RE: Oct. 21 - PC hearing - Commercial Cannabis Activity.

From: Chuck Bell – Pres. - Lucerne Valley Economic Development Association –
760 964 3118 – chuckb@sisp.net

It's absolutely critical for all our communities that the Planning Commission adopt staff's recommendation. It will greatly enhance the County's effort to deal with the devastating impacts of illegal marijuana cultivation.

It's important that ALL structures and facilities – including trailers/RV's/etc. be included for abatement. After berms are graded out level – a water truck should spray the ground to enhance soil stabilization to help prevent blow-off.

Thanks,

Chuck Bell

I am in TOTAL agreement with Chuck. And thank you County staff who are taking this fight as seriously as you are. This is a life and death battle out here in Lucerne Valley and neighboring desert communities! Bill Lembright
