to the DRYCLEANERS database, this facility had an inactive permit status and was listed for the use of perchloroethylene. Based on the lack of reported leaks and/or spills and distance, this listing is not considered an environmental concern to the site.</p> |
| Comet 1 Hour Cleaners 1643 Highland, Suite C | 0.226 mile northeast | DRYCLEANERS | <p>The DRYCLEANERS database listed this facility as “dry cleaning plants, except rug cleaning.” Information was not provided regarding the permit status. Based on the lack of reported leaks and/or spills and distance, this listing is not considered an environmental concern to the site.</p> |
| Absolute Auto Repair 1666 E Highland Avenue | 0.245 mile northeast | HWTS HAULERS SAN BERN. CO. PERMIT CERS | <p>CERS listed the facility for multiple violations between 2013 and 2019 for improper housekeeping, administration, recordkeeping, employee trainings, and management and inspections of hazardous waste storage. The facility returned to compliance within a month to several years, and several violations did not report a return to compliance. Based on the lack of a reported leak and/or spill and the nature of the databases and distance, this listing is not considered an environmental concern to the site.</p> |

Table 4 – Off-Site Facilities of Potential Concern

| Facility Name / Address | Distance/ Direction from Site (Approximation by EDR) | Database | Summary |
|--|--|---|---|
| Town & Country Cleaners 1677 E Highland Avenue | 0.246 mile northeast | HWTS CERS HAZ WASTE DRYCLEANERS EMI SAN BERN. CO. PERMIT CERS RCRA NONGEN / NLR | The DRYCLEANERS database listed this facility as a “power laundries, family and commercial” that has an active permit expiring on November 30, 2022. Based on the lack of reported leaks and/or spills and distance, this listing is not considered an environmental concern to the site. |
| Pronto Marketing #316 1198 Highland Avenue | 0.444 mile northwest | LUST CORTESE CERS | According to GeoTracker, former single-walled fuel USTs were removed in July 1999, and new double-walled USTs were subsequently installed. On June 1, 2002, a case was initiated for remediation for potential contaminants of concern (COC) including gasoline, Methyl tert-Butyl Ether (MTBE), Tertiary Butyl Alcohol (TBA), and other fuel oxygenates in soil and groundwater. Active remediation was discontinued in June 2005 and a Closure/No Further Action Letter was issued on December 7, 2006. Based on the distance, direction, and regulatory status, this listing is not considered an environmental concern to the site. |
| Gerald Hobbs Property 7194 Conejo Drive | 0.699 mile south-southwest | RESPONSE ENVIROSTOR LIENS CERS | According to EnviroStor, on June 11, 2005 the residential facility was reported to have been conducting precious metal extraction from circuit boards, resulting in poured liquid waste in a 12 inch diameter, 4 inch deep outdoor depression. Over several years, approximately 300 gallons of nitric acid was dumped in the small pit. Additional liquid wastes used in the metal extraction included hydrochloric acid and ferrous sulfide. Lab analyses found elevated levels of arsenic, copper, and nickel over the Soluble Threshold Limits Concentration (STLC) values. Removal action activities were conducted between May 2008 and November 2008, and included excavation and off-site disposal of the contaminated soil. The Department of Toxic Substances Control (DTSC) approved the Final Removal Action Completion Report on January 27, 2009. Based on the distance, direction, media affected, and regulatory status, this listing is not considered an environmental concern to the site. |

Notes:
 - Distances and direction provided by EDR
 - Additional information from each database is provided in the EDR Report (Appendix C).
 UST – underground storage tank

It is our opinion that there is a low likelihood that the listings for other off-site properties listed in the database report represent a REC to the site. This opinion is based on one or more of the following factors:

- The nature of the database(s) on which the property is listed, and/or because the property was not listed on a database that reports unauthorized releases of hazardous substances;
- Reported regulatory agency status (i.e., case closed);
- Reported nature of the case (i.e., soil contamination only); and/or
- Location of the property in relation to the site with respect to topography or expected groundwater flow direction (southwest).

4.1.2 Non-Geocoded (Unmapped) Listings

Unmapped properties are shown by EDR as Orphan Sites. The EDR Orphan Summary did not list any facilities with incomplete addresses.

4.2 Additional Environmental Record Sources

According to the ASTM Standard, “if the property or any of the adjoining properties is identified on one or more of the standard environmental record sources, pertinent regulatory files and/or records associated with the listing should be reviewed.” Regulatory agency files were requested for the site APNs (0273-011-23 and 0273-011-24). The review of regulatory agency records is discussed in the following sections. Regulatory records are provided in Appendix D.

4.2.1 Department of Toxic Substances Control (DTSC)

Ninyo & Moore requested records for the site from the DTSC – Chatsworth office on July 8, 2022. According to representatives of the DTSC Chatsworth office on July 11, 2022, records were not found for the site APNs.

4.2.2 Regional Water Quality Control Board (RWQCB), Santa Ana Region

Ninyo & Moore requested records for the site from RWQCB on July 8, 2022. According to RWQCB on July 8, 2022, records are not available for site APNs with no associated addresses.

4.2.3 San Bernardino County Fire Protection District (SBCFPD)

Ninyo & Moore requested records for the site and adjoining property from the SBCFPD on July 8, 2022. According to a representative of the SBCFPD on July 12, 2022, records were not found for the site APNs.

4.2.4 South Coast Air Quality Management District (SCAQMD)

Ninyo & Moore reviewed SCAQMD’s Facility Information Detail (FIND) website (<http://www.aqmd.gov/>) for information regarding the site and adjoining property. According to the FIND website, records were not found for the site APNs.

4.2.5 Online Regulatory Databases

Online regulatory databases were reviewed by Ninyo & Moore to supplement the environmental database search conducted by EDR. The following is a summary of pertinent information.

Table 5 – Online Regulatory Databases

| Online Database/Website | Findings |
|---|---|
| California Department of Toxic Substances Control (DTSC) EnviroStor | The site and adjoining properties were not listed on this database. |
| State Water Resources Control Board (SWRCB) GeoTracker | The site and adjoining properties were not listed on this database. |
| State of California, Geologic Energy Management Division (CalGEM) Well Finder website | The site is not within the administrative boundaries of an oil field. Oil wells were not plotted within one mile of the site. |
| United States Pipeline and Hazardous Materials Safety Administration, National Pipeline Mapping System Map Viewer | Gas transmission and hazardous liquid pipelines were not depicted within one mile of the site. |

4.3 Physical Setting

The following table summarizes topographic, geologic, and hydrogeologic conditions in the vicinity of the site, based upon the referenced documents review and/or our visual reconnaissance of the site.

Table 6 – Physical Setting

| Physical Settings | Reference | Summary |
|-------------------|-----------|---|
| Topography | A | The site elevation is approximately 1,260 feet above mean sea level (MSL). The site is located on the south-facing portion near the top of an east-west to southeast-northwest ridge. The regional topography slopes to the south. |
| Site Geology | A | The site is underlain primarily by late Holocene wash deposits consisting of unconsolidated to locally cemented sand, gravel, and boulder deposits. Small areas of older surficial deposits are included. |
| Surface Water | B | According to the United States Fish and Wildlife Service Wetlands Mapper (http://www.fws.gov/wetlands/Data/Mapper.html), the nearest surface water is a riverine system adjacent to the south of the site. The surface water body is seasonally flooded. When the surface water is not flowing, it remains in isolated pools or is absent. |
| Groundwater | C | The site is located in the Upper Santa Ana Valley Groundwater Basin. According to the State Water Resources Control Board, GeoTracker website, a Groundwater Monitoring Report dated May 17, 2006 prepared for Fargo Service Stations, groundwater was measured at a depth of approximately 72 to 89 feet below ground surface (bgs) between the years of 1996 to 2006 at a location approximately 0.45 miles northwest of the site. Groundwater flow direction is southwest. Groundwater levels, gradient, and flow direction can fluctuate due to seasonal variations, groundwater withdrawal or injection, changes in land use, and other factors. |

4.4 Site Historical Use Information

Ninyo & Moore conducted a historical record search for the site. This included a review of city directories, historical fire insurance maps, historical aerial photographs, topographic maps, and building department records. The following sections summarize information obtained from the historical sources utilized for this assessment.

4.4.1 City Directories

Available historical reverse street directories from 1922 through 2017 were researched by EDR. The site APNs were not listed in the historical city directories since addresses were not associated with the site. Based on the site use information from the city directories, the site was not historically occupied between the searched years of 1922 and 2017.

Other surrounding properties were generally developed with residential and small commercial uses and do not indicate a potential environmental concern for the site. The EDR City Directory Report is provided in Appendix E.

4.4.2 Sanborn® Fire Insurance Maps

Sanborn® fire insurance maps were requested from EDR; however, according to EDR's Certified Sanborn Map Report, map coverage was not available in the site vicinity (Appendix E).

4.4.3 Historical Aerial Photographs

Historical aerial photographs were provided by EDR for select years from 1930 through 2016. A 2021 aerial photograph was reviewed online using Google Earth™. A listing of the photographs reviewed and summary of notable observations from the photograph review are provided in the table below. EDR-provided aerial photographs are included in Appendix E.

Table 7 – Aerial Photographs Summary

| Date | Source | Summary |
|--|--------|---|
| 1930, 1938 | A | The site was undeveloped land. A section of removed trees adjacent to the south of the site is included in the southern portion of the site. The riverine system flows approximately 70 feet to the south of the site. The vicinity to the north, south, and east of the site was agricultural land. |
| 1949 | A | Trees were removed from the southeastern portion of the site. Residential structures were developed in the vicinity to the northeast, southwest, south, and southeast of the site. |
| 1953 | A | The remaining trees were removed, and the site was vacant land. Additional residential structures were developed in the vicinity to the southwest and east of the site. |
| 1959 | A | The site was similar to that observed in the 1953 aerial photograph. Additional trees were removed in the vicinity to the west of the site. Additional residential structures were developed in the vicinity to the south and north of the site. Commercial buildings were developed to the northeast of the site. A water AST was developed to the west of the site. |
| 1966 | A | The site was similar to that observed in the 1953 aerial photograph. Residential structures were removed in the vicinity to the east of the site, and additional commercial structures were developed to the north of the site. |
| 1968 | A | The site was similar to that observed in the 1966 aerial photograph. Additional trees were removed in the vicinity to the west of the site. |
| 1975, 1985, 1989, 1994, 2002, 2006, 2009, 2012, 2016 | A | The site was similar to that observed in the 1968 aerial photograph. The current fire station was developed in the vicinity adjacent to the east of the site by 1975. |
| 2021 | B | The site and vicinity were similar to that observed during the site reconnaissance. |

Sources:

- A – EDR
- B – Google Earth

Based on our review of the aerial photographs, the site was undeveloped land from 1930 through the time of this report. Development in the site vicinity consisted of residential to the south, and commercial to the north. This information is not considered an environmental concern.

4.4.4 Historical Topographic Maps

Historical topographic maps were provided by EDR. A summary of the maps is provided in the table below and are included in Appendix E.

| Table 8 – Historical Topographic Maps Summary | |
|---|--|
| Date | Summary |
| 1896 1898 1899 1901 | The site and surrounding areas were depicted as undeveloped land, with the exception of a few structures to the east and south of the site. Highland Railroad was depicted approximately 0.7 mile north of the site. |
| 1936 1938 1941 | Topographic lines depict the site location to be on the east end of Perris Hill. A waterbody is depicted in the central portion of Perris Hill, approximately 0.6 mile west of the site. The riverine system is depicted to flow adjacent to the south of the site. |
| 1942 1943 | Additional structures were depicted in the surrounding vicinity to the north and west of the site. The site and vicinity were unmapped. |
| 1953 1954 1967 | Agricultural land was depicted to the north of the site. Areas to the south of the site were shaded for urban development. Several structures were depicted to the east and north of the site. By 1967, several commercial/industrial buildings were developed to the north of the site and a water AST was developed to the east of the site. |
| 1973 | The Interstate 210 highway is depicted approximately 0.7 mile north of the site. |
| 1975 | The image is an aerial photo. Details for Aerial Photos are provided in Section 4.4.3. |
| 1980 1988 1996 2012 2015 2018 | The site and vicinity were approximately in their present-day configurations. Structures were not depicted on the site or site vicinity in the 2012, 2015, and 2018 topographic maps.. |

4.4.5 Building Department Records

Current or historical addresses are not associated with the site. Therefore, building department records were not available for the site.

4.5 Previous Reports

Previous reports and documents were not provided to Ninyo & Moore for review.

4.6 Adjoining Property History

The surrounding properties were undeveloped in 1896. The riverine system flowed adjacent to the south of the site since 1936. A fire station was developed adjacent to the east of the site by 1975. Residential and small commercial properties were developed in the vicinity surrounding the site by 1949 with additional development through 1994.

5 SITE RECONNAISSANCE

The objective of the site reconnaissance was to obtain information indicating the potential for RECs in connection with the site. Ms. Aileen Chea conducted the reconnaissance on July 13, 2022. Mr. Beville Lloyd, with San Bernardino County, was the site contact. A site plan is provided as Figure 2 and photographic documentation is provided in Appendix A.

5.1 Methodology and Limiting Conditions

The site reconnaissance consisted of walking the site and along public sidewalks (for viewing of the site and adjoining properties). Limiting conditions were not encountered.

5.2 General Site Setting

At the time of the site reconnaissance, the site was vacant land. The site vicinity was primarily residential to the south, vacant land to the north and west, and a fire station to the east. Hazardous material use and/or storage was not observed on the site. Two 55-gallon drums were observed in the fire station parking lot adjacent to the east of the site. One drum was open and stored buckets; liquids or hazardous materials were not observed in the unsealed drum. A power generator and an approximately 2,000-gallon aboveground diesel storage tank next to a fuel pump were also observed in the fire station parking lot adjacent to the site. Signs of spills or releases of hazardous materials were not observed from the power generator, diesel storage tank, or fuel pump. Trash and debris were observed on the site and within the riverine system adjacent to the south of the site. Discolored puddles of water in the riverine system were observed. Water discoloration was due to algae buildup and trash. Odors associated with the water were not observed.

Five pole-mounted transformers were observed in the surrounding vicinity to the south and east of the site. Signs of PCB release such as staining underneath the transformers were not observed.

5.3 Adjoining Property Observations

Adjoining properties were observed from the site and from publicly accessible vantage points (e.g., streets, sidewalks) during the site reconnaissance. The properties adjoining the site are listed as follows and are depicted on Figure 2:

- **North:** Vacant land.
- **East:** Fire station (1920 Del Rosa Avenue North).
- **South:** Residential properties.
- **West:** Vacant land.

5.4 Site Observations

Ninyo & Moore evaluated the site for evidence of the following potential environmental concerns:

Table 9 – Site Observations Summary

| Conditions | Observed or Noted | Comments |
|--|-------------------|--|
| Discolored/Stained Soils | | Not observed |
| Stressed Vegetation | X | Stressed vegetation due to lack of watering. |
| Drums | X | Two 55-gallon drums observed in adjoining fire station parking lot. One drum was unsealed and stored buckets. |
| Storage Tanks | X | Approximately 2,000-gallon aboveground diesel storage observed in the fire station parking lot adjacent to the site. Stains or leaks were not observed. Storage tanks were not observed on the site. |
| Vent Pipes, Fill Pipes or Portals, or Access Portals Protruding from the Ground | | Not observed |
| Discolored or Polluted Surface Water | X | Discolored puddles of water due to algae and trash in adjoining riverine system. Odors associated with the water were not observed. |
| Odors | | Not observed |
| Stained and/or Degraded Pavement | | Not observed |
| Parts Cleaners | | Not observed |
| Evidence of Prior Environmental Investigations | | Not observed |
| Discharges/Disposal Areas | | Not observed |
| Sumps, Pits, Ponds, Lagoons, Clarifiers, Septic Tanks | | Not observed |
| Floor Drains or Grates Stained by Substances Other Than Water and/or Emitting Foul Odors | | Not observed |
| Transformers | X | Five pole-mounted transformers observed in the surrounding vicinity of the site: Three transformers adjacent to the site to the south, one transformer adjacent to the site to the east along Del Rosa Avenue North, and one transformer adjacent to the northeast on a vacant property. Stains, leaks, or signs of release were not observed. |
| Chemical Pesticide Mixing Areas | | Not observed |
| Bermed, Recessed, or Diked Areas | | Not observed |
| Hydraulic Equipment | | Not observed |
| Storm Drains or Other Drains | | Not observed |
| Imported Fill, Disturbed Soil | | Not observed |
| Dumped, Buried, or Burned Material | | Not observed |
| Chemical Storage Areas | | Not observed |
| Dry Cleaners, Electroplating, Large Quantity Hazardous Material Utilization on Site | | Not observed |
| Steam Cleaning Areas | | Not observed |
| Mold Conditions or Severe Water Damage | | Not observed |
| Oil or Gas Wells or Related Activity on Site | | Not observed |
| Peeling or Damaged Paint | | Not observed |

6 INTERVIEWS

Interviews were conducted by Ninyo & Moore with the objective of obtaining information regarding potential RECs in connection with the site. Interviews with present owners, operators, and/or occupants of the site, as well as other knowledgeable parties as appropriate, is mandated by ASTM E 1527-13. Mr. Beville Lloyd with the County of San Bernardino filled out the owner questionnaire on July 5, 2022. The following table summarizes information provided by Mr. Lloyd. A copy of the questionnaire is provided in Appendix B.

Table 10 – Interviews

| Representative | Summary |
|---------------------------------|---|
| Property Owner/Key Site Manager | Mr. Beville Lloyd with the County of San Bernardino filled out the questionnaire on July 5, 2022. Mr. Lloyd did not have knowledge of hazardous materials stored or used, of USTs or ASTs on the site. Mr. Lloyd did not have knowledge of any releases of hazardous materials, or of any wells, septic tanks, or clarifiers on the site, or grading or fill material brought onto the site, or of previous environmental reports for the site. Mr. Lloyd reported that there were no Environmental Audit Reports, Environmental Permits, UST or AST Registrations, Hazardous Waste Generator notices or reports, Material Safety Data Sheets, Community Right-to-Know plans, Spill Prevention and Control Plans, Past or Current Violation Notices at the site, Environmental Liens, or other reports available. Available documents of interest are Property Information Sheet (Non-Residential properties) and Geotechnical Investigations or Studies. |
| Occupant | The site was not occupied during the site reconnaissance. |
| Past Owners | Representatives of past ownership entities were not available to Ninyo & Moore for interview during the preparation of this ESA. Therefore, interviews with past site owners were not conducted. |

7 FINDINGS

- The approximately 1.8-acre site encompasses portions of two parcels, located west of Del Rosa Avenue North. The site is vacant land, and addresses are not associated with the site. The APNs associated with the site are 0273-011-23 and 0273-011-24.
- At the time of the site reconnaissance, the site was vacant land. Trash and debris consisting of clothing, food packaging, construction debris (bricks, concrete), furniture, etc. was observed on the grounds and within the riverine system adjacent to the south of the site. Stressed vegetation due to lack of watering was observed on the site. Hazardous material use and/or storage was not observed on the site. Two 55-gallon drums were observed in the fire station parking lot adjacent to the site. One drum was open and stored buckets; liquids or hazardous materials were not observed in the drum. A power generator and an approximately 2,000-gallon aboveground diesel storage tank next to a fuel pump were also observed in the fire station parking lot adjacent to the site. Signs of spills or releases of hazardous materials were not observed from the power generator, diesel storage tank, or fuel pump. Discolored puddles of water in the riverine system adjacent to the south of the site were observed. Discoloration was due to algae buildup and trash.
- The site has remained undeveloped from 1896 through the time of this report. Structures or addresses were not found to be associated with the site.
- The site was not listed on searched environmental databases. The adjacent property (1920 Del Rosa Avenue North) and surrounding locations were listed. The information provided in these environmental databases, when taken as a whole, are not considered an environmental concern to the site based on the nature of the databases, the reported regulatory agency status, the reported nature of the case, and the location of the property in relation to the site with respect to topography or expected groundwater flow direction.
- Significant data gaps were not encountered during the preparation of this Phase I ESA.

8 OPINIONS

The rationale for concluding whether the conditions listed in Section 7, above, represent RECs, HRECs, or CRECs (i.e., the presence or likely presence of hazardous substances or petroleum products on a property under conditions indicative of releases, past releases, or a material threat

of a release of hazardous substances, pollutants, contaminants, and/or petroleum/petroleum products at the site) is provided below.

8.1 RECs

RECs were not encountered during the preparation of this Phase I ESA.

8.2 HRECs

HRECs were not encountered during the preparation of this Phase I ESA.

8.3 CRECs

CRECs were not encountered during the preparation of this Phase I ESA.

8.4 *De Minimis* Conditions

De minimis conditions were not encountered during the preparation of this Phase I ESA.

8.5 Data Gaps

Data gaps were not encountered during the preparation of this Phase I ESA.

9 CONCLUSIONS

We have performed a Phase I ESA, in conformance with the scope and limitations of the ASTM Practice E 1527-13, of the vacant property located at APNs 0273-011-23 and -24 in San Bernardino, California. Any exceptions to, or deletions from, this practice are described in Section 1.4 and in the body of this report. This assessment has revealed no evidence of RECs in connection with the site.

11 PROFESSIONAL STATEMENT

As required by 40 Code of Federal Regulations (CFR) §312.21(d) and Section 12.13 of ASTM 1527-13, the following statement is included:

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined by §312.10 of 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

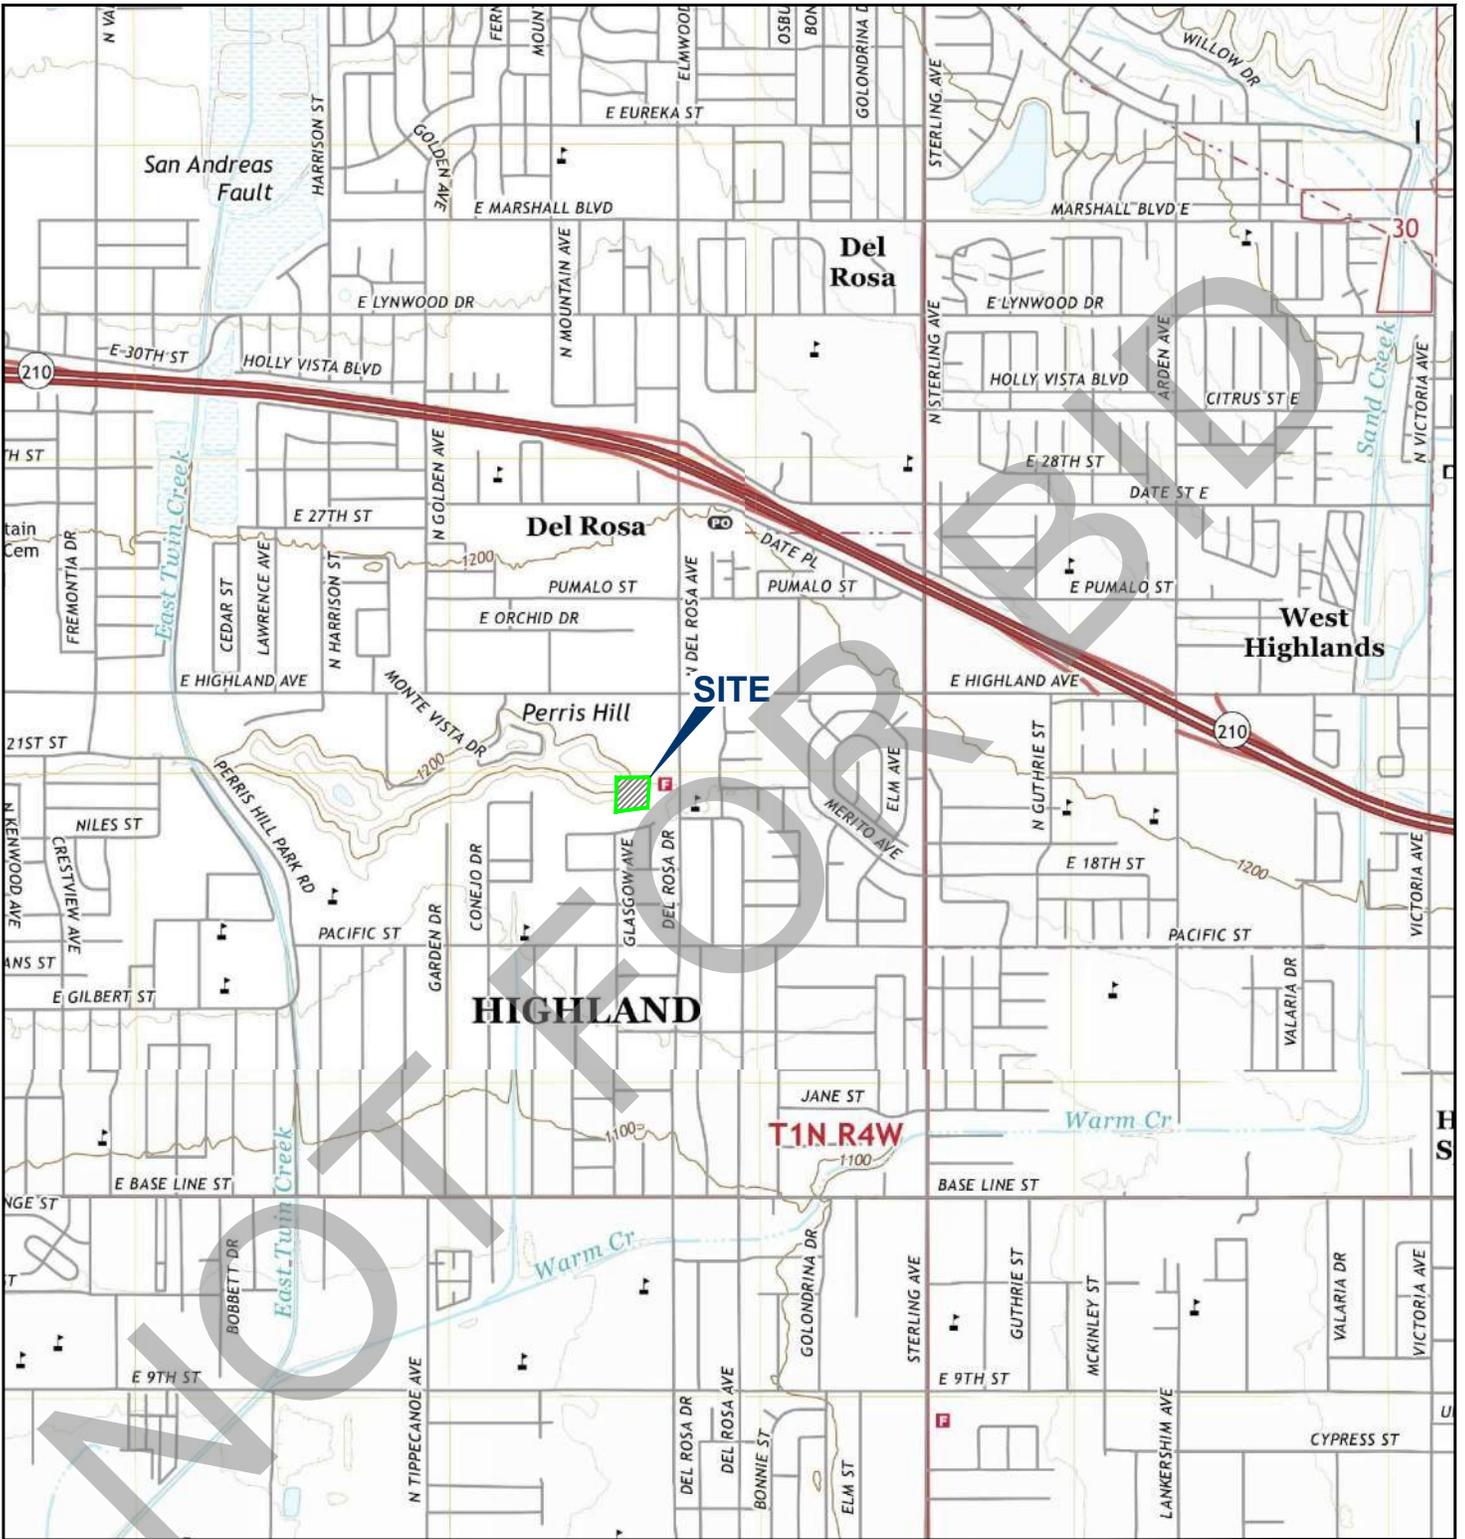

Jeff Aguilar, PG
Principal Environmental Operations
Manager

12 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONAL

Resumes, which document the professional qualifications, pursuant to 40 CFR §312.10(b)(2), of the persons that prepared and reviewed this report are provided as Appendix F.

APPENDIX B

User and Property Owner Provided Information

PHASE I ESA/AAI REQUIREMENTS

According to the All Appropriate Inquiry (AAI, 40 CFR 312) requirements and ASTM (E 1527-13) guidance on conducting Phase I Environmental Site Assessments, the "user" of the assessment must provide the following information, if available, to the environmental professional in order to qualify for Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001. Please check yes or no and provide any additional information you may have regarding the site. Failure to provide this information could result in a determination that "all appropriate inquiry" is not complete.

(1) Environmental cleanup liens that are filed or recorded against the site (40 CFR 132.25).

Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state, or local law?

Yes

No

If yes, please explain:

(2) Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).

Are you aware of any activity use limitations (AULs), such as engineering controls, land use restrictions, or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

Yes

No

If yes, please explain:

(3) Specialized knowledge or experience of the person/department requesting the Phase I ESA and seeking to qualify for the landowner liability protections (40 CFR 312.28).

As the user of this ESA, do you have any specialized knowledge or experience related to the property or adjoining properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

Yes

No

If yes, please explain:

(4) Relationship of the purchase price to the fair market value of the property, if it were not contaminated (40 CFR 312.29).

Does the purchase price offered for this property reasonably reflect the fair market value of the property? If there is a difference between the purchase price and the fair market value, have you considered whether the lower purchase price is because contamination is known or believed to be at the property?

Please discuss:

(5) Commonly known or reasonably ascertainable information about the property (40 CFR 312.30).

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user,

- (a) Do you know the past uses of the property?
- (b) Do you know of specific chemicals that are present or once were present at the property?
- (c) Do you know of spills or other chemical releases that have taken place at the property?
- (d) Do you know of any environmental cleanups that have taken place or are ongoing at the property?

Yes

No

If yes, please explain:

(6) The degree of obviousness of the presence or likely presence of contamination at the property and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).

As the user of this ESA, based on your knowledge and experience related to the property, are there any obvious indicators that point to the presence or likely presence of contamination at the property?

Yes

No

If yes, please explain:

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527-21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

EXECUTIVE SUMMARY

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL..... National Priority List
Proposed NPL..... Proposed National Priority List Sites
NPL LIENS..... Federal Superfund Liens

Lists of Federal Delisted NPL sites

Delisted NPL..... National Priority List Deletions

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY..... Federal Facility Site Information listing
SEMS..... Superfund Enterprise Management System

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE..... Superfund Enterprise Management System Archive

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS..... Corrective Action Report

Lists of Federal RCRA TSD facilities

RCRA-TSDF..... RCRA - Treatment, Storage and Disposal

Federal institutional controls / engineering controls registries

LUCIS..... Land Use Control Information System
US ENG CONTROLS..... Engineering Controls Sites List
US INST CONTROLS..... Institutional Controls Sites List

Federal ERNS list

ERNS..... Emergency Response Notification System

Lists of state and tribal landfills and solid waste disposal facilities

SWF/LF..... Solid Waste Information System

EXECUTIVE SUMMARY

Lists of state and tribal leaking storage tanks

INDIAN LUST..... Leaking Underground Storage Tanks on Indian Land
CPS-SLIC..... Statewide SLIC Cases

Lists of state and tribal registered storage tanks

FEMA UST..... Underground Storage Tank Listing
UST..... Active UST Facilities
INDIAN UST..... Underground Storage Tanks on Indian Land

Lists of state and tribal voluntary cleanup sites

INDIAN VCP..... Voluntary Cleanup Priority Listing
VCP..... Voluntary Cleanup Program Properties

Lists of state and tribal brownfield sites

BROWNFIELDS..... Considered Brownfields Sites Listing

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 06/20/2022 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

| <u>Equal/Higher Elevation</u> | <u>Address</u> | <u>Direction / Distance</u> | <u>Map ID</u> | <u>Page</u> |
|---|----------------------------|--------------------------------|---------------|-------------|
| CVS PHARMACY # 9341 EPA ID:: CAR000235457 | 1540 E HIGHLAND AVE | N 1/8 - 1/4 (0.181 mi.) | E18 | 43 |

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/20/2022 has revealed that there are 3 RCRA-SQG sites within approximately 0.25 miles of the target property.

| MED CENTER SMOG EPA ID:: CAR000069039 | 1601 HIGHLAND AVE | NNE 1/8 - 1/4 (0.174 mi.) | D13 | 32 |

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 06/20/2022 has revealed that there is 1 RCRA-VSQG site within approximately 0.25 miles of the target property.

Lists of state- and tribal (Superfund) equivalent sites

RESPONSE: Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

A review of the RESPONSE list, as provided by EDR, has revealed that there is 1 RESPONSE site within approximately 1 mile of the target property.

| GERALD HOBBS PROPERT Database: RESPONSE, Date of Government Version: 01/24/2022 Status: Certified Facility Id: 60000688 | 7194 CONEJO DRIVE | SSW 1/2 - 1 (0.699 mi.) | 38 | 164 |

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 01/24/2022 has revealed that there are 3 ENVIROSTOR sites within approximately 1 mile of the target property.

EXECUTIVE SUMMARY

Lists of state and tribal leaking storage tanks

LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the LUST list, as provided by EDR, has revealed that there is 1 LUST site within approximately 0.5 miles of the target property.

| <u>Equal/Higher Elevation</u> | <u>Address</u> | <u>Direction / Distance</u> | <u>Map ID</u> | <u>Page</u> |

EXECUTIVE SUMMARY

Local Lists of Hazardous waste / Contaminated Sites

CERS HAZ WASTE: List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, and RCRA LQ HW Generator programs.

A review of the CERS HAZ WASTE list, as provided by EDR, and dated 01/18/2022 has revealed that there are 5 CERS HAZ WASTE sites within approximately 0.25 miles of the target property.

Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there is 1 SWEEPS UST site within approximately 0.25 miles of the target property.

| <u>Lower Elevation</u> | <u>Address</u> | <u>Direction / Distance</u> | <u>Map ID</u> | <u>Page</u> |

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/20/2022 has revealed that there are 11 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 2 EDR Hist Auto sites within approximately 0.125 miles of the target property.

Violations:

Site ID: 65435
Site Name: SB COUNTY FIRE STATION #226
Violation Date: 07-09-2015
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Description: Failure to prepare and implement a Spill Prevention Control and Countermeasure (SPCC) Plan .
Violation Notes: Returned to compliance on 11/09/2015. Upon review of the SPCC plan, it was found that the plan is not being properly implemented. The following components were completed, as stated in the plan: - Inspection and logs kept for annual training of oil handling personnel (Attachment G-19) . - Frequent inspections (and logs) for deterioration inspections of valves, joints, etc. (per section G-10) - Oil spill cleanup kits onsite and readily available (per section G-4) - Installation of valves in diked systems to prevent a discharge - Inspections and logs kept for drainage of rain water from diked areas
COMPLIANCE REQUIREMENT: Submit a signed statement verifying that the above noted components of the SPCC plan are being implemented.
Violation Division: San Bernardino County Fire Department
Violation Program: APSA
Violation Source: CERS,

Site ID: 65435
Site Name: SB COUNTY FIRE STATION #226
Violation Date: 11-13-2017
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Description: Failure to implement the SPCC Plan.
Violation Notes: Returned to compliance on 11/14/2017. Fuel tank inspections are not being conducted as described in the SPCC plan. Compliance Requirement: -Submit a signed statement that inspections of the fuel tank are being conducted.
Violation Division: San Bernardino County Fire Department
Violation Program: APSA
Violation Source: CERS,

Site ID: 65435
Site Name: SB COUNTY FIRE STATION #226
Violation Date: 07-13-2020
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Description: "Failure to prepare an SPCC Plan which fulfills all basic requirements that include: 1. The SPCC Plan must be prepared in accordance with good engineering practices. 2. Have full approval of management at a level of authority to commit the necessary resources to fully implement the SPCC Plan. 3. Prepare the SPCC Plan in writing. 4. Follow the sequence of the SPCC rule or include a cross-reference. 5. If the SPCC Plan calls for additional procedures, methods, or equipment not yet fully operational, discuss the items in separate paragraphs."
Violation Notes: Returned to compliance on 08/10/2020. OBSERVATION: The SPCC plan states that Mr. Dave Roden Environmental Compliance has full approval of management to commit the necessary resources to fully implement the SPCC plan. During the inspection, it was determined that Mr. Roden is no longer working with the county. An updated contact was not provided in the SPCC plan. CORRECTIVE ACTION: Submit a signed statement

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Site Name: Stater Bros. Markets 024
Violation Date: 09-03-2014
Citation: HSC 6.5 Multiple Sections - California Health and Safety Code, Chapter 6.5, Section(s) Multiple Sections
Violation Description: Haz Waste Generator Program - Operations/Maintenance - General
Violation Notes: Returned to compliance on 12/23/2014. Failure to establish a Contingency Plan (CCR 66265.51(a)) Facility does have a Business Contingency plan on file in CERS, but the materials/waste inventory requires updating to accurately reflect what is onsite. Submit revision into CERS to address actual inventory.

Waste Description: FORMALDEHYDE

Waste Code: U129
Waste Description: CYCLOHEXANE, 1,2,3,4,5,6-HEXACHLORO-, (1ALPHA, 2ALPHA, 3BETA, 4ALPHA, 5ALPHA, 6BETA)- (OR) LINDANE

Waste Code: U132
Waste Description: HEXACHLOROPHENE (OR) PHENOL, 2,2'-METHYLENEBIS[3,4,6-TRICHLORO-

Waste Code: U154
Waste Description: METHANOL (I) (OR) METHYL ALCOHOL (I)

Waste Code: U165
Waste Description: NAPHTHALENE

Waste Code: U188
Waste Description: PHENOL

Waste Code: U201
Waste Description: 1,3-BENZENEDIOL (OR) RESORCINOL

Waste Code: U205
Waste Description: SELENIUM SULFIDE (OR) SELENIUM SULFIDE SES2 (R,T)

Click Here:

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

S117388349

Violation Notes: Returned to compliance on 08/01/2017. Failure to retain Hazardous Waste Manifests for at least 3 years (CCR 66262.40(a)) No hazardous waste manifests or records for hazardous waste disposal were available at the time of inspection. Employees were unaware of where these records were stored. COMPLIANCE REQUIREMENT: Submit copies of any hazardous waste disposal records to this agency to show compliance with lawful hazardous waste disposal methods.

Violation Division: San Bernardino County Fire Department
Violation Program: HW
Violation Source: CERS,

Site ID: 24202
Site Name: dd's Discounts #5027
Violation Date: 12-01-2014
Citation: HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple

Violation Description: Haz Waste Generator Program - Training - General
Violation Notes: Returned to compliance on 08/01/2017. Failure to train facility personnel in hazardous waste management procedures (CCR 66265.16) Employees were unaware of hazardous waste labeling requirements and waste disposal record requirements which indicates a need for hazardous waste management training.

Violation Division: San Bernardino County Fire Department
Violation Program: HW
Violation Source: CERS,

Site ID: 24202
Site Name: dd's Discounts #5027
Violation Date: 12-01-2014
Citation: HSC 6.5 Multiple Sections - California Health and Safety Code, Chapter 6.5, Section(s) Multiple Sections

Violation Description: Haz Waste Generator Program - Operations/Maintenance - General
Violation Notes: Returned to compliance on 08/01/2017. Failure to note accumulation start date on labels (CCR 66262.34(f)(2)) Observed numerous containers of hazardous waste (flammables, corrosive base, toxics) that contained items within that did not have an accumulations start date listed on a label. COMPLIANCE REQUIREMENT: Mark accumulation start dates on hazardous waste containers. Signature on the included Certificate of Compliance denotes compliance.

Violation Source: CERS,

Site ID: 24202
Site Name: dd's Discounts #5027
Violation Date: 12-01-2014
Citation: HSC 6.5 Multiple Sections - California Health and Safety Code, Chapter 6.5, Section(s) Multiple Sections

Violation Description: Haz Waste Generator Program - Operations/Maintenance - General
Violation Notes: Returned to compliance on 08/01/2017. Failure to label hazardous waste containers (CCR 66262.34(f)(3)) Observed several hazardous waste bins (flammables, corrosive bases, toxics) not labeled as hazardous waste, and all had contents within. COMPLIANCE REQUIREMENT: Label all hazardous waste containers with a label that includes the words "Hazardous Waste", address and store information, contents within, and accumulation start date. Signature on the included Certificate of Compliance denotes compliance.

Waste Code: P001
Waste Description: 2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3% (OR) WARFARIN, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%

Waste Code: P075
Waste Description: NICOTINE, & SALTS (OR) PYRIDINE, 3-(1-METHYL-2-PYRROLIDINYL)-,(S)-, & SALTS

Waste Code: U034
Waste Description: ACETALDEHYDE, TRICHLORO- (OR) CHLORAL

Waste Code: U058
Waste Description: 2H-1,3,2-OXAZAPHOSPHORIN-2-AMINE, N,N-BIS(2-CHLOROETHYL)TETRAHYDRO-, 2-OXIDE (OR) CYCLOPHOSPHAMIDE

Waste Code: U129
Waste Description: CYCLOHEXANE, 1,2,3,4,5,6-HEXACHLORO-, (1ALPHA, 2ALPHA, 3BETA, 4ALPHA, 5ALPHA, 6BETA)- (OR) LINDANE

Waste Code: U150
Waste Description: L-PHENYLALANINE, 4-[BIS(2-CHLOROETHYL)AMINO]- (OR) MELPHALAN

Waste Code: U165
Waste Description: NAPHTHALENE

Waste Code: U188
Waste Description: PHENOL

Waste Code: U205
Waste Description: SELENIUM SULFIDE (OR) SELENIUM SULFIDE SES2 (R,T)

Description:

The property consists of a 20,000 square foot area and is identified by Assessor's Parcel number 0273211070000. The Site is a private home, owned by the Respondent. The Site is located in an area that is predominantly residential. The Respondent conducted precious metal extraction from circuit boards at the subject site. The Respondent poured the resulting liquid waste into a depression in the backyard, about 12 inches in diameter and about 4 inches deep. On October 6, 2005, Mr. Gary Shapiro and Mr. Roy Yeaman of DTSC's Emergency Response Branch conducted a Site visit. They also met with Mr. Greg Ziegler, of the San Bernardino County Health Hazardous Materials Division, and Mr. Gerald Hobbs, the Respondent. The DTSC contractor, EDI (Represented by J. McCreery and J. Novoa) excavated around the depression to a depth of 18 inches. The hole was about 16 inches in diameter and 18 inches deep. The excavated soils were placed in a 55-gallon drum. Two buckets of waste were collected and placed into a 5-gallon drum. The buckets were placed inside another 55-gallon drum

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

LOS ANGELES CO LF METHANE: Methane Producing Landfills

This data was created on April 30, 2012 to represent known disposal sites in Los Angeles County that may produce and emanate methane gas. The shapefile contains disposal sites within Los Angeles County that once accepted degradable refuse material. Information used to create this data was extracted from a landfill survey performed by County Engineers (Major Waste System Map, 1973) as well as historical records from CalRecycle, Regional Water Quality Control Board, and Los Angeles County Department of Public Health

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

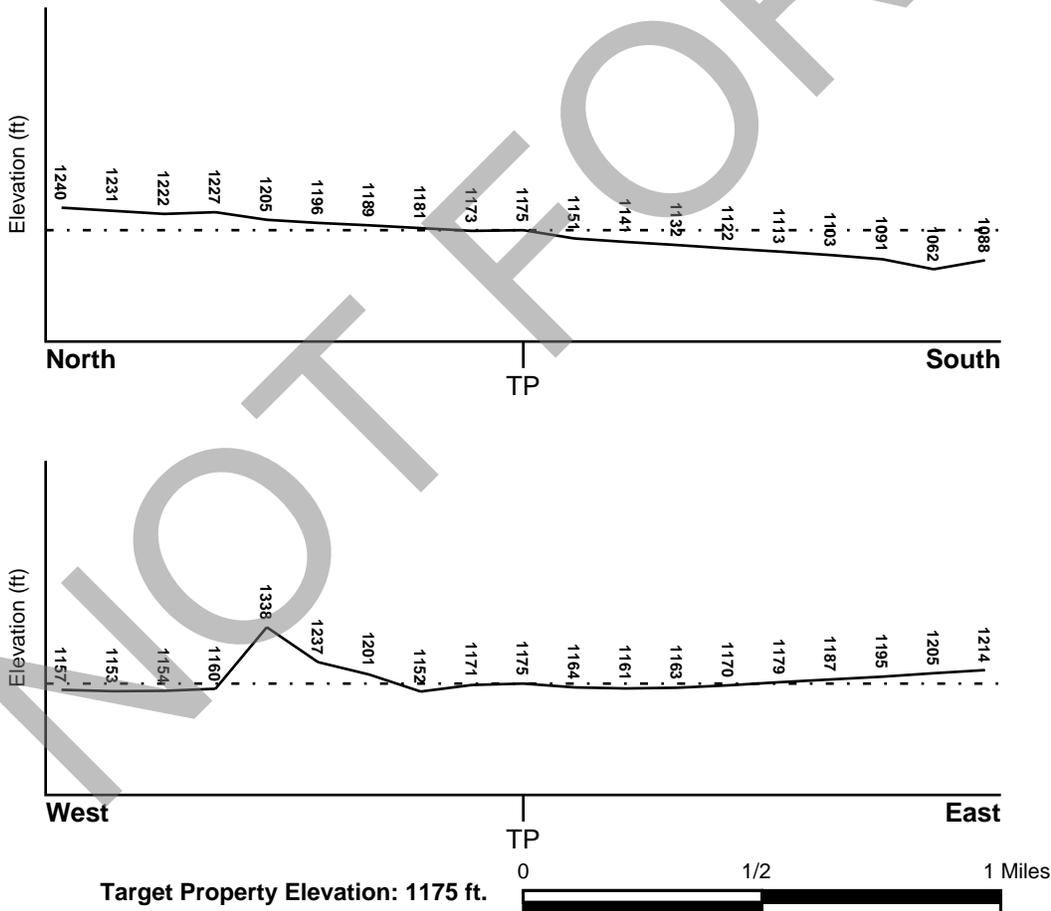

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General South

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:
 Search Radius: 1.25 miles
 Status: Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: FRIANT

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

| Soil Layer Information | | | | | | | |
|------------------------|-----------|-----------|---------------------|---|--------------|--|--------------------|
| Layer | Boundary | | Soil Texture Class | Classification | | Saturated hydraulic conductivity micro m/sec | Soil Reaction (pH) |
| | Upper | Lower | | AASHTO Group | Unified Soil | | |
| 1 | 0 inches | 14 inches | fine sandy loam | Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils. | Not reported | Max: 141 Min: 0.07 | Max: Min: |
| 2 | 14 inches | 18 inches | unweathered bedrock | Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils. | Not reported | Max: 141 Min: 0.07 | Max: Min: |

Soil Map ID: 2

Soil Component Name: Hanford

Soil Surface Texture: sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Source: Department of Fish and Wildlife

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program

State Water Resources Control Board

Telephone: 916-341-5577

The GAMA Program is California's comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Health Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

California Drinking Water Quality Database

Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations

Source: Dept of Conservation, Geologic Energy Management Division

Telephone: 916-323-1779

Oil and Gas well locations in the state.

California Earthquake Fault Lines

Source: California Division of Mines and Geology

The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon

Source: Department of Public Health

Telephone: 916-210-8558

Radon Database for California

PHYSICAL SETTING SOURCE RECORDS SEARCHED

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

Public Records Request Number: PR3-070822-05

Locations: Vacant lots, San Bernardino, CA

APNs: 0273-011-23 & 0273-011-24

Dear Ms. Chea:

On July 7, 2022, the Department of Toxic Substances Control (DTSC) received your email of the same date requesting records under the Public Records Act. After a thorough review of our files, no site records were found pertaining to the sites/facilities referenced above.

Many of our records are available on EnviroStor, an online database that provides non-confidential, public access to DTSC's data management system. It tracks our cleanup, permitting, enforcement, and investigation efforts at hazardous waste facilities and sites with known or suspected contamination issues. EnviroStor is available 24/7, 365 days a year. The data reflects the latest updates as they are entered in the system. Access it from your computer or smartphone, the local library – anywhere Internet access is available. Just go to www.envirostor.dtsc.ca.gov. You will find a step-by-step tour of EnviroStor under the "How to Use EnviroStor" menu on the website.

If you have any questions or would like further information regarding your request, please contact me at 747-249-1019 or via email at ChatsworthFileRoom@dtsc.ca.gov.

Sincerely,

Roya Riahi Nejad

Subject: RE: Public Records Request - APN 0273-011-23 & -24, San Bernardino, CA

Good afternoon,

Unfortunately, we do not use APN numbers or cross streets to maintain our files. We only use facility names and/or physical address numbers to locate files. If you can provide a numerical address or facility name, we can carry out your request.

If we can be of further assistance, please do not hesitate to contact us again.

Thank you,
File Review Desk
3737 Main St. Suite 500

SUBJECT: CERTIFIED RECORD SEARCH FINDINGS
APN#S: 0273-011-23-0000, 0273-011-24-0000
SAN BERNARDINO, CALIFORNIA

This is to confirm that the OFM Hazardous Materials Division (HMD) has searched its records for any file(s) pertaining to the subject property, as described in your request, and finds that no records exist for the above site description(s).

Records maintained by OFM-HMD date back to early 1980's. Records searched include:

- facilities with hazardous waste generator permits, hazardous materials handler permits, underground storage tank permits, universal waste permits, tiered permits, EPCRA facilities, RMP facilities, Cal ARP facilities, and/or waste recycling generators, including inactive and/or out of business records, as well as non-permitted facility actions;
- logs of permits issued for the removal, installation, and/or modification of underground storage tanks;
- records and databases pertaining to illicit dumping, spill reports and release notifications, and complaints;
- incidents responded to by the hazardous materials emergency response team;
- and sites undergoing remediation for contaminated soil and/or groundwater.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Ninyo & Moore were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- Library of Congress
- University Publications of America
- EDR Private Collection

The Sanborn Library LLC Since 1866™

Limited Permission To Make Copies

Ninyo & Moore (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

APPENDIX F

Qualifications of the Environmental Professionals

PATRICK CULLIP, ENV SP, EIT

PROJECT ENVIRONMENTAL ENGINEER

EDUCATION

B.S. Mechanical Engineering, Loyola Marymount University, Los Angeles

REGISTRATIONS AND CERTIFICATIONS

Loss Prevention System (LPS)
OSHA HAZWOPER with annual 8-hour refreshers

OSHA HAZWOPER Site Supervisor Training

OSHA Excavation Competent Person Certification

First Aid and CPR Training

BNSF Contractor Orientation Safety certified

Transportation Worker Identification Credential (TWIC)

Los Angeles World Airports (LAWA) badge

Institute for Sustainable Infrastructure (ISI)
Envision Sustainability Professional (ENV SP)

EXPERIENCE HIGHLIGHTS

Phase I Environmental Site Assessments

Phase I Hazardous Materials Assessments

Phase I Initial Site Assessments

Hazardous Building Materials Surveys

Sampling Surveys

1166 Soil Monitoring

Preliminary Environmental Assessment

Removal Action Implementation

Removal Action Completion Reports

Mr. Patrick Cullip has over seven years' experience performing environmental remediation, operations and maintenance (O&M), remediation system installation, groundwater/soil vapor sampling, well installation, underground storage tank (UST) removal, soil contamination removal, dual-phase extractions, aerially-deposited lead (ADL) sampling, geological and geotechnical logging, quarterly groundwater monitoring reports, pilot test reports, design, and oversight projects; conducting environmental site assessments (ESAs), hazardous materials assessments (HMAs), and initial site assessments (ISAs) and feasibility testing; and evaluating regulatory compliance.

REPRESENTATIVE PROJECT EXPERIENCE

Phase I ESAs, HMAs, and ISAs – Various Sites, Southern California: Field Manager/Project Engineer, performed numerous Phase I ESAs, HMAs, and ISAs of commercial, industrial, and residential properties throughout Southern California for various financial institutions, land developers, and government agencies. The Phase I ESAs, HMAs, and ISAs included reviewing regulatory files of various government agencies to evaluate the extent and type of impacts at sites, conducting site walks and owner/operator interviews, preparing reports, and project oversight. Mr. Cullip managed the Phase II ESAs performed at several of these properties which included soil gas, soil, and groundwater evaluations.

Port of Los Angeles, Wilmington, California: Senior Staff Environmental Engineer, conducted groundwater monitoring on numerous existing monitoring wells, using hand bailers.

AltaMed Health Services Corporation, Los Angeles, California: Field Manager/Project Manager, oversaw 16 simultaneous Phase I and Phase II ESAs for AltaMed properties in Southern California over a short time period as part of AltaMed's bank requirements. The Phase II ESAs included soil, soil gas, groundwater, asbestos-containing material, lead-based paint, and mold evaluations.

HMA, Harbor UCLA Medical Center, Torrance, California: Field Manager/Project Manager, provided an HMA for the Harbor-UCLA Medical Center Master Plan Environmental Impact Report. The site is an approximately 72-acre parcel occupied with the Harbor UCLA Medical Center (hospital), office buildings, medical research buildings, hazardous waste storage area, helipad, power plant, parking structure, parking lots, and several roads. Areas of potential environmental concern identified during the course of the HMA included asbestos and lead-based paint in on-site building materials, underground storage tanks (USTs) associated with the site power plant, four former leaking underground storage tank (LUST) areas on the site, and three adjacent off-site LUST cases. Ninyo & Moore proposed mitigation measures to render these environmental concerns and impacts to the site less than significant for the identified CEQA thresholds. Mitigation measures to be implemented included following abatement measures outlined in a separate hazardous building materials survey report (performed by Ninyo & Moore), additional site investigation of on-site USTs and on- and off-site LUST cases, and the preparation and implementation of a Soil Management Plan during excavation and grading activities in areas of potential soil contamination.

REPRESENTATIVE PROJECT EXPERIENCE (continued)

Los Angeles World Airports (LAWA), Landside Access Modernization Program (LAMP), LAX Airport, Los Angeles, California: Project Engineer, conducted an HMA covering approximately 2,000 acres for properties within the footprint of LAMP project, which consisted of modernizing LAX by relieving traffic congestion within the airport and on surrounding street network; improve access options and the travel experience for passengers; and provide connection to the rail system. The scope included site visits and agency data base reviews to identify RECs. The results were incorporated into the environmental documentation for the LAMP program. Provided LAWA with recommendations regarding the limits of construction and locations of future treatment wells. This information was critical in the planning for the LAMP.

Long Beach Unified School District, Long Beach, California: Field Manager, collected soil samples using hand-auger and direct-push methods to assess lead and pesticide contamination from lead-based paint and termiticides along the edges of classroom and administrative buildings at Jordan High School, and prepared reports for government agencies. Sample results were used to determine the extent of contamination and potential associated health risks to field personnel participating in planned remodeling/demolition activities. Prepared the preliminary environmental assessment (PEA) report for sampling and associated remedial action work plan (RAW) for required soil remediation. Oversaw the excavation and removal of contaminated soil, performed confirmation soil sampling and dust monitoring during the removal action, and prepared the removal action completion report (RACR).

Los Angeles World Airports, 2014 Sustainability Report, LAX Airport, Los Angeles, California: Project Engineer, worked with LAWA's Environmental and Land Use Planning Division staff and LAWA's leadership team to prepare the 2014 sustainability report. Supported data collection, evaluated trends, developed graphics, interviewed stakeholders, provided design and layout, and ultimately told a compelling story about LAWA's sustainability efforts. Also supported the redevelopment of LAWA's sustainability program to develop a roadmap and management strategy.

Caltrans, Various Locations, Southern California: Senior Staff Environmental Engineer, collected soil samples, using hand-auger methods, of roadside soils to assess aerially deposited lead (ADL) impacts of soil from years of contamination from leaded gasoline. Sample results were used to determine the waste classification for proper disposal and handling of road and highways improvements.

Hazardous Building Materials Surveys (HBMS), Various Sites, Southern California: Lead Sampling Technician, performed field testing and sampling with an X-ray fluorescent (XRF) analyzer for lead in building materials on structures planned for demolition or renovation on commercial, industrial, and residential properties throughout Southern California. Prepared HBMS reports for owner/developer use in hazardous materials abatement and worker safety.

City of Brea, Remedial Action, Tracks at Brea, Segment 3, Brea, California: Senior Staff Environmental Engineer for the Removal Action (RA) of soil contaminated with arsenic and other chemicals of concern along an approximate 0.8 mile length of former railroad tracks planned to be converted to a walking trail and bicycle path. RA activities included dust monitoring, overseeing excavation activities, confirmation soil sampling, clean import soil sampling, communicating with Orange County Health Care Agency representatives, and preparing the RACR.

Riverside County Transportation Commission, On-Call Environmental Services, Riverside County, California: Senior Staff Environmental Engineer providing on-call environmental services under RCTC agreements. Since 1997, Ninyo & Moore has provided Riverside County Transportation Commission (RCTC) responsive and efficient on-call services on a variety of environmental, geotechnical, and materials testing and inspection services to support various transportation design and construction projects throughout Riverside County. A recent task included site investigation of an approximately 6-acre industrial property intended for acquisition for a freeway right-of-way. Based on the investigation results, Ninyo & Moore prepared cost estimates for remediation of metal and hydrocarbon contaminated soil. The remediation cost estimates were defended in court during trial and RCTC was awarded a judgment for two times the amount of the remediation cost estimate.

Alameda Corridor Transportation Authority (ACTA) On-Call Environmental Remediation Services, Los Angeles County, California: The Alameda Corridor is a 20-mile long, \$2.6 billion high-speed rail corridor connecting downtown Los Angeles with the Ports of Los Angeles and Long Beach. The Corridor is being excavated through some of the most historically-used industrial properties in the Los Angeles Basin. Work performed for ACTA included due diligence assessments for acquisition and redevelopment of land, and Phase I and II ESAs.

Jeff Aguilar, PG

Principal Geologist

EDUCATION

BS, Geology, 1986, University of Nebraska

REGISTRATIONS/ CERTIFICATIONS

PG 8178 (California)

OSHA 40-hour HAZWOPER with

8-hour refreshers

OSHA 8-hour HAZWOPER Site
Supervisor Training

First Aid and CPR Training

PROFESSIONAL AFFILIATIONS

South Coast Geological Society

As a Principal Geologist, Mr. Jeff Aguilar has extensive experience as an environmental geologist and project manager and is skilled in portfolio and project management, regulatory and client interactions, technical report writing and data analysis. His areas of expertise include developing investigative scopes of work, cost proposals; permitting; feasibility studies; remedial design and implementation; subcontractor management; operation of treatment systems; compliance monitoring; reporting and regulatory negotiations. He is knowledgeable in the regulatory process of federal, state, and local agencies including the United States Environmental Protection Agency (USEPA), California Regional Water Quality Control Board (RWQCB) Cal-EPA Department of Toxic Substances Control (DTSC), South Coast Air Quality Management District (SCAQMD) and Orange County Health Care Agency (OCHCA).

RELEVANT PROJECT EXPERIENCE

Exide Lead Smelter, Vernon, California: Lead geologist retained to investigate and characterize contaminants associated with 100 years' worth of industrial use on a former lead smelter property. Ensured regulatory compliance during the demolition of the property and provided technical review and approval of all reports and regulatory required documents. Calculated and managed the total cleanup cost of the site which was expected to exceed 100 million. Was responsible for tracking and maintaining the budget and management of all subcontractors. Oversaw all fieldwork associated with the project and managed all subcontractor budgets and invoicing. Was involved in all regulatory and legal interactions and worked to ensure that all regulatory deadlines for state and federal agencies were met. Challenges included negotiating with multiple regulatory agencies and interactions with community activists and environmental groups.

ExxonMobil Portfolio Management, Orange and San Diego Counties, California: Managed a portfolio of 52 sites across Orange and San Diego County for ExxonMobil. The portfolio was budgeted at 2 million annually and consisted of sites that ranged from needing closure requests to those that needed complete characterization and remediation. Implemented multiple types of remediation at the sites to expedite case closure. Managed a team that closed half of the sites within the first two years. The rapid closure schedule was completed on budget and allowed the client to sell the properties sooner than planned and with limited liability. Challenges included limited budget, a challenging regulatory environment and expedited closure schedules.

Department of Defense Contractor, Hawthorne, California: Conducted an expedited due diligence environmental investigation of an oilfield located on an Aerospace company for the Department of Defense. Challenges included limited historical research documents and a limited budget. Phase I and Phase II investigations were completed on time and on budget and the abandoned oilfield wells were successfully located allowing for proposed construction work to proceed without any delay to schedule.

Aerovoe Paint, Compton, California: As Lead Geologist, I managed the investigation and remediation of a former paint manufacturer. The investigation involved installing multiple wells into the local drinking aquifer which required specialized drilling techniques and well construction to prevent contaminant migration. A specialized

Jeff Aguilar

Principal Geologist

remediation system was designed and constructed to remediate the large contaminant plume which underlay several city blocks. Challenges included limited access on neighboring properties and difficult drilling conditions. The investigation was completed on time and on budget and a site-specific remediation system is currently operating.

Ammunition and Explosives Manufacturer, Hercules, California: Oversaw the investigation of a property with a history of ammunition and explosives manufacturing. The property was to be graded to allow construction of new homes. Expedited Phase II investigations were completed using multiple types of drilling technology and contaminant impacts were located, characterized and remediated. Challenges included multiple types of contaminants and a short timeframe for project completion. Multiple drilling companies were used simultaneously to expedite the investigation and remediation. The project was finished on time allowing the construction of homes to proceed without delay.

Chevron Bulk Terminal Project, El Segundo, California: As Lead Geologist on this project, I oversaw the excavation of ½ mile of pipeline located in a major thoroughfare leading to a bulk terminal in El Segundo. The pipeline was exposed and replaced in sections over a six-month period. During excavation, air monitoring was performed and soil was continually inspected for impacts. Impacted soil was characterized, delineated, excavated and segregated. The characterization and excavation of the soil had to be performed quickly so as not to delay the replacement of the pipeline and to minimize the impact on traffic in the thoroughfare. Negotiations were conducted to reuse the excavated soil at a different construction site therefore saving the client on transportation and disposal costs. Challenges included working in the public right of way and safety of personnel due to traffic and heavy machinery. The project was completed safely, on time and on budget.

ExxonMobil Groundwater Remediation System Installation, Dana Point, California: As Lead Geologist, I oversaw the installation of a groundwater extraction system at an operating service station impacted by a historical release. Due to the time lapse between the release and discovery dates, impacted groundwater had traveled a significant distance under nearby streets with high traffic volume. A site-specific remediation system was designed but reaching the downgradient edge of the plume with the remediation system presented a challenge. A specialized drilling subcontractor was utilized to horizontally drill beneath the streets to install remedial piping without disrupting traffic. The vacuum on the remediation system was increased to accommodate the long distances that the impacted groundwater had to be pulled. The system was installed safely and on budget and after three years of operating the system, it had cleaned the site to a level where a No Further Action letter was issued.

Lennar Home Builders, Yorba Linda, California: Oversaw the investigation, characterization and remediation of a 35-acre parcel that was redeveloped for single family residences. The site had multiple impacts to soil from multiple contaminants and had five oil pumping wells that required abandonment prior to site redevelopment. Challenges included multiple stakeholders, challenging terrain and a challenging regulatory environment. A comprehensive remedial action plan was created, approved and implemented. The Orange County Health Care Agency agreed that the site was remediated to their standards and construction was allowed to proceed with no delay. All work was completed safely with little to no impact to the surrounding neighborhood.
