COUNTY AND CHIEF EXECUTIVE OFFICER GOALS & OBJECTIVES

Improve County Government Operations.

Operate in a Fiscally-Responsible and Business-Like Manner.

FINANCIAL IMPACT

Approval of this item will not result in the use of Discretionary General Funding (Net County Cost). The fully depreciated equipment value is estimated at \$340,000 based on proceeds from recent auctions of similar fixed assets. The funds raised by the sale of the above-described fixed assets will be returned to the District's Equipment Fund – 1970004140 to assist in the purchase of future equipment as needed.

BACKGROUND INFORMATION

The District owns and operates a number of vehicles and heavy equipment pursuant to its mission of maintaining District facilities. District staff has determined that it is no longer economically beneficial to the District to continue to maintain and/or repair the surplus assets identified in this item.

Disposing of these surplus assets aligns with the County and Chief Executive Officers goals and objectives to improve County government operations and to operate in a fiscally-responsible and business-like manner. The listed equipment will be assessed per the new standard practices and allocated according to vendors based on operational efficiencies, financial considerations, business development, or any other factors determined to be in the County's best interest.

The equipment has been replaced by newer units, which produce fewer emissions in accordance with mandates from the California Air Resources Board. Selling the older units will help the District achieve the required fleet percentage for vehicle emissions. Heavy equipment that does not meet air quality standards must be sold out of state.

PROCUREMENT

Not applicable.
