Existing Conditions and Analysis Mapping (OCFD Lease Area)

KTUA will review the existing lease agreement with OCFD to identify all opportunities and constraints associated with potential proposed programs based on the written agreement. After that, using GIS data collected from the County or digitized by KTUA, a series of maps of the existing conditions for the OCFD lease area will be provided. These maps will include:

- Landuse
- Geological Features
- Soil Features
- Landform
- Sensitive Species
- Hydrologic Conditions
- FEMA 100-Year Flood Zone
- Inundation Levels
- Slope Analysis
- Expansive Soils
- Erodible Soils
- Existing Landcover
- Existing Vegetation
- Existing Buildings
- Existing Utilities
- Easements and ROW
- Cultural Resources
- Existing Roads and Parking Lots
- Existing Park Entrances
- Analysis and Mapping. Once the existing conditions have been documented, KTUA will overlay this data to determine the opportunities and constraints of the site. Several maps will be generated using GIS and map overlays. These include:
 - Biological Sensitivity
 - Areas of Previous Improvements
 - Soil Suitability
 - Levels of Disturbance
 - Hydrologic Suitability
 - Proximity to Existing Improvements

Development Suitability. Once the analysis is complete, a final overlay in GIS will determine the best locations for development. These maps will include:

- Development Suitability Based on Natural Elements
- Development Suitability based on Man-made elements
- Opportunities and Constrains Summary

Work Products:

- Existing Conditions maps
- Analysis maps
- Development suitability maps

Task 6:**Concept Plans.**

Using the files from the original project, KTUA will prepare updated base files and key concept sheets which will be used throughout the project.

KTUA will review the results of previous outreach efforts, the previously proposed program on the Prop 70 land, and the results of the OCFD opportunities and constraints maps to determine what program should be considered and possibly prioritized at both locations, Prop 70 and OCFD Lease. A board with example images and lists of programs will be prepared to help facilitate the conversation. With the County's input and direction, a program will be identified for each site to come up with draft concept plans. This includes one (1) meeting with the County and appropriate stakeholders to discuss the program.

With direction provided during the program effort, KTUA will prepare graphic plans denoting the various site conditions of the project site. Concept plans will be prepared and shall be based upon County's direction during the program meeting, existing conditions, existing site analysis within the master plan document, and any previous studies or plans. Presentation boards will be prepared in color. The plans will illustrate the composition of the site elements including all proposed amenities, access, walkways, roadways, sports fields, diagrammatic play areas, recreational amenities, and plant masses and trees. All color boards will be suitable and legible for presentation at public meetings, if required, and will be in PDF format.

KTUA will participate in a meeting with County staff as well as any relevant stakeholders, as required, to review the conceptual plans. It is assumed one (1) round of amendments to the plans will be required based on comments from the County. This scope will include normal plan check refinements to the plans.

With direction provided by the County, KTUA will update a total of two (2) graphic plans depicting the final conceptual plans. The plans will be prepared based upon the County's direction. The final plans will be prepared in color. The plans will illustrate the composition of the site and recreational amenities. These plans will be incorporated into the site wide master plan graphic as well as the master plan document.

Work Products:

- Program Boards
- Concept Plans- Draft (PDF only)
- Draft Concept Plan Revisions (1 total)
- Concept Plan- Final (PDF only)

Task 7:**Master Plan Updates**

Utilizing the new site plans, KTUA will update the existing Master Plan graphics and text in InDesign to reflect the changes. A draft of the Master Plan updates will be prepared and provided to the County in a PDF format for review and comment. It is assumed updates will be made to Chapter 7- Recommendations only. KTUA will address all comments and make revisions in the final Master Plan. The final updated Master Plan will be provided to the County in a PDF format.

KTUA will develop a site-wide master plan graphic highlighting and referencing various enlargement plans within each study area similar to Figure 7-3 in the current master plan. Because of the size of the park, enlargement plans are necessary and will be reference in the

site-wide master plan graphic. The site-wide Master Plan will include the previous study areas and incorporate or reference any additional concept plans developed.
