XIII. INDEMNIFICATION AND INSURANCE CLAUSE

- A. Indemnification - PERMITTEE agrees to indemnify, defend (with counsel reasonably approved by COUNTY) and hold harmless the COUNTY and its authorized officers, employees, agents and volunteers from any and all claims, actions, losses, damages, and/or liability arising out of this contract from any cause whatsoever, including the acts, errors or omissions of any person and for any costs or expenses incurred by the COUNTY on account of any claim except where such indemnification is prohibited by law. This indemnification provision shall apply regardless of the existence or degree of fault of indemnities. PERMITTEE's indemnification obligation applies to the COUNTY's "active" as well as "passive" negligence but does not apply to the COUNTY's "sole negligence" or "willful misconduct" within the meaning of Civil Code Section 2782.

- B. Additional Insured - All policies, except for the Workers' Compensation, Errors and Omissions and Professional Liability policies, shall contain endorsements naming the County and its officers, employees, agents and volunteers as additional insureds with respect to liabilities arising out of the performance of services hereunder. The additional insured endorsements shall not limit the scope of coverage for the County to vicarious liability but shall allow coverage for the County to the full extent provided by the policy. Such additional insured coverage shall be at least as broad as Additional Insured (Form B) endorsement form ISO, CG 2010.
- C. Waiver of Subrogation Rights - PERMITTEE shall require the carriers of required coverages to waive all rights of subrogation against the COUNTY, its officers, employees, agents, volunteers, contractors and subcontractors. All general or auto liability insurance coverage provided shall not prohibit PERMITTEE and PERMITTEE's employees or agents from waiving the right of subrogation prior to a loss or claim. PERMITTEE hereby waives all rights of subrogation against the COUNTY.
- D. Policies Primary and Non-Contributory - All policies required above are to be primary and non-contributory with any insurance or self-insurance programs carried or administered by the COUNTY.
- E. Severability of Interests – PERMITTEE agrees to ensure that coverage provided to meet these requirements is applicable separately to each insured and there will be no cross liability exclusions that preclude coverage for suits between PERMITTEE and the County or between the County and any other insured or additional insured under the policy.
- F. Proof of Coverage - The PERMITTEE shall furnish Certificates of Insurance to the Regional Parks Department Administration (777 East Rialto Ave, San Bernardino, CA 92415), administering the contract evidencing the insurance coverage at the time the contract is executed, additional endorsements, as required shall be provided prior to the commencement of performance of services hereunder, which certificates shall provide that such insurance shall not be terminated or expire without thirty (30) days written notice to the Department, and PERMITTEE shall maintain such insurance from the time Contractor commences performance of services hereunder until the completion of such services. Within fifteen (15) days of the commencement of this contract, the Contractor shall furnish a copy of the Declaration page for all applicable policies and will provide complete certified copies of the policies and endorsements immediately upon request.
- G. Acceptability of Insurance Carrier – Unless otherwise approved by Risk Management, insurance shall be written by insurers authorized to do business in the State of California and with a minimum "Best" Insurance Guide rating of "A- VII".
- H. Deductibles and Self-Insured Retention - Any and all deductibles or self-insured retentions in excess of \$10,000 shall be declared to and approved by Risk Management.
- I. Failure to Procure Coverage – In the event that any policy of insurance required under this contract does not comply with the requirements, is not procured, or is canceled and not replaced, the COUNTY has the right but not the obligation or duty to cancel the contract or obtain insurance if it deems necessary and any premiums paid by the COUNTY will be promptly reimbursed by PERMITTEE or COUNTY payments to PERMITTEE will be reduced to pay for COUNTY purchased insurance.
- J. Insurance Review - Insurance requirements are subject to periodic review by the County. The Director of Risk Management or designee is authorized, but not required, to reduce, waive or suspend any insurance requirements whenever Risk Management determines that any of the required insurance is not available, is unreasonably priced, or is not needed to protect the interests of the County. In addition, the Director of Risk Management or designee is authorized, but not required, to change the above insurance requirements to require additional types of insurance coverage or higher coverage limits, provided that any such change is reasonable in light of past claims against the County, inflation, or any other item reasonably related to the County's risk.

Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this contract. PERMITTEE agrees to execute any such amendment within thirty (30) days of receipt.

Any failure, actual or alleged, on the part of the County to monitor or enforce compliance with any of the insurance and indemnification requirements will not be deemed as a waiver of any rights on the part of the County

XIV. INSURANCE SPECIFICATIONS

PERMITTEE agrees to provide insurance set forth in accordance with the requirements herein. If PERMITTEE uses existing coverage to comply with these requirements and that coverage does not meet the specified requirements, PERMITTEE agrees to amend, supplement or endorse the existing coverage to do so. The type(s) of insurance required is determined by the scope of the contract services.

Without in anyway affecting the indemnity herein provided and in addition thereto, PERMITTEE shall secure and maintain throughout the contract term the following types of insurance with limits as show:

- A. Workers' Compensation/Employers Liability – A program of Workers' Compensation insurance or a state-approved, self-insurance program in an amount and form to meet all applicable requirements of the Labor Code of the State of California, including Employer's Liability with \$250,000 limits covering all persons including volunteers providing services on behalf of PERMITTEE and all risks to such persons under this contract.

If Contractor has no employees, it may certify or warrant to the County that it does not currently have any employees or individuals who are defined as "employees" under the Labor Code and the requirement for Workers' Compensation coverage will be waived by the County's Director of Risk Management.

With respect to Contractors that are non-profit corporations organized under California or Federal law, volunteers for such entities are required to be covered by Workers' Compensation insurance.

- B. Commercial/General Liability Insurance – PERMITTEE shall carry General Liability Insurance covering all operations performed by or on behalf of PERMITTEE providing coverage for bodily injury and property damage with a combined single limit of not less than one million dollars (**\$1,000,000**), **per occurrence**. The policy coverage shall include:

1. Premises operation and mobile equipment.
2. Products and completed operations.
3. Broad form property damage (including completed operations).
4. Explosion, collapse and underground hazards.
5. Personal injury.
6. Contractual liability.
7. **\$2,000,000 general aggregate** limit.

- C. Automobile Liability Insurance – Primary insurance coverage shall be written on ISO Business Auto coverage form for all owned, hired and non-owned automobiles or symbol 1 (any auto). The policy shall have a combined single limit of not less than one million dollars (\$1,000,000) for bodily injury and property damage, per occurrence.

If PERMITTEE is transporting one or more non-employee passengers, in performance of contract services, the automobile liability policy shall have a combined single limit of two million dollars (\$2,000,000) for bodily injury and property damage per occurrence.

If PERMITTEE owns no autos, a non-owned auto endorsement to the General Liability policy described above is acceptable.

- D. **Special Event Liability Insurance** – The County has a program to provide Special Event Liability Insurance to individuals and groups utilizing County facilities for activities not sponsored by the County, its Departments or Districts. This coverage provides one million (**\$1,000,000**) limits of liability for bodily injury and property damage and includes liquor liability coverage. It effectively transfers the liability from the County and its taxpayers to the agency/individual scheduling the activity or program. The coverage provides affordable rates to all non-County groups and individuals on a standard basis and still transfers the risk to an insurance company. Annual rates for ongoing activities are also available. **For additional information on this coverage contact local Parks office.**
- E. **Umbrella Liability Insurance** – An umbrella (over primary) or excess policy may be used to comply with limits or other primary coverage requirements. When used, the umbrella policy shall apply to bodily injury/property damage, personal injury/advertising injury and shall include a “dropdown” provision providing primary coverage for any liability not covered by the primary policy. The coverage shall also apply to automobile liability.

Electronic Dance Music Task Force Subcommittee Recommendations for Glen Helen Amphitheater August 22, 2017, January 25, 2023, July 18, 2024

On September 27, 2016 (Item No. 63), the Board of Supervisors approved the formation of an Electronic Dance Music (EDM) Task Force. The purpose of this group was to develop recommendations for enforceable health and safety measures and procedures required for EDM events and all other concerts held on San Bernardino County (County) property. Additionally, the EDM Task Force was to seek input from the community and to consider changes to future EDM events and all other concerts to address community concerns.

The EDM Task Force includes representatives from the following County organizations:

- County Administrative Office
- Office of Emergency Services, Chair
- Office of County Counsel
- Department of Public Health
- Arrowhead Regional Medical Center
- San Bernardino County Sheriff's Department
- San Bernardino County Fire Protection District
- Regional Parks Department
- Inland Counties Emergency Medical Agency

After holding a series of public meetings where feedback from community representatives was received, the following recommendations are being presented for review by the Board of Supervisors.

COUNTYWIDE RECOMMENDATIONS

The following recommendations are being suggested for implementation at electronic dance music and all other concert events held on County property.

Site Safety

1. Complete an Event Operation Plan which includes accessibility for individuals with disabilities, addressing safety, security, and threats.
2. Ensure that evacuation routes are accessible for individuals with mobility impairments and that there are clear plans for assisting those who need help evacuating.
3. Conduct frequent trash collection to remove the potential fuel. This will aid in the prevention of fires being started in the venue by concert attendees.
4. Consider the need for increased food and beverage vendors to minimize crowd densities and reduce the build-up of large accumulations of patrons.
5. Ensure all vendors comply with health, safety, and accessibility standards.
6. Evaluate the venue's perimeter fence line for safety, operational efficiency by law enforcement, and provide ingress/egress of fire and emergency medical services (EMS).
7. Increase video surveillance capabilities/close circuit monitoring in and around the venue to aid Incident Command with overall situational awareness and early warning of crowd densities for immediate resource deployments to prevent major incidents, where applicable.

8. Ensure adequate vehicle barriers are deployed to prevent vehicle access into patron areas.
9. Coordinate/anticipate crowd movements to avoid choke points, stagnation, and potential crush situations.

Emergency Communication

1. Initiate the EDM Task Force County Notification Plan (Attachment B) within a reasonable amount of time from emergency assessment of an incident.
2. The Festival Emergency Manager and/or Festival Risk and Safety Manager is responsible for incident notification to the Office of Emergency Services Duty Officer.
3. Confirm that fire and law enforcement have been notified within a reasonable amount of time from emergency assessment of an incident.

Medical Response

1. Support the development of an ICEMA special event/mass gathering medical policy, with annual reviews. This policy would apply to all events and would require a medical plan to be submitted to ICEMA for review and approval.
 - a. Require all medical personnel to comply with applicable local, State, or County laws and ordinances, including credentialing requirements.
 - b. Require the use of appropriately licensed personnel to function within their specific scope of practice.
 - c. Identify a liaison responsible for access and functional needs considerations in medical response planning to ensure appropriate care and communication for individuals with disabilities.
2. Identify a liaison from the venue for the purpose of providing information from the venue that will assist medical responders with gathering accurate patient information in order to continue treating a patient who is transitioning from the venue to medical responder care.
3. Require event organizers to consult with the local first responder departments, such as County Fire, County Sheriff's, County Risk Management, County Public Health Department, County Public Works, ICEMA, OES, in the planning phase to ensure information sharing before the event.
4. Base any plan on predictive crowd attendance, size, and other considerations such as the history of substance use, legal or illegal, at previous or similar events.
5. Require an independent physician on-site to observe the medical care provided above the EMT and/or paramedic level of care.
6. Require emergency medical service personnel to comply with existing statutes and regulations concerning record-keeping and/or reporting during EDM events and all other concerts.
7. Require full reporting to ICEMA on the number and types of patients encountered and patient care reports that occurred during an event.

Traffic

1. Develop/revise traffic management plans that are dependent on-site limitations, the size of the event and surrounding community, and the appropriate location and m a i n t e n a n c e

of emergency traffic lanes to be reviewed and approved by all relevant agencies at least 30 days prior to the event. The traffic management plans must include considerations for accessible transportation and parking for individuals with disabilities

2. Ensure traffic management plans are coordinated with and approved by the following agencies at least 30 days before the event:
 - a. San Bernardino County Public Works - Traffic and Permit Management Divisions - A traffic control permit will be required.
 - b. California Highway Patrol (CHP) Offices in the appropriate local jurisdiction
 - c. San Bernardino County Sheriff

- d. San Bernardino County Fire
- e. Office of Emergency Services
- f. Local jurisdiction, if impacted

Public Education

1. Review and disseminate venue educational messages/messaging at least 14 days before the event through social media, email, and venue postings, and provide recommendations on content and distribution/posting of messages to concert attendees and the public by the most appropriate entity, with a focus on the following:
 - a. Importance of hearing protection
 - b. Importance of staying hydrated
 - c. Health effects of drug use
 - d. Weather safety
2. Dissemination of public information in accessible formats by the venue and/or promoter to local residents on specific event impacts prior to and during the event, including appropriate contact information, and specific directions for on-foot and vehicle travel and parking, etc.
3. Make hotline information for reporting purposes available to local residents and event attendees.

GLEN HELEN AMPHITHEATER RECOMMENDATIONS

The following recommendations are being suggested for implementation at EDM and all other concert events held at the Glen Helen Amphitheater in Devore.

Glen Helen Amphitheater-Related

1. Plan and manage events using the Incident Command System (ICS) and the National Incident Management System (NIMS) Model based on the pre-established size and scope of events, with mandatory relevant ICS and NIMS training for all relevant personnel at least once a year.
2. Determine the threat assessment of each event and develop an Event Action Plan (EAP) as part of the Event Operational Plan to address safety, medical, and health issues to include a reference to FEMA planning for large-scale concerts/special events.
3. Complete a pre-event coordination meeting and an after-action report following each event, with participation from all parties involved, including the agency responsible for the venue, all required health and safety personnel, and relevant stakeholders from the County.
4. Consider the use of automated identification systems at all entrances to the event for concerts with specific age restrictions, in which the venue is responsible for enforcing strict identification and age checks for all attendees.
5. Limit capacity to approved space requirements determined by the jurisdictional fire agency and defined for each venue as part of the Event Operation Plan.
 - a. Determine occupant loads for stadium/arena areas and open areas.
 - b. Keep all emergency routes clear for emergency services.
 - c.
6. Require an event conclusion period:
 - a. Conclude music sets/performance at an established time.
 - b. Cease alcohol sales at least 30 minutes before the scheduled conclusion of the last music set/performance (excluding cool down time).
7. Require appropriate stage protection and security (e.g., concert barricade, standard security compound) as determined by public safety and security personnel.
8. Require appropriate perimeter fencing (to prevent fence jumpers and gate crashers and for the safety of attendees) as determined by public safety personnel.
9. Require appropriate interior fencing (e.g., to separate General Admission, seating, and VIP areas) as determined by public safety and security personnel.
10. Appropriate dispositions will be applied to any and all fence jumpers or gate crashers.
11. Ensure access to safe transportation (e.g. taxicab or ride-share service or parental pick-up) for

attendees leaving the venue, and include staging for ride-share and taxi services.

12. Contingency plans will be in place for all large-scale events that will potentially place strains on existing public safety agencies. These plans outline an emergency response by all parties who may respond to an emergency situation during an event. This can range from cancellation of an event due to weather conditions, identifying heavy equipment that could be required in a catastrophe, to requiring a grid-type venue plan that identifies vendor locations or booths with numbers.

County Code / Legal Authority

1. Prohibiting alcohol in the parking lot at special events would be advisable. This would require amending the current County Code.
2. Require the event promoter print on the ticket that alcohol is not allowed in the parking lot and violators risk not gaining access to the venue if violated.
3. Consider alternative enforcement options regarding the enforcement of any parking lot alcohol ban, particularly due to the impact of AB 953 (requiring local law enforcement agencies to report data on all stops conducted by officers, including time, date, location of the stop, reason for the stop, result of the stop, and perceived race or ethnicity, gender, and approximate age of the person stopped) and reporting requirements for the Sheriff to report all contacts with the public.

Policy Considerations

1. Develop a policy to establish a minimum age threshold of 18 years old at EDM events held on County property.
2. Develop a concert end time at EDM events and concerts held on County property.
 - a. On June 9, 2017, a document was provided to the Task Force titled "Devore Community Requirements". The first item on the list is a request to end all events at 11 p.m. The full list is available upon request.
