Briefly describe the general nature of the contract:

The District as the Principal Permittee under the current Municipal NPDES Stormwater Permit on behalf of itself, the sixteen cities and the County of San Bernardino participates in the Middle Santa Ana River (MSAR) Total Maximum Daily Load (TMDL) Task Force. The purpose of the MSAR TMDL Task Force is to identify activities that targets sources of bacteria by either eliminating the source of bacteria or preventing it from entering the Santa Ana River. Extending the existing Agreement for five years will allow the District to continue acting on behalf of the Program by providing funding to the Task Force on an annual basis for the continuing implementation of the MSAR Bacteria TMDL tasks. This is to provide continued funding to the Task Force to implement the requirements of the TMDL for bacterial indicators in the MSAR and allocate funds required for the compensation of the Santa Ana Watershed Project Authority as administrator to perform the tasks required by the Agreement shareholders.
