COUNTY AND CHIEF EXECUTIVE OFFICER GOALS & OBJECTIVES

Improve County Government Operations.

Operate in a Fiscally-Responsible and Business-Like Manner.

FINANCIAL IMPACT

Approval of this item will not result in the use of Discretionary General Funding (Net County Cost). The fully depreciated equipment values are estimated at \$255,000, collectively, based on proceeds from recent auctions of similar fixed assets. The funds raised by the sale of the fixed

assets identified in Recommendation No. 1 will be used to pay any applicable auction fees. Any remaining funds will be returned to the Department of Public Works (Department) Transportation Equipment Fund (6650002008) to assist in the purchase of future equipment as needed.

BACKGROUND INFORMATION

The Department owns and operates a number of vehicles and heavy equipment pursuant to its mission of maintaining County roads. Department staff has determined that it is no longer economically beneficial to the Department to continue to maintain and/or repair the surplus assets identified in this item.

Disposing of these surplus assets aligns with the County and the Chief Executive Officer's goals and objectives to improve County government operations and operate in a fiscally responsible and business-like manner.

The equipment has been replaced with newer units, which produce fewer emissions in accordance with mandates from the California Air Resources Board. Selling the older units is necessary to continue compliance with the South Coast Air Quality Management District requirements. Heavy equipment that does not meet air quality standards must be sold out of state. Once approved for surplus, the equipment will be sent to the County's contracted auction vendors for disposition, coordinated through the Purchasing Department, Surplus Property Division, in accordance with County Policy No. 12-18 SP1.

PROCUREMENT

Not applicable.
